Schedule H, Part VI, Line 1		<p>nics, Inc is a part of a larger organization, Essentia Health. Essentia Health and its member organizations incorporate the full value of the Medicare shortfall as a community benefit. The rationale for the organization's opinion is similar to the rationale used by the American Hospital Association. Providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard. Medicare, like Medicaid, does not pay the full cost of care and it is likely to get worse. Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare. Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor. These underpayments represent a real cost of serving the community. Part III, line 8 Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year. The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services. If the interim payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year. This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals. An estimate for these settlements is recorded at the close of the fiscal year. If the estimate varies from the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue. Part III, line 9b At any stage of the patient experience, including collections, a determination may be made that the patient qualifies for Financial Assistance. All collection efforts must be suspended while a patient's Financial Assistance application is being considered and until the patient is notified regarding the determination of eligibility. Once eligibility (or lack of eligibility) is determined, amounts still owed by patients will be collected in the same manner as all other patient bills.</p>

Part VI, line 2		Needs assessment. Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B. Clearwater Valley Hospital and Clinics, Inc. is overseen by a volunteer board of directors consisting of representatives of its service area. These directors bring community health needs to the table. In addition, service usage patterns are monitored by administrators, doctors are consulted for needed care improvements in monthly medical staff meetings, and an organization-wide quality council monitors quality improvement data regularly. Clearwater Valley Hospital and Clinics, Inc. is interpolating results obtained from a formal assessment performed in adjoining Idaho County.

Part VI, line 3		<p>Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's Financial Assistance policy. The booklet, Financial Information for our Patients and other printed materials on Charity Care, is made widely available to the public in the admitting, billing and patient/family reception areas. Reference to the program is also contained in the hospital admissions packet. The Financial Counselor visits uninsured or underinsured patients or their family during their stay, whenever possible, to discuss financial arrangements. Charity Care applications, Medicaid applications, and County forms are distributed at that time. Follow up calls are made after discharge to finalize arrangements. This information is provided to anyone requesting it, whether they request it in person, by mail, or by phone. Signs indicating the availability of charity care are posted in the ER area, the inpatient family waiting room, business office and admitting area. The signs provide a phone number and contact information. All staff with public and patient contact, including but not restricted to billing and emergency staff will refer patients to the Financial Counselor for detailed explanations of the Charity Care program and to acquire forms. The Financial Counselor can then do the appropriate follow up. Based on the information gathered by the Financial Arrangement worksheet, the Financial Counselor will determine whether the account should be directed to a bank loan, Medicaid, County Social Services, or Charity Care. The patient will then complete the Determination Form and forward to the Business Office Manager for approval.</p>

Part VI, line 5		<p>Provide any other information important to describing how the organization's hospitals or other health care facilities further its exempt purpose by promoting the health of the community</p> <p>Clearwater Valley Hospital and Clinics, Inc's board of directors is composed of volunteer representatives from the communities it serves. In addition, the hospital serves as a clinical practice site for many students in x-ray technology, nursing, physician assistant, nurse practitioner, and medical residency programs. This is especially important because Idaho has one of the lowest physician per capita rates in the nation. Recently Clearwater Valley Hospital &amp; Clinics, Inc has expanded its use of telehealth services to improve patient care. These types of services are extremely important for expanding access to health care in rural America. It takes close to 12 hours to drive from the northern part of our state to the southern border. Add to that river canyons, mountains and treacherous roads and you'll have a better understanding of the challenge of commuting to receive health care specialty services. The closest large urban centers are either three or five hours away. Having specialists 'see' our patients and consult with our physicians using teleconferencing and our Remote Presence (RP-7) robots allows us to access cardiologists, hospitalists, adult and child psychiatrists, surgical specialists, ED specialists and soon, a dermatologist. In our rural area we don't have the patient base necessary to establish full time specialty care. However, we have the same types of illnesses and injuries that people have in larger cities. Using technology to bring those specialists to our area so people can receive their healthcare locally is vital to providing a fuller range of medical care to our patients.</p>

Identifier	ReturnReference	Explanation
Part VI, line 6		<p>Clearwater Valley Hospital &amp; Clinics, Inc is part of Essentia Health, an integrated health system of 14 hospitals, 64 clinics and several long-term care facilities in four states Minnesota, Wisconsin, North Dakota and Idaho. The health system serves a predominantly rural population whose median incomes generally fall below averages of the states where they live. The presence of our clinics and hospitals ensures that people with few economic resources don't have to drive an hour or more to receive basic (and in some cases life-saving) medical care. In addition to staffing hospitals and clinics in federally-recognized underserved areas, we support the health of our communities through an active outreach program that brings specialists like oncologists, cardiologists, neurologists and others into our smaller communities. This eliminates barriers to care for many patients, particularly those who are elderly, living on low incomes, or are faced with other challenges that make it difficult to travel long distances for care. Our size and integrated structure allow us to offer patients services often found only in larger urban settings. Services ranging from chemotherapy and cancer clinical trials to congestive heart failure management and hospice are available to patients in many of the rural communities we serve. Essentia Health also supports the health of our communities with active research and clinical trials, through the Essentia Institute of Rural Health. The Institute conducts clinical, translational and health services research with a primary focus on the needs of rural Americans. Essentia Health is also serving patients through implementation of the Epic electronic health record (EHR). By the end of FY 2011, the vast majority of Essentia's 14 hospitals and 64 clinics were using a fully-integrated EHR for patient care. A common electronic health record allows health professionals to share test results and consult with colleagues in real time across great distances. Medical information is no longer lost in the shuffle of paper records - an important consideration in a region where patients must often be transferred to a larger Essentia facility for complex surgeries or medical care. Essentia is also actively working with government agencies and insurers to develop innovative, cost-effective approaches to care that will improve health outcomes while reducing overall costs to patients and insurers. This innovation can be found in our use of remote home monitors for patients with congestive heart failure to a focus on using a team-based approach to helping patients manage chronic diseases. Essentia Health is committed to helping patients and their families lead active and fulfilling lives in the small and large communities where they live. We hope to become a model of health care delivery, particularly in rural areas, in the years to come.</p>

## Report of Independent Auditors

The Board of Directors  
Essentia Health

We have audited the accompanying consolidated balance sheets of Essentia Health as of June 30, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the management of Essentia Health. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Essentia Health's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Essentia Health's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Essentia Health at June 30, 2011 and 2010, and the consolidated results of its operations and changes in net assets and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

## Notes to Consolidated Financial Statements (*Dollars in Thousands*)

June 30, 2011

### **1. Organization**

Essentia Health, a Minnesota nonprofit corporation headquartered in Duluth, Minnesota (Essentia), is an integrated health system serving patients in Minnesota, Wisconsin, North Dakota, and Idaho.

Essentia is the parent company of the following tax-exempt entities:

- St Mary's Duluth Clinic Health System (operating as Essentia Health East (EH East)) in Duluth, Minnesota
- Brainerd Lakes Integrated Health System (operating as Essentia Health Central (EH Central)) in Brainerd, Minnesota
- Innovis Health LLC (operating as Essentia Health West (EH West)) in Fargo, North Dakota
- Critical Access Group (CAG), formerly known as Essentia Community Hospitals & Clinics (ECHC)
- Essentia Institute of Rural Health (EIRH)
- Essentia Health Insurance Services (EHIS), a Cayman-based captive insurance company

In 2011, many Essentia entities adopted an operating name as part of a system-wide rebranding strategy using the Essentia brand.

Essentia is a regional leader in the development and advancement of business, clinical, and financial models for the delivery of high-quality and cost-effective healthcare. Essentia provides integrated healthcare delivery through its physician group practices, ambulatory and out-patient centers, acute care hospitals (including tertiary referral centers), and community, rural, and critical access hospitals.

Essentia has been determined to qualify as a tax-exempt charitable, educational, and scientific organization under Section 501(c)(3) of the Internal Revenue Code (the Code) and also has been determined to be exempt from state income tax under Minnesota Statute 290.05, Subdivision 2.

#### 1. Organization (continued)

CAG is the sole corporate member of the following tax-exempt entities.

Operating Name	Location
Detroit Lakes Surgery Center	Detroit Lakes, Minnesota
ECHC Foundation	Duluth, Minnesota
Minnesota Valley Health Center	Le Sueur, Minnesota
Clearwater Valley Hospital and Clinics	Orofino, Idaho
St Mary's Hospital	Cottonwood, Idaho
St Benedict's Family Medical Center	Jerome, Idaho

In addition to their membership rights, Essentia and Benedictine Sisters Benevolent Association (BSBA), a sponsor of Essentia's Catholic hospitals, have retained various reserved powers over Essentia's hospitals

Essentia's investments in joint ventures and related organizations are accounted for under the equity method and recorded in investments and other non-current assets in the consolidated balance sheets and in other non-operating gains (losses) in the consolidated statements of operations and changes in net assets, as follows

	Investment June 30		Share of Income (Loss) Year Ended June 30

## Notes to Consolidated Financial Statements (continued) (*Dollars in Thousands*)

### **1. Organization (continued)**

In June 2010, Essentia entered into agreements to withdraw from two joint ventures and sell its membership interests. As a result, a non-operating loss of \$4,561 was recorded in other non-operating gains (losses) for the year ended June 30, 2010.

The following is a summary of the combined operating results and balance sheet information of the joint ventures and related organizations as of and for the years ended June 30.

	<b>2011</b>	<b>2010</b>
Total revenue	\$ 424,179	\$ 341,371
Excess of revenue and gains over expenses	46,509	22,372
Total assets	559,473	469,432
Net assets	233,602	171,276

### **2. Summary of Significant Accounting Policies**

#### **Basis of Presentation**

The consolidated financial statements represent the consolidated financial position, results of operations, and cash flows of Essentia. All significant interaffiliate accounts and transactions have been eliminated in consolidation.

#### **Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in these consolidated financial statements and accompanying notes. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Although estimates are considered to be fairly stated at the time that the estimates were made, actual results could differ from those estimates.

### **2. Summary of Significant Accounting Policies (continued)**

#### **Cash and Cash Equivalents**

Cash and cash equivalents include currency on hand, demand deposits with banks or other financial institutions, and short-term investments with maturities of 90 days or less from the date of purchase. Cash deposits are federally insured in limited amounts.

#### **Short-Term Investments**

Short-term investments are stated at fair value and include corporate bonds and notes with maturities of one year or less from the date of purchase, certificates of deposit, and mutual funds. Short-term investments are available to meet Essentia's operating cash requirements.

#### **Inventories**

Inventories, including drugs and supplies, are stated at the lower of cost (principally on the first-in, first-out basis) or market.

#### **Assets Whose Use Is Limited**

Assets whose use is limited are composed primarily of investments held for trading, which are stated at fair value, and include assets designated by the Board of Directors (over which the Board retains control and may, at its discretion, subsequently use for other purposes) for future capital improvements and retirement of debt, investments of EHIS, which was formed as a professional liability funding arrangement, assets held by trustees under indenture agreements for construction and debt service payments, and other assets, which consist of donor-restricted assets provided on behalf of certain members of Essentia.

Investment income earned on funds held by the bond trustee is reported as other operating revenue since the interest expense on the related bonds is reported as an operating expense. All other investment income (including realized gains and losses on investments, interest, dividends, declines in value determined to be other than temporary, and net change in unrealized gains and losses on trading securities) is reported as non-operating income, other than changes in unrealized gains and losses on other-than-trading securities that are determined to be temporary, which are reported as other changes in unrestricted net assets. Realized gains and losses are determined using the specific identification method.

## Essentia Health

### Notes to Consolidated Financial Statements (continued) (*Dollars in Thousands*)

#### **2. Summary of Significant Accounting Policies (continued)**

Essentia reviews its other-than-trading securities for impairment conditions, which could indicate that an other-than-temporary decline in market value has occurred. In conducting this review, numerous factors are considered, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold the securities until recovery.

The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other than temporary. The gross unrealized gains and losses from other-than-trading securities at June 30, 2011, were \$247 and \$11, respectively, and at June 30, 2010, were \$1,367 and \$13, respectively. Based on management's analysis, no other-than-temporary loss was recognized during the years ended June 30, 2011 and 2010.

Net unrealized gains (losses) on trading securities held at June 30, 2011 and 2010, were \$36,256 and (\$3,166), respectively.

#### **Derivative Financial Instruments**

Essentia uses interest rate, total return, constant maturity, fixed payer, basis, and fixed receiver swap instruments (see Note 9) as part of a risk management strategy to manage exposure to fluctuations in interest rates and to manage the overall cost of its debt. Derivatives are used to hedge identified and approved exposures and are not used for speculative purposes.

All derivatives are recognized as either assets or liabilities and are measured at fair value. Essentia uses pricing models for various types of derivative instruments that take into account the present value of estimated future cash flows. Gains and losses resulting from changes in the fair values of derivatives are reflected in the consolidated statements of operations and changes in net assets. Any differences between interest received and paid on derivatives are reported with the change in fair values of the derivative as non-operating gains or losses. None of the swaps has been designated as a hedge. Accordingly, all changes in the fair values of the swaps and the net difference between interest received and paid are reported as non-operating gains or losses.

## **2. Summary of Significant Accounting Policies (continued)**

### **Property and Equipment**

Property and equipment are stated at cost, if purchased or at fair market value on the date received, if donated, less accumulated depreciation and amortization. Depreciation is provided on a straight-line basis over estimated useful lives but not for a term in excess of the associated ground leases, if any.

Maintenance and repairs are charged to expense as incurred. Major improvements that extend the useful life of the related item are capitalized and depreciated. The cost and accumulated depreciation of property and equipment retired or disposed of are removed from the related accounts, and any residual value after considering proceeds is charged or credited to income.

### **Intangible Assets**

Identifiable intangible assets are amortized on a straight-line basis over a range of 15 to 40 years based on the expected useful lives.

Deferred financing costs, consisting primarily of underwriting fees and discounts, credit enhancement fees, and legal fees, are amortized using the interest method over the period that the obligation is outstanding.

### **Asset Impairment**

Essentia periodically evaluates whether events and circumstances have occurred that may affect the estimated useful life or recoverability of the net book value of property and equipment and the unamortized excess cost over net assets acquired. If such events or circumstances indicate that the carrying amounts may not be recoverable, an impairment loss is recorded based on an undiscounted cash flow analysis.

### **Insurance**

The provision for estimated self-insured general and professional liability claims includes estimates of the undiscounted ultimate costs for both reported claims and claims incurred but not reported (IBNR). Most of Essentia's members are self-insured for workers' compensation claims and discount their workers' compensation reserves.

## Notes to Consolidated Financial Statements (continued) (*Dollars in Thousands*)

### **2. Summary of Significant Accounting Policies (continued)**

#### **Costs of Borrowing**

Interest incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. For the years ended June 30, 2011 and 2010, capitalized interest totaled \$781 and \$319, respectively.

#### **Net Patient Revenue**

Essentia has agreements with third-party payors that provide reimbursement to Essentia at amounts different from established rates. Net patient revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. Contractual adjustments arising from various reimbursement arrangements with third-party payors are accrued on an estimated basis in the period in which the services are rendered. Differences between amounts originally recorded and finally settled are included in operations in the year in which the differences become known. Certain reimbursement arrangements are subject to retroactive audits and adjustments.

Essentia utilizes a process to identify and appeal settlements by Medicare and other payors. Additional reimbursement is recorded in the year the appeal is successful. During the years ended June 30, 2011 and 2010, additional revenue due to successful appeals and cost report settlements amounted to approximately \$7,600 and \$6,300, respectively.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. While management believes that Essentia is in material compliance with fraud and abuse laws and regulations as well as other applicable government laws and regulations, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Changes in reimbursement from the Medicare program, including reduction of funding levels, could have an adverse effect on Essentia.

The provision for uncollectible accounts is based upon management's ongoing assessment of historical and expected net collections considering historical business and economic conditions, trends in healthcare coverage, and other collection indicators. The results of this assessment are used to make modifications to the provision for uncollectible accounts, if necessary. Essentia follows established guidelines for placing certain past-due patient balances with collection agencies, subject to certain restrictions on collection efforts as determined by Essentia.

### **2. Summary of Significant Accounting Policies (continued)**

#### **Charity and Uncompensated Care**

Essentia provides healthcare services to patients who meet certain criteria under its charity care policies without charge or at amounts less than established rates. Since Essentia does not pursue collection of these amounts, they are not reported as revenue.

#### **Excess of Revenue and Gains Over Expenses and Losses**

The consolidated statements of operations and changes in net assets include excess of revenue and gains over expenses and losses. Changes in unrestricted net assets, which are excluded from excess of revenue and gains over expenses and losses, include unrealized gains and losses on other-than-trading securities that are determined to be temporary, contributions of long-lived assets, and pension and other postretirement liability adjustments.

#### **Donor-Restricted Gifts**

Unconditional promises to give cash and other assets to Essentia are reported at fair value at the date the promise is received. Conditional promises and indications of intentions to give are reported at fair value at the date the conditions are met.

Gifts are reported as temporarily restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as other operating income. Donor-restricted contributions whose restrictions are met within the same year as received are included in operating income in the accompanying consolidated financial statements. Temporarily restricted net assets are restricted for the purchase of property and equipment and for research and education. Permanently restricted net assets are held in perpetuity.

## **2. Summary of Significant Accounting Policies (continued)**

### **Deferred Taxes**

Essentia records a valuation allowance for deferred tax assets when it is more likely than not that some portion of the deferred tax assets will not be realized. The ultimate realization of these deferred tax assets depends on the ability of the taxable affiliates to generate sufficient taxable income in the future.

### **Reclassifications**

Certain prior year amounts in the consolidated financial statements have been reclassified to conform to the 2011 presentation. These reclassifications had no effect on the change in net assets or net assets as previously reported.

### **Adoption of New Accounting Standards**

Effective July 1, 2011, Essentia will adopt new accounting guidance regarding the presentation and disclosure of patient service revenue, the provision for bad debts, and the allowance for doubtful accounts. The guidance requires healthcare entities to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, enhanced disclosures will be required surrounding the entity's policies for recognizing revenue and assessing bad debts. Essentia is evaluating the new guidance and will make any additional required disclosures.

Effective July 1, 2011, Essentia will adopt new accounting guidance with respect to the disclosure of charity care. The guidance requires that cost be used as the measurement basis for charity care disclosure and that the disclosure include the direct and indirect cost of providing charity care. The guidance also requires disclosure of the method used to identify or determine such costs. Essentia is evaluating the new guidance and will make any additional required disclosures.

#### **2. Summary of Significant Accounting Policies (continued)**

Effective July 1, 2011, Essentia will adopt new guidance on accounting by healthcare entities for medical malpractice and similar liabilities and their related anticipated insurance recoveries. The guidance clarifies that a healthcare entity should not net insurance recoveries against a related claim liability. Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries. Essentia is currently evaluating the new guidance and will adopt the provisions, as required.

Effective July 1, 2010, Essentia adopted new accounting guidance that changed the accounting for mergers and acquisitions entered into by not-for-profit organizations. Under the guidance, more combinations are being accounted for under the acquisition method. The acquired organization's assets and liabilities are revalued to their fair values when recorded in the acquirer's financial statements. Additionally, goodwill and indefinite-lived assets are no longer amortized but are evaluated for potential impairment, as is the case with for-profit entities. The new guidance did not have a material effect on Essentia's consolidated financial statements.

Effective March 31, 2010, Essentia adopted new accounting guidance, which amended the disclosures regarding fair value measurements (see Note 6). The guidance requires disclosure of the amount of any significant transfers between Level 1 and Level 2 in the fair value hierarchy and the reasons for these transfers and the reason for any transfers in or out of Level 3. Effective July 1, 2011, Essentia also will be required to provide information within the reconciliation of recurring Level 3 measurements about purchases, sales, issuances, and settlements on a gross basis as well as clarification on previously required reporting requirements.

#### **3. Service to the Community**

In the furtherance of its charitable purpose, Essentia provides a wide variety of benefits to the communities it serves, including offering various community-based social service programs, such as free clinics, health screenings, in-home caregiver services, social service and support counseling for patients and families, pastoral care, crisis intervention, transportation to and from the healthcare campuses, and the donation of space for use by community groups.

## Essentia Health

### Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

#### **3. Service to the Community (continued)**

In addition, a large number of health-related educational programs are provided for the benefit of the community, including health enhancements and wellness, classes on specific medical conditions, unreimbursed costs of medical education, telephone information services, and costs related to programs designed to improve the general health status of the community.

Essentia also provides medical care without charge or at a reduced cost primarily through (a) services provided at no charge to the uninsured, (b) the difference between public program payments (primarily Medicaid and Medicare) and the related costs of providing such services, and (c) services provided to patients expressing a willingness to pay but who are determined to be unable to pay because of socioeconomic factors. The amount of charity care provided, based on internal cost data, was approximately \$12,900 and \$8,600 for the years ended June 30, 2011 and 2010, respectively.

#### **4. Net Patient Revenue**

Essentia derives patient revenue primarily from patients covered under the Medicare and Medicaid programs and agreements with commercial insurers and managed care organizations as well as from private-pay patients. The basis for payment under agreements with commercial insurers and managed care organizations includes prospectively determined rates, discounts from established charges, and allowable cost.

Essentia provides care to patients under the Medicare and Medicaid programs and contractual arrangements with other third-party payors. The Medicare and Medicaid programs pay for inpatient and most outpatient services at predetermined rates under a prospective payment system.

Essentia has contracted with Blue Cross and Blue Shield of Minnesota, Wisconsin, and North Dakota (collectively, BCBS) to provide patient care to its members and is reimbursed based on negotiated rates.

Essentia invests in certain alternative investments, principally hedge funds and funds of hedge funds. These investments are accounted for using the equity method. At June 30, 2011, Essentia's ownership percentage of the alternative investments ranged from 0.08% to 22.31%. Through these investments, Essentia may be indirectly involved in investment activities such as securities lending, short sales of securities, options, warrants, trading in futures and forward contracts, swap contracts, and other derivative products. Derivatives are used to maintain asset mix or adjust portfolio risk exposure. While these financial instruments may contain varying degrees of risk and have varying degrees of liquidity, mostly ranging from 60 days to 365 days, Essentia's risk is limited to its capital balance in each investment.

#### 5. Investments and Assets Whose Use Is Limited (continued)

Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated financial statements subsequent to year-end.

Investment return for the years ended June 30 consists of and was reported in the consolidated statements of operations and changes in net assets as follows

	<b>2011</b>	<b>2010</b>
Dividends and interest	\$ 9,990	\$ 8,535
Net realized gains	<b>23,754</b>	8,693

#### **6. Fair Value of Financial Instruments (continued)**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The disclosure framework consists of a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Essentia's valuation methodologies for assets and liabilities measured at fair value is as follows.

Fair value for Level 1 is based upon quoted market prices.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers.

Fair value for Level 3 is based on unobservable market data, primarily credit valuation adjustments (CVAs) for derivative financial instruments. The fair value is determined by an independent third party utilizing a discounted cash flow methodology for valuing derivative financial instruments. The valuations reflect a credit spread adjustment to the London Interbank Offered Rate (LIBOR) swap curve in order to reflect CVAs for non-performance risk. The credit spread adjustment is derived from other comparably rated entities' bonds priced in the market. As of June 30, 2011 and 2010, Essentia's fair value of swaps included a CVA of \$2,700 and \$6,575, respectively.

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, while Essentia believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

#### **6. Fair Value of Financial Instruments (continued)**

The following table is a rollforward of the balance sheet amounts for financial instruments classified by Essentia in Level 3 of the valuation hierarchy

	<u>Swap Assets and Liabilities, Net</u>
Fair value at July 1, 2009	\$ (15,837)
Realized and unrealized losses on swap agreements included in excess of revenue and gains over expenses and losses	(9,386)
Settlements	4,017
<u>Fair value at June 30, 2010</u>	<u>(21,206)</u>
Realized and unrealized gains on swap agreements included in excess of revenue and gains over expenses and losses	3,106
Settlements	5,017
<u>Fair value at June 30, 2011</u>	<u>\$ (13,083)</u>

Carrying amounts of cash and cash equivalents, patient accounts receivable, accounts payable, and payable to third-party payors approximate fair value due to the short-term nature of these instruments

Fair value of fixed rate long-term debt is based on quoted market prices for these issues or, where such prices are not available, the estimated present value of future cash flows, discounted at interest rates available at the reporting date to Essentia for new debt of similar type and remaining maturity. For all other debt obligations that bear interest at floating rates, cost is assumed to equal fair value because of the nature of these obligations. At June 30, 2011 and 2010, the fair value of Essentia's long-term debt (excluding the effect of third-party credit enhancements) is estimated to be approximately \$535,579 and \$536,928, respectively.

#### **7. Property and Equipment**

Property and equipment at June 30 are summarized as follows.

	<b>2011</b>	<b>2010</b>
Land and land improvements	\$ 33,147	\$ 31,794
Buildings and building improvements	653,987	629,584

Construction-in-progress	57,566	22,608
	<u>\$ 584,453</u>	\$ 543,612

In January 2009, Essentia incurred a financing obligation relating to a building completed and placed into service, resulting from agreements to lease a portion of a medical office building. Since the transaction did not qualify for sale-leaseback treatment, the building is treated as a financing transaction. The completed building cost of \$10,272 at June 30, 2011 and 2010, and the related other long-term liability of \$9,262 and \$9,670 at June 30, 2011 and 2010, respectively, are included in the accompanying consolidated balance sheets.

#### **8. Investments and Other Non-Current Assets**

Investments and other non-current assets at June 30 are summarized as follows.

	<b>2011</b>	<b>2010</b>
Notes receivable	\$ 6,133	\$ 7,622

Less current portion		<b>14,260</b>	13,054
		<b>\$ 517,160</b>	\$ 515,435

At June 30, 2011, Essentia's Obligated Group consisted of Essentia, CAG, EH East, Essentia Health St. Mary's Medical Center, Essentia Health Duluth, The Duluth Clinic, Ltd., Essentia Health Polinsky Medical Rehabilitation Center, Essentia Health St. Mary's Hospital-Superior, EH Central, Essentia Health St. Joseph's Medical Center, Essentia Health Brainerd Specialty Clinic, Essentia Health St. Mary's-Detroit Lakes, St. Mary's Innovis Health, and EH West

Certain indebtedness of members of the Obligated Group and related entities is secured by notes issued under the Amended and Restated Master Trust Indenture, dated as of April 1, 1999 (the Master Trust Indenture (MTI)), and related documents, which require Obligated Group members to be jointly and severally obligated for the debt service on all obligations issued thereunder

## Essentia Health

### Notes to Consolidated Financial Statements (continued) (*Dollars in Thousands*)

#### **9. Long-Term Debt (continued)**

All Obligated Group members have pledged certain unrestricted receivables and certain pass-through obligations for payment of long-term indebtedness issued under the MTI. No pass-through obligations were subject to the pledge as of June 30, 2011.

Most of the non-Obligated Group's debt is secured by certain assets of the entity that have borrowed the proceeds from the debt issue.

In March 2011, Essentia issued Revenue Bonds, Series 2011, in the amount of \$25,155. The bonds are subject to semi-annual interest-only payments until February 2015, at which time the outstanding principal balance becomes due.

In June 2010, Essentia issued Variable Rate Revenue Bonds, Series 2010, in the amount of \$109,535. The outstanding balances on the Series 1993 Bonds in the amount of \$32,270 and on the Series 2008C-3 and Series 2008C-4 Bonds in the total amount of \$55,900 were refinanced. The bonds are subject to a mandatory tender following an initial period, which ends in June 2014, at which time outstanding principal plus accrued interest becomes due.

In February 2010, Essentia restructured a portion of the outstanding Variable Rate Demand Revenue Bonds, Series 2008, which included converting \$234,195 of Series 2008A, Series 2008B, and Series 2008C-1 Variable Rate Demand Bonds to fixed rate bonds with annual interest rates ranging from 3.00% to 5.50%. Prior to the restructuring, the variable rate demand bonds were subject to tender at the option of the bondholders. Prior to February 2010, liquidity facilities were in place in the form of standby bond purchase agreements, which were terminated as a result of the restructuring to fixed rate debt.

As a result of the refinancing in June 2010 and the restructuring in February 2010, Essentia recorded a non-operating loss of \$2,472.

A portion of the proceeds of various bond issuances and funds available under prior bond indentures that are deemed to be legally defeased have been deposited into escrow accounts and invested in certain U.S. government obligations, the maturing principal of and interest paid on which will be sufficient to pay when due the principal of and interest on the refunded bonds.

#### **9. Long-Term Debt (continued)**

In June 2011, Essentia entered into a long-term master revolving line of credit with a bank under which it may borrow up to an aggregate of \$60,000. The annual interest rate is based on LIBOR plus an applicable margin (1.15% at June 30, 2011). The line of credit terminates in June 2014, at the option of the bank. The line of credit is secured by a note issued under the MTI and is an obligation of the Essentia Obligated Group. There was \$5,235 outstanding of June 30, 2011.

In June 2011, Essentia terminated its \$60,000 commercial paper program and letter of credit under which notes payable were issued to members of Essentia. As of June 30, 2011, there were no commercial paper notes outstanding. As of June 30, 2010, commercial paper notes outstanding totaled \$29,450, which were supported by a letter of credit of the same amount.

Essentia has a revolving line of credit with a bank under which it may borrow up to an aggregate of \$20,000. There were no outstanding borrowings at June 30, 2011 and 2010.

The aggregate annual maturities of long-term debt, excluding the commercial paper notes and line of credit, for each of the five years subsequent to June 30, 2011, are as follows:

2012	\$ 14,260
2013	16,906
2014	118,292
2015	37,066
2016	5,055

The MTI contains various covenants, including the requirement for Essentia Obligated Group to maintain certain financial ratios, limit the incurrence of significant additional indebtedness, and limit transfers to non-Obligated Group members.

#### **9. Long-Term Debt (continued)**

The proceeds of bonds, which were placed in various trust funds to be used in accordance with the applicable indenture provisions, are as follows at June 30

	<b>2011</b>	<b>2010</b>
Bond interest, principal, and construction funds	\$ 18,425	\$ 24,336
Debt service reserve funds	3,784	4,235

Total long-term portion	<u><u>\$ 3,754</u></u>	<u><u>\$ 3,911</u></u>

Essentia enters into interest rate, total return, constant maturity, fixed payer, basis, and fixed receiver swaps to manage its exposure to changes in interest rates. From time to time, Essentia may enter into collar options as part of its investment strategy to minimize exposure to risk within the equity markets. These collar options may have a margin requirement, which places restrictions on cash or investments.

The following is a summary of the outstanding positions under these interest rate, constant maturity, fixed payer, and basis swaps at June 30, 2011

<b>Instrument Type</b>	<b>Notional Amount</b>	<b>Maturity Date</b>	<b>Rate Paid</b>	<b>Rate Received</b>
Interest rate swaps	\$ 25,085	2020	3.69% to 3.82%	70% 1-month LIBOR
Constant maturity swap	\$ 50,000	2018	3-month LIBOR	87.94% 10-year ISDA swap rate
Fixed payer swaps	\$ 82,685	2017 to 2037	1.775% to 3.432%	68% of 1-month or 3-month LIBOR
Basis swaps	\$ 217,495	2030 to 2040	SIFMA	68% of 1-month or 3-month LIBOR plus 0.105% to 0.605%

Interest paid and received is based on swap rates, which are derived from the LIBOR, Securities Industry and Financial Markets Association (SIFMA), and International Swaps and Derivatives Association (ISDA).

In order to reduce the effective interest rate on the Series 2008 debt, Essentia Obligated Group has entered into a fixed payer swap, fixed receiver swap, and basis swap agreements. Essentia has entered into a constant maturity swap agreement to protect its short-term investments from a decline in short-term rates and to enhance non-operating gains. In order to reduce the effective interest rate on fixed rate debt (Reference Debt), Essentia Obligated Group has entered into interest rate swap and total return swap agreements. None of the swaps has been designated as a hedging instrument.

Under the terms of the total return swaps, either Essentia Obligated Group or the counterparty to the swap can terminate the swaps at any time, which would result in a termination payment based on the difference in the fair value of the Reference Debt and its face amount. Essentia Obligated Group terminated these swaps in 2010.

Certain of Essentia's derivative instruments contain provisions that require Essentia to post collateral when the net liability of the derivative instruments is greater than the predetermined threshold of \$10,000. No collateral was required at June 30, 2011 or 2010.

#### **9. Long-Term Debt (continued)**

Derivative transactions contain credit risk in the event the parties are unable to meet the terms of the contract, which is generally limited to the fair value due from counterparties on outstanding contracts. At June 30, 2011 and 2010, the counterparty with fair values due to Essentia had a Standard & Poor's credit quality rating of A.

#### **10. Income Taxes**

Deferred tax assets at June 30, 2011 and 2010, relate primarily to depreciation along with federal and state net operating loss (NOL) carryovers. As of June 30, 2011, Essentia had federal NOLs of \$4,269 and state NOLs of \$4,234, expiring in varying amounts through 2031. Due to the operating performance of Essentia's taxable subsidiaries, a valuation allowance has been established since it is more likely than not that the deferred tax assets will not be realized. There was no significant change in the net deferred tax assets for the year ended June 30, 2011.

Deferred tax assets consist of the following.

	<b>Year Ended June 30</b>	
	<b>2011</b>	<b>2010</b>
Deferred tax assets, gross	\$ 1,866	\$ 1,890
Valuation allowance	(1,866)	(1,890)
Deferred tax assets, net	\$ -	\$ -

The statute of limitations for tax years ending June 30, 2007 through June 30, 2011, remains open to examination by the major U.S. taxing jurisdictions to which Essentia is subject. In addition, for all tax years prior to June 30, 2007, generating a NOL, tax authorities have the right to adjust the amount of the NOL.

#### **11. Employee Benefit Plans**

Essentia sponsors two defined benefit retirement plans (Defined Benefit Plans), which cover certain groups of Essentia's employees. Although the Defined Benefit Plans are closed to new participants, certain plan participants continue to accrue benefits. Essentia also provides other postemployment benefits to certain eligible participants, including a partial subsidy for health insurance coverage.

A summary of the change in the benefit obligation, the change in plan assets and the resulting funded status, the amounts recognized in the consolidated balance sheets, and the components of net periodic benefit of the Defined Benefit Plans as of June 30 (measurement date) are as follows:

	<b>Year Ended June 30</b>	
	<b>2011</b>	<b>2010</b>
<b>Change in benefit obligation</b>		
Benefit obligation at beginning of year	\$ 180,471	\$ 156,900
Service cost	2,364	2,147
Interest cost	10,030	9,803
Actuarial (gain) loss	(1,533)	15,979
Benefits paid	(5,098)	(4,358)
Benefit obligation at end of year	<u>186,234</u>	<u>180,471</u>
<b>Change in plan assets</b>		
Fair value of plan assets at beginning of year	105,606	92,570
Actual return on plan assets	22,136	10,745
Contributions	7,247	7,149
Benefits paid	(5,098)	(3,572)
Assumed expenses paid	(500)	(1,286)
Fair value of plan assets at end of year	<u>129,391</u>	<u>105,606</u>
Net amount recognized (underfunded plan)	<u><u>\$ (56,843)</u></u>	<u><u>\$ (74,865)</u></u>

Accumulated benefit obligation was \$160,469 and \$171,312 at June 30, 2011 and 2010, respectively.

#### **11. Employee Benefit Plans (continued)**

Changes in plan assets and benefit obligations recognized in unrestricted net assets during the year ended June 30 consist of

	<b>2011</b>	<b>2010</b>
Current year actuarial (gain) loss	\$ (15,467)	\$ 12,447
Amortization of actuarial loss	(5,175)	(4,311)
<b>Total</b>	<b>\$ (20,642)</b>	<b>\$ 8,136</b>

Actuarial losses included in unrestricted net assets that have not been recognized in net periodic pension cost at June 30, 2011 and 2010 were \$47,078 and \$67,720, respectively. Actuarial losses expected to be recognized in net periodic pension cost during the year ending June 30, 2012, are \$2,889. Unrecognized actuarial losses are amortized on a straight-line basis.

Components of net periodic pension cost for the year ended June 30 are as follows.

	<b>2011</b>	<b>2010</b>
Service cost	\$ 2,864	\$ 2,647
Interest cost	10,030	9,803
Expected return on plan assets	(8,201)	(7,212)
Amortization of unrecognized net actuarial loss	5,175	4,311
<b>Benefit cost</b>	<b>\$ 9,868</b>	<b>\$ 9,549</b>

#### **Weighted average assumptions**

Discount rate at end of year (used to determine benefit obligation)	5 29% to 5 80%
Discount rate at beginning of year (used to determine net periodic benefit cost)	5 51% to 5 60%
Expected return on plan assets	7.75%
Rate of compensation increase	3 20% to 4 00%
Healthcare cost trend rate	9.25%

The overall weighted average return on plan assets is determined by applying management's judgment to the results of computer modeling, historical trends, and benchmarking data.

### 11. Employee Benefit Plans (continued)

The Investment Committee of the Defined Benefit Plans, which consists of at least two members of the Board of Directors and a minimum of four staff members, reviews annually and approves the investment policy and asset allocation targets. The Investment Committee activities are supported by an independent investment consulting firm. The investment policy covers responsibilities of the investment managers, investment objectives, asset allocation targets and ranges, asset guidelines, and manager review criteria. The Investment Committee reviews asset allocation quarterly to determine if the current structure is appropriate and whether any changes are necessary. All assets are invested with outside managers.

The current target allocation and the actual asset allocation as of June 30 are as follows.

	Asset Allocation		
	Target	2011	2010
Equity securities	30%–90%	<b>52%</b>	40%
Debt securities	0%–50%	<b>12</b>	16
Cash and cash equivalents	0%–55%	<b>6</b>	4
Other (primarily alternative investments)	0%–75%	<b>30</b>	40
Total		<b>100%</b>	100%

The fair value of the Defined Benefit Plans' pension plan assets was determined using the fair value hierarchy, as defined in Note 6, at June 30, 2011.

	Level 1	Level 2	Level 3	Total
<b>Assets</b>				
Cash and cash equivalents	\$ 7,998	\$ —	\$ —	\$ 7,998

#### **11. Employee Benefit Plans (continued)**

The fair value of the Defined Benefit Plans' pension plan assets was determined using the fair value hierarchy, as defined in Note 6, at June 30, 2010

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets</b>				
Cash and cash equivalents	\$ 3,924	\$ —	\$ —	\$ 3,924
Domestic equity securities	23,422	—	—	23,422
International equity securities	13,289	—	—	13,289
Equity mutual funds	5,969	—	—	5,969
Debt security mutual funds	8,723	—	—	8,723
Corporate debt securities	—	5,525	—	5,525
Alternative investments	—	—	41,826	41,826
Other	—	2,928	—	2,928
	<b>\$ 55,327</b>	<b>\$ 8,453</b>	<b>\$ 41,826</b>	<b>\$ 105,606</b>

Fair value methodologies for Level 1 and Level 2 investments are consistent with the inputs described in Note 6. Fair value for Level 3 alternative investments is based on the fair value of the underlying assets as estimated in an unquoted market, which approximates the equity method of accounting. Fair values of alternative investments are determined by the investment managers or general partners. Fair values may be based on estimates that require varying degrees of judgment. The fair value reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The financial statements of the investees are audited annually by independent auditors.

The following table is a rollforward of the pension plan assets classified within Level 3 of the valuation hierarchy defined above.

Fair value at July 1, 2009	\$ 30,119
Purchases, issuances, and settlements, net	8,469
Actual return on plan assets	3,238

#### **11. Employee Benefit Plans (continued)**

During 2012, Essentia expects to make pension contributions of \$7,299 to the Defined Benefit Plans

The following benefits, which reflect expected future service, are expected to be paid

2012	\$ 6,650
2013	6,894
2014	7,537
2015	8,677
2016	9,534
2017–2021	63,172

#### **Other Plans**

Under a collective bargaining agreement, Essentia contributes to a union-sponsored multiemployer retirement plan. Substantially all of Essentia's entities have individual defined contribution plans covering most of their employees. Contributions are based on a percentage of eligible employees' salaries. Total pension expense relating to the union-sponsored multiemployer retirement plan and defined contribution pension plans was \$44,280 and \$41,478 for the years ended June 30, 2011 and 2010, respectively.

#### **12. Insurance**

EHIS provides insurance coverage to most of Essentia's members (except the critical access hospitals) on a claims-made basis with limits of \$5,000 per claim and \$10,000 in the aggregate per policy year for professional liabilities and \$3,000 per claim and \$6,000 in the aggregate for each policy year for general liabilities. Premiums are based on claims experience.

Essentia's rural critical access hospitals are insured by a commercial insurance policy with limits of \$1,000 per claim and \$3,000 in the aggregate per policy year on a claims-made basis for both professional liability and general liability risks.

## Essentia Health

### Notes to Consolidated Financial Statements (continued) (*Dollars in Thousands*)

#### **12. Insurance (continued)**

Essentia has self funded the estimated value of professional and general liability claims, which amounted to \$20,447 and \$22,768 at June 30, 2011 and 2010, respectively, based on historical data, and includes IBNR claims

Essentia has purchased excess professional and general liability insurance from the commercial insurance market with limits of \$25,000 per claim and in the aggregate per policy year

Essentia is self insured for workers' compensation claims, employee healthcare claims, and unemployment compensation risks, with stop loss coverage above certain limits. Essentia is required to post security under its self insured workers' compensation program, which was \$12,189 and \$11,180 as of June 30, 2011 and 2010, respectively. Essentia has entered into a surety bond agreement to comply with this requirement

#### **13. Commitments and Contingencies**

During 2011 and 2010, Essentia entered into agreements to renovate a hospital and construct two medical office buildings and three clinics. The total cost of the projects is anticipated to be \$42,105, most of which will be debt financed. Construction-in-progress was approximately \$19,581 as of June 30, 2011

Essentia has leases for equipment and satellite office facilities, which are classified as operating leases. Rental expense under these operating leases totaled \$19,961 and \$17,774 for the years ended June 30, 2011 and 2010, respectively

Future minimum lease payments on operating leases in effect on June 30, 2011, for each of the five subsequent years and thereafter are as follows

2012	\$ 11,586
2013	9,893
2014	8,587
2015	6,543
2016	5,764

#### **13. Commitments and Contingencies (continued)**

In connection with a corporate reorganization of BSBA, assets and liabilities of certain facilities were transferred to Essentia in 1985. BSBA retains title to the land occupied by these facilities and has leased the land to the facilities through June 30, 2040. Minimum annual lease payments are \$32,605 over the remaining lease period, adjusted for inflation. Lease payments were \$786 and \$766 for the years ended June 30, 2011 and 2010, respectively.

Essentia or its Obligated Group has guaranteed amounts totaling \$8,505 and \$8,900 as of June 30, 2011 and 2010, respectively. No liability is recorded related to these guarantees.

Essentia is a defendant in legal proceedings arising in the ordinary course of business. Although the outcome of these proceedings cannot be determined, in the opinion of management, they will not have a material adverse effect on Essentia's financial position or its results of operations. However, there can be no assurance that this will be the case.

At June 30, 2011, approximately 38% of employees are represented by 35 collective bargaining agreements, of which 9 will expire within one year.

#### **14. Functional Expenses**

Essentia does not report expense information by functional classification because its resources and activities are directed primarily to providing healthcare services to residents in communities that it serves.

#### **15. Subsequent Events**

Essentia's management evaluated events and transactions occurring subsequent to June 30, 2011 through October 4, 2011, the date of issuance of the financial statements. During this period, there were no subsequent events requiring recognition or disclosure in the consolidated financial statements.
