## INDEPENDENT AUDITORS' REPORT

To the Board of Directors of  
Trinity Health  
Novi, Michigan

We have audited the accompanying consolidated balance sheets of Trinity Health and subsidiaries (the "Corporation") as of June 30, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Corporation adopted the presentation and disclosure provisions of Accounting Standards Update 2010-07, *Not-for-Profit Entities: Mergers and Acquisitions, including an amendment of FASB Statement No. 142*, and changed its method of accounting for noncontrolling interests in consolidated subsidiaries.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Corporation as of June 30, 2011 and 2010, and the results of its operations and changes in net assets, and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

# TRINITY HEALTH

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2011 AND 2010

### 1. ORGANIZATION AND MISSION

Trinity Health, an Indiana not-for-profit corporation, and its subsidiaries are collectively referred to as the Corporation. The Corporation is sponsored by Catholic Health Ministries (“CHM”), a Public Juridic Person of the Holy Roman Catholic Church. The Corporation operates a comprehensive integrated network of health services including inpatient and outpatient services, physician services, managed care coverage, home health care, long-term care, assisted living care and rehabilitation services located in eight states. The mission statement for Trinity Health is as follows:

*We serve together in Trinity Health, in the spirit of the Gospel, to heal body, mind and spirit,  
to improve the health of our communities and to steward the resources entrusted to us*

**Community Benefit Ministry** - Consistent with its mission, the Corporation provides medical care to all patients regardless of their ability to pay. In addition, the Corporation provides services intended to benefit the poor and underserved, including those persons who cannot afford health insurance or other payments such as copays and deductibles because of inadequate resources and/or are uninsured or underinsured, and to improve the health status of the communities in which it operates. The following summary has been prepared in accordance with the Catholic Health Association of the United States’ (“CHA”), *A Guide for Planning and Reporting Community Benefit*, 2008 Edition.

The following amounts below reflect the quantifiable costs of the Corporation’s community benefit ministry for the years ended June 30:

| <b>Community benefit ministry</b>                 | <b>\$ 452,545</b> | <b>\$ 440,768</b> |

The Corporation provides a significant amount of uncompensated care to its uninsured and underinsured patients, that is reported as bad debt at cost and not included in the amounts reported above. During the years ended June 30, 2011 and 2010, the Corporation reported bad debt at cost (determined using a cost to charge ratio applied to the provision for bad debts) of \$126.0 million and \$119.9 million, respectively.

***Ministry for the poor and underserved*** represents the financial commitment to seek out and serve those who need help the most, especially the poor, the uninsured and the indigent. This is done with the conviction that healthcare is a basic human right.

***Ministry for the broader community*** represents the cost of services provided for the general benefit of the communities in which the Corporation operates. Many programs are targeted toward populations that may be poor, but also include those areas that may need special health services and support. These programs are not intended to be financially self-supporting.

***Charity care at cost*** represents the cost of services provided to patients who cannot afford health care services due to inadequate resources and/or are uninsured or underinsured. A patient is classified as a charity patient in accordance with the Corporation's established policies as further described in Note 4. The cost of charity care is calculated using a cost to charge ratio methodology.

***Unpaid cost of Medicaid and other public programs*** represents the cost (determined using a cost to charge ratio) of providing services to beneficiaries of public programs, including state Medicaid and indigent care programs, in excess of governmental and managed care contract payments.

***Community health services*** are activities and services for which no patient bill exists. These services are not expected to be financially self-supporting, although some may be supported by outside grants or funding. Some examples include community health education, free immunization services, free or low cost prescription medications, and rural and urban outreach programs. The Corporation actively collaborates with community groups and agencies to assist those in need in providing such services.

***Health professions education*** includes the unreimbursed cost of training health professionals such as medical residents, nursing students, technicians and students in allied health professions.

***Subsidized health services*** are net costs for billed services that are subsidized by the Corporation. These include services offered despite a financial loss because they are needed in the community and either other providers are unwilling to provide the services or the services would otherwise not be available in sufficient amount. Examples of services include free-standing community clinics, hospice care, mobile units and behavioral health services.

***Research*** includes unreimbursed clinical and community health research and studies on health care delivery.

***Financial contributions*** are made by the Corporation on behalf of the poor and underserved to community agencies. These amounts include special system-wide funds used for charitable activities as well as resources contributed directly to programs, organizations, and foundations for efforts on behalf of the poor and underserved. Amounts included here also represent certain in-kind donations.

***Community building activities*** include the costs of programs that improve the physical environment, promote economic development, enhance other community support systems, develop leadership skills training, and build community coalitions.

***Community benefit operations*** include costs associated with dedicated staff, community health needs and/or assets assessments, and other costs associated with community benefit strategy and operations.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Principles of Consolidation** – The consolidated financial statements include the accounts of the Corporation, and all wholly owned, majority-owned and controlled organizations. Investments where the Corporation holds less than 20% of the ownership interest are accounted for using the cost method. All other investments, that are not controlled by the Corporation, are accounted for using the equity method of accounting. The Corporation has included its equity share of income or losses from investments in unconsolidated affiliates in other revenue in the consolidated statements of operations and changes in net assets. All material intercompany transactions and account balances have been eliminated in consolidation.

As further described in Notes 3 and 13, the Corporation transferred its shares of Battle Creek Health Systems (“BCHS”) to Bronson Healthcare Group, Inc. effective July 1, 2011. As a result, at June 30, 2011 and 2010, substantially all of the assets and liabilities of BCHS met the criteria for classifying those assets and liabilities as held for sale. The consolidated financial statements have been reclassified to present the operations of BCHS as a discontinued operation. The statements of cash flows include impacts of cash flows related to BCHS. Notes to these consolidated financial statements exclude the impact of BCHS.

**Use of Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Corporation to make assumptions, estimates and judgments that affect the amounts reported in the consolidated financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. The Corporation considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its consolidated financial statements, including the following: recognition of net patient service revenue, which includes contractual allowances; recorded values of investments and goodwill; provisions for bad debts; and reserves for losses and expenses related to health care professional and general liability; and risks and assumptions for measurement of pension and retiree medical liabilities. Management relies on historical experience and other assumptions believed to be reasonable in making its judgment and estimates. Actual results could differ materially from those estimates.

**Cash and Cash Equivalents** – For purposes of the consolidated statements of cash flows, cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less.

**Investments** – Investments, inclusive of assets limited or restricted as to use, include marketable debt and equity securities. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value and are classified as trading securities. Investments also include investments in commingled funds, investment funds developed specifically for the Corporation and other investments structured as limited liability corporations or partnerships. Commingled funds and investment funds that hold securities directly are stated at the fair value of the underlying securities, as determined by the administrator, based on readily determinable market values. Limited liability corporations and partnerships are accounted for under the equity method. Redemptions of certain limited liability corporations and partnerships may be made with written notice ranging from one month to one year.

**Investment Earnings** – Investment earnings include equity earnings, realized gains and losses on investments, holding gains and losses, and interest and dividends. Investment earnings on assets held by trustees under bond indenture agreements, assets designated by the Board for debt redemption, assets held for borrowings under the intercompany loan program, and assets deposited in trust funds by a captive insurance company for self-insurance purposes in accordance with industry practices are included in other revenue in the consolidated statements of operations and changes in net assets. Investment earnings from all other unrestricted investments and board designated funds are included in nonoperating investment income unless the income or loss is restricted by donor or law.

***Derivative Financial Instruments*** – The Corporation periodically utilizes various financial instruments (e.g., options and swaps) to hedge interest rate, equity downside risk and other exposures. The Corporation's policies prohibit trading in derivative financial instruments on a speculative basis.

***Securities Lending*** – The Corporation participates in securities lending transactions whereby a portion of its investments are loaned, through its agent, to various parties in return for cash and securities from the parties as collateral for the securities loaned. Each business day the Corporation, through its agent, and the borrower determine the market value of the collateral and the borrowed securities. If on any business day the market value of the collateral is less than the required value, additional collateral is obtained as appropriate. The amount of cash collateral received under securities lending is reported as an asset and a corresponding payable in the consolidated balance sheets and is up to 105% of the market value of securities loaned. At June 30, 2011 and 2010, the Corporation had securities loaned of \$153.4 million and \$155.3 million, respectively, and received collateral (cash and noncash) totaling \$157.5 million and \$159.8million, respectively, relating to the securities loaned. The fees received for these transactions are recorded in investment income (loss) - marketable securities on the consolidated statements of operations and changes in net assets.

***Assets Limited as to Use*** – Assets set aside by the Board for future capital improvements, future funding of retirement programs and insurance claims, retirement of debt, held for borrowings under the intercompany loan program, and other purposes over which the Board retains control and may at its discretion subsequently use for other purposes, assets held by trustees under bond indenture and certain other agreements, and self-insurance trust and benefit plan arrangements are included in assets limited as to use.

***Donor-Restricted Gifts*** – Unconditional promises to give cash and other assets to the Corporation's various ministry organizations are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the consolidated statements of operations and changes in net assets.

***Inventories*** – Inventories are stated at the lower of cost or market. The cost of inventories is determined principally by the weighted average cost method.

***Property and Equipment*** – Property and equipment, including internal-use software, are recorded at cost, if purchased, or at fair value at the date of donation, if donated. Depreciation is provided over the estimated useful life of each class of depreciable asset, is computed using either the straight-line or an accelerated method and includes capital lease and internal-use software amortization. The useful lives of these assets range from 3 to 50 years. Interest costs incurred during the period of construction of capital assets are capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from the excess of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support.

***Goodwill*** – Goodwill represents the future economic benefits arising from assets acquired in a business combination that are not individually identified and separately recognized

**Intangible Assets** – Intangible assets include both definite and indefinite-lived intangible assets. The majority of the definite-lived intangibles are non-compete agreements with finite lives amortized using the straight-line method over their estimated useful lives, which range from 2 to 8 years. Indefinite lived intangible assets include trade names and renewable licenses.

**Asset Impairment –**

**Property and Equipment** – Impairment testing is performed following a triggering event or whenever events or changes in circumstances indicate an asset’s carrying value may not be recoverable.

**Goodwill** – Goodwill is tested for impairment on an annual basis or when an event or when a change in circumstance indicates the value of a reporting unit may have changed. Testing is conducted at the reporting unit level. There is a two-step process for determining goodwill impairment. Step one compares the carrying value of each reporting unit with its fair value. If this test indicates the fair value is less than the carrying value, then step two is required. Step two compares the implied fair value of the reporting unit’s goodwill with the carrying value of reporting unit’s goodwill. The Corporation estimates the fair value of its reporting units using a discounted cash flow analysis.

**Intangible Assets:**

**Definite – Lived** – Impairment testing is performed if events or changes in circumstances indicate that the asset might be impaired.

**Indefinite – Lived** – Impairment testing is performed on an annual basis or more frequently if events or changes in circumstance indicate the asset may be impaired. The impairment test consists of a comparison of the fair value of an intangible asset with its carrying amount.

The following table provides information on changes in the carrying amount of goodwill, which is included in the accompanying consolidated financial statements of the Corporation as of June 30:

**Temporarily and Permanently Restricted Net Assets** – Temporarily restricted net assets are those whose use by the Corporation has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Corporation in perpetuity.

**Patient Accounts Receivable, Estimated Receivables from and Payables to Third-Party Payors and Net Patient Service Revenue** – The Corporation has agreements with third-party payors that provide for payments to the Corporation's ministry organizations at amounts different from established rates. Patient accounts receivable and net patient service revenue are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. Estimated retroactive adjustments under reimbursement agreements with third-party payors are included in net patient service revenue and estimated receivables from and payables to third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

**Allowance for Doubtful Accounts** – Substantially all of the Corporation's receivables are related to providing healthcare services to patients. Accounts receivable are reduced by an allowance for amounts that could become uncollectible in the future. The Corporation's estimate for its allowance for doubtful accounts is based upon management's assessment of historical and expected net collections by payor.

**Short-term Borrowings** – Puttable variable rate demand bonds supported by self liquidity or liquidity facilities considered short-term in nature are included in short-term borrowings.

***Premium and Capitation Revenue*** – The Corporation has certain ministry organizations that arrange for the delivery of health care services to enrollees through various contracts with providers and common provider entities. Enrollee contracts are negotiated on a yearly basis. Premiums are due monthly and are recognized as revenue during the period in which the Corporation is obligated to provide services to enrollees. Premiums received prior to the period of coverage are recorded as deferred revenue and included in accrued expenses in the consolidated balance sheet.

Certain of the Corporation's ministry organizations have entered into capitation arrangements whereby they accept the risk for the provision of certain health care services to health plan members. Under these agreements, the Corporation's ministry organizations are financially responsible for services provided to the health plan members by other institutional health care providers. Capitation revenue is recognized during the period for which the ministry organization is obligated to provide services to health plan enrollees under capitation contracts. Capitation receivables are included in other receivables in the consolidated balance sheet.

Reserves for incurred but not reported claims have been established to cover the unpaid costs of health care services covered under the premium and capitation arrangements. The premium and capitation arrangement reserves are classified with accrued expenses in the consolidated balance sheet. The liability is estimated based on actuarial studies, historical reporting, and payment trends. Subsequent actual claim experience will differ from the estimated liability due to variances in estimated and actual utilization of health care services, the amount of charges, and other factors. As settlements are made and estimates are revised, the differences are reflected in current operations. The Corporation limits a portion of its liability through stop-loss reinsurance.

***Income Taxes*** – The Corporation and substantially all of its subsidiaries have been recognized as tax-exempt pursuant to Section 501(a) of the Internal Revenue Code. The Corporation also has taxable subsidiaries, which are included in the consolidated financial statements. Certain of the taxable subsidiaries have entered into tax sharing agreements and file consolidated federal income tax returns with other corporate taxable subsidiaries. The Corporation includes penalties and interest, if any, with its provision for income taxes.

***Excess of Revenue Over Expenses*** – The consolidated statement of operations and changes in net assets includes excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses, consistent with industry practice, include the effective portion of the change in market value of derivatives that meet hedge accounting requirements, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets received or gifted (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), net change in postretirement plan related items, discontinued operations, extraordinary items and cumulative effects of changes in accounting principles.

***Adopted Accounting Pronouncements*** –

On July 1, 2010, the Corporation adopted Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") guidance for not-for-profit entities regarding mergers and acquisitions. This guidance defines a combination of one or more other not-for-profit entities, business or nonprofit activities as either a merger or acquisition. It also establishes principles and requirements in determining whether a not-for-profit entity combination is a merger or acquisition, applies the carryover method in accounting for mergers, applies the acquisition method in accounting for acquisitions, including which of the combining entities is the acquirer, and requires enhanced disclosures about the merger or acquisition. In addition, it amends existing FASB ASC guidance on goodwill and other intangible assets and noncontrolling interests in consolidated financial statements to make previous guidance that was only applicable to for-profit entities fully applicable to not-for-profit entities. The adoption of this guidance resulted in the presentation of noncontrolling interest in consolidated net assets in the amount of \$99.0 million and \$87.9 million as of June 30, 2011 and 2010, respectively, in the consolidated balance sheets, and the reclassification of \$81.5 million of noncontrolling interest to net assets as of July 1, 2009. Additionally, the Corporation ceased amortizing

goodwill beginning July 1, 2010 and performed a transitional impairment test on all capitalized goodwill. As a result of the impairment test, a \$7.9 million charge was recorded as the effect of a cumulative change in accounting principle in the consolidated statement of changes in net assets for the year ended June 30, 2011.

The incremental effects of applying the provisions on the individual lines of the consolidated financial statements as of and for the year ended June 30, 2010 are as follows:

On July 1, 2010, the Corporation adopted FASB's ASC guidance on fair value measurements. This standard requires new disclosures and amends existing disclosure requirements. It requires entities to disclose separately the amounts of significant transfers into and out of Level 1 and Level 2 fair value measurements along with the reasons for those transfers. In addition, it also requires entities to present separately information about purchases, sales, issuances, and settlements on a gross basis rather than as one net number in the reconciliation for fair value measurements using significant unobservable inputs (Level 3). The Level 3 fair value measurement disclosure is effective July 1, 2011 for the Corporation. Any additional disclosures required by this ASC guidance are included in Note 10.

#### ***Forthcoming Accounting Pronouncements –***

In August 2010, the FASB issued new ASC guidance, which provides clarification to companies in the healthcare industry on the accounting for professional liability insurance. This guidance states that receivables related to insurance recoveries should not be netted against the related claim liability and such claim liabilities should be determined without considering insurance recoveries. This guidance is effective for the Corporation beginning July 1, 2011. The adoption of this guidance will result in an asset and liability being recorded in the consolidated financial statements of approximately \$11.6 million in self-insurance, benefit plans and other assets and in self-insurance reserves.

In August 2010, the FASB issued new ASC guidance, which requires a company in the healthcare industry to use its direct and indirect costs of providing charity care as the measurement basis for charity care disclosures. This guidance also requires additional disclosures of the methods used to identify such costs. This guidance is effective for the Corporation beginning July 1, 2011. The adoption of this guidance will have no impact on the Corporation's consolidated statement of financial position and results of operations, but will result in additional disclosures to be presented in Note 1.

In December 2010, the FASB issued new ASC guidance that modifies the goodwill impairment test performed at the reporting unit level. This guidance is effective for the Corporation beginning July 1, 2011. In September 2011, the FASB issued ASC guidance which provides entities with the option of first assessing qualitative factors about the likelihood of goodwill impairment to determine whether further impairment assessment is necessary. The Corporation is still assessing the impact of this guidance on the consolidated financial statements.

In May 2011, the FASB issued new ASC guidance that amends the fair value disclosure requirements regarding transfers between Level 1 and Level 2 of the fair value hierarchy and also the categorization by level of the fair value hierarchy for items that are not measured at fair value in the financial statements but for which the fair value is required to be disclosed. This guidance is effective for the Corporation beginning July 1, 2012. The adoption of this guidance will have no impact on the Corporation's consolidated statement of financial position and results of operations, but may result in additional disclosures to be presented in Note 10.

In July 2011, the FASB issued new ASC guidance that requires certain health care entities to present the provision for bad debts related to patient service revenues as a deduction from revenue, net of contractual allowances and discounts, versus as an expense in the statement of operations. In addition, it also requires enhanced disclosures regarding revenue recognition policies and the assessment of bad debt. This guidance is effective for the Corporation beginning July 1, 2012, with early adoption permitted, and will be retrospectively applied. This statement will result in a reduction of net patient service revenue, operating revenue and operating expense but will have no impact on operating income in the statement of operations and changes in net assets.

### 3. CONSOLIDATED AFFILIATES, INVESTMENTS IN UNCONSOLIDATED AFFILIATES, BUSINESS ACQUISITIONS AND DIVESTITURES

**Consolidated Affiliates** – The Corporation consolidates certain affiliates even though ownership may be less than 51% based on control of these entities. The only significant consolidated affiliate with less than 51% ownership interest is Battle Creek Health System (“BCHS”). The Corporation owns 50% of the stock of BCHS. As described in Note 2, the consolidated financial statements as of June 30, 2011 and June 30, 2010 have been reclassified to present the operations of BCHS as a discontinued operation. The Corporation reported income from operations of BCHS, including a 50% provision for noncontrolling interest, in discontinued operations in the statements of operations and changes in net assets. As of June 30, 2011 and June 30, 2010 assets held for sale include \$185.4 million and \$177.1 million and liabilities held for sale of \$28.9 million and \$36.9 million, respectively, for BCHS prior to a 50% provision for noncontrolling interest. The majority of assets and liabilities held for sale consisted of:

**Investments in Unconsolidated Affiliates** – The Corporation and certain of its ministry organizations have investments in entities that are recorded under the cost and equity methods of accounting. At June 30, 2011, the Corporation maintained investments in unconsolidated affiliates with ownership interests ranging from 3.2% to 50%. The Corporation’s share of equity earnings from entities accounted for under the equity method was \$25.6 million and \$19.6 million for the years ended June 30, 2011 and 2010, respectively, which is included in other revenue in the consolidated statements of operations and changes in net assets.

The unaudited summarized financial position and results of operations for the entities accounted for under the equity method as of and for the periods ended June 30 are as follows:

**Business Acquisitions** – The Corporation entered into the following significant acquisition activities during 2011 and 2010:

**Integrated Health Associates (“IHA”)** – Effective December 20, 2010, the Corporation through its operating division Saint Joseph Mercy Health System (“SJMHS”) acquired IHA, a physician practice group with approximately 200 physicians and practitioners for \$60.5 million in cash, and recorded related goodwill of \$46.6 million. IHA has been consolidated in the 2011 financial statements. The Corporation is still assessing the economic characteristics of certain assets acquired and liabilities assumed. The Corporation expects to complete this assessment during the first quarter of fiscal year 2012 and may adjust the amounts recorded as of December 20, 2010 to reflect revised evaluations. Summarized balance sheet information for IHA at December 20, 2010, is shown below.

The operating results of IHA for the period between December 20, 2010 and June 30, 2011, included total unrestricted revenue of \$52.4 million, operating income of \$1.9 million and deficiency of revenue over expense of \$18.9 million. The deficiency of revenue over expenses includes a \$20.8 million charge for income taxes for conversion to non-profit status which is included in other nonoperating items.

**Michigan Heart, PC** – Effective December 31, 2010, the Corporation through its operating division SJMHS acquired the assets and liabilities of Michigan Heart, PC, a physician-owned specialty practice in cardiovascular medicine and research for \$11.7 million in cash; and recorded related goodwill of \$13.2 million. The assets and liabilities were merged into and employees were transferred to two operating divisions of the Corporation and have been consolidated in the 2011 financial statements. SJMHS purchased \$3.6 million of property and equipment and assumed current liabilities of \$4.5 million and other liabilities of \$0.6 million. The operating results of this acquisition were not material to the consolidated financial statements.

**Saint Alphonsus Regional Health System** – Effective April 1, 2010, a new regional health ministry was formed to serve the needs of residents who live in the area ranging from Idaho’s Treasure Valley to Eastern Oregon. The new system is comprised of the following three acquired ministry organizations Mercy Medical Center, Nampa, Idaho; Holy Rosary Medical Center, Ontario, Oregon; and St. Elizabeth Health Services, Inc., Baker City, Oregon and the Corporation’s existing Saint Alphonsus Regional Medical Center, Boise, Idaho. The fair value of assets acquired and liabilities assumed exceeded the \$113.7 million cost of acquisition, resulting in negative goodwill of \$77.3 million. The negative goodwill was allocated to reduce the fair value of property and equipment. The three acquired ministry organizations have been consolidated in the 2010 financial statements. Summarized combined balance sheet information for the three acquired ministry organizations at April 1, 2010 is shown below.

| Total assets acquired        | \$ 134.242 | Total liabilities and net assets acquired | \$ 20.528 |

The operating results of the acquired ministry organizations, for the year ended June 30, 2011, and for the three-month period ended June 30, 2010, included total unrestricted revenue of \$191.3 million and \$45.4 million and excess of revenue over expenses of \$13.0 million and \$2.8 million, respectively.

#### 4. NET PATIENT SERVICE REVENUE

A summary of the payment arrangements with major third-party payors follows:

*Medicare* - Acute inpatient and outpatient services rendered to Medicare program beneficiaries are paid primarily at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Certain items are reimbursed at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediaries.

*Medicaid* - Reimbursement for services rendered to Medicaid program beneficiaries includes prospectively determined rates per discharge, per diem payments, discounts from established charges, fee schedules, and cost reimbursement methodologies with certain limitations. Cost reimbursable items are reimbursed at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicaid fiscal intermediaries.

*Other* - Reimbursement for services to certain patients is received from commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for reimbursement includes prospectively determined rates per discharge, per diem payments, and discounts from established charges.

During 2011 and 2010, 38% and 39% of net patient service revenue was received under the Medicare program, 11% and 10% under state Medicaid and indigent care programs, respectively, and 51% from other payor contracts and patients during 2011 and 2010. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

**Charity Care** – The Corporation provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Corporation does not pursue collection of amounts determined to qualify for charity care, they are not reported as net patient service revenue in the consolidated statements of operations and changes in net assets.

A summary of net patient service revenue for the years ended June 30 is as follows:

|                                            | 2011           | 2010         |

| Property and equipment, net                    | \$ 3,374,103   | \$ 3,349,524 |

Buildings and improvements include assets recorded under capital leases of \$31.7 million as of June 30, 2011 and 2010 with accumulated amortization for such assets of \$9.3 million and \$7.6 million as of June 30, 2011 and 2010, respectively. Equipment includes assets recorded under capital leases of \$10.9 million and \$9.6 million with accumulated amortization for such assets of \$7.5 million and \$6.1 million as of June 30, 2011 and 2010, respectively. The associated charges to income are recorded in depreciation and amortization expense.

At June 30, 2011, commitments to purchase property and equipment of approximately \$41 million were outstanding. Significant commitments are primarily for facility expansion at existing campuses and related infrastructures at the following ministry organizations: Saint Joseph Mercy Health System in Ann Arbor, Michigan - \$14 million; Mercy Medical Center in Dubuque, Iowa - \$9 million; Saint Agnes Medical Center in Fresno, California - \$4 million; and Mount Carmel Health System in Columbus, Ohio - \$5 million. Costs of these projects are expected to be financed by proceeds from bond issuances, available funds, future operations of the hospitals and contributions.

***Obligated Group and Other Requirements*** – The Corporation has debt outstanding under a Master Trust Indenture dated July 1, 1998, as amended and supplemented thereto, the Amended and Restated Master Indenture (“ARMI”). The ARMI permits the Corporation to issue obligations to finance certain activities. Obligations issued under the ARMI are general, direct obligations of the Corporation and any future members of the Trinity Health Obligated Group. Proceeds from the tax-exempt bonds and refunding bonds are to be used to finance the construction, acquisition and equipping of capital improvements. Since the implementation of the ARMI, the Corporation is the sole member of the Trinity Health Obligated Group. Certain ministry organizations of the Corporation constitute Designated Affiliates and the Corporation covenants to cause each Designated Affiliate to pay, loan or otherwise transfer to the Corporation such amounts necessary to pay the amounts due on all obligations issued under the ARMI. The Corporation, the Designated Affiliates and all other controlled affiliates are referred to as the Credit Group. The Corporation has granted a security interest in certain pledged property and has caused not less than 85% of the Designated Affiliates representing, when combined with the Corporation and any future members, not less than 85% of the consolidated net revenue of the Credit Group to grant to the Corporation security interests in certain pledged property in order to secure all obligations issued under the ARMI. The aggregate amount of obligations outstanding using the ARMI (other than obligations that have been advance refunded) were \$2,630 million and \$2,546 million at June 30, 2011 and 2010, respectively.

There are several conditions and covenants required by the ARMI with which the Corporation must comply, including covenants that require the Corporation to maintain a minimum debt service coverage and limitations on liens or security interests in property, except for certain permitted encumbrances, affecting the property of the Corporation or any Material Designated Affiliate (a Designated Affiliate whose total revenues for the most recent fiscal year exceed 5% of the total revenues of the Credit Group for the most recent fiscal year). Long-term debt outstanding as of June 30, 2011 and 2010, excluding amounts issued under the ARMI, is generally collateralized by certain property and equipment.

***Issuance and Defeasance of Debt*** – The Corporation advance refunded, through net defeasance, \$38.9 million of debt issued under the ARMI during June 2011. The trustees/escrow agents are solely responsible for the subsequent extinguishment of the bonds. These transactions resulted in a loss from extinguishment of debt of \$5.2 million, which has been included in non-operating items in the 2011 consolidated statement of operations and changes in net assets.

In October 2010, the Corporation issued \$330.0 million par value tax-exempt, fixed rate hospital revenue bonds and refunding bonds under the ARMI at a premium of \$11.3 million. The proceeds were used to finance, refinance and reimburse a portion of the costs of acquisition, construction, renovation and equipping of health facilities, and to pay related costs of issuance. Proceeds, together with assets released from bond trustees, were used to retire \$158.8 million of the Corporation’s then outstanding fixed rate hospital revenue bonds. These transactions resulted in a loss from extinguishment of debt of \$5.0 million, which has been included in non-operating items in the 2011 consolidated statement of operations and changes in net assets.

In November 2009, the Corporation issued \$347.5 million in tax-exempt, fixed rate hospital revenue bonds and variable rate revenue and refunding bonds (the “Series 2009 Bonds”) under the ARMI. The proceeds were used to finance, refinance and reimburse a portion of the costs of acquisition, construction, renovation and equipping of health facilities, and to pay related costs of issuance. Proceeds, together with assets released from bond trustees, were used to retire \$41 million of the Corporation’s then outstanding fixed rate hospital revenue bonds. These transactions resulted in a loss from extinguishment of debt of \$0.9 million, which has been included in non-operating items in the 2010 consolidated statement of operations and changes in net assets. Of the proceeds received, \$244.7 million were included in long-term debt with \$102.8 million included in short-term borrowings.

The outstanding balance of all bonds advance refunded through net defeasance and excluded from the consolidated balance sheets was \$202.9 million and \$172.9 million at June 30, 2011 and 2010, respectively. The Corporation advance refunded the bonds by depositing funds in trustee-held escrow accounts exclusively for the payment of principal and interest. The trustees/escrow agents are solely responsible for the subsequent extinguishment of the bonds. The trustee-held escrow accounts are invested in U.S. government securities.

**Commercial Paper** – The Corporation has entered into a commercial paper program authorized for borrowings up to \$400 million. Proceeds from this program are to be used to finance certain acquisitions and for general purposes of the Corporation. The notes are payable from the proceeds of subsequently issued notes and from other funds available to the Corporation, including funds derived from the liquidation of securities held by the Corporation in its investment portfolio. The interest rate charged on borrowings outstanding during 2011 ranged from 0.15% to 0.40% and ranged from 0.20% to 0.45% during 2010.

**Liquidity Facilities** – During 2010, the Corporation had credit agreements with groups of lenders that provided \$916 million under revolving credit agreements. In July 2010, the credit agreements were revised and the Corporation entered into new credit agreements (the “2010 Credit Agreements”) with Bank of America, N.A., which acts as an administrative agent for a group of lenders thereunder. The 2010 Credit Agreements establish a revolving credit facility for the Corporation, under which that group of lenders agrees to lend to the Corporation amounts that may fluctuate from time to time but, as of June 30, 2011, the amount was \$916 million. Amounts drawn under the 2010 Credit Agreements can only be used to support the Corporation’s obligation to pay the purchase price of bonds that are subject to tender and that have not been successfully remarketed, and the maturing principal of and interest on commercial paper notes. Of the \$916 million, \$256 million expires in July 2011, \$310 million expires in July 2012, \$275 million expires in July 2013 and \$75 million expires in July 2014. The Corporation intends to renew the credit agreements. See the subsequent events Note 13. There were no draws on these credit agreements during 2011 or 2010.

As of January 10, 2011, a standby letter of credit in the amount of \$104.1 million, which provides liquidity support for \$102.9 million of variable rate demand bonds that are classified as short-term borrowings in the consolidated balance sheets was renewed. This dedicated facility expires December 31, 2012. The 2010 Credit Agreements, along with the Corporation’s own self-liquidity, provided support for \$1,121 million of variable rate demand bonds that are classified as short-term borrowings in the consolidated balance sheet. There were no draws on these letters of credit during 2011 or 2010.

As of June 30, 2011 and 2010, certain liquidity facilities had expiration dates of less than one year from the balance sheet dates. Therefore, \$1,121 million and \$1,144 million of the variable rate demand bonds supported by these liquidity facilities and self-liquidity were classified as short-term borrowings at June 30, 2011 and 2010, respectively. Variable rate demand bonds have contractual maturity dates through 2035.

**Standby Letters of Credit** – The Corporation entered into various standby letters of credit totaling approximately \$18.3 million and \$22.3 million at June 30, 2011 and 2010, respectively. These standby letters of credit are renewed annually and are available to the Corporation as necessary under its insurance programs. There were no draws on these letters of credit during 2011 or 2010.

## **7. PROFESSIONAL AND GENERAL LIABILITY PROGRAMS**

The Corporation’s insurance company, Venzke Insurance Company, Ltd. (“Venzke”), a wholly owned subsidiary of Trinity Health, qualifies as a captive insurance company in the domicile where it operates and provides certain insurance coverage to the Corporation’s ministry organizations. The Corporation is self-insured for certain levels of general and professional liability, workers’ compensation, and certain other claims. The Corporation, through Venzke, has limited its liability by purchasing reinsurance and commercial coverage from unrelated third-party insurers.

For 2011 and 2010, the Corporation's self-insurance program covers \$20 million per occurrence for the first layers of professional liability, as well as \$250,000 for each occurrence within a \$1 million insured auto liability program. Additional layers of professional liability insurance are available with coverage provided through other insurance carriers and various reinsurance arrangements. The total amount available for these subsequent layers is \$100 million in aggregate. The Corporation also insures \$500,000 in property damage liability with commercial insurance providing coverage up to \$1 billion.

The liability for self-insurance reserves represents estimates of the ultimate net cost of all losses and loss adjustment expenses which are incurred but unpaid at the consolidated balance sheet date. The reserves are based on the loss and loss adjustment expense factors inherent in the Corporation's premium structure. Independent consulting actuaries determined these factors from estimates of the Corporation's expenses and available industry-wide data. The reserves include estimates of future trends in claim severity and frequency. Although considerable variability is inherent in such estimates, management believes that the liability for unpaid claims and related adjustment expenses is adequate based on the loss experience of the Corporation. The estimates are continually reviewed and adjusted as necessary. The amount of the changes to the estimated self-insurance reserves was determined based upon the annual, independent actuarial analyses.

Claims in excess of certain insurance coverage and the recorded self-insurance liability have been asserted against the Corporation by various claimants. The claims are in various stages of processing, and some may ultimately be brought to trial. There are known incidents occurring through June 30, 2011, that may result in the assertion of additional claims, and other claims may be asserted arising from services provided in the past. While it is possible that settlement of asserted claims and claims which may be asserted in the future could result in liabilities in excess of amounts for which the Corporation has provided, management, based upon the advice of Counsel, believes that the excess liability, if any, should not materially affect the consolidated financial position, operations or cash flows of the Corporation.

## **8. PENSION AND OTHER BENEFIT PLANS**

***Self-Insured Employee Health Benefits*** – The Corporation administers self-insured employee health benefit plans for employees. The majority of the Corporation's employees participate in the programs. The provisions of the plans permit employees and their dependents to elect to receive medical care at either the Corporation's ministry organizations or other health care providers. Gross patient service revenue has been reduced by an allowance for self-insured employee health benefits of \$143.7 million and \$137.1 million for 2011 and 2010, respectively, which represented revenue attributable to medical services provided by the Corporation to its employees and dependents in such years.

***Deferred Compensation*** – The Corporation has nonqualified deferred compensation plans at certain ministry organizations that permit eligible employees to defer a portion of their compensation. The deferred amounts are distributable in cash after retirement or termination of employment. At June 30, 2011 and 2010, the assets under these plans totaled \$52.7 million and \$37.9 million, and liabilities totaled \$54.9 million and \$44.3 million, respectively.

***Defined Contribution Benefits*** – The Corporation sponsors defined contribution pension plans covering substantially all of its employees. The plans include discretionary employer matching contributions of up to 3% of compensation. Employer and employee contributions are self-directed by plan participants in defined contribution plans. The Corporation suspended the majority of employer matching contributions during the year ended June 30, 2010. Contribution expense under the plans totaled \$62.2 million and \$3.2 million in 2011 and 2010, respectively.

***Noncontributory Defined Benefit Pension Plans (“Pension Plans”)*** – Substantially all of the Corporation’s employees participate in qualified, noncontributory defined benefit pension plans. Certain non-qualified, supplemental plan arrangements also provide retirement benefits to specified groups of participants. Because the Pension Plans have Church Plan status as defined in the Employee Retirement Income Security Act of 1974 (“ERISA”), funding in accordance with ERISA is not required. The Corporation’s adopted funding policy for qualified plans, which is reviewed annually, is to fund the current normal cost based on the accumulated benefit obligation at the plans’ December 31 year-end, and amortization of any under or over funding over a ten year period. The Corporation funded \$102.3 million and \$187.3 million in excess of the stated funding policy in 2011 and 2010, respectively.

***Plan Amendment*** – In September 2009, the Corporation amended substantially all of its defined benefit pension plans to modify the benefit formula from a final average pay formula to a cash balance formula effective July 1, 2010, and the plans’ liabilities and assets were remeasured as of September 30, 2009. Through June 30, 2010, benefits were based on years of service and employees’ highest five years of compensation. Benefits accrued through June 30, 2010 under the final average pay formula were frozen. Beginning July 1, 2010, participants accrue benefits based on the cash balance formula, which credits participants annually with percentage of eligible compensation based on age and years of service, as well as an interest credit based on a benchmark interest rate. A transition adjustment is provided to participants who were vested as of June 30, 2010, whose age and service met certain requirements at that date. The transition adjustment applies to the pension benefit earned through June 30, 2010 and increases compensation under the final average pay formula over a 5-year period. The effect of modifying the benefit formula and remeasuring the plan’s assets and liabilities resulted in a decrease of \$224.3 million in plan liabilities and a net decrease of \$22.0 million in 2010 net periodic pension cost.

***Plan Terminations*** – The Corporation acquired Hackley Health System (“Hackley”) on April 1, 2008, including its pension plans. Hackley maintained three defined benefit pension plans covering employees of three subsidiaries. Effective October 2008, Hackley approved the freeze of its three defined benefit pension plans as of December 31, 2008. Employees became participants of the Corporation’s defined benefit plan effective January 1, 2009, and the Corporation recorded an increase of \$8.8 million to plan liabilities. During December 2009, the Corporation settled its pension obligations to participants in the Hackley plans through lump sum payments and purchased annuities. The Corporation funded an additional \$79.9 million to the Hackley plans to fully settle the obligations, and recorded a settlement loss of \$49.0 million.

During the year ended June 30, 2010, the Corporation amended one of its non-qualified, supplemental plan arrangements to modify the plan design and provide benefits to participants in the form of a deferred compensation arrangement. The plan change resulted in a curtailment gain of \$1.9 million.

***Postretirement Health Care and Life Insurance Benefits (“Postretirement Plans”)*** – The Corporation sponsors both funded and unfunded, contributory plans to provide health care benefits to certain of its retirees. All of the Postretirement Plans are closed to new participants. The plans cover certain hourly and salaried employees who retire from certain ministry organizations. Medical benefits for these retirees are subject to deductibles and co-payment provisions. In June 2010, the Corporation approved an amendment to restructure the funded plans as Health Reimbursement Account arrangements for Medicare eligible participants effective January 1, 2011. The change resulted in a decrease in the plans’ liabilities of \$30.4 million at June 30, 2010.

The following table sets forth the changes in projected benefit obligations, accumulated postretirement obligations, changes in plan assets and funded status of the plans for both the Pension and Postretirement Plans for the years ended June 30, 2011 and 2010:

The Corporation uses an efficient frontier analysis approach in determining its asset allocation and long-term rate of return for plan assets. Efficient frontier analysis models the risk and return trade-offs among asset classes while taking into consideration the correlation among the asset classes. Historical market returns and risks are examined as part of this process, but risk-based adjustments are made to correspond with modern portfolio theory. Long-term historical correlations between asset classes are used, consistent with widely accepted capital markets principles. Current market factors such as inflation and interest rates are evaluated before long-term capital market assumptions are determined. The long-term rate of return is established using the efficient frontier analysis approach with proper consideration of asset class diversification and rebalancing. Peer data and historical returns are reviewed to check for reasonableness and appropriateness.

**Health Care Cost Trend Rates** – Assumed health care cost trend rates have a significant effect on the amounts reported for the postretirement plans. The postretirement benefit obligation includes assumed health care cost trend rates as follows:

|                                     | <b>2011</b> | <b>2010</b> |

The Corporation employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The investment portfolio contains a diversified blend of equity and fixed-income investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks, as well as growth, value, and small and large capitalizations. Other investments such as hedge funds, interest rate swaps, and private equity are used judiciously to enhance long-term returns while improving portfolio diversification. Derivatives may be used to gain market exposure in an efficient and timely manner; however, derivatives may not be used to leverage the portfolio beyond the market value of the underlying investments. Investment risk is measured and monitored on an ongoing basis through quarterly investment portfolio reviews, annual liability measurements, and periodic asset/liability studies. The combined target investment allocation at June 30, 2011 was U.S. and non-U.S. equity securities 20%; fixed income obligations 35%; hedge funds 20%; long/short equity 10%; private equity 5%; real assets 5%; and opportunistic fixed income 5%.

The following tables summarize the pension and postretirement plans' assets measured at fair value as of June 30, 2010 and 2011. See Note 10 for definitions of Levels 1, 2 and 3 of the fair value hierarchy.

Unfunded capital commitments related to Level 3 private equity investments totaled \$ 198.5 million and \$132.5 million as of June 30, 2011 and 2010, respectively.

There were no significant transfers to or from Levels 1 and 2 during the years ended June 30, 2011 or 2010.

See Note 10 for the Corporation's methods and assumptions to estimate the fair value of marketable securities and commingled funds.

**Derivatives** – The Pension plans are party to certain agreements, which are designed to manage exposures to equities and interest rate risks. These instruments are used for the purpose of hedging changes in the fair value of assets and actuarial present value of accumulated plan benefits that result from interest rate changes, or as an efficient substitute for traditional securities. The fair value of the derivatives is estimated utilizing the terms of the derivative instruments and publicly available market yield curves. The Pension plans' investment policies specifically prohibit the use of derivatives for speculative purposes.

**Hedge funds** – The plan invests in various hedge fund strategies. These funds utilize a “fund-of-funds” approach resulting in diversified multi-strategy, multi-manager investments. Underlying investments in these funds may include equities, fixed income securities, commodities, currencies, and derivatives. These funds are valued at net asset value, which is calculated using the most recent partnership financial statements.

**Private equity** – These assets include several private equity funds that invest primarily in the United States, Asia and Europe, both directly and on the secondary market pursuing distressed opportunities and natural resources, primarily energy. These funds are valued at net asset value, which is calculated using the most recent fund financial statements.

**Real estate partnerships** – These assets are reported at fair value based on either independent appraisals performed by the general partner during the year, or estimated using discounted cash flow and market analysis, supported by sales comparison information.

**Other** – Represents unsettled transactions, relating primarily to purchases and sales of plan assets, and accrued income. Due to the short maturity of these assets and liabilities, the fair value is equal to the carrying amounts.

Of the Level 3 pension plan assets held at June 30, 2011, the unrealized net gain as of June 30, 2011 was \$61.5 million. Of the Level 3 pension plan assets held at June 30, 2010, the unrealized net gain as of June 30, 2010 was \$69.9 million.

Transfers out of Level 3 into Level 2 were made in 2011 due to the availability of more accurate pricing data for a corporate debt security. At June 30, 2010, the fair value of this investment was estimated using unobservable inputs (i.e., extrapolated data, proprietary models, and indicative quotes) obtained from investment managers. At June 30, 2011, the fair value of this security was estimated using observable, market based bid evaluations obtained from Financial Times Interactive Data. The Corporation's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Corporation believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Expected Contributions** – The Corporation expects to contribute an additional \$118.0 million to its pension plans, and \$1.6 million to its postretirement plans in 2012 under the Corporation's stated funding policy. The Corporation may elect to make additional contributions.

**Expected Benefit Payments** – The Corporation expects to pay the following for pension benefits, that reflect expected future service as appropriate, and expected postretirement benefits, before deducting the Medicare Part D subsidy.

## 9. COMMITMENTS AND CONTINGENCIES

**Operating Leases** – The Corporation leases various land, equipment and facilities under operating leases. Total rental expense, which includes provisions for maintenance in some cases, was \$89.4 million in 2011 and 2010.

The following is a schedule of future minimum lease payments under operating leases as of June 30, 2011, that have initial or remaining lease terms in excess of one year:

|                       | <u>(In Thousands)</u> |

**Guarantees** – The Corporation entered into debt guarantees prior to December 31, 2002, that are excluded from the consolidated balance sheets. The guaranteed debt was used to finance equipment purchases and to finance or construct professional office buildings, including outpatient surgery centers, rehabilitation facilities, medical facilities and medical office buildings.

Multiple guarantees at the following levels existed at June 30, 2011:

## ***Litigation***

On September 21, 2007, in Boise, Idaho a jury awarded \$58.9 million in damages to MRI Associates, LLP, an Idaho limited partnership ("MRIA") against Saint Alphonsus Regional Medical Center and its subsidiary Saint Alphonsus Diversified Care, Inc. (collectively, "Saint Alphonsus"). The lawsuit involved Saint Alphonsus' withdrawal from the MRIA partnership. The jury award was remitted by the trial judge to \$36.3 million, which was offset by the award of \$4.6 million to Saint Alphonsus, which was the value of its partnership interest in MRIA. St. Alphonsus appealed to the Idaho Supreme Court, asserting, among other things, that the trial court decision that the withdrawal was "wrongful" as a matter of law was incorrect. In October 2009, the Idaho Supreme Court overturned the trial court decision concluding that the withdrawal was not wrongful as a matter of law and remanded the case for a new trial. The trial date is tentatively set for September 2011. The Corporation recorded management's estimation for litigation expense of \$20 million in the 2007 consolidated statement of operations and changes in net assets. As of June 30, 2011 and 2010, the liability is included in other long-term liabilities in the consolidated balance sheets in the event of an unfavorable resolution of this matter.

In June 2007, the Corporation was added to litigation pending in the United States District Court for the Eastern District of Michigan, alleging that certain hospitals in Southeastern Michigan conspired to suppress the wages of nurses over a period of five years. The plaintiffs brought the action on their own behalf and on behalf of all others similarly situated and seeking certification of the class. The complaint alleges that there was a direct agreement among the executives of defendant hospitals to suppress compensation and that they shared non-public compensation information which had an anticompetitive effect on wages. The complaint specifically references St. Mary Mercy Hospital in Livonia, Michigan and St. Joseph Mercy Oakland in Pontiac, Michigan. This case is one of five similar actions filed by the same group of plaintiffs' counsel, in different cities, raising similar claims and allegations of collusion. Three of the seven defendants have settled the litigation, but the Corporation has not. Discovery is complete and several dispositive motions have been pending since June 2009, including defendants' motion for summary judgment. Plaintiffs' motion to certify a class is also pending and has been opposed by defendants. If the outcome is adverse to the Corporation, the Corporation could potentially incur material damages or other financial consequences. At this time, it is premature to assess the likely course or outcome of this litigation.

The Corporation is involved in other litigation and regulatory investigations arising in the course of doing business. After consultation with legal Counsel, management estimates that these matters will be resolved without material adverse effect on the Corporation's future consolidated financial position or results of operations.

## **10. FAIR VALUE MEASUREMENTS**

The Corporation's consolidated financial statements reflect certain assets and liabilities recorded at fair value. Assets and liabilities measured at fair value on a recurring basis in the Corporation's consolidated balance sheets include cash, cash equivalents, marketable securities, investment funds, commingled funds, securities lending collateral, derivatives, and certain pension assets. Liabilities measured at fair value on a recurring basis for disclosure only include debt.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value should be based on assumptions that market participants would use, including a consideration of non-performance risk.

To determine fair value, the Corporation uses various valuation methodologies based on market inputs. For many instruments, pricing inputs are readily observable in the market; the valuation methodology is widely accepted by market participants and involves little to no judgment. For other instruments, pricing inputs are less observable in the marketplace. These inputs can be subjective in nature and involve uncertainties and matters of considerable judgment. The use of different assumptions, judgments and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The Corporation assesses the inputs used to measure fair value using a three level hierarchy based on the extent to which inputs used in measuring fair value are observable in the market. The fair value hierarchy is as follows:

Level 1 – Quoted (unadjusted) prices for identical instruments in active markets.

Level 2 – Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar instruments in active markets;
- Quoted prices for identical or similar instruments in non-active markets (few transactions, limited information, non-current prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the instrument (interest rates, yield curves, volatilities, default rates, etc.); and
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 – Unobservable inputs that cannot be corroborated by observable market data.

### ***Valuation Methodologies***

Exchange-traded securities whose fair value is derived using quoted prices in active markets are classified as Level 1. In instances where quoted market prices are not readily available, fair value is estimated using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The Corporation classifies these securities as Level 2 within the fair value hierarchy.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Corporation's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset.

Following is a description of the valuation methodologies the Corporation used for instruments recorded at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy:

***Cash and Cash Equivalents*** – The carrying amounts reported in the consolidated balance sheets approximate their fair value. Certain cash and cash equivalents are included in investments and assets limited or restricted as to use in the consolidated balance sheets.

***Security Lending Collateral*** – The fair value amounts of security lending collateral are based on quoted market prices, if available, or are estimated using quoted market prices for similar securities.

**Marketable Securities** – The fair value amounts of marketable securities, included in investments and assets limited or restricted as to use in the consolidated balance sheets, are based on quoted market prices, if available, or are estimated using quoted market prices for similar securities.

**Investment Funds** – The Corporation's portfolio includes funds developed by investment managers specifically for the Corporation's use. These funds are similar to mutual funds, but are not traded on a public exchange. Investment Funds are recorded at fair value as the underlying investments consist of securities that have a readily determinable market value.

**Commingled Funds** – The Corporation invests in various commingled funds that are included in investments and assets limited or restricted as to use in the consolidated balance sheets. These funds are developed for investment by institutional investors only and therefore do not require registration with the Securities and Exchange Commission. Commingled funds are recorded at fair value as the underlying investments consist of securities that have a readily determinable market value.

The Corporation classifies its marketable securities, investment funds and commingled funds as trading securities. Holding gains (losses) included in the excess of revenue over expenses for the years ending June 30, 2011 and 2010 were approximately \$155.2 million and \$177.5 million, respectively.

**Other Investments** – The Corporation accounts for certain other investments using the equity method. These investments are structured as limited liability corporations and partnerships and are designed to produce stable investment returns regardless of market activity. These investments utilize a diversified multi-strategy approach. Generally, redemptions may be made with written notice ranging from one month to one year. Underlying investments in these funds may include other funds, equities, fixed income securities, commodities, currencies and derivatives. Audited information is only available annually based on the limited liability corporations, partnerships or funds' year-end. Management's estimates of the fair values of these investments are based on information provided by the external investment administrators and fund managers or the general partners. Management obtains and considers the audited financial statements of these investments when evaluating the overall reasonableness of the recorded value. In addition to a review of external information provided, management's internal procedures include such things as review of returns against benchmarks and discussions with fund managers on performance, changes in personnel or process, along with evaluations of current market conditions for these investments. Investment managers meet with the Corporation's Investment Subcommittee of the Finance and Stewardship Committee of the Board of Directors on a periodic basis. Because of the inherent uncertainty of valuations, values may differ materially from the values that would have been used had a ready market existed. The balance of these investments at June 30, 2011 and 2010, was \$965.7 million and \$612.2 million, respectively.

Cash, cash equivalents, marketable securities, investment funds, commingled funds and other investments totaled \$4,831 million and \$4,375 million at June 30, 2011 and 2010, respectively.

**Derivatives** – The fair value of the Corporation's derivatives, which are mainly interest rate swaps, are estimated utilizing the terms of the swaps and publicly available market yield curves along with the Corporation's nonperformance risk as observed through the credit default swap market and bond market and based on prices for recent trades. These swap agreements are classified as Level 2 within the fair value hierarchy.

The following table presents information about the fair value of the Corporation's financial instruments measured at fair value on a recurring basis and recorded at June 30:

***Patient Accounts Receivable, Estimated Receivables from Third-Party Payors and Current Liabilities*** – The carrying amounts reported in the consolidated balance sheets approximate their fair value.

***Long-Term Debt*** – The carrying amounts of the Corporation's variable-rate debt approximate their fair values. The fair value of the Corporation's fixed-rate long-term debt is estimated using discounted cash flow analyses, based on current incremental borrowing rates for similar types of borrowing arrangements. The fair value of the fixed-rate long-term revenue and refunding bonds was \$1,576 million and \$1,474 million for 2011 and 2010, respectively. The related carrying value of the fixed-rate long-term revenue and refunding bonds was \$1,509 million and \$1,402 million for 2011 and 2010, respectively. The fair values of the remaining fixed-rate capital leases, notes payable to banks, and other debt are not materially different from their carrying values.

## 11. DERIVATIVE FINANCIAL INSTRUMENTS

***Derivative Financial Instruments*** – In the normal course of business, the Corporation is exposed to market risks, including the effect of changes in interest rates and equity market volatility. To manage these risks the Corporation enters into various derivative contracts, primarily interest rate swaps and investment collars. Interest rates swaps are used to manage the effect of interest rate fluctuations. Investment collars are used to manage the effects of equity market volatility.

Management reviews the Corporation's hedging program, derivative position, and overall risk management on a regular basis. The Corporation only enters into transactions it believes will be highly effective at offsetting the underlying risk.

***Interest Rate Swaps*** – The Corporation utilizes interest rate swaps to manage interest rate risk related to the Corporation's variable interest rate debt, variable rate leases and a fixed income investment portfolio. Cash payments on interest rate swaps totaled \$15.7 million and \$16.2 million in 2011 and 2010, respectively and are included in non-operating income.

Certain of the Corporation's interest rate swaps contain provisions that give certain counterparties the right to terminate the interest rate swap if a rating is downgraded below specified thresholds. If a ratings downgrade threshold is breached, the counterparties to the derivative instruments could demand immediate termination of the swaps. Such termination could result in a payment from the Corporation or a payment to the Corporation depending on the market value of the interest rate swap.

Certain of the Corporation's interest rate swaps are secured by \$30.6 million and \$32.5 million of collateral included in prepaid expenses and other current assets in the Corporation's consolidated balance sheets at June 30, 2011 and 2010, respectively.

**Investment Collars** – The Corporation engaged in a downside risk mitigation strategy employing an equity collar structure utilizing a combination of equity call and put options. This hedging strategy was based on investment portfolio exposure to long only equities and contained no leverage. This investment collar expired in July 2010.

**Effect of Derivative Instruments on Excess of Revenue over Expenses or Unrestricted Net Assets** - The following table represents the effect derivative instruments had on the Corporation's financial performance for the years ended June 30:

The counterparties to the interest rate swaps expose the Corporation to credit loss in the event of nonperformance. At June 30, 2011 and 2010 an adjustment for non-performance risk reduced derivative assets by \$2.6 million and \$0.9 million and derivatives liabilities by \$3.0 million and \$9.1 million, respectively.

## 12. ENDOWMENTS

The Corporation's endowments consist of funds established for a variety of purposes. Its endowments include both donor-restricted endowment funds and funds designated by the Board to function as endowments. Net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions. The Corporation considers various factors in making a determination to appropriate or accumulate donor-restricted endowment funds.

The Corporation employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of endowment funds for a prudent level of risk. The Corporation targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints. The Corporation can appropriate each year all available earnings in accordance with donor restrictions. The endowment corpus is to be maintained in perpetuity. Certain donor-restricted endowments require a portion of annual earnings to be maintained in perpetuity along with the corpus. Only amounts exceeding the amounts required to be maintained in perpetuity are expended.

Endowment net asset composition by type of fund at June 30 is as follows:

**Funds with Deficiencies** – Periodically the fair value of assets associated with the individual donor-restricted endowment funds may fall below the level that the donor requires the Corporation to retain as a fund of perpetual duration. Deficiencies of this nature are reported in unrestricted net assets. These deficiencies result from unfavorable market fluctuations and/or continued appropriation for certain programs that was deemed prudent by the Corporation.

### 13. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 23, 2011, the date the consolidated financial statements were issued. The following subsequent events were noted:

***Acquisition of Loyola University Health System (“LUHS”) –*** On July 1, 2011, the Corporation replaced Loyola University of Chicago (“University”) as the sole member of LUHS, an Illinois not-for-profit corporation. LUHS is the sole member of Loyola University Medical Center and Gottlieb Memorial Hospital, both Illinois not-for-profit corporations. LUHS is also the sole shareholder of Loyola University of Chicago Insurance Company, a Cayman Islands Corporation. The Corporation will coordinate with the University to support health science education and research. The entities seek to work collaboratively both within and outside the Chicago market to become one of the nation’s leading providers of Catholic health care, research and medical education.

The Corporation acquired LUHS for \$88.3 million in cash and accrued an additional \$75 million to be paid over future years. The Corporation recorded indefinite-lived intangible assets, primarily for a trade name, of \$36.1 million in the consolidated balance sheet at the acquisition date. Based on the purchase price allocation, the fair value of identifiable assets acquired and liabilities assumed exceeded the fair value of consideration paid and accrued. The Definitive Agreement stipulates a post closing reconciliation of the purchase price shall take place within 120 days of the closing date. Management anticipates this reconciliation will increase the purchase price and decrease the gain recorded in nonoperating items. Prior to the post closing adjustment to the purchase price, the Corporation will recognize a gain of approximately \$149 million in nonoperating items in the consolidated statement of operations and changes in net assets for the year ending June 30, 2012. The Corporation is still assessing the economic characteristics of certain assets acquired and liabilities assumed. The Corporation expects to substantially complete this assessment during the six months ended December 31, 2011 and may adjust the amounts recorded as of July 1, 2011 to reflect revised evaluations. Transaction costs accrued as of June 30, 2011 totaled \$6.0 million and were incurred primarily for legal and consulting services which are included in purchased services on the consolidated statement of operations and changes in net assets. Summarized consolidated balance sheet information for LUHS at July 1, 2011 is shown below.

As of August 8, 2011, all of LUHS’ debt was retired with the proceeds from the Corporation’s issuance of \$234 million of taxable commercial paper and cash on hand.

As part of the LUHS acquisition, certain executed agreements provide for ongoing financial support from the Corporation including:

- A Definitive Agreement which the Corporation has agreed that over the seven year period from July 1, 2011 to 2018, at least \$300 million will be expended on capital projects and, if certain operating thresholds are met, the amount may be increased to \$400 million
- An Academic Affiliation Agreement which has an initial term of ten years and provides for an annual academic support payment from the Corporation to the University of \$22.5 million in the first year, adjusted annually for inflation.
- A Shared Services Agreement between the University and LUHS who have agreed on a cost sharing agreement related to common employees and services.

The supplemental pro forma revenue, earnings and changes in net assets for LUHS and the Corporation combined for the years ended June 30, 2011 and 2010, are as follows:

|                                             | 2011         | 2010         |

| Total operating revenue                     | \$ 8,412,095 | \$ 7,845,373 |
| Excess of revenue over expenses             | 707,053      | 452,261      |
| Change in unrestricted net assets           | 990,170      | 291,617      |
| Change in temporarily restricted net assets | 3,273        | (10,710)     |
| Change in permanently restricted net assets | 2,834        | 2,565        |

***Sale of BCHS*** – Effective July 1, 2011, the Corporation transferred its shares of BCHS to Bronson Healthcare Group, Inc. for \$76.4 million. As a result of the transfer, an estimated loss on disposal of approximately \$28.4 million was recognized which includes a pension curtailment gain of \$5.8 million and settlement loss of \$24.7 million. As of June 30, 2011, \$1.7 million of disposition costs consisted of legal and other divestiture costs.

***Renewal of Credit Agreements*** – In July 2011, the Corporation renewed the 2010 Credit Agreements with Bank of America, N.A., which acts as an administrative agent for a group of lenders thereunder. The 2010 Credit Agreements establish a revolving credit facility for the Corporation, under which that group of lenders agrees to lend to the Corporation amounts that may fluctuate from time to time but, as of September 23, 2011, the amount available was \$916 million. Amounts drawn under the 2010 Credit Agreements can only be used to support the Corporation's obligation to pay the purchase price of bonds that are subject to tender and that have not been successfully remarketed, and the maturing principal of and interest on commercial paper notes. Of the \$916 million, \$225 million expires in July 2012, \$195 million expires in July 2013, \$240 million expires in July 2014 and \$256 million expires in July 2015.
