Identifier	Return Reference	Explanation
Part X	Part X FIN48 Footnote	Generally Accepted Accounting Principles (GAAP) requires organizations to determine and assess all material tax positions taken in any income or information returns, including all significant uncertain tax positions, in all tax years that are still subject to assessment or challenge by relevant taxing authorities. GAAP addresses the recognition and measurement of income tax positions using a "more-likely-than-not" (MLTN) threshold. The MLTN threshold means that - A benefit related to an uncertain tax position may not be recognized in financial statements unless it is MLTN that the position will be sustained based on its technical merits, and - There must be more than a 50 percent likelihood that the position would be sustained if challenged and considered by the highest court in the relevant jurisdiction. Management evaluated all material tax positions as required by GAAP and determined that this requirement had no impact on the Foundation's financial statements.
