Lincoln County Health Care, Inc. – FY11 Community Benefits

I. Why create a Community Benefits report?

Lincoln County Health Care, Inc.'s (LCH) day-to-day operations as a tax-exempt organization include many system-wide initiatives to provide inpatient, outpatient, chronic and acute health care services to the people of Lincoln County, Maine. With these programs, LCH hopes to fill existing local gaps, while making a positive impact in the communities we serve. This report will summarize Lincoln County Health Care Inc.'s community benefits efforts over the last year. The final section (VII) will also provide a financial summary of charity care, bad debt, government-sponsored healthcare, and all subsidized community programs and other support.

II. Organizational Description and Information

Lincoln County Health Care, Inc. is the parent company for Miles Memorial Hospital, Inc., St. Andrews Hospital and Healthcare Center, Cove's Edge, Inc., and Lincoln County Medical Group, Inc.

In the Damariscotta Region: Miles Memorial Hospital, a 38-bed community hospital; Miles & St. Andrews Home Health & Hospice; Lincoln County Medical Group, an employer of physicians and mid-level staff providing those professions to the physician practices of Miles Memorial Hospital; Cove's Edge, a skilled rehabilitation and long-term care facility; Chase Point, an assisted living facility which includes a residential and adult day care program for people living with Alzheimer's and related dementia.

In Boothbay Harbor: St. Andrews Hospital and Healthcare Center, a 25-bed Critical Access Hospital; St. Andrews Village Community, which includes assisted living, independent living, Alzheimer's care, adult day services, and long-term nursing care; Miles & St. Andrews Home Health & Hospice; Lincoln County Medical Group, an employer of physicians and mid-level staff providing those professions to St. Andrews Hospital emergency department and the physician practices of Miles Memorial Hospital at the John F. Andrews Family Care Center, a multi-specialty medical arts facility.

Our hospitals provide a broad array of primary health care services to our region including: emergency medicine, acute and rehabilitative inpatient care; laboratory, diagnostic imaging, and orthopedic surgery and general surgical services; a palliative care program; social services; rehabilitation services including physical therapy, occupational therapy, speech and language therapy, plus outpatient cardiac and pulmonary rehabilitation, and obstetrics care.

Lincoln County Health Care's mission is to ensure access to high-quality, patient-centered and affordable health care to the people of our region. As renowned rural healthcare centers, St. Andrews' and Miles' primary focus is patient care, comfort, and safety provided by a personable, professional staff, utilizing the finest technology and equipment. We are active members of the MaineHealth Family of healthcare providers and function in collaboration with other member organizations throughout southern, western, and central Maine.

The Lincoln County Health Care Leadership Team, under the governance of a Board of Trustees, is responsible for the coordination, quality and efficiency of care provided.

III. Community Needs Assessment

The Lincoln County Health Care, Inc.'s Board of Trustees is made up of a diverse set of community members. The Board requires a thorough Community Needs Assessment on behalf of the organization, and directs the organization to analyze and respond to the current needs assessment. Lincoln County Health Care and its subsidiaries also participate in various initiatives to help support and provide updates to community needs assessment planning. Some of these initiatives include:

- Clinical Strategic Planning
- Financial Strategic Planning
- Facility Planning
- Manpower Planning
- Physician Recruitment Strategic Planning
- Emergency Preparedness Planning

Along with the internal assessments, most member organizations also review and act on many of the recommendations provided by external groups such as the Maine Center for Disease Control and Prevention and the "State Health Plan" created by the Advisory Committee for Health Systems Development.

In addition, MaineHealth and its partners in the OneMaine Health Collaborative, Eastern Maine Health System and MaineGeneral Health, released the OneMaine Health Community Health Needs Assessment Report in March 2011. The report is a comprehensive compilation and analysis containing primary and secondary health data sources. The report contains a Health Status Profile for the state as a whole and for each of Maine's sixteen counties. The primary data source was a randomized telephone survey; the sampling methodology was designed to permit comparisons at the county level. Secondary data sources include numerous state and federal sources. This report provides baseline data on hundreds of health indicators that are relevant to hospitals and communities to inform planning and evaluation activities. Plans call for the Community Health Needs Assessment to be replicated every five years. MaineHealth holds community forums in partnership with each member and affiliate hospital in order to increase understanding and use of the Community Health Needs Assessment and to inform identification and action on local, community-based health priorities.

Maine Breast and Cervical Health Program - reduced fees services for women

Foot Clinics - offered weekly in Damariscotta and Wiscasset for a subsidized fee

Boothbay High School-Based Health Clinic - Lincoln Medical Partners provides a program manager and administrative oversight at no charge. The Medical Director is provided at a reduced rate.

Subsidized Community Physician Services - Lincoln County has few private practice physicians. In order to ensure access to primary care and certain specialty care physicians, Lincoln County Healthcare employs physicians and provides their services through its hospital based practices at St. Andrews Hospital and Miles Memorial Hospital. Services include: Family Medicine, General Surgery, Orthopedic Surgery, Pediatrics, Internal Medicine, Obstetrics and Gynecology. Services are provided without regard to ability to pay. Given the demographics of Lincoln County, these services – although critical – are not self-sufficient.

Cash and In-Kind Contributions to Community Groups

Host and sponsor of the American Cancer Society Making Strides against Breast Cancer - provides volunteer leadership, meeting facilities, and is a sponsor for this event

Host and sponsor of the American Cancer Society Daffodil Days

Positive Matters Foundation, Holiday Wish Tags in Lincoln County - provided volunteers and leadership to collect toys/gifts throughout Lincoln County Healthcare for area needy families

Nursing Scholarships - provides scholarships to nursing students of the CMCC program in Lincoln County

Support of the Boothbay Region Ambulance Service - providing the Medical Director and supplies, along with EMS protocol updates

Donation of medical supplies for local and overseas missions

* In addition to the aforementioned programs, Lincoln County Health Care, Inc. provides its proportional share of support for the annual budget of the following programs, through both "member dues" and "fund balance transfers". While all member organizations may not participate directly in the following initiatives, all members provide some level of financial support to help sustain and grow these MaineHealth programs.

Clinical Integration

AMI/PERFUSE Program – The AMI/PERFUSE program helps caregivers provide the highest quality care and achieve the best possible outcomes for patients who experience an acute myocardial infarction – regardless of the patient's point of entry into the MaineHealth system. A network of providers ensures that heart attack patients receive timely, evidence-based treatment.

Asthma and Chronic Obstructive Pulmonary Disease – AH! Asthma and COPD programs work to adopt quality measures that reflect evidence-based guidelines. The programs provide training and education about lung health treatment, medications and devices. The development of patient and provider education material is a key component of program efforts. Asthma educators throughout the system provide one on one support to patients and families.

Diabetes – The TARGET Diabetes Program helps improve care and outcomes for people with Type 1 and Type 2 diabetes and increases awareness of diabetes. The program encourages the adoption of quality measures that reflect evidence-based guidelines. Patient and provider education and training are key components of program efforts.

Emergency Medicine – The Emergency Medicine Program improves the quality of care received by patients in the emergency departments of MaineHealth member and affiliate hospitals. The program works to streamline processes and to effectively meet the acute medical needs of patients in the ED. Program staff provide training to emergency medical personnel and work with ambulance services to inform the care provided before patients arrive at the hospital.

Heart Failure – The Heart Failure Program improves health outcomes for patients with heart failure by promoting best practices in care at MaineHealth hospitals and across all care settings. The program supports a comprehensive, integrated approach for patients and their families as they move from one care environment to another.

Hospital Medicine – The Hospital Medicine Program builds relationships with hospitalists across the system and gathers monthly to share ideas, discuss challenges, and identify opportunities and solutions. Members collaborate on specific initiatives by gathering interdisciplinary groups.

Infection Prevention – The Infection Prevention Program works to reduce infection rates, improve outcomes for patients and decrease preventable hospitalizations across the MaineHealth system. The program aims to reduce hospital-acquired infections through improved hand hygiene compliance.

Mental Health Integration – The Mental Health Integration Program works to improve patient care by bringing mental health clinicians into medical settings, and by improving the

collaboration between medical and mental health providers. The goal of the program is to help people get effective and efficient care for mental and behavioral health problems

Oncology - The Oncology Program promotes high quality oncologic care across the system, ensuring easy access and effective transitions among specialists and locations. The program provides screening and treatment guidelines to clinicians, provides patient education materials to patients, improves awareness of clinical trials, improves access to genetic services and improves the overall delivery of cancer care.

Palliative Care - The Palliative Care Program promotes palliative care across the system. The initiative includes clinician education about palliative care including identification of patients who may benefit from palliative care, provision of palliative services for complex medical conditions, addressing ethical issues and engaging patients in discussing goals of care. The program promotes the use of Physician Orders for Life Sustaining Treatment (POLST) within each MH institution as well as community based advance directive/care planning.

Pharmacy and Therapeutics - The Pharmacy and Therapeutics Program works to improve outcomes of patients in the MaineHealth system by reducing variations in care and promoting best practices. The program seeks to coordinate purchasing and performance initiatives in MaineHealth hospitals.

Pre-Hospital Care/Emergency Medical Services - The program works with hospital emergency medical service medical directors to support obligations in education, quality management and case follow-up. The program also works to standardize the quality improvement process of difficult calls and procedures and to provide educational opportunities and credits for emergency medical technicians to maintain licensure.

Preventive Health - The Preventive Health Program works to deliver consistent, high-quality, preventive healthcare across the MaineHealth region for adults and children by providing best-practice, evidence-based tools and support to primary care practice teams. The purpose is to provide a preventive health focus for patients and providers that helps to reduce the prevalence and severity of chronic disease.

Stroke - The goal of the Stroke Program is to improve care for stroke patients who arrive at MaineHealth member and affiliate hospitals within three hours of symptom onset. The program aims to standardize stroke care across the continuum of providers within the MaineHealth system by using evidence-based guidelines to improve outcomes for stroke patients.

Surgical Quality Collaborative – The goal of the MaineHealth Surgical Quality Collaborative is to create a collaborative encompassing surgical and quality staff from system hospitals to foster learning, measure improvement, and use empirical data to improve the quality, safety and value of surgical care.

Telehealth - The Telehealth Program works to improve the health status of our communities by integrating, advancing and optimizing the use of telehealth technologies. Current telehealth technologies include connections between hospitals, such as bringing specialists to rural areas, connecting providers to patients' homes and remote monitoring of patients in critical care units in most MaineHealth hospitals.

Transitions of Care - The Transitions of Care Program works to ensure that patients receive excellent care throughout the transition from hospital to home and to community-based providers. The program works to improve patient outcomes and reduce unnecessary readmissions by supporting best practices for provider follow-up visits, coordinating medications, patient and family education, and enhancing the communications critical for excellent care once the patient leaves the hospital.

Health Status Programs

Healthy Weight Initiative – This initiative targets both children and adults in the community. The key parts of the initiative include clinical, community, and environmental/policy interventions. MaineHealth’s financial support for this initiative recognizes the importance of preventing obesity as a major driver of health care costs, a major risk factor for chronic diseases, and a well-documented community epidemic

OneMaine Health Community Health Needs Assessment – As described earlier in Section III of this report, MaineHealth was one of three health system partners involved in the conduct of a statewide Community Health Needs Assessment. All of the results and data involved in this analysis are publically available as a resource for any interested parties. MaineHealth was responsible for 42.5% of the total cost of this project.

Child Health Program - The Child Health program is focused on increasing rates of child immunizations within the MaineHealth system and statewide through clinical, community and policy interventions. The program's vision is to create an effective, outcomes-based strategy that engages health professionals and provider organizations, community partners, family members, and local and state government, resulting in Maine being ranked number one in New England for child immunizations by 2016. Amid evidence of increased vaccine refusal and delay in our communities, MaineHealth's financial support for this program underscores the importance of vaccinations as the most cost-effective health prevention activity for children.

Community Education Programs

MaineHealth Learning Resource Centers – With four locations in Maine, the LRCs provide patients, health care providers, and community members with easy access to quality health information and a wealth of educational reference material. In addition, the LRCs offer the public over 100 unique classes taught by professionals (e.g. healthy cooking, yoga, chronic disease self-management, cancer prevention, and mental health awareness).

Parkinson’s Information and Referral Center – The Center is a primary resource for people with Parkinson’s disease, as well as their families and healthcare providers. Assistance includes “patron requests” for information, direct physician referrals, educational outreach to health care facilities, coordinating support groups, and specialized classes for newly-diagnosed individuals.

Access to Care Programs

CarePartners – The program arranges the provision of donated healthcare services for low income uninsured Mainers in Cumberland, Kennebec, Lincoln, and Waldo Counties. CarePartners also provides administrative support to help serve the target population, including comprehensive eligibility assessment, care management, and access to low cost or free pharmaceuticals.

MedAccess – The program provided access to approximately \$5.3 million of free medications in FY11. CarePartners provides this community resource to uninsured and underinsured community members through the Patient Assistance Programs (PAPs). In addition to this service, MedAccess offers application assistance for other prescription access programs (Medicare Part D, etc), local low-cost generic programs, and other state and federal programs either in-person or through a toll-free number

Partnership for Healthy Aging

PHA leads the implementation of evidence-based prevention programs for older adults (Living Well, A Matter of Balance, EnhanceWellness, EnhanceFitness, Healthy IDEAS) throughout Maine. The efforts of Elder Care Services focus upon improving transitions, prevention, and quality across the care continuum. Initiatives include Care Transitions coaching, Community Links, and Falls Prevention Tools for providers and patients.

VitalNetwork

The enhanced-ICU (E-ICU) initiative allows audio/video patient monitoring to coincide with real time display of information trend and condition changes. The system is staffed by expert ICU Physicians and Nurses in a central station, allowing enhanced remote monitoring of patients in multiple locations. Similar systems have been proven to reduce ICU mortality by 25%. MaineHealth was the first healthcare system in New England to implement the e-ICU program.

V. Billing and Collection Practices

Billing

Lincoln County Health Care charges all patients the same price for the same services, regardless of payor source. Individuals are not required to pay or make arrangements to pay prior to the services being provided. On average, the first bill is sent to a patient 7-10 days after services are provided. After that initial billing date, the patient has 30 days to pay for those services. Before collection action is taken, three notices must be sent to patients informing them of their lack of proper payments and continued attempts to communicate with them about a solution. In the absence of either full payment or a patient's attempts to communicate in order to resolve the situation, LCH does use a responsible and professional collection agency if necessary. A bill will become classified as "bad debt" if a patient has not paid the full amount within 120 days. MaineHealth hospitals may pursue legal action for collecting an outstanding bill only with prior Board approval. The LCH Board has not voted to pursue such legal action in the past several years. Member organizations offering long-term and residential care services have, from time to time, taken legal action to collect amounts due from patients or residents who are not covered under the MaineCare program and have sufficient resources to pay for the services they received.

VI. Charity Care Policies

Charity Care

Lincoln County Health Care’s policy of charity care and financial assistance is easily understood, prominently posted, and publicly available. A process exists for offering charity care or financial assistance to patients who are unable to pay after they have already been billed. In addition to monitoring collection practices, copies of the charity care policy are made available to patients at the main entrance and with bill/collection notices. The organization uses simple application procedures for charity care or financial assistance that do not intimidate or confuse applicants. LCH’s employees who work in billing, and accounts receivable are fully informed and educated about all financial assistance policies. These staff members identify unpaid bills where persons are unable to pay, and separates these potential “charity care” bills from other bad debt accounts.

NOTICE OF AVAILABILITY OF UNCOMPENSATED SERVICES

Miles Memorial Hospital and St. Andrews Hospital are required by law to give a reasonable amount of its services without charge to eligible persons who can not afford to pay for care. To be eligible to receive uncompensated service, your family income must be at or below the following levels:

	100% write off	75% write off	50% write off
1	0 – \$18,953	up to \$21,660	up to \$24,368
2	0 - \$25,498	up to \$29,140	up to \$32,783
3	0 - \$32,043	up to \$36,630	up to \$41,198
4	0 - \$38,588	up to \$44,100	up to \$49,613
5	0 - \$45,133	up to \$51,580	up to \$58,028
6	0 - \$51,678	up to \$59,060	up to \$66,443
7	0 - \$58,223	up to \$66,540	up to \$74,858
8	0 - \$64,768	up to \$74,020	up to \$83,273

VII. Good Governance and Executive Compensation Policies

Good Governance

LCH has a Board of 21 community members, a majority of whom are not practicing physicians, officers, department heads, or other employees with a financial connection or otherwise affiliated with the organization itself. The Board meets 12 times a year (on average), and has a written “conflict of interest” policy in place. The Board understands the specific mission of the organization, and approves strategic planning initiatives aimed at carrying out this mission. Trustees understand their fiscal and other specific responsibilities while serving on the Board, and further education/information is provided to Board members if requested. Trustees and Executive Officers of LCH do not receive loans on behalf of the organization. The organization ensures that a substantial part of its activities do not involve attempts to influence legislation, and that it will not take an official position or provide direct support for or against a political candidate. Moreover, in addition to the CEO, CFO, or both officially signing-off on LCH’s yearly 990s and audited financial statements, the Board of Trustees must also have final approval of the yearly audited financial statements. The Board has also adopted and maintains a corporate compliance program that includes a Code of Conduct for all staff education and training, monitoring for compliance, and a Helpline for staff to call, all intended to produce continual compliance with organizational policies and the law.

Executive Compensation

LCH has a formal written compensation policy in place. In consultation with Sullivan Cotter and Associates, the MaineHealth Board's Compensation Committee establishes appropriate compensation parameters for each member organization's CEO and certain members of their Senior Management team. Working within those parameters, the LCH Board determines the level of compensation for its CEO. The findings of the Compensation Committee are made transparent to, and voted on by, the full Governing Board. This "total executive compensation" is filed publicly by the organization, and includes "total cash compensation" and "total value of all benefits and perquisites associated with position (such as housing allowances, social club memberships, signing bonuses, etc.)". The Board takes necessary action to prevent the CEO from voting or directly participating in the final Committee determination of her/his own compensation. The organization's executive compensation procedure relies upon appropriate data for comparability (e.g. compensation levels paid by both taxable and tax-exempt similarly situated organizations and independent compensation surveys by nationally recognized independent firms). Finally, the organization refrains from allowing executive compensation to ever be based solely on LCH's revenues or other similar profit-sharing strategies.
