Part X - Liability Under FIN 48 Footnote

The FASB ASC interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Part XIV Supplemental Information (continued)

This interpretation must be applied to all existing tax positions. The cumulative effect, if any, is to be reported as an adjustment to opening net assets. This interpretation will require management of the Art Center to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which includes federal and certain states. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). The Art Center has no examinations in progress.

Management believes that this does not have a material effect on its financial statements.
