## **INDEPENDENT AUDITORS' REPORT**

The Board of Directors  
Covenant Health Systems, Inc.

We have audited the accompanying consolidated balance sheets of Covenant Health Systems, Inc. (the System) as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Covenant Health Systems Insurance, Ltd., Souhegan Home and Hospice Care, Inc., St. Mary's Villa Nursing Home, Inc., and Mary Immaculate Residential Community, Inc. I – III, wholly-owned subsidiaries of the System, whose statements reflect total assets of \$68,369,000 and \$55,409,000 as of December 31, 2011 and 2010, respectively, and total revenues of \$20,275,000 and \$19,997,000 for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for those entities, is based solely on the report of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Covenant Health Systems, Inc. as of December 31, 2011 and 2010, and the consolidated results of their operations, changes in their net assets and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Covenant Health Systems, Inc. (Covenant) is organized to coordinate the corporate, administrative, clinical and service strengths and potentials of its member organizations. Covenant functions as the parent company to its member organizations which include St. Joseph Hospital of Nashua NH (Nashua), St. Mary's Health System, St. Joseph Healthcare Foundation and Subsidiaries (Bangor), Youville Lifecare, Inc. (Youville Lifecare and Youville House), St Andre Health Care Facility, Mary Immaculate Health Care Services, Inc., Fanny Allen, St. Joseph Manor Health Care, Inc., CHS of Waltham, Inc. d/b/a Maristhill (Maristhill), CHS of Worcester, Inc. d/b/a St. Mary Health Care Center, St. Mary's Villa Nursing Home, Inc., Covenant Health Systems Insurance Ltd. (CHSIL), Providentia Prima Trust (Providentia Prima), Youville Place and Helping Hands of St. Marguerite. All member organizations are providers of health care services except CHSIL, which is licensed to write professional and general liability insurance for the other member organizations; Fanny Allen, a foundation; and Providentia Prima, which is a unitized investment trust. Covenant and its member organizations, and their various related entities are collectively referred to herein as the "System." The System provides acute, long-term and other health care services to patients and residents in New England and Pennsylvania.

Effective July 29, 2010, St. Joseph Healthcare Foundation and Subsidiaries, located in Bangor, Maine, became a member organization of Covenant. St. Joseph Healthcare Foundation operates St. Joseph Hospital, an acute care facility, as well as other health related entities (see Note 13).

In 2011, St. Joseph Hospital of Nashua, New Hampshire discontinued operations of three of its divisions. In 2010, St. Mary's Health System discontinued operations of two of its divisions. The operating results of these programs have been included in discontinued operations (see Note 12).

### 2. Significant Accounting Policies

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates are made in the areas of accounts receivable, estimated third-party payor settlements, professional liability loss reserves and self-insurance reserves (included in accrued expenses and other liabilities).

**2. Significant Accounting Policies (Continued)**

*Concentration of Credit Risk*

Financial instruments which subject the System to credit risk consist of cash and cash equivalents, accounts receivable, investments and estimated third-party payor settlements. At December 31, 2011 and 2010, the System had cash balances in several financial institutions that exceeded federal depository insurance limits, however, management believes the credit risk related to these financial instruments is minimal. The risk with respect to cash equivalents is minimized by the System's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. Estimated third-party payor settlements are primarily comprised of amounts due from state and federal agencies as well as commercial insurers. The System does not expect any credit losses from net recorded amounts. Net accounts receivable represent net receivables from patients and third-party payors for services provided by the System. Patient accounts receivable from the Medicare and Medicaid programs comprise approximately 45% and 47% of receivables at December 31, 2011 and 2010, respectively. The System's investments consist of diversified investments and, while subject to market risk, are not subject to concentrations in any sectors. Revenues from the Medicare and Medicaid programs accounted for approximately 53% and 51% of the System's gross patient service revenues for the years ended December 31, 2011 and 2010, respectively, and revenues with Blue Cross accounted for approximately 15% and 16% of gross patient service revenues for 2011 and 2010, respectively.

*Income Taxes*

Covenant and its member organizations are considered not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code, except as noted below.

St. Joseph Hospital Corporate Services, Inc., a wholly-owned subsidiary of Nashua, is a for-profit organization, which is subject to federal and state income taxes.

The SurgiCenter at St. Joseph Hospital, LLC, a majority-owned subsidiary of the SurgiCenter at St. Joseph Hospital, Inc., which is a wholly-owned subsidiary of Nashua, is a for-profit organization, which is subject to federal and state income taxes.

CHSIL, a wholly-owned subsidiary, is subject to taxation in the Cayman Islands. No income taxes are levied in the Cayman Islands and CHSIL has been granted an exemption for any taxes that might be introduced. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items including unrelated business income or tax status. The System has evaluated the positions taken on its filed tax returns. The System has concluded no uncertain income tax positions exist at December 31, 2011.

**2. Significant Accounting Policies (Continued)**

*Principles of Consolidation*

The consolidated financial statements of the System include the accounts of Covenant and its member organizations. Significant intercompany accounts and transactions have been eliminated in consolidation.

*Temporarily and Permanently Restricted Net Assets*

Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as either net assets released from restrictions for operations (for noncapital-related items) or net assets released from restrictions for property, plant and equipment (for capital-related items). Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity.

*Statement of Operations*

Transactions deemed by management to be ongoing, major or central to the provision of the services offered by the System are reported as operating revenue and operating expenses. Other transactions, which primarily include certain types of investment income and unrestricted contributions, are reported as nonoperating gains.

Management has determined that the net result of the CHSIL insurance operations should be reported in the consolidated nonoperating portion of the income statement and the actuarially determined premium paid by the insured (member organization) should remain as an operating expense. The operating results of Providentia Prima are the net result of investment operations and are reported in the consolidated nonoperating portion of the income statement. The operations of Fanny Allen are that of a foundation and have been included in nonoperating gains on the consolidated statement of operations.

*Excess of Revenue over Expenses*

The consolidated statements of operations include excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purpose of acquiring such assets) and pension liability adjustments other than net periodic pension cost.

**COVENANT HEALTH SYSTEMS, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Years Ended December 31, 2011 and 2010**

**2. Significant Accounting Policies (Continued)**

*Net Patient Service Revenue*

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors due to future audits, reviews and investigations. Retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as final settlements are determined. Changes in estimated settlements from third-party payors and other changes from prior years resulted in a net increase of \$3,600 to net patient service revenue for the year ended December 31, 2011. There were no such changes for 2010.

*Charity Care*

The System has a formal charity care policy under which patient care is provided to patients who meet certain criteria without charge or at amounts less than its established rates. The System does not pursue collection of amounts determined to qualify as charity care, therefore, they are not reported as revenue.

*Cash and Cash Equivalents*

Cash and cash equivalents include investments in highly liquid instruments which have a maturity of three months or less when purchased.

*Beneficial Interest in Perpetual Trust*

The System is the beneficiary of several trust funds administered by trustees or other third parties. Trusts, wherein the System has an irrevocable right to receive the income earned on the trust assets in perpetuity, are recorded as permanently restricted net assets at the fair value of the trust at the date of receipt and are included in donor-restricted funds in the consolidated balance sheet. Income distributions from the trusts are reported as investment income that increase unrestricted net assets, unless restricted by the donor. Annual changes in market value of the trusts are recorded as increases or decreases to permanently restricted net assets.

*Accounts Receivable*

The allowance for doubtful accounts is provided based on an analysis by management of the collectibility of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the reserve for doubtful accounts. Accounts deemed uncollectible are charged off against the established reserve.

*Inventories*

Inventories of pharmaceuticals and medical supplies are carried at the lower of cost (determined primarily by the first-in, first-out method) or market.

**COVENANT HEALTH SYSTEMS, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Years Ended December 31, 2011 and 2010**  
**(In thousands)**

**2. Significant Accounting Policies (Continued)**

**Property, Plant and Equipment**

Property, plant and equipment is stated at cost, or if donated, at fair market value at time of donation, less accumulated depreciation. The System's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the lives of the related assets. The provision for depreciation is determined by the straight-line method at rates intended to amortize the cost of related assets over their estimated useful lives.

The System reviews its long-lived assets when events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable. Upon determination that an impairment has occurred, these assets are reduced to fair value. No such impairment losses have been recognized to date. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less the cost to dispose.

Gifts of long-lived assets such as property or equipment are reported as unrestricted support and are excluded from the excess of revenue over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Depreciation expense for the years ended December 31, 2011 and 2010 was \$25,305 and \$22,814, respectively.

**Conditional Asset Retirement Obligations**

The System recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which the obligation is incurred, in accordance with the Accounting Standards (the Standards) for *Accounting for Asset Retirement Obligations* (ASC 410-20). When the liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long lived asset. The liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligation is depreciated over the useful life of the related asset. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the statement of operations.

As of December 31, 2011 and 2010, \$7,495 and \$7,872, respectively, of conditional asset retirement obligations are included within other liabilities on the consolidated balance sheet.

**Deferred Financing Costs/Original Issue Discount**

Deferred financing costs and the original issue discount and premium related to the System's bonds payable are being amortized by the effective interest method over the repayment period of the bonds. The original issue discount or premium is presented as a reduction or increase, respectively, of the face amount of bonds payable.

**COVENANT HEALTH SYSTEMS, INC.**

**2. Significant Accounting Policies (Continued)**

*Assets Whose Use is Limited or Restricted*

Assets whose use is limited or restricted include certain assets set aside by the Board of Directors to provide for the future replacement of property, plant and equipment. These assets are reported as Board-designated funds and other long-term investments. Also, under certain debt agreements, the System is required to maintain assets which have been segregated as externally designated trustee funds. Donor-restricted and other long-term investments include amounts donated for endowments, other special purpose funds and certain internal designations by members of the System.

*Investments and Investment Income*

Investments in equity securities with readily determinable market values and all investments in debt securities are recorded at fair market value. At December 31, 2011 and 2010, the System held interests in certain funds and common trusts, which are also referred to as alternative investments. Interests in the alternative investments are generally recorded at fair market value based on the System's ownership share and rights of the investments.

The valuation of the alternative investments is estimated by management based on fair values provided by external investment managers. Covenant reviews and evaluates the valuations provided by the investment managers and believes that these valuations are a reasonable estimate of fair value at December 31, 2011 and 2010, but are subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investments existed and such differences could be material. The amount of gain or loss associated with these investments is reflected in the accompanying financial statements based on information provided by the management of the fund.

Investment income or loss (including realized and unrealized gains and losses on investments, interest and dividends) is included in the excess of revenue over expenses unless the income or loss is restricted by donor or law. Realized gains or losses on the sale of investment securities are determined by the specific identification method.

Investment income earned on unrestricted investments is reported as nonoperating gains. Investment income on restricted investments is reported as nonoperating gains unless specifically restricted by the donor or state law, in which case it is reported as an increase in temporarily or permanently restricted net assets.

*Donor-Restricted Gifts*

Unconditional promises to give that are expected to be collected within one year are recorded at estimated net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discount on those amounts is computed using risk-free interest rates applicable to the years in which the promises are received. Amortization of the discount is included in contribution revenue.

### 2. Significant Accounting Policies (Continued)

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are not recognized until the related conditions have been met. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of operations as net assets released from restrictions.

#### Professional Liability Loss Contingencies

CHSIL is a wholly-owned captive insurance company incorporated and based in the Cayman Islands for the purpose of providing professional and general liability insurance. The System insures its professional risks on a claims made basis and general liability risks on an occurrence basis through CHSIL.

Estimated liability costs, as calculated by the System's consulting actuaries, consist of specific reserves to cover the estimated liability resulting from medical or general liability incidents or potential claims which have been reported, as well as a provision for claims incurred but not reported. Estimated malpractice liabilities include estimates of future trends in loss severity and frequency and other factors that could vary as the claims are ultimately settled. Although it is not possible to measure the degree of variability inherent in such estimates, management believes the reserves for claims are adequate. These estimates are periodically reviewed, and necessary adjustments are reflected in the consolidated statement of operations in the year the need for such adjustments becomes known. Management is unaware of any claims that would cause the final expense for medical malpractice risks to vary materially from the amounts provided.

In 2011, in accordance with Accounting Standards Update (ASU) No. 2010-24, *Health Care Entities (Topic 954) Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24), the System recorded a liability of \$6,094 related to estimated professional liability losses. The System also recorded a receivable of \$6,094 related to estimated recoveries under insurance coverage for recoveries of the potential losses.

The System estimates that the expected claims liabilities at December 31, 2011 and 2010 are approximately \$33 million and \$22 million, respectively. The System maintains malpractice insurance coverage on a claims made basis. At December 31, 2011, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which require loss accrual. The System intends to renew coverage on a claims made basis and anticipates that such coverage will be available

#### Self-Insurance Reserves

Certain members of the System are self-insured for workers' compensation and employee healthcare benefits. These costs are accounted for on an accrual basis to include estimates of future payments on claims incurred.

### 2. Significant Accounting Policies (Continued)

#### Retirement Plans

The System's members sponsor several defined contribution retirement plans which cover substantially all employees who have met certain eligibility requirements of the respective plans. Contributions to the defined contribution plans are discretionary and are based upon certain percentages of eligible income. Expenses related to the defined contribution plans were \$3,085 and \$2,088 for 2011 and 2010, respectively. In addition, Nashua and Bangor have defined benefit pension plans. See Note 7 for further information on the defined benefit plans. The System maintains a supplemental executive retirement plan (SERP) for certain executives. Expenses related to the SERP were approximately \$390 and \$408 for the years ended December 31, 2011 and 2010, respectively.

#### Deferred Compensation

The System has recorded its obligations under deferred compensation agreements with certain physicians and employees of \$10,557 and \$9,292 at December 31, 2011 and 2010, respectively, at the net present value of benefits earned.

#### Fair Value of Financial Instruments

The carrying amounts of the System's financial instruments as reported in the accompanying consolidated balance sheets, other than long-term debt, approximate fair value.

#### Reclassifications

Certain 2010 amounts have been reclassified to permit comparison with the 2011 consolidated financial statements presentation format.

#### Subsequent Events

Events occurring after the balance sheet date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through April 24, 2012 which is the date the financial statements were available to be issued.

#### Prospective Accounting Pronouncement

In July 2011, the FASB issued ASU No. 2011-07, which requires reclassifying the provisions for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue. It also requires enhanced disclosure about the policies for recognizing revenue and assessing bad debts, disclosures of patient service revenue, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The provisions of ASU 2011-07 are effective for the System beginning January 1, 2012. The System does not expect that the impact of this accounting pronouncement will be significant to the consolidated financial statements.

### **3. Net Patient Service Revenue**

The System maintains contracts with Medicare and several State agencies (Medicaid). The System is paid a prospectively determined fixed price for each Medicare inpatient acute care service depending on the type of illness and the patient's diagnosis related group classification. Capital costs and certain Medicare and Medicaid outpatient services are also reimbursed on a prospectively determined fixed price. The System receives payment for other Medicare and Medicaid inpatient and outpatient services on a reasonable cost basis which are settled with retroactive adjustments upon completion and audit of related cost reports.

The consolidated balance sheet includes amounts due from the State of Maine under the MaineCare program. The current State budget does not provide for payment of amounts due the System and, therefore, 2011 amounts due from the State are classified as long term on the consolidated balance sheet. The amounts recorded from the State have been determined based upon applicable regulations and the System expects that these amounts will ultimately be paid in full. Due to the complex nature of such regulations, there is at least a reasonable possibility that recorded estimates will change by a material amount.

Under the State of New Hampshire's tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.5% of net patient service revenues, with certain exclusions. Through June 30, 2010, the MET was offset by disproportionate share payments of identical amounts. In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. The amount of tax incurred by Nashua for fiscal 2011 and 2010 was \$8,998 and \$10,473, respectively. The tax was offset by \$8.3 million in revenue in 2010 with no direct offset in 2011.

The State of Maine also assesses a provider tax similar to New Hampshire, with disproportionate share funding partially offsetting the tax.

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the System under these agreements includes discounts from established charges and per diem daily rates.

The estimated third-party payor settlements reflected on the balance sheet represent the estimated net amounts to be received or paid under reimbursement contracts with the Centers for Medicare and Medicaid Services (CMS), MaineCare and any commercial payors with settlement provision. Settlements have been issued through 2004 for Medicare and Medicaid. Anthem settlements are final through 2009.

**3. Net Patient Service Revenue (Continued)**

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The System believes that it is substantially in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing specific to the System. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

Bangor has become aware of certain potential technical Stark Law violations. Bangor has notified CMS in an effort to resolve these issues. Bangor is uncertain as to how CMS may ultimately approach the resolution of these technical violations and what any ultimate repayment to CMS may be. Bangor has quantified the total payments received from governmental payors that may be subject to repayment. The total estimated repayment is approximately \$900,000 and Bangor has accrued this amount as of December 31, 2011 and 2010. The government has not set forth an amount for potential settlement of the issues nor has it set forth a mechanism for settlement. Any ultimate settlement amount could possibly be less than the amount accrued, or, if CMS elects to assess fines and penalties in addition to repayment of reimbursement, the settlement could be in excess of this amount. A settlement for an amount significantly in excess of the amount accrued could have a material impact on Bangor's future operating results.

**Community Benefits**

The System does not pursue collection of amounts determined to qualify as charity care; therefore, they are not reported as revenue. The System determines the costs associated with providing charity care by calculating a ratio of cost to gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. Under this methodology, the estimated costs of caring for charity care patients for the years ended December 31, 2011 and 2010 were \$9,117 and \$7,100, respectively.

As part of the System's charitable mission, its member organizations also provide services which primarily benefit the medically under-served in their communities. The System prepares an annual report utilizing the methodology contained in the Catholic Health Association's Guide to Planning and Reporting Community Benefit. The net unsponsored costs of charity care including clinics, unreimbursed Medicaid cost, outreach programs and community health education programs provided by the System for the years ended December 31, 2011 and 2010 were \$36,273 and \$28,525, respectively. Additionally, the System calculates the amount of costs not reimbursed by the Federal Medicare program. Those unreimbursed charges were \$46,764 in 2011 and \$37,100 in 2010.

**Fair Value Measurements**

Financial assets carried at fair value are classified and disclosed in one of the following three categories:

Level 1 – Assets classified as Level 1 represent items that are traded in active exchange markets and for which valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities. Assets classified as Level 1 include cash and cash equivalents, marketable equity securities and mutual funds.

Level 2 – Valuations for assets traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities. Assets classified as Level 2 include U.S. Government securities, pooled-fixed income, corporate bonds, guaranteed investment contracts and cash surrender value of life insurance policies.

Level 3 – Valuations for assets that are derived from other valuation methodologies not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions in determining the fair value assigned to such assets. Assets classified as Level 3 include alternative investments and beneficial interests in perpetual trusts.

The target allocation percentage for investments is designed to meet the expected return on plan assets. The plan trustee evaluates its target allocation periodically in relation to market performance and overall market conditions. The plan does not allow for the purchase of derivatives and the overall goal is to provide for adequate investment growth, along with contributions, to provide adequate funding to meet plan obligations on a current and projected basis.

*Litigation*

Various legal claims, generally incidental to the conduct of normal business, are pending or have been threatened against the System. The System intends to defend vigorously against these claims. While ultimate liability, if any, arising from any such claim is presently indeterminable, it is management's opinion that the ultimate resolution of these claims will not have a material adverse effect on the financial condition of the System.

*Regulatory*

The health care industry is subject to numerous laws and regulations of federal, state and local governments. Recently, government activity has increased with respect to investigations and allegations concerning possible violations by health care providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties as well as significant repayments for patient services previously billed. Compliance with such laws and regulations are subject to government review and interpretations as well as regulatory actions unknown or unasserted at this time.
