BELOW ARE THE PROGRAMS WE HAVE INITIATED AND THEIR RESULTS - BIGGEST LOSER TYPE OF COMPETITION - IN MARCH OF 2011, MORE THAN 90 HOSPITAL EMPLOYEES COMMITTED TO THE CHALLENGE OF GETTING HEALTHY BY LOSING WEIGHT. THE BIGGEST LOSER COMPETITION WAS ONE OF WHITE PLAINS HOSPITAL'S EMPLOYEE WELLNESS INITIATIVE PROGRAMS WHICH HAS BLOSSOMED AND SPREAD TO THE COMMUNITY THROUGH BOOSTED MORALE, IMPROVED HEALTH AND FITNESS AND INCREASED PRODUCTIVITY IN THE WORKPLACE. A TOTAL OF 1,000 POUNDS WAS LOST IN 3 MONTHS (MARCH -MAY, 2011) - IN ADDITION TO THIS INITIATIVE THE HOSPITAL PROVIDES WEEKLY FREE YOGA CLASSES FOR EMPLOYEES AND VOLUNTEERS, A "WALKING WEDNESDAY" WALK CLUB, E-BLAST HEALTH TIPS AND HANDOUTS AND VARIOUS LUNCH AND LEARNS ON NUTRITION AND PHYSICAL ACTIVITY. THIS YEAR WPH HAS ALSO PARTNERED WITH THE WESTCHESTER COUNTY DEPARTMENT OF MENTAL HEALTH ON THEIR FIRST ANNUAL GET ON YOUR MAT FOR MENTAL HEALTH MEGA YOGA EVENT. NOT ONLY DID THIS EVENT PROVIDE INFORMATION AND AWARENESS TO MENTAL HEALTH ISSUES, THIS EVENT, DRAWING OVER 500 PEOPLE FROM AROUND WESTCHESTER COUNTY, STRESSED THE IMPORTANCE OF DAILY EXERCISE THROUGH YOGA OR ANY FORM OF PHYSICAL ACTIVITY FOR OUR OVERALL HEALTH AND WELLNESS - MALLWALKERS PROGRAM - THIS FREE, SUPERVISED WALKING PROGRAM MEETS THREE TIMES PER WEEK AT THE LOCAL MALL AND INCLUDES INFORMATIVE PRESENTATIONS PLUS FREE BLOOD PRESSURE SCREENINGS AND EVENTS. THERE WERE OVER 6,800 PEOPLE WHO WALKED FROM SEPTEMBER 2009-SEPTEMBER 2011 - WELLNESS THROUGH PREVENTION MONTH (WTPM) MAY 2011 DEDICATED TO EDUCATIONAL SEMINARS RELATING TO CHRONIC DISEASE PREVENTION THROUGH EXERCISE, HEALTH SCREENINGS, AND OTHER ACTIVITIES SUPPORTING WELLNESS THROUGH PREVENTION. IN 2011, OVER 700 PEOPLE ATTENDED WTPM EVENTS.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
White Plains Hospital Center and Subsidiaries
White Plains, New York

We have audited the accompanying consolidated balance sheets of White Plains Hospital Center and subsidiaries (the "Hospital") (an affiliate of Stellaris Health Network), as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Hospital as of December 31, 2011 and 2010, and the results of its operations, changes in its net assets, and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, the Hospital adopted the provisions of Accounting Standards Update No. 2010-24, *Health Care Entities (Topic 954), Presentation of Insurance Claims and Related Insurance Recoveries*.

WHITE PLAINS HOSPITAL CENTER AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization — White Plains Hospital Center, a 292-bed acute care hospital located in White Plains, New York, is a membership corporation organized under the not-for-profit corporation law of the State of New York and is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code (the “Code”).

White Plains Hospital Center is an affiliate of Stellaris Health Network (“Stellaris”). The purpose of Stellaris is to preserve a strong community-based health care system for Westchester and Putnam counties, expand access to and improve the quality of care for the communities served, develop a comprehensive network of providers, and achieve and capitalize on economies of scale to provide efficient and effective health care to the community. The other affiliates of Stellaris are Lawrence Hospital Center, Phelps Memorial Hospital Association, and Northern Westchester Hospital Association. Under the terms of the affiliation agreement, Stellaris is the sole member of White Plains Hospital Center subject to certain terms and conditions.

In connection with the Stellaris affiliation, the White Plains Hospital Center Foundation, Inc. (the “Foundation”), a State of New York not-for-profit corporation, also exempt from federal income tax under Section 501(c)(3) of the Code, was reorganized and became a wholly owned subsidiary of the White Plains Hospital Center. The Foundation is the sole shareholder of Davis Avenue Corporation (d/b/a Westchester Caring Services), a State of New York for-profit corporation that provides home care services, private duty nursing services, and similar health care services. White Plains Hospital Center is also the sole shareholder of Post Development Corporation, a State of New York for-profit corporation, which owns an apartment building that is used for staff and private residential housing, and 8 Longview Development Corporation (“Longview”), a State of New York for-profit corporation that operates an apartment building as private residential housing. During 2011, White Plains Medical Diagnostic Services P.C. (“Medical Diagnostic Services”), a for-profit professional services corporation controlled by White Plains Hospital Center, was formed under Article 15 of the business corporation law of the State of New York. Income taxes related to the for-profit operations are not significant.

Basis of Accounting — The consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP) and in accordance with the American Institute of Certified Public Accountants’ Audit and Accounting Guide, *Health Care Entities*, and other pronouncements applicable to health care organizations and include the accounts of White Plains Hospital Center, the Foundation, Davis Avenue Corporation, Post Development Corporation, Medical Diagnostic Services, and Longview (collectively, the “Hospital”). All significant intercompany balances and transactions have been eliminated in consolidation. Assets of individual organizations within the consolidated group may not be available to satisfy the obligations of other members of the consolidated group.

Use of Estimates — The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the allowance for uncollectible accounts, contractual allowances, amounts due to third-party payors, accrued pension liability, and estimated liability for malpractice claims.

Cash and Cash Equivalents — All highly liquid debt instruments with maturities of three months or less from the date of purchase are considered to be cash equivalents, excluding amounts classified as assets whose use is limited.

Assets Limited or Restricted as to Use — Assets limited or restricted as to use include assets set aside by the board of directors, over which the board of directors retains control and may use at its discretion, assets held by trustees under indenture agreements, and donor-restricted gifts. Amounts available to meet current liabilities of the Hospital have been classified as current assets in the consolidated balance sheets.

Investments and Investment Income — Equity securities with readily determinable fair values and all investments in debt securities are measured at fair value at the balance sheet date based upon quoted market prices. Investment income (including realized gains and losses on investments, interest, and dividends) is included in revenues and unrestricted contributions over expenses, unless the income is restricted by donor or law. The cost of investments sold is based on the specific identification method. Unrestricted interest, dividends, and realized gains and losses are included in other operating revenue, and unrealized gains and losses in fair value of investments are included as other changes in unrestricted net assets in the accompanying consolidated statements of operations.

A decline in the market value of an investment security below its cost that is designated to be other than temporary is recognized through an impairment charge. The impairment charge is included in revenues and unrestricted contributions over expenses in the consolidated statements of operations, and a new cost basis is established. The Hospital has not recognized any losses related to declines in value that were other than temporary in nature in 2011 and 2010.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated balance sheets, consolidated statements of operations, and consolidated statements of changes in net assets.

Pooled Investments — Certain investments are maintained in an investment pool. Gains and losses from the sale of securities and income earned on such investments are allocated to unrestricted or temporarily restricted net assets based on the percentage of such assets to the total value of all assets in the pool. Changes in the percentages of participation are made monthly, following the addition or withdrawal of funds from the investment pool based upon the fair value of assets at the end of the previous month.

Patient Accounts Receivable — Patient accounts receivable are recorded at the estimated net realizable amount and do not bear interest. The allowance for uncollectible accounts is the Hospital's best estimate of the amount of probable credit losses in the Hospital's existing accounts receivable. The Hospital has estimated the allowance based on historical collection rates. The Hospital reviews the allowance for uncollectible accounts periodically. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

Pledges Receivable — Pledges receivable, less an allowance for uncollectible amounts, are recorded at estimated fair value in the year made and are primarily unsecured. Pledges receivable greater than one year are discounted to their net present value. Restricted pledges are reported as additions to the appropriate restricted net assets.

Inventory — Inventory consists primarily of drugs and supplies and is stated at the lower of cost (using the first-in, first-out method) or market.

Deferred Compensation Assets/Liability — Deferred compensation assets (consisting principally of mutual funds) and the related liability (which is included in other noncurrent liabilities) represent the fair value of amounts held under deferred compensation arrangements covering certain individuals.

Property, Plant, and Equipment — Property, plant, and equipment are stated at cost, or in the case of gifts, at fair market value at the date of the gift. Capitalized lease obligations are recorded at the present value of the minimum lease payments at the inception of the lease. Leased assets are amortized over the lesser of the estimated useful life of the asset or lease term. Such amortization is reported within depreciation and amortization in the accompanying consolidated statements of operations. Depreciation is computed by the straight-line method based on the estimated useful lives of the individual assets. Estimated useful lives by classification are as follows:

	Estimated Useful Life
Land improvements	10–25 years
Buildings and fixed equipment	5–40 years
Furniture and equipment and assets under capital leases	3–25 years

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support and are excluded from revenues and unrestricted contributions over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long these long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs — Deferred financing costs include legal, financing, and placement fees associated with the issuance of long-term debt. Deferred financing costs and bond discounts are being amortized over the term of debt. Accumulated amortization was approximately \$309,000 and \$265,000 at December 31, 2011 and 2010, respectively.

Impairment of Long-Lived Assets — Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value, less cost to sell.

Classification of Net Assets — The Hospital separately accounts for donor-restricted and unrestricted net assets. Unrestricted net assets are not externally restricted for identified purposes by donors or grantors. Unrestricted net assets include resources that the governing board may use for any designated purpose and resources whose use is limited by agreement between the Hospital and an outside party other than the donor or grantor. Temporarily restricted net assets are those whose use is temporarily limited by the donor. Permanently restricted net assets are to be held in perpetuity.

Donor-Restricted Gifts — Gifts of cash and other assets are reported as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted contributions in the accompanying consolidated financial statements.

Consolidated Statements of Operations — For purposes of display, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as revenues and expenses; unrestricted contributions are reported separately. The consolidated statements of operations include the caption revenues and unrestricted contributions over expenses, which is the performance indicator. Changes in unrestricted net assets, which are excluded from the performance indicator, consistent with industry practice, include unrealized gains and losses on investments, contributions of long-lived assets (including assets acquired using contributions, which by donor restriction were to be used for the purpose of acquiring such assets), and pension-related adjustments.

Net Patient Service Revenue — The Hospital has agreements with third-party payors that provide for payments at amounts different from the Hospital's established charges. A summary of the payment arrangements with major third-party payors is as follows:

Medicare — Under the Medicare program, the Hospital receives reimbursement under a prospective payment system (PPS) for inpatient and outpatient services. Under inpatient PPS, fixed-payment amounts per inpatient discharge are established based on the patient's assigned diagnosis related group (DRG). When the estimated cost of treatment for certain patients is significantly higher than the average, providers typically will receive additional "outlier" payments. Under outpatient PPS, ambulatory services are paid based on service groups called ambulatory payment classifications.

The Hospital has received final settlements with Medicare through 2006.

Non-Medicare Payors — On March 30, 2011, the New York State fiscal 2012 budget was passed resulting in the extension of the New York Health Care Reform Act of 1996 (the "Act") for an additional three-year period ending March 31, 2014. Under the Act, Medicaid payment rates are promulgated by the New York State Department of Health on a prospective basis. The Act has been revised to incorporate certain proposals made by the Medicaid Redesign Team. In addition to a global Medicaid spending cap, the Act includes delivery system reform, home care payment changes, mandatory enrollment of populations into managed long-term care or managed care, payment and quality linkages, palliative care provisions, utilization review, and reimbursement reductions. Fixed-payment amounts per inpatient discharge are established based on the patient's assigned case mix similar to a Medicare DRG. All other third-party payors, principally Blue Cross, other private insurance companies, home maintenance organizations, preferred provider organizations, and other managed care plans negotiate payment rates directly with the Hospital. Such arrangements include DRG-based payment systems, per diems, case rates, and percentage of billed charges. If such rates are not negotiated, then the payors are billed at the Hospital's established charges.

Indigent Care Pool — New York State regulations provide for the distribution of funds from an indigent care pool, which is intended to partially offset the cost of services provided to the uninsured. The funds are distributed to hospitals based on each hospital's level of bad debt and charity care in relation to all other hospitals. For the years ended December 31, 2011 and 2010, the Hospital received distributions of \$1.69 million and \$2.56 million, respectively, from the indigent care pool, which are included in net patient service revenue in the accompanying consolidated statements of operations.

Laws and Regulations — Both federal and New York State regulations provide for certain adjustments to current and prior years' payment rates and indigent care pool distributions based on industry-wide and hospital-specific data. The Hospital has established estimates based on information presently available of the amounts due to or from Medicare, Medicaid, workers' compensation, and no-fault payors and amounts due from the indigent care pool for such adjustments.

There are various proposals at the federal and New York State levels that could, among other things, reduce reimbursement rates or modify reimbursement methods. The ultimate outcome of these proposals and other market changes cannot be presently determined.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as settlements are finalized. Changes in prior year's estimated settlements, with third-party payors, increased net patient service revenue by \$12,000 and decreased patient service revenue by \$578,000, in 2011 and 2010, respectively. The Hospital believes that it is in compliance, in all material respects, with all the applicable laws and regulations and it is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties, and exclusion from the Medicare and Medicaid programs.

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid antifraud and abuse legislation. Recent federal initiatives have prompted a national review of federally funded health care programs. The Hospital has implemented a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and interpretation exists. The ultimate outcome of any such reviews, which may be initiated by regulatory agencies, cannot be determined.

Charity Care and Uncompensated Services — The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the collection of amounts determined to qualify as charity care is not pursued, they are not reported as revenue.

The estimated cost incurred by the Hospital to provide services to patients who are unable to pay was approximately \$1,869,000 and \$846,000 for the years ended December 31, 2011 and 2010, respectively. The estimated cost of these charity care services was determined using a ratio of cost to gross charges and applying that ratio to the gross charges associated with providing care to charity patients for the period. Gross charges associated with providing care to charity patients include only the related charges for those patients who are financially unable to pay and qualify under the Hospital's charity care policy and that do not otherwise qualify for reimbursement from a governmental program.

Services are provided under the Medicaid and Medicare programs whereby the payments received are less than the cost of providing the services. Additionally, services are performed at no charge, which benefits the community, such as public health screening, health care publications, health-related educational programs, and other activities.

Accounting for Asset Retirement Obligation — The Hospital recognizes a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation is factored into the measurement of the liability when sufficient information exists. The types of asset retirement obligations that the Hospital considers are those for which it has a legal obligation to perform an asset retirement activity; however, the timing and/or method of settling the obligation are conditional on a future event that may or may not be within its control. The New York State Department of Labor Industrial Code Rule 56 requires the controlled removal or encapsulation of asbestos by a licensed contractor in commercial and public buildings, including renovation and partial or complete demolition

activities; such regulation is applicable to the Hospital. The fair value of a liability for the legal obligation associated with an asset retirement is recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized.

At December 31, 2011 and 2010, the Hospital has recorded a liability for the removal of asbestos of approximately \$322,000 and \$313,000, respectively, in other noncurrent liabilities in the accompanying consolidated balance sheets.

Accounting for Postretirement Benefit Plans — The Hospital recognizes the overfunded or underfunded status of its defined benefit pension and other postretirement benefit plans (collectively, “postretirement benefit plans”) in the consolidated balance sheets. Changes in the funded status of the plans are reported in the year in which the changes occur as a change in unrestricted net assets presented below the excess of revenue and unrestricted contributions over expenses in its consolidated statements of operations and consolidated statements of changes in net assets.

Recent Accounting Pronouncements — In August 2010, the FASB issued ASU No. 2010-24, *Health Care Entities (Topic 954), Presentation of Insurance Claims and Related Insurance Recoveries*, which clarifies that a health care entity should not net insurance recoveries against a related claim liability. Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries. The provisions of ASU No. 2010-24 were adopted by the Hospital on January 1, 2011, and retrospectively applied. The adoption of the ASU increased estimated insurance recoveries and estimated liability for malpractice claims by \$10,164,000 and \$12,197,000, respectively, in the consolidated balance sheets as of December 31, 2011 and 2010. There was no impact on the consolidated statements of operations or consolidated statements of changes in net assets for the years ended December 31, 2011 and 2010.

In August 2010, the FASB issued ASU No. 2010-23, *Health Care Entities (Topic 954), Measuring Charity Care for Disclosure*, which requires that cost be used as a measurement for charity care disclosure purposes and that cost be identified as the direct and indirect costs of providing the charity care. It also requires disclosure of the method used to identify or determine such costs. The provisions of ASU No. 2010-23 were adopted by the Hospital on January 1, 2011, and retrospectively applied. The adoption of ASU No. 2010-23 did not have any impact on the Hospital’s consolidated financial statements. The additional disclosures required under this ASU are included in Note 1, *Charity Care and Uncompensated Services*, to the consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*. The purpose of this ASU is to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards. In addition, some of the amendments could change how the fair value measurements’ guidance in Accounting Standards Codification (ASC) 820 is applied. The amendments in this ASU are to be applied prospectively. The provisions of ASU No. 2011-04 are effective for the Hospital beginning January 1, 2012. The Hospital has not yet determined the impact of ASU No. 2011-04 on its consolidated financial statements.

In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-07, *Health Care Entities (Topic 954), Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The adoption of ASU No. 2011-07 will require the Hospital change the presentation of its consolidated statements of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of

contractual allowances and discounts). Additionally, the ASU will require the Hospital to provide enhanced disclosures about its sources of patient service revenue, policies for recognizing revenue and assessing bad debts, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The provisions of ASU No. 2011-07 are effective for the Hospital beginning January 1, 2012. The adoption of ASU No. 2011-07 is not expected to have any material impact on the Hospital's consolidated financial position, results of operations, or cash flows.

In September 2011, the FASB issued ASU No. 2011-09, *Disclosures About an Employer's Participation in a Multiemployer Plan*, which amends ASC 715-80, *Compensation — Retirement Benefits — Multiemployer Plans*, by increasing the quantitative and qualitative disclosures an employer is required to provide about its participation in significant multiemployer plans that offer pension or other postretirement benefits. The provisions of ASU No. 2011-09 are effective for the Hospital for the year ending December 31, 2012, and should be applied retrospectively for all periods presented. The adoption of ASU No. 2011-09 will only have an impact on the disclosures included in the notes to the consolidated financial statements.

At December 31, 2011 and 2010, unrealized losses on individual investment holdings were not significant.

3. FAIR VALUE MEASUREMENTS

GAAP establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumption about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Information about the Hospital's financial assets that are measured at fair value on a recurring basis as of December 31, 2011 and 2010, is as follows:

	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Fair Value

On December 22, 2010, the Hospital's defined benefit retirement plan transferred \$2.4 million to an alternative investment fund manager. The transfer represents subscriptions paid in advance with the corresponding investment made in January 2011. Such amount is properly not included in the table above at December 31, 2010.

At December 31, 2011 and 2010, Level 1 investments include cash investments, marketable equity securities, and publicly traded mutual funds. Level 2 investments are composed of private mutual funds, corporate debt, fixed-income securities, and U.S. Treasury and other obligations. Level 3 investments are composed of hedge fund-of-fund investments.

The Hospital uses the following fair value hierarchy to present its fair value disclosures:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets. Active markets are those in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value:

Cash Investments — The carrying value of cash investments approximates fair value as maturities are less than three months and/or include money market funds that are based on quoted prices and actively traded.

Marketable Equity Securities — Fair value estimates for publicly traded equity securities are based on quoted market prices.

Debt Securities — The estimated fair values of debt securities are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. Fair values of debt securities that do not trade on a regular basis in active markets are classified as Level 2.

Mutual Funds — Fair value estimates for mutual funds are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. Fair values of mutual funds that do not trade on a regular basis in active markets are classified as Level 2.

Group Annuity Contract — Group annuity contract is valued at contract value, which approximates fair value, and is based on the beginning-year value of the Hospital's defined benefit retirement plan's interest plus contributions made and interest earned, less funds used for benefit payments and administrative expense charged by Aetna Life Insurance Company.

Alternative Investments — Hedge fund-of-fund investments do not have readily determinable market values. Fair value estimates are based on information provided by each fund manager.

Included within the assets above are investment in certain mutual funds that report fair value using a calculated net asset value or its equivalent. Attributes related to the nature and risk of such investments as of December 31, 2011 and 2010, are as follows:

- (l) This hedge fund-of-fund's objective is to provide consistent, superior capital appreciation with minimal volatility through the use of a multimanager investment strategy.
- (m) This hedge fund-of-fund seeks to achieve capital appreciation while maintaining a balanced level of risk primarily by allocating its assets to a select number of long and short equity-based money managers (commonly referred to as hedge funds).

The reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for the years ended December 31, 2011 and 2010, is as follows:

Alternative Investment — Hedge Fund of Funds	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
Beginning balance — January 1, 2010	\$ -
Earnings	39,168
Purchases	<u>2,400,000</u>
Ending balance — December 31, 2010	<u>\$ 2,439,168</u>

Purchases	<u>2,400,000</u>
Ending balance — December 31, 2011	<u>\$ 4,984,627</u>

The following methods and assumptions were used by the Hospital in estimating the fair value of the Hospital's consolidated financial instruments that are not measured at fair value on a recurring basis for disclosures in the financial statements:

Long-Term Debt — Fair value of the Hospital's mortgage note payable is estimated using market quotes. Carrying amount approximates fair value of the capital lease obligations and Longview mortgage. The carrying amount and fair value of the Hospital's mortgage note payable at December 31, 2011 and 2010, are as follows:

	2011		2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Mortgage note payable included in long-term debt	<u>\$ 21,793,596</u>	<u>\$ 24,788,289</u>	<u>\$ 23,278,407</u>	<u>\$ 25,698,130</u>

4. PLEDGES RECEIVABLE

Pledges are recorded at the net present value determined using a discount rate of 0.83% in 2011 and 2.01% in 2010 commensurate with the rate on U.S. Treasury bills whose maturities correspond to the maturities of the pledges. Pledges receivable at December 31, 2011 and 2010, are as follows:

	2011	2010
Due in less than one year	\$ 2,426,075	\$ 1,620,560
Due in one to five years	4,659,158	2,353,846
Discount on pledges	<u>(81,500)</u>	<u>(100,100)</u>
Subtotal	7,003,733	3,874,306
Allowance for uncollectible pledges	<u>(715,000)</u>	<u>(562,000)</u>
Total	<u>\$ 6,288,733</u>	<u>\$ 3,312,306</u>

5. PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment and the related accumulated depreciation and amortization at December 31, 2011 and 2010, are as follows:

	2011	2010
Land	\$ 4,212,391	\$ 4,212,391
Land improvements	3,662,460	3,640,235
Buildings and fixed equipment	202,402,520	197,482,457

Subtotal	107,425,122	112,381,170
Construction in progress	<u>7,814,050</u>	<u>7,928,015</u>
Total	<u>\$ 115,239,172</u>	<u>\$ 120,309,185</u>

Construction in progress includes costs associated with the major modernization program, renovation of the emergency room, nuclear medicine, laboratory, and various other areas within the Hospital.

6. NOTE PAYABLE

On October 17, 2011, the Hospital's line of credit was increased from \$10,000,000 to \$15,000,000. The line of credit is collateralized by marketable securities (fair value of approximately \$16,001,000 at December 31, 2011) and is renewed annually. There were no borrowings under the line of credit during 2011. During 2010, the Hospital repaid the amount outstanding at December 31, 2009, which was \$1,400,000. Interest on amounts outstanding during 2010 was based on a rate of 3.25%. The line of credit expires on September 30, 2012.

7. RETIREMENT PLANS

Defined Benefit Plan — The Hospital has a noncontributory defined benefit retirement plan covering noncollective bargaining employees who attain the age of 21 and have completed a “year of eligible service” as defined by the Employee Retirement Income Security Act of 1974 (ERISA). Although contributions to the plan may be reduced or suspended at any time, it is the Hospital’s policy to fund the contribution required under ERISA.

On May 22, 2006, the Hospital adopted a resolution amending the plan, which froze participation in the defined benefit plan and the accrual of additional benefits under such plan after August 5, 2006.

The Plan’s obligation and fair value of plan assets at December 31, 2011 and 2010, are as follows:

	2011	2010
Reconciliation of the benefit obligation:		
Benefit obligation — beginning of year	\$ 135,148,940	\$ 119,435,873
Interest cost	7,492,817	7,197,749
Actual benefits paid	(5,246,000)	(4,843,336)
Actuarial loss	<u>16,439,330</u>	<u>13,358,654</u>
Projected benefit obligation — end of year	<u>153,835,087</u>	<u>135,148,940</u>
Change in plan assets:		
Fair value of plan assets — beginning of year	103,228,340	93,188,278
Actual return on plan assets	(1,091,845)	10,333,398
Employer contributions	10,075,000	4,550,000
Actual benefits paid	<u>(5,246,000)</u>	<u>(4,843,336)</u>
Fair value of plan assets — end of year	<u>106,965,495</u>	<u>103,228,340</u>
Amount recognized in the consolidated balance sheets	<u>\$ (46,869,592)</u>	<u>\$ (31,920,600)</u>
Accumulated benefit obligation — end of year	<u>\$ 153,835,087</u>	<u>\$ 135,148,940</u>

The changes in the amount not yet recognized, which are included in unrestricted assets for the year ended December 31, 2011, are as follows:

Net loss	\$ 26,312,133
Amortization of net loss	<u>(1,704,637)</u>
Total pension-related adjustments	<u>\$ 24,607,496</u>

The estimated amount that will be amortized from unrestricted net assets into net periodic pension cost in 2012 is as follows:

Net loss	<u>\$ 3,576,391</u>
----------	---------------------

The components of net periodic cost (credit) for the defined benefit plan for the years ended December 31, 2011 and 2010, are as follows:

	2011	2010
Components of net periodic cost (credit):		
Interest cost	\$ 7,492,817	\$ 7,197,749
Expected return on plan assets	(8,780,958)	(8,463,760)
Amortization of net loss	<u>1,704,637</u>	<u>274,067</u>
Net periodic cost (credit)	<u>\$ 416,496</u>	<u>\$ (991,944)</u>

	2011	2010
Weighted-average assumptions used to determine obligations — discount rate	4.84 %	5.67 %
Weighted-average assumptions to determine net benefit cost:		
Discount rate	5.67	6.17
Expected return on plan assets	8.00	8.00

The Hospital's expected rate of return on plan assets is based on the portfolio as a whole and not on the sum of the returns on individual asset categories.

Plan Assets — The weighted-average asset allocation of the Hospital's defined benefit plan as of December 31, 2011 and 2010, is as follows:

	2011	2010
Asset category:		
Equity securities (primarily mutual funds)	62 %	64 %
Fixed-income investments (primarily mutual funds) and cash	33	31
Alternative investments	<u>5</u>	<u>5</u>
	<u>100 %</u>	<u>100 %</u>

The Hospital's financial and investment objectives are to meet present and future obligations to beneficiaries while minimizing the Hospital's contributions over the long term, by earning an adequate return on assets with moderate volatility. The Hospital's targeted asset allocation is 62% investments in equities, 33% in cash and fixed-income investments, and 5% in alternative investments.

Cash Flows — The Hospital expects to contribute \$9,000,000 to the defined benefit retirement pension plan in 2012.

The benefits expected to be paid in each year in 2012, 2013, 2014, 2015, and 2016 are \$6,501,000, \$6,835,000, \$7,086,000, \$7,609,000, and \$7,972,000, respectively. The aggregate benefits expected to be paid in five years from 2017 through 2021 are \$43,428,000. The expected benefits are based on the same assumptions used to measure the Hospital's benefit obligation at December 31.

Defined Contribution Plan — In connection with freezing the defined benefit retirement plan, the Hospital established a 403(b) defined contribution plan effective as of August 6, 2006. Participation in the defined contribution plan is open to all employees, except those employees covered under a retirement plan provided under collective bargaining agreements.

Under the defined contribution plan, annual base contributions made by the Hospital on behalf of the eligible participants are based on years of vested service and range from 4% to 9% of base salary. In addition, employees aged 45 years or older with at least 20 years of vested service also received a special one-time transition credit equal to 2% of their 2006 annual base salary.

Nonelective contributions are fully vested after completion of three years of service. A year of service is any calendar year in which an employee works 1,000 hours. In terms of determining vesting status under the defined contribution plan, participants have been credited with all years of service earned under the defined benefit plan.

In accordance with the provisions of the defined contribution plan, nonelective contributions due from the Hospital under the plan are required to be funded during the first quarter of the following calendar year. The Hospital contribution covering the years ended December 31, 2011 and 2010, was approximately \$6,245,000 and \$5,895,000, respectively, and is included in accrued retirement contributions payable at December 31, 2011 and 2010, respectively. The contributions related to the years ended December 31, 2011 and 2010, were made in March 2012 and March 2011, respectively.

Volunteer Retirement Program — In 2007, the Hospital offered a volunteer retirement program to all employees who were participants in the Hospital's pension plan as of August 6, 2007, and who were at least 57 years of age by December 31, 2007. In addition to enhanced early retirement pension benefits for the 36 employees electing to take advantage of the program, the Hospital will pay a portion of the cost of continued health coverage until the employee is age 65. The liability associated with the volunteer retirement program is included in accrued pension liability in the consolidated balance sheets.

Collective Bargaining Agreements — In accordance with collective bargaining agreements, the Hospital contributes to union pension, health and welfare, and other funds. The total expense for the covered employees was approximately \$2,176,000 and \$1,966,000 in 2011 and 2010, respectively. Such amounts are included within employee benefits expense in the accompanying consolidated statements of operations.

8. ESTIMATED LIABILITY FOR MALPRACTICE CLAIMS

Effective July 1, 1986, the Hospital purchased primary insurance on an occurrence basis and provided for potential losses in excess of primary coverage through a combination of self-insurance and purchased excess insurance on a claims-made basis. Effective November 15, 1998, the Hospital and certain other members of Stellaris participate in a combined insurance program that provides coverage through purchased primary and excess insurance on a claims-made basis. Effective January 1, 2004, the Hospital purchased excess professional liability insurance above its primary placement layer, on a claims-made basis, from a captive insurance company formed by Stellaris.

The Hospital has established a trust fund (included within assets limited or restricted as to use) to pay claims covered by self-insurance and claims that may exceed purchased coverage. The Hospital has accrued its best estimate of the ultimate cost of losses payable, including incurred but not reported claims and incidents. At December 31, 2011 and 2010, the Hospital recorded an undiscounted liability of approximately \$391,000 and \$900,000, respectively.

Professional liability claims have been asserted against the Hospital by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. There are known incidents occurring through December 31, 2011, that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. It is the opinion of Hospital's management that such claims will not have a material adverse effect on the Hospital's consolidated financial statements.

The estimated liability for malpractice claims includes \$10,164,000 and \$12,197,000 as of December 31, 2011 and 2010, respectively, related to claims covered by insurance. A corresponding estimated insurance recovery has also been recorded.

9. LONG-TERM DEBT

Long-term debt at December 31, 2011 and 2010, is as follows:

	2011	2010
Mortgage note payable	\$ 21,996,302	\$ 23,499,824
Capital lease obligations	10,612,937	12,387,696
Longview mortgage note payable	<u>1,851,667</u>	<u>1,961,667</u>
Total long-term debt	34,460,906	37,849,187
Less:		
Unamortized bond discount	(202,706)	(221,417)
Current installments	<u>(3,383,269)</u>	<u>(4,009,962)</u>
Long-term debt — net	<u>\$ 30,874,931</u>	<u>\$ 33,617,808</u>

Mortgage Note Payable — In 1994, a mortgage loan (the “Loan”) was closed with the New York State Medical Care Facilities Finance Agency (the “Agency”) to finance a portion of the costs related to a major modernization and expansion project, which was completed in 1997 and included the construction of a new five-story patient care building. The Loan was for \$36,030,000 and was funded from the proceeds of the sale by the Agency of Federal Housing Administration (FHA)-Insured Mortgage Project Revenue Bonds 1994 Series B (the “1994 Bonds”). During 1995, the Dormitory Authority of the State of New York (DASNY) succeeded to the powers, duties, and functions of the Agency.

On June 23, 2004, the Hospital refinanced the Loan. In connection therewith, the related 1994 Bonds were refinanced from the proceeds of the issuance of DASNY FHA-Insured Mortgage Hospital Revenue Bonds, Series 2004. Under the terms of the refinancing, the interest rate decreased from 7.4% to 5.05% per annum. There was no additional borrowing made nor was the maturity date of the Loan extended. The Loan is payable in monthly installments through September 1, 2022. The Loan is collateralized by a mortgage on a portion of the Hospital’s real property and a security interest in personal property of the Hospital and is insured by the FHA under its Section 242 program.

During 2004, the Hospital converted the existing depreciation reserve fund to a mortgage reserve fund. The provisions of the documents executed in connection with the closing require the Hospital to maintain a mortgage reserve fund. As of December 31, 2011 and 2010, the mortgage reserve fund (which is included in trustee-held funds within assets limited or restricted as to use) is fully funded, thus not requiring any further future funding of the mortgage reserve fund as of such date.

Under the terms of the mortgage and related agreements, the Department of Health and Human Services Division of Facility and Loans may request the Hospital to provide a corrective action plan if the Hospital’s loss from operations exceeds 1% of operating revenues.

Capital Lease Obligations — Certain leases are considered to be equivalent to installment purchases. The Hospital's capital lease obligations are included in long-term debt and property, plant, and equipment at December 31, 2011 and 2010, are included in the following:

	2011	2010
Buildings and equipment under capital lease obligations	\$ 15,333,412	\$ 18,886,349
Less accumulated amortization	<u>(5,098,404)</u>	<u>(6,511,022)</u>
	<u>\$ 10,235,008</u>	<u>\$ 12,375,327</u>

On October 30, 2008, the Hospital entered into a lease and sublease agreement by and between the City of White Plains (the "City") and The White Plains Urban Renewal Agency (the "Renewal Agency"), whereby the Hospital subleased from the Renewal Agency approximately 324 parking spaces within a municipal parking garage for the exclusive use by the Hospital.

Under the terms of the sublease agreement and related parking and operation and maintenance agreement, the Hospital will pay base rent equal to approximately 43% of the amount, which the City is required to pay during the then-current fiscal year of the City as debt service on obligations issued by the City for the construction of the parking garage in addition to allocable costs relating to any common capital improvements, as well as any cost relating to common nonrecurring repairs. In addition to the base rent, the sublease requires additional rent equal to the Hospital's allocable share of ordinary operating expenses (as defined).

The City financed the construction of the garage through the issuance of public improvement bonds that require aggregate debt service payments totaling approximately \$31.4 million through June 30, 2033, the date by which the bonds are satisfied.

The Hospital's approximate allocable portion of the total debt service payments to be paid under the agreement is approximately \$13,598,000. In connection with the lease agreement, the Hospital recorded an asset and related obligation in the amount of \$8,158,557, which represents the net present value of the payments using a discount rate of 5%, which approximates the borrowing rate of the Hospital.

In exchange for the above payments, the City and the Renewal Agency granted and conveyed to the Hospital a subleasehold interest in the garage for a period of 99 years ending October 30, 2107, along with an option to renew the initial term for an additional 99 years.

Longview Mortgage Note Payable — Under the terms of the Loan, principal payments are based on a 20-year level amortization resulting in equal monthly principal payments of \$9,167 until October 1, 2018, upon which date the Loan matures and the outstanding principal amount is payable in full.

Interest on the Loan is payable monthly and is based on the London InterBank Offered Rate, plus 1.5%. Interest rates on the Loan ranged from 1.68% to 1.76% during 2011 and 1.73% to 1.85% during 2010. The Loan is collateralized by a mortgage on the related property.

The lender granted Longview a waiver for such noncompliance. Management is not aware of any noncompliance with the debt service coverage ratio at December 31, 2011 and 2010.

Principal Payments — Scheduled principal payments on the mortgage notes payable and future minimum payments on the capital lease obligations at December 31, 2011, are as follows:

Years Ending December 31	Mortgage Note Payable	Capital Lease Obligations	Longview Mortgage Note Payable	Total
2012	\$ 1,581,233	\$ 1,930,479	\$ 110,000	\$ 3,621,712

10. TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets, which are available at December 31, 2011 and 2010, are as follows:

	2011	2010
Health and program services	\$ 2,020,946	\$ 1,805,213
Health education	1,147,067	1,559,052
Building and equipment	<u>7,974,119</u>	<u>6,049,051</u>
	<u>\$ 11,142,132</u>	<u>\$ 9,413,316</u>

Permanently restricted net assets consist of investments to be held in perpetuity, the income from which is restricted by the donor for specific operation purposes. The board of directors has determined that donor-restricted endowment funds will be governed by specific policies with the objective that the original gift shall be protected in perpetuity, as the endowed corpus and distributions will not be made if it were to bring the value below that threshold. Policies have been developed that explain the calculation used to determine funds available for expenditure, and the process for expenditure of funds in accordance with donor restrictions.

Net assets, which were released from donor restrictions by the Hospital incurring costs satisfying the restricted purposes at December 31, 2011 and 2010, are as follows:

	2011	2010
Health and program services	\$ 1,864,720	\$ 1,178,051
Health education	551,707	357,862
Building and equipment	<u>2,751,656</u>	<u>492,573</u>
	<u>\$ 5,168,083</u>	<u>\$ 2,028,486</u>

11. FUNCTIONAL EXPENSES

The Hospital provides general health care services to residents primarily within its geographic location. Expenses related to providing these services, as well as various management and fund-raising expenses at December 31, 2011 and 2010, are as follows:

	2011	2010
Health care services	\$ 279,585,494	\$ 254,517,628
Management services	33,660,557	30,436,503
Fundraising	<u>1,411,165</u>	<u>802,115</u>
	<u>\$ 314,657,216</u>	<u>\$ 285,756,246</u>

12. CONCENTRATION OF CREDIT RISK

The Hospital bills for health care services provided to patients through its inpatient and outpatient care facilities, located in White Plains and Rye Brook, New York, and grants credit to patients, most of whom are local residents and are insured under third-party payor agreements. In extending credit to patients, while collateral or other security is generally not required, an assignment of patients' benefits payable under their health insurance programs, plans, or policies is routinely obtained.

Net patient accounts receivable by financial class as a percentage of total patient accounts receivable at December 31, 2011 and 2010, is as follows:

	2011	2010
Medicare	21 %	16 %
Medicaid	3	3
Blue Cross	16	18
Aetna	7	7
Oxford Health Plan	10	13
United Healthcare	6	5
HMO other	22	18
Commercial and other third party	10	8
Self-pay	<u>5</u>	<u>12</u>
Total	<u>100 %</u>	<u>100 %</u>

13. AFFILIATION WITH STELLARIS

As discussed in Note 1, Stellaris is the sole member, subject to certain terms and conditions, of the Hospital. Stellaris provides certain administrative, information technology, and contracting services to its members, including the Hospital.

Information Technology Lease — In 2003, Stellaris entered into a Master Lease Agreement (the “Master Lease”) with a leasing company to finance hardware, software, and implementation costs of new information technology systems. The Hospital guarantees 25% of Stellaris’ total obligation under the terms of the Master Lease and subsequent schedules.

In 2009, Stellaris entered into Master Lease Schedule No. 3 to consolidate and finance the respective end-of-lease term payouts for the above-mentioned transactions. Stellaris’ total obligation of \$3,414,693 under this schedule called for monthly lease payments through November 1, 2010.

In 2010, Stellaris entered into Master Lease Schedule No. 4 to finance purchases and installations of information technology equipment and software. The total amount financed is not to exceed \$29,250,893, with monthly lease payments through June 1, 2016.

Payments made to Stellaris under these agreements were approximately \$1,140,000 and \$1,380,000 in 2011 and 2010, respectively, and are included in supplies and other expenses.

The Hospital’s estimated future funding requirements to Stellaris for Master Lease Schedule No. 4 at December 31, 2011, are as follows:

Years Ending December 31	Amount
2012	\$ 1,245,000
2013	1,320,000
2014	1,422,554
2015	1,495,806
2016	<u>623,253</u>
Total	<u>\$ 6,106,613</u>

Shared Services Agreements — The Hospital shares certain administrative, information technology, contracting, and health plan services with other Stellaris members. Stellaris and its members contract with Empire Blue Cross to provide health plan services. Under these shared service agreements, approximately \$3,975,000 and \$3,007,000 are included in employee benefits expense and supplies and other expenses for the years ended December 31, 2011 and 2010, respectively.

As of December 31, 2011 and 2010, the amount due (to) from Stellaris was approximately (\$161,000) and \$81,000, and is included in accounts payable and accrued expenses and other receivables, respectively.

Workers’ Compensation — Stellaris became an approved self-insurer under the State of New York Workers’ Compensation Board’s guidelines as of October 1, 2002. Each member hospital retains the first \$350,000 for any one occurrence and Stellaris has purchased excess insurance to pay any losses above the \$350,000 per occurrence to the statutory limits required by the State of New York. Under this arrangement, each Stellaris member hospital guarantees Stellaris’ obligation under a surety bond totaling

\$15,000,000 required by the State of New York Workers' Compensation Board and is jointly and severally liable. In addition, the member hospitals have entered into a cross-indemnification agreement with each other. As of December 31, 2011 and 2010, the Hospital recorded an estimated undiscounted claims payable of approximately \$3,079,000 and \$2,451,000, respectively, of which approximately \$1,262,000 and \$930,000, respectively, is included in other current liabilities and the balance is included in other noncurrent liabilities.

Captive Insurance Company — Stellaris formed a captive insurance company, NWLP Insurance Company Ltd. (NWLP), which was incorporated and licensed in Bermuda effective December 2, 2003, in accordance with Section 14 of the Companies Act of 1981 as an exempted company to, among other functions, write general and professional insurance. NWLP is a Bermuda-based wholly owned subsidiary of Stellaris. The Hospital and two other Stellaris member hospitals use NWLP to write an excess professional liability insurance policy above their primary placement. This excess policy is written on a claims-made basis. In January 2004, in connection with Stellaris' formation of NWLP, the Hospital obtained an irrevocable letter of credit from a bank in the amount of \$447,000. The letter of credit was obtained for the benefit of NWLP and can be drawn to satisfy surplus capital needs of NWLP. The letter of credit expires on January 31, 2013; however, there is an evergreen provision. At December 31, 2011, no amounts have been drawn down on this letter of credit, which is collateralized by funds held by the bank.

Stellaris member hospitals entered into an agreement that defines the rights and obligations with respect to the capitalization, governance, and operations of NWLP among the Stellaris member hospitals. Each Stellaris member hospital is individually accountable for its own losses through the captive insurance company (indemnifying the other hospitals) and a reconciliation period is established so that funds owed to NWLP from the individual Stellaris member hospital would be accounted for and paid at a defined time. Actions and decision points, such as acceptance of new members, withdrawal of existing members, investment activities, etc., are defined in this agreement. NWLP contracted with a third-party administrator to manage claims and establish an organization-wide effort focusing on risk management and loss control.

14. HOME CARE TRANSACTION

In September 2010, under the terms of a purchase and sale agreement with Visiting Nurse Services of New York Home Care II (VNSNYHC), the Hospital discontinued operation of its certified home health agency (CHHA) and sold to VNSNYHC certain designated assets relating to the CHHA's operation. The total sales price was \$5.1 million, of which \$4.1 million was paid to the Hospital upon closing, with the balance \$1 million to be paid by VNSNYHC to the Hospital in September 2011. A gain on the home care transaction in the amount of \$5 million was recognized by the Hospital during 2010. The balance of the purchase price due from VNSNYHC, which was included in other current receivables at December 31, 2010, in the accompanying consolidated balance sheet, was received by the Hospital during 2011. The net income from the operations of CHHA was not significant in relation to the Hospital's consolidated financial statements.

15. COMMITMENTS AND CONTINGENCIES

Operating Leases — In addition to the funding commitments to Stellaris as discussed in Note 12, the Hospital has minimum lease commitments for certain equipment and space under noncancelable and other operating leases in effect at December 31, 2011, as follows:

Years Ending December 31	Amount
2012	\$ 4,032,000
2013	2,738,000
2014	2,029,000
2015	1,403,000
2016	746,000
Thereafter	<u>2,682,000</u>
Total	<u>\$ 13,630,000</u>

Rental expenses under noncancelable and other operating leases were approximately \$3,619,000 and \$2,913,000 for the years ended December 31, 2011 and 2010, respectively, and are included in supplies and other expenses.

Litigation and Claims — The Hospital is involved in litigation and claims, which are considered normal to its business. It is the opinion of Hospital's management that such claims will not have a material adverse effect on the consolidated financial statements.

16. SUBSEQUENT EVENTS

The Hospital has evaluated subsequent events through May 24, 2012, which is the date the consolidated financial statements were issued.
