§ Gross proceeds less commissions

z Cost or other basis provided may include adjustments including but not limited to dividend reinvestment, return of capital/principal, wash sale loss disallowed, amortization, accretion, acquisition premium, bond premium, market discount, market premium, and option premium.

2 Totals of Cost or Other Basis include all tax lots with known basis. Totals do not include tax lots with unknown basis

Amortization, accretion, and similar adjustments to cost basis are not provided for short-term instruments, unit investment trusts, or securities of foreign issuers

For securities bought in a foreign currency, we have provided estimated cost basis in United States Dollars (USD) by converting the foreign currency cost into USD based on exchange rates on the trade date of the purchase. For securities sold (or redeemed) in a foreign currency, we have provided the USD proceeds by converting the foreign currency proceeds into USD based on exchange rates on the trade date of the sale. If you acquired the foreign currency cost, or sold the foreign currency proceeds in exchange for USD in a separate currency transaction linked to the security transaction, then the trade date exchange rate we used is the spot rate at the time of the linked currency transaction. Otherwise, the trade date exchange rate we used is the end-of-day exchange rate. For tax reporting purposes, you may be required to determine your actual USD cost basis, proceeds, and gain/loss based on the exchange rates on the settlement dates of the applicable transactions. Consult your tax advisor for more information

We are required to convert a purchase or sale in foreign currency into its United States dollar (USD) equivalent at the time of the transaction and to use that USD equivalent amount as the cost basis or gross proceeds as applicable. For securities directly bought or sold in a foreign currency in a single transaction in your account, we have converted the foreign currency into USD on the trade date of the purchase or sale using the end-of-day exchange rate. If you acquired the foreign currency cost, or sold the foreign currency proceeds in exchange for USD in a separate currency transaction linked to the security transaction, the conversion was made using the spot rate at the time of the linked currency transaction. In some cases, you may be required to use different currency conversion conventions than those applied here

Certain tax rules may require you to treat as ordinary income/loss all or a portion of your realized gain/loss from any debt instruments that are denominated in a currency other than U.S. dollars (USD) or that make a payment calculated by reference to the value of a currency other than USD. Consult your tax advisor for more information

⁴ Basis may have been increased by accruals of market discount and/or original issue discount or decreased by premium amortization. This increase or decrease of basis assumes the investor has elected to include market discount in income currently and/or amortize premium currently. You should consult with your own tax advisor to determine your correct basis

⁵ Sale Proceeds may have been adjusted by an option premium due to an option assignment

Realized and unrealized gains and loss values do not include securities for which cost basis is unavailable. The recognition of any loss reflected herein may be disallowed or deferred by the application of capital loss limitations, wash sale rules or other special tax rules, and you are strongly urged to consult your own outside tax and other advisors about this and all tax-related matters addressed in any way herein. All information regarding the cost basis and acquisition dates of securities that you acquired elsewhere and that were subsequently delivered into your Goldman Sachs account(s) were provided by you and/or a third party and Goldman Sachs makes no representation as to the accuracy and completeness of such information and it should not be relied upon as such.

<p>Certificates of deposit (CDs) that have a maturity of one year or less from the date of issue may be shown at face value CDs with a maturity of more than one year from date of issue, including Market Indexed CDs and Market Linked CDs (MCDs), will be shown at market value based upon a matrix or model pricing method that may, not represent the actual price of sold prior to maturity (provided that such CDs and MCDs may be shown at face value for up to seven days from date of issue if market value prices have not been received from a third party pricing vendor). CDs are subject to interest rate risk and the actual value of the CDs may be different from their purchase price. The sale or redemption of any fixed income security prior to maturity may result in a substantial gain or loss, and a penalty may apply to the early withdrawal of a CD. You may sell the CDs in the secondary market subject to market conditions. The secondary market for CDs is generally illiquid. Certain Step Rate CDs are also subject to reinvestment risk if call provisions are exercised by the issuer and if a CD with a comparable rate is not available. The price reflected for MCDs are also subject to reinvestment risk if call provisions are exercised by the issuer and if a CD with a comparable rate is not available. The market value of MCDs may not correspond directly to increases or decreases in the underlying linked market index. If sold prior to maturity, the value of MCDs may be less than the purchase amount or face value. Certain MCDs may only be redeemed on pre-specified liquidation dates. Certain MCDs may have call features that allow the issuer to call the MCD prior to maturity. See sales material or contact your broker/dealer for additional information.</p>
