		Part I, L7 Col(f) The amount of bad debt expense St. Francis Medical Center included on Form 990, Part IX, line 25 Column (A), but subtracted for purpose of calculating the percentage in Schedule H, Part I, Line 7, Column (F) is \$4,050,015

Identifier	ReturnReference	Explanation
		<p>Part III, Line 4 St Francis Medical Center provides services to all patients regardless of the ability to pay. In accordance with the Medical Center's policy, a patient is classified as charity patient based on eligibility criteria as established by the Federal Poverty Guidelines. Charges associated with these services do not include the provision for bad debts which is a result of the unwillingness of patients to make payment for services after recovery is deemed to be unlikely and all collection efforts have ceased. Self-Pay accounts are written-down to what would be expected to be paid for the same services from Medicare, which is the estimate of cost. The provision for bad debt should be considered a community benefit because a significant portion of bad debt expense is realized as a result to the lack of financial information provided by the patients, who would most likely qualify for charity care. The figures were calculated based on the cost-to-charge ratio. The cost-to-charge ratio was derived by dividing total operating expenses (excluding bad debt expense) by total gross patient charges. The cost-to-charge ratio was applied to total bad debt write-offs to calculate the costs for line 2. While we make all reasonable efforts to identify patients eligible for charity care prior to billing, such pre-billing identification is not always possible. This problem arises largely with patients treated in our Emergency Department ("ED") on an outpatient basis. Frequently, these patients do not complete an application for financial assistance therefore making a definitive determination difficult. The estimated amount for patients who likely would qualify for financial assistance is calculated for line 3 based on a review of bad debt write-offs to include only bad debt for uninsured patients, and estimating the amount of that cost that could be charity based on a review of applications for financial assistance. A reasonable estimate based on the percentage of patients whose applications do not meet the criteria for financial assistance is used to estimate the amount that could qualify for financial assistance. For financial reporting, an allowance for doubtful accounts is recorded for estimated losses resulting from the unwillingness of patients to make payments for services. The allowance is determined by analyzing historical data and trends. Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.</p>

		Part III, Line 8 In determining the allowable cost of the Medicare the cost-to-charge ratio from the Medicare Cost Report is used Providing care to Elderly is part of the Mission of St Francis Medical Center Medicare services are provided to eligible patients regardless of their ability to pay, and therefore any shortfall is considered to be a community benefit provided by the St Francis Medical Center

Identifier	ReturnReference	Explanation
		<p>Part III, Line 9b Self-pay balances are transferred to professional collection agencies when the accounts complete a patient statement dunning cycle (e.g., 121 days) with no payment from the patient or proof of eligibility for charity care or other programs. Collection efforts for patients who have applied for charity care will continue, until a final determination on the application has been made. A "pending application" is defined as an application that has been fully completed by the patient, submitted and is in the process of being determined for eligibility. It is acceptable (but not preferable) to take an account through the full collection cycle and later reclassify it as charity care, as long as a consistent process is followed and a legitimate basis exists that the patient is unable to pay. It is possible that a claim can complete the billing process and be referred for outside collection activity, prior to a favorable charity determination decision being made. Once a patient has been identified as being eligible for charity care, St. Francis Medical Center will notify the collection agency to cease all further activity. St. Francis Medical Center will distribute this policy to all collection agencies to advise them of the program's availability, to make them aware of the documentation required to apply, and to familiarize them with the determination letter, in case they receive notification from the patient, before an account has been written off. If a favorable determination is rendered, the collection agency will not use wage garnishments or liens on primary residences for the portion of the claim eligible for a charity write-off. For those receiving a determination of less than 100% write-off, the collection agency will resume their collection efforts and employ all means previously contractually agreed upon. St. Francis Medical Center will, in all cases, specifically authorize all institutional litigation. This does not preclude agencies from pursuing reimbursement from third party liability settlements.</p>

		<p>Part VI, Line 4 During 2010 St Francis Medical Center completed a Community Health Needs Assessment and Improvement Plan The findings suggest that the health status of the city of Trenton presents numerous challenges and opportunities to the health care community and to St Francis in particular, as its mission focuses on service to the poor and marginalized Trenton, a diverse community located in Mercer County, is the only municipality among 13 towns Mercer County's population slightly exceeds 360,000 and is one of the most affluent areas in the county, Trenton excluded Consequently, when reviewing Mercer County data rather than Trenton specific information, the statistical picture for Trenton is significantly diluted as a result of the high quality of health, education and financial resources enjoyed by the remainder of the county The City of Trenton has an unemployment rate much higher than the State of New Jersey overall, while Mercer County tends to have an unemployment rate slightly lower than the State of New Jersey Eighteen percent of Trenton's population is disabled, compared to 15% nationally Between 1980 and 2000, census data indicated that the Latino population had more than tripled in Trenton, growing from 10,580 to 33,898 Since 2000 the Latino population in Trenton has increased from 22% to 33% Problems affecting the Latino Community include the following a) employment issues centered around subsistent wages, being overworked and jobs without benefits b) housing concerns centered around housing availability and affordability, c) healthcare concerns centered around lack of medical insurance, home health aides who speak Spanish and the prohibitive cost of medication The socioeconomic status of Trenton mirrors the unfortunate health status as reflected in the high poverty level Twenty-two percent of the city's population lives below poverty compared to the state rate of 9.8% Household median income is approximately half the state's level Roughly 60% of Trenton's population has a high school diploma, compared to the state level of 84% Many Trenton residents do not have access to a medical home As a result Trenton residents utilize the emergency room almost 54% more often than the national norm, utilize hospital outpatient departments nearly 21% less than the national norm, and are admitted for inpatient care nearly 40% more often than the national norm A significant percentage of the population is uninsured According to the The Medically Uninsured in New Jersey A Chart Book published by the NJ Department of Health and Senior Services in collaboration with Rutgers Center for Health Policy, Trenton lies in the state's central region which had the second highest rates of uninsured adults (27%) and children (10%) with Hispanic children the most likely to be uninsured There are numerous gaps in service for the Trenton community Primarily these gaps have to do with the availability of and coordination of primary healthcare for all age groups, particularly the poor elderly and ethnic minorities The changing demographics of the community suggest language and cultural barriers, transportation limitations and cost of health care services are growing barriers to providing services There are 12 zip codes that comprise the Medical Center's primary service area, however the majority of the visits to the Medical Centers clinics were made by those living in only five zip codes including 08629, the hospital's zip code Access to primary care is a persistent need among the poor and indigent Through the Medical Clinics staffed by medical residents, a total of 3,737 took place in 2011 SFMC participated in a THT initiative to increase access to primary care services in our clinics Wait times for appointments were dramatically reduced and continuity of care between providers and patients was improved to 99 percent</p>

Mission effectiveness services include social accountability, mission and ministry committee, and institutional ethics. Spiritual care, under the direction of Russell Hansel and Sister Maureen Maguire, OSF, concretely expresses the SFMC's holistic approach to patient care where the patient is recognized as a spiritual being, as well as a physical being. It recognizes the person in terms of relationships to self, others and to God. Services focus on the spiritual, emotional, and social needs of patients and their families from a theological perspective, offering counseling in situations of crisis, ethical dilemmas, and grief. The spiritual care professional helps the sick and those who care for them discover a new sense of meaning in the midst of pain and suffering. Chaplain Sister Maureen Maguire, OSF, is available to address the spiritual needs of patients, families and employees. All patients are visited by a Chaplain or Pastoral care volunteer.</p> <p>Affiliations ===== Catholic Health East ----- CHE is a multi-institutional Catholic Health system, which is co-sponsored by fifteen religious congregations and Hope Ministries, a public juridic person within CHE. Based in Newtown Square, Pennsylvania, the system provides the means to ensure the continuation of the Catholic identity and operational strength of the sponsor's Health Ministries, which are located within eleven eastern states from Maine to Florida. The system includes 34 acute care hospitals, 25 freestanding and hospital-based long-term care facilities, 12 assisted living facilities, 4 continuing care retirement communities, 37 home health/hospice agencies and numerous ambulatory and community-based health services. CHE facilities employ approximately forty three thousand full-time employees as partners in ministry. In the US it is the ninth largest health system ranked by net patient revenue, the fourth largest Catholic Health System ranked by acute care beds, and the third largest health system operating assisted living facilities ranked by residents. CHE is the largest not-for-profit home health system provider by visits. CHE was formed through the coming together of twelve religious sponsors and its three health systems. In May 1997, the Franciscan Sisters of Allegany, the Franciscan Sister of St. Joseph, nine regional communities of the Institute of the Sisters of Mercy of Americas, and the Sisters of Providence announced their intent to form a new co-sponsored system. In the fall of 1997, Allegany Health System, Eastern Mercy Health System, and Sisters of Providence Health System combined legally and operationally to create CHE. The formation of the system reflects the intention of the sponsors to strengthen the role and identity of the Catholic Health Ministry in the Eastern United States. It is grounded in the sponsors' historic commitment to the dignity of every individual, the sacredness of life, and special dedication to caring for the poor, the elderly, and disadvantaged. CHE is able to use its collective strength and resources to pioneer new and creative ways of responding to community health needs.</p>

		<p>Physical Therapy and Rehabilitation ----- The physical therapy department consists of a dynamic staff of physical therapists and physical therapist assistants who are active participants in a large multidisciplinary team. In acute care setting they provide an array of services designed to restore, improve or maintain the patient's optimal level of function, self-care, self-responsibility, independence and quality of life. The primary purpose of the physical therapy department is to provide services that will shorten hospital stay, convalescence and improve functional capacity for patients in need. The physical therapists play a vital role in the care of the post-surgical cardiothoracic patients, neurosurgical and post-surgical orthopedic patients, post-surgical gastric-bypass patients, cardiac patients, arthritic patients, wound-care patients, pulmonary patients, ICU and CCU patients and general medical patients. SFMC's physical therapists develop goals and comprehensive treatment plan upon a patient's initial evaluation. The frequency and duration of the treatment is determined by a patient's level of functional and progression in his or her program. The department also includes outpatient services with numerous subspecialties. Outpatient therapists apply state-of-the-art techniques for the management of complex orthopedic, musculoskeletal neuromuscular conditions and wound care. In addition, the department maintains a complete comprehensive program in the treatment of stroke victims. 		<p>Colorectal Cancer ----- According to the American Cancer Society, when colorectal cancer is detected early, the opportunity for cure is the greatest. SFMC's colorectal screening options can provide the diagnostic information men and women need for peace of mind. SFMC also offers other outreach services to fulfill its mission including, but not limited to, the following - Smoking cessation classes - Health fairs - Health screenings - Shots for Tots & prescription assistance - Safe Sitter course - HBC Health Business Connection - Cancer Survivor Day Volunteering ----- Under the auspices of the mission and ministry division we welcome caring individuals who donate their time and energy to help brighten the lives of our patients. They also provide support services in most of the Medical Center's departments. This enables staff to work more efficiently, and caregivers to devote more of their efforts to patient care. There were 10,511 hours worked by volunteers in 2011. Another part of SFMC's volunteer force is the junior volunteer program. Operational during the summer months, it offers high school age youth the opportunity to volunteer at the hospital for a five-week period. Physically and emotionally challenged individuals provide valuable support services at the SFMC. SFMC's numbers continue to grow in this area, and its performance is nothing short of outstanding. They provide the SFMC with needed assistance while simultaneously learning new skills, building self-esteem, confidence, and good work habits, as well as developing social skills.</p> <p>Health Business Connection ----- The Health Business Connection (HBC) luncheon takes place quarterly in some of Trenton's most prestigious locations. It was established for the following reasons - Opportunity to inform and educate the community and surrounding areas business leaders on health issues - To connect with the business community as they continue to grow along with Trenton's revitalization - Opportunity for members of the business community to network with each other and the SFMC board of trustees and doctors - Opportunity to highlight SFMC programs such as the heart hospital, the St. Francis Regional Cancer Center and the Neuroscience Institute - Opportunity for those who attend the presentations to request a specific health topic that they would like to see featured in an upcoming HBC event. This is done via surveys that are distributed and collected at every HBC luncheon.</p> <p>Academic Programs ===== Medical Education ----- ----- There are a total of 24 residents in the internal medicine program. SFMC also ranks through the NRMP each year with 8 categorical slots and 2 designated preliminary residents. Designated means that they must have been matched in a program that begins in the second year and will need to complete their first year in medicine. They must have a commitment letter from a program before they can be considered for one of two slots. There are 13 rotations per year including emergency medicine, orthopedics, ophthalmology, psychiatry, ambulatory (private office), dermatology, office gynecology, and ENT. The residents are offered an opportunity in their second year for an outside subspecialty elective. This is a very important step for selection/entry into a fellowship after completing training. Internal Medicine is accredited by the Accrediting Council for Graduate Medical Education (ACGME) and is currently accredited for three years.</p> <p>The SFMC School of Nursing ----- The reputation of the faculty, staff and graduates of SFMC School of Nursing has always been one of excellence and caring. Since 1905, when the school was founded by the Sisters of the Third Order of Saint Francis in Aston, PA, more than 3,300 graduates have contributed to various aspects of nursing and healthcare throughout the US and other countries. The School of Nursing is a two-year program, affiliated with Mercer County Community College, which culminates in a diploma in nursing from SFMC and an associate in science degree from Mercer County Community College. It is a progressive, fast-paced curriculum composed of forty credits in professional nursing courses taught at SFMC and thirty general education credits taught at Mercer County Community College. 	Form 990, Part VI, Section B, line 12c	<p>St Francis Medical Center Trenton NJ has adopted Catholic Health East's Policy 103 which sets forth the organization's conflict-of-interest policy and processes. Annually, all those serving the organization in a fiduciary capacity, including directors, officers, and key employees receive a copy of the policy and annual disclosure statement to be completed. Disclosures of financial interest or other reportable circumstances as defined in the policy are submitted and reviewed by the CEO and Board Chairman. Summary information is reported to the entire board and available to the board throughout the year as business comes before the board or management for action. The policy contains a continuing affirmative obligation on all affected individuals to disclose compensation or other circumstances throughout the year which may rise to the level of an actual or apparent conflict. The determination of whether a disclosed financial or other interest constitutes a conflict-of-interest is made by the board or an appropriate committee thereof comprised of disinterested persons and without the participation of the affected individual except to respond to questions about the disclosure. The policy further addresses the procedure for the Board's further consideration of the proposed transaction/matter without the participation of the affected person and the documentation of the proceedings. Lastly, the policy addresses potential disciplinary action for violations of the policy. The policy is available to the public upon request.</p>

Report of Independent Auditors

To the Board of Directors
Catholic Health East

In our opinion, based on our audits and the reports of other auditors, the accompanying consolidated balance sheets and the related consolidated statements of operations and changes in net assets and cash flows present fairly, in all material respects, the financial position of Catholic Health East and its subsidiaries (the "Company") at December 31, 2011 and 2010, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of certain consolidated entities which statements reflect net assets of \$77,471,000 and \$64,964,000 at December 31, 2011 and 2010, respectively, and excess of revenues over expenses of \$12,508,000 and \$11,338,000 for the years then ended. In addition, we did not audit the financial statements of certain unconsolidated entities which are represented in the following consolidated financial statements for 2011 and 2010 as investments in unconsolidated organizations of \$1,275,608,000 and \$1,160,212,000 as December 31, 2011 and 2010, respectively, and equity in earnings of unconsolidated organizations of \$146,038,000 and \$167,882,000 for the years then ended. Those statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for these entities, is based solely on the reports of the other auditors. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statement, on January 1, 2010 the Company adopted new accounting standards which included guidance regarding the recognition and subsequent accounting for goodwill, and recorded a transitional impairment charge of \$32,625,000.

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidating financial statements rather than to present the financial position, results of operations and cash flows of the individual companies and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial positions, results of operations and cash flows of the individual companies.

1. Organization, Mission and Basis of Presentation

Catholic Health East (“CHE”, the “System”, or the “Company”) was incorporated as a Pennsylvania nonprofit corporation on October 1, 1997. CHE is a catholic, multi-facility health system sponsored by nine religious congregations and Hope Ministries. Each sponsoring congregation appoints a representative to the Sponsors Council which maintains certain reserve powers, including the election of the CHE Board of Directors. CHE serves to carry out the health care ministries of the sponsoring congregations. The mission of CHE is to be a community of persons committed to being a transforming, healing presence within the communities it serves.

The consolidated financial statements of CHE include activities of its Regional Health Corporations (“RHCs”) and related component corporations all of which are wholly or majority owned. These RHCs are located throughout eleven states and the healthcare activities provided by these RHCs include, but are not limited to, general acute care hospitals, long-term care facilities, skilled nursing facilities, behavioral health, residential facilities for the elderly, physician services, home health, outpatient surgery, and other services. A list of the name and location of each RHC is provided below.

Catholic Health East and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code

CHE and its RHCs also participate in various joint ventures and partnerships, commonly referred to as joint operating agreements. These arrangements enable CHE to provide healthcare services to the broader community through involvement in larger healthcare organizations or systems.

The consolidated financial statements of CHE include the financial information of the RHCs and component corporations, the System's wholly owned captive insurance company, various philanthropic foundations of which the System maintains control, and various other organizations or corporations.

2. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements include the accounts of all entities of CHE. All significant inter-company balances and transactions have been eliminated.

Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. Management considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of the financial statements including, but not limited to, recognition of net patient service revenue, which includes contractual allowances and provisions for bad debt, estimates for healthcare professional and general liabilities, determination of fair values of certain financial instruments, and assumptions for measurement of pension liabilities. Management relies on historical experience and other assumptions believed to be reasonable relative to the circumstances in making judgments and estimates. Actual results could differ materially from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents include liquid investments with a maturity of three months or less. The carrying value of cash and cash equivalents approximates fair value.

Investments and Investment Income

Investments in marketable equities with readily determinable fair market values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Equity investments in managed funds, private partnerships, and other investments are accounted for under the equity method, which approximates fair value. Realized gains and losses on investments, unrealized gains and losses on trading securities, interest income (net of investment-related expenses), and dividends are included in investment returns, net, as part of non-operating gains and (losses) in the excess of revenue over expenses. Investment income restricted by donors or law is reported as an increase in temporarily or permanently restricted net assets.

The System's investments and marketable securities whose use is limited are invested and managed through the CHE Consolidated Investment Program (the "CIP Program"), and some investments are locally managed by the RHCs. Included in these investments are investments in managed funds, private partnerships, and other investments. The income (loss) from these managed funds is included in investment returns, net, in the accompanying consolidated statement of operations and change in net assets.

The System classifies all unrestricted investments as trading securities.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect account balances and the amounts reported in the consolidated balance sheets and statements of operations and change in net assets.

Marketable Securities and Investments Whose Use Is Limited

Marketable securities and investments whose use is limited primarily include marketable securities and investments designated by governance for future capital improvements and other purposes, in accordance with agreements with outside parties, by trustees under bond indenture agreements, self-insurance arrangements, and by donor restrictions.

Derivative Financial Instruments

The System recognizes all derivative instruments in the balance sheets at fair value. The change in the fair value of derivatives is recognized as a component of excess of revenues over expenses in the consolidated statement of operations for the years ended December 31, 2011 and 2010.

Inventories

Inventory is valued at the lower of cost (first-in, first-out) or market, net of reserves for obsolescence.

Assets Held for Sale

CHE has classified certain long-lived assets as assets held for sale in the consolidated balance sheets when the assets have met applicable criteria for this classification. CHE has classified \$36,144,000 and \$375,883,000 as current and long-term assets held for sale at December 31, 2011 and 2010, respectively. The Company has also classified \$18,850,000 and \$28,307,000 at December 31, 2011 and 2010, respectively, as liabilities related to assets held for sale.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is expensed over the estimated useful life of each class of depreciable assets and is computed using the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in the depreciation and amortization in the financial statements. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of constructing those assets.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from excess of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations

about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service

Goodwill

CHE records as goodwill the excess of purchase price over the fair value of the identifiable net assets acquired. The Company's goodwill and other intangible assets with indefinite lives are not amortized, rather, they are tested for impairment at least annually. The Company's goodwill and other intangible assets with indefinite lives are not amortized, rather, they are tested for impairment, at least annually, through a process which first evaluates any triggering event associated with an impairment, and, second, an actual measurement of the impairment, if necessitated.

Long-Lived Assets

CHE evaluates the carrying value of its long-lived assets for impairment when impairment indicators are identified. In the event that the carrying value of a long-lived asset is not supported by the fair value, the System will recognize an impairment loss for the difference. Fair value is based on the exchange price that would be received for an asset or paid to transfer a liability. The System recognized impairment losses of \$4,571,000 and \$2,906,000 for the years ended December 31, 2011 and 2010, respectively.

Investments in Unconsolidated Organizations

Investments in unconsolidated organizations represent CHE investments in joint operating agreements, joint ventures, or partnerships. The equity method is used to account for these investments.

Deferred Revenue from Advance Fees

Certain RHCs operate residential facilities for the elderly. Fees paid by residents upon entering into continuing care contracts, net of the portion that is refundable to the resident, are recorded as deferred revenue and amortized to income using the straight-line method over the estimated remaining life expectancy of the resident.

Deferred Debt Issuance Costs

Deferred debt issuance costs included in other assets at December 31, 2011 and 2010, totaling \$18,917,000 and \$21,758,000, respectively, are amortized using the straight-line method over the life of the related debt, which approximates the effective interest method.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Net Patient Service Revenue

Third-party payors (Medicare, Medicaid, and commercial insurance payors) provide payments to the hospitals at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounts from established charges, and per diem payments. Net patient service revenue is the estimated amount to be realized for services rendered, including estimated retroactive adjustments. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Allowance for Doubtful Accounts

The System records an allowance for doubtful accounts for estimated losses resulting from the unwillingness of patients or failure of payors to make payments for services. The allowance is determined by analyzing historical data and trends. Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.

Charity Care

CHE provides services to all patients regardless of ability to pay. In accordance with the System's policy, a patient is classified as a charity patient based on income eligibility criteria as established by the *Federal Poverty Guidelines*. Charges for services to patients who meet the System's guidelines for charity care are not reflected in the accompanying consolidated financial statements. The charges associated with these services for charity care provided by the System approximate \$446,139,000 and \$465,384,000 in 2011 and 2010, respectively. These amounts do not include the provision for bad debts totaling \$249,218,000 and \$251,643,000 in 2011 and 2010, respectively, which is reflected separately in the consolidated statements of operations. The charges and provisions for bad debts do not include amounts classified as discontinued operations.

Other Operating Revenue

Other revenue is derived from services other than the provision of health care services or coverage to patients or residents. This revenue consists primarily of federal and state grants, unrestricted contributions, rental income, income from health plan operations, support services, parking garages, gift shop income, cafeteria income, maintenance fee income, foundation investment income, and other miscellaneous income.

Non-Operating Gains (Losses)

Non-operating gains (losses) consist primarily of investment returns, which include investment income, dividends, net unrealized gains (losses) on trading securities, and realized gains and losses on trading securities, equity in earnings of unconsolidated organizations, restructuring expenses and impairment losses, losses on extinguishment of debt, contribution income for contributed assets, gains on the sale of assets, and the change in the fair value of interest rate swaps.

Excess of Revenue over Expenses

The statement of operations includes the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses include unrealized gains and losses on available for sale investments of unconsolidated organizations, permanent transfers of assets to and from affiliates for other than goods and services, pension adjustments, the cumulative effect of change in accounting principle, discontinued operations, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net

assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the consolidated financial statements.

Subsequent Events

CHE evaluated the impact of subsequent events through April 30, 2012, representing the date at which the consolidated financial statements were issued. See Note 20 for a discussion of CHE's material subsequent events related to the December 31, 2011 consolidated financial statements.

Adoption of Accounting Pronouncements

Effective January 1, 2010, the Company adopted ASC 958-805, *Business Combinations for Not-for-Profit Entities*, which provides guidance on the accounting for mergers and acquisitions by not-for-profit organizations and includes the recognition and subsequent accounting for goodwill resulting from an acquisition. In accordance with the new accounting standard, the Company recognized \$322,947,000 of unrestricted contribution income in 2011 for the contributed net assets related to the St. Peter's Health Partners transaction described in Note 3. This unrestricted contribution income is included as a component of non-operating gains in the accompanying consolidated statement of operations.

In accordance with ASC 958-805, effective January 1, 2010, goodwill is no longer amortized, but is evaluated and reviewed for impairment at least annually or whenever events or circumstances indicate that the carrying value may not be recoverable. Upon adoption of this guidance, CHE recorded a transitional impairment adjustment of \$32,625,000 related to goodwill recorded from the acquisition of St. Michael's Medical Center in 2008. This adjustment is included as the cumulative effect of a change in accounting principle in the 2010 statement of changes in net assets.

In 2010, the FASB issued ASU 2010-23, *Measuring Charity Care for Disclosure* that requires health care entities to use cost as the measurement basis for charity care disclosures and defines cost as the direct and indirect costs of providing charity care. The Company adopted the guidance on January 1, 2011, and the accompanying notes to the consolidated financial statements reflect the amended disclosure requirements. The cost of caring for charity care patients is disclosed in Note 2. The cost of charity care provided to patients is disclosed in Note 5. This guidance amends disclosure requirements only, therefore, there was no impact to the Company's consolidated financial statements upon adoption.

In 2010, the FASB issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which prohibits the offsetting of conditional or unconditional liabilities with anticipated insurance recoveries from third parties. The Company adopted the new guidance on January 1, 2011. The adoption of this guidance did not have a significant impact on the consolidated financial statements.

In 2011, the FASB issued ASU 2011-07, *Presentation and Disclosure of Patient Service Revenue, the Provision for Bad Debts, and Allowance for Doubtful Accounts*. This guidance requires the Company to modify the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue. Additionally, the guidance requires enhanced disclosure about the Company's policies for recognizing revenue and assessing bad debts, patient service revenue (net of contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts. The Company adopted the guidance on January 1, 2012.

Reclassifications

Certain amounts have been reclassified in the prior year's financial statements to conform to the classifications used in the current year

3. Significant Events

St. Peter's Health Partners

On October 1, 2011, St Peter's Health Care Services ("SPHCS"), Northeast Health ("NEH"), and Seton Health ("Seton") contributed their net assets to form St Peter's Health Partners. In accordance with applicable accounting guidance on not-for-profit mergers and acquisitions, the Company recorded contribution income of \$374,819,000 reflecting the fair value of the contributed assets of NEH and Seton on the transaction date. Of this amount, \$322,947,000 represents unrestricted net assets and is included as a non-operating gain in the accompanying statement of operations and changes in net assets. Temporarily restricted net assets and permanently restricted net assets of \$33,201,000 and \$18,671,000, respectively, were recorded as restricted contribution income in the accompanying consolidated statement of changes in net assets.

The consolidated statement of operations reflects the activity of NEH and Seton from the date of the transaction (October 1, 2011) to December 31, 2011. No consideration was exchanged for the net assets contributed. The fair value of assets, liabilities, and net assets contributed by NEH and Seton at October 1, 2011 were as follows:

St. Joseph's Health System

On December 31, 2011, the Company contributed certain assets and liabilities of St. Joseph's Health System to a joint operating company ("JOC") with Emory Healthcare in exchange for a 49% non-controlling ownership interest. The entities contributed to the JOC include St. Joseph's Hospital of Atlanta, Saint Joseph's Real Estate Corporation, Saint Joseph's Service Corporation, The Medical Group of Saint Joseph's, Saint Joseph's Translational Research Institute, and the International College of Robotic Surgery. The resulting equity investment of \$142,175,000 is included in investments in unconsolidated organizations in the accompanying consolidated balance sheet. The related operating results are classified separately within operating income.

Mercy Health System of Southeastern Pennsylvania

On November 30, 2011, Mercy SEPA Mercy Health System of Southeastern Pennsylvania sold its equity ownership interests in certain Medicaid managed care organizations to Independence Blue Cross and Blue Cross/Blue Shield of Michigan. As consideration for the sale, Mercy Health System received a lump sum cash payment of \$194.0 million and a \$43.0 million pledge to the Mercy Health System Foundation to be paid over a seven (7) year period, which is included in other assets in the accompanying consolidated balance sheet. Mercy Health System recognized a gain on sale of \$94.9 million related to this transaction.

Mercy Hospital, Miami

On May 1, 2011, the Company sold certain entities of Mercy Hospital, Miami to Hospital Corporation of America ("HCA"). The entities sold include Mercy Hospital, Sister Emmanuel Hospital for Continuing Care, Mercy Medical Development, and Mercy Physician Group. The results of these operations are reflected as discontinued operations in the accompanying statement of operations and changes in net assets. Proceeds from the sale were used primarily to satisfy long-term debt obligations of Mercy Hospital, Miami.

4. Net Patient Service Revenue

Net patient service revenue from the Medicare and Medicaid programs, exclusive of managed care, accounted for approximately 30.8% and 10.0%, respectively, of total net patient service revenues in 2011, and 31.0% and 9.4%, respectively of total net patient service revenue in 2010. Compliance with laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Management believes that adequate provision has been made for adjustments that may result from reviews by third-party payors. Estimated net settlements related to Medicare and Medicaid, collectively, of \$49,016,000 and \$19,626,000 in 2011 and 2010, respectively, are included as a component of current liabilities in the accompanying consolidated balance sheets. The amounts recorded for these estimated settlements approximate their fair value.

Net patient service revenue includes approximately \$1,948,000 and \$6,077,000 in 2011 and 2010, respectively, related to favorable changes in estimates for prior year cost report reopenings, appeals, and tentative and final cost reports, of which some are still subject to audit, additional reopening, and/or appeals.

The following summarizes net patient service revenue for the years ended December 31

<i>(in thousands of dollars)</i>	2011	2010
Gross patient service revenue	\$14,750,742	\$14,367,456

Net patient service revenue	<u>\$4,018,757</u>	<u>\$3,774,570</u>

5. Social Accountability Costs (Unaudited)

In keeping with the mission and purpose of CHE, to carry out the health care ministries of the sponsoring congregations by serving as a community of persons committed to being a transforming, healing presence within the communities it serves, and in particular the needs of the poor, the System strives to maximize the provision of services in its communities and in collaboration with other organizations. A portion of CHE's overall operating expense relates to costs incurred in providing and meeting certain community needs for which CHE is not directly compensated.

A standard reporting and accountability process is utilized throughout CHE to estimate the net cost of these services, referred to as Social Accountability Costs, which provides a basis of accountability and reporting to the communities served for purposes of disclosing the utilization of resources. Costs reported are net of contributions or grants that have been provided to CHE and designated for these purposes.

The information presented below has been calculated and is presented in accordance with the Catholic Health Association's, *A Guide for Planning and Reporting Community Benefits*, Copyright 2008. Social accountability costs for the years ended December 31 are as follows:

<i>(in thousands of dollars)</i>	2011	2010
Cost of care for those who are poor	\$59,389	\$58,378
Cost of community benefit programs	74,085	75,705
Other public programs	9,786	12,186
Unpaid cost of Medicaid programs	<u>79,619</u>	<u>82,557</u>
Social accountability costs	<u>\$222,879</u>	<u>\$228,826</u>
Percentage of operating expenses	<u>4.6%</u>	<u>4.8%</u>
Unpaid cost of Medicare programs	<u>\$197,923</u>	<u>\$181,675</u>

The cost of care of the poor is based on the System's estimated net cost of providing services to those unable to pay. The cost of the community benefit programs reflects the costs to develop and provide programs that are developed and provided to meet special community needs that would not otherwise be available. Volunteer service reflects both internal and external services provided to support patient care activities and community programs. The difference between amounts reimbursed to the System under the Medicare and Medicaid programs and the estimated cost of providing care for these respective programs is reflected as an unpaid cost of the program.

6. Marketable Securities and Investments Whose Use Is Limited and Equity Investments in Managed Funds

The composition of investments at December 31 is as follows

(in thousands of dollars)

	2011	2010
Reported at fair value		
Cash and cash equivalents	\$361,260	\$337,459
Marketable equity securities	466,722	478,433
Marketable debt securities	408,803	361,042

Reported under the equity method		
Managed funds	250,982	286,121
	<u>\$1,487,767</u>	<u>\$1,463,055</u>

A portion of CHE's long-term investment assets are held in the CIP Program. The CIP Program is structured under a Program Participation Agreement (the "Agreement") between each participant RHC and CHE. All investments in the CIP Program are professionally managed under the administration of CHE.

Participants' investments held in the CIP Program are assigned a weighted value for the period of time the funds are invested in the CIP Program. Investment income from the CIP Program, including interest income, dividends, and realized gains and losses on sales of securities, and unrealized gains and losses are distributed to participants based on their weighted value of investment.

The underlying fair value of investments in the CIP Program, which are traded on national exchanges (except for managed funds), is based on the final reported sales price on the last business day of the year. The fair value of investments traded in over-the-counter markets is based on the average of the last recorded bid and asked prices.

CHE participates in a securities lending program wherein some investments are loaned on an overnight basis to various brokers. CHE receives lending fees and earns interest and dividends on the loaned securities. These securities are returnable on demand and are collateralized by cash deposits and U.S. Treasury Obligations. Collateral received is at 100% of the fair value of the securities on loan. CHE is indemnified against borrower default by the financial institution acting as lending agent. At December 31, 2011 and 2010, securities with a fair market value of \$130,634,000 and \$35,104,000, respectively, were loaned under securities lending agreements.

7. Fair Value Measurements

The System adheres to applicable accounting guidance for fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America and requires certain disclosures about fair value measurements. Fair value is defined under the guidance as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

As a basis for considering assumptions, the guidance establishes a hierarchical framework for measuring fair value (the fair value hierarchy) as follows:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar instruments, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement

Financial instruments measured at fair value are based on one or more of the three valuation techniques noted in the fair value guidance. The three valuation techniques are as follows:

Market approach Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities

Cost approach Amount that would be required to replace the service capacity of an asset (i.e., replacement cost)

Income approach Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques and option-pricing models)

The System measures its interest rate swaps at fair market value on a recurring basis. The fair market value of the interest rate swaps is determined based on financial models that consider current and future market interest rates and adjustments for non-performance risk.

Financial instruments at fair value at December 31, 2011 and 2010 are as follows:

At December 31, 2011 and 2010, approximately \$859.2 million and \$633.1 million of property and equipment, net, is pledged as collateral under various loan agreements. Interest cost, net of related interest income, totaling approximately \$3.2 million and \$6.0 million was capitalized to construction in progress during 2011 and 2010, respectively.

9. Investments in Unconsolidated Organizations

Catholic Health East has investments in unconsolidated organizations totaling \$1,450,068,000 and \$1,325,201,000 at December 31, 2011 and 2010, respectively. Several significant investments, which are accounted for under the equity method, comprise this balance including, but not limited to, the following:

BayCare Health System

CHE has a fifty percent interest in BayCare Health System Inc. and Affiliates ("BayCare"), a Florida not-for-profit corporation exempt from state and federal income taxes. BayCare was formed in 1997 pursuant to a Joint Operating Agreement ("JOA") among the not-for-profit, tax-exempt members of the Catholic Health East BayCare Participants, Morton Plant Mease Health Care, Inc., and South Florida Baptist Hospital, Inc. (collectively, the Members). BayCare consists of three community health alliances located in the Tampa Bay area of Florida including St. Joseph's-Baptist Healthcare Hospital, St. Anthony's Health Care, and Morton Plant Mease Health Care with an aggregate of approximately 2,900 acute care beds. CHE has the right to appoint nine of the twenty-one members of the Board of Directors of BayCare. At December 31, 2011 and 2010, CHE's recorded investment in BayCare totaled \$1,138,120,000 and \$1,071,455,000, excluding wholly owned subsidiaries and other beneficial interests.

Catholic Health System, Inc.

CHE has a one-third interest in Catholic Health System, Inc. and Subsidiaries ("CHS"). CHS, formed in 1998, is a not-for-profit integrated delivery healthcare system in Western New York jointly sponsored by the Sisters of Mercy, Ascension Health System, the Franciscan Sisters of St. Joseph, and the Diocese of Buffalo. CHE, Ascension Health System, and the Diocese of Buffalo are the corporate members of CHS. CHS operates several organizations, the most significant of which are four acute care hospitals located in Buffalo, New York, Mercy Hospital of Buffalo, Kenmore Mercy Hospital, Sisters of Charity Hospital, and St. Joseph Hospital. At December 31, 2011 and 2010, CHE's recorded investment in CHS totaled \$12,914,000 and \$24,523,000, respectively.

Emory Healthcare/St. Joseph's Health System

On December 31, 2011, CHE completed a JOA agreement with Emory Healthcare as described in Note 3, and retains a forty-nine percent interest in Emory Healthcare/St. Joseph's Health System ("EH/SJHS") EH/SJHS operates several organizations, including two acute care hospitals, St. Joseph's Hospital of Atlanta, and John's Creek Hospital. At December 31, 2011, CHE's recorded investment in EH/SJHS totaled \$142,175,000.

Condensed consolidated balance sheets of BayCare, including wholly owned foundations and other beneficial interests, CHS and EH/SJHS as of December 31 are as follows:

(in thousands of dollars)

	Baycare		CHS		EH/SJHS	
	2011	2010	2011	2010	2011	2010
Assets	\$4,014,123	\$3,883,968	\$682,748	\$566,164	\$639,369	NA

	<u><u>\$1,627,438</u></u>

The fair value of the System's long term debt is based on quoted market prices or estimates using discounted cash flow analyses, based on the participating facility's incremental borrowing rates for similar types of borrowing arrangements. The fair value of the System's long-term debt, based on quoted market prices, at December 31, 2011 and 2010 was \$1.54 billion and \$1.61 billion, respectively, compared to the carrying value of \$1.39 billion and \$1.59 billion, respectively. This excludes capital leases, notes payable, and mortgage notes.

On December 31, 2011, CHE transferred the outstanding debt of St. Joseph's Hospital, including the Series 2007A Revenue Bonds of \$9,900,000, the Series 2009 Revenue Bonds of \$68,970,000, and the Series 2010 Revenue Bonds of \$40,135,000 to the St. Joseph's/Emory Healthcare Joint Operating Agreement described in Note 3. Subsequent to the transfer date, the debt is guaranteed by Emory University and is no longer an obligation of the CHE Obligated Group.

On June 1, 2011, CHE repaid the outstanding debt of Mercy Hospital, Miami, including the Series 1998 Hospital Revenue Bonds of \$10,000,000, the Series 2002 Hospital Revenue Bonds of \$35,000,000, the Series 2003C Hospital Revenue Bonds of \$14,000,000, the Series 2008 Hospital Revenue Bonds of \$31,900,000, and the Series 2009 Hospital Revenue Bonds of \$29,300,000. The debt was repaid with proceeds from the sale of certain entities of Mercy Hospital, Miami to HCA as described in Note 3.

On February 3, 2011, CHE issued \$34,200,000 of Series 2011 Hospital Revenue Bonds through the City of Albany Capital Resource Corporation. The bonds were issued as fixed rate bonds with interest rates ranging from 3.0% to 6.25%. The proceeds of this issue were used for St. Peter's Hospital Master Facilities Plan building and equipment projects, to fund a debt service reserve fund, to pay capitalized interest, and to pay the costs of issuance.

In 2010, CHE issued a tender offer to bondholders of the Series 2007 bonds that were previously issued in New Jersey. Of the \$99,600,000 in outstanding bonds, offers totaling \$98,200,000 were accepted, or 98.5% of the total. In exchange for the \$98,200,000, CHE issued \$90,000,000 of fixed rate bonds and terminated \$10,400,000 of related interest rate swaps.

In 2010, CHE issued \$130,700,000 of Series 2010 Hospital Revenue Bonds through New Jersey Health Care Facilities Financing Authority. The bonds were issued as fixed rate bonds with interest rates ranging from 2.0% to 5.0%. The proceeds of this issue were used to refund and redeem certain of the outstanding Series 1998 and Series 2007 Revenue Bonds previously issued in New

Jersey, and to pay the costs of issuance. As part of this transaction, the System recorded a gain on extinguishment totaling \$7,800,000.

In 2010, CHE issued \$287,600,000 of Series 2010 Hospital Revenue Bonds through financing authorities in Florida, Connecticut, Georgia, Massachusetts, North Carolina, and Pennsylvania. The bonds were issued as fixed rate bonds with interest rates ranging from 2.0% to 5.0%. The proceeds of this issue were used to advance refund and redeem and to pay the costs of issuance of certain outstanding Series 1998 and Series 1999 Revenue bonds issued in Massachusetts, Connecticut, Pennsylvania, New Jersey, North Carolina, Georgia, and Florida, and to finance \$50,000,000 in capital projects for St. Mary Medical Center in Pennsylvania. As part of this transaction, the System recorded a loss on extinguishment totaling \$6,900,000.

Certain CHE constituent corporations are members of the CHE Obligated Group. Under the Amended and Restated Master Trust Indenture dated January 1, 1998 and amended and restated as of September 30, 2007, Obligated Group members provide a revenue pledge and are joint and severally liable on all obligations outstanding under the Master Indenture. Additionally, the Obligated Group has agreed to comply with certain covenants including the repayment of principal and interest, notification regarding admission or withdrawal of members of the Obligated Group, to deliver financial statements and other related information by specified due dates, to maintain insurance, and to maintain a long-term debt service coverage of at least 1.10 to 1.00.

Pursuant to loan agreements between CHE and various RHCs, promissory notes have been executed by each RHC in amounts equal to the amount of proceeds necessary to defease previously existing debt and provide for capital projects.

In prior years, CHE advance refunded certain of its bonds which are no longer reflected in the consolidated financial statements since CHE has legally satisfied its obligation through defeasance. Funds are held in an irrevocable escrow with a trustee and are expected to be sufficient to satisfy the obligations.

The CHE revolving credit loan facility was refinanced in 2010. The credit facility is structured through a consortium with five banks and extends through June 9, 2014. The credit facility totals \$200,000,000 with an option to increase the credit facility to \$250,000,000. At December 31, 2011 and 2010, approximately \$43,697,000 and \$37,933,000, respectively, of the total credit facility was obligated for standby letters of credit. Additionally, approximately \$106,035,000 and \$52,800,000 at December 31, 2011 and 2010, respectively, had been borrowed against the total credit facility. Borrowings under this agreement may be repaid at any time and are payable upon termination of the agreement. These borrowings were used to finance various capital projects at several of the RHCs. Use of the credit facility for standby letters of credit is limited to \$100,000,000 of the total credit facility.

Certain of the System's variable rate demand bonds are supported by irrevocable letters of credit with expiration dates in 2013 and 2014. CHE is the guarantor for these letters of credit. The letters of credit and dates of expiration are as follows:

<u>RHC</u>	<u>Associated Bond Issue</u>	<u>Expiration</u>
Mercy Medical Corporation	Series 1997	11/1/2013
Mercy Medical Corporation	Series 2000	1/31/2013

Blended Cost of Debt Program

CHE maintains a Blended Cost of Debt Program (the "Debt Program") to provide a uniform cost of debt for participating RHCs and to mitigate the interest rate risk of an RHC.

Under the Debt Program, all debt costs, excluding taxable debt, capitalized leases, and short-term borrowing, are blended. The calculation of the blended costs incorporates bond interest, both fixed and variable, debt-related fees, such as letters of credit, credit enhancement, remarketing, auction, as well as periodic rating agency, bond trustee, master trustee and issuing authority fees, net swap payments/receipts and put/guaranty receipts, along with other miscellaneous fees related to tax-exempt debt issued by CHE and its affiliates.

Participants in the Debt Program make periodic payments to CHE. Each participant's periodic payment is based on their respective percentage of total indebtedness included in the Debt Program. Principal payments are not blended. Participants make their scheduled principal payments to CHE in the month they are due.

11. Derivative Financial Instruments

CHE has entered into derivative transactions for the purpose of reducing interest rate volatility and to reduce interest expense. CHE has entered into fixed-to-floating interest rate swaps, basis swaps, and fixed-payor swaps.

At December 31, 2011 and 2010, fourteen *basis swap* transactions were outstanding in the CHE Debt Program with notional amounts totaling \$717,000,000 and maturity dates ranging from February 2023 to December 2028. In the basis swap transactions, CHE receives a floating taxable rate and pays a floating tax-exempt rate. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2011 and 2010, six and four *fixed-to-floating interest rate swap* agreements, respectively, were outstanding in the CHE Debt Program. The fixed-to-floating swaps had notional amounts totaling \$150,000,000 and \$95,000,000 at December 31, 2011 and 2010, respectively, and maturity dates ranging from May 2012 to December 2021. These fixed-to-floating interest rate swap agreements effectively convert a portion of the System's fixed rate debt to a floating rate basis and are not designated as hedges for financial reporting purposes.

At December 31, 2011 and 2010, four and five *fixed-payor interest rate swap* agreements, respectively, were outstanding in the CHE Debt Program. The fixed-payor swaps had notional amounts totaling \$27,700,000 and \$37,800,000 at December 31, 2011 and 2010, respectively, and maturity dates ranging from November 2032 to November 2034. Under these interest rate swap

agreements CHE pays a fixed rate and receives a variable rate. Additionally, the cash flows from these interest rate swap agreements equal the rates on the bonds and therefore effectively convert the debt to a fixed rate. The notional amount of these interest rate swap agreements declines in relation to the annual principal payments on the hedged debt. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2011 and 2010, seven and two *total return swap* agreements, respectively, were outstanding in the CHE Debt Program. The total return swaps had notional amounts totaling \$104,300,000 and \$54,135,000 at December 31, 2011 and 2010, respectively, and maturity dates ranging from October 2012 to May 2014. Under these swap agreements, CHE receives a fixed rate on the amount corresponding to the par amount of the outstanding bonds, and pays the Securities Industry and Financial Markets Association ("SIFMA") index. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2011, three *fixed-to-floating interest rate swaps* were outstanding outside the CHE Debt Program with notional amounts totaling \$51,530,000 and maturity dates ranging from November 2013 to August 2032. These fixed-to-floating swaps were not outstanding as of December 31, 2010. In accordance with certain of these swap agreements a collateral account may be required as security for the swap.

The fair value of derivative instruments at December 31 is as follows:

(in thousands of dollars)

	2011		2010	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value

Certain of CHE's derivative instruments contain credit-risk-related provisions that require CHE and its counterparties to post collateral in varying amounts based on respective credit ratings. If CHE's debt were to fall below investment grade, the counterparties to the derivative instruments would require CHE to post collateral only if the aggregate position of all derivative instruments is negative. Based on CHE's current credit rating, the System was not required to post collateral as of December 31, 2011 or 2010. Locally held derivative instruments (non-CHE) required posted collateral at December 31, 2011 and 2010 in the amount of \$753,000 and \$0, respectively.

12. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity. Temporarily restricted net assets at December 31 are available for the following purposes:

(in thousands of dollars)	2011	2010
Temporarily restricted net assets		
Education and research	\$5,397	\$7,790
Building and equipment	27,406	48,025
Patient care	16,480	11,162
Cancer Center/research	6,110	1,976
Other	85,221	63,351
	<u>\$140,614</u>	<u>\$132,304</u>

Permanently restricted net assets at December 31 are restricted as follows

<i>(in thousands of dollars)</i>	2011	2010
Permanently restricted net assets		
Investments to be held in perpetuity, the income from which is expendable to support health care services (reported as operating income)	\$36,272	\$18,554
Endowments requiring income to be added to the original gift	2,282	2,335
Other	<u>8,152</u>	<u>7,081</u>
	<u>\$46,706</u>	<u>\$27,970</u>

The System classifies the portions of donor-restricted endowment funds of perpetual duration as permanently restricted net assets. Permanently restricted net assets of the System are comprised of a) the original value of gifts donated to the System through a permanent endowment, b) the original value of subsequent gifts to the System through a permanent endowment, and c) accumulations to the permanent endowment in accordance with applicable donor gift instruments. Any portions of donor-restricted endowment funds that are not classified as permanently restricted are appropriated in accordance with donor intent.

The System considers the following factors in determining if donor-restricted endowment funds are accumulated or appropriated:

- 1) the duration and preservation of the fund
- 2) the purposes of the System's donor-restricted endowment funds
- 3) general economic conditions
- 4) effect of possible inflation or deflation
- 5) the expected total investment return and appreciation of investments
- 6) other resources of the System
- 7) investment policies of the System

The System's permanently restricted net assets consist of individual endowment accounts. Unless otherwise directed by the donor, gifts received for endowments are invested in accordance with the System's investment policy. Unless otherwise directed by the donor, the System annually appropriates a certain percentage of each endowment fund, which is then available for spending in accordance with the donor's intent. In order to preserve the real value of a donor's gift and to sustain funding consistent with donor intent, the annual appropriation rate is set to strike a reasonable balance between long-term objectives of preserving and growing each endowment fund for the future and providing stable, annual appropriations.

The composition of endowment fund net assets, by type of fund, at December 31, 2011 and 2010 are as follows

(in thousands of dollars)

	2011		
	Unrestricted	Temporarily Restricted	Permanently Restricted
Donor-restricted endowment funds	\$ -	\$82,087	\$46,706

13. Insurance

Professional and general liability risk is insured through Stella Maris Insurance Company, Ltd a wholly owned, captive insurance company, commercial insurance and reinsurance companies, and self-insured programs. Excess insurance over self-insured amounts and coverage provided by the captive has been purchased from the commercial insurance and reinsurance markets. The excess professional liability coverage is provided on a claims-made basis. There are known claims and incidents that may result in the assertion of additional claims, as well as claims from unknown incidents that may be asserted arising from services provided to patients. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued malpractice losses have been discounted at a rate of 4.0% at December 31, 2011 and 2010, and in management's opinion provide an adequate reserve for loss contingencies.

CHE maintains a large deductible program for workers' compensation. Losses from asserted claims and from unasserted claims identified under CHE's incident reporting systems are accrued based on estimates that incorporate CHE's experience, relevant trends, and other factors. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses have been discounted at a rate of 4.0% at December 31, 2011 and 2010, and in management's opinion provide an adequate reserve for loss contingencies.

Total amounts accrued under these programs as current liabilities approximate \$19,533,000 and \$20,996,000 at December 31, 2011 and 2010, respectively. Total amounts accrued under these programs as long-term liabilities approximate \$295,981,000 and \$303,718,000 at December 31, 2011 and 2010, respectively.

Bank-administered trust and other accounts have been established for the purpose of segregating assets. These trusts are funded based on actuarial estimates and can only be used for payment of malpractice losses, related expenses, and administrative costs of the trusts. Assets of the trusts are included in marketable securities whose use is limited.

The total amount charged to expense under these self-insured programs was \$49,620,000 and \$48,073,000 in 2011 and 2010, respectively.

14. Pension Plans

The System maintains non-contributory defined benefit pension plans that vary from one RHC to another, collectively, "the Plan."

During 2010, CHE amended substantially all defined benefit pension plans to freeze service accruals. As a result of the service accrual freeze curtailment charges of \$1,166,000 and curtailment credits of \$2,978,000 were recognized in 2010 representing the immediate recognition of unamortized prior service costs and credits.

The following table sets forth the change in benefit obligation and the change in fair value of plan assets based on the measurement date, and the amounts recognized in the consolidated financial statements at December 31

<i>(in thousands of dollars)</i>	2011	2010

Net periodic benefit cost	<u><u>\$20,985</u></u>	<u><u>\$17,603</u></u>

The net actuarial loss that will be amortized from unrestricted net assets in the net periodic benefit cost in 2012 is \$17,773,000

The accumulated benefit obligation for the Plan was \$1,323,714,000 and \$988,730,000 at December 31, 2011 and 2010, respectively

The assumptions used to determine the benefit obligation and periodic benefit cost at December 31 are as follows

	2011	2010
Assumptions used to determine the benefit obligation at December 31		
Weighted average discount rate	4.15% - 5.00%	5.60% - 6.10%
Weighted average rate of compensation increases	3.75% - 4.25%	4.25%
Weighted average expected long-term rate of return on plan assets	7.5% - 8.50%	8.00%
Assumptions used to determine periodic benefit cost at December 31		
Weighted average discount rate	4.90% - 5.55%	6.05% - 6.20%
Weighted average rate of compensation increases	3.75% - 4.25%	4.25%
Weighted average expected long-term rate of return on plan assets	7.5% - 8.50%	8.00% - 8.50%

Investment Policy and Asset Allocations – In developing the assumption for the expected rate of return on assets, CHE evaluates historical returns, the level of expected returns on risk-free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected rate of return for each asset class is then weighted based on the target asset allocation to develop the assumption for the expected long-term rate of return on assets. For plans with frozen service accruals, the investment policy was modified to allow for asset allocation changes over time as the plans become more fully funded in order to de-risk the plans. This strategy utilizes a “glide path” approach, consisting of a series of target asset allocations for various funded ratio levels, reduces exposure to return seeking assets (marketable equity securities and managed funds) and increases exposure to the liability-hedging assets (cash and marketable debt securities) over time. This strategy will be utilized going forward for the plans with frozen service accruals.

The weighted average asset allocation for the plan at December 31 and the target allocation for calendar year 2011, by asset category, are as follows

Asset category	Target Allocation 2012	2011	Target Allocation 2011	2010
	From-To		From-To	
Cash & marketable debt securities	18.8% - 40.0%	22.5%	18.8% - 40.0%	21.7%
Marketable equity securities & managed funds	60.0% - 81.2%	77.5%	60.0% - 81.2%	78.3%
	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>

The portfolio is diversified among a mix of assets including large and small cap, domestic and foreign equities, fixed income, managed funds, and cash. Asset mix is targeted to a specific allocation, either intermediate or long-term, that is established by evaluating expected return, standard deviation, and correlation of various assets against the plan's long-term objectives. Asset performance is monitored quarterly and rebalanced if asset classes exceed explicit ranges. The investment policy governs permitted types of investments, and outlines specific benchmarks and performance percentiles. The Investment Subcommittee of the Stewardship Committee of the CHE Board oversees the pension investment program and monitors investment performance. Risk is closely monitored through the evaluation of portfolio holdings and tracking the beta and standard deviation of the portfolio performance.

The following table presents the Plan's financial instruments as of December 31, 2011 measured at fair value on a recurring basis using the fair value hierarchy defined in Note 7. The investments are not included in the marketable securities whose use is limited in the accompanying consolidated balance sheet. These investments are maintained separately in a pension investment program that is controlled by a trustee.

15. Concentration of Credit Risk

CHE grants credit without collateral to its patients, most of whom are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at December 31 was as follows

	<u>2011</u>	<u>2010</u>
Managed care	29.4 %	32.6 %
Medicare	24.8 %	27.5 %
Medicaid	10.5 %	10.4 %
Self-pay	11.2 %	7.0 %
Other third-party payors	13.7 %	10.8 %
Commercial	10.4 %	11.7 %
	<u>100.0 %</u>	<u>100.0 %</u>

In addition, CHE invests its cash and cash equivalents primarily with banks and financial institutions. These deposits may be in excess of federally insured limits. Management believes that the credit risk related to these deposits is minimal.

16. Commitments and Contingencies

The RHCs are defendants in various lawsuits relating primarily to rendering of health care services. In each instance, management of the respective RHCs is of the opinion that the liability, if any, resulting therefrom will be covered by insurance or will not have a material adverse impact on the consolidated financial statements of CHE. In addition, certain CHE entities have been contacted by governmental agencies regarding alleged violations of practices for certain services. Management of the respective RHCs has performed, with the advice and assistance of outside legal counsel, an evaluation of billing practices and compliance with related laws and regulations. In the opinion of management, after consultation with outside legal counsel, the ultimate outcome of these matters will not have a material adverse impact on the consolidated financial statements of CHE.

17. Leases

The RHCs lease office space and certain equipment under noncancelable operating leases. Rental expense was approximately \$85,939,000 and \$70,892,000 in 2011 and 2010, respectively.

Future minimum lease payments for all noncancelable leases as of December 31, 2011 are as follows:

(in thousands of dollars)

2012	\$55,314
2013	48,506
2014	39,425
2015	34,300
2016	30,675
Thereafter	66,871
	<u>\$275,091</u>

18. Functional Expenses

CHE provides general health care services to residents within their geographic location including acute care, skilled nursing, outpatient care, home healthcare, physician practices, and behavioral services. Expenses related to providing these services at December 31 are as follows:

(in thousands of dollars)

	2011	2010
Health care services	\$3,471,454	\$3,228,551
General and administrative	821,683	776,375
	<u>\$4,293,137</u>	<u>\$4,004,926</u>

19. Assets Held for Sale and Discontinued Operations

The Boards of Directors at certain of the Company's RHCs have approved management plans to divest or otherwise exit certain services lines and asset groups. Service lines and asset groups subject to such management plans are collectively referred to as the Disposal Group.

Details of the assets held for sale, the related liabilities, and discontinued operations of the Disposal Group at December 31 are provided below.
