Footnote for uncertain tax position under FIN 48 Part X		SLM has adopted accounting principles related to accounting for uncertainty in income taxes. SLM's policy is to record a liability for any tax position taken that is beneficial to SLM, including any related interest and penalties, when it is more likely than not the position taken by management with respect to a transaction or class of transactions will be overturned by a taxing authority upon examination. Penalties and interest related to underpayment of income taxes are not recorded as income taxes but as penalties and interest expense. Management believes there are no such positions as of year-end and accordingly no liability has been accrued.
