The PNC Foundation Giving Guidelines

MISSION

The PNC Foundation's mission is to form alliances with community-based nonprofit organizations within the markets PNC serves, to enhance educational opportunities for children, particularly underserved pre-K children through our signature, PNC Grow Up Great program, and to promote the growth of targeted communities through economic development initiatives.

FUNDING PRIORITIES

The PNC Foundation supports a variety of nonprofit organizations with a special emphasis on those that work to achieve sustainability and touch a diverse population, in particular, those that support **early childhood education** and/or **economic development.**

• EDUCATION

The PNC Foundation supports educational programs for children and youth, particularly early education initiatives that serve low-and moderate-income children (birth through five), their teachers and families Priority is given to programs that focus in the areas of math, science or the arts and include one or some combination of the following:

- Direct services for children in their classroom or community
- Professional development for teachers
- Family engagement of children being served by grants
- Volunteer opportunities for PNC employees

• ECONOMIC DEVELOPMENT

Economic development organizations, including those which enhance the quality of life through neighborhood revitalization, cultural enrichment and human services are given support. Priority is given to community development initiatives that strategically promote the growth of targeted low-and moderate-income communities and/or provide services to these communities

Affordable Housing

The PNC Foundation understands the critical need for affordable housing for low-and moderate-income individuals. We are committed to providing support to nonprofit organizations that give counseling and services to help these individuals maintain their housing stock, offer transitional housing units and programs; and/or offer credit counseling assistance to individuals, helping them to prepare for homeownership.

Community Development

Because small businesses are often critical components of community growth and help foster business development, the PNC Foundation provides support to nonprofit organizations that (i) offer technical assistance to, or loan programs for, small businesses located in low-and moderate-income areas or (ii) support small businesses that employ low-and moderate-income individuals.

Community Services

Support is given to social services organizations that benefit the health, education, quality of life or provide essential services for low-and moderate-income individuals and families. The PNC Foundation supports job training programs and organizations that provide essential services for their families. PNC provides support for early learning and educational enrichment programs for children in low-and moderate-income families as well as for the construction of community facilities that benefit low-and moderate income communities.

Revitalization and Stabilization of Low-and Moderate-Income Areas

The PNC Foundation supports nonprofit organizations that serve low-and moderate-income neighborhoods by improving living and working conditions. Support is given to organizations that help stabilize communities, eliminate blight and attract and retain businesses and residents to the community.

As part of this commitment, PNC favors providing programmatic support for nonprofit organizations that address children's school readiness through one or more of the following critical areas:

  - **Social and Emotional Development**
    Experts agree that children who do not begin kindergarten socially and emotionally ready are often unsuccessful in their early years of school and can be plagued by later behavioral and academic difficulties that may follow them into adulthood. To address this challenge, PNC favors providing resources for programmatic support, parenting tools and development resources that effectively promote confidence, relationship building and other social and emotional learning for children.

  - **Teacher Training**
    Research has shown that educated teachers heavily contribute to providing high quality learning experiences for young students through appropriate approaches to instruction. Knowing this, PNC is dedicated to providing educational and professional development opportunities for Pre-K teachers, technical assistance, training and consultation, as well as curriculum and tools to enhance Pre-K classrooms and center directors.

  - **Arts and Culture**
    Top doctors have told us that all of the experiences a child has – observing, listening, body movement – create connections in the brain and support the child's cognitive development. Understanding this, PNC is committed to providing cultural enrichment programs for underserved children so that they may have experiential opportunities which promote tolerance and cultural diversity and stimulate the child's brain to actively engage in learning.

- **Economic Development**
  The PNC Foundation focuses on providing grants to organizations that are dedicated to economic development, including those which enhance the quality of life for the region through community revitalization, cultural enrichment and broad-based human services. Particular emphasis is given to supporting community development initiatives that strategically promote the growth of targeted low or moderate income communities and/or provide services to the residents of these communities.

  - **Affordable Housing**
    PNC understands the critical need for affordable housing for low- or moderate-income individuals Knowing this, PNC is committed to providing support to nonprofit organizations that give counseling and services to help

these individuals maintain their housing stock; offer transitional housing units and programs; and/or offer credit counseling assistance to individuals, helping them to prepare for homeownership.

- **Economic Development**
  Small businesses are often critical components of community growth To help foster business development, the PNC Foundation provides support to nonprofit organizations that offer technical assistance to, or loan programs for, small businesses located in low- or moderate-income areas.

- **Community Services**
  Organizations that offer programs and social services that benefit the health, education and quality of life for low- or moderate-income individuals and families are vital to society. PNC is dedicated to providing support for job training programs for these individuals as well as to nonprofit organizations that provide essential services for their families. In addition, PNC provides support for early learning and educational enrichment programs for children in low- or moderate-income families as well as for the construction of community facilities that benefit low- or moderate-income communities

- **Revitalization and Stabilization of Low- or Moderate-Income Areas**
  PNC recognizes the need to support activities, not elsewhere classified, that work to revitalize or stabilize low- or moderate-income geographies. Therefore, PNC offers assistance to nonprofit organizations that add to the quality of life in low- or moderate-income neighborhoods by serving to improve living and working conditions for the area, such as eliminating blight. In addition, PNC will support nonprofit organizations that help stabilize communities by creating or retaining jobs for low- or moderate-income individuals, provide commercial space for small businesses and/or provide needed services (such as grocery stores) in low- or moderate-income communities.
