Part IX-A Summary of Direct Charitable Activities

List the foundation's four largest direct charitable activities during the tax year. Include relevant statistical information such as the number of organizations and other beneficiaries served, conferences convened, research papers produced, etc.	Expenses
1 Develop staff capability and expertise to respond to the charitable purposes of the Halloran Foundation. The Foundation retained consultants in 2011 to serve as advisors in social capital markets, renewable energy, leadership development and community development in order to respond to the mission of the Foundation. The investment in these specialty areas has enabled the Foundation to support research, convene groups of experts and develop charitable programs designed to improve the social and economic conditions.	153,253
2 Implement a clean energy program in the Emerging World. The Foundation supports programs to alleviate poverty by providing clean energy to low-income communities. The program supports renewable energy services to rural communities in India, Mexico, Nepal, and the Philippines. One of the goals is to enhance enterprise development within the communities by providing vocational training along with business development.	266,828
3 Support social entrepreneurship supporting accelerator organizations and social entrepreneurs who are implementing initiatives that address inequality, poverty alleviation, medical care, education and community wellbeing. The Foundation is committed to promote social entrepreneurship through direct financial support and by serving as a catalyst and consultant to several accelerator organizations involved in the training and development of social entrepreneurs. The Foundation worked with several NGOs involved in entrepreneurship in India, Mexico, Colombia, Brazil and the US. The Foundation also took an active role in sponsoring conferences which are dedicated to promote social entrepreneurs. We believe that entrepreneurship is a powerful driver for positive social change. It stimulates the economy, creates meaningful jobs and provides products and services that positively impact society.	479,288
4 In 2008, The Halloran Foundation and the Center for Ethical Business Cultures at the University of St. Thomas (Minnesota) launched a 4-year project to research and publish a U.S. and global history of corporate responsibility. The anticipated work product will be two narrative volumes along with web access to supplement material not included in the volumes themselves. The project team began its work in July 2008 and expects to complete and publish the history by mid-2012. Corporate responsibility has witnessed dramatic social, economic, environmental and regulatory challenges in the U.S. and globally since the end of World War II. The Halloran Foundation has also undertaken a major project focused on publishing the history of human wellbeing.	329,301
