Part VI

Walk with a Doc is a grassroots effort organized by physicians in an effort to bring the benefits of regular exercise, healthy nutrition and medical information to the general population. WWAD involves healthy refreshments, a discussion led by a medical professional, blood pressure checks and availability of physicians for questions. This is followed by a walk where the pace/distance is self-determined.

Participants develop new perspectives on physicians and healthcare, in addition, to improving their own self-management and enhancing their health.

What started as a program founded by cardiologist, Dr. David Sabgir in Columbus, OH in 2004 has expanded to over 45 sites across the country from Connecticut to Hawaii and is still growing. In 2011, we held 1492 walks and reached 44,760 walkers, with an average of 30 walkers per site. In a recent 3-month study we found that before participating in Walk with a Doc: 55% of participants were active 2 or less times a week, 45% active 3 or more times a week, and 24.2% were doing additional activity. After participating in the program 88% were doing additional activity and 82% were active 3 or more times a week with additional activity. In addition, our participants decreased their BMI by 1.4% and less participants were in Hypertensive Stages 1 and 2.

The majority of the Walk with a Doc programs are held weekly, with a handful of monthly and quarterly programs.
