Research: The Foundation's primary focus is to support the Linda Crnic

Institute for Down Syndrome, the first academic home in the United

States committed to research and medical care for people with Down

syndrome. In 2009, the Foundation launched the Be Beautiful Be

Yourself Fashion Show - the single largest annual fundraiser for Down

syndrome. The event provides awareness by highlighting models who have

Down syndrome and funds critical research and medical care at the Crnic

Institute.

Such research focuses on sleep apnea, physical delays, Alzheimer's

disease, congenital heart disease, and autism - diseases and conditions

that a large number of people with Down syndrome have. The Foundation

also supports the Crnic Institute's Sie Center for Down Syndrome to

provide the best multidisciplinary care for children with Down

syndrome. The Sie Center is working to update medical guidelines for

children with Down syndrome, and will help to ensure that families,

doctors and other healthcare providers have access to updated

information.

Biobanks" in December of 2010. People with Down syndrome are prone to several major medical conditions (e.g. congenital heart defects, Alzheimers), and inexplicable cognitive delay along a large spectrum. A patient registry and the associated research database and biobank organized around Down syndrome would allow caregivers, medical care providers, and researchers to identify critical health trends, tabulate the most effective treatments and design clinical trials for potential therapies.

The purpose of our Conference is to:

1. Enable impactful discussions between (a) experts on registry and biobanks and (b) Down syndrome experts who would potentially utilize a registry and/or biobank.
2. Publish a white paper on a patient registry and biobanking for Down syndrome that would clearly define conclusions, as well as the important follow-up step.
3. Provide a time line for follow-up and establish a plan for the Down syndrome patient registry and biobank that has clear funding potential, reasonable consensus on parameters, and input from people with Down syndrome and their caregivers across a variety demographics.

The Global Down Syndrome Educational Series was launched in 2006 and brings nationally and internationally recognized Down syndrome experts to Colorado for two full days of lectures. The first day is designed for parents and care-givers and the second for professionals who impact the lives of individuals who have Down syndrome. Topics focus on accurate and updated medical, educational, and therapeutic best practices.
