WASH (clean water, sanitation, hygiene): ICDI's central African assets, infrastructure and strategic planning uniquely establish it as a key, if not sole, implementer of deep well water drilling in the Central African Republic (CAR). Three fully operational "down-hammer drilling" rigs, all the necessary supporting equipment and staff, together with a sophisticated support services infrastructure well place ICDI to address the WASH needs that exist in central Africa, especially in the CAR. Additionally, ICDI's well repair teams and well maintenance programming through trained technical teams, accomplish an integration of getting the job done in the context of community development best practices and sustainable job creation. In calendar year 2011, ICDI drilled 64 new deep water wells and rehabilitated or repaired 190 broken wells. By the end of 2011 approximately 1533 wells had been incorporated into the maintenance program. The combination of these programs ensured access to clean and safe drinking water for over 450,000 people. In addition to the implementation of clean water solutions, ICDI bundles new well projects with training in basic hygiene and the building of latrines, thus increasing the community health impact of ICDI's programs. Exploratory activities are underway to initiate similar humanitarian services in the Democratic Republic of the Congo

The program also includes extra-curricular sports team activities to allow the children outlets for additional developmental opportunities. ICDI's orphan care program follows a 'foster care' model of care provision, seeking to place children in qualified family home settings. The program is funded through individual child sponsorships from USA donors.
