#### Independent Auditor's Report

To the Board of Directors Fulton County Health Center

We have audited the accompanying consolidated balance sheet of Fulton County Health Center (the "Hospital") as of December 31, 2011 and 2010 and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Fulton County Health Center at December 31, 2011 and 2010 and the consolidated results of its operations, its changes in net assets, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

## Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### Note I - Nature of Business and Significant Accounting Policies

**Organization** - Fulton County Health Center (the "Hospital") is a private, nonprofit, independent hospital governed by a board of directors. The Hospital is located in Wauseon, Ohio and provides inpatient, outpatient, emergency care, and psychiatric services to residents of Fulton and surrounding counties.

In addition, the Hospital operates Fulton Manor, a long-term care facility. The facility operates as a division of the Hospital and provides assisted-living, skilled nursing, and intermediate healthcare services.

The Hospital also operates FCHC Medical Care, LLC (Medical Care), which includes Delta Medical Center, Inc. (Delta), Fayette Medical Center (Fayette), West Ohio Orthopedics (WOO), and other hospital-based physician services. The limited liability corporation provides both professional medical services and the related billing services for the medical practice.

**Basis of Consolidation** - The accompanying consolidated financial statements include the accounts of Fulton County Health Center and its subsidiaries, Fulton Manor, Delta, Fayette, Medical Care, and WOO (collectively, the "Hospital"). All significant intercompany transactions and balances have been eliminated in consolidation.

**Cash and Cash Equivalents** - The Hospital considers demand deposits, money market funds, and certificates of deposit with original maturities of three months or less to be cash equivalents.

**Short-term Investments** - Short-term investments consist of certificates of deposit with original maturities greater than three months but less than one year.

**Investments** - Investments in equity securities with readily determinable fair values and all investments in debt securities are considered trading and are measured at fair value in the consolidated balance sheet. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in excess of revenue over expenses from operations unless the income or loss is restricted by donor or law.

Accounts Receivable - Accounts receivable for patients, insurance companies, and governmental agencies are based on gross charges. An allowance for uncollectible accounts is established on an aggregate basis by using historical loss-rate factors applied to unpaid accounts based on aging. Loss-rate factors are based on historical loss experience and adjusted for economic conditions and other trends affecting the Hospital's ability to collect outstanding amounts. Uncollectible amounts are written off against the allowance for doubtful accounts in the period they are determined to be uncollectible. An allowance for contractual adjustments is based on expected payment rates from payors based on current reimbursement methodologies.

## Note I - Nature of Business and Significant Accounting Policies (Continued)

**Inventories** - Inventories, consisting of drugs, medical and surgical supplies, and food, are carried at cost determined on a first-in, first-out basis, which is not in excess of market.

**Bond Issuance Costs** - Certain closing costs and legal fees incurred in connection with the issuance of the revenue bonds are recorded as deferred costs and amortized over the life of the bonds. During the year ended December 31, 2011, approximately \$475,000 of the Series 2005 bond issue costs were written off and approximately \$383,000 of Series 2011 new bond issue costs were capitalized in conjunction with bond refinancing. Amortization expense was approximately \$30,000 and \$39,000 in 2011 and 2010, respectively.

**Property and Equipment** - Property and equipment amounts are recorded at cost. Depreciation is provided on the straight-line method over the estimated useful lives of the assets. Depreciation of capital lease assets is included in depreciation expense in the consolidated statement of operations. Costs of maintenance and repairs are charged to expense when incurred. Interest cost incurred on borrowed funds during construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Assets Limited as to Use - Assets limited as to use consist principally of money market funds, U.S. Treasury bills, U.S. government agencies obligations, and equity securities. These assets are set aside for board designations or funds held by trustee for debt service and construction. Interest and dividends, realized gains or losses, and unrealized gains and losses on trading securities are included in other income (expense).

**Physician Advances** - Advances to physicians represent loans to physicians under various cash flow support and loan agreements. These loans are to be forgiven over time as the physician meets certain criteria under the terms of the agreement. If a physician defaults on the loan agreement, the remaining unforgiven portion is due on demand, including interest at the prime rate plus I percent.

**Permanently Restricted Net Assets** - Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity; however, the income produced by such assets is expendable for unrestricted purposes. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

**Charity Care** - The Hospital maintains records to identify and monitor the amount of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy. See Note 13 for amount of charity care provided during 2011 and 2010.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

# Note I - Nature of Business and Significant Accounting Policies (Continued)

**Deferred Revenue** - Deferred revenue represents room and board billed in advance for nursing home residents. The revenue is recognized when services are provided.

**Employee Pension Plan** - The Hospital has a defined contribution plan covering substantially all employees. All contributions are based on a percentage of each eligible employee's compensation and are fully vested to employees. The Hospital's policy is to fund pension costs accrued. Pension expense for 2011 and 2010 totaled approximately \$1,282,000 and \$1,178,000, respectively.

**Excess of Revenue Over (Under) Expenses** - The consolidated statement of operations includes excess of revenue over (under) expenses. Changes in unrestricted net assets, which are excluded from excess of revenue over (under) expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods or services, and contributions of long-lived assets.

**Net Patient Service Revenue** - Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Management believes that it is in compliance with all applicable laws and regulations. Final determination of compliance of such laws and regulations is subject to future government review and interpretation. Violations may result in significant regulatory action including fines, penalties, and exclusions from the Medicare and Medicaid programs.

**Tax Status** - The Hospital and its divisions and subsidiaries are nonprofit corporations exempt from income tax under Section 501(c)(3) of the Internal Revenue Code.

**Contributions** - Contributions of cash and other assets are reported as revenue when granted or received, measured at fair value. Contributions with donor-imposed time or purpose restrictions are reported as restricted support. Contributions without donor-imposed restrictions are reported as unrestricted support. Other restricted gifts are reported as restricted support and temporarily or permanently restricted net assets.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

# Note I - Nature of Business and Significant Accounting Policies (Continued)

The Hospital reports gifts of land, buildings, and equipment as unrestricted support unless specific donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash and other assets that must be used to acquire long-lived assets are reported as restricted support. Absent specific donor stipulations about how long those long-lived assets must be maintained, the Hospital reports the expiration of donor restrictions when the assets are placed in service.

Interest Rate Swaps - The Hospital entered into interest rate swap transactions to reduce economic risks associated with variability in cash outflows for interest required under provisions of variable rate revenue bonds. Interest rate swaps are recognized as assets or liabilities at fair value. Realized gains and losses on interest rate swaps are classified as a component of income from operations and are presented as part of interest expense in the consolidated statement of changes in net assets. Unrealized changes in the fair value of the interest rate swap are recognized as other income or expense, separate from income from operations.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**Fair Value of Financial Instruments** - The following methods and assumptions were used by the Hospital in estimating the fair value of its financial instruments:

- Cash and Cash Equivalents The carrying amount reported in the consolidated balance sheet for cash and cash equivalents approximates fair value.
- Investments and Assets Limited as to Use Fair values, which are the amounts reported in the consolidated balance sheet, are based on quoted market prices.
- Accounts Receivable, Accounts Payable, and Accrued Expenses The carrying amounts reported in the consolidated balance sheet for accounts receivable, accounts payable, and accrued expenses approximate their fair values.
- Estimated Cost Report Settlements Receivable and Payable The carrying amount reported in the consolidated balance sheet for estimated cost report settlements receivable and payable approximates their fair value.
- Interest Rate Swaps The carrying amount reported in the consolidated balance sheet for interest rate swaps represents their fair value. The fair value of the Hospital's interest rate swaps is calculated by an independent party.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

# Note I - Nature of Business and Significant Accounting Policies (Continued)

• **Long-term Debt** - The fair value of the Hospital's bonds is based on current traded value. The fair value of the Hospital's remaining long-term debt is estimated using market information. The carrying amount of long-term debt approximates its fair value due to the nature of the instruments.

**Subsequent Events** - The consolidated financial statements and related disclosures include evaluation of events up through and including February 20, 2012, which is the date the consolidated financial statements were available to be issued.

**Reclassifications** - Certain amounts in the Hospital's 2010 consolidated financial statements have been reclassified to conform with the presentation in the Hospital's 2011 consolidated financial statements. Short-term investments of \$3,500,000 at December 31, 2010 have been reclassified to assets limited as to use, reflecting the board's designation of assets.

#### Note 2 - Cash in Excess of Insured Limits

The Hospital maintains cash and investment balances at several financial institutions located in the vicinity of Wauseon, Ohio. For the year ended December 31, 2011, accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution. As of December 31, 2011, the combined uninsured cash balances totaled approximately \$2,400,000.

#### **Note 3 - Patient Accounts Receivable**

The details of patient accounts receivable are set forth below:

	 2011	2010
Patient accounts receivable	\$ 19,719,643 \$	19,145,026
Less:		
Allowance for uncollectible accounts	(3,798,000)	(3,369,000)
Allowance for contractual adjustments	 (4,384,000)	(4,216,000)
Total accounts receivable	\$ 11,537,643 \$	11,560,026

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

### Note 3 - Patient Accounts Receivable (Continued)

The Hospital grants credit without collateral to patients, most of whom are local residents and are insured under third-party payor agreements. The composition of receivables from patients and third-party payors is as follows:

	Percent			
	2011	2010		
Medicare	21 %	23 %		
Blue Cross/Blue Shield	6	5		
Medicaid	2	2		
Commercial insurance and HMOs	37	41		
Self-pay	34	29		
Total	100 %	100 %		

#### **Note 4 - Cost Report Settlements**

Approximately 70 percent of the Hospital's net patient service revenue is received from the Medicare, Medicaid, Blue Cross/Blue Shield, and Medical Mutual programs. The Hospital has agreements with these payors that provide for reimbursement at amounts different from established rates.

- Medicare Effective December 30, 2005, the Hospital received critical access status
  designation from Medicare. Under the critical access program, the Hospital is cost
  reimbursed for inpatient and outpatient services, including laboratory services.
  Reimbursement for psychiatric services is paid based on prospectively determined
  rates.
- Medicaid Hospital inpatient, acute-care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Capital costs relating to Medicaid inpatients are paid on a cost-reimbursement method. The Hospital is reimbursed for outpatient services on an established fee-for-service methodology. Psychiatric services provided are reimbursed on a per diem basis.
- **Medical Mutual** Hospital inpatient and outpatient services are paid on a percentage of charges basis.
- **Fulton Manor** Medicare and Medicaid reimbursement is based on a prospective payment system paid at various per diem rates.

Final reimbursement under these programs is subject to audit by fiscal intermediaries. Although these audits may result in some changes in these amounts, they are not expected to have a material effect on the accompanying consolidated financial statements.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### Note 4 - Cost Report Settlements (Continued)

The Medicaid payment system in Ohio is a prospective one, whereby rates for the following state fiscal year beginning July I are based upon filed cost reports for the preceding calendar year. The continuity of this system is subject to the uncertainty of the fiscal health of the State of Ohio, which can directly impact future rates and the methodology currently in place. Any significant change in rates, or the payment system itself, could have a material impact on future Medicaid funding to providers.

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined daily rates.

Cost report settlements result from the adjustment of interim payments to final reimbursement under third-party payor programs that are subject to audit by fiscal intermediaries. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

The Medicare program has initiated a recovery audit contractor (RAC) initiative, whereby claims subsequent to October 1, 2007 will be reviewed by contractors for validity, accuracy, and proper documentation. A demonstration project completed in several other states resulted in the identification of potential significant overpayments. The RAC program began in 2010 for Ohio hospitals. The Hospital has not yet been subject to such audits and is unable to determine the extent of the liability for any potential overpayments or underpayments.

### Note 5 - Property and Equipment

Net property and equipment at December 31 consist of the following:

				Depreciable

#### **Note 7 - Long-term Debt (Continued)**

The following represents scheduled bond principal payments and future minimum lease payments as of December 31, 2011:

Years Ending		L	ong-term				
December 31			Debt		Capital Leas	e O	bligations
					Principal		Interest
2012		\$	650,833	\$	544,936	\$	4,636

Thereafter			25,047,500	_	-	_	
	Total	\$ 2	28,647,500	\$	549,103	\$	4,636

Interest rates on capitalized leases range from 3.77 to 5.07 percent and are imputed at the beginning of the lease based on the lessor's implicit rate of return. The Hospital is the lessee of certain medical equipment under capital leases. The assets and liabilities under the capital leases are recorded at the amount of the future minimum lease payments. The assets are depreciated over the lesser of their related lease terms or their estimated productive lives. Depreciation of assets under the capital leases is included in depreciation expense for 2011 and 2010. The following capital lease assets and related amortization include capital leases included in construction in progress at December 31, 2011 and 2010.

	_	2011	2010
Cost of equipment under capital lease	\$	6,105,988 \$	6,105,988
Less accumulated amortization		(5,049,018)	(4,183,769)
Net carrying amount	\$	1,056,970 \$	1,922,219

In December 2005, the County of Fulton, Ohio issued \$28,500,000 of Adjustable Rate Demand Revenue Bonds, Series 2005. The terms of the bonds included annual principal payments beginning at \$316,250 in 2011 and increasing on a fixed schedule annually with the bonds maturing on November 1, 2030. These bonds were defeased during 2011.

In December 2011, the County of Fulton, Ohio issued \$28,755,000 of Adjustable Rate Demand Hospital Facilities Revenue Bonds, Series 2011 (the "Series 2011 Bonds"). The Series 2011 Bonds are a private placement in which Huntington Bank purchased the Series 2011 Bonds and agreed to hold the Series 2011 Bonds until at least November 1, 2016. The Series 2011 Bonds were issued in order to refund the 2005 Hospital Facilities Revenue Bonds, and pay certain costs related to the issuance of the Series 2011 Bonds.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### **Note 7 - Long-term Debt (Continued)**

The debt has a final maturity date of November 1, 2035 and provides for the repayment of principal in increasing monthly principal payments beginning in 2012 through November 1, 2016, at which time the Series 2011 Bonds are subject to mandatory tender. As long as no event of default occurs under the indenture, then the bonds cannot be redeemed by the bondholder until November 1, 2016. Principal and interest payments are made monthly by the Hospital to a trustee, at which time the Hospital is relieved from liability.

The trust indenture of the Series 2011 Bonds requires the maintenance of certain debt coverage ratios and compliance with certain other restrictive covenants.

In connection with the issuance of the Series 2011 Bonds, the Hospital and the County of Fulton, Ohio entered into a lease arrangement whereby the Hospital has leased its existing facilities to the County of Fulton. The base lease, by its terms, will remain in effect at least until full provision has been made for the payment of the Series 2011 Bonds under the indenture. The base lease requires the County of Fulton to pay a total sum of \$1 and other valuable consideration for which its receipt has been acknowledged.

The County of Fulton and the Hospital have entered into a sublease. The sublease provides that the existing facilities will be leased by the County of Fulton to the Hospital, commencing on the execution and delivery of the lease, for a term at least as long as the bonds are outstanding. Under the sublease agreement, rental payments are sufficient to pay the total amount due with respect to the principal and interest on the Series 2011 Bonds. The Series 2011 Bonds are collateralized by a mortgage on substantially all property. Accordingly, such property, together with the bond proceeds and bond indebtedness, is included in the accompanying consolidated financial statements as assets and liabilities of the Hospital.

The Hospital entered into interest rate swap agreements in conjunction with its 2005 adjustable rate revenue bonds. See Note 9 for more information regarding the interest rate swap agreements.

#### **Note 8 - Fair Value Measurements**

The following tables present information about the Hospital's assets and liabilities measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Hospital to determine those fair values.

In general, fair values determined by Level I inputs use quoted prices in active markets for identical assets or liabilities that the Hospital has the ability to access.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### Note 8 - Fair Value Measurements (Continued)

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Hospital's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

Disclosures concerning assets and liabilities measured at fair value are as follows:

#### Assets and Liabilities Measured at Fair Value on a Recurring Basis at December 31, 2011

#### **Note 9 - Derivative Financial Instruments**

The Hospital is exposed to certain risks in the normal course of its business operations. The main risks are those relating to the variability of future earnings and cash flows, which are managed through the use of derivatives. The Hospital holds interest rate swap agreements, which are reported on the consolidated balance sheet at fair value.

During 2005, the Hospital entered into an interest rate swap agreement in conjunction with its debt financing program of issuing adjustable rate revenue bonds. The swap agreement requires the Hospital to pay a fixed rate of interest at approximately 3.6 percent on an original notional amount of \$22,800,000, with a current notional amount of \$22,475,000 at December 31, 2011. The variable rate, which the Hospital receives, is based on 68 percent of the three-month LIBOR. The term of the interest rate swap expires on November 1, 2030.

In June 2006, the Hospital entered into a second interest rate swap agreement in conjunction with the original interest rate swap agreement entered into during 2005 related to the adjustable rate revenue bonds. Under the second interest rate swap agreement, the Hospital will pay a variable rate based on 68 percent of the three-month LIBOR. In return, the Hospital will receive a variable rate based on 60.5 percent of the ISDA-Swap rate. The original notional amount of the swap agreement was \$22,800,000, with a current notional amount of \$22,475,000 at December 31, 2011. The term of the interest rate swap expires on November 1, 2030.

During 2010, the Hospital received \$981,000 in connection with the suspension of the second interest rate swap agreement. As a result, this swap agreement reverts from the Hospital receiving 60.5 percent of the ISDA-Swap rate to the Hospital receiving 68 percent of the three-month LIBOR on 80 percent of the Series 2005 Bonds through May 31, 2015. At the end of the suspension, the swap reverts back to the original terms.

As of December 31, 2011 and 2010, the fair value of derivatives held was as follows:

		Asset D	erivat	ives	Liability Derivatives		
	2	2011	2010		2011	2010	
Interest rate swaps	\$	-	\$		\$ 4,353,200	\$ 2,722,804	

The interest rate swap agreements are reported on the consolidated balance sheet as a liability.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### Note 9 - Derivative Financial Instruments (Continued)

For the years ended December 31, 2011 and 2010, the amounts of gain or loss recognized in the consolidated statement of operations attributable to the interest rate swap agreements in the consolidated statement of operations are as follows:

		Gain (Loss) ed in Earnings	Reported in Consolidated Statement of Operations as
	2011	2010	
Interest rate swaps	\$ (1,630,937)	\$ (1,867,303)	Change in fair value of interest swap agreements Realized gain on interest
Interest rate swaps	\$ -	\$ 981,000	rate swap agreement

### **Note 10 - Functional Expenses**

The Hospital is a critical access healthcare facility which provides acute and long-term care services to residents within its geographic location. Expenses related to providing these services for the years ended December 31, 2011 and 2010 are as follows:

	 2011	2010
Healthcare services	\$ 53,092,226 \$	52,557,178
General and administrative	 20,924,540	20,045,637
Total	\$ 74,016,766 \$	72,602,815

#### Note II - Self-insured Benefits

The Hospital is partially self-insured under a plan covering substantially all employees for health benefits. The plan is covered by a stop-loss policy that covers claims over \$100,000 per employee per annum, with an aggregate limit of \$6,165,425. The plan policy year ends on January 31. Total expenses charged to operations, including an estimate of claims incurred but not reported, were approximately \$3,830,000 and \$3,741,000 for the years ended December 31, 2011 and 2010, respectively.

#### **Note 12 - Medical Malpractice Claims**

Based on the nature of its operations, the Hospital is at times subject to pending or threatened legal actions, which arise in the normal course of its activities.

# Notes to Consolidated Financial Statements December 31, 2011 and 2010

#### Note 12 - Medical Malpractice Claims (Continued)

The Hospital is insured against medical malpractice claims under a claims-based policy, whereby only the claims reported to the insurance carrier during the policy period are covered regardless of when the incident giving rise to the claim occurred. Under the terms of the policy, the Hospital bears the risk of the ultimate costs of any individual claims exceeding \$1,000,000, or aggregate claims exceeding \$3,000,000, for claims asserted in the policy year. In addition, the Hospital has an umbrella policy with an additional \$5,000,000 of coverage.

Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on the occurrences during the claims-made term, but reported subsequently, will be uninsured.

The Hospital is not aware of any medical malpractice claims, either asserted or unasserted, that would exceed the policy limits. No claims have been settled during the past three years that have exceeded policy coverage limits. The cost of this insurance policy represents the Hospital's cost for such claims for the year, and it has been charged to operations as a current expense.

### Note 13 - Charity Care

The Hospital maintains records to identify and monitor the level of charity care provided. These records include the cost for services and supplies rendered under its charity care policy. The following information measures the level of charity care provided:

	 2011	2010			
Cost of charity care provided	\$ 521,364	521,606			
Equivalent percent of charity care charges to total	 				
charges	 0.89 %	0.93 %			

In addition, under arrangements with various governmental insurance programs, the Hospital provides significant care to the local indigent population for which reimbursement for services rendered is generally less than the cost of providing such services. As part of its obligation to the local communities, the Hospital also provides numerous other services that benefit the communities and are generally performed at no charge.

### Independent Auditor's Report on Additional Information

To the Board of Directors
Fulton County Health Center

We have audited the consolidated financial statements of Fulton County Health Center as of and for the years ended December 31, 2011 and 2010. Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The information in the accompanying schedules is presented for the purpose of additional analysis rather than to present the financial position, results of operations, and cash flows of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.
