Description of Uncertain Tax Positions Under FIN 48	Part X	As required by the uncertain tax position guidance, the PCC recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. The adoption of this guidance did not have a material effect on the Company's financial statements.
