AI (Accrued Interest) - Presented for domestic fixed income securities and represents interest accumulated since the last coupon date, but not yet paid by the issuer or received by NFS. AI is calculated for the following securities: fixed rate bonds and Certificates of Deposit (CDs). **There is no guarantee that AI will be paid by the issuer.** AI for treasury and GNMA securities, however, is backed by the full faith and credit of the United States Government. AI totals represent accruals for only those securities with listed AI in the Holdings section of this statement. Please refer to the Help/Glossary section of Fidelity.com for additional information.

EAI (Estimated Annual Income) - An estimate of annual income for a specific fixed income security position over the next rolling 12 months. EAI is calculated for the following securities: fixed rate bonds and Certificates of Deposit (CDs). **EAI is an estimate only and there is no guarantee that you will actually receive the income listed for any or all of the specific securities for which EAI is provided.** Your actual income and yield may be higher or lower. EAI should not be relied upon for making investment, trading or tax decisions. There are circumstances in which EAI will not be calculated for a specific security. Please refer to the Help/Glossary section of Fidelity.com for additional information including specific calculations.
