#### **Independent Auditor's Report**

To the Board of Directors
Cheyenne County Hospital Association, Inc. d/b/a
Sidney Regional Medical Center
(f/k/a Western Nebraska Health Systems) and Combined Affiliates
Sidney, Nebraska

We have audited the accompanying combined balance sheets of Cheyenne County Hospital Association, Inc d/b/a Sidney Regional Medical Center (f/k/a Western Nebraska Health Systems) and Combined Affiliates (the "System") as of December 31, 2011 and 2010, and the related combined statements of operations, changes in net assets, and cash flows for the years then ended These combined financial statements are the responsibility of the System's management Our responsibility is to express an opinion on these combined financial statements based on our audits

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement presentation. We believe that our audits provide a reasonable basis for our opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the System, as of December 31, 2011 and 2010, and the results of its operations, changes in its net assets, and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America

Our audits were made for the purpose of forming an opinion on the combined financial statements taken as a whole. The supplementary information (Exhibits 1 through 3) is presented for purposes of additional analysis and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the combined financial statements as a whole

#### Notes to Combined Financial Statements December 31, 2011 and 2010

#### (1) Description of Organization and Summary of Significant Accounting Policies

The following is a description of the organization and a summary of significant accounting policies of Cheyenne County Hospital Association, Inc d/b/a Sidney Regional Medical Center (f/k/a Western Nebraska Health Systems) and Combined Affiliates (the "System") These policies are in accordance with accounting principles generally accepted in the United States of America

#### A Description of Organization

The combined financial statements include the accounts of Cheyenne County Hospital Association, Inc. d/b/a Sidney Regional Medical Center, Cheyenne County Hospital and Health Center Foundation, and High Plains Medical Foundation d/b/a Sidney Medical Associates

Cheyenne County Hospital Association, Inc. d/b/a Sidney Regional Medical Center is a not-for-profit acute care hospital which provides inpatient, outpatient and emergency care service to patients in Sidney, Nebraska 
It also operates long-term care facilities and a home health agency in Sidney, Nebraska

Cheyenne County Hospital and Health Center Foundation is a not-for-profit organization established to receive and solicit contributions, gifts, and grants exclusively for the benefit of the Cheyenne County Hospital Association, Inc

High Plains Medical Foundation d/b/a Sidney Medical Associates is a not-for-profit free standing rural health clinic which provides physician clinic services to patients in Sidney, Nebraska

For financial reporting purposes, management has elected to present combined financial statements due to the common organizational purposes between the entities Significant intercompany accounts and transactions have been eliminated in combination

See subsequent events Note 14 for the dissolution of the High Plains Medical Foundation d/b/a Sidney Medical Associates

#### B Industry Environment

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursements for patient services, and Medicare and Medicaid fraud and abuse. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

Management believes that the System is in compliance with applicable government laws and regulations as they apply to the areas of fraud and abuse. While no regulatory inquiries have been made which are expected to have a material effect on the System's combined financial statements, compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

As a result of recently enacted federal healthcare reform legislation, substantial changes are anticipated in the United States healthcare system. Such legislation includes numerous provisions affecting the delivery of healthcare services, the financing of healthcare costs, reimbursement of healthcare providers and the legal obligations of health insurers, providers and employers. These provisions are currently slated to take effect at specified times over approximately the next decade.

#### C Management

Sidney Regional Medical Center is a not-for-profit provider of health care services. Prior to December 31, 2010, Sidney Regional Medical Center had an agreement for management services with Quorum Health Resources, LLC (QHR) Effective January 1, 2011, Sidney Regional Medical Center entered into a contract with Poudre Valley Health Care Inc., to provide management personnel and consulting services. The contract expires December 31, 2013

#### D Use of Estimates

The preparation of combined financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates

#### E Cash and Cash Equivalents

Cash and cash equivalents for purposes of the combined statements of cash flows include certain investments in highly liquid debt instruments with original maturities of three months or less

#### F Patient Receivables, Net

The System reports patient accounts receivable at net realizable amounts from third-party payors, patients, and others. An allowance for uncollectible accounts has been established for these receivables and is adjusted throughout the year based on the aging of each funding source's receivable account. Individual accounts with balances over ninety days are reviewed periodically for funding source denials, rebills to different funding sources, submissions to a collection agency, or write-off as bad debt. Accounts deemed uncollectable are written-off

#### G Inventories

Inventories are stated at the lower of cost (first-in, first-out valuation method) or market

#### H Investments

Investments in equity securities with readily determinable fair values, all investments in debt securities, and investments in land are measured at fair value in the accompanying combined balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenue, gains and other support over expenses unless the income or loss is restricted by donor or law. Unrealized gains and loses on investments are excluded from excess of revenue, gains, and other support over expenses unless the investments are trading securities.

#### I Assets Limited as to Use

Assets limited as to use include assets restricted by donors and assets set aside by the Board of Directors for future capital improvements and a deferred compensation plan over which the Board retains control and may at its discretion subsequently use for other purposes

#### J Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided on the straight-line method based upon useful lives set forth using general guidelines from the American Hospital Association Guide for Useful Lives of Depreciable Hospital Assets. Assets under capital lease obligations and leasehold improvements are amortized on the straight-line method over the shorter of the lease term or their respective estimated useful lives. Such amortization is included in depreciation and amortization in the combined financial statements. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those costs. The System maintains a capitalization policy of \$5,000.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support and are excluded from the excess of revenue, gains, and other support over expense, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed into service.

The System's long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of expected cash flows is less than the carrying amount of the asset, a loss is recognized

#### K Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity. At December 31, 2011 and 2010, the System had no permanently restricted net assets.

When the System has both restricted and unrestricted net assets available for a particular expense, it is the System's policy to apply restricted net assets before unrestricted

#### L Excess of Revenue, Gains, and Other Support Over Expenses

The combined statements of operations include excess of revenue, gains and other support over expenses as a performance indicator. Changes in unrestricted net assets which are excluded from the performance indicator, consistent with industry practice, include change in net unrealized gains and losses on other than trading securities and contributions of long lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets)

#### M Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

#### N Charity Care

The System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue in the combined statements of operations.

#### O Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intent to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a donor restriction expires, that is, when a stipulated time restriction ends or the purpose of the restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the combined statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying combined financial statements.

#### P Group Health Insurance Costs

The System is partially self-insured for employee health insurance costs, up to certain limits included in the accompanying combined statements of operations is a provision for premiums for excess coverage insurance and payments for claims, including estimates of the ultimate costs for both reported claims and claims incurred but not yet reported at year end

#### Q Medical Malpractice Insurance

Medical malpractice insurance is purchased under claims-made policies. Under these policies, only claims made and reported to the insurer are covered during the policy term

The System accrues the expense of its share of asserted and unasserted claims occurring during the year by estimating the probable ultimate cost of any such claim. Such estimates are based on the System's own claims experience. The System's management does not expect any claim to exceed the insurance coverage limits. However, because of the risk involved in providing health care services, it is possible an event has occurred that will be the basis of a future material claim.

#### R Fair Value of Financial Statements

The System applies the provisions included in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At December 31, 2011, there were no nonfinancial assets or liabilities measured at fair value in the financial statements on the nonrecurring basis.

Financial instruments consist of cash and cash equivalents, receivables, investments, assets limited as to use, liabilities and long-term debt obligations. Management's estimates of fair value of investments and assets limited as to use are described in Note 5. The carrying amounts reported in the combined balance sheets for cash and cash equivalents, receivables and current liabilities approximate fair value due to the short-term nature of these financial instruments. The carrying value of long-term debt obligations approximates fair value since the interest rates closely reflect current market rates for notes with similar maturities and credit quality.

#### S Income Taxes

Cheyenne County Hospital Association, Inc d/b/a Sidney Regional Medical Center, Cheyenne County Hospital and Health Center Foundation, and High Plains Medical Foundation are exempt from income taxes under Section 501(a) of the Code and a similar provision of state law However, they are subject to federal income tax on any unrelated business taxable income

The System accounts for uncertainties in accounting for income tax assets and liabilities using guidance included in FASB ASC 740, *Income Taxes* The System recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. At December 31, 2011, the System had no uncertain tax positions accrued. With few exceptions, the System is no longer subject to income tax examinations by U.S. federal, state, or local authorities for years before 2007.

#### T Subsequent Events

The System considered events occurring through May 9, 2012 for recognition or disclosure in the combined financial statements as subsequent events. That date is the date the combined financial statements were available to be issued. See Note 14 for subsequent events.

#### (2) Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows

**Medicare.** Inpatient acute care services rendered to Medicare program beneficiaries in a Critical Access Hospital are paid based on Medicare defined costs of providing the services. Inpatient nonacute services, outpatient services, and rural health clinic services related to Medicare beneficiaries are paid based on a cost reimbursement methodology. The System is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicare Administrative Contractor The System's Medicare cost reports have been audited by the Medicare Administrative Contractor through December 31, 2009

**Medicaid.** Inpatient acute services, outpatient services, and rural health clinic services rendered to Medicaid program beneficiaries in a Critical Access Hospital are paid based on Medicaid defined costs of providing the services Beginning July 1, 2011, Medicaid changed reimbursement paid to 97.5% of defined costs. The System is reimbursed for cost reimbursable items at tentative rates with final settlement determined after submission of annual cost reports by the System.

**Commercial Insurance.** The basis for payment to the System under these agreements includes discounts from established charges

The System reports net patient service revenue at estimated net realizable amounts from patients, third-party payors, and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations

The following illustrates the System's patient service revenue at its established rates and revenue deductions by major third-party payors

	_	2011	2010
Gross patient charges	_	_	
Health Center -

Net patient service revenue	\$	32,464,152	28,689,876
Net patient service revenue	\$ _	32,464,152	28,689,876

Revenue from the Medicare and Medicaid programs accounted for approximately 31% and 11%, respectively, of the System's net patient revenue for the year ended December 31, 2011 and approximately 34% and 10%, respectively, of the System's net patient revenue for the year ended December 31, 2010 Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The 2011 net patient service revenue increased approximately \$290,000 due to the removal of allowances previously estimated that are no longer necessary as a result of final settlements and years no longer subject to audits, reviews, and investigations

#### (3) Charity Care

The System provides charity care to patients who are financially unable to pay for the health care services they receive. It is the policy of the System not to pursue collection of amounts determined to qualify as charity care. Accordingly, the System does not report these amounts in net operating revenue or in the allowance for doubtful accounts. The System determines the costs associated with providing charity care by aggregating the direct and indirect costs, including salaries, benefits, supplies, and other operating expenses, based on the overall cost to charge ratio. The costs of caring for charity care patients for the years ended December 31, 2011 and 2010 were \$245,766 and \$214,988, respectively.

#### (4) Assets Limited as to Use

Assets limited as to use include assets restricted by donors and assets set aside by the Board of Directors for future capital improvements and a deferred compensation plan over which the Board retains control and may at its discretion subsequently use for other purposes

The composition of assets limited as to use at December 31, 2011 and 2010, is as follows

	-	2011	2010
By Board for future capital improvements By Trustee under deferred compensation plan By donor	\$	2,225,633 190,128 182,670	4,434,638 158,718 193,254

Total investment return is comprised of the following	-	2011	2010
Interest and dividend income	\$	95,809	98,360
Change in unrealized gains and losses on other than trading securities		(10,658)	15,221
Total investment return	\$ _	85,151	113,581

#### (5) Fair Value

#### Fair Value Hierarchy

The System has adopted FASB ASC 820 for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the combined financial statements on a recurring basis FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows.

Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that the System has the ability to access at the measurement date

Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly through either corroboration or observable market data

Level 3 inputs are inputs are unobservable for the asset or liability. Therefore, unobservable inputs shall reflect the System's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk) developed based on the best information available in the circumstances

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety

#### Notes to Combined Financial Statements December 31, 2011 and 2010

The following methods and assumptions were used to estimate the fair value for each class of financial instrument measured at fair value

Cash and cash equivalents and accrued interest – The fair value of cash and cash equivalents, consisting primarily of money market funds, is classified as Level 1 as these funds are valued using quoted market prices

Certificates of deposit – Investments in certificates of deposit are classified as Level 2 based on multiple sources of information, which may include market data and/or quoted market prices form either markets that are not active or are for the same or similar assets of active markets

*U.S.* treasury bonds – U.S. treasury bonds are classified as Level 1 if they trade with sufficient frequency and volume to enable to the System to obtain pricing information on an ongoing basis

Mutual funds – The fair value of mutual funds is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers

Land – The fair value of land is based on assessed market value at acquisition date which approximates current fair value and is classified as Level 3

Annuity contracts – Annuity contracts are classified as Level 2 based on contract values as reported by the insurance company that holds the contract Contract values are based on the net asset value of underlying investment options

Corporate stock – The fair value of equity securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers

For the fiscal years ended December 31, 2011 and 2010, the application of valuation techniques applied to similar assets and liabilities has been consistent

The following tables present the financial instruments that are measured at fair value on a recurring basis (including items that are required to be measured at fair value) at December 31, 2011 and 2010

#### (10) Employee Benefit Plans

#### Pension Plans

Sidney Regional Medical Center has a defined-contribution pension plan covering substantially all employees. The plan allows for employee contributions up to the maximum allowable percentage of the employee's annual compensation, plus the employer will match 100% of the employee's contributions up to a maximum contribution of 6% of the employee's annual compensation. Pension expense was \$322,790 and \$255,781 for 2011 and 2010, respectively

Sidney Medical Associations (SMA) has a defined-contribution pension plan covering substantially all employees. The plan is funded through employee contributions only and allows for employee contributions up to a maximum contribution of 20% of the employee's annual compensation. SMA contributions to the plan are discretionary. There were no SMA discretionary contributions to the plan in 2011 or 2010.

#### Profit Sharing Plan

SMA has a profit-sharing plan covering substantially all employees. The plan is funded through employer contributions only and the amount contributed is determined annually by the Board of Directors Contributions to the plan were \$138,246 and \$123,344 for 2011 and 2010, respectively

#### **Deferred Compensation Plans**

Sidney Regional Medical Center and SMA offer deferred compensation plans for employed physicians Eligible employees may defer and place into a deferred compensation account an amount up to the maximum allowed by Section 457(b) of the Internal Revenue Code Upon retirement, as defined by the plan, the balance of each participant's deferred compensation account will be paid to the participant

The value of the deferred compensation accounts are included in the accompanying combined balance sheets as assets limited as to use and are valued at fair value of the underlying mutual funds. The related deferred compensation plan liability is separately stated as a long term liability.

#### (11) Concentrations of Credit Risk

The System is located in Sidney Nebraska The System grants credits without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors was as follows

	2011	2010
Medicare	29%	32%
Medicaid	10	10
Other third-party payors	41	41
Private pay	20	17
	100%	100%

The System maintains deposits in excess of Federal Deposit Insurance Corporation limits Management believes the risk relating to the deposits is minimal

#### (12) Functional Expenses

The System provides general health care services to residents within its geographic area. Expenses related to providing these services are as follows

	2011	2010
Program services General and administrative Fundraising	\$ 27,576,858 1,194,128 81,314	25,169,615 1,513,439 61,543
	\$ 28,852,300	26,744,597

#### (13) Professional Liability Insurance

The System carries a professional liability policy (including malpractice) which provides \$1,000,000 of coverage for injuries per occurrence and \$3,000,000 aggregate coverage. In addition, the System carries an umbrella policy which also provides an additional \$5,000,000 of professional liability coverage per occurrence and aggregate coverage. These policies provide coverage on a claims-made basis covering only those claims which have occurred and are reported to the insurance company while the coverage is in force. The System could have exposure on possible incidents that have occurred for which claims will be made in the future should professional liability insurance not be obtained, should coverage be limited and/or not available.

Accounting principles generally accepted in the United States of America require a healthcare provider to accrue the ultimate costs of malpractice claims or similar contingent liabilities, which include costs associated with litigating or settling claims, when the incidents that give rise to the claims occur. The System does evaluate all incidents and claims along with prior claims experience to determine if a liability is to be recognized. For the year ending December 31, 2011, management recognized an estimated liability for known incidents of \$195,616 which is included in the combined balance sheets as an accounts payable Management also recorded a corresponding receivable from its insurance company of \$185,616 which is included in the combined balance sheets as an other receivable. For the year ended December 31, 2010, management determined no liability should be recognized for asserted or unasserted claims. Management is not aware of any such claim that would have a material adverse impact on the accompanying combined financial statements.

#### (14) Subsequent Events

During 2011 the High Plains Medical Foundation d/b/a Sidney Medical Associates' (SMA) Board of Directors approved the dissolution of SMA effective January 1, 2012. Upon dissolution, SMA distributed its assets and its net assets, after paying all existing liabilities, to Cheyenne County Hospital Association, Inc. d/b/a Sidney Regional Medical Center f/ka Memorial Health Center. SMA employees became employed by Sidney Regional Medical Center and SMA's physician clinic services are now operated by Sidney Regional Medical Center.
