Part V Facility Information (continued) Section B. Facility Policies and Practices.

(Complete a separate Section B for each of the hospital facilities listed in Part V , Section A)

SHAWNEE MISSION MEDICAL CENTER

| Name of Hospital Facility: | |
|---|---|
| Line Number of Hospital Facility (from Schedule H, Part V, Section A):_ | 1 |

| | | | Yes | No |
|-----|---|---|-----|----|
| | mmunity Health Needs Assessment (Lines 1 through 7 are optional for 2011) | | | |
| 1 | During the tax year or any prior tax year, did the hospital facility conduct a community health needs assessment ("Needs Assessment")? If "No," skip to question 8 | 1 | | |
| | If "Yes," indicate what the Needs Assessment describes (check all that apply) | | | |
| | a Γ A definition of the community served by the hospital facility | | | |
| | b Demographics of the community | | | |
| | Existing health care facilities and resources within the community that are available to respond to the health | | | |
| | needs of the community | | | |
| | d | | | |
| | e The health needs of the community | | | |
| | f Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups | | | |
| | g The process for identifying and prioritizing community health needs and services to meet those needs | | | |
| | h The process for consulting with persons representing the community's interests | | | |
| | i 「 Information gaps that limit the hospital facility's ability to assess the community's health needs | | | |
| | j Other (describe in Part VI) | | | |
| 2 | Indicate the tax year the hospital facility last conducted a Needs Assessment 20 | | | |
| | In conducting its most recent Needs Assessment, did the hospital facility take into account input from persons who | | | |
| | represent the community served by the hospital facility? If "Yes," describe in Part VI how the hospital facility took into | 3 | | |
| 4 | account input from persons who represent the community, and identify the persons the hospital facility consulted Was the hospital facility's Needs Assessment conducted with one or more other hospital facilities? If "Yes," list the | | | |
| • | other hospital facilities in Part VI | 4 | | |
| 5 | Did the hospital facility make its Needs Assessment widely available to the public? | 5 | | |
| | If "Yes," indicate how the Needs Assessment was made widely available (check all that apply) | | | |
| | a | | | |
| | b Available upon request from the hospital facility | | | |
| | c Other (describe in Part VI) | | | |
| 6 | If the hospital facility addressed needs identified in its most recently conducted Needs Assessment, indicate how (check all that apply) | | | |
| | a Adoption of an implementation strategy to address the health needs of the hospital facility's community | | | |
| | b Execution of the implementation strategy | | | |
| | c Development of a community-wide community benefit plan for the facility | | | |
| | d Participation in community-wide community benefit plan | | | |
| | e 「 Inclusion of a community benefit section in operational plans | | | |
| | f Adoption of a budget for provision of services that address the needs identified in the CHNA | | | |
| | g Prioritization of health needs in the community | | | |
| | h Prioritization of services that the hospital facility will undertake to meet health needs in its community | | | |
| | i | | | |
| 7 | Did the hospital facility address all of the needs identified in its most recently conducted Needs Assessment? If "No," explain in Part VI which needs it has not addressed together with the reasons why it has not addressed such needs | 7 | | |
| Fir | nancial Assistance Policy | | | |
| _ | Did the hospital facility have in place during the tax year a written financial assistance policy that | | | |
| | Explains eligibility criteria for financial assistance, and whether such assistance includes free or discounted care? | 8 | Yes | |
| 9 | Used federal poverty guidelines (FPG) to determine eligibility for providing free care? | 9 | Yes | |
| | If "Yes," indicate the FPG family income limit for eligibility for free care 200 00000000000000% If "No," explain in Part VI the criteria the hospital facility used | | | |
| | | | | |

| Pä | art V Facility Information (continued) | | | |
|------|---|----|-----|----|
| | | | Yes | No |
| 10 | Used FPG to determine eligibility for providing discounted care? | 10 | Yes | |
| | If "Yes," indicate the FPG family income limit for eligibility for discounted care $\frac{400\ 00000000000}{\%}$ | | | |
| | If "No," explain in Part VI the criteria the hospital facility used | | l | |
| 11 | Explained the basis for calculating amounts charged to patients? | 11 | Yes | |
| | If "Yes," indicate the factors used in determining such amounts (check all that apply) | | | |
| | a Income level | | | |
| | b Z Asset level | | | |
| | c Medical indigency | | | |
| | d 🔽 Insurance status | | | |
| | e 🔽 Uninsured discount | | | |

| | g 🔽 State regulation | | | |
| | h Cother (describe in Part VI) | | | |
| 12 | Explained the method for applying for financial assistance? | 12 | Yes | |
| 13 | Included measures to publicize the policy within the community served by the hospital facility? | 13 | Yes | |
| | If "Yes," indicate how the hospital facility publicized the policy (check all that apply) | | | |
| | a The policy was posted at all times on the hospital facility's web site | | | |
| | b The policy was attached to all billing invoices | | | |
| | c The policy was posted in the hospital facility's emergency rooms or waiting rooms | | | |
| | d The policy was posted in the hospital facility's admissions offices | | | |
| | e The policy was provided, in writing, to patients upon admission to the hospital facility | | | |
| | f The policy was available upon request | | | |
| | g 🔽 Other (describe in Part VI) | | | |
| Bill | ling and Collections | | | |
| 14 | Did the hospital facility have in place during the tax year a separate billing and collections policy, or a written financial | | | |
| | assistance policy (FAP) that explained actions the hospital facility may take upon non-payment? | 14 | Yes | |
| 15 | Check all of the following collection actions against an individual that were permitted under the hospital facility's policies during the tax year before making reasonable efforts to determine the patient's eligibility under the facility's | | | |
| | FAP | | | |
| | a Reporting to credit agency | | | |
| | b Lawsuits | | | |
| | c Liens on residences | | | |
| | d Body attachments or arrests | | | |
| | e Cother similar actions (describe in Part VI) | | | |
| 16 | Did the hospital facility or an authorized third party perform any of the following actions during the tax year before | | | |
| | making reasonable efforts to determine the patient's eligibility under the facility's FAP? | 16 | | Νo |
| | If "Yes," check all actions in which the hospital facility or a third party engaged | | | |
| | a Reporting to credit agency | | | |
| | b Lawsuits | | | |
| | c Liens on residences | | | |
| | d F Body attachments | | | |
| | e C Other similar actions (describe in Part VI) | | | |
| 17 | Indicate which efforts the hospital facility made before initiating any of the actions checked in question 16 (check all | | | |
| | that apply) | | | |
| | a Notified patients of the financial assistance policy upon admission | | | |
| | b Notified patients of the financial assistance policy prior to discharge | | | |
| | c Notified patients of the financial assistance policy in communications with the patients regarding the patients' | | | |
| | bills | | | |
| | d Documented its determination of whether patients were eligible for financial assistance under the hospital | | | |
| | facility's financial assistance policy | | | |
| | e Cother (describe in Part VI) | I | | |

If "Yes," explain in Part VI

Part VI Supplemental Information

Complete this part to provide the following information

- Required descriptions. Provide the descriptions required for Part I, lines 3c, 6a, and 7, Part II, Part III, lines 4, 8, and 9b, and Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 9, 10, 11h, 13g, 15e, 16e, 17e, 18d, 19d, 20, and 21
- 2 **Community health needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any community health needs assessments reported in Part V, Section B
- Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy
- 4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves
- Promotion of community health. Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.)
- Affiliated health care system. If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served
- 5 State filing of community benefit report. If applicable, identify all states with which the organization, or a related organization, files a community benefit report

1. Significant Accounting Policies

Reporting Entity

Adventist Health System Sunbelt Healthcare Corporation d/b/a Adventist Health System (Healthcare Corporation) is a not-for-profit healthcare corporation that operates and controls hospitals, nursing homes and philanthropic foundations (referred to herein collectively as the System) The affiliated hospitals, nursing homes and philanthropic foundations are controlled through their by-laws, governing board appointments and operating agreements by Healthcare Corporation The System's 41 hospitals, 16 nursing homes and philanthropic foundations operate in 10 states — Colorado, Florida, Georgia, Illinois, Kansas, Kentucky, North Carolina, Tennessee, Texas and Wisconsin

Healthcare Corporation and the System are collectively controlled by the Lake Union Conference of Seventh-day Adventists, the Mid-America Union Conference of Seventh-day Adventists, the Southern Union Conference of Seventh-day Adventists and the Southwestern Union Conference of Seventh-day Adventists

SunSystem Development Corporation (Foundation) is a charitable foundation operated by the System for the benefit of the hospitals that are divisions or controlled affiliates of Healthcare Corporation The board of directors is appointed by the board of directors of the System The Foundation is involved in philanthropic activities

Mission

The System exists solely to improve and enhance our local communities that we serve in harmony with Christ's healing ministry. All financial resources and excess of revenue and gains over expenses are used to benefit the communities in the areas of patient care, research, education, community service and capital reinvestment.

Specifically, the System provides

Benefit to the underprivileged, by offering services free of charge or deeply discounted to those who cannot pay, and by supplementing the unreimbursed costs of the government's Medicaid assistance program

Benefit to the elderly, as provided through governmental Medicare funding, by subsidizing the unreimbursed costs associated with this care

Benefit to the community's overall health and wellness through clinics and primary care services, health education and screenings, in-kind donations, extended education and research

Benefit to the faith-based and spiritual needs of the community in accordance with our mission of extending the healing ministry of Christ

Benefit to the community's infrastructure by investing in capital improvements to ensure the facilities and technology provide the best possible care to the community

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Adventist Health System/Sunbelt, Inc (Sunbelt), the Foundation and other affiliated organizations that are controlled by Healthcare Corporation. Any subsidiary or other operations owned and controlled by divisions or controlled affiliates of Healthcare Corporation are included in these consolidated financial statements. Investments in entities where the Healthcare Corporation does not have operating control are recorded under the equity or cost method of accounting. Income from unconsolidated entities of \$21,681 and \$7,882 for 2011 and 2010, respectively, is included in other operating revenue in the accompanying consolidated statements of operations and changes in net assets. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes Actual results could differ from those estimates

Recent Accounting Pronouncements

In August 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No 2010-23, *Measuring Charity Care for Disclosure* (ASU 2010-23) The provisions of ASU 2010-23 are intended to reduce the diversity in how charity care is calculated and disclosed by healthcare entities. Charity care is required to be measured at cost, defined as the direct and indirect costs of providing the charity care. As the System does not recognize revenue when charity care is provided, ASU 2010-23 had no effect on the accompanying consolidated statements of operations and changes in net assets. ASU 2010-23 only requires additional disclosures, including the method used to estimate the cost of charity care.

In August 2010, the FASB issued ASU No 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24) ASU 2010-24 prohibits the netting of insurance recoveries against a related claim liability and requires the claim liability to be calculated without consideration of insurance recoveries. This guidance is effective for fiscal years beginning after December 15, 2010, with early application permitted. The System adopted ASU 2010-24 in the first quarter of 2011. The adoption did not have a material impact on the System's consolidated financial position or results of operations.

In May 2011, the FASB issued ASU No 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) (ASU 2011-04). The amendments in ASU 2011-04 result in common fair value measurement and disclosure requirements in GAAP and IFRS. ASU 2011-04 also changes the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011. The adoption of this standard in 2012 is not expected to have a material impact on the System's consolidated financial position or results of operations.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

In July 2011, the FASB issued ASU No 2011-07, Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debt and the Allowance for Doubtful Accounts for Certain Health Care Entities (ASU 2011-07). The provisions of ASU 2011-07 require healthcare entities that recognize significant amounts of patient service revenue at the time services are rendered, even though they do not assess the patient's ability to pay to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue in the statement of operations rather than as an operating expense. Additional disclosures relating to sources of patient service revenue and the allowance for uncollectible accounts are also required. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011, with early adoption permitted. The System adopted the provisions of ASU 2011-07 as of and for the year ended December 31, 2011 and retrospectively applied the presentation requirements to all periods presented.

In September 2011, the FASB issued ASU No 2011-08, Testing Goodwill for Impairment (ASU 2011-08) ASU 2011-08 gives entities the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If entities determine, on the basis of qualitative factors, that the fair value of a reporting unit is more likely than not less than the carrying amount, the two-step impairment test under the Intangibles-Goodwill and Other Topic of the Accounting Standards Codification (ASC) (ASC350) would be required Otherwise, further testing would not be needed. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011, with early adoption permitted. The System adopted ASU 2011-08 as of September 30, 2011. The adoption did not have an impact on the System's consolidated financial position or results of operations.

In September 2011, the FASB issued ASU No 2011-09, *Disclosures about an Employer's Participation in a Multiemployer Plan* (ASU 2011-09) The provisions of ASU 2011-09 increase the quantitative and qualitative disclosures an employer is required to provide about its participation in significant multiemployer plans that offer pension or other postretirement benefits. This new guidance is effective for fiscal years ending after December 15, 2011. The System adopted the new disclosure requirement in its consolidated financial statements for the year ended December 31, 2011.

Net Patient Service Revenue, Patient Accounts Receivable and Allowance for Uncollectible Accounts

The System's patient acceptance policy is based on its mission statement and its charitable purposes. Accordingly, the System accepts patients in immediate need of care, regardless of their ability to pay. The System serves certain patients whose medical care costs are not paid at established rates. These patients include those sponsored under government programs such as Medicare and Medicaid, those sponsored under private contractual agreements, charity patients and other uninsured patients who have limited ability to pay. A patient is classified as a charity patient based on the established policies of the System, which require that the patient provide certain information to qualify for charity. Patients that qualify for charity are provided services for which no payment is due for all or a portion of the patient's bill from either the patient or other third parties. For financial reporting purposes, charity care is excluded from patient service revenue.

Adventist Health System

For the years ended December 31, 2011 and 2010 (dollars in thousands) For all other patients, patient service revenue is reported at estimated net realizable amounts for services rendered. The System recognizes patient service revenue associated with patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, revenue is recognized on the basis of discounted rates in accordance with the System's policy.

Patient service revenue is reduced by the provision for bad debts and accounts receivable are reduced by an allowance for uncollectible accounts. These amounts are based on management's assessment of historical and expected net collections for each major payor source, considering business and economic conditions, trends in healthcare coverage and other collection indicators. Management regularly reviews collections data by major payor sources in evaluating the sufficiency of the allowance for uncollectible accounts. On the basis of historical experience, a significant portion of the System's self-pay patients will be unable or unwilling to pay for the services provided Thus, the System records a significant provision for bad debts in the period services are provided related to self-pay patients. The System's allowance for uncollectible accounts for self-pay patients was 97% of selfpay accounts receivable as of December 31, 2011 and 2010 For receivables associated with patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for uncollectible accounts and a provision for bad debts, if necessary Accounts receivable are written off after collection efforts have been followed in accordance with the System's policies

Patient service revenue is not recognized for those patients that qualify for charity under the System's policies. For all other patients, patient service revenue, net of contractual allowances and self-pay discounts and before the provision for bad debts, recognized from major payor sources for the year ended December 31, 2011, is as follows.

| Third-party payors, net of contractual allowances | \$ 6,687,698 |
|---|--------------|
| Self-pay patients, net of discounts | 235,895 |
| | \$ 6,923,593 |

The System changed its uninsured discount policy, effective January 1, 2011, as required by the Patient Protection and Affordable Care Act (Act) The Act has resulted in an increase in self-pay discounts, which are a reduction of patient service revenue, and a corresponding decrease in self-pay write-offs that are included in the provision for bad debts. Overall, the total of self-pay discounts and write-offs has not changed significantly for the year ended December 31, 2011. The System has not experienced significant changes in write-off trends and has not changed its charity care policy for the year ended December 31, 2011.

The System has determined, based on an assessment at the reporting-entity level, that patient service revenue is primarily recorded prior to assessing the patient's ability to pay and as such, the entire provision for bad debts is recorded as a deduction from patient service revenue in the accompanying consolidated statements of operations and changes in net assets

Revenue from the Medicare and Medicaid programs represents approximately 36% and 35% of the System's patient service revenue for the years ended December 31, 2011 and 2010, respectively Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Other than the accounts receivable related to the Medicare and Medicaid programs, there are no significant

Adventist Health System

For the years ended December 31, 2011 and 2010 (dollars in thousands)

concentrations of accounts receivable due from an individual payor at December 31, 2011 and 2010

The System is subject to retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations. Adjustments to revenue related to prior periods increased patient service revenue by approximately \$46,600 and \$29,500 for the years ended December 31, 2011 and 2010, respectively

Charity Care

As discussed previously, the System's patient acceptance policy is based on its mission statement and its charitable purposes and as such, the System accepts patients in immediate need of care, regardless of their ability to pay. Patients that provide the necessary information to qualify for charity are provided services for which no payment is due for all or a portion of the patient's bill. Therefore, charity care is excluded from patient service revenue and the cost of providing such care is recognized within operating expenses.

The System estimates the direct and indirect costs of providing charity care by applying a cost to gross charges ratio to the gross uncompensated charges associated with providing charity care to patients. The System also receives certain funds to offset or subsidize charity services provided. These funds are primarily received from uncompensated care programs sponsored by various states, whereby healthcare providers within the state pay into an uncompensated care fund and the pooled funds are then redistributed based on state specific criteria. The cost of providing charity care, amounts paid by the System into uncompensated care funds and amounts received by the System to offset or subsidize charity services are as follows for the years ended December 31, 2011 and 2010, respectively

| | Year Ended December 31 | |
|--|------------------------|-------------|
| | 2011 | 2010 |
| Cost of providing charity care | \$ 294,737 | \$ 280,636 |
| Funds paid into trusts (included in other expenses) Funds received to offset or subsidize charity services (included in net patient service) | \$ (99,214) | \$ (70,499) |
| revenue) | 77,351 | 70,871 |
| | \$ (21,863) | \$ 372 |

EHR Incentive Payments

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH) The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that

For the years ended December 31, 2011 and 2010 (dollars in thousands)

adopt, implement or upgrade certified EHR technology Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments

The System accounts for HITECH incentive payments as a gain contingency. Income from Medicare incentive payments is recognized as revenue after the System has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended. The System recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments totaling \$55,886 for the year ended December 31, 2011 are included in total operating revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, the System's compliance with the meaningful use criteria is subject to audit by the federal government.

Excess of Revenue and Gains over Expenses

The consolidated statements of operations and changes in net assets include excess of revenue and gains over expenses, which is analogous to income from continuing operations of a for-profit enterprise Changes in unrestricted net assets that are excluded from excess of revenue and gains over expenses, consistent with industry practice, include changes in unrealized gains and losses on certain investments, changes in the fair value of derivative financial instruments that qualify as cash flow hedges, pension related changes other than net periodic pension costs and contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets)

Contributed Resources

Resources restricted by donors for specific operating purposes or a specified time period are held as temporarily restricted net assets until expended for the intended purpose or until the specified time restrictions are met, at which time they are reported as other revenue. Resources restricted by donors for additions to property and equipment are held as temporarily restricted net assets until the assets are placed in service, at which time they are reported as transfers to unrestricted net assets. Gifts, grants and bequests not restricted by donors are reported as other revenue. At December 31, 2011 and 2010, temporarily restricted net assets are available for various programs and capital expenditures at the System's hospitals.

Cash Equivalents

Cash equivalents include all highly liquid investments, including certificates of deposit and commercial paper with maturities not in excess of three months when purchased Interest income on cash equivalents is included in investment income

Functional Expenses

The System does not present expense information by functional classification because its resources and activities are primarily related to providing healthcare services. Further, since the System receives substantially all of its resources from providing healthcare services in a manner similar to a business enterprise, other indicators contained in the accompanying consolidated financial statements are considered important in evaluating how well management has discharged its stewardship responsibilities.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Investments

Investment securities, excluding alternative investments accounted for under the equity method, are recorded at fair value. The cost of securities sold is based on the specific identification method. Investment income or loss includes realized gains and losses, interest, dividends and certain unrealized gains and losses. The investment income or loss on investments that are restricted by donor or law is recorded as increases or decreases to temporarily restricted net assets. The System accounts for investment transactions on a settlement-date basis.

Management has designated primarily all fixed income instruments as other than trading securities and, accordingly, changes in unrealized gains and losses are included in unrestricted net assets. During 2011 and 2010, the System's primary equity investment portfolio included various domestic stock exchange indices. In addition, to limit its risk from the equity markets, the portfolio also included equity options, including puts and calls. Management designated these equity instruments in its primary equity investment portfolio as trading securities and, accordingly, changes in unrealized gains and losses are included in the excess of revenue and gains over expenses. As of December 31, 2011, the System had divested its primary equity investment portfolio and reallocated these amounts primarily to alternative investments. Certain other equity investments, primarily held by the System's foundations, are designated as other than trading securities and the related changes in unrealized gains and losses are included in unrestricted net assets.

Alternative Investments - Equity Method

As part of its investment strategy, the System invests in alternative investments (primarily hedge funds) through partnership investment trusts. The partnership investment trusts generally contract with managers who have full discretionary authority over the investment decisions. The System accounts for its ownership interest in these alternative investments under the equity method. Accordingly, the System's share of the hedge funds' income or loss, both realized and unrealized, is recognized as investment income or loss, which is a component of excess of revenue and gains over expenses. Alternative investments accounted for using the equity method totaled \$713,523 and \$361,363 at December 31, 2011 and 2010, respectively, and were classified as investments and assets whose use is limited in the accompanying consolidated balance sheets.

Alternative Investments - Fair Value

The System has a wholly-owned subsidiary, AHS–K2 Alternatives Portfolio, Ltd (Fund), that primarily invests in alternative investments (primarily hedge funds) through partnership investment trusts. The Fund is managed by an external investment manager (Manager) in accordance with the investment guidelines contained within the limited liability company agreement.

The strategies of the underlying funds held by the Fund, as of December 31, 2011, are described below

Alternate strategies The underlying funds invest in products other than traditional investments such as stocks and bonds. This strategy is a tool to reduce overall investment risk through diversification.

Commodity The underlying funds trade in agricultural, metal and energy markets at various stages in the commodity cycle

Currency The underlying funds invest both long and short in currencies (i.e., spot, forward, futures or options) on a global basis

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Event Driven The underlying funds focus on identifying and analyzing securities that may benefit from the occurrence of specific corporate events

Global Macro The underlying funds invest in products that may benefit from overall economical and political views of various countries

Long/Short The underlying funds invest both long and short, primarily in common stocks, based on the manager's perception of such securities being undervalued or overvalued in the market. Some of the managers may specialize in specific sectors or industries

Multi-strategy The underlying funds invest in multiple strategies to diversify risks and reduce volatility

Relative Value The underlying funds utilize non-directional strategies Relative value investing involves trading around the mispricing of two related securities using various types of securities or instruments

Specialist Credit The underlying funds seek to generate superior risk-adjusted returns from a combination of capital appreciation and current income by opportunistically investing and trading in a diversified portfolio of credit-related securities and other instruments

The Fund follows the Financial Services—Investment Companies Topic of the ASC (ASC 946-10), which requires that the investments in the underlying funds be recorded at fair value. The fair value of the underlying hedge funds is determined in good faith by the Manager and generally represents the Fund's proportionate share of the net assets of the underlying funds as reported by the managers. Unrealized appreciation and depreciation resulting from valuing the underlying funds is recognized as investment income or loss, which is a component of excess of revenue and gains over expenses.

The Fund follows ASC 820-10 for estimating the fair value of the underlying funds that have calculated a net asset value (NAV) per share in accordance with ASC 946-10 Accordingly, the Fund uses NAV as reported by the managers as a practical expedient to determine the fair value of those underlying funds that do not have a readily determinable fair value and either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company As of December 31, 2011 and 2010, the fair value of all underlying funds has been determined using the NAV of the underlying funds

The Manager uses its best judgment in estimating the fair value of these investments. As there are inherent limitations in any estimation technique, the fair value estimates presented herein are not necessarily indicative of an amount that could be realized in an actual transaction and the differences could be material.

Alternative investments accounted for at fair value totaled \$213,094 and \$106,438 as of December 31, 2011 and 2010, respectively, and were classified as investments and assets whose use is limited in the accompanying consolidated balance sheets

At December 31, 2011, certain funds cannot be redeemed currently because the funds include initial restrictions that do not allow for redemption in the first 12 months after investment. These restrictions are referred to as lock-ups. At

For the years ended December 31, 2011 and 2010 (dollars in thousands)

December 31, 2011, underlying funds with lock-up provisions expiring by October 31, 2012 totaled \$10,133 Certain other underlying funds may charge a withdrawal fee ranging from 1-6% if the Fund liquidates its investment prior to the expiration of the lock-up periods. At December 31, 2011, these underlying funds totaling \$67,314 have lock-up provisions that expire through November 30, 2012. The remaining funds totaling \$135,647 have no such redemption restrictions.

Upon the expiration of lock-up provisions, the Fund has the ability to liquidate its investments periodically in accordance with the provisions of the respective agreements with the underlying funds. The underlying funds have either monthly, quarterly or annual redemption terms. Certain funds with quarterly redemption terms allow redemptions of up to 25% of the investment each quarter and as such, a period of twelve months would be required to fully redeem these investments. Certain agreements may also allow the underlying fund to temporarily suspend redemptions or place other temporary restrictions, such as gate provisions or side pockets. Investments with quarterly redemption terms or other temporary suspensions totaled \$24,619 as of December 31, 2011. There were no such investments at December 31, 2010.

Assets Whose Use is Limited

Certain of the System's investments are limited as to use through board resolution, by provisions of contractual arrangements, under the terms of bond indentures or under the terms of other trust agreements. These investments are classified as assets whose use is limited in the accompanying consolidated balance sheets. Interest and dividend income and realized gains and losses on assets whose use is limited are reported as investment income within nonoperating gains (losses).

Securities Lending Program

The System participates in securities lending transactions with the custodian of its investments, whereby a portion of its investments is loaned to certain brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned, usually on a short-term basis Collateral provided by brokers is maintained at levels approximating 102% of the fair value of the securities on loan and is adjusted for daily market fluctuations. The fair value of collateral held for loaned securities is reported as collateral held under securities lending program, with a corresponding obligation reported for repayment of such collateral upon settlement of the lending transaction.

Derivative Financial Instruments

The System accounts for its derivative financial instruments as required by ASC 815 and the Health Care Entities Derivative and Hedging Subtopic of the ASC (ASC 954-815) ASC 954-815 requires that not-for-profit healthcare organizations apply the provisions of ASC 815 (including the provisions pertaining to cash flow hedge accounting) in the same manner as for-profit enterprises

ASC 815 requires companies to recognize all derivative instruments as either assets or liabilities in the balance sheet at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, a company must designate the hedging instrument, based upon the exposure being hedged, as a fair value hedge, cash flow hedge or a hedge of the foreign currency exposure of a net investment in a foreign operation.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The System is exposed to certain risks relating to its ongoing operations. The primary risk managed by using derivative instruments is interest rate risk. Interest rate swaps are entered into to manage interest rate risk associated with the System's fixed and variable-rate borrowings. In accordance with ASC 815, the System designates certain interest rate swaps as cash flow hedges of variable-rate borrowings. The System has no derivative instruments that are designated as fair value hedges or as hedges of the foreign currency exposure of a net investment in a foreign operation.

Sale of Patient Accounts Receivable

The System and certain of its member affiliates maintain a program (Program) for the continuous sale of certain patient accounts receivable to the Highlands County Health Facilities Authority (Highlands) on a nonrecourse basis Highlands has partially financed the purchase of the patient accounts receivable through the issuance of tax-exempt bonds (Bonds), of which Highlands had \$304,230 outstanding as of December 31, 2011 and 2010 These Bonds are supported by a bank letter of credit arrangement that expires in December 2013 As of December 31, 2011 and 2010, the estimated net realizable value, as defined in the underlying agreements, of patient accounts receivable sold by the System and removed from the accompanying consolidated balance sheets was \$569,129 and \$526,305, respectively The patient accounts receivable sold consist primarily of amounts due from government programs and commercial insurers. The proceeds received from Highlands consist of cash from the Bonds, a note on a subordinated basis with the Bonds and a note on a parity basis with the Bonds. The note on a subordinated basis with the Bonds is in an amount to provide the required overcollateralization of the Bonds and was \$85,808 at December 31, 2011 and 2010 The note on a parity basis with the Bonds is the excess of eligible accounts receivable sold over the sum of cash received and the subordinated note and was \$179,091 and \$136,267 at December 31, 2011 and 2010, respectively. These notes are included in other receivables (current) in the accompanying consolidated balance sheets. Due to the nature of the patient accounts receivable sold, collectability of the subordinated and parity notes is not significantly impacted by credit risk

Inventories

Inventories (primarily pharmaceuticals and medical supplies) are stated at the lower of cost or market using the first-in, first-out method of valuation

Property and Equipment

Property and equipment are reported on the basis of cost, except for donated items, which are recorded at fair value at the date of the donation. Expenditures that materially increase values, change capacities or extend useful lives are capitalized. Depreciation is computed primarily utilizing the straight-line method over the expected useful lives of the assets. Amortization of capitalized leased assets is included in depreciation expense and allowances for depreciation.

Goodwill

Goodwill represents the excess of the purchase price and related costs over the value assigned to the net tangible and identifiable intangible assets of the businesses acquired. These amounts are included in other assets (noncurrent) in the accompanying consolidated balance sheets and are evaluated annually for impairment or when there is an indicator of impairment.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Upon adoption of ASU 2011-08 in 2011, in performing the annual assessment, the System chose to complete a qualitative assessment to determine whether it is more likely than not that the fair value of its reporting units is less than their carrying amount Management has determined that it is not more likely than not that the fair value of the System's reporting units is less than their carrying amount. Therefore, the two-step impairment test under ASC 350 was not required.

Deferred Financing Costs

Direct financing costs are included in other assets (noncurrent) and deferred and amortized over the remaining lives of the financings using the effective interest method

Interest in the Net Assets of Unconsolidated Foundations

Interest in the net assets of unconsolidated foundations represents contributions received on behalf of the System or its member affiliates by independent fund-raising foundations. As the System cannot influence the foundations to the extent that it can determine the timing and amount of distributions, the System's interest in the net assets of the foundations are included in other assets (noncurrent) and changes in that interest are included in temporarily restricted net assets.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on discounted net cash flows or other estimates of fair value.

Bond Discounts and Premiums

Bonds payable, including related original issue discounts and/or premiums, are included in long-term debt. Discounts and premiums are being amortized over the life of the bonds using the effective interest method.

Income Taxes

Healthcare Corporation and its affiliated organizations, other than North American Health Services, Inc. and its subsidiaries (NAHS), are exempt from state and federal income taxes. Accordingly, Healthcare Corporation and its tax-exempt affiliates are not subject to federal, state, or local income taxes except for any net unrelated business taxable income. For the years ended December 31, 2011 and 2010, unrelated business income activities conducted by Healthcare Corporation and its tax-exempt affiliates did not generate a material amount of combined federal, state and local income tax.

NAHS is a wholly owned, for-profit subsidiary of Healthcare Corporation NAHS and its subsidiaries are subject to federal and state income taxes NAHS files a consolidated federal income tax return and, where appropriate, consolidated state income tax returns. For the years ended December 31, 2011 and 2010, NAHS generated taxable income of approximately \$1,000 and \$1,500, respectively. This taxable income was fully offset by net operating loss carryforwards for federal income tax purposes. Although one state in which NAHS conducts business suspended the utilization of net operating loss carryforwards for the year ended December 31, 2011, no material state income tax liability resulted. Accordingly, there is no provision for current federal or state income tax for the years ended December 31, 2011 and 2010.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

NAHS also has temporary deductible differences of approximately \$67,500 and \$68,400 at December 31, 2011 and 2010, respectively, primarily as a result of net operating loss carryforwards At December 31, 2011, NAHS had net operating loss carryforwards of approximately \$66,800, of which \$21,000 will expire in 2023, with the remaining \$45,800 expiring beginning in 2013 through 2026. Some of these net operating losses are subject to the separate return limitation year rules Deferred taxes have been provided for these amounts, resulting in a net deferred tax asset of approximately \$25,600 and \$26,000 at December 31, 2011 and 2010, respectively A full valuation allowance has been provided at December 31, 2011 and 2010, respectively, to offset the deferred tax asset since Healthcare Corporation has determined that it is more likely than not that the benefit of the net operating loss carryforwards will not be realized in future years. The Income Taxes Topic of the ASC (ASC 740) prescribes the accounting for uncertainty in income tax positions recognized in financial statements ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return

Reclassifications

Certain reclassifications were made to the 2010 consolidated financial statements to conform to the classifications used in 2011. These reclassifications had no impact on the consolidated excess of revenue and gains over expenses and changes in net assets previously reported.

2. Acquisition

The System entered into a Merger and Affiliation Agreement (Agreement) with University Community Hospital, Inc (UCH) under which, the System became the sole member of UCH effective September 1, 2010 (acquisition date) No consideration was transferred in exchange for this acquisition UCH is comprised of three hospitals and one long-term acute care facility in the Tampa, Florida market This acquisition allowed the System the ability to provide expanded healthcare services in the Tampa, Florida market

In accordance with the Business Combinations Topic of the ASC (ASC 805), provisional amounts had been recorded where the accounting for certain liabilities had not been finalized. As a result of the receipt of additional information necessary to finalize the accounting, the acquisition date fair value of other noncurrent liabilities was increased by \$14,588. In accordance with ASC 805, such adjustments are recognized as if the accounting for the acquisition had been completed as of the acquisition date. As such, the fair value of noncurrent liabilities was increased by \$14,588, offset by a decrease to the excess of fair value of assets acquired over liabilities assumed in acquisition as of September 1, 2010.

For the years ended December 31, 2011 and 2010 (dollars in thousands) The amounts recognized as of the acquisition date for each major class of assets acquired and liabilities assumed are as follows

| Assets | |
|--|------------|
| Cash | \$ 51,389 |
| Investments | 52,242 |
| Patient accounts receivable | 56,087 |
| Prepaid expenses and other current assets | 28,900 |
| Assets whose use is limited | 86,016 |
| Property and equipment | 511,724 |
| Other assets | 51,363 |
| | 837,721 |
| Liabilities | |
| Accounts payable and accrued liabilities | \$ 77,570 |
| Estimated settlements to third parties | 9,720 |
| Other current liabilities | 12,325 |
| Long-term debt and capital lease obligations | 252,527 |
| Other noncurrent liabilities | 125,606 |
| | 477,748 |
| Excess of fair value of assets acquired over liabilities | |
| assumed in acquisition | \$ 359,973 |

UCH's results of operations and changes in net assets were included in the System's consolidated financial statements beginning September 1, 2010, and were as follows for the periods presented

| | | Four Months |
|--|--------------|--------------|
| | Year Ended | Ended |
| | December 31, | December 31, |
| | 2011 | 2010 |
| Total operating revenue | \$ 501,184 | \$ 160,240 |
| (Deficiency) excess of revenue and gains | | |
| over expenses before loss from early | | |
| extinguishment of debt | (8,163) | 10,554 |
| Loss from early extinguishment of debt | _ | (11,871) |
| (Decrease) increase in unrestricted net assets | (36,190) | 24,349 |
| Decrease in temporarily restricted net assets | (4,206) | (1,170) |

Subsequent to the acquisition, the System extinguished the outstanding bonds of UCH, which resulted in a loss from early extinguishment of debt of \$11,871 for the year ended December 31,2010

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The following pro forma combined results of operations for the year ended December 31, 2010 give effect to the acquisition as if it had occurred on January 1, 2010. The pro forma combined results of operations do not necessarily represent the System's consolidated results of operations had the acquisition occurred on the date assumed, nor are these results necessarily indicative of the System's future consolidated results of operations. The System expects to realize certain benefits from integrating UCH into the System and to incur certain one-time costs. The pro-forma combined results of operations do not reflect these benefits or costs. These combined results reflect the impact of amortizing certain acquisition accounting adjustments such as fair value adjustments to property and equipment as of January 1, 2010.

| Pro forma total operating revenue | \$6,563,383 |
|--|-------------|
| Pro forma excess of revenue and gains over expenses | 430,595 |
| Pro forma changes in unrestricted net assets | 405,008 |
| Pro forma changes in temporarily restricted net assets | 4.956 |

3. Discontinued Operations

Effective July 1, 2010, the System entered into a Merger and Affiliation Agreement whereby the System became the sole member of Bert Fish Medical Center, Inc (BFMC) and assumed a lease of a hospital facility with the Southeast Volusia Hospital District (District) Subsequent to the acquisition of BFMC by the System, the Bert Fish Foundation, Inc. filed a lawsuit against the District, BFMC and the System (Parties). The lawsuit alleged that the acquisition was not completed in accordance with applicable Florida statutes and sought to unwind the transaction. In late February 2011, Florida's Seventh Judicial Circuit Court (Court) ordered the Parties to submit a plan to return the control of BFMC from the System to the District. On June 24, 2011, the Court approved a transition agreement in which control of BFMC was transferred to the District on June 30, 2011. No consideration was received by the System in exchange for this transfer.

In accordance with the Consolidation Topic of the ASC (ASC 810), when a parent corporation ceases to have a controlling interest in a subsidiary, the deconsolidation of that subsidiary is required BFMC was deconsolidated from the System's balance sheet as of June 30, 2011, resulting in a loss of \$27,218, representing the net carrying amount of BFMC's assets and liabilities BFMC's assets and liabilities are included in the accompanying consolidated balance sheet as of December 31, 2010. The operating results of BFMC for the years ended December 31, 2011 and 2010 were reclassified to discontinued operations in the accompanying consolidated statements of operations and changes in net assets. The excess of expenses over revenue and gains from BFMC's operations for the six months ended June 30, 2011 was \$1,004, resulting in a total loss from discontinued operations of \$28,222. For the year ended December 31, 2010, \$26,456 was reclassified to discontinued operations. This includes BFMC's excess of revenue and gains over expenses for the six months ended December 31, 2010 of \$261 and the excess of fair value of assets acquired over liabilities assumed in acquisition of \$26,195.

BFMC's total operating revenue, included in discontinued operations in the accompanying consolidated statements of operations and changes in net assets for the years ended December 31, 2011 and 2010, was \$48,464 and \$46,070, respectively

For the years ended December 31, 2011 and 2010 (dollars in thousands)

4. Investments and Assets Whose Use is Limited

Investments

Investments are comprised of the following

| | December 31 | |
|---|--------------|--------------|
| | 2011 | 2010 |
| Other than trading portfolio | | |
| Fixed income instruments | | |
| U S government agencies and sponsored | | |

| | <u> </u> | <u> </u> |

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Assets whose use is limited include investments held by bond trustees, investments held under other trust agreements and investments designated by boards for employee retirement plans and capital expenditures. Amounts to be used for the payment of current liabilities are classified as current assets.

Indenture requirements of tax-exempt financings by the System provide for the establishment and maintenance of various accounts with trustees. These arrangements require the trustee to control the expenditure of debt proceeds, as well as the payment of interest and the repayment of debt to bondholders. Medical malpractice trust funds are maintained to provide funds to settle medical malpractice claims.

A summary of the major limitations as to the use of these assets consists of the following

| | December 31 | |
|---|-------------|------------|
| | 2011 | 2010 |
| Investments held by bond trustees | | |
| Construction funds and other | \$ - | \$ 75,000 |
| Required bond funds | 23,506 | 59,080 |
| | 23,506 | 134,080 |
| Malpractice trust funds | 363,275 | 292,455 |
| Employee benefits funds | 141,715 | 132,272 |
| Board designated funds for capital expenditures | 53,750 | 78,110 |
| Other | 17,329 | 58,758 |
| | 599,575 | 695,675 |
| Less amounts to pay current liabilities | (167,392) | (171,790) |
| - · | \$ 432,183 | \$ 523,885 |

Investment Income and Unrealized Gains and Losses

Investment income from cash and cash equivalents, investments and assets whose use is limited amounted to \$67,376 and \$117,484 for the years ended December 31, 2011 and 2010, respectively, and consisted of the following

| | Year Ended December 31 | |
|--|------------------------|---------------------|
| | 2011 | 2010 |
| Interest and dividend income Net realized and unrealized gains/losses The System's share of alternative investments' | \$ 38,710 45,811 | \$ 34,151 52,627 |
| (loss) income | (17,145) | 30,706 |
| | \$ 67,376 | \$117,484 |

Changes in unrealized gains and losses that are included as a reduction of unrestricted net assets in the accompanying consolidated statements of operations and changes in net assets totaled \$6,558 and \$25,896 for 2011 and 2010, respectively

At December 31, 2011 and 2010, the total fair value of investments and assets whose use is limited, excluding alternative investments and the trading portfolio, amounted to \$2,211,365 and \$2,342,652, respectively. The net unrealized loss associated with these holdings approximated \$1,500 at December 31, 2011, which is comprised of gross unrealized gains of approximately \$20,600 and gross

For the years ended December 31, 2011 and 2010 (dollars in thousands)

unrealized losses of approximately \$22,100. The net unrealized gain associated with these holdings approximated \$6,100 at December 31, 2010, which is comprised of gross unrealized gains of approximately \$25,400 and gross unrealized losses of approximately \$19,300.

GAAP requires that the System recognize, in excess of revenue and gains over expenses, all declines in fair value below the cost basis of investment securities that are considered other-than-temporary. Management has evaluated the investments with unrealized losses and has concluded that none of the above losses should be considered other-than-temporary as of December 31, 2011 and 2010.

5. Unrestricted Cash and Investments

The System's unrestricted cash and cash equivalents, investments and board designated funds for capital expenditures consist of the following

| | December 31 | |
|---|-------------|-------------|
| | 2011 | 2010 |
| | | |
| Cash and cash equivalents | \$1,194,945 | \$1,025,207 |
| Investments | 2,538,407 | 2,549,305 |
| Board designated funds for capital expenditures | 53,750 | 78,110 |
| | \$3,787,102 | \$3,652,622 |
| | | |
| Days cash and investments on hand | 224 | 224 |

Days cash and investments on hand is calculated as unrestricted cash and cash equivalents, investments and certain board designated funds divided by daily operating expenses (excluding depreciation and amortization) The annualized operating expenses of UCH and BFMC were included in the 2010 calculation

6. Property and Equipment

Property and equipment consists of the following

| | December 31 | |
|----------------------------------|--------------|--------------|
| | 2011 | 2010 |
| Land and improvements | \$ 597,730 | \$ 549,328 |
| Buildings and improvements | 3,801,026 | 3,604,287 |
| Equipment | 3,210,524_ | 2,985,561 |
| | 7,609,280 | 7,139,176 |
| Less allowances for depreciation | (3,382,069) | (3,058,357) |
| | 4,227,211 | 4,080,819 |
| Construction in progress | 229,918 | 213,651 |
| | \$ 4,457,129 | \$ 4,294,470 |

Certain hospitals have entered into construction contracts for which costs have been incurred and included in construction in progress. These and other committed projects will be financed through operations, proceeds from borrowings and board designated funds (see note 4). The estimated costs to complete these projects approximated \$162,800 at December 31, 2011. During periods of construction,

For the years ended December 31, 2011 and 2010 (dollars in thousands)

interest costs are capitalized to the respective property accounts. Interest capitalized approximated \$7,900 and \$4,700 for the years ended December 31, 2011 and 2010, respectively

7. Other Assets

Other assets consists of the following

| | December 31 | |
|---|-------------|------------|
| | 2011 | 2010 |
| Goodwill | \$ 140,229 | \$ 135,606 |
| Deferred financing costs | 24,482 | 27,315 |
| Notes and loans receivable | 67,056 | 51,452 |
| Interests in net assets of unconsolidated foundations | 59,741 | 65,162 |
| Investments in unconsolidated entities | 78,884 | 57,578 |
| Other noncurrent assets | 60,999 | 72,574 |
| | \$ 431,391 | \$ 409,687 |

8. Long-Term Debt

Long-term debt consists of the following:

| | December 31 | |
|---|--------------|--------------|
| | 2011 | 2010 |
| Fixed-rate hospital revenue bonds, interest rates from 2 00% to 6 00%, payable through 2039 | \$ 2,217,660 | \$ 2,228,740 |
| Variable-rate hospital revenue bonds, payable | | |
| through 2037 | 926,646 | 977,840 |
| Capitalized leases payable | 44,468 | 58,280 |
| Other indebtedness | 18,325 | 13,556 |
| Unamortized original issue premium, net | 18,266 | 20,981 |
| | 3,225,365 | 3,299,397 |
| Less current maturities | (73,915) | (67,409) |
| | \$ 3,151,450 | \$ 3,231,988 |

Master Trust Indenture

Long-term debt has been issued primarily on a tax-exempt basis. Substantially all bonds are secured under a master trust indenture, which provides for, among other things, the deposit of revenue with the master trustee in the event of certain defaults, pledges of accounts receivable, pledges not to encumber property and limitations on additional borrowings.

Variable-Rate Bonds

Certain variable-rate bonds may be put to the System at the option of the bondholder. The variable-rate bond indentures generally provide the System the option to remarket the obligations at the then prevailing market rates for periods ranging from one day to the maturity dates.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The obligations have been primarily marketed for seven-day periods during 2011, with annual interest rates ranging from 0.03% to 3.25%. The System has various sources of liquidity in the event any variable-rate bonds are put and not remarketed, including bank letter of credit agreements. The bank letter of credit agreements provide, among other things, that in the event a market for these obligations is not sustained, the bank would purchase the obligations at rates that vary with prime or, in certain cases, the London Interbank Offer Rate (LIBOR). The System's obligation to the bank would be payable in accordance with the variable-rate bonds' original maturities over the remaining term of the letter of credit agreements, with the remaining amount due upon expiration of the letter of credit agreements.

The System had a revolving credit agreement (Revolving Note) with a syndicate of banks (Syndicate) in the aggregate amount of \$1,885,200 for letters of credit, liquidity facilities and general corporate needs, including working capital, capital expenditures and acquisitions that had an expiration date in December 2011. In December 2010, the System amended the Revolving Note (New Revolving Note) with a revised group of banks (New Syndicate) The New Revolving Note totals \$1,750,000 and has an expiration date of December 2015. The New Revolving Note became effective in March 2011, upon the replacement of the existing letters of credit with letters of credit issued by the New Syndicate (LOC substitutions) The LOC substitutions required a purchase and reissuance of the related bonds, which was accounted for as an extinguishment and reissuance for accounting purposes The LOC substitutions resulted in a loss of \$3,962, which is included in the loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets for the year ended December 31, 2011 At December 31, 2011 and 2010, the System had \$637,490 and \$736,377, respectively, of the applicable revolving credit agreement committed to letter of credit agreements that secure variable-rate bonds

Variable-rate bonds that are not supported by bank letter of credit agreements or are supported by agreements that expire within a year are included in short-term financings in the accompanying consolidated balance sheets

2011 Debt Transactions

During 2011, the System extinguished certain debt obligations with par amounts totaling \$154,570. These obligations were retired using existing funds. In connection with these transactions, the System recorded a loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets of approximately \$16,748. Approximately \$12,027 of the loss resulted from the reclassification of accumulated losses related to terminated cash flow hedges (see note 9). During November 2011, the System issued bonds with par amounts totaling \$80,000 that have a fixed interest rate of 2.4% through a mandatory tender date of November 2021. The interest rate on these bonds may be reset at the respective mandatory tender dates to either a fixed-rate or variable-rate mode. With the proceeds, the System financed or refinanced certain costs of the acquisition, construction, renovation and equipping of certain facilities.

2010 Debt Transactions

During September 2010, the System drew \$225,000 on its Revolving Note and used the proceeds to extinguish the outstanding bonds of UCH During December 2010, the System issued bonds with par amounts totaling \$357,000 with final maturity dates in 2036 Bonds with par amounts totaling \$282,000 have fixed interest rates ranging from 2 39% to 2 96% through a mandatory tender date of

For the years ended December 31, 2011 and 2010 (dollars in thousands)

January 2018 Bonds with par amounts of \$75,000 have a fixed interest rate of 3 57% through a mandatory tender date of January 2021. The interest rate on these bonds may be reset at the respective mandatory tender dates to either a fixed-rate or variable-rate mode. Proceeds from these bonds were used to repay the draw on the Revolving Note, extinguish certain other debt and provide funding for certain pension plans and working capital needs of acquired facilities. In connection with these debt extinguishments, the System recorded a loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets of approximately \$15,472.

Debt Maturities

Maturities of long-term debt consist of the following

| 2012 | \$ | 73,915 |
|------------|----|---------|
| 2013 | | 74,559 |
| 2014 | | 76,551 |
| 2015 | | 94,096 |
| 2016 | | 83,547 |
| Thereafter | 2. | 804,431 |

9. Derivative Financial Instruments

Derivatives Designated as Hedging Instruments

For derivative instruments that are designated and qualify as a cash flow hedge (i.e., hedging the exposure to variability in expected future cash flows associated with certain of the System's variable-rate borrowings), the effective portion of the gain or loss on the derivative instrument is reported as a component of unrestricted net assets and reclassified into earnings in the same line item (interest expense) associated with the forecasted transaction and in the same period or periods during which the hedged transaction affects excess of revenue and gains over expenses

The ineffective portion, which represents the remaining gain or loss on the derivative instrument in excess of the cumulative change in the present value of future cash flows of the hedged item, if any, or hedge components excluded from the assessment of effectiveness, is recognized in excess of revenue and gains over expenses in the accompanying consolidated statements of operations and changes in net assets during the current period

The System utilizes interest rate swaps, including forward-starting interest rate swaps, which effectively modify the System's exposure to interest rate risk by converting a portion of its variable-rate borrowings to a fixed-rate basis, thus reducing the impact of interest-rate changes on future interest expense. These agreements involve the receipt of variable-rate amounts in exchange for fixed-rate interest payments over the life of the agreements without an exchange of the underlying principal amounts. The agreements expire in periods beginning in 2012 through 2017. Approximately \$964,000 and \$1,106,000 of the System's outstanding variable-rate debt classified as both short-term financings and long-term debt had its interest payments designated as the hedged forecasted transactions to interest rate swap agreements at December 31, 2011 and 2010, respectively. At December 31, 2011 and 2010, the notional values of the System's forward-starting interest rate swaps totaled \$300,000.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The changes in the accumulated net derivative loss included in unrestricted net assets associated with the System's cash flow hedges is as follows

| | Year Ended December 31 | | |
|--|------------------------|--------------|--|
| | 2011 | 2010 | |
| Accumulated net derivative loss included in unrestricted net assets at beginning of year | \$ (123,118) | \$ (102,818) | |
| Net change associated with current period hedging transactions | (34,557) | (27,846) | |
| Net reclassifications into excess of revenue and gains over expenses | 22,690 | 7,546 | |
| Accumulated net derivative loss included in unrestricted net assets at end of year | \$ (134,985) | \$ (123,118) | |

The accumulated net derivative loss included in unrestricted net assets will be reclassified into earnings in the same periods during which the hedged transaction affects excess of revenue and gains over expenses or in the event it is determined that the original forecasted transactions are not probable of occurring by the end of the originally specified period or within the additional period of time allowed in ASC 815. In connection with the early extinguishment of certain variable-rate bonds in 2011 (see note 8), accumulated losses of \$12,027 related to previously terminated cash flow hedges were reclassified into the excess of revenue and gains over expenses. The System expects that the amount of net losses existing in unrestricted net assets to be reclassified into excess of revenue and gains over expenses within the next 12 months will be approximately \$7,200.

Derivatives Not Designated as Hedging Instruments

The System has entered into certain interest rate swap agreements that do not qualify as hedging instruments. These interest rate swaps are primarily utilized to reduce the cost associated with the System's fixed-rate borrowings. The gain or loss on these derivative instruments is reported as a component of nonoperating gains (losses) in the period it occurs. As of December 31, 2011 and 2010, the total notional amount of the System's interest rate swaps not qualifying for hedge accounting was approximately \$233,000 and \$325,000, respectively

Credit-Risk-Related Contingent Features of Derivative Instruments

Substantially all of the System's derivative instruments contain provisions that require the System to maintain an investment-grade credit rating. If the System's credit rating were to fall below investment grade, it would be in violation of such provisions, and the counterparties to the derivative instruments could request immediate payment on derivative instruments in net liability positions. The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position on December 31, 2011 and 2010, is \$125,265 and \$113,628, respectively. If the credit-risk-related contingent features underlying these agreements had been triggered on December 31, 2011, the System could have been required to settle the agreements with the counterparties, requiring cash or other liquid assets of \$56,784, in addition to the collateral posted of \$68,481 Collateral is included in investments in the accompanying consolidated balance sheets

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Financial Statement Presentation

The System's derivative financial instruments are reported in the accompanying consolidated balance sheets as follows

| | Liability Derivatives | | | | |
|--|------------------------------|------------|------------|--|--|
| | | r Value | | | |
| | Balance Sheet | Dec | ember 31 | | |
| | Location | 2011 | 2010 | | |
| Derivatives designated as hedging instruments: | | | | | |
| Interest rate swap agreements | Other noncurrent liabilities | \$ 121,214 | \$ 103,633 | | |
| Derivatives not designated as hedging instruments: | | | | | |
| Interest rate swap agreements | Other noncurrent liabilities | 4,051 | 9,995 | | |
| | | \$ 125,265 | \$ 113,628 | | |

The effects of the System's derivative financial instruments on the accompanying consolidated statements of operations and changes in net assets are as follows

| | Year Ended December 31 | | | r 31 |
|---|------------------------|----------|----|----------|
| | | 2011 | | 2010 |

Investment Derivatives

Through August 2011, the System utilized derivative instruments within its primary equity investment portfolio, which is comprised of long positions in various domestic stock exchange indices. In order to limit the System's market risk from the equity markets, the portfolio includes derivative instruments such as puts and calls. Management has designated the instruments within its primary equity investment portfolio as trading securities and, accordingly, both realized and unrealized gains and losses are included in investment income in the period they occur. The net gains or losses on these trading activities, including both the long positions and the derivative instruments, are included in investment income. For the

For the years ended December 31, 2011 and 2010 (dollars in thousands)

years ended December 31, 2011 and 2010, the System recorded net (losses) gains of approximately \$(351) and \$7,500, respectively, on its primary equity investment portfolio

10. Retirement Plans

Defined Contribution Plans

The System participates with other Seventh-day Adventist healthcare entities in a defined contribution retirement plan (Plan) that covers substantially all full-time employees who are at least 18 years of age. The Plan is exempt from the Employee Retirement Income Security Act of 1974. The Plan provides, among other things, that the employer contribute 2.6% of wages, plus additional amounts for very highly paid employees. Additionally, the Plan provides that the employer match 50% of the employee's contributions up to 4% of the contributing employee's wages, resulting in a maximum available match of 2% of the contributing employee's wages each year UCH sponsored retirement savings plans through December 31, 2010. Subsequent to December 31, 2010, this plan ceased accepting contributions. Effective January 1, 2011, UCH employees were eligible to participate in the Plan.

Contributions for all of the above plans are included in employee compensation in the accompanying consolidated statements of operations and changes in net assets in the amount of \$88,510 and \$74,655 for the years ended December 31, 2011 and 2010, respectively

Defined Benefit Plan - Multiemployer Plan

Prior to January 1, 1992, substantially all of the System's entities participated in a multiemployer, noncontributory defined benefit retirement plan, the Seventh-day Adventist Hospital Retirement Plan Trust (Old Plan) administered by the General Conference of Seventh-day Adventists that is exempt from the Employee Retirement Income Security Act of 1974. The risks of participating in multiemployer plans is different from single-employer plans in the following aspects.

Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers

If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers

If an entity chooses to stop participating in the multiemployer plan, it may be required to pay the plan an amount based on the underfunded status of the plan, referred to as withdrawal liability

During 1992, the Old Plan was suspended and the Plan was established. The System, along with the other participants in the Old Plan, may be required to make future contributions to the Old Plan to fund any difference between the present value of the Old Plan benefits and the fair value of the Old Plan assets. Future funding amounts and the funding time periods have not been determined by the Old Plan administrators, however, management believes the impact of any such future decisions will not have a material adverse effect on the System's consolidated financial statements

For the years ended December 31, 2011 and 2010 (dollars in thousands) The plan assets and benefit obligation data for the Old Plan as of December 31, 2009 is as follows

| Total plan assets | \$ 792,099 |
|--|---------------|
| Actuarial present value of accumulated plan benefits | 858,199 |
| Funded status | 92 3% |

The most current plan assets data is as of December 31, 2010 and totaled \$830,043. The System did not make contributions to the Old Plan for the years ended December 31, 2011 or 2010.

Defined Benefit Plan - Frozen Pension Plan

As of the date of their acquisition by the System, both UCH and BFMC sponsored a noncontributory defined benefit pension plan (UCH Pension Plan and BFMC Pension Plan or collectively, Pension Plans) The System froze the Pension Plans in December 2010, such that no new benefits will be accrued in the future. As a result of freezing future benefits, the System recognized a curtailment gain of approximately \$4,882 during the year ended December 31, 2010, of which \$3,824 is included in employee compensation and \$1,058 is included in discontinued operations in the accompanying consolidated statements of operations and changes in net assets. The projected and accumulated benefit obligation and the fair value of plan assets of the BFMC Pension Plan were removed from the 2011 end of year obligation as a result of the discontinued operations of BFMC ASC Topic 715, Compensation - Retirement Benefits, requires employers that sponsor defined benefit plans to recognize the funded status of their postretirement benefit plans in the statement of financial position, measure the fair value of plan assets and benefit obligations as of the date of the year-end statement of financial position, and provide additional disclosures

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The following table sets forth the remaining combined projected and accumulated benefit obligations and the assets of the Pension Plans at December 31, 2011 and 2010, the components of net periodic benefit costs for the year then ended, and a reconciliation of the amounts recognized in the accompanying consolidated financial statements

| | Year Ended December 31 | | |
|--|------------------------|-------------|--|
| | 2011 | 2010 | |

| other noncurrent liabilities | \$ (21,549) | \$ (69,937) | |

No plan assets are expected to be returned to the System during the fiscal year ending December 31, 2012

Included in unrestricted net assets at December 31, 2011 and 2010, are unrecognized actuarial gains of approximately \$5,999 and \$23,500, respectively, that have not yet been recognized in net periodic pension expense. None of the actuarial gain included in unrestricted net assets is expected to be recognized in net periodic pension cost during the year ending December 31, 2012.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Changes in plan assets and benefit obligations recognized in unrestricted net assets include

| | Year Ended December 31 | | | |
|---|------------------------|-------------|--|--|
| | 2011 | 2010 | | |
| Net actuarial loss (gain) | \$ 15,405 | \$ (23,500) | | |
| Amortization of net actuarial loss | 186 | | | |
| Total recognized in unrestricted net assets | \$ 15,591 | \$ (23,500) | | |

The components of net periodic pension were as follows

| | Year Ended December 31 | | | | |
|-------------------------------------|------------------------|------|---------|--|--|
| | 2011 | | 2010 | | |
| Service cost | \$ - | - \$ | 552 | | |
| Interest cost | 8,53 | 7 | 3,836 | | |
| Expected return on plan assets | (7,302 | 2) | (3,262) | | |
| Recognized net actuarial gain | (18) | 5) | _ | | |
| Curtailment gain | - | _ | (4,882) | | |
| Net periodic pension cost (benefit) | \$ 1,049 | \$ | (3,756) | | |

The assumptions used to determine the benefit obligation and net periodic benefit cost for the Pension Plans is set forth below

| | Year Ended December 31 | | |
|---|------------------------|---------|--|
| | 2011 | 2010 | |
| Used to determine projected benefit obligation | | | |
| Weighted-average discount rate | 5 13% | 5 46% | |
| Used to determine benefit cost | | | |
| Weighted-average discount rate | 5 47% | 5 03% | |
| Weighted-average expected long-term rate of return on plan assets | 5 50% | 8 43% | |
| Weighted-average rate of compensation | N/A | 3 12% | |
| increase | 18/74 | 3 12 /0 | |

The Pension Plans' assets are invested in a portfolio designed to protect principal and obtain competitive investment returns and long-term investment growth, consistent with actuarial assumptions, with a reasonable and prudent level of risk Diversification is achieved by allocating funds to various asset classes and investment styles and by retaining multiple investment managers with complementary styles, philosophies and approaches

The Pension Plans' assets are managed solely in the interest of the participants and their beneficiaries. The expected long-term rate of return on the Pension Plans' assets is based on historical and projected rates of return for current and planned asset categories in the investment portfolio. Assumed projected rates of return for each asset category were selected after analyzing historical experience and future expectations of the returns and volatility for assets of that category using benchmark rates. Based on the target allocation among the asset categories, the overall expected rate of return for the portfolio was developed and adjusted for historical and expected experience of active portfolio management results compared to benchmark returns and for the effect of expenses paid from plan assets.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

At December 31, 2010, the Pension Plans' assets consist primarily of cash and cash equivalents, publicly traded common stocks of both U S and international corporations and fixed income securities. During 2011, the System reallocated the investment portfolio of the UCH Pension Plan to include primarily fixed income securities and alternative investments. The target investment allocation for the UCH Pension Plan is 50% fixed income and 50% equity securities. This allocation is partially achieved through investments in alternative investments that have fixed income or equity strategies.

The following table presents the UCH Pension Plan's financial instruments as of December 31, 2011, measured at fair value on a recurring basis by the valuation hierarchy defined in note 14

| | Total | Level 1 | Level 2 | Level 3 | |

| Ending balance | \$ 1,481_ | \$ 1,001 | \$ 1,853 | \$ 4,335 | | | |

The following represents the expected benefit plan payments for the next five years and the five years thereafter

| Year ending December 31 | | |
|-------------------------|----------|--|
| 2012 | \$ 4,806 | |
| 2013 | 5,678 | |
| 2014 | 6,147 | |
| 2015 | 6,713 | |
| 2016 | 7,247 | |
| 2017-2021 | 46.251 | |

11. Medical Malpractice

The System established a self-insured revocable trust (Trust) that covers the System's facilities for claims below a specified level (Excess Level) Claims above the Excess Level are covered by a claims-made policy with a commercial insurance company An Excess Level of \$2,000 was established for the year ended December 31, 2001 The Excess Level was increased to \$7,500 and \$15,000 effective January 1, 2002 and 2003, respectively, and has remained at \$15,000 through December 31, 2011

The Trust funds are recorded in the accompanying consolidated balance sheets as assets whose use is limited in the amount of \$363,275 and \$292,455 at December 31, 2011 and 2010, respectively. The related accrued malpractice claims are recorded in the accompanying consolidated balance sheets as other current liabilities in the amount of \$66,050 and \$60,054 and as other noncurrent liabilities in the amount of \$273,926 and \$207,008 at December 31, 2011 and 2010, respectively. The related estimated insurance recoveries are recorded as other assets in the amount of \$15,058 in the accompanying consolidated balance sheets at December 31, 2011.

Management, with the assistance of consulting actuaries, estimates claim liabilities at the present value of future claim payments using a discount rate of 4.5% at December 31, 2011 and 2010

For the years ended December 31, 2011 and 2010 (dollars in thousands)

12. Commitments and Contingencies

Operating Leases

The System leases certain property and equipment under operating leases. Lease and rental expense was approximately \$100,400 and \$90,600 for the years ended December 31, 2011 and 2010, respectively

Net future minimum lease payments under noncancelable operating leases as of December 31, 2011, are as follows

| 2012 | \$ 36,189 |
|------------|--------------|
| 2013 | 29,745 |
| 2014 | 24,664 |
| 2015 | 21,517 |
| 2016 | 16,670 |
| Thereafter | 24,027 |

Litigation

Certain of the System's affiliated organizations are involved in litigation arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, these matters will be resolved without material adverse effect to the System's consolidated financial statements.

13. Changes in Consolidated Unrestricted Net Assets

Changes in consolidated unrestricted net assets that are attributable to the System and the noncontrolling interests in subsidiaries are as follows

| | | Controlling | | controlling |
|---|--------------|--------------|------|-------------|
| | Total | Interest | 1 | nterest |
| Balance January 1, 2011 Excess of revenue and | \$ 4,546,320 | \$ 4,513,408 | \$ | 32,912 |
| gains over expenses | 478,127 | 474,172 | | 3,955 |
| Distributions | (276) | _ | | (276) |
| Other activity | (34,929) | (36,151) | | 1,222 |
| Change in net assets | 442,922 | 438,021 | | 4,901 |

For the years ended December 31, 2011 and 2010 (dollars in thousands)

14. Fair Value Measurements

The System follows ASC 820, which provides a framework for measuring the fair value of certain assets and liabilities and disclosures about fair value measurements As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement)

Certain of the System's financial assets and financial liabilities are measured at fair value on a recurring basis, including money market, fixed income and equity instruments, exchange-traded derivatives, collateral under the securities lending program and interest rate swap agreements. The three levels of the fair value hierarchy defined by ASC 820 and a description of the valuation methodologies used for instruments measured at fair value are as follows.

Level 1 – Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the System has the ability to access

Level 2 – Financial assets and liabilities whose values are based on pricing inputs that are either directly observable or that can be derived or supported from observable data as of the reporting date. Level 2 inputs may include quoted prices for similar assets or liabilities in nonactive markets or pricing models whose inputs are observable for substantially the full term of the asset or liability.

Level 3 – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both significant to the fair value of the financial asset or financial liability and are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Fair Values

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement

The fair value of financial assets and financial liabilities measured at fair value on a recurring basis at December 31, 2011, was as follows

| | Total | Level 1 | Level 2 | Level 3 |
|----------------------|-------------|-------------|-----------|---------|

The carrying values of accounts receivable, accounts payable, accrued liabilities and payable under the securities lending program are reasonable estimates of their fair values due to the short-term nature of these financial instruments. The fair values of the System's fixed-rate bonds are based on quoted market prices for the same or similar issues and approximated \$2,346,000 and \$2,266,000 as of December 31, 2011 and 2010, respectively. The carrying values of these fixed-rate bonds were \$2,217,660 and \$2,228,740 as of December 31, 2011 and 2010, respectively. The carrying amount approximates fair value for all other long-term debt (see note 8).

For the years ended December 31, 2011 and 2010 (dollars in thousands)

The changes in financial assets classified as Level 3 during the year ended December 31, 2011 were as follows

| | Alternative Investments | | | | | | |
|--|-------------------------|------------|------------|------------|--|--|--|

Reconciliation to the Consolidated Balance Sheets

Financial assets are reflected in the consolidated balance sheets as follows

| | December 31 | | |
|---------------------------------------|--------------|--------------|--|
| | 2011 | 2010 | |
| Investments measured at fair value | \$ 1,862,552 | \$ 2,191,180 | |
| Alternative investments accounted for | | | |
| under the equity method | 669,381 | 348,460 | |
| Accrued interest | 6,474 | 9,665 | |
| Total investments | \$ 2,538,407 | \$ 2,549,305 | |
| | | | |
| Assets whose use is limited measured | | | |
| at fair value | \$ 553,720 | \$ 680,511 | |
| Alternative investments accounted for | | | |
| under the equity method | 44,142 | 12,903 | |
| Accrued interest | 1,713 | 2,261 | |
| Total assets whose use is limited | \$ 599,575 | \$ 695,675 | |

See note 9 for the location of interest rate swap assets and liabilities in the consolidated balance sheets

Valuation Techniques and Inputs

The fair values of the securities included in Level 1 were determined through quoted market prices. The fair values of Levels 2 and 3 financial assets and financial liabilities were determined as follows.

Cash equivalents, US government agencies and sponsored entities, US corporate honds, residential mortgage-hacked, commercial mortgage-hacked, collateralized debt obligations and student loan asset-hacked – These Level 2 securities were valued through the use of third-party pricing services that use evaluated bid prices adjusted for specific bond characteristics and market sentiment

For the years ended December 31, 2011 and 2010 (dollars in thousands)

Alternative investments – These underlying funds are valued using the NAV as a practical expedient to determine fair value. Several factors are considered in appropriately classifying the underlying funds in the fair value hierarchy. An underlying fund is generally classified as Level 2 if the System has the ability to withdraw its investment with the underlying fund at NAV at the measurement date or within the near term. An underlying fund is generally classified as Level 3 if the System does not have the ability to redeem its investment with the underlying fund at NAV within the near term. Those alternative investments classified as Level 3 as of December 31, 2011, were classified as such because they could not be redeemed in the near term.

Collateral held under securities lending program – The System participates in securities lending transactions with the custodian of its investments (program), whereby a portion of its investments is loaned to certain brokerage firms in return for cash from the brokers as collateral for the investments loaned. This cash collateral is invested by the System in a securities lending quality trust (SLQT). The fair value of the System's interest in the SLQT was determined by considering its NAV and actual issuances and redemptions of interests in the SLQT.

The SLQT invests in short-term portfolio instruments in order to preserve capital and produce a moderate rate of return. Issuances and redemptions of interests in the SLQT are made each business day. Currently, interests in the SLQT are purchased and redeemed at a constant NAV of \$1.00 per unit for daily operational liquidity purposes, although redemptions for certain other purposes, such as termination of the System's participation in the program, may be in-kind.

Interest rate swaps – The fair value of these Level 2 financial assets and financial liabilities was determined through the use of widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. The analysis reflects the contractual terms of the interest rate swaps, including the period to maturity, and uses observable market-based inputs, such as interest rate curves. In addition, credit valuation adjustments are included to reflect both the System's nonperformance risk and the respective counterparty's nonperformance risk. The System pays fixed rates ranging from 2.63% to 3.83% and receives cash flows based primarily on percentages of LIBOR, ranging from 6.4% to 6.7% of LIBOR.

15. Subsequent Events

The System evaluated events and transactions occurring subsequent to December 31, 2011 through March 1, 2012, the date the accompanying consolidated financial statements were issued During this period, there were no subsequent events that required recognition in the accompanying consolidated financial statements Additionally, there were no nonrecognized subsequent events that required disclosure

For the years ended December 31, 2011 and 2010 (dollars in thousands)

16. Fourth Quarter Results of Operations (Unaudited)

The System's operating results for the three months ended December 31, 2011, are presented below

| Revenue | de | |
|--|----|-----------|
| Patient service | \$ | 1,765,945 |
| Provision for bad debts | | (52,528) |
| Net patient service revenue | | 1,713,417 |
| EHR incentive payments | | 55,886 |
| Other | | 70,663 |
| Total operating revenue | | 1,839,966 |
| Expenses | | |
| Employee compensation | | 863,754 |
| Supplies | | 320,364 |
| Professional fees | | 109,259 |
| Other | | 250,786 |
| Interest | | 42,773 |
| Depreciation and amortization | | 107,706 |
| Total operating expenses | | 1,694,642 |
| Income from Operations | | 145,324 |
| Nonoperating Gains (Losses) | | |
| Investment income | | 10,256 |
| Change in fair value of interest rate swaps | | 3,051 |
| Loss from early extinguishment of debt | | (15,673) |
| Total nonoperating losses | _ | (2,366) |
| Excess of revenue and gains over expenses | | 142,958 |
| Less Excess of revenue and gains over expenses | | |
| attributable to noncontrolling interests | | (2,033) |

Report of Independent Certified Public Accountants

The Board of Directors
Adventist Health System Sunbelt Healthcare Corporation
d/b/a Adventist Health System

We have audited the accompanying consolidated balance sheets of Adventist Health System and its subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended These financial statements are the responsibility of Adventist Health System's management Our responsibility is to express an opinion on these financial statements based on our audits

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Adventist Health System's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Adventist Health System's internal control over financial reporting Accordingly, we express no such opinion An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Adventist Health System and its subsidiaries at December 31, 2011 and 2010, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States

As discussed in note 1 to the consolidated financial statements, Adventist Health System changed the presentation of the provision for bad debts as a result of the adoption of the amendments to the FASB Accounting Standards Codification resulting from Accounting Standards Update No 2011-07, Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities, effective January 1, 2010
