# 2011 Stop Heart Disease Specialty License Plate Summary From the Florida Heart Research Foundation

The Stop Heart Disease specialty license plate was enacted on July 1, 2003 by the Florida State Legislature. \$25 from each plate sold or renewed goes to the Florida Heart Research Foundation (FHRF) and is legislatively mandated to go toward heart disease research, education and prevention programs in Florida. FHRF is permitted to allocate 20% of the funds raised toward administration and marketing of the plate. FHRF is a wholly owned subsidiary of the Florida Heart Research Institute – an independent, not-for-profit 501(c)(3) organization with the mission to stop heart disease through research, education and prevention.

2011 marks the eighth year of sales of the **Stop Heart Disease** license plate for the Florida Heart Research Institute. **In the last year, the license plate has sold over 1,133** new plates and over 9,537 renewals raising \$281,956 in total net revenue.

Year	New Issues	Renewals	Total # Sold	Net Total Sales	% Change
2003	Enacted June 25 th				
2004			3,497	\$91,012	-
2005			6,611	\$165,211	82%
2006	3,064	5,948	9,012	\$219,595	33%
2007	2,715	7,864	10,579	\$257,890	17%
2008	2,359	9,585	11,944	\$287,140	11%
2009	2,074	9,810	11,884	\$290,935	1%
2010	1133	9237	10,370	\$281,956	-3%
2011	847	8506	9353	\$282,594	1%

In 2011 there has been a 1% recovery of sales due to an improving economy. In 2010 the 3% decrease in net revenue is caused by a significant legislative changed enacted by the Florida state legislature in 2009 that unexpectedly imposed an increase in fees for specialty license plates of an additional \$33 to the state of Florida. This increase has driven an unprecedented overall decrease in new specialty plate sales of 67% for 2010. Compared to the decrease in sales of other specialty plates, however, the Stop Heart Disease specialty license plate has had the LOWEST rate of decrease of all other specialty plates. We believe this stronghold is due to three key reasons: people are

Employer identification number 51-0474502

strong supporters of the cause, people love the design, and we consistently devote time into marketing the plate.

In spite of this lag in sales, we are well over the state's minimum requirement of 1,000 sold in one year.

Most of the highly populated counties continue to lead in license plate sales largely due to our marketing efforts (plates sold per county/per month):

- 1. Miami-Dade County
- 2. Broward County
- 3. Palm Beach County
- 4. Hillsborough
- 5. Pinellas

FHRI works closely with the county tax collectors offices across the state in promotion and marketing of the license plate. They recognize the value and importance of the Stop Heart Disease license plate and the Florida Heart Research Institute's mission and have been very supportive of both our cause and our marketing efforts.

Where the Money Goes: License plate revenue is expended on a fiscal year basis from July 1 to June 30. Therefore, from July 1, 2010 to June 30, 2011, the Stop Heart Disease specialty license plate funded the following Research, Education and Prevention programs:

Amount	Area	Project Description
\$ 30,000	Research	Adams PZg Project
\$ 77,500	Research	University of Miami Genetics Study
\$ 25,000	Research	2011 Stop Heart Disease Researcher or the Year University of Miami
\$ 50,000	Research	Webster Insulin Resistance Study in Mice
\$ 44,406	Education / Prevention	Preventive Community Screenings and Education For Florida Residents (w/ focus on underserved)
<u>\$ 56,725</u> \$283,631	Marketing / Admin	20% Administrative / Marketing per FL statute

License plate revenue for the period of July 1, 2011 through December 31, 2011 in the amount of \$145,218.62 will be expended in 2012.

The following is a summary of some of our 2010 license plate marketing efforts and achievements:

- ♥ Gubernatorial Proclamation Governor Crist proclaimed the week of February 8 15, 2010 to be Stop Heart Disease Week in order for us to wage a public awareness campaign. Several publications printed the announcement of the proclamation; which highly publicized Florida Heart Research Institute and the work we continue to do.
- ▼ Corporate Outreach Program Through our Corporate Screening and Education Program, we are able to promote the license plate to corporations and organizations throughout South Florida.
- Stop Heart Disease Researcher of the Year Award This was the seventh award given for cardiovascular research at the annual conference of the Florida Chapter of the American College of Cardiology. This year, the \$25,000 award was given to Dr. Jianquin Wei, from the University of Miami. Dr. Wei He is a trained invasive cardiologist and has acquired skills not only in mouse microsurgery, but also in a wide range of molecular biology techniques, enabling him to participate in, plan and coordinate all phases of research in cardiology, from transcriptional analysis to drug testing.
- ▼ Screening Outreach We continue to travel throughout the state to screen Florida residents and simultaneously promote the license plate. Of special interest was the Annual Tax Collector's Conference held in Orlando this year that was attended by over 500 tax collectors and their top managers. Since most motorists purchase their license plates from their local tax collector, this is an extremely important marketing effort because they see firsthand what we do for the general public. In addition, each February we are selected by both Hillsborough and Pinellas County Tax Collectors to do a month long campaign highlighting the Stop Heart Disease License Plate. We provide them with posters, buttons, etc to bring awareness to their patrons so that they can recognize and purchase the plate. In addition, we are also able to provide them with our Educational Awareness Brochures so that they can provide them to their patrons. We also offer a free cardiovascular screening out of their offices during the month of February.
- County Promotion- Several counties across the state collaborated with FHRI in the month of February to promote the Stop Heart Disease license plate as well as bring awareness to this cause.
- ▶ Insert Renewal program- this past year we were given permission by approximately 14 counties to include our "Cholesterol: What You Need To Know" educational insert that accompanied license plate renewal forms sent to the February birthday renewals. This year we sent close to 300,000 inserts statewide. The insert allowed us to provide valuable educational information about the risks of high cholesterol, a call to action to lower risk as well as promote the license plate.
