The corporation shall have two classes of members: regular and honorary. The number of regular members shall not exceed 100. In addition, there may be an unlimited number of honorary members. Qualifications for both classes of membership shall be established in the Bylaws of the Corporation. Honorary members have no voting or any other rights whatsoever. Regular members shall have voting rights solely with respect to the election of regular members, honorary members and trustees, as established in the Bylaws of the Corporation.

Form 990, Part VI, Line 7a - How Members or Shareholders Elect Governing Body

Members elect the governing body (Board of Trustees). They have no other functions with respect to oversight of the governing body.

Form 990, Part VI, Line 11b - Form 990 Review Process

The 990 is prepared by internal staff and undergoes several levels of review including the CFO and CEO. Further, the board reviews the 990 during one of its recurring monthly meetings where any issues of concern or question are addressed by Senior Management.

Form 990, Part VI, Line 12c - Explanation of Monitoring and Enforcement of Conflicts

All employees that are managers, have purchasing rights with defined limits, or may enter into a contract on behalf of the organization are required to sign a conflict of interest attestation upon employment and annually. All employees can report breaches in VH policy. VH has an employee integrity hotline and a compliance officer. The audit committee is advised of compliance activity on a quarterly basis in addition to monthly follow up by the CEO on any immediate issues. Any infractions can result in disciplinary action or dismissal.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Valley Health System and Subsidiaries
Winchester, Virginia

We have audited the accompanying consolidated balance sheets of Valley Health System and Subsidiaries (Valley Health System) as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of Valley Health System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Valley Health System and Subsidiaries as of December 31, 2011 and 2010, and the results of their operations, changes in their net assets and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the basic consolidated financial statements rather than to present the financial position and results of operations of the individual companies. The consolidating information has been subjected to the auditing procedures applied in the audits of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Note 1. Summary of Significant Accounting Policies

Organization: Valley Health System (VHS) was incorporated on November 4, 1983 as a not-for-profit holding company organized exclusively for charitable, benevolent, educational and scientific purposes to support and encourage health care and related services through providing financial, management and other assistance to its affiliates and other organizations. Subsidiaries of VHS, all of which are wholly owned, are as follows:

- Winchester Medical Center, Inc. (the Medical Center) — a 445 bed not-for-profit acute care hospital located in Winchester, Virginia.
- Winchester Medical Center Foundation (the Winchester Foundation) — an independent, not-for-profit non-stock corporation. The purpose of the Winchester Foundation is to fund educational, scientific, and charitable endeavors. The Medical Center is the sole corporate member of the Winchester Foundation. The accounts and activity of the Winchester Foundation are consolidated with those of the Medical Center.
- Warren Memorial Hospital, Inc. (Warren) — a not-for-profit corporation that owns and operates a 46 bed general short-term acute care hospital including a 120 bed long-term care facility located in Front Royal, Virginia.
- Warren Memorial Hospital Foundation (the Warren Foundation) — an independent, not-for-profit non-stock corporation. The purpose of the Warren Foundation is to fund educational, scientific, and charitable endeavors. Warren is the sole corporate member of the Warren Foundation. The accounts and activity of the Warren Foundation are consolidated with those of Warren.
- Shenandoah Memorial Hospital, Inc. (Shenandoah) — a not-for-profit corporation that owns and operates a 25 bed critical access hospital in Woodstock, Virginia.
- Shenandoah Memorial Hospital Foundation (the Shenandoah Foundation) — an independent, not-for-profit non-stock corporation. The purpose of the Shenandoah Foundation is to fund educational, scientific, and charitable endeavors. Shenandoah is the sole corporate member of the Shenandoah Foundation. The accounts and activity of the Shenandoah Foundation are consolidated with those of Shenandoah.
- Valley Regional Enterprises, Inc. (Valley Regional) — a for-profit organization which manages a home health care agency, leases and sells durable medical equipment and supplies, operates an ambulance service, an urgent care center, a retail pharmacy and provides physician office consulting services.
- Surgi-Center of Winchester, Inc. (Surgi-Center) — a not-for-profit ambulatory surgical care center.
- East Mountain Health Advantage, Inc. (East Mountain) — a not-for-profit corporation that was organized on February 2, 2007, with VHS as its sole corporate member. East Mountain was organized for the primary purpose of owning and operating healthcare facilities in West Virginia, including Hampshire and War.
- Hampshire Memorial Hospital, Inc. (Hampshire) — a not-for-profit corporation that owns and operates a 14-bed critical access hospital including a 30-bed skilled nursing facility in Romney, West Virginia.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- War Memorial Hospital, Inc. (War) – a not-for-profit corporation that owns and operates a 25-bed critical access hospital and a 16-bed skilled nursing facility in Berkeley Springs, West Virginia. See Note 22 for details of the acquisition by Valley Health System effective April 1, 2010.
- Hampshire Wellness Center, Inc. – On January 19, 2008, East Mountain Health Advantage entered into a long-term lease agreement to lease and operate a 60,000 square foot wellness center. The lease agreement with the Hampshire County Development Authority is for a period of 20 years.

In 2008, Hampshire Wellness Center, Inc., a not-for-profit corporation, was established to operate the wellness center and assume responsibility for the lease. East Mountain Health Advantage is the sole corporate member of Hampshire Wellness Center, Inc.

- Page Memorial Hospital, Inc. (Page) – a not-for-profit corporation that owns and operates a 25-bed critical access hospital in Luray, Virginia. See Note 21 for details of acquisition by Valley Health System effective January 1, 2009.
- Valley Physician Enterprise, Inc. (VPE) – a not-for-profit corporation formed for the purpose of employing physicians and providing office management services to non-employed physicians in the communities served by VHS.

Principles of Consolidation: The consolidated financial statements include the accounts of Valley Health System and its subsidiaries (collectively referred to as VHS in the accompanying footnotes). All significant intercompany balances and transactions are eliminated in consolidation.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents: Cash and cash equivalents are highly liquid interest-bearing bank deposits and repurchase agreements. The carrying amount of cash and cash equivalents approximates fair market value. For purposes of the statement of cash flows, VHS considers all highly liquid financial instruments purchased with an original maturity of three months or less to be cash equivalents.

Patient Accounts Receivable: Patient accounts receivable are carried at the original charge less an estimate made for doubtful or uncollectible accounts. In evaluating the collectability of accounts receivable, VHS analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. The allowance is based upon a review of the outstanding balances aged by financial class. Management uses collection percentages based upon historical collection experience to determine collectability. Management also reviews troubled, aged accounts to determine collection potential. For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), VHS records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. Recoveries of accounts previously written off are recorded as a reduction to bad debt expense when received. Effective February 1, 2011 interest is charged on patient accounts receivable at 7% per annum after the account is six months old. Prior to February 1, 2011, interest was not charged on patient accounts receivable.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

VHS's allowance for doubtful accounts for self-pay patients increased from 88 percent of self-pay accounts receivable at December 31, 2010, to 89 percent of self-pay accounts receivable at December 31, 2011. In addition, VHS's self-pay write offs increased approximately \$4.4 million from \$45.6 million for the fiscal year 2010 to \$50 million for fiscal year 2011. Both increases were the result of negative trends experienced in the collection of amounts from self-pay patients in fiscal year 2011. During 2011, VHS changed its uninsured discount policies to 20% for patients with no third-party coverage and who did not qualify for charity care. VHS does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write offs from third-party payors.

Investments: Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheet. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are excluded from the excess of revenues over expenses unless the investments are trading securities. VHS does not require collateral to secure its investments.

Assets Limited as to Use: Assets limited as to use primarily include assets held by trustees under indenture agreements and designated assets set aside by the Board of Trustees for future capital improvements, over which the Board retains control and may at its discretion subsequently use for other purposes. Amounts required to meet current liabilities of VHS have been reclassified in the balance sheets at December 31, 2011 and 2010.

Inventory of Supplies: The inventory of supplies is maintained on a first-in, first-out basis and is stated at the lower of cost or market.

Property and Equipment: Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the financial statements. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs: Deferred financing costs are amortized over the period the obligation is outstanding using the straight-line method, which is not materially different than the effective interest method. Amortization expense related to the deferred financing costs was \$252 thousand and \$267 thousand for 2011 and 2010, respectively.

Goodwill: VHS records as goodwill the excess of purchase price over the fair value of the identifiable net assets acquired. The FASB codification Topic 350, Accounting Standards Update No. 2011-08, *Goodwill and Other Intangible Assets*, permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. VHS elected to perform its annual analysis during the fourth quarter of each fiscal year. Impairment, of \$100 thousand and \$0 was identified during the years ended December 31, 2011 and 2010, respectively.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Temporarily and Permanently Restricted Net Assets: Temporarily restricted net assets are those whose use by VHS has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by VHS in perpetuity.

Excess of Revenues over Expenses: The statements of operations include excess of revenues over expenses. Changes in unrestricted net assets which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on derivatives and investments other than trading securities, permanent transfers of assets to and from affiliates for other than goods and services, changes in pension funding status and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Net Patient Service Revenue: VHS has agreements with third-party payors that provide for payments at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care: VHS provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because VHS does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Donor – Restricted Gifts: Unconditional promises to give cash and other assets to VHS are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted gifts and bequests in the accompanying financial statements.

Income Taxes: VHS and its subsidiaries have been recognized by the Internal Revenue Service as not-for-profit corporations as described in Section 501(c)(3) and Section 501(a), respectively, of the Internal Revenue Code (IRC), and similar sections of state statutes, and are exempt from Federal and State income taxes, except for Valley Regional, which is a for-profit corporation subject to income taxes at the statutory Federal and State rates.

Unrelated Business Income Tax: There is currently very little guidance in the IRS Code on what activities should be subject to unrelated business income tax (UBIT). The IRS has indicated that they are studying the issue and may issue additional guidance. As a result, at this time there is uncertainty regarding whether VHS should pay income tax on certain types of net taxable income from activities that may be considered by taxing authorities as unrelated to the purpose for which VHS was granted non-taxable status. In the opinion of management, any liability resulting from taxing authorities imposing income taxes on the net taxable income from activities deemed to be unrelated to VHS's non-taxable status is not expected to have a material effect on VHS's financial position or results of operations.

VHS is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management of VHS believes it is no longer subject to income tax examinations for years prior to the fiscal year ended December 31, 2008.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Derivative Instruments and Hedging Activities: VHS utilizes derivative financial instruments to reduce interest rate risk. VHS does not hold or issue derivative financial instruments for trading purposes. VHS recognizes all derivatives as either assets or liabilities and measures those instruments at fair value. The changes in the fair value of VHS derivative instruments are recorded as changes in net assets as they qualify for hedge accounting.

Subsequent Events: VHS has evaluated subsequent events through March 30, 2012, the date on which the financial statements were available to be issued.

Reclassifications: Certain amounts in the 2010 consolidated financial statements have been reclassified to conform to the 2011 presentation. The reclassifications have no impact on previously reported change in net assets.

New or Recent Accounting Pronouncements: In August 2010, the Financial Accounting Standards Board (FASB) issued Health Care Entities Topic 954 (Accounting Standards Update No. 2010-23) of the FASB Accounting Standards Codification *Measuring Charity Care for Disclosure*. The amended disclosure requirements are effective for fiscal years beginning after December 15, 2010 and must be applied retrospectively. Management's policy for providing charity care, as well as the level of charity care provided, shall be disclosed in the financial statements. Such disclosure shall be measured based on the provider's costs of providing charity care services. If costs cannot be specifically attributed to services provided to charity care patients (for example, based on a cost accounting system), management may estimate the costs of those services using reasonable techniques. VHS adopted the amended disclosure requirements on January 1, 2011. Note 2 reflects the amended disclosure requirements. Since the new guidance amends disclosure requirements only, its adoption did not impact VHS's consolidated balance sheets, consolidated statement of operations, or consolidated cash flow statements.

Health Care Entities Topic 954 (Accounting Standards Update No. 2010-24) of the FASB Accounting Standards Codification *Presentation of Insurance Claims and Related Insurance Recoveries* is effective for fiscal years beginning after December 15, 2010. A health care entity should not net insurance recoveries for medical malpractice claims against a related medical malpractice claim liability. Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries. A cumulative-effect adjustment should be recognized in opening net assets in the period of adoption if a difference exists between any liability and insurance receivables recorded as a result of application. VHS adopted Topic 954 (No. 2010-24) requirements on January 1, 2011. Implementation of this standard did not materially impact VHS's consolidated financial statements.

In July 2011, the FASB issued (Accounting Standards Update 2011-07), Health Care Entities Topic 954 *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The amendments in this Update become effective for fiscal years ending after December 15, 2012 and must be applied retroactively. The amendments in this Update require certain health care entities to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, those health care entities are required to provide enhanced disclosure about their policies for recognizing revenue and assessing bad debts. The amendments also require disclosures of patient service revenue (net of contractual allowances and discounts) as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. VHS adopted the amended requirements on January 1, 2011, retroactive to January 1, 2010. Adoption of the amendments in this Update resulted in a decrease of \$45,648 thousand in total revenues, gains and other support and total expenses in the statement of operations for the year ended December 31, 2010. Note 2 reflects the amended disclosure requirements.

Note 2. Net Patient Service Revenue and Charity Care Benefit

VHS has agreements with third-party payors that provide for reimbursement to VHS at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between VHS billings at established rates for services and amounts reimbursed by third-party payors. A summary of the basis of reimbursement with major third-party payors follows:

Medical Center, Warren, Shenandoah, Hampshire, Page and War

- **Medicare**

The Medical Center and Warren are reimbursed by Medicare under a prospective payment system (PPS). Under this methodology, inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Inpatient nonacute services, and defined capital and medical education costs related to Medicare beneficiaries are paid based upon a cost reimbursement method, with a limited amount per discharge on certain nonacute patients. Reimbursement for cost reimbursable items is at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary. The majority of outpatient services are paid at prospectively determined rates per medical procedure. Classification of patients under the Medicare program and the appropriateness of their admission are subjected to an independent review by a peer review organization under contract.

Shenandoah, Hampshire, Page and War are licensed as Critical Access Hospitals. Inpatient services and most outpatient services rendered to Medicare program beneficiaries at Shenandoah, Hampshire, Page and War are paid based on a cost reimbursement methodology at 101% of allowable cost. Other outpatient services are paid based on fee schedules.

- **Medicaid**

Reimbursement for inpatients is based entirely on prospectively determined rates per discharge based on primary diagnosis code. Outpatient services are reimbursed based upon a cost reimbursement methodology. Hampshire and War are located in West Virginia and are reimbursed for inpatient and most outpatient services under a cost reimbursement methodology.

- **Anthem**

Inpatient services are reimbursed based on a prospectively determined rate per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Outpatient services are reimbursed by percentage of charges or fee schedule based on diagnosis and are not subject to retroactive adjustment.

The Hospitals have also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Revenue from the Medicare and Medicaid programs accounted for approximately 47 percent and 11 percent, respectively, of VHS's gross patient revenue, for the year ended December 31, 2011 and 46 percent and 10 percent, respectively, of VHS's gross patient revenue, for the year ended December 31, 2010. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The 2011 and 2010 net patient service revenue increased (decreased) approximately \$(91) thousand and \$6.5 million, respectively, due to the addition of allowances not previously estimated that are considered necessary, as a result of final settlements and years that are no longer subject to audits, reviews and investigations.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Valley Regional and Surgi-Center

Valley Regional and Surgi-Center are reimbursed under agreements with Medicare, Medicaid, and Anthem at prospectively determined rates for each procedure or service rendered.

Medicaid Provider Tax Disallowance

The Centers for Medicare and Medicaid Services (CMS) has recently directed some local intermediaries to disallow the cost of provider taxes claimed in cost reports. Hospitals claimed the tax assessment as an allowable cost under the applicable regulations and the Provider Reimbursement Manual (PRM) sections. Hospitals have relied upon the fact that CMS approved applicable State Plan Amendments relating to the Provider Tax Assessments. Valley Health System has two hospital critical access hospitals that paid the provider tax and included it as an allowable expense. The disallowance may be applied retroactively for several years and the impact could be \$1 million to \$2 million, depending upon various factors. No provision for any potential liability has been recorded by VHS. Management and various associations representing affected hospitals plan to appeal the disallowance. The ultimate outcome of the issue is unknown at this time.

Charity Care

VHS provides charity care to patients who are financially unable to pay for the health care services they receive. VHS's policy is not to pursue collection of amounts determined to qualify as charity care if the patient qualifies (up to 200% of the Federal Poverty Guidelines). A sliding scale discount is applied for those patients that qualify between 200% and 300% of the Federal Poverty Guidelines. Accordingly, VHS does not report these amounts in the net revenues or in the allowance for doubtful accounts. VHS determined the costs associated with providing charity care by aggregating the applicable direct and indirect costs, including salaries, wages and benefits, supplies, and other operating expenses, based on data from its costing system. The costs of caring for charity care patients for the years ended December 31, 2011 and 2010 were approximately \$31.7 million and \$31.4 million, respectively.

VHS maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges forgone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies, and equivalent service statistics. The following information measures the level of charity care provided during the years ended December 31 (in thousands):

A summary of gross and net patient service revenue for all of VHS's payors for the years ended December 31, 2011 and 2010 follows (in thousands):

	2011	2010
Gross patient service revenue	\$ 1,258,089	\$ 1,171,314
Less provision for:		
Contractual adjustments	492,188	431,665
Provision for bad debts	49,950	45,648
Charity care	63,399	62,897
Net patient service revenue	\$ 652,552	\$ 631,104

VHS recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, VHS recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). On the basis of historical experience, a significant portion of VHS's uninsured patients will be unable or unwilling to pay for the services provided. Thus VHS records a significant provision for bad debts related to uninsured patients in the period the services are provided. Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized during the years ended December 31, 2011 and 2010

Note 3. Cash Concentrations

VHS maintains cash and cash equivalents on deposit with financial institutions. At times the balance in these accounts may be in excess of Federally insured limits. However, management believes these financial institutions are financially sound and these concentrations do not present a significant risk to VHS.

Note 4. Concentration of Credit Risk

VHS grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at December 31 was as follows:

	2011	2010
Medicare	31%	36%
Medicaid	13%	12%
Anthem	20%	17%
Commercial and other	30%	28%
Self-pay	6%	7%
	100%	100%

Note 5. Investments and Commitment

VHS has investments in pooled investment funds, investments held by a trustee under existing debt agreements, investments held by financial institutions and individual investments in entities that provide related healthcare services.

Pooled Investments: The Medical Center, Warren, Shenandoah, their respective foundations, and Surgi-Center combine their investments in an investment pool which includes cash and cash equivalents, unrestricted investments and assets limited as to use. The pooled investment funds are allocated to these categories based upon an allocation formula approved by the Board of Trustees. The investments in the pool, are stated at fair value at December 31 and are summarized as follows (in thousands):

	2011	2010
Unrestricted investments	\$ 240,838	\$ 251,221
Assets limited as to use	89,247	89,505

Other investments that are in addition to the pooled investments that make up the composition of investments and assets limited as to use, as of December 31, 2011 and 2010, respectively, consist primarily of commercial paper, equity method investments, corporate and municipal bonds, mutual funds and cash and cash equivalents of approximately \$68 million and \$147 million, respectively.

At December 31, 2011, approximately 15% of VHS's investments, including pooled investments, are represented by one mutual fund which has a value that exceeds 10% of VHS's total investments. The PIMCO Total Return II Fund held 15% of total investments. This fund primarily invests in a diversified portfolio of fixed income securities with varying durations.

At December 31, 2010, approximately 10% of VHS's investments, including pooled investments, are represented by one mutual fund, which has a value that exceeds 10% of VHS's total investments. The PIMCO Total Return II Fund held 10% of total investments. This fund primarily invests in a diversified portfolio of fixed income securities with varying durations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Interest and investment income is shown net of investment manager fees of \$611 thousand and \$507 thousand at December 31, 2011 and 2010, respectively.

Purchase Commitment

Investment agreements with TIFF Realty and Resources II, GMO Renewable Resources, MIT Private Equity Fund, and Oaktree Private Investment Fund contain investment commitments of \$10 million, \$10.2 million, \$3.1 million, and \$7 million, respectively, of which approximately \$11.3 million is outstanding at December 31, 2011. Future increases in the investments will be made as requested by the manager of these funds and is based upon planned acquisitions of investment properties.

Impairment

Impairment is evaluated using numerous factors, and their relative significance varies case to case. Factors considered included length of time and extent to which the market value has been less than cost; the financial condition and near-term prospects of the issuer; and the intent and ability to retain the security in order to allow for an anticipated recovery in market value. If, based on the analysis, it is determined that the impairment is other-than-temporary, the security is written down to fair value, and a loss would be recognized in the statement of operations. At December 31, 2011, VHS determined that no write-downs were necessary. During 2010, VHS determined that the investment in Private Advisors was impaired and wrote the investment down \$720 thousand, which approximated 25% of the investment market value at December 31, 2010. No other investments were deemed to be impaired during 2010.

Note 6. Temporarily Restricted and Permanently Restricted Net Assets and Endowments

Net assets released from restrictions by incurring expenses satisfying the restricted purposes of indigent care, equipment purchases and health education was \$689 thousand and \$915 thousand for 2011 and 2010, respectively.

Topic 958-205 of the FASB Standards Codification (formerly FASB Staff Position No. 117-1, *Endowments of Not-for-Profit Organizations - Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds*), which, among other things, provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Act of 2006 (UPMIFA) and additional disclosures about an organization's endowment funds.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The endowments include both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Trustees of VHS has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, VHS classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, VHS considers the following factors in making a determination to appropriate or accumulate donor-restricted funds:

1. The duration and preservation of the fund
2. The purpose of the Foundation and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Foundation
7. The investment policies of the Foundation

VHS has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that VHS must hold in perpetuity or for a donor-specific period(s) as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment management costs, of at least 5% over the long term. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, VHS relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). VHS targets a diversified asset allocation that places a greater emphasis on equity-based and alternative investments to achieve its long-term objective within prudent risk constraints.

Changes in endowment funds for the fiscal year ended December 31, 2011 and 2010 are immaterial and therefore not disclosed.

From time to time, the fair value of assets associated with individual donor-restricted endowments funds may fall below the level that the donor or UPMIFA requires VHS to retain as a fund of perpetual duration. These deficiencies result from unfavorable market fluctuations that occurred shortly after the investment of new permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Trustees. There were no significant deficiencies of this nature which are reported in unrestricted net assets as of December 31, 2011 and 2010.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A detail description of the bond indebtedness follows:

In November and December 2009, the Industrial Development Authority of the City of Winchester (the Winchester Authority) issued \$175 million Industrial Development Authority of the City of Winchester Hospital Revenue Bonds, Series 2009. In December 2009, the West Virginia Hospital Finance Authority (the West Virginia Authority) issued \$25 million Hospital Revenue Bonds, Series 2009. The Series 2009 Bonds were used for the purposes of financing certain capital needs of the Winchester Medical Center, Shenandoah Memorial Hospital, Warren Memorial Hospital, and for construction of a new facility at Hampshire Memorial Hospital, (collectively the Obligated Group), and to reimburse the Obligated Group for certain past capital expenditures. The bonds are secured by a pledge of payment pursuant to the Loan Agreement under the Master Trust Indenture dated as of September 1, 1986. Each member of the Obligated Group has recorded their respective portion of the obligation. The bonds are secured by a pledge of payment pursuant to Loan Agreements between the Obligated Group, the Winchester Authority and the West Virginia Authority, respectively. In accordance with the respective trust indentures, the Winchester Authority and the West Virginia Authority assigned the promissory notes and the payment thereon to the Bond Trustees. Payments of principal and interest are made directly to the Bond trustees for the account of the Authorities.

On January 30, 2007, the Industrial Development Authority of the City of Winchester (the Winchester Authority) issued \$88.3 million Industrial Development Authority of the City of Winchester Hospital Revenue Bonds, Series 2007. The Series 2007 bonds were issued for the purpose of financing and refinancing certain capital needs of the Medical Center, Warren and Shenandoah (the Obligated Group). The bonds are limited obligations of the Winchester Authority and will be payable solely from the Obligated Group. The bonds are secured by a pledge of payment pursuant to the Loan Agreement under the Master Trust Indenture dated as of September 1, 1986. A portion of the proceeds were used to refinance Warren's Series 2003 bonds and Shenandoah's Series 2003 bonds. Each member of the Obligated Group has recorded their respective portion of the obligation.

The Medical Center has also entered into promissory notes with the Winchester Authority whereby the Medical Center has become obligated under Hospital Facility Revenue Bonds, Series 1991 and Series 1993. In addition to its notes with the Winchester Authority, the Medical Center has entered into promissory notes with the Industrial Development Authority of Clarke County, Virginia (the Clarke County Authority) whereby the Medical Center has become obligated under Hospital Facility Revenue Bonds, Series 2000. In accordance with the respective trust indentures, the Authorities assigned the promissory notes and the payments thereon to the Bond Trustees. Payments of principal and interest are made directly to the Bond Trustees for the account of the Authorities. The payment of principal and interest on the Series 1991 and Series 1993 bonds is insured by municipal bond insurance policies issued by AMBAC Indemnity Corporation. The payment of principal and interest on the Series 2000 and Series 2007 bonds is insured by Financial Security Assurance. All bond issues are rated A1 by Moody's and A+ by Standard and Poor's as of the latest rating date. Under the Bond Indenture of Trust, the Medical Center was required to place the majority of proceeds into certain trust funds. The Series 1991 bonds were used to finance the construction of an imaging center, purchase hospital equipment, and refund the term bonds of the Series 1986 issue. The Series 1993 bonds refunded the remainder of the Series 1986 bonds and the entire Series 1990 issue. The Series 2000 bonds were used to finance certain improvements to the Medical Center's facilities. The bonds are secured by the Medical Center's Trust Agreements to the respective Authorities in the amount of the bonds payable. The Trust Agreements are secured by all revenue and receipts and pledged assets of the Medical Center. Pledged assets consist of accounts receivable, inventories, general intangibles and various other assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The trust indentures include various restrictive covenants, one of which requires the Medical Center to maintain a debt service coverage ratio of 1.1 to 1.0 (defined in the indentures as the ratio of income available for debt service to annual debt service commitments). The Series 2009 Bonds include additional covenants, including a debt services coverage ratio of 1.25 to 1, a debt to capitalization ratio of not greater than .65, and requires the day's cash on hand to be not less than 100 days. Upon the occurrence of events of noncompliance with such covenants, the principal of the bonds could be declared due and payable immediately by the Bond Trustees. As of and for the year ended, December 31, 2011 and 2010, Valley Health System was in compliance with such covenants.

At December 31, 2011, interest rates range from .16% to .40% on the serial and term bonds, 4.85% on the RIBS/SAVRS and 4.85% to 5.5% on the IFNRS/SURFS.

The Series 2000 bonds and Series 2007 bonds bear interest at a variable rate which resets to market weekly. The rate for the Series 2000 bonds was .16% at December 31, 2011. The rates for the Series 2007 bonds were 5.0% to 5.25% at December 31, 2011.

The RIBS/SAVRS mature on the second business day preceding the interest payment date on or immediately succeeding each January 1. All other bonds mature on January 1 each year.

The trust indenture requires the creation of sinking funds for redemption of the bonds each January 1, as follows (in thousands):

Term bonds due January 1, 2012		IFNRS due January 1, 2015	
Year	Sinking fund installment	Year	Sinking fund installment

Note 11. Interest Rate Risk Management**Medical Center, Shenandoah, Warren and East Mountain Health Advantage (the Hospitals)**

The Hospitals have interest rate related derivative instruments to manage interest rate exposure on their debt instruments. The Hospitals do not enter into derivative instruments for any purpose other than interest rate management purposes. That is, the Hospitals do not speculate using derivative instruments.

By using derivative financial instruments to hedge exposures to changes in interest rates, the Hospitals expose themselves to credit risk and market risk. Credit risk is the failure of the counter-party to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counter-party owes the Hospitals, which creates credit risk for the Hospitals. When the fair value of a derivative contract is negative, the Hospitals owe the counter-party and, therefore, it does not possess credit risk. The Hospitals minimize the credit risk in derivative instruments by entering into transactions with high-quality counter-parties.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest rates is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

The Hospitals use variable-rate debt to finance their operational and capital needs. The debt obligations expose the Hospitals to variability in interest payments due to changes in interest rates. Conversely, fixed-rate debt obligations can be more expensive to the Hospitals in times of declining interest rates. Management believes it is prudent to monitor and manage its cost of capital on a regular basis. To meet this objective, management from time to time may enter into interest rate swap agreements to manage fluctuations in cash flows resulting from interest rate risk.

The Hospitals have entered into interest rate swap agreements in the notional amount of approximately \$234 million related to the Series 1991, 2000, 2007 and 2009 bonds. The purpose of the swaps was to convert the variable-rate cash flow exposure on the debt obligations to fixed rate cash flows. Under the terms of the interest rate swaps, the Hospitals receive a variable interest rate payment based on the Bond Rate, or if certain triggering events occur, an alternative floating rate in exchange for making fixed interest rate payments to the swap counter-party, thereby creating the equivalent of fixed-rate debt.

In September 2001, the Medical Center entered into an interest rate swap agreement in the notional amount of \$70 million related to the Series 2000 bonds. The purpose of the swap was to convert the Medical Center's variable-rate cash flow exposure on the debt obligations to fixed rate cash flows. Under the terms of the interest rate swap, the Medical Center receives a variable interest rate payment (based on the Bond Rate, or if certain triggering events occur, an alternative floating rate which is the Bond Market Association (BMA) Municipal Bond Index or 68% of 1 month LIBOR) in exchange for making fixed interest rate payments (4.44%) to the swap counter-party, thereby creating the equivalent of fixed-rate debt. In September 2008, Lehman Brothers, the swap counter-party, filed for bankruptcy which terminated the swap. The impact of changing interest rates reversed the swap to a positive value. A claim has been filed with the bankruptcy court for the sum of \$8 million dollars. Due to the possibility that the funds will not be collected, a reserve has been made for \$8 million at December 31, 2011 and 2010.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In August 2005, the Medical Center refinanced the outstanding bonds of its 1991 series in the amount of \$54.6 million. Holders of the bonds were requested to tender the bonds at a \$2.73 million premium. Merrill Lynch, Pierce, Fenner & Smith, Inc. (Merrill Lynch) purchased the tendered bonds. The purpose of the refinancing was to obtain an interest rate lower than the 6.05% fixed rate on the bonds. The Medical Center entered into two interest rate swap agreements with Merrill Lynch. Under the terms of the first interest rate swap, the Medical Center receives a floating interest rate payment semi-annually based on the BMA Municipal Bond Index, or if this index is no longer published, Merrill Lynch will set the rate based on prevailing rates. For 2011 and 2010, the Medical Center received \$2.3 million and \$2.7 million, respectively, for this swap. Under the terms of the second interest rate swap, the Medical Center receives a fixed rate of 3.113% and semi-annually pays Merrill Lynch the difference between the fixed rate and 67% of LIBOR. For 2011 and 2010, the Medical Center paid Merrill Lynch \$702 and \$881 thousand, respectively, for this swap.

In November 2006, the Medical Center entered into an interest rate swap agreement in the notional amount of \$91.8 million related to the Series 2007 bonds. Under the terms of the interest rate swap, the Medical Center receives a floating interest rate payment monthly based on the BMA Municipal Bond Index, or if this index is no longer published, Merrill Lynch will set the rate based on prevailing rates, or if certain triggering events occur, an alternative floating rate of 67% of 1 month LIBOR plus .365%. In 2011 and 2010, the Medical Center received \$280 thousand and \$282 thousand, respectively, for this swap.

On February 7, 2008, the Medical Center entered into an interest rate swap agreement in the notional amount of \$100 million related to the financing arrangements incurred in 2009. Under the terms of the interest rate swap, the Medical Center will receive a floating interest rate payment based on 67% of 1 month LIBOR. The purpose of this swap was to lock into current bond rates for the 2009 Bonds (Note 8). As of December 31, 2011 and 2010, a \$21 million and \$4.7 million unrealized loss was recorded, respectively. For 2011 and 2010, the Medical Center paid \$3.3 million, for this swap.

Fair Value of Derivative Instruments designated as hedging instruments are as follows (in thousands):

Balance Sheet Location	Fair Value	
	2011	2010
Cash Flow Hedges:		
Interest rate contracts - other long-term liabilities	\$ (39,121)	\$ (19,717)
Total derivative designated as hedging instruments	\$ (39,121)	\$ (19,717)

The following table summarizes the effect of Derivative Instruments on the Statement of Changes in Net Assets for the years ended December 31, 2011 and 2010 (in thousands).

Derivatives designated as Hedging Instruments for the Year Ending December 31	Location of Gain or (Loss) Recognized in Income	Amount of Gain or (Loss) Recognized in Other Changes in Net Assets (Effective Portion)	
		2011	2010
Cash Flow Hedges:			
Interest rate contracts	Change in value of derivatives	\$ (19,404)	\$ (7,591)

For the years ended December 31, 2011 and 2010, no amounts related to derivative financial instruments were recorded in excess of revenues over expenses, and no amounts were moved out of other changes in net assets and reclassified into excess of revenues over expenses.

Note 12. Pension Plans**Defined Benefit Pension Plans:****Valley Health System Plan**

VHS has a defined benefit pension plan covering substantially all of its employees and the employees of its subsidiaries. Benefits under the pension equity formula are expressed in terms of a lump sum based on final average earnings and pension credits earned for years of service. Some employees' benefits are grandfathered using a prior formula that based annuity amounts on final average earnings and service. The pension plan has been amended to allow for supplemental pension benefits under a one-time early retirement program (the Program) for employees meeting certain age and length of service requirements. VHS makes annual contributions to the Valley Health System Employees Retirement Plan (the Plan) in accordance with funding requirements determined by an actuary. Contributions are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future. Contributions of \$6 million and \$4.5 million were made in 2011 and 2010, respectively.

Effective January 1, 2011, Valley Health System elected to soft-freeze the Valley Health System Employees Retirement Plan. Participation is frozen such that there shall be no new participants in the Plan after January 2, 2011. Participants as of January 1, 2011 will continue to participate with no change to the years of services rules or the benefits calculation. The Valley Health System contributory 403(b) plan will remain in place.

The reconciliation of the Plan's funded status to amounts recognized in VHS's consolidated financial statements at December 31 is as follows (in thousands):

Obligations and funded status:

	2011	2010
Fair value of plan assets	\$ 159,096	\$ 158,036
Benefit obligations	243,407	181,676
Funded status	(84,311)	(23,640)
Total accrued cost	\$ (84,311)	\$ (23,640)

Amounts recognized on balance sheet consist of:

	2011	2010
Noncurrent liabilities	\$ (84,311)	\$ (23,640)
	\$ (84,311)	\$ (23,640)

Amortization of (gain) loss	(693)	(1,570)
Total change in unrestricted net assets at end of current year	57,866	(13,289)
Total recognized in net periodic benefit cost and other changes in net assets	\$ 66,671	\$ (2,143)

The estimated net loss and prior service cost for the defined benefit pension plan that will be amortized from unrestricted net assets into periodic benefit cost over the next fiscal year are \$4.2 million and \$79 thousand, respectively.

Additional Information - Assumptions

The assumptions used to determine benefit obligations in the actuarial valuations were as follows:

	2011	2010
Discount rate	4.50%	5.75%
Rate of increase in compensation levels	4.00%	5.00%

The assumptions used to determine net periodic pension cost were as follows:

	2011	2010
Discount rate	5.75%	5.75%
Expected long-term rate of return on assets	7.75%	7.75%
Rate of increase in compensation levels	5.00%	5.00%

The long-term rate of return on plan assets of 7.75% is based upon management's estimate of future long-term rates of return on similar assets and is consistent with historical returns on such assets.

Plan Assets

Valley Health System's overall investment strategy is to generate a return, which is sufficient to meet its current and expected future financial requirements. The Plan Assets will be structured in a manner that most efficiently matches Valley's investment risk and return characteristics with the long-term objectives. Short-term uncertainties of investment results are recognizable risks, and will be managed appropriately through specific asset allocation strategies and diversification based upon the Plan's investment time horizon. The Plan Asset's target return will be based upon the fund's actuarial review which calculates the "minimum required return" for Valley Health System's and Shenandoah's pension portfolio as well as its investment time horizon.

Cash flows - Contributions

VHS expects to contribute \$6 million to its pension plan in 2012.

Tax Sheltered Annuity Plan

In addition, VHS also offers an option allowing employees to contribute to a tax sheltered annuity plan (the Annuity Plan) under Internal Revenue Code section 403(b). Under the Annuity Plan, VHS matches 50% of the employees' contributions up to a maximum of 2% for employees who contribute at least 4% of their base compensation. VHS's contributions are 100% vested for employees after six years of service. VHS's contributions to the Annuity Plan totaled \$2.8 million and \$2.7 million for 2011 and 2010, respectively.

Shenandoah Memorial Hospital Plan**Defined Benefit Retirement Plan**

Shenandoah has a noncontributory defined benefit retirement plan. Effective January 1, 2003, the Plan was frozen. Participation in the Plan was frozen such that there shall be no new participants in the Plan after December 31, 2002. New employees were eligible to participate in the Valley Health System plans. The Plan was amended effective January 1, 1991 to pay benefits based upon the last five highest year's salary out of the last ten years of service. Prior to this change, benefits were based upon employees' years of service and compensation. Shenandoah makes annual contributions to the plan in accordance with funding requirements determined by an actuary.

The reconciliation of the Plan's funded status to amounts recognized in Shenandoah's financial statements as of December 31 is as follows (in thousands):

Obligations and funded status:

Note 14. Assets Held in Trust

At December 31, 2011 and 2010, the market value of the assets of the Frank Newcomer Hack Trust, which are recorded in assets limited as to use, totaled approximately \$2.2 million. Distributions of income from the trust are made quarterly by the trustees in accordance with the terms of the governing will. Quarterly payments of income will continue to be made to VHS as long as VHS operates for the purpose for which it was originally incorporated. Income distributed to VHS amounted to \$40 thousand in 2011 and \$42 thousand in 2010.

The Medical Center is also the beneficiary of other trusts. The assets of the trusts are held by the Winchester Medical Center Foundation for the benefit of the Medical Center. Following are the values of the trusts as of December 31, 2011 and 2010, and income received from the trusts for the years then ended (in thousands):

Note 16. Lessee Lease Commitment and Total Rental Expense

VHS leases office and medical space under long-term operating lease arrangements that expire at various dates. Total rental expense for all operating leases was \$2.8 million and \$2.5 million for 2011 and 2010, respectively. VHS is obligated under the operating leases, that have initial or remaining lease terms in excess of one year, to make future minimum lease payments as follows for the year ended December 31, 2011 (in thousands):

2012	\$	2,092

Note 17. Related Party Transactions and Subsequent Event
Medical Circle, LLC

VHS is a 51% member of Medical Circle, LLC t/a Valley Open MRI, a company formed to provide imaging services. In July 2009, the company began leasing space in the Hurst House, which is located on the campus of the Medical Center. In preparing the space for the joint venture, VHS incurred expenditures of \$878 thousand of which \$538 thousand was a capital contribution and \$340 thousand was treated as a loan to Medical Circle with an interest rate of 4.6%. The loan was paid in full in January 2010.

Valley Health System is accounting for its investment under the equity method of accounting. Valley Health System's interest in the Company was \$714 thousand and \$924 thousand, at December 31, 2011 and 2010, respectively. Included in other operating revenue in the Consolidated Statement of Operations are equity earnings on the investment of approximately \$734 thousand and \$895 thousand for the years ended December 31, 2011 and 2010, respectively. Total cash distributions received from the investment by VHS in 2011 and 2010 were approximately \$943 thousand and \$910, respectively. Medical Circle's financial statements were not consolidated in the financial statements of VHS due to immateriality.

Winchester Open MRI, LLC

VHS is a member, owning a 50% interest, in Winchester Open MRI, LLC (Open MRI), a company formed to benefit the community by providing more accessible imaging services. Valley Health System is accounting for its investment under the equity method of accounting. Valley Health System's interest in Open MRI was \$838 thousand and \$515 thousand, at December 31, 2011 and 2010, respectively. Included in other operating revenue in the Consolidated Statement of Operations are equity earnings on the investment of approximately \$3 million and \$2.6 million for the years ended December 31, 2011 and 2010, respectively. Total cash distributions received from the investment by VHS in 2011 and 2010 were approximately \$2.8 million and \$2.55 million, respectively.

Tri-State Surgical Center, LLC

Effective January 1, 2012, VRE is a member, owning a 34% interest, in Tri-State Surgical Center, LLC (Tri-State). VRE's capital contribution is \$2.7 million. Tri-State is an ambulatory surgical facility in Martinsburg, West Virginia. VRE will be accounting for its investment under the equity method of accounting.

Note 18. Commitments and Contingencies**Malpractice Insurance**

During 2004, VHS and other healthcare organizations participated in the development of Virginia Solutions SPC LTD (the Captive), an insurance company located in the Cayman Islands. VHS was one of five founding members of the Captive. The Captive qualifies as a captive insurance company in the domicile where it operates and provides certain insurance coverage to its members. The Captive has established trusts for professional and general liability insurance. Under this program, the Captive retains the first \$750 thousand per claim. The Captive has purchased reinsurance contracts to provide for claims in excess of \$750 thousand. VHS is charged periodic premiums by the Captive. Premiums are determined based on actuarial calculations, and information provided by risk managers, legal counsel and past experience. The effective date of this program was July 15, 2004.

Litigation

VHS is involved in litigation arising in the ordinary course of business. Claims alleging malpractice have been asserted against VHS and are currently in various stages of litigation. It is the opinion of management, however, that estimated malpractice costs accrued at December 31, 2011 are adequate to provide for potential losses resulting from pending or threatened litigation as well as claims arising from unknown incidents from services provided to patients that may be asserted.

Loan Guarantee

VHS has guaranteed certain debt obligations from a local bank to Winchester Open MRI, LLC, an affiliated entity, for approximately \$2 million. The proceeds of the loans were used to purchase equipment and fund a construction project. The balance of the loans at December 31, 2011 and 2010 was \$214 thousand and \$523 thousand, respectively.

Medical Staff Deferred Compensation Plan

Effective January 1, 2006, VHS adopted a nonqualified deferred compensation plan under Internal Revenue Service Code Section 457, to provide compensation for unassigned call services provided by participating physicians at the Medical Center. VHS, as the Plan sponsor, is responsible for funding the Plan based upon predetermined levels of payment which was \$3 million in 2011 and \$3.2 million in 2010. VHS is also responsible for maintaining a trust in which the contributions to the Plan will be maintained and from which qualifying disbursements will be made. Contributions to the Plan vest to the benefit of the participating physicians under various methods based upon years in the Plan and/or age. VHS recognizes, for financial reporting purposes, the related trust assets and a corresponding liability. The Plan allows VHS to modify future payments to the Plan based on a variety of operating factors at the discretion of the Board of the Medical Center. Due to physicians becoming fully vested in 2011, and payouts being anticipated, approximately \$14.4 million was reclassified to other current liabilities in the Consolidated Balance sheets at December 31, 2010.

Asset Retirement Obligation

The *Asset Retirement and Environmental Obligations* Topic 410 of the FASB Accounting Standards Codification, clarifies when an entity is required to recognize a liability for a conditional asset retirement obligation. Management has considered this Topic, specifically as it relates to its legal obligations to perform asset retirement activities, such as asbestos removal, on its existing properties. Management of VHS believes that there is an indeterminate settlement date for the asset retirement obligations because the range of time over which VHS may settle the obligations is unknown and cannot be estimated. As a result, management cannot reasonably estimate a liability related to these potential asset retirement activities. However, management does not believe that remediation of such obligations will have a material effect on the consolidated financial statements.

Note 19. Fair Value Disclosures

Fair Value Measurements

The *Fair Value Measurements and Disclosures* Topic 820 of the FASB Accounting Standards Codification defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

Under the FASB's authoritative guidance on fair value measurements, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, VHS uses various methods including market, income and cost approaches. Based on these approaches, VHS often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. VHS utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques VHS is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair value. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1 – Quoted prices for identical assets and liabilities traded in active exchange markets, such as the New York Stock Exchange.
- Level 2 – Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data. Level 2 also includes derivative contracts whose value is determined using a pricing model with observable market inputs or can be derived principally from or corroborated by observable market data.
- Level 3 – Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation, also includes observable inputs for nonbinding single dealer quotes not corroborated by observable market data.

The following is a description of the valuation methodologies used for instruments measured at fair value.

Equity Securities

The fair value of equity securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers. If listed prices or quotes are not available, fair value is based upon externally developed models that use unobservable inputs due to the limited market activity of the instrument.

Mutual and Other Funds

Valued at the quoted net asset value (NAV) of shares held at year end.

U.S. Government Obligations

Valuation inputs utilized by the independent pricing service for those U.S. Government securities under Level 2 include benchmark yields, reporting trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and reference data including market research publications. Also included are data from the vendor trading platform.

Real Estate Investments

The underlying holdings are periodically valued by appraisers considering the current market conditions. Inputs are often unobservable, and therefore, these are level 3 investments.

VALLEY HEALTH SYSTEM AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Partnerships and Ventures

Valuation is determined using an ownership percentage multiplied by the net assets of the partnership or joint venture.

Derivative Instruments

Derivatives are fair valued according to their classification as over-the-counter ("OTC"). OTC derivatives consist of interest rate swaps. These derivatives are fair valued under Level 2 using third-party services. Observable market inputs include yield curves (the LIBOR swap curve and applicable basis swap curves), foreign exchange rates, commodity prices, option volatilities, counterparty credit risk, and other related data. Credit valuation adjustments are required to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk. These adjustments are determined generally by applying a credit spread for the counterparty or VHS as appropriate to the total expected exposure of the derivative.

The following methods and assumptions were used by VHS in estimating the fair value of each class of its financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents: The carrying amount approximates fair value because of the short-term maturity of those instruments.

Patient accounts receivable: The carrying amount approximates fair value.

Estimated third-party payor settlement: The carrying amount approximates fair value.

Long-term debt: The fair values of bonds payable are based on quoted market prices for the same or similar issues.

Derivative financial instruments: The carrying amount of derivative financial instruments, interest rate swap agreements, are reported at fair value and recorded in other long-term liabilities.

The following table presents estimated fair values of VHS's financial instruments at December 31, 2011 and 2010 (in thousands).

Note 20. Hampshire Wellness Center

On June 19, 2006, East Mountain Health Advantage entered into a long-term lease agreement to lease and operate a 60,000 square foot wellness center. The lease agreement with the Hampshire County Development Authority is for a period of 20 years at \$162 thousand per year plus all operating expenses of the facility and operations. In 2008, Hampshire Wellness Center, Inc. was established to operate the wellness center and assume responsibility for the lease. East Mountain Health Advantage became the sole corporate member of Hampshire Wellness Center, Inc.

The lease agreement contains a purchase option at the end of the lease term with the purchase price based upon the original cost of the facility less the sum of the lease payments made, 80% of operating losses not to exceed \$2 million, and cost of improvements, not to exceed \$150 thousand.

Note 21. Page Memorial Hospital and Commitment

VHS has committed to assist Page in building a new hospital with an estimated cost of \$30 million with a targeted completion date in 2014. VHS will assist Page with obtaining a certificate of public need and financing. If a new hospital cannot be built because of regulatory or reimbursement issues, VHS has committed to assist Page with major renovations to the hospital facility of approximately \$5 million per year in 2011, 2012, and 2013.

Note 22. Morgan County War Memorial Hospital Acquisition and Commitment

On April 1, 2010 War Memorial Hospital, Inc., a newly formed subsidiary of Valley Health System, purchased substantially all of the assets and assumed substantially all liabilities of Morgan County War Memorial Hospital. The purchase price was \$1.5 million in addition to the liabilities assumed which approximated \$4 million.

The agreement includes a commitment to construct a replacement facility expected to cost approximately \$30 million. The new facility is expected to be completed in 2012. The agreement also includes a commitment to operate the current facility until the replacement facility is complete and to lease the existing facility for \$685 thousand annually.
