# Williamsburg Community Health Foundation 2011 Competitive Grant Guidelines

### **OUR APPROACH TO GRANTMAKING**

The Williamsburg Community Health Foundation is dedicated to improving the health of people living in Williamsburg and surrounding counties by strengthening access to quality health services and promoting responsible health practices. We envision our role as a catalyst and convener, and therefore, look to support programs that are innovative and have the potential to effect change at the community level.

We define health as a dynamic state of complete physical, mental and social well being and not merely the absence of disease or infirmity. By supporting projects that improve access to health care, eliminate barriers, address health disparities, create healthier environments and support personal responsibility for health, the Foundation has the best potential to effectively use its resources to promote a healthier community for citizens of all ages.

Our grantmaking is accomplished through a combination of open competitive grant cycles and capacity building support. The Foundation will also initiate projects by convening community leaders to look at gaps in services and to assist in the planning of new service delivery strategies. This combination of grantmaking strategies will help insure that Foundation resources are effectively utilized to address measurable and changing healthcare needs in the Foundation's service area.

#### WHO WE FUND

We will accept proposals from eligible charitable non-profit or public organizations whose missions align with that of the Foundation: "Improve the health of people living in Williamsburg and surrounding counties by strengthening access to quality health services and promoting responsible health practices."

#### WHAT MAKES A PROPOSAL COMPETITIVE

The Foundation favors proposals that:

- are clearly aligned with the Foundation's priorities, goals and strategies;
- show promise of significant impact in addressing identified issues;
- demonstrate strong leadership and a sound financial plan;
- · complement efforts of other organizations;
- addresses current and emerging health issues through best practices and innovative strategies; and
- are clearly written.

During the current grantmaking cycle, the Foundation will have a greater focus on the community's economic challenges when reviewing proposals. This funding cycle will strengthen those segments of the community shown to be disproportionately affected by the economic downturn. Therefore, health safety net providers that are able to document a significant increase in their number of patients who are currently unemployed or who are employed by entities that do not offer health insurance will receive special consideration. The Foundation believes strengthening the safety net essentially strengthens the community in general because those who may not have relied on the safety net system previously may need it now.

Other programs likely to receive favorable consideration are those which include components designed to (1) educate clients about how best to stay healthy on a limited budget; (2) inform and encourage clients to maintain or secure health insurance; (3) educate clients on how to recognize the signs of behavior likely to signal future mental health issues or any form of abuse; and (4) have a strong preventive health maintenance component that will reduce the likelihood of clients needing to utilize the current health safety net system.

### **HOW TO REQUEST A GRANT**

The Foundation's Competitive Grant Cycle process consists of two phases: the Letter of Intent (LOI) and the Full Grant Proposal. Please see our service area to see if your organization is eligible to apply for a Letter of Intent during our competitive grant cycle. The Foundation will consider one Letter of Intent per grant cycle, per organization. Each LOI is limited to requests for two programs or projects and will be submitted to the Foundation using the online application process. A new application is re quired for each program or project. Following the Letter of Intent phase, a limited number of organizations will be invited to submit fully-developed proposals online for the Grant Application phase. Please note that organizations may request funding in consecutive competitive grant cycles, but consecutive requests must be for different programs or projects. Projects will be considered for funding if they meet one or more of the following Foundation priorities:

#### Access:

The Foundation defines access as: ensuring access to affordable, comprehensive, and appropriate health care for low income, uninsured residents in the Foundation's service area. The Foundation will support community-based projects designed to provide direct care services that work to improve the health status of the poor, underserved, and underinsured. Priority consideration will be given to projects that focus on health promotion, disease prevention and chronic disease management for citizens of all ages. The Foundation is also interested in strengthening the healthcare workforce through scholarship, certification and training programs.

#### **Prevention:**

Prevention is defined as: reducing the incidence of preventable illness and disease among residents in the Foundation's service area over the long term. The Foundation will support projects that promote health and quality of life by preventing and controlling disease, injury, and disability. Foundation areas of concern include:

- education and advocacy projects
- enhanced nutritional programs
- · health screenings
- increased physical activity
- early prevention of chronic disease and disability

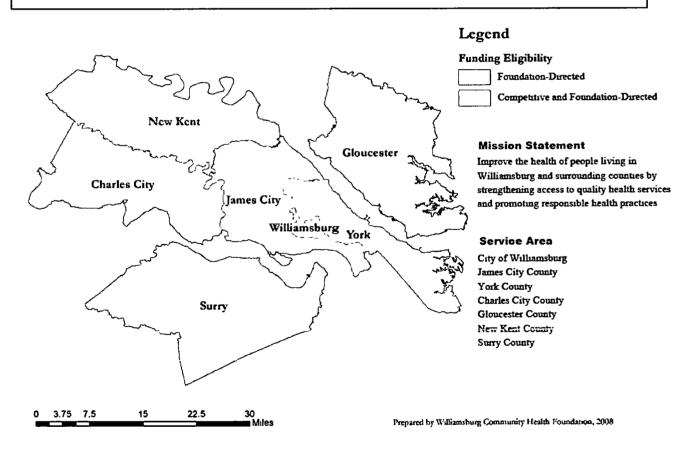

- substance abuse treatment and prevention
- mental health treatment and prevention
- disaster and emergency prevention or preparedness training

#### **Non-Profit Capacity Building:**

Capacity Building is defined as: strengthening the abilities, processes, and resources of local non-profits to more efficiently and effectively serve residents in the Foundation's service area. The Foundation will support funding for professional development to strengthen an organization's ability to provide services based on best practices; as well as organizational assessments, strategic planning efforts, technology, and other projects that may increase a non-profit organization's self-reliance.

Innovative projects that address cu rrent or emerging health issues that may significantly impact residents in the Foundation's service area will also be considered. Projects that offer unique opportunities for partnerships, collaborations and leveraging are encouraged.
