Part II		Workforce Development The Human Resources department of WVUH goes to local colleges and does mock interviews with students to prepare them for job interviews in their field of study

Identifier	ReturnReference	Explanation
Part III line 4		Bad Debt Expense at cost was calculated by multiplying bad debt expense of 35,675,688 by our cost to charge ratio of 38.28 derived from Worksheet 2 in the IRS Schedule H instructions for a total of 13,656,653. Part III, Line 3 - Estimated bad debt attributable to patients eligible for charity care was calculated by running a report within our patient revenue software of all bad debt account balances greater than 50,000. The total of that report was 2,647,139 which we then multiplied by our

Identifier	ReturnReference	Explanation
Part III line 4		cost to charge ratio of 38.28 for a total of 1,013,325. We feel that at a minimum the estimated bad debt attributable to patients eligible for charity care of 1,013,325 should be considered community benefit due to the fact that anyone with outstanding balances of 50,000 or greater usually qualifies as catastrophic if the patient completes the application process.

Identifier	ReturnReference	Explanation
Part III line 4		In our charity care policy, we define catastrophic care as any illness or injury that will likely require continuous or frequent treatment for more than one year

Identifier	ReturnReference	Explanation
Part III line 4		WVUH footnote for Accounts Receivable Patients states Accounts receivable, patients are reported at net realizable value Accounts are written off when they are determined to be uncollectable based upon managements assessment of individual accounts The allowance for doubtful collections is estimated based upon a periodic review of the accounts receivable aging, payor classification, and application of historical write-off percentages

Identifier	ReturnReference	Explanation
Part III line 4		WVUH grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements, primarily with Medicare, Medicaid, and various commercial insurance companies. WVUH maintains allowances for potential credit losses and such losses have historically been within managements expectation.

Identifier	ReturnReference	Explanation
Part III line 8		The amount reported in Part III Line 6 172,984,417 was calculated using the total Medicare allowable cost from the Medicare cost report, less Medicare reimbursement of direct GME

Identifier	ReturnReference	Explanation
Part III line 8		WVUHs shortfall, 5,503,939, of Medicare program reimbursement should be considered a community benefit because we are relieving a government burden by providing care in excess of our costs to these patients. WVUH has the only Level 1 Trauma Center in the area, and we serve an aging population that relies on WVUH to provide the most state-of-the-art care available in the area.

Identifier	ReturnReference	Explanation
Part III line 9b		WVUH does have a debt collection policy. The policy does not yet address collection practices to be followed for patients who are known to qualify for charity care or financial assistance.

Identifier	ReturnReference	Explanation
Part V		Line 10 - WVUH does not offer discounted care to individuals who fail the 200 FPG test for charity care. Self-Pay patients with no third party coverage may be eligible for a 20 self-pay discount if they meet certain requirements defined in our financial assistance policy.

Identifier	ReturnReference	Explanation
Part V		Line 13g - WVUH also has brochures available at all registration areas explaining our financial assistance policy

Identifier	ReturnReference	Explanation
Part V		Line 19d - Patients who have no third party coverage uninsured or uninsurable may be eligible for a 20 self pay discount if they meet certain requirements All patient charges are based on state regulated rates

Identifier	ReturnReference	Explanation
Part V		Line 21 - All patients are charged an amount equal to gross charges regardless of payment method

Identifier	ReturnReference	Explanation
Part VI Line 2		The Planning and Marketing Department of WVUH engaged Lifton Associates, LLC to prepare a community health needs assessment, undertaken jointly with Monongalia General Hospital, during the summer and fall of 2010. The report was issued in January 2011, WVUH posted the report on our website www.wvuhealthcare.com and shared it with community leaders along with the Monongalia County Health Department. The 2011 report calls for a broad based committee to be formed.

Identifier	ReturnReference	Explanation
Part VI Line 2		The committee is meeting, and WVUH is participating As a result of the assessment, our community action plan includes working with a group of leaders in the community to prioritize health issues and implement strategies to address those issues Impacting diabetes and obesity is the focus of that group WVUH has dozens of programs focused on these issues and that group will be looking into expanding or emphasizing these programs

Identifier	ReturnReference	Explanation
Part VI Line 2		WVUH Planning and Marketing tracks needs throughout the year to determine if changes in the community warrant an immediate reaction from WVUH The 2011 report issued by Lifton Associates, LLC notes some specialty care needs - we continue to work on recruiting and expanding our facilities to meet those needs It is a large part of our current plan

Identifier	ReturnReference	Explanation
Part VI Line 2		WVUH considers several components in determining the health services needs of the communities it serves. The Primary Service Area (PSA) for WVUH includes Monongalia County, WV, Marion County, WV, Taylor County, WV, and Preston County, WV. WVUH utilizes various resources to determine community needs, including outside consultants, collaboration with various departments, and statistical measures including physician-to-population ratios.

Identifier	ReturnReference	Explanation
Part VI Line 2		from the American Medical Association and the U S Census Bureau, physician availability in the entire service area, and general health risks for our community from clinical diagnosis information gathered by the West Virginia Health Care Authority and Thomson Reuters Market Planner Plus

Identifier	ReturnReference	Explanation
Part VI Line 2		Once all the data is gathered to determine where residents of West Virginia are going for care, and what types of services they are receiving, an assessment can then be made based on physician distribution and population estimates to determine where WVUH could deploy physicians and services to better care for residents of our Primary Service Area and other surrounding areas

Identifier	ReturnReference	Explanation
Part VI Line 2		Furthermore, in accordance with the mission and values of WVUH, it is important to mention that this information is compiled to be a guide to help provide a quality health care system, including tertiary services, to the citizens of West Virginia and the surrounding area. Equally important, WVUH is committed by law and philosophy to be the primary clinical site for the education and research programs of the West Virginia University Health Sciences Center. Per Board of Directors action 12-14-01.

Identifier	ReturnReference	Explanation
Part VI Line 3		WVUH employs 10 financial counselors to meet with patients and discuss eligibility to qualify for charity care WVUH provides brochures discussing charity care and the qualifications for receiving charity care These brochures are available at each registration area in the facility WVUH provides financial assistance to patients who do not qualify for any state or federal programs

Identifier	ReturnReference	Explanation
Part VI Line 3		Our charity care eligibility guidelines are also listed on our website at www.wvuhealthcare.com under the Your Hospital Stay section of the Patient and Visitor page. WVUH also has contracted a third party organization to be on-site to help patients, that qualify for charity care, Medicaid, or other types of financial assistance, complete the required applications and provide the correct documentation to receive these benefits.

Identifier	ReturnReference	Explanation
Part VI Line 4		WVUH serves the entire state of West Virginia and portions of the neighboring states of Maryland and Pennsylvania. WVUH considers its Primary Service Area (PSA) to include Monongalia County, WV, Marion County, WV, Taylor County, WV, and Preston County, WV. The 2011 market share for our PSA is 41.9% with 18.23% of those patients covered by Medicaid and 7.85% uninsured. The largest non-profit competitors within our PSA include Monongalia General Hospital and Fairmont General Hospital.

Identifier	Return Reference	Explanation
Form 990 Part VI	3	WVUH has contracted out the oversight duties of quality control, medical information, and medical staff affairs. The company's employees assigned to these duties by the company are licensed physicians and have the proper training and skills to perform these duties. These positions as well as the associated costs are Board approved.

Identifier	Return Reference	Explanation
Form 990 Part VI	11b	The Form 990 is prepared by the accounting department and then reviewed by the accounting manager. Upon approval, it is then reviewed by the non-profit tax manager of our independent auditing firm. Once all review notes are cleared, it is presented to the CFO. Once approved at that level, it is then reviewed by the Audit Committee. After being presented to the audit committee, it is provided to all Board members for comments before being signed and submitted to the IRS.

Identifier	Return Reference	Explanation
Form 990 Part VI	12c	Annually, all Board Members, Vice Presidents, officers, and managers are required to disclose any relationships which may give rise to a conflict of interest. The responses are then input into spreadsheet format and given to the audit committee which is responsible for the ongoing monitoring of these responses. Any identified conflicts are reviewed by the Ethics Committee, the Ethics Committee makes a recommendation related to resolution or disciplinary actions. The recommendations are then provided to the President and/or Board of WVUH to accept, adopt, or institute. Nothing of concern has been brought to the Ethics Committee for review in 2011.

Identifier	Return Reference	Explanation
Form 990 Part VI	15ab	The compensation of all executives is determined based upon a salary and benefit survey prepared by an independent company using data of comparable facilities. This data is then interpreted and provided to an independent compensation committee. The independent compensation committee then uses this data to determine a fair and reasonable compensation package. All relevant data as well as minutes from each meeting are retained.

Identifier	Return Reference	Explanation
Form 990 Part VI	19	The WV Healthcare Authority publishes the annual financial statements of WVUH in the local new spapers. All other financial and governing documents are available upon request at the WVUH Administration Office during normal business hours.

Independent Auditors' Report

Board of Directors
West Virginia United Health System, Inc

We have audited the consolidated balance sheet of West Virginia United Health System, Inc and controlled entities (collectively, the "System") as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of United Summit Center, Inc and United Health Foundation, Inc, controlled entities of the System, which statements reflect total assets of \$24,135,000 and \$25,439,000 as of December 31, 2011 and 2010, respectively, and total revenues of \$21,171,000 and \$21,663,000, respectively, for the years then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to amounts included for these entities, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of West Virginia United Health System, Inc and controlled entities as of December 31, 2011 and 2010, and the results of their operations, changes in net assets, and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

1. Organizational Structure and Nature of Operations

West Virginia United Health System, Inc. ("WVUHS") is a not-for-profit corporation formed to serve as part of an integrated health science and healthcare delivery system. WVUHS serves as the parent corporation to an affiliated group of healthcare providing entities which includes West Virginia University Hospitals, Inc. and controlled entities, United Hospital Center, Inc. and controlled entities, Camden-Clark Health Services, Inc. and controlled entities, Allied Health Services, Inc., United Physicians Care, Inc., and West Virginia United Insurance Services, Inc.

West Virginia University (the "University") commenced operations of a tertiary care teaching hospital in 1960 as a component of the Medical Center of the University. In 1984, the West Virginia legislature adopted legislation which authorized separation of the hospital operations from the University and establishment of a separate corporate entity. At that time, West Virginia University Hospitals, Inc. ("WVUH") was incorporated as a not-for-profit corporation to operate one or more hospitals in order to provide patient care, including specialized services not widely available in West Virginia, and to facilitate clinical education and research. It currently operates Ruby Memorial Hospital, which is located in Morgantown, West Virginia. Ruby Memorial Hospital serves as a major statewide and regional healthcare referral center and provides the principal clinical education and research site for the University.

On January 1, 2005, WVUH became the sole member of West Virginia University Hospitals - East, Inc. ("WVUH-East"), a not-for-profit corporation formed to serve as part of an integrated health science and healthcare delivery system. WVUH-East serves as the parent corporation to an affiliated group of healthcare providing entities which includes City Hospital, Inc. ("CHI"), City Hospital Foundation, Inc. ("CHF"), Gateway Health Services Corporation ("GHS"), Gateway Health Enterprises Corporation ("GHE"), Gateway Healthcare Properties, Inc. ("GHP"), The Charles Town General Hospital d/b/a Jefferson Memorial Hospital ("JMH"), Jefferson Health Care Foundation, Inc. ("JHF"), and Jefferson Health Enterprises, Inc. ("JHE"). During 2009, GHP merged with CHF with CHF as the surviving corporation of the merger ("CHF"). Also during 2009, JHE merged with GHE to form WVUH-East Enterprises, Inc. ("WEE"). During 2011, WEE merged into CHI. Additionally, Gateway Health Services Corporation's ("GHS") name changed to WVUH-East Services, Inc. ("WES"). Also during 2011 WES merged into UPC.

CHI is a not-for-profit acute care hospital located in Martinsburg, West Virginia. CHI provides inpatient, outpatient, and emergency care services for residents of the eastern panhandle of West Virginia and the surrounding communities.

JHF and CHF are not-for-profit corporations formed for the purpose of performing fund raising and other activities that benefit WVUH-East and its controlled entities.

JMH is a not-for-profit acute care critical access hospital located in Ranson, West Virginia. JMH provides inpatient, outpatient, and emergency care services to the residents of the eastern panhandle of West Virginia and the surrounding communities. JMH was designated as a Critical Access Hospital ("CAH") by the Centers for Medicare and Medicaid Services effective December 15, 2005. As a CAH, JMH is reimbursed at 101% of cost by the Medicare program and receives full cost reimbursement by the Medicaid program. In addition, JMH also receives payments for unreimbursed cost for self-pay patients via the State of West Virginia Disproportionate Share program.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

United Hospital Center, Inc. ("UHC") is a not-for-profit acute care hospital located in Bridgeport, West Virginia. UHC provides inpatient, outpatient, psychiatric, and skilled nursing services for residents of its primary service area, which includes Harrison County, West Virginia and North Central West Virginia. UHC is a major referral center in North Central West Virginia's health care system. UHC also functions as the parent corporation to an affiliated group of healthcare providing entities. The affiliated organizations include United Health Foundation, Inc. ("UHF") and United Summit Center, Inc. ("USC").

UHF is a not-for-profit corporation formed for the purpose of performing fund-raising and other activities that benefit UHC and its controlled entities.

USC is a not-for-profit corporation formed for the purpose of providing mental health, mental retardation, and related services to residents of Harrison, Braxton, Doddridge, Lewis, Gilmer, Preston, and Marion counties in West Virginia.

On March 1, 2011, WVUHS became the sole member of Camden-Clark Health Services, Inc. ("CCHS"), a non-profit corporation to serve as part of an integrated health science and healthcare delivery system. CCHS serves as the parent corporation to an affiliated group of healthcare providing entities which includes Camden-Clark Medical Center ("CCMC"), Camden-Clark Foundation ("CCF"), Camden-Clark Physician Corporation ("CCPC"), and Family Fitness Center, LLC ("FFC").

CCMC is a not-for-profit acute care hospital located in Parkersburg, West Virginia. CCMC provides inpatient, outpatient, and emergency services for the residents of Wood County and the surrounding communities.

CCF is a not-for-profit corporation formed for the purpose of performing fundraising and other activities that benefit CCMC.

CCPC is a not-for-profit corporation that operates several physician practices in Wood County.

FFC is a single-member limited liability company that operates a fitness center in Wood County.

Allied Health Services, Inc. ("AHS") is a for-profit corporation engaged in the business of providing laboratory and laundry services.

United Physicians Care, Inc. ("UPC") is a not-for-profit corporation that operates several family practice clinics in northern West Virginia.

West Virginia United Insurance Services, Inc. ("WVUIS"), formerly Health Partners Network Services, Inc., is a for-profit corporation formed for the purpose of providing a vehicle through which health maintenance and other managed care organizations, and other purchasers of healthcare, may contract with providers of healthcare services. WVUIS negotiates managed care contracts for its affiliates.

The Corporation evaluated subsequent events for recognition or disclosure through April 16, 2012, the date the consolidated financial statements were available to be issued.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

2. Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of WVUHS and its controlled entities, (collectively, the "System") All significant intercompany transactions and balances have been eliminated in consolidation

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period Actual results could differ from those estimates

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid debt instruments purchased with a maturity of three months or less, excluding assets whose use is limited The market value of cash and cash equivalents approximates cost

Assets Whose Use is Limited

Assets whose use is limited include assets set aside by the Board of Directors (the "Board") for future capital improvements, debt repayment, and WVUH's malpractice self-insurance program, over which the Board retains control and may, at its discretion, subsequently use for other purposes, assets held by bond trustees under a trust indenture, assets held by trustee in connection with other malpractice self-insurance programs, and assets held by UHF

Accounts Receivable, Patients

Accounts receivable, patients are reported at net realizable value Accounts are written off when they are determined to be uncollectible based upon management's assessment of individual accounts The allowance for doubtful collections is estimated based upon a periodic review of the accounts receivable aging, payor classifications, and application of historical write-off percentages

Inventories of Drugs and Supplies

Inventories are stated at the lower of cost or market Cost is determined on a first-in, first-out basis

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

Investments and Investment Risk

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value. Cash and cash equivalents are carried at cost which approximates fair value. Investments in hedge funds, private equity funds, and other limited partnerships representing less than 3% ownership are recorded at cost. Investments representing greater than 3% ownership are accounted for under the equity method. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in revenues in excess of expenses unless the income or loss is restricted by donor or law.

The System's investments are comprised of a variety of financial instruments and are managed by investment advisors. The fair values reported in the consolidated balance sheet are subject to various risks including changes in the equity markets, the interest rate environment, and general economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is reasonably possible that the amounts reported in the accompanying consolidated financial statements could change materially in the near term.

WVUH has an agreement with West Virginia University Foundation, Inc. ("WVU Foundation"), an affiliate of the West Virginia University, to manage its board-designated funds. WVUH and WVU Foundation's assets are jointly managed in commingled funds. The investment income and realized and unrealized gains and losses are allocated to WVUH based upon its relative ownership of each fund.

Property and Equipment

Property and equipment acquisitions are recorded at cost. The System provides for depreciation on a straight-line basis over the estimated useful lives of the assets. Such lives, in the opinion of management, are adequate to allocate asset costs over their productive lives. Maintenance, repairs, and minor improvements are expensed as incurred. Equipment under capital leases is amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Depreciation expense, including amortization of equipment under capital leases, was \$88,235,000 in 2011 and \$62,763,000 in 2010.

Net interest costs on borrowed funds in the period of construction of capital assets are capitalized as a component of the cost of those constructed assets. Interest costs capitalized totaled \$332,000 in 2011 and \$11,907,000 in 2010.

Gifts of long-lived assets such as land, buildings, or equipment are recorded at fair value and reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

Impairment of Property and Equipment

Property and equipment are evaluated for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. If expected cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets.

Restricted Assets Held by Third Parties

WVU Foundation holds cash and securities which are available for WVUH's purposes, subject to donor restrictions. Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose, primarily for capital expenditures. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

WVU Foundation releases assets from restriction and transfers the amounts to WVUH as amounts are expended according to the donor's intended purposes. Amounts released from restriction are recorded as revenues or an increase in unrestricted net assets restricted for purchases of property and equipment.

Under the terms of several perpetual trust agreements, JMH has recorded assets and recognized permanently restricted contributions at the fair market value of its beneficial interest in the perpetual trust assets. Income earned on the trust assets and distributed to JMH is recorded as investment income in the accompanying consolidated statement of operations, unless otherwise restricted by the donor. Subsequent changes in fair values are recorded as valuation gain or loss in permanently restricted net assets.

UHF is one of four designated beneficiaries of a charitable lead trust. In accordance with the terms of the trust, UHF will receive a total of \$3,542,000 payable in 22 annual installments of \$161,000, which began in August 1993. UHF's interest in the trust is carried at the present value of the future cash flows to be received.

In addition, UHF is the designated beneficiary of a charitable lead unitrust. In accordance with the terms of the trust agreement, UHF is to receive ten annual payments equal to a stated percentage of the net fair market value of the trust assets on January 1 of each year. At the end of ten years, the trust is to terminate, and the remaining trust assets are to be distributed to others. Based on a 3.5% discount rate, the present value of the future cash flows expected to be received by UHF was estimated to be \$100,000. This temporarily restricted contribution was recorded in 2006.

Deferred Financing Costs

Costs incurred in connection with the issuance of long-term debt have been deferred and are being amortized over the term of the debt using the straight-line method, which approximates the effective interest method. Amortization of deferred financing costs amounted to \$582,000 in 2011 and \$264,000 in 2010. In connection with debt refinancings, unamortized deferred financing costs of \$562,000 in 2011 were written off and recorded as a loss on early extinguishment of debt in the consolidated statement of operations.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

Other Investments

Other assets include the System's investment in several entities in which the System has a financial interest. Where the System has the ability to influence management or has a twenty percent but not more than fifty percent interest in the entity, the investment is recorded using the equity method, and adjusted for the System's proportionate share of the entity's undistributed earnings or losses. All other investments in such entities are recorded at cost.

Derivative Financial Instruments

The System entered into interest rate swap agreements, which are considered derivative financial instruments, to manage its interest rate risk on certain long-term debt obligations. The interest rate swap agreements are reported at fair value in the consolidated balance sheet and related changes in fair value are reported in the statement of operations as a change in fair value of derivative financial instruments.

Estimated Malpractice Costs

The provision for estimated medical malpractice claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported including costs associated with litigation or settling claims. Anticipated insurance recoveries associated with reported claims are reported separately in the System's consolidated balance sheet at net realizable value.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity.

Revenues in Excess of Expenses

The consolidated statement of operations includes the determination of revenues in excess of expenses. Changes in unrestricted net assets which are excluded from the determination of revenues in excess of expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and changes in net unrealized loss on derivative financial instruments designated as cash flow hedges prior to December 31, 2007.

Net Patient Service Revenues

Pursuant to the provisions of the West Virginia Code, the West Virginia Health Care Authority has been empowered to regulate the System hospitals' billing rates from nongovernmental payors through limitation orders compiled from budgets and rate schedules submitted by the System hospitals on a periodic basis.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments.

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted, as necessary, in future periods as tentative and final settlements are received. It is reasonably possible that the estimates used could change in the near term.

Capitation Payments

The System has agreements with various health maintenance organizations to provide medical services to subscribing participants. Under these agreements, the System receives monthly capitation payments based on the number of participants, regardless of services actually performed.

Charity Care

The System provides care to patients who meet certain criteria under its patient financial assistance policy without charge or at amounts less than its established rates. Because the System does not pursue collections of amounts determined to qualify as charity care, they are not reported as patient service revenues.

The costs associated with the charity care services provided are estimated by applying a cost-to-charge ratio to the amount of gross uncompensated charges for the patients receiving charity care. The level of charity care provided by the System amounted to \$35,952,000 in 2011 and \$26,190,000 in 2010.

Lease Revenue

The System accounts for its real estate leasing activities as operating leases.

Contributions

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statement of operations.

Advertising Costs

Advertising costs are expensed as incurred.

Federal and State Income Taxes

WVUHS, WVUH, CCMC, CCF, CCPC, WVUH – East, CHI, CHF, JMH, JHF, UHC, USC, UHF, UPC, and WES are tax-exempt organizations and not subject to federal or state income taxes in accordance with Section 501(c)(3) of the Internal Revenue Code. On such basis, they will not incur any liability for income taxes, except for possible unrelated business income.

AHS, WVUIS, FFC, JHE and WEE are organizations subject to federal and/or state income taxes.

The System accounts for uncertainty in income taxes using a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold is met. Management determined there were no tax uncertainties that met the recognition threshold in 2011 and 2010.

The System's policy is to recognize interest related to unrecognized tax benefits in interest expense and penalties in operating expenses.

All required Federal Business Income Tax Returns for the System have been filed up to, and including the tax year ended December 31, 2010. The System's federal income tax returns for 2008, 2009, and 2010 remain subject to examination by the Internal Revenue Service ("IRS").

Effective June 1, 1993, the legislature of the State of West Virginia enacted a broad-based healthcare related tax. This tax is based upon net patient service revenues of each hospital. The System incurred \$25,313,000 in 2011 and \$18,128,000 in 2010 related to this tax.

Reclassifications

Certain reclassifications were made to the 2010 financial statements to conform with the 2011 presentation.

New Accounting Standards

Charity Care

In August 2010, the Financial Accounting Standards Board ("FASB") issued amended disclosure guidance relating to the measurement of charity care provided. The guidance requires that direct and indirect costs be used as the basis of measurement for charity care disclosure purposes. The guidance also requires disclosure of the method used to identify or determine such costs. The adoption of the amended guidance revised the disclosure in the notes to the System's consolidated financial statements but did not impact amounts reported in the primary consolidated financial statements.

Notes to Consolidated Financial Statements

Insurance Claims

In August 2010, FASB issued Accounting Standards Update 2010-24, Presentation of Insurance Claims and Related Insurance Recoveries, which amended guidance relating to the presentation of insurance claims and related insurance recoveries. The guidance clarifies that health care entities may not net insurance recoveries against a related claim liability. In addition, the amount of the claim liability should be determined without consideration of insurance recoveries, if any, should be measured and presented separately within the balance sheet. The adoption of the amended guidance resulted in presenting insurance recoveries and related liabilities on a gross basis in the System's consolidated balance sheet and did not impact net assets.

Provision of Doubtful Collections

The System will be required to adopt amended guidance related to health care entities which requires a change in reporting the provision for bad debts associated with net service revenues. As a result of this guidance, the provision, which is currently reported as an operating expense in the System's consolidated statement of operations and changes in net assets, will be reported as a deduction from service revenues, net of contractual allowances and discounts. The guidance also enhances required disclosures regarding the policies for recognizing net service revenues and assessing bad debts. In addition, the guidance requires disclosure of net service revenues and qualitative and quantitative information about changes in the allowance for doubtful accounts, both by major payor sources. The amended guidance is effective for the fiscal years ending after December 15, 2012. Adoption of the amended guidance will require retrospective restatement of the statement of operations and changes in net assets and prospective financial statement disclosures.

3. Affiliation and Acquisition

Effective March 1, 2011, CCHS became an affiliate of WVUHS through a transfer of sole corporate membership. CCHS remains as a separate not-for-profit organization. No consideration was paid or received by CCHS to consummate the affiliation.

Also effective on March 1, 2011, CCMC acquired the assets of another local hospital to expand its operations. The results from operations are included in the consolidated financial statements subsequent to the affiliation and acquisition dates. On a pro-forma basis, CCHS had total revenues of \$274,069,000 for the year ended December 31, 2010 and \$45,863,000 for the period from January 1, 2011 to February 28, 2011.

The purchase price was \$89,128,000 and was based upon the agreed-upon sale price between CCMC and the sellers. The provisions of the affiliation and acquisition were absent of any significant contingency payments, options, or commitments.

4. Net Patient Service Revenues

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A significant portion of the System's net patient service revenues is derived from these third-party payor programs. A summary of the principal payment arrangements with major third-party payors follows:

- Medicare - Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic, and other factors. The System is reimbursed for cost reimbursable expenditures at tentative interim rates, with final settlement determined after submission of annual cost reports by the System and audits hereof by the Medicare fiscal intermediary. The System's Medicare cost reports have been settled by the Medicare fiscal intermediary through the respective years as follows:

WVUH	2006
UHC	2006
CHI	2007
JMH	2008
CCMC	2007

- Medicaid - Inpatient acute care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient services are paid on a published fee schedule.

The State of West Virginia's disproportionate share plan reimburses hospitals in the state that provide Medicaid services and meet other eligibility criteria. Under the disproportionate share program, the System received \$15,530,000 in 2011 and \$15,086,000 in 2010, which is included in net patient service revenues in the consolidated financial statement of operations.

The State of West Virginia increases Medicaid reimbursement to qualified public safety net hospitals (including WVUH) for services to Medicaid-eligible patients. Supplemental payments may be received in an amount up to the difference between current reimbursement and the maximum permissible payments under Upper Payment Limit ("UPL") regulations. The first payment was made in April 2004 and periodic payments have been made subsequent to that date. WVUH received UPL payments of \$22,417,000 in 2011 and \$21,207,000 in 2010 that are included in net patient service revenues. There is risk that Congress may change federal policy in the future in a way that might limit or eliminate these enhanced Medicaid payments. The enhanced UPL payments are recorded in the period in which they are received. The laws and regulations governing the UPL program are complex and subject to interpretation. Furthermore, the enhanced UPL payments received are subject to review and retroactive adjustment. Management is unable to estimate the amount of any such adjustments at this time.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

The System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Revenues received under third-party arrangements are subject to audit and retroactive adjustment. The System has included in net patient service revenues favorable adjustments of \$2,468,000 in 2011 and \$7,736,000 in 2010 related to its estimates of the ultimate settlement under these third-party arrangements.

Fair Value of Financial Instruments

The carrying amounts reported in the accompanying consolidated balance sheet for cash and cash equivalents, patient accounts receivable, inventory of drugs and supplies, prepaid and other current assets, line of credit, accounts payable and accrued expenses, salaries and benefits payable, accrued interest payable, deferred revenue and estimated third-party payor settlements are recorded at cost, which approximates fair value due to the short term nature of the instruments

The fair value of the System's assets whose use is limited and restricted assets held by third-parties is based on quoted market prices for marketable equities and fixed income securities. For alternative investments, including hedge funds, limited partnerships in real estate, and private equity, fair value is determined by a combination of underlying market value of investment holdings, valuations, and fund manager calculations. The fair value of assets whose use is limited and restricted assets held by third-parties were \$678,734,000 and \$524,778,000 at December 31, 2011 and 2010, respectively

The System also measures its derivative financial instruments at fair value based on proprietary models of an independent third party valuation specialist. The fair value takes into consideration the prevailing interest rate environment and the specific terms and conditions of the derivative financial instruments and was estimated using the zero-coupon discounting method. This method calculates the future payments required by the derivative financial instruments, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the derivative financial instruments. The value represents the estimated exit price the System would pay to terminate the agreements

The fair value of the System's variable rate long-term debt approximates its carrying amount in the accompanying consolidated balance sheet. The fair value of fixed rate long-term debt was estimated using quoted market prices or discounted cash flows analyses based on the System's incremental borrowing rate for debt instruments with comparable maturities. The fair value of the System's long-term debt was \$748,149,000 and \$518,860,000 at December 31, 2011 and 2010, respectively

The change in fair value of derivative financial instruments and change in net unrealized gains and losses on investments is included in revenues in excess of expenses

9. Pension Plans

WVUH and WVUH-East participate in various defined contribution plans which cover substantially all full-time employees. Employees are eligible to contribute, and WVUH and WVUH-East will match a percentage of their base compensation up to a limit depending on the employee's years of service. Both employee and employer contributions are 100% vested upon entry into the plan for WVUH. Employee contributions are 100% vested upon entry into the plan and employer contributions are vested over a five year period for the WVUH-East plan.

Approximately 2% of WVUH's employees continue to be paid by the State of West Virginia. Those employees also participate in a defined contribution pension plan for state employees. WVUH reimburses the state for all costs of these employees, including salaries and wages, pension expense, and other related fringe benefits.

UHC and UPC provide defined contribution pension plans covering substantially all employees. Contributions to the plan are based on a variable percentage, ranging from 2.75% to 9.75% of the participating employees' compensation. Current policy is to fund the amount accrued for pension costs.

UHC's and UPC's Tax Sheltered Annuity Thrift Plans (the "TSA Plans") are deferred compensation plans under Section 403(b) of the Internal Revenue Code. All full-time employees are eligible to participate in the TSA Plans. All employee elective deferrals made on behalf of such participant shall be invested in a tax deferred annuity contract or custodial account at the employee's direction and vest immediately. UHC and UPC do not contribute to the TSA Plans.

The System's expense related to these plans amounted to \$12,915,000 in 2011 and \$10,643,000 in 2010.

CCMC maintains a noncontributory defined benefit pension plan covering substantially all CCMC's employees.

The following table sets forth the change in benefit obligation, the fair value of plan assets, and the amounts recognized in the consolidated balance sheet at December 31, 2011.

A net loss of \$20,497,385 represents the unrecognized component of net periodic pension cost included in unrestricted net assets at December 31, 2011

An estimated amortization of net loss of \$1,571,328 is expected to be recognized in net periodic pension cost in the next fiscal year

The weighted-average assumptions used in the measurement of CCMC's benefit obligation at December 31, 2011 are as follows

Discount rate	4 32 %
Rate of compensation increase	4 00 %

The weighted-average assumptions used in the measurement of CCMC's net periodic benefit cost for the years ended December 31, 2011 are as follows

Discount rate	5 62 %
Rate of compensation increase	4 00 %
Expected long-term return on plan assets	7 00 %

The basis for determining the overall expected long-term rate of return on assets has been based on the assumption that future real returns will approximate historic long-term rates of return experienced for each asset class in the investment policy statement. Based on this analysis, it was determined that the long-term rate of return should be consistently applied.

When determining an appropriate risk tolerance, CCMC examines the financial ability to accept risk within the investment program and its willingness to accept return volatility. Based on these factors, CCMC established a range of investment percentages, by asset type, to which the mix of assets should be generally maintained. When necessary, CCMC will rebalance its investment portfolio within its target allocation.

The West Virginia United Health System Obligated Group (the "Obligated Group") consists of WVUH, UHC, CCMC, CHI, JMH, and CHF. All members of the Obligated Group are jointly and severally liable for all outstanding obligations of the Obligated Group. Long term debt of the Obligated Group consists of the following:

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2011

In March 2011 and June 2011, the West Virginia Hospital Finance Authority (the "Authority") issued \$144,865,000 of Hospital Revenue and Hospital Refunding Bonds (the "2011 Bonds") on behalf of the Obligated Group. The proceeds of the 2011 Bonds were used to finance the acquisition of St. Joseph's Memorial Hospital, refund Series 1998 Bonds, reimburse the costs of various capital improvements and equipment for WVUH, CCMC and CHI, and pay for the costs of issuance. The 2011 Bonds have been recorded as long-term debt by WVUH, CCMC, and CHI.

The 2011 Bonds include variable rate bonds of \$50,000,000 maturing in 2041 with interest payable on a monthly basis, fixed rate bonds of \$43,935,000 maturing in 2022 and 2026 with interest rates ranging from 3.12% to 3.54%, and variable rate bonds of \$50,000,000 maturing in 2021 and 2041 with fixed rates ranging from 4.00% to 4.95% through 2016, followed by variable rates through maturity dates.

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2009

In February 2009 and December 2009, the Authority issued \$171,380,000 of tax-exempt Hospital Revenue Bonds (the 2009 Bonds") on behalf of the Obligated Group. The proceeds of the 2009 Bonds were used to refund Series 2003C and Series 2008C Bonds, reimburse the costs of various capital improvements and equipment for WVUH, CHI and JMH, and pay for the costs of issuance. The 2009 Bonds have been recorded as long-term debt by WVUH, UHC, CHI, and JMH. The 2009 Bonds include weekly variable rate demand bonds of \$66,585,000 maturing in 2033 with interest payable on a monthly basis, and fixed rate serial bonds of \$103,405,000 maturing in 2039 with interest rates ranging from 4.0% to 5.7%.

In August 2003, the Obligated Group entered into an interest rate swap agreement for the 2003 Bonds in order to hedge the LIBOR component of the interest rate on the auction rate bonds. Upon refinancing of the 2003 Bonds, the interest rate swap agreement transferred to the 2009 Bonds. Under the terms of this agreement, the Obligated Group agreed to swap a fixed interest rate payment for a variable interest rate payment based upon 70% of LIBOR (Note 12).

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2008

In August 2008 and September 2008, the Authority issued \$216,180,000 of tax-exempt Hospital Revenue Bonds (the "2008 Bonds") on behalf of the Obligated Group. The proceeds of the 2008 Bonds were used to refund Series 2006B, Series 2006C, and Series 2006D auction rate certificates, refund Series 2005 Bonds, fund a debt service reserve fund for Series 2008E, and pay for the costs of issuance. The 2008 Bonds have been recorded as long-term debt by WVUH, UHC, CHI, JMH, and CHF. The 2008 Bonds include daily variable rate demand bonds of \$86,300,000 maturing in 2041 with interest payable on a monthly basis, weekly variable rate demand bonds of \$24,575,000 maturing in 2030 with interest payable on a monthly basis, and fixed rate serial bonds of \$35,155,000 maturing in 2035 with interest rates ranging from 5.375% to 5.625%.

In June 2006 and January 2005, the Obligated Group entered into interest rate swap agreements for the 2006 Bonds and 2005 Bonds in order to hedge the LIBOR component of the interest rate on the auction rate bonds. Upon refinancing of the 2006 Bonds and the 2005 Bonds in 2008, the interest rate swap agreements transferred to the 2008 Bonds. Under the terms of these agreements, the Obligated Group agreed to swap a fixed interest rate payment for variable interest rate payments based upon 70% of LIBOR (Note 12).

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2007

In 2007, the Authority received \$24,600,000 in proceeds of West Virginia Hospital Finance Authority Hospital Auction Rate Certificates Improvement Revenue Bonds 2007, Series A (the "2007 Bonds") on behalf of CCHS. The proceeds from the Series 2007 Bonds were used to refund a bank loan, finance the costs of acquisition of certain equipment for the institution, including capitalized interest thereon, and fund a debt service reserve fund and pay the costs of issuing the Series 2007 Bonds. On October 1, 2009, the Supplemental Master Trust Indenture 2009-1 amended and restated the Series 2007 A Note Bonds. This amendment and restatement converted the terms and provisions of the 2007 Series A Auction Rate Certificates to fixed rate bonds. In conjunction with the affiliation with WVUHS on March 1, 2011, the bonds were amended to include CCMC within the Obligated Group. The 2007 Bonds include fixed rate bonds of \$24,000,000 maturing through February 2024 with interest of 2.5%.

In 2007, CCHS entered into an interest rate swap agreement for the 2007 Bonds in order to manage its interest rate exposure on the variable rate debt. Under the terms of this agreement, the CCHS agreed to swap a fixed interest rate payment for variable interest rate payments based upon 67% of LIBOR (Note 12). In conjunction with the affiliation with WVUHS on March 1, 2011, the swap agreement was amended to include CCMC within the Obligated Group.

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2006

In June 2006, the Authority issued \$231,635,000 of tax-exempt Hospital Revenue Bonds (the "2006 Bonds") on behalf of the Obligated Group. The proceeds of the 2006 Bonds were used to finance the acquisition, construction, and equipping of a new hospital facility for UHC, pay interest on the 2006 Bonds for a specified period of time, and pay the costs of issuance. The 2006 Bonds have been recorded as long-term debt by UHC. The 2006 Bonds include serial bonds of \$10,005,000 maturing through June 2020 with interest ranging from 4% to 5% and term bonds of \$68,605,000 maturing through June 2041 with interest ranging from 4.5% to 5.25%.

In June 2006, the Obligated Group entered into interest rate swap agreements for the 2006 Bonds in order to hedge the LIBOR component of the interest rate on the auction rate bonds. Under the terms of these agreements, the Obligated Group agreed to swap a fixed interest rate payment for variable interest rate payments based upon 70% of LIBOR (Note 12).

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2004

In 2004, the Authority received \$19,000,000 in proceeds of West Virginia Hospital Finance Authority Hospital Revenue Refunding and Improvement Bonds 2004, Series A, \$19,350,000 in proceeds of West Virginia Finance Authority Hospital Auction Rate Certificates Revenue Refunding and Improvement Bonds, 2004 Series B, and \$57,900,000 in proceeds of West Virginia Hospital Finance Authority Hospital Auction Rate Certificates Revenue Refunding and Improvement Bonds, 2004 Series C on behalf of CCHS. The proceeds from the Series 2004 Bonds were used to refund all the Wood County Building Commission Revenue Bonds, Series 1996, Series 1998, and Series 2003, finance the costs of acquisition of certain equipment for the institution, including capitalized interest thereon, and fund a debt service reserve fund and pay the costs of issuing the Series 2004 Bonds. In conjunction with the affiliation with WVUHS on March 1, 2011, the bonds were amended to include CCMC within the Obligated Group. The 2004 Bonds include variable rate bonds of \$55,400,000 maturing in 2041 with interest payable on a monthly basis, fixed rate bonds of \$18,645,000 maturing in 2019 with interest rates ranging from 3.75% to 5.25%, and weekly variable rate bonds of \$15,350,000 maturing in 2034.

In 2004, CCHS entered into an interest rate swap agreement for the 2004 Bonds in order to manage its interest rate exposure on the variable rate debt. Under the terms of this agreement, the CCHS agreed to swap a fixed interest rate payment for variable interest rate payments based upon 67% of LIBOR (Note 12). In conjunction with the affiliation with WVUHS on March 1, 2011, the swap agreement was amended to include CCMC within the Obligated Group.

West Virginia Hospital Finance Authority Hospital Revenue Bonds, Series of 2003

In August 2003, the Authority issued \$139,730,000 of tax-exempt Hospital Revenue Bonds (the "2003 Bonds") on behalf of the Obligated Group. The proceeds of the 2003 Bonds were used to finance and reimburse the costs of various capital improvements and equipment for WVUH, redeem Series 1993 and Series 2002 Bonds, establish a debt service reserve fund, and pay for issuance costs. The 2003 Bonds have been recorded as long-term debt by WVUH. The 2003 Bonds include auction rate certificates of \$21,850,000 maturing in June 2016 with interest payable based upon 35-day auction periods, and auction rate certificates of \$45,750,000 maturing in June 2033 with interest payable based upon 35-day auction periods.

In August 2003, the Obligated Group entered into interest rate swap agreements for the 2003 Bonds in order to hedge the LIBOR component of the interest rate on the auction rate bonds. Under the terms of these agreements, the Obligated Group agreed to swap a fixed interest rate payment for variable interest rate payments based upon 70% of LIBOR (Note 12).

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

Payments of principal and interest of the 2011 Bonds, 2009 Bonds, 2008 Bonds, 2007 Bonds, 2006 Bonds, 2004 Bonds, and 2003 Bonds, are collateralized by a pledge of revenues of the Obligated Group. The 2009 Bonds are secured by letters of credit totaling \$67,975,000 and expiring in August 2016. The 2008 bonds are secured by letters of credit totaling \$183,108,000 and expiring 2013. The 2006 Bonds and 2003 Bonds are insured by Ambac Assurance Corporation. The master trust indenture includes restrictive covenants requiring the Obligated Group to maintain certain financial ratios. The restrictive covenants include, among other things, minimum insurance coverage, net revenue requirements, average annual debt service requirements, limitations on additional debt, and annual reporting requirements.

The interest rates for the 2003 Bonds of \$21,850,000 are subject to auction rate certificates with seven-day and 35-day auction periods. Interest rates as determined by these auctions are subject to various risks including changes in the credit markets, re-marketing mechanisms, and the potential for failed auctions. The default interest rate for the 2003 Bonds is based upon a formulaic maximum rate which approximates 4% to 5%.

12. Derivative Financial Instruments

The System entered into two interest rate swap agreements (the "2003 Agreements") in connection with the 2003 Bonds on August 20, 2003, in order to hedge the LIBOR component of the interest rate on the auction rate bonds. The 2003 Agreement related to the Series B bonds has a notional value of \$21,850,000, and terminates on June 1, 2016. The 2003 Agreement related to the 2003 Bonds Series C, which transferred to the 2009 Bonds Series A upon the refunding of the 2003 Bonds Series C, has a notional value of \$45,750,000, and terminates on June 1, 2033. The 2003 Agreements are contracts to exchange fixed rate for variable rate payments over the term of the swap agreement without the exchange of the underlying notional amount. As such, they require the System to pay a fixed rate while receiving variable interest rates based upon 70% of LIBOR. The fair value of the 2003 Agreements, which is the amount that the System would pay to terminate the 2003 Agreements, was \$14,747,000 and \$9,054,000 at December 31, 2011 and 2010, respectively, and was based upon information supplied by an independent third party valuation specialist to the 2003 Agreements. No termination payments would be required if the 2003 Agreements are held to maturity.

CCHS entered into an interest rate swap agreement (the "2004 Agreement") in connection with the 2004 Bonds in 2004, in order to manage its interest rate exposure on the variable rate 2004 Bonds Series C. In conjunction with the affiliation with WVUHS on March 1, 2011, the swap agreement was amended to include the Obligated Group. The 2004 Agreement related to the Series C bonds has a notional value of \$55,400,000, and terminates on February 15, 2034. The 2004 Agreement is a contract to exchange fixed rate for variable rate payments over the term of the swap agreement without the exchange of the underlying notional amount. As such, they require the System to pay a fixed rate while receiving variable interest rates based upon 67% of LIBOR. The fair value of the 2004 Agreement, which is the amount that the System would pay to terminate the 2004 Agreement, was \$15,597,000 at December 31, 2011, and was based upon information supplied by an independent third party valuation specialist to the 2004 Agreement. No termination payments would be required if the 2004 Agreement is held to maturity.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

The System entered into an interest rate swap agreement (the "2005 Agreement") in connection with the 2005 Bonds on January 20, 2005, in order to hedge the cash flows on the auction rate bonds. The 2005 Agreements were transferred to the Series 2008 D bonds when the 2005 bonds were refunded. The 2005 Agreement had an original notional value of \$23,000,000, which reduces with the bond principal. The notional value as of December 31, 2011 and 2010 was \$19,000,000 and \$19,675,000, respectively. This agreement terminates on June 1, 2030. This agreement is a contract to exchange fixed rate for variable rate payments over the term of the 2005 Agreement without the exchange of the underlying notional amount. As such, it requires the System to pay a fixed rate while receiving a variable interest rate of 70% of LIBOR. The fair value of the 2005 Agreement, which is the amount that the System would have to pay to terminate the 2005 Agreement, was \$3,362,000 and \$1,702,000 at December 31, 2011 and 2010, respectively. These values were based upon information supplied by an independent third party valuation specialist to the 2005 Agreement. No termination payments would be required if the 2005 Agreement is held to maturity.

Prior to January 1, 2008, the 2003 Agreements and the 2005 Agreement had been designated as cash flow hedges of variable-rate debt with no hedge ineffectiveness, therefore, changes in the fair value of the swap agreements were recorded as changes in unrestricted net assets. Under the cash flow hedge accounting methodology, the gains or losses recorded as changes in unrestricted net assets were to be reclassified into revenues in excess of expenses upon the sale or termination of the swap agreement.

However, the FASB issued Derivatives Implementation Guidance for accounting for derivatives, which affects the future accounting methodology for cash flow hedges that are not based on a benchmark interest rate. The guidance stipulates that interest rates, which are reset through an auction (remarketing) process, do not qualify as a benchmark rate and therefore the interest rate swap agreement that previously qualified for hedge accounting no longer qualifies. The implementation of this new derivative guidance was applied prospectively and became effective January 1, 2008. At that time, the System began amortizing to income over the remaining term of the swap agreements the accumulated changes in fair value of the interest rate swap agreements recorded at December 31, 2007. Prior to January 1, 2008, changes in fair value of the swap agreements were excluded from revenues in excess of expenses in the accompanying consolidated statement of operations. Changes in the fair value of the swap agreements that occur after December 31, 2007 will be recorded as a component of revenues in excess of expenses in the accompanying consolidated statement of operations.

The unamortized accumulated derivative losses included in unrestricted net assets was \$3,454,000 at December 31, 2011 and \$3,694,000 at December 31, 2010. Amortization of \$240,000 increased the change in fair value of derivative financial instruments in 2011 and 2010.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

The System entered into two interest rate swap agreements (the "2006 Agreements") in connection with the 2006 Bonds on June 20, 2006 and June 21, 2006, in order to hedge the LIBOR component of the interest rate on the auction rate bonds. The 2006 Agreements that related to the refunded 2006 bonds were transferred to the respective 2008 Series bonds. The 2006 Agreement related to the 2008 Series B bonds has a notional value of \$40,875,000, and terminates on June 1, 2041. The 2006 Agreement related to the 2008 Series C bonds has a notional value of \$44,925,000, and terminates on June 1, 2041. The 2006 Agreements are contracts to exchange fixed rate for variable rate payments over the term of the 2006 Agreements without the exchange of the underlying notional amount. As such, they require the System to pay a fixed rate while receiving variable interest rates based upon 70% of LIBOR. The fair value of the 2006 Agreements, which is the amount that the System would pay to terminate the 2006 Agreements, was \$25,200,000 and \$13,900,000 at December 31, 2011 and 2010, respectively, and was based upon information supplied by an independent third party valuation specialist to the 2006 Agreements. No termination payments would be required if the 2006 Agreements are held to maturity. Because hedge accounting was not elected, gains or losses resulting from the change in fair value of the 2006 Agreements are recognized in revenues in excess of expenses.

CCHS entered into an interest rate swap agreement (the "2007 Agreement") in connection with the 2007 Bonds in 2007, in order to manage its interest rate exposure on the variable rate bonds. In conjunction with the affiliation with WVUHS on March 1, 2011, the swap agreement was amended to include the Obligated Group. The 2007 Agreement related to the Series A bonds has a notional value of \$23,975,000, and terminates on February 15, 2034. The 2007 Agreement is a contract to exchange fixed rate for variable rate payments over the term of the swap agreement without the exchange of the underlying notional amount. As such, they require the System to pay a fixed rate while receiving variable interest rates based upon 67% of LIBOR. The fair value of the 2007 Agreement, which is the amount that the System would pay to terminate the 2007 Agreement, was \$6,047,000 at December 31, 2011, and was based upon information supplied by an independent third party valuation specialist to the 2007 Agreement. No termination payments would be required if the 2007 Agreement is held to maturity.

The notional amount of the swap agreements is used to measure the interest to be paid or received and does not represent the amount of exposure to credit loss. Exposure to credit loss is limited to the receivable amount, if any, which may be generated as a result of the swap agreements. Management believes that losses related to credit risk are remote. The net cash paid or received under all of the swap agreements is recognized as an adjustment to interest expense. The System does not utilize interest rate swap agreements or other financial instruments for trading or other speculative purposes.

	<u> </u>	<u> </u>
Total	<u>\$ 8,113</u>	<u>\$ 7,598</u>

The System released \$890,000 in 2011 and \$8,828,000 in 2010 of temporarily restricted net assets since the donors' restrictions to provide certain services and to purchase certain property and equipment had been met

Permanently Restricted Net Assets

Permanently restricted net assets consist of the System's beneficial interest in several perpetual trusts held by banks serving as trustee and endowment funds. The terms of the trusts are such that the System receives a portion of the income earned on the trust assets as earned in perpetuity. Trust assets consist primarily of cash and cash equivalents, certificates of deposit, U S government and agency obligations, marketable debt and equity securities, and mutual funds. The assets are recorded at their fair value as of December 31, 2011 and 2010 as follows

	<u>2011</u>	<u>2010</u>
	<u>(In Thousands)</u>	
Permanent endowment funds, the income from which is expendable to support various healthcare services and purchase property and equipment	\$ 609	\$ 489

14. Operating Leases

The System leases certain equipment and office buildings under the terms of noncancellable operating leases expiring on various dates through 2019. The schedule of future minimum lease payments under these operating leases as of December 31, 2011 is as follows (in thousands):

Years ending December 31	
2012	\$ 6,018
2013	4,480
2014	4,189
2015	4,008
2016	3,548
Thereafter	<u>1,841</u>
Total	<u>\$ 24,084</u>

Rental expense on the above leases was \$5,623,000 in 2011 and \$4,615,000 in 2010.

15. Medical Malpractice Claims Coverage

The System entities maintain various self-insurance programs for medical malpractice insurance and general liability insurance. These programs require the System entities to deposit funds either into trust funds or other investment accounts, based upon actuarial calculations, sufficient to cover estimated claims.

The System entities operate four separate self-insurance programs. These cover WVUH, UHC and its subsidiaries plus UPC, WVUH-East, and CCMC respectively. Medical malpractice and general liability claims are managed by WVUHS and System entity's legal staff. WVUHS and the System entity's legal staff utilize specialized experts and outside attorneys where such expertise is considered needed.

The self-insurance programs for all four are funded on an occurrence basis and include coverage for both hospital, with the exception of CCMC, and employed physician general and professional liability. In certain cases, specific prior acts periods are included where operating units had claims-made coverage for all or some portion of their exposures at earlier points.

WVUHS maintains a master excess coverage on a claims-made basis with a prior acts date of August 1, 2007 that provides limits of eighty percent of \$20 million of limit per claim on a shared limit basis, with an attachment point of \$15 million any one claim and \$30 million in the annual aggregate. This coverage applies to WVUH, UHC and its subsidiaries and WVUH-East only. The WVUHS master excess policy is with a mutual insurance company and includes a shared savings account. The shared savings account is used to buffer results volatility and is returnable in whole or part to an insured several years after they leave the mutual insurance company. WVUHS' current shared savings account balance is \$424,000. WVUHS has elected not to record this contingent account balance as an asset.

West Virginia United Health System, Inc. and Controlled Entities

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

The self-insurance program for CCMC is also funded on an occurrence basis. CCMC maintains a separate excess coverage on a claims-made basis with a limit of \$10 million and an attachment of \$1 million for general liability and \$5 million for professional liability with prior acts coverage for certain periods of time at varying policy limits and at attachment points that generally increase over time. CCPC maintains separate professional liability coverage for its employed physicians on a claims-made basis with individual limits of liability of \$1 million per claim and \$3 million annual aggregate.

The System's estimated future payments of its asserted and unasserted general and medical malpractice claims liabilities under their self-insurance programs were \$47,764,000 and \$40,590,000 at December 31, 2011 and 2010, respectively. These estimates are based upon actuarially determined estimates of the ultimate costs for known reported claims and claims incurred but not reported under the self-insurance programs. The discount rate used in determining the liabilities was 4% at December 31, 2011 and 4.75% at December 31, 2010.

The System believes it has adequate self-insurance and insurance coverages and accruals for all asserted claims and it has no knowledge of unasserted claims which would exceed its self-insurance and insurance coverages and accruals.

16. Workers' Compensation Claims Coverage

Effective July 1, 2008, WVUHS changed from individual workers' compensation policies with "first dollar" coverage to a master policy with a stated per occurrence deductible and a stated deductible aggregate per the following:

<u>Policy Year Begins</u>	<u>Insurer</u>	<u>Claim Deductible</u>	<u>Aggregate Deductible</u>
	WV Mutual		
July 2007	(Brick Street)	\$250,000	\$4.5 million
July 2008	AIG Chartis	\$500,000	\$4.5 million
July 2009	AIG Chartis	\$1 million	\$5.0 million
July 2010	AIG Chartis	\$1 million	\$6.0 million
July 2011	AIG Chartis	\$1 million	\$6.0 million

The policies provide statutory workers' compensation limits of liability.

WVUHS was required to establish a loss fund with both insurers and to provide a letter of credit to secure the deductible obligation. The two letters of credit total \$4,231,000 and are automatically renewed by the bank every July 1st unless notified 90 days prior to the renewal date. The letter of credit amount for the 2007-08 Brick Street policy year has been reduced once in amount and is expected to be subject to further reductions as the number of claims remaining open for that year declines.

The loss fund is drawn on by the insurer and replenished by WVUHS on request by the insurer with a guideline that the fund shall have a balance of approximately 2 ½ months of average claims payments. The System's estimated payments of workers' compensation claims liability, included in accounts payable and accrued expenses in the consolidated balance sheet, was \$2,548,000 and \$2,191,000 at December 31, 2011 and 2010, respectively.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

17. Health Insurance Benefits

The System self-insures its employee health insurance coverages under arrangement using contract administrators. The System accrues the estimated costs of incurred and reported and incurred but not reported claims, after consideration of its individual and aggregate stop-loss insurance coverages, based upon data provided by the third-party administrators of the programs and its historical claims experience.

18. Related-Party Transactions

WVUH has an agreement with the University to provide a minimum of \$4,000,000 per year in educational expenses for the University's interns and residents and an annual clinical teaching subsidy of not less than \$6,000,000. WVUH also pays the University for other expenses such as state employee salaries, certain utilities, and rents. Total payments, including intern and resident costs made to the University, included in supplies and purchase services in the consolidated statement of operations, were \$50,659,000 in 2011 and \$51,241,000 in 2010.

During 2010, WVUH entered into a Joint Operating Agreement (the "Agreement") with West Virginia University Medical Corporation d/b/a University Health Associates ("UHA") and the University in order to further integrate their mission and purpose, management, clinical activities, and economic and financial activities. WVUH and UHA will function as a single strategic and economic unit to be known as WVU Healthcare, while retaining their separate corporate identities. For the twelve months beginning July 1, 2010, the Agreement required a pro rata allocation of the variance between the operating margin and the budgeted operating margin between UHA and WVUH. In subsequent years, the Agreement requires equalization of the operating margin. The allocations resulted in payments to UHA of \$15,026,000 in 2011 and \$675,000 in 2010, included in supplies and purchase services in the consolidated statement of operations. The total payable to UHA, included in accounts payable and accrued expenses in the consolidated balance sheet, was \$4,045,000 and \$675,000 at December 31, 2011 and 2010, respectively. The Agreement requires a transfer of 50% of the excess operating margin of WVU Healthcare between 2.5% and 3% and 100% of the excess operating margin greater than 3% to the University's School of Medicine. The transfer from WVUH to the University's School of Medicine was \$7,708,000 in 2011 and \$4,544,000 in 2010. The total payable to the School of Medicine was \$3,948,000 and \$4,544,000 at December 31, 2011 and 2010, respectively.

WVUH performs certain information technology and other services on behalf of UHA. These services amounted to \$4,377,000 in 2011 and \$4,432,000 in 2010. Included in other receivables is \$744,000 and \$681,000 at December 31, 2011 and 2010, respectively, related to these services.

UHA provides various medical director services and other medical service support to WVUH, WVUH – East, CHI, JMH, and WES. The total expenses for these services, included in supplies and purchased services in the consolidated statement of operations, were \$22,616,000 in 2011 and \$31,821,000 in 2010. UHA also rents space from JMH and WES. Rental income from UHA, included in the other revenues in the consolidated statement of operations, was \$50,000 in 2011 and \$85,000 in 2010. The total payable, included in accounts payable and accrued expenses in the consolidated balance sheet, at December 31, 2011 and 2010 was \$1,064,000 and \$996,000, respectively.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

WVUH, Charleston Area Medical Center, and Cabell Huntington Hospital are members of HealthNet, Inc. ("HNET"), an aeromedical transport service company. Each member's ownership percentage is 33 1/3%. HNET is a West Virginia nonprofit corporation, which the Internal Revenue Service has determined is recognized as exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. HNET's members are required to support HNET to the extent that expenses exceed revenues. HNET revenues exceeded expenses by \$2,966,000 in 2011 and \$462,000 in 2010. The excess is distributed to its members during the following fiscal year. WVUH received distributions of \$4,000 in 2011 and \$218,000 in 2010. HNET also reimbursed WVUH for operating expenses incurred on its behalf amounting to \$4,969,000 in 2011 and \$6,222,000 in 2010.

19. Concentration of Credit Risk

The System grants credit without collateral to its patients, most of who are local residents and are insured under third-party payor agreements, primarily with Medicare, Medicaid, and various commercial insurance companies. The System maintains allowances for potential credit losses and such losses have historically been within management's expectations.

The mix of receivables at December 31, 2011 and 2010 from patients and third-party payors is as follows:

	<u>2011</u>	<u>2010</u>
Medicare	26 %	21 %
Medicaid	9	8
Blue Cross	15	20
Commercial/HMO/Other	33	33
Patients	<u>17</u>	<u>18</u>
Total	<u>100 %</u>	<u>100 %</u>

The System typically maintains cash and cash equivalents in local banks. Cash and cash equivalents on deposit in each local bank are insured up to \$250,000 on interest bearing accounts. The System maintained deposits in excess of this coverage at December 31, 2011 and 2010.

20. Commitments and Contingencies

Commitments

On April 1, 1988, WVUH and UHA, which owns and operates the Physician Office Center (the "Facility"), adjacent to WVUH's facilities, entered into an Operating Credit Agreement (the "Agreement"). To finance the Facility, the West Virginia Hospital Finance Authority has issued \$23,500,000 of tax-exempt Hospital Revenue Bonds (the "Bonds"). The Agreement requires WVUH "to loan or otherwise make funds available to UHA to the extent that the revenues of UHA are not sufficient to pay the operating expenses thereof during the period following completion of the Facility until the payment of the bonds in full." To date, WVUH has not been required to advance any funds on behalf of UHA relating to the Agreement. The outstanding balance of the Bonds at December 31, 2011 was \$8,815,000.

WVUH has commitments for the additional purchase of ownership in limited partnerships of \$36,782,000 at December 31, 2011 over the next ten years.

CHI has approved hospital renovations and purchase of new equipment during 2009. The expected cost of the renovations and equipment is \$33,737,000. At December 31, 2011, \$24,700,000 of this amount has been paid out and CHI is committed for \$9,037,000.

CCMC has license agreements through 2020 for a new healthcare information system. The expected cost of the information system is \$26,410,000. At December 31, 2011, \$9,900,000 has been paid and CCMC is committed for \$16,510,000.

Healthcare Industry

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations is subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. Government activity continues to increase with respect to investigations and allegations concerning possible violations by healthcare providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties as well as significant repayments for patient services previously billed. Management is not aware of any material incidents of noncompliance that have not been provided for in the accompanying consolidated financial statements, however, the possible future financial effects of this matter on the System, if any, are not presently determinable.

Asbestos

Certain of the System's buildings, which were constructed prior to the passage of the Clean Air Act, contain encapsulated asbestos material. Current law requires that this asbestos be removed in an environmentally safe fashion prior to the demolition and renovation of these buildings. At this time, the System has plans to dispose of a facility which contains this asbestos material, however the fair value of the liability for such asbestos removal is not a material amount and has not been recognized in the accompanying consolidated financial statements. The fair value of the liability for such asbestos removal related to the other facilities (those which the System does not have plans to dispose or renovate) cannot be reasonably estimated at this time. Once these plans are finalized and information becomes available to estimate such a liability, it will be recognized at that time.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

Disproportionate Share Hospital State Plan

The State of West Virginia Disproportionate Share Hospital State Plan was amended to provide for a settlement process among participating hospitals. The state has not completed a settlement process for the years subsequent to 1996. The Bureau for Medical Services of the State of West Virginia Department of Health and Human Resources has contracted with a third-party vendor to assist with the audit settlement process for the Disproportionate Share Hospital ("DSH") State Plan. The laws and regulations governing the DSH settlement process are complex, involving statistical data from all participating hospitals, and subject to interpretation. Accordingly, the System is not able to estimate the possible loss or gain that could arise upon completion of the DSH settlement process. The results of the resolution of the settlement process could materially impact the System's future results of operations or cash flows in a particular period.

21. Functional Expenses

The System provides general acute care and related services to individuals within its geographic region. Expenses related to providing these services in 2011 and 2010 are as follows:

	<u>2011</u>	<u>2010</u>
	<u>(In Thousands)</u>	
Healthcare and other related services	\$ 1,020,977	\$ 809,641

Independent Auditors' Report on Supplementary Information

Board of Directors
West Virginia United Health System, Inc

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information presented on pages 41 through 48 is presented for purposes of additional analysis rather than to present the financial position, results of operations, and cash flows of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.
