(Code) (Expenses \$ 311,316 including grants of \$ 311,316) (Revenue \$)

Clinical Trials Operating Grant See Schedule O Expenses \$311,316, including Grants of \$311,316 TCSC Foundation provides an operating grant to the Thompson Cancer Survival Center ("TCSC" or "Thompson") for its Clinical Trials program Without the support of the TCSC Foundation, there would be no TCSC Clinical Trials program, and TCSC could not offer the valuable, often life changing, treatment opportunities to the patients which it has the privilege of serving Mission and Priorities The program's primary mission is to promote access to cancer trials to Covenant Health System constituents in an effort to conquer cancer through clinical research Clinical trials are an essential means of discovering more effective and safer treatments for cancer patients Involvement in trials offers an improved means of health strategies for individuals at risk for certain cancers, as well as access to proven standard cancer treatments and new, developing cutting edge therapies for those diagnosed with cancer Today's clinical trials are tomorrow's standard of cancer care The Clinical Trials Department's priority is to become the leader in oncology research in the community This will be achieved through the following measures 1) by increasing access to clinical trials for patients in East Tennessee and the region through the provision of staff support to regional TCSC facilities, 2) by facilitating improved physician participation throughout all Thompson locations, 3) by increasing the number of available trials, 4) by increasing marketing efforts to promote clinical trials, 5) by opening additional satellite sites to clinical trials participation, and 6) by increasing screening efforts and tumor board conference attendance for all TCSC locations The TCSC Clinical Trials program seeks to best serve patients in the community and contribute to the success of Thompson Cancer Survival Center and the Covenant Health system as a whole by staying true to the Thompson mission to " lead to the cure through world class services focused on wellness, patient care and the celebration of survival," of which the TCSC clinical trials program is deeply routed Doing so will increase referrals locally and regionally, and give current patients the ability to be treated with state-of-the-art care in their own community, not hundreds of miles from home in unfamiliar surroundings - away from their families and support systems Research Operations Staffing The Clinical Trials Department enjoys the support of the TCSC Foundation in providing clinical research coordination and fulfillment of regulatory compliance through the following staff efforts * Manager * Clinical Research Nurse Coordinators * Clinical Research Associate * Regulatory Research Specialist Current Status of TCSC's Clinical Trials Program * 25 open trials * 42 active treatment patients * 349 patients in follow-up In 2011, TCSC Clinical Trials Department screened 1,185 patients for clinical trials participation and enrolled 29 patients in oncology clinical trials Increased efforts have been made to attend Methodist Medical Center, Blount, Sevier and Parkwest tumor board meetings To help with screening efforts, Research Nurse Coordinators have been assigned to specific physician schedules for screening and to specific locations for coverage, including TCSC's Oak Ridge, Sevierville, West, and Blount sites The department added the TCSC Sevierville satellite location to clinical trials participation in 2011, and has plans to open up additional satellite locations in Lenoir City, Morristown, Rockwood, and Crossville in the near future Doing so will require funding, physician and staffing support Specifically, staffing support will allow for increased regulatory efficiency (which will enable the department the ability to process, open and manage an increased number of new clinical trial studies) and satellite research coordinator presence Increasing physical nursing presence and support at satellite locations not only helps in a thorough review of a potential research patient's chart, but also allows for the research nurse to be available in real time to both the patient and physician to review consent and answer any protocol specific questions the physician may have prior to or during the patient's appointment If the patient is interested in study participation, the research nurse is immediately available When a nurse is available to answer the patient and physician questions, there is a higher probability that the patient will feel lead to participate in research Also during the 2011 time period, the department received initial IRB approval on 7 new cooperative group oncology studies and 4 new industry trial oncology studies Opening new studies increases referrals locally and regionally and gives current patients the ability to be treated with state-of-the-art care in their own community The capability to open new studies allows for the opportunity to fulfill the department's mission of promoting access to cancer prevention and treatment trials to Covenant Health System constituents in an effort to conquer cancer through clinical research Involvement in prevention and treatment trials offers an improved means of health strategies for individuals at risk for certain cancers, as well as access to proven standard cancer treatments and new, developing cutting edge therapies for those diagnosed with cancer Future Plans The Clinical Trials program is at the center of the mission of Thompson Cancer Survival Center A Comprehensive Cancer Program cannot be accomplished without a research program Going forward plans are * To continue to make available research participation to all TCSC satellite locations and open new trials which offer additional treatment options to all of Covenant Health constituents * To evaluate the program's menu of trials and identify gaps in disease sites and stages for which it does not have trial options Currently, there are many opportunities for improvement for closing these gaps * To move forward with an expansion plan for the department A solid base is being constructed, with the TCSC Foundation as the corner stone, to help meet the department's needs for program success

Covenant Health, the parent company of the organization, distributes a board approved employee handbook to all employees. The handbook covers among other subjects, conflicts of interest. Additionally, managers are required to complete and sign an annual management certification that addresses conflicts of interest. Board members' conflicts of interests are dealt with in the corporate bylaws and board members are required to complete and sign a conflict of interest questionnaire on an annual basis. The Integrity Compliance Office of the parent company maintains records that contain conflict of interest information obtained from board members, officers and employees. These records are available to be queried prior to engaging in business transactions. The Integrity Compliance Officer initially reviews all conflict of interest data. Based on this information, the officer determines what conflicts of interest exist at that point in time. Between times when surveys are collected board members are expected to disclose any new conflicts that have arisen that affect pending board decisions. As well, managers and other employees are expected to report conflicts to the Integrity Compliance Officer as they arise. Depending on the nature of the conflict and the circumstances surrounding the conflict and transaction, the Integrity Compliance Officer, Senior Leadership, or the Board of Directors may review the conflict of interest. Where appropriate these bodies may also consult legal counsel. Restrictions imposed on persons with a conflict of interest are determined on a case by case basis. For Covenant Health employees, the Integrity Compliance Officer, in consultation with Senior Leadership at the facility and if necessary executive leadership at Covenant Health determines how to appropriately handle the conflict. Any conflicted board member is expected to excuse himself or herself from voting on matters that give rise to the conflict.
