| Description of How Organization Reports Conservation Easements | Part II, Line 9  | The filing organization has recorded the land conservation easement on its financial statements as a Property, Plant, and Equipment Asset. The conservation easement generates no revenue and the filing organization did not incur any expense in 2011 related to the maintenance and monitoring of the conservation easement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Description of Intended Use of Endowment Funds                 | Part V, Line 4   | All endowment funds are held by related 501(c)(3) exempt foundations. These endowment funds have been established for a variety of purposes in support of related tax-exempt hospitals. All of the foundation's permanently restricted endowment funds are required to be retained permanently either by explicit donor stipulation or by the Florida Uniform Management of Institutional Funds Act. Part V, line 1a, column (b) Prior year - Explanation for change in opening balance: During the year 2009, management of a related Foundation determined that there were temporarily restricted net assets that should have been classified as unrestricted board-designated endowment funds as of December 31, 2008. This included \$11,203,949 of board-designated endowments that should have been released from restriction in fiscal year 2008 or an earlier period. As a result, the related Foundation restated beginning board-designated endowment funds on the statement of activities in its 2009 tax year. |
| Description of Uncertain Tax Positions Under FIN 48            | Part X           | The filing organization is a subsidiary organization within Adventist Health System (AHS). The consolidated financial statements of AHS contain the following FIN 48 footnote - The Income Taxes Topic of the ASC (ASC 740) prescribes the accounting for uncertainty in income tax positions recognized in financial statements. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|            |                 | Part II The costs of community building activities reported on Part II of Schedule H primarily represent the costs associated with commercially sponsored research conducted by three of the organization's hospitals. These three hospitals participate in clinical drug and device research that is performed on patients who have a condition or disease for which the eventual commercial use of a drug or device is intended. This research is related to patient care and serves to expand scientific knowledge with respect to potential treatments and cures for various diseases and conditions. The remainder of the costs incurred stem from the hospitals' involvement in and support of various other community agencies in its service area that work collaboratively to help those in need and to improve the health and safety of the residents of the community. The organization's hospitals participate with a number of other community organizations to address the healthcare needs of the community. Both cash and in-kind donations are made annually to various local charitable organizations. |

|            |                 | <p>Part III, Line 4 Bad Debt Expense The amount of bad debt expense, reported on line 2 of Section A of Part III is recorded in accordance with Healthcare Financial Management Association Statement No. 15. Discounts and payments on patient accounts are recorded as adjustments to revenue, not bad debt expense. Methodology for Determining the Estimated Amount of Bad Debt Expense that May Represent Patients who Could Have Qualified under the Filing Organization's Charity Care Policy Self-pay patients are required to complete a Patient Financial Assistance Application Short Form (PFAA). If the PFAA is not completed after reasonable attempts to obtain it are exhausted, patient information is processed through a Scorer product. The Scorer product utilizes publicly available data, such as credit reports, to assess an individual patient's financial viability. Patients who earn a certain score on the Scorer product are considered to qualify as non-state charity patients. An amount up to \$1,000 of such a patient's bill is written off as bad debt expense, while the remaining portion of the patient's bill is considered to be non-state charity. The amount written off as bad debt expense for those patients who potentially qualify as non-state charity using the Scorer product is the amount shown on line 3 of Section A of Part III.</p> <p>Rationale for Including Certain Bad Debts in Community Benefit The filing organization is dedicated to the view that medically necessary health care for emergency and non-elective patients should be accessible to all, regardless of age, gender, geographic location, cultural background, physician mobility, or ability to pay. The filing organization treats emergency and non-elective patients regardless of their ability to pay or the availability of third-party coverage. By providing health care to all who require emergency or non-elective care in a non-discriminatory manner, the filing organization is providing health care to the broad community it serves. As a 501(c)(3) hospital organization, the filing organization maintains a 24/7 emergency room providing care to all whom present. When a patient's arrival and/or admission to the facility begins within the Emergency Department, triage and medical screening are always completed prior to registration staff proceeding with the determination of a patient's source of payment. If the patient requires admission and continued non-elective care, the filing organization provides the necessary care regardless of the patient's ability to pay. The filing organization's operation of a 24/7 Emergency Department that accepts all individuals in need of care promotes the health of the community through the provision of care to all whom present. Current Internal Revenue Service guidance that tax-exempt hospitals maintain such emergency rooms was established to ensure that emergency care would be provided to all without discrimination. The treatment of all at the filing organization's Emergency Department is a community benefit. Under the filing organization's Charity Care Policy, every effort is made to obtain a patient's necessary financial information to determine eligibility for charity care. However, not all patients will cooperate with such efforts and a charity care eligibility determination can not be made. In this case, a patient's portion of a bill that remains unpaid for a certain stipulated time period is wholly or partially classified as bad debt. Bad debts associated with patients who have received care through the filing organization's Emergency Department should be considered to be community benefit as charitable hospitals exist to provide such care in pursuit of the purpose of meeting the need for emergency medical care services available to all in the community.</p> <p>Financial Statement Footnote Related to Accounts Receivable and Allowance for Uncollectible Accounts The financial information of the filing organization is included in a consolidated audited financial statement for the current year. The applicable footnote from the consolidated audited financial statements that addresses accounts receivable, the allowance for uncollectible accounts, and the provision for bad debts is as follows: Please note that dollar amounts are in thousands. The Division's patient acceptance policy is based on its mission to improve and enhance local communities that it serves in harmony with Christ's healing ministry and its charitable purposes. Accordingly, the Division accepts patients in immediate need of care, regardless of their ability to pay. The Division serves certain patients whose medical care costs are not paid at established rates. These patients include those sponsored under government programs such as Medicare and Medicaid, those sponsored under private contractual agreements, charity patients and other uninsured patients who have limited ability to pay. A patient is classified as a charity patient based on the established policies of the Division, which</p> |

|            |                 | require that the patient provide certain information to qualify for charity. Patients that qualify for charity are provided services for which no payment is due for all or a portion of the patient's bill from either the patient or other third parties. For financial reporting purposes, charity care is excluded from patient service revenue. For all other patients, patient service revenue is reported at estimated net realizable amounts for services rendered. The Division recognizes patient service revenue associated with patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, revenue is recognized on the basis of discounted rates in accordance with the Division's policy. Patient service revenue is reduced by the provision for bad debts and accounts receivable are reduced by an allowance for uncollectible accounts. These amounts are based on management's assessment of historical and expected net collections for each major payor source, considering business and economic conditions, trends in healthcare coverage and other collection indicators. Management regularly reviews collections data by major payor sources in evaluating the sufficiency of the allowance for uncollectible accounts. On the basis of historical experience, a significant portion of the Division's self-pay patients will be unable or unwilling to pay for the services provided. Thus, the Division records a significant provision for bad debts in the period services are provided related to self-pay patients. The Division's allowance for uncollectible accounts for self-pay patients was 97% of self-pay accounts receivable as of December 31, 2011. For receivables associated with patients who have third-party coverage, the Division analyzes contractually due amounts and provides an allowance for uncollectible accounts and a provision for bad debts, if necessary. Accounts receivable are written off after collection efforts have been followed in accordance with the Division's policies. Patient service revenue is not recognized for those patients that qualify for charity under the Division's policies. For all other patients, patient service revenue, net of contractual allowances and self-pay discounts and before the provision for bad debts, is recognized from major payor sources for the year ended December 31, 2011, is as follows: Third-party payors, net of contractual allowances \$3,724,724 Self-pay patients, net of discounts 94,729 ----- \$3,819,453 The Division changed its uninsured discount policy, effective January 1, 2011, as required by the Patient Protection and Affordable Care Act (Act). The Act has resulted in an increase in self-pay discounts, which are a reduction of patient service revenue, and a corresponding decrease in self-pay write-offs that are included in the provision for bad debts. Overall, the total of self-pay discounts and write-offs has not changed significantly for the year ended December 31, 2011. The Division has not experienced significant changes in write-off trends and has not changed its charity care policy for the year ended December 31, 2011. The Division has determined, based on an assessment at the reporting-entity level, that patient service revenue is primarily recorded prior to assessing the patient's ability to pay and as such, the entire provision for bad debts is recorded as a deduction from patient service revenue in the accompanying combined statements of operations and changes in net assets. *** see continuation of footnote |

|            |                 | <p>Part III, Line 8 Costing Methodology Medicare allowable costs were calculated using a cost-to-charge ratio Rationale for Including a Medicare Shortfall as Community Benefit As a 501 (c)(3) organization, the filing organization provides emergency and non-elective care to all regardless of ability to pay All hospital services are provided in a non-discriminatory manner to patients who are covered beneficiaries under the Medicare program As a public insurance program, Medicare provides a pre-established reimbursement rate/amount to health care providers for the services they provide to patients In some cases, the reimbursement amount provided to a hospital may exceed its costs of providing a particular service or services to a patient In other cases, the Medicare reimbursement amount may result in the hospital experiencing a shortfall of reimbursement received over costs incurred In those cases where an overall shortfall is generated for providing services to all Medicare patients, the shortfall amount should be considered as a benefit to the community Tax-exempt hospitals are required to accept all Medicare patients regardless of the profitability, or lack thereof, with respect to the services they provide to Medicare patients The population of individuals covered under the Medicare program is sufficiently large so that the provision of services to the population is a benefit to the community and relieves the burdens of government In those situations where the provision of services to the total Medicare patient population of a tax-exempt hospital during any year results in a shortfall of reimbursement received over the cost of providing care, the tax-exempt hospital has provided a benefit to a class of persons broad enough to be considered a benefit to the community Despite a financial shortfall, a tax-exempt hospital must and will continue to accept and care for Medicare patients Typically, tax-exempt hospitals provide health care services based upon an assessment of the health care needs of their community as opposed to their taxable counterparts where profitability often drives decisions about patient care services that are offered Patient care provided by tax-exempt hospitals that results in Medicare shortfalls should be considered as providing a benefit to the community and relieving the burdens of government</p> |

|            |                 | Part III, Line 9b SCHEDULE H, PART IIISECTION C, LINE 9bCollection Policies At the time of patient registration, non-elective self-pay patients are informed of the minimum discount available under the filing organization's self-pay discount policy Such patients are also informed of the filing organization's charity care policy and told that they will be required to submit necessary financial data in order to potentially receive any additional discounts Under the filing organization's financial assistance policy, percentage discounts are applied to a patient's account based upon amounts generally billed to individuals who have insurance covering such care Under the filing organization's policies, payment plans for partial charity accounts will be individually developed with the patient Partial charity accounts result when a financial assistance eligibility determination allows for a percentage reduction but leaves the patient with a self-pay balance If the patient complies with the agreed-upon payment plan, the filing organization does not pursue any collection action with respect to the patient However, if a patient does not make any payments for three consecutive months, the account may be referred for further collection activity The filing organization does not pursue collection of amounts from patients determined to qualify for a 100% reduction in charges under its charity care policy |

|            | Part III, Line 4 Continuation of Footnote | Revenue from the Medicare and Medicaid programs represents approximately 36% of the Division's patient service revenue for the year ended December 31, 2011. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Other than the accounts receivable related to the Medicare and Medicaid programs, there are no significant concentrations of accounts receivable due from an individual payor at December 31, 2011. The Division is subject to retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations. Adjustments to revenue related to prior periods increased patient service revenue by approximately \$30,500 for the year ended December 31, 2011. |

|            |                 | <p>Part VI, Line 6 The filing organization is a part of a faith-based healthcare system of organizations whose parent is Adventist Health System Sunbelt Healthcare Corporation (AHSSHC) The system is known as Adventist Health System (AHS) AHSSHC is an organization exempt from federal income tax under IRC Sec 501(c)(3) AHSSHC and its subsidiary organizations operate 42 hospitals in 10 states throughout the U S , primarily in the Southeastern portion of the U S AHSSHC and its subsidiaries also operate 16 nursing home facilities and other ancillary health care provider facilities, such as ambulatory surgery centers and diagnostic imaging centers As the parent organization of the AHS system, AHSSHC provides executive leadership and other professional support services to its subsidiary organizations Professional support services include among others corporate compliance, legal, human resources, reimbursement, risk management, and tax as well as treasury functions The provision of these executive and support services on a centralized basis by AHSSHC provides an appropriate balance between providing each AHS subsidiary hospital organization with mission-driven consistent leadership and support while allowing the hospital organization to focus its resources on meeting the specific health care needs of the communities it serves The reader of this Form 990 should keep in mind that this reporting entity may differ in certain areas from that of a stand-alone hospital organization due to its inclusion in a larger system of healthcare organizations As a part of a system of hospital and other health care organizations, the filing organization benefits from reduced costs due to system efficiencies, such as large group purchasing discounts, and the availability of internal resources such as internal legal counsel Each AHS subsidiary pays a management fee to AHSSHC for the internal services provided by AHSSHC As a result, management fee expense reported by a AHS subsidiary organization may appear greater in relation to management fee expense that may be reported by a single stand-alone hospital The single stand-alone hospital would likely report costs associated with management and other professional services on various expense line items in its statement of revenue and expense as opposed to reporting such costs in one overall management fee expense As the reporting of the Form 990 is done on an entity by entity basis, there is no single Form 990 that captures the programs and operations of AHS as a whole The reader is directed to visit the web-site of AHS at <a href="http://www.adventisthealthsystem.com">www.adventisthealthsystem.com</a> to learn more about the mission and operations of AHS and to access AHS's annual report that contains financial data as well as community benefit reporting for the entire system</p> |

|                          | Part I, Line 1a  | As discussed in our response to Section B, Part VI, Question 15a & b, the filing organization is a part of the system of healthcare organizations known as Adventist Health System (AHS). Members of the filing organization's executive management team that hold the position of Vice-President or above are compensated by and on the payroll of Adventist Health System Sunbelt Healthcare Corporation (AHSSHC), the parent organization of AHS. AHSSHC is exempt from federal income tax under IRC Section 501(c)(3). The filing organization reimburses AHSSHC for the salary and benefit cost of those executives on the payroll of AHSSHC that provide services and are on the management team of the filing organization. Travel for companions. AHSSHC has a Corporate Executive Policy that provides a benefit to allow for a traveling AHSSHC executive to have his or her spouse accompany the executive on two business trips each year. Typically, reimbursement is only provided to Vice Presidents and above and is limited to one business trip per year and the annual AHS President's Council business meeting. The AHSSHC Corporate Executive Spousal Travel Policy was originally approved and reviewed by the AHSSHC Board Strategy & Compensation Committee, an independent body of the AHSSHC Board of Directors. All spousal travel costs reimbursed to the executive are considered taxable compensation to the executive. Tax Indemnification and gross-up payments. AHS has a system-wide policy addressing gross-up payments provided in connection with employer-provided benefits/other taxable items. Under the policy, certain taxable business-related reimbursements (i.e., taxable business-related moving expenses, taxable items provided in connection with employment) provided to any employee may be grossed-up at a 25% rate upon approval of the filing organization's CEO and CFO. Additionally, employees at the Director level and above are eligible for gross-up payments on gifts received for board of director services. Discretionary spending account. A nominal discretionary spending amount was provided in the current year to all eligible executives who attend the annual AHS President's Council business meeting (\$500 per executive). Eligible executives include all AHSSHC Vice Presidents and above and all AHSSHC subsidiary organization CEOs and Regional CFOs. The payment provided to each executive was considered taxable compensation to the executive. Housing allowance or residence for personal use. AHSSHC has a Corporate Executive Policy that addresses assistance to executives who have been relocated by the company during the year. Relocation assistance provided to executives may include relocation allowances to assist with duplicate housing expenses. Relocation assistance is administered per AHSSHC policy by an external relocation company. Any taxable reimbursements made to executives in connection with relocation assistance are treated as wages to the executive and are subject to all payroll withholding and reporting requirements. Health or social club dues or initiation fees. AHSSHC has a Corporate Executive Policy that addresses business development expenditures. Under this policy, certain AHS eligible executives may be reimbursed for member dues and usage charges for a country club or other social club upon authorization. Club memberships must be recommended by the CEO of the AHS hospital organization and approved by the Chairman of the Board of Directors of the organization. In addition, the proposed membership must be approved annually by the AHSSHC Board Strategy & Compensation Committee, an independent committee of the Board of Directors of AHSSHC. Eligible executives are limited to certain senior level executives (hospital organization CEOs, the CEO of the nursing home division of AHS, senior vice presidents at three large hospital organizations, regional CEOs and CFOs and the president and senior vice presidents of AHSSHC). In the current year, for this filing organization, two executives were eligible to receive reimbursement for club fees. Each AHS executive who is approved for a club membership must submit an annual report to the AHSSHC Board Strategy & Compensation Committee that describes how the membership benefited their organization during the preceding year.                                                                                                                                                                                                                    |
|                          | Part I, Line 4b  | As discussed in Line 1a above, executives on the filing organization's management team that hold the position of Vice-President or above are compensated by and on the payroll of Adventist Health System Sunbelt Healthcare Corporation (AHSSHC), the parent organization of a healthcare system known as Adventist Health System (AHS). In recognition of the contribution that each executive makes to the success of AHS, AHS provides to eligible executives participation in the AHS Executive FLEX Benefit Program (the Plan). The purpose of the Plan is to offer eligible executives an opportunity to elect from among a variety of supplemental benefits, including deferred compensation benefits taxable under Internal Revenue Code (IRC) Section 457(f), to individually tailor a benefits program appropriate to each executive's needs. The Plan provides eligible participants a pre-determined benefits allowance credit that is equal to a percentage of the executive's base pay from which is deducted the cost of mandatory and elective employee benefits. The pre-determined benefits allowance credit percentage is approved by the AHS Board Strategy & Compensation Committee, an independent committee of the Board of Directors of AHSSHC. Any funds that remain after the cost of mandatory and elective benefits are subtracted from the annual pre-determined benefits allowance are contributed, at the employee's option, to either an IRC 457(f) deferred compensation account or to an IRC 457(b) eligible deferred compensation plan. Upon attainment of age 65, all previous 457(f) deferred amounts are paid immediately to the participant and any future employer contributions are made quarterly from the Plan directly to the participant. The Plan documents define an employee who is eligible to participate in the Plan to generally include the Chief Executive Officers of AHS entities and Vice Presidents of all AHS entities whose base salary is at least \$204,000. The Plan provides for a class year vesting schedule (2 years for each class year) with respect to amounts accumulated in the executive's 457(f) deferred compensation account. Distributions could also be made from the executive's 457(f) deferred compensation account upon attainment of age 65 or upon an involuntary separation. The account is forfeited by the executive upon a voluntary separation. In addition to the Plan, AHS has instituted a defined benefit, non-tax-qualified deferred compensation plan for certain executives who have provided lengthy service to AHS and/or to other Seventh-Day Adventist Church hospital or health care institutions. Participation in the plan is offered to AHS executives on a prorata schedule beginning with 20 years of service as an employee of AHS and/or another hospital or health care institution controlled by the Seventh-Day Adventist Church and who satisfy certain other qualifying criteria. This supplemental executive retirement plan (SERP) was designed to provide eligible executives with the economic equivalent of an annual income beginning at normal retirement age equal to 60% of the average of the participant's three highest years of base salary from AHS active employment inclusive of income from all other Seventh-Day Adventist Church healthcare employer-financed retirement income sources and investment income earned on those contributions through social security normal retirement age as defined in the plan. |                          | Part I, Line 6   | The filing organization's physician compensation formula is designed to result in total compensation that would be reasonable for each physician. Since implementing the productivity-based incentive compensation model, the financial losses from the operations of organization's physician practices have significantly decreased and established physician practices have generally become profitable. The filing organization utilizes national survey productivity, cost and compensation data in formulating all aspects of the compensation plan. Physician compensation arrangements include a ceiling or reasonable maximum on the amount a physician may earn. The filing organization's employed physicians enter into a written agreement that requires the physicians to provide medical care to individuals who are referred by the filing organization. Pursuant to the agreement, an individual may not be rejected as a patient by a physician due to race, sex, age, color, creed, national origin or inability to pay. The filing organization's compensation arrangement does not use a method of compensation that is based upon a percentage of the organization's net income. Rather, under the compensation arrangement, physician base salary is set based on Fair Market Value benchmarks, and any additional compensation is based on a percentage of the practice/location net revenue.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Supplemental Information | Part III         | Part I, Question 3. As noted in our response to question 15 of Part VI of Form 990, the individual who serves as the CEO of the filing organization is compensated by Adventist Health System Sunbelt Healthcare Corporation (AHSSHC) for that individual's role in serving as the CEO of the system of organizations whose parent is AHSSHC. Compensation and benefits provided to this individual are determined pursuant to policies, procedures, and processes of AHSSHC that are designed to ensure compliance with the intermediate sanctions laws as set forth in IRC Section 4958. AHSSHC uses all of the following to establish compensation of the CEO: - Compensation committee, - Independent compensation consultant, - Compensation survey or study, and - Approval by the board or compensation committee.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|            | Form 990,<br>Part VI,<br>Section B,<br>line 15 | <p>The top-tier parent of the filing organization is Adventist Health System Sunbelt Healthcare Corporation (AHSSHC). AHSSHC is the parent organization of a healthcare system, known as Adventist Health System, that operates hospitals, nursing home facilities, and other healthcare provider organizations. AHSSHC is exempt from federal income tax under IRC Section 501(c)(3) pursuant to a group ruling issued to the General Conference of Seventh-day Adventists. The individuals who serve as the CEO, CFO or Vice President of the filing organization are compensated by AHSSHC. Compensation and benefits provided to these individuals is determined pursuant to policies, procedures, and processes of AHSSHC that are designed to ensure compliance with the intermediate sanctions laws as set forth in IRC Section 4958. AHSSHC has taken steps to ensure that processes are in place to satisfy the rebuttable presumption of reasonableness standard as set forth in Treasury Regulation 53.4958-6 with respect to its active executive-level positions. The AHSSHC Board Strategy and Compensation Committee (the Committee) serves as the governing body for all executive compensation matters. The Committee is composed of certain members of the Board of Directors (the Board) of AHSSHC. Voting members of the Committee include only individuals who serve on the Board as independent representatives of the community, who hold no employment positions with AHSSHC and who do not have relationships with any of the individuals whose compensation is under their review that impacts their best independent judgment as fiduciaries of AHSSHC. The Committee's role is to review and approve all components of the executive compensation plan of AHSSHC. As an independent governing body with respect to executive compensation, it should be noted that the Committee will often confer in executive sessions on matters of compensation policy and policy changes. In such executive sessions, no members of management of AHSSHC are present. The Committee is advised by an independent third party compensation advisor. This advisor prepares all the benchmark studies for the Committee. Compensation levels are benchmarked with a national peer group of other not-for-profit healthcare systems and hospitals of similar size and complexity to AHS and each of its affiliated entities. The following principles guide the establishment of individual executive compensation - The salary of the President/CEO of AHS will not exceed the 40th percentile of comparable salaries paid by similarly situated organizations, and - Other executive salaries shall be established using market medians. The compensation philosophy, policies, and practices of AHSSHC are consistent with the organization's faith-based mission and conform to applicable laws, regulations, and business practices. As a faith-based organization sponsored by the Seventh-day Adventist Church (the Church), AHSSHC's philosophy and principles with respect to its executive compensation practices reflect the conservative approach of the Church's mission of service and were developed in counsel with the Church's leadership.</p> |

|            | Form 990, Part VI, Section C, line 19 | <p>As discussed in our response to Question 15a &amp; b in Section B of this Part VI, the filing organization is a part of the system of healthcare organizations known as Adventist Health System (AHS). Each year, AHS publishes an annual report document that includes a financial report for the relevant year as well as a community benefit report. The financial report and community benefit report are presented on a consolidated basis and represent all of the activities, results of operations, and financial position at year-end of the entire AHS system. In addition, the audited consolidated financial statements of AHS and of the AHS "Obligated Group" are filed annually with the Municipal Securities Rulemaking Board (MSRB). The "Obligated Group" is a group of AHSSHC subsidiaries that are jointly and severally liable under a Master Trust Indenture that secures debt primarily issued on a tax-exempt basis. Unaudited quarterly financial statements prepared in accordance with Generally Accepted Accounting Principles (GAAP) are also filed with MSRB for AHS on a consolidated basis and for the grouping of AHS subsidiaries comprising the "Obligated Group". The filing organization does not generally make its governing documents or conflict of interest policy available to the public.</p> |

## 1. Significant Accounting Policies

### Reporting Entity

Adventist Health System Sunbelt Healthcare Corporation d/b/a Adventist Health System (Healthcare Corporation) is a not-for-profit healthcare corporation that operates and controls hospitals, nursing homes and philanthropic foundations (referred to herein collectively as the System). The affiliated hospitals, nursing homes and philanthropic foundations are controlled through their by-laws, governing board appointments and operating agreements by Healthcare Corporation. The System's 41 hospitals, 16 nursing homes and philanthropic foundations operate in 10 states – Colorado, Florida, Georgia, Illinois, Kansas, Kentucky, North Carolina, Tennessee, Texas and Wisconsin.

Healthcare Corporation and the System are collectively controlled by the Lake Union Conference of Seventh-day Adventists, the Mid-America Union Conference of Seventh-day Adventists, the Southern Union Conference of Seventh-day Adventists and the Southwestern Union Conference of Seventh-day Adventists.

SunSystem Development Corporation (Foundation) is a charitable foundation operated by the System for the benefit of the hospitals that are divisions or controlled affiliates of Healthcare Corporation. The board of directors is appointed by the board of directors of the System. The Foundation is involved in philanthropic activities.

### Mission

The System exists solely to improve and enhance our local communities that we serve in harmony with Christ's healing ministry. All financial resources and excess of revenue and gains over expenses are used to benefit the communities in the areas of patient care, research, education, community service and capital reinvestment.

Specifically, the System provides

Benefit to the underprivileged, by offering services free of charge or deeply discounted to those who cannot pay, and by supplementing the unreimbursed costs of the government's Medicaid assistance program.

Benefit to the elderly, as provided through governmental Medicare funding, by subsidizing the unreimbursed costs associated with this care.

Benefit to the community's overall health and wellness through clinics and primary care services, health education and screenings, in-kind donations, extended education and research.

Benefit to the faith-based and spiritual needs of the community in accordance with our mission of extending the healing ministry of Christ.

Benefit to the community's infrastructure by investing in capital improvements to ensure the facilities and technology provide the best possible care to the community.

## Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Adventist Health System/Sunbelt, Inc. (Sunbelt), the Foundation and other affiliated organizations that are controlled by Healthcare Corporation. Any subsidiary or other operations owned and controlled by divisions or controlled affiliates of Healthcare Corporation are included in these consolidated financial statements. Investments in entities where the Healthcare Corporation does not have operating control are recorded under the equity or cost method of accounting. Income from unconsolidated entities of \$21,681 and \$7,882 for 2011 and 2010, respectively, is included in other operating revenue in the accompanying consolidated statements of operations and changes in net assets. All significant intercompany accounts and transactions have been eliminated in consolidation.

## Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

## Recent Accounting Pronouncements

In August 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-23, *Measuring Charity Care for Disclosure* (ASU 2010-23). The provisions of ASU 2010-23 are intended to reduce the diversity in how charity care is calculated and disclosed by healthcare entities. Charity care is required to be measured at cost, defined as the direct and indirect costs of providing the charity care. As the System does not recognize revenue when charity care is provided, ASU 2010-23 had no effect on the accompanying consolidated statements of operations and changes in net assets. ASU 2010-23 only requires additional disclosures, including the method used to estimate the cost of charity care.

In August 2010, the FASB issued ASU No. 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24). ASU 2010-24 prohibits the netting of insurance recoveries against a related claim liability and requires the claim liability to be calculated without consideration of insurance recoveries. This guidance is effective for fiscal years beginning after December 15, 2010, with early application permitted. The System adopted ASU 2010-24 in the first quarter of 2011. The adoption did not have a material impact on the System's consolidated financial position or results of operations.

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS)* (ASU 2011-04). The amendments in ASU 2011-04 result in common fair value measurement and disclosure requirements in GAAP and IFRS. ASU 2011-04 also changes the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011. The adoption of this standard in 2012 is not expected to have a material impact on the System's consolidated financial position or results of operations.

In July 2011, the FASB issued ASU No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debt and the Allowance for Doubtful Accounts for Certain Health Care Entities* (ASU 2011-07). The provisions of ASU 2011-07 require healthcare entities that recognize significant amounts of patient service revenue at the time services are rendered, even though they do not assess the patient's ability to pay to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue in the statement of operations rather than as an operating expense. Additional disclosures relating to sources of patient service revenue and the allowance for uncollectible accounts are also required. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011, with early adoption permitted. The System adopted the provisions of ASU 2011-07 as of and for the year ended December 31, 2011 and retrospectively applied the presentation requirements to all periods presented.

In September 2011, the FASB issued ASU No. 2011-08, *Testing Goodwill for Impairment* (ASU 2011-08). ASU 2011-08 gives entities the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If entities determine, on the basis of qualitative factors, that the fair value of a reporting unit is more likely than not less than the carrying amount, the two-step impairment test under the Intangibles-Goodwill and Other Topic of the Accounting Standards Codification (ASC) (ASC 350) would be required. Otherwise, further testing would not be needed. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011, with early adoption permitted. The System adopted ASU 2011-08 as of September 30, 2011. The adoption did not have an impact on the System's consolidated financial position or results of operations.

In September 2011, the FASB issued ASU No. 2011-09, *Disclosures about an Employer's Participation in a Multiemployer Plan* (ASU 2011-09). The provisions of ASU 2011-09 increase the quantitative and qualitative disclosures an employer is required to provide about its participation in significant multiemployer plans that offer pension or other postretirement benefits. This new guidance is effective for fiscal years ending after December 15, 2011. The System adopted the new disclosure requirement in its consolidated financial statements for the year ended December 31, 2011.

## **Net Patient Service Revenue, Patient Accounts Receivable and Allowance for Uncollectible Accounts**

The System's patient acceptance policy is based on its mission statement and its charitable purposes. Accordingly, the System accepts patients in immediate need of care, regardless of their ability to pay. The System serves certain patients whose medical care costs are not paid at established rates. These patients include those sponsored under government programs such as Medicare and Medicaid, those sponsored under private contractual agreements, charity patients and other uninsured patients who have limited ability to pay. A patient is classified as a charity patient based on the established policies of the System, which require that the patient provide certain information to qualify for charity. Patients that qualify for charity are provided services for which no payment is due for all or a portion of the patient's bill from either the patient or other third parties. For financial reporting purposes, charity care is excluded from patient service revenue.

# Notes to Consolidated Financial Statements

*For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)*

For all other patients, patient service revenue is reported at estimated net realizable amounts for services rendered. The System recognizes patient service revenue associated with patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, revenue is recognized on the basis of discounted rates in accordance with the System's policy.

Patient service revenue is reduced by the provision for bad debts and accounts receivable are reduced by an allowance for uncollectible accounts. These amounts are based on management's assessment of historical and expected net collections for each major payor source, considering business and economic conditions, trends in healthcare coverage and other collection indicators. Management regularly reviews collections data by major payor sources in evaluating the sufficiency of the allowance for uncollectible accounts. On the basis of historical experience, a significant portion of the System's self-pay patients will be unable or unwilling to pay for the services provided. Thus, the System records a significant provision for bad debts in the period services are provided related to self-pay patients. The System's allowance for uncollectible accounts for self-pay patients was 97% of self-pay accounts receivable as of December 31, 2011 and 2010. For receivables associated with patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for uncollectible accounts and a provision for bad debts, if necessary. Accounts receivable are written off after collection efforts have been followed in accordance with the System's policies.

Patient service revenue is not recognized for those patients that qualify for charity under the System's policies. For all other patients, patient service revenue, net of contractual allowances and self-pay discounts and before the provision for bad debts, recognized from major payor sources for the year ended December 31, 2011, is as follows:

|                                                   |                     |
|---------------------------------------------------|---------------------|
| Third-party payors, net of contractual allowances | \$ 6,687,698        |
| Self-pay patients, net of discounts               | <u>235,895</u>      |
|                                                   | <u>\$ 6,923,593</u> |

The System changed its uninsured discount policy, effective January 1, 2011, as required by the Patient Protection and Affordable Care Act (Act). The Act has resulted in an increase in self-pay discounts, which are a reduction of patient service revenue, and a corresponding decrease in self-pay write-offs that are included in the provision for bad debts. Overall, the total of self-pay discounts and write-offs has not changed significantly for the year ended December 31, 2011. The System has not experienced significant changes in write-off trends and has not changed its charity care policy for the year ended December 31, 2011.

The System has determined, based on an assessment at the reporting-entity level, that patient service revenue is primarily recorded prior to assessing the patient's ability to pay and as such, the entire provision for bad debts is recorded as a deduction from patient service revenue in the accompanying consolidated statements of operations and changes in net assets.

Revenue from the Medicare and Medicaid programs represents approximately 36% and 35% of the System's patient service revenue for the years ended December 31, 2011 and 2010, respectively. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Other than the accounts receivable related to the Medicare and Medicaid programs, there are no significant

concentrations of accounts receivable due from an individual payor at December 31, 2011 and 2010

The System is subject to retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations. Adjustments to revenue related to prior periods increased patient service revenue by approximately \$46,600 and \$29,500 for the years ended December 31, 2011 and 2010, respectively.

## Charity Care

As discussed previously, the System's patient acceptance policy is based on its mission statement and its charitable purposes and as such, the System accepts patients in immediate need of care, regardless of their ability to pay. Patients that provide the necessary information to qualify for charity are provided services for which no payment is due for all or a portion of the patient's bill. Therefore, charity care is excluded from patient service revenue and the cost of providing such care is recognized within operating expenses.

The System estimates the direct and indirect costs of providing charity care by applying a cost to gross charges ratio to the gross uncompensated charges associated with providing charity care to patients. The System also receives certain funds to offset or subsidize charity services provided. These funds are primarily received from uncompensated care programs sponsored by various states, whereby healthcare providers within the state pay into an uncompensated care fund and the pooled funds are then redistributed based on state specific criteria. The cost of providing charity care, amounts paid by the System into uncompensated care funds and amounts received by the System to offset or subsidize charity services are as follows for the years ended December 31, 2011 and 2010, respectively:

|                                                                                                        | Year Ended December 31<br>2011      | 2010                           |

## EHR Incentive Payments

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that

adopt, implement or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

The System accounts for HITECH incentive payments as a gain contingency. Income from Medicare incentive payments is recognized as revenue after the System has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended. The System recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments totaling \$55,886 for the year ended December 31, 2011 are included in total operating revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, the System's compliance with the meaningful use criteria is subject to audit by the federal government.

## **Excess of Revenue and Gains over Expenses**

The consolidated statements of operations and changes in net assets include excess of revenue and gains over expenses, which is analogous to income from continuing operations of a for-profit enterprise. Changes in unrestricted net assets that are excluded from excess of revenue and gains over expenses, consistent with industry practice, include changes in unrealized gains and losses on certain investments, changes in the fair value of derivative financial instruments that qualify as cash flow hedges, pension related changes other than net periodic pension costs and contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

## **Contributed Resources**

Resources restricted by donors for specific operating purposes or a specified time period are held as temporarily restricted net assets until expended for the intended purpose or until the specified time restrictions are met, at which time they are reported as other revenue. Resources restricted by donors for additions to property and equipment are held as temporarily restricted net assets until the assets are placed in service, at which time they are reported as transfers to unrestricted net assets. Gifts, grants and bequests not restricted by donors are reported as other revenue. At December 31, 2011 and 2010, temporarily restricted net assets are available for various programs and capital expenditures at the System's hospitals.

## **Cash Equivalents**

Cash equivalents include all highly liquid investments, including certificates of deposit and commercial paper with maturities not in excess of three months when purchased. Interest income on cash equivalents is included in investment income.

## **Functional Expenses**

The System does not present expense information by functional classification because its resources and activities are primarily related to providing healthcare services. Further, since the System receives substantially all of its resources from providing healthcare services in a manner similar to a business enterprise, other indicators contained in the accompanying consolidated financial statements are considered important in evaluating how well management has discharged its stewardship responsibilities.

## Investments

Investment securities, excluding alternative investments accounted for under the equity method, are recorded at fair value. The cost of securities sold is based on the specific identification method. Investment income or loss includes realized gains and losses, interest, dividends and certain unrealized gains and losses. The investment income or loss on investments that are restricted by donor or law is recorded as increases or decreases to temporarily restricted net assets. The System accounts for investment transactions on a settlement-date basis.

Management has designated primarily all fixed income instruments as other than trading securities and, accordingly, changes in unrealized gains and losses are included in unrestricted net assets. During 2011 and 2010, the System's primary equity investment portfolio included various domestic stock exchange indices. In addition, to limit its risk from the equity markets, the portfolio also included equity options, including puts and calls. Management designated these equity instruments in its primary equity investment portfolio as trading securities and, accordingly, changes in unrealized gains and losses are included in the excess of revenue and gains over expenses. As of December 31, 2011, the System had divested its primary equity investment portfolio and reallocated these amounts primarily to alternative investments. Certain other equity investments, primarily held by the System's foundations, are designated as other than trading securities and the related changes in unrealized gains and losses are included in unrestricted net assets.

### Alternative Investments – Equity Method

As part of its investment strategy, the System invests in alternative investments (primarily hedge funds) through partnership investment trusts. The partnership investment trusts generally contract with managers who have full discretionary authority over the investment decisions. The System accounts for its ownership interest in these alternative investments under the equity method. Accordingly, the System's share of the hedge funds' income or loss, both realized and unrealized, is recognized as investment income or loss, which is a component of excess of revenue and gains over expenses. Alternative investments accounted for using the equity method totaled \$713,523 and \$361,363 at December 31, 2011 and 2010, respectively, and were classified as investments and assets whose use is limited in the accompanying consolidated balance sheets.

### Alternative Investments – Fair Value

The System has a wholly-owned subsidiary, AHS-K2 Alternatives Portfolio, Ltd (Fund), that primarily invests in alternative investments (primarily hedge funds) through partnership investment trusts. The Fund is managed by an external investment manager (Manager) in accordance with the investment guidelines contained within the limited liability company agreement.

The strategies of the underlying funds held by the Fund, as of December 31, 2011, are described below:

*Alternate strategies* The underlying funds invest in products other than traditional investments such as stocks and bonds. This strategy is a tool to reduce overall investment risk through diversification.

*Commodity* The underlying funds trade in agricultural, metal and energy markets at various stages in the commodity cycle.

*Currency* The underlying funds invest both long and short in currencies (i.e., spot, forward, futures or options) on a global basis.

For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)

*Event Driven* The underlying funds focus on identifying and analyzing securities that may benefit from the occurrence of specific corporate events

*Global Macro* The underlying funds invest in products that may benefit from overall economical and political views of various countries

*Long/Short* The underlying funds invest both long and short, primarily in common stocks, based on the manager's perception of such securities being undervalued or overvalued in the market. Some of the managers may specialize in specific sectors or industries

*Multi-strategy* The underlying funds invest in multiple strategies to diversify risks and reduce volatility

*Relative Value* The underlying funds utilize non-directional strategies. Relative value investing involves trading around the mispricing of two related securities using various types of securities or instruments

*Specialist Credit* The underlying funds seek to generate superior risk-adjusted returns from a combination of capital appreciation and current income by opportunistically investing and trading in a diversified portfolio of credit-related securities and other instruments

The Fund follows the Financial Services-Investment Companies Topic of the ASC (ASC 946-10), which requires that the investments in the underlying funds be recorded at fair value. The fair value of the underlying hedge funds is determined in good faith by the Manager and generally represents the Fund's proportionate share of the net assets of the underlying funds as reported by the managers. Unrealized appreciation and depreciation resulting from valuing the underlying funds is recognized as investment income or loss, which is a component of excess of revenue and gains over expenses.

The Fund follows ASC 820-10 for estimating the fair value of the underlying funds that have calculated a net asset value (NAV) per share in accordance with ASC 946-10. Accordingly, the Fund uses NAV as reported by the managers as a practical expedient to determine the fair value of those underlying funds that do not have a readily determinable fair value and either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company. As of December 31, 2011 and 2010, the fair value of all underlying funds has been determined using the NAV of the underlying funds.

The Manager uses its best judgment in estimating the fair value of these investments. As there are inherent limitations in any estimation technique, the fair value estimates presented herein are not necessarily indicative of an amount that could be realized in an actual transaction and the differences could be material.

Alternative investments accounted for at fair value totaled \$213,094 and \$106,438 as of December 31, 2011 and 2010, respectively, and were classified as investments and assets whose use is limited in the accompanying consolidated balance sheets.

At December 31, 2011, certain funds cannot be redeemed currently because the funds include initial restrictions that do not allow for redemption in the first 12 months after investment. These restrictions are referred to as lock-ups. At

(dollars in thousands)*

December 31, 2011, underlying funds with lock-up provisions expiring by October 31, 2012 totaled \$10,133. Certain other underlying funds may charge a withdrawal fee ranging from 1-6% if the Fund liquidates its investment prior to the expiration of the lock-up periods. At December 31, 2011, these underlying funds totaling \$67,314 have lock-up provisions that expire through November 30, 2012. The remaining funds totaling \$135,647 have no such redemption restrictions.

Upon the expiration of lock-up provisions, the Fund has the ability to liquidate its investments periodically in accordance with the provisions of the respective agreements with the underlying funds. The underlying funds have either monthly, quarterly or annual redemption terms. Certain funds with quarterly redemption terms allow redemptions of up to 25% of the investment each quarter and as such, a period of twelve months would be required to fully redeem these investments. Certain agreements may also allow the underlying fund to temporarily suspend redemptions or place other temporary restrictions, such as gate provisions or side pockets. Investments with quarterly redemption terms or other temporary suspensions totaled \$24,619 as of December 31, 2011. There were no such investments at December 31, 2010.

## **Assets Whose Use is Limited**

Certain of the System's investments are limited as to use through board resolution, by provisions of contractual arrangements, under the terms of bond indentures or under the terms of other trust agreements. These investments are classified as assets whose use is limited in the accompanying consolidated balance sheets. Interest and dividend income and realized gains and losses on assets whose use is limited are reported as investment income within nonoperating gains (losses).

## **Securities Lending Program**

The System participates in securities lending transactions with the custodian of its investments, whereby a portion of its investments is loaned to certain brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned, usually on a short-term basis. Collateral provided by brokers is maintained at levels approximating 102% of the fair value of the securities on loan and is adjusted for daily market fluctuations. The fair value of collateral held for loaned securities is reported as collateral held under securities lending program, with a corresponding obligation reported for repayment of such collateral upon settlement of the lending transaction.

## **Derivative Financial Instruments**

The System accounts for its derivative financial instruments as required by ASC 815 and the Health Care Entities Derivative and Hedging Subtopic of the ASC (ASC 954-815). ASC 954-815 requires that not-for-profit healthcare organizations apply the provisions of ASC 815 (including the provisions pertaining to cash flow hedge accounting) in the same manner as for-profit enterprises.

ASC 815 requires companies to recognize all derivative instruments as either assets or liabilities in the balance sheet at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, a company must designate the hedging instrument, based upon the exposure being hedged, as a fair value hedge, cash flow hedge or a hedge of the foreign currency exposure of a net investment in a foreign operation.

# Notes to Consolidated Financial Statements

*For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)*

The System is exposed to certain risks relating to its ongoing operations. The primary risk managed by using derivative instruments is interest rate risk. Interest rate swaps are entered into to manage interest rate risk associated with the System's fixed and variable-rate borrowings. In accordance with ASC 815, the System designates certain interest rate swaps as cash flow hedges of variable-rate borrowings. The System has no derivative instruments that are designated as fair value hedges or as hedges of the foreign currency exposure of a net investment in a foreign operation.

## **Sale of Patient Accounts Receivable**

The System and certain of its member affiliates maintain a program (Program) for the continuous sale of certain patient accounts receivable to the Highlands County Health Facilities Authority (Highlands) on a nonrecourse basis. Highlands has partially financed the purchase of the patient accounts receivable through the issuance of tax-exempt bonds (Bonds), of which Highlands had \$304,230 outstanding as of December 31, 2011 and 2010. These Bonds are supported by a bank letter of credit arrangement that expires in December 2013. As of December 31, 2011 and 2010, the estimated net realizable value, as defined in the underlying agreements, of patient accounts receivable sold by the System and removed from the accompanying consolidated balance sheets was \$569,129 and \$526,305, respectively. The patient accounts receivable sold consist primarily of amounts due from government programs and commercial insurers. The proceeds received from Highlands consist of cash from the Bonds, a note on a subordinated basis with the Bonds and a note on a parity basis with the Bonds. The note on a subordinated basis with the Bonds is in an amount to provide the required over-collateralization of the Bonds and was \$85,808 at December 31, 2011 and 2010. The note on a parity basis with the Bonds is the excess of eligible accounts receivable sold over the sum of cash received and the subordinated note and was \$179,091 and \$136,267 at December 31, 2011 and 2010, respectively. These notes are included in other receivables (current) in the accompanying consolidated balance sheets. Due to the nature of the patient accounts receivable sold, collectability of the subordinated and parity notes is not significantly impacted by credit risk.

## **Inventories**

Inventories (primarily pharmaceuticals and medical supplies) are stated at the lower of cost or market using the first-in, first-out method of valuation.

## **Property and Equipment**

Property and equipment are reported on the basis of cost, except for donated items, which are recorded at fair value at the date of the donation. Expenditures that materially increase values, change capacities or extend useful lives are capitalized. Depreciation is computed primarily utilizing the straight-line method over the expected useful lives of the assets. Amortization of capitalized leased assets is included in depreciation expense and allowances for depreciation.

## **Goodwill**

Goodwill represents the excess of the purchase price and related costs over the value assigned to the net tangible and identifiable intangible assets of the businesses acquired. These amounts are included in other assets (noncurrent) in the accompanying consolidated balance sheets and are evaluated annually for impairment or when there is an indicator of impairment.

# Notes to Consolidated Financial Statements

December 31, 2011  
and 2010  
(dollars in thousands)*

Upon adoption of ASU 2011-08 in 2011, in performing the annual assessment, the System chose to complete a qualitative assessment to determine whether it is more likely than not that the fair value of its reporting units is less than their carrying amount. Management has determined that it is not more likely than not that the fair value of the System's reporting units is less than their carrying amount. Therefore, the two-step impairment test under ASC 350 was not required.

## **Deferred Financing Costs**

Direct financing costs are included in other assets (noncurrent) and deferred and amortized over the remaining lives of the financings using the effective interest method.

## **Interest in the Net Assets of Unconsolidated Foundations**

Interest in the net assets of unconsolidated foundations represents contributions received on behalf of the System or its member affiliates by independent fund-raising foundations. As the System cannot influence the foundations to the extent that it can determine the timing and amount of distributions, the System's interest in the net assets of the foundations are included in other assets (noncurrent) and changes in that interest are included in temporarily restricted net assets.

## **Impairment of Long-Lived Assets**

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on discounted net cash flows or other estimates of fair value.

## **Bond Discounts and Premiums**

Bonds payable, including related original issue discounts and/or premiums, are included in long-term debt. Discounts and premiums are being amortized over the life of the bonds using the effective interest method.

## **Income Taxes**

Healthcare Corporation and its affiliated organizations, other than North American Health Services, Inc. and its subsidiaries (NAHS), are exempt from state and federal income taxes. Accordingly, Healthcare Corporation and its tax-exempt affiliates are not subject to federal, state, or local income taxes except for any net unrelated business taxable income. For the years ended December 31, 2011 and 2010, unrelated business income activities conducted by Healthcare Corporation and its tax-exempt affiliates did not generate a material amount of combined federal, state and local income tax.

NAHS is a wholly owned, for-profit subsidiary of Healthcare Corporation. NAHS and its subsidiaries are subject to federal and state income taxes. NAHS files a consolidated federal income tax return and, where appropriate, consolidated state income tax returns. For the years ended December 31, 2011 and 2010, NAHS generated taxable income of approximately \$1,000 and \$1,500, respectively. This taxable income was fully offset by net operating loss carryforwards for federal income tax purposes. Although one state in which NAHS conducts business suspended the utilization of net operating loss carryforwards for the year ended December 31, 2011, no material state income tax liability resulted. Accordingly, there is no provision for current federal or state income tax for the years ended December 31, 2011 and 2010.

# Notes to Consolidated Financial Statements

*For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)*

NAHS also has temporary deductible differences of approximately \$67,500 and \$68,400 at December 31, 2011 and 2010, respectively, primarily as a result of net operating loss carryforwards. At December 31, 2011, NAHS had net operating loss carryforwards of approximately \$66,800, of which \$21,000 will expire in 2023, with the remaining \$45,800 expiring beginning in 2013 through 2026. Some of these net operating losses are subject to the separate return limitation year rules. Deferred taxes have been provided for these amounts, resulting in a net deferred tax asset of approximately \$25,600 and \$26,000 at December 31, 2011 and 2010, respectively. A full valuation allowance has been provided at December 31, 2011 and 2010, respectively, to offset the deferred tax asset since Healthcare Corporation has determined that it is more likely than not that the benefit of the net operating loss carryforwards will not be realized in future years. The Income Taxes Topic of the ASC (ASC 740) prescribes the accounting for uncertainty in income tax positions recognized in financial statements. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return.

## **Reclassifications**

Certain reclassifications were made to the 2010 consolidated financial statements to conform to the classifications used in 2011. These reclassifications had no impact on the consolidated excess of revenue and gains over expenses and changes in net assets previously reported.

## **2. Acquisition**

The System entered into a Merger and Affiliation Agreement (Agreement) with University Community Hospital, Inc. (UCH) under which, the System became the sole member of UCH effective September 1, 2010 (acquisition date). No consideration was transferred in exchange for this acquisition. UCH is comprised of three hospitals and one long-term acute care facility in the Tampa, Florida market. This acquisition allowed the System the ability to provide expanded healthcare services in the Tampa, Florida market.

In accordance with the Business Combinations Topic of the ASC (ASC 805), provisional amounts had been recorded where the accounting for certain liabilities had not been finalized. As a result of the receipt of additional information necessary to finalize the accounting, the acquisition date fair value of other noncurrent liabilities was increased by \$14,588. In accordance with ASC 805, such adjustments are recognized as if the accounting for the acquisition had been completed as of the acquisition date. As such, the fair value of noncurrent liabilities was increased by \$14,588, offset by a decrease to the excess of fair value of assets acquired over liabilities assumed in acquisition as of September 1, 2010.

The following pro forma combined results of operations for the year ended December 31, 2010 give effect to the acquisition as if it had occurred on January 1, 2010. The pro forma combined results of operations do not necessarily represent the System's consolidated results of operations had the acquisition occurred on the date assumed, nor are these results necessarily indicative of the System's future consolidated results of operations. The System expects to realize certain benefits from integrating UCH into the System and to incur certain one-time costs. The pro forma combined results of operations do not reflect these benefits or costs. These combined results reflect the impact of amortizing certain acquisition accounting adjustments such as fair value adjustments to property and equipment as of January 1, 2010.

## 3. Discontinued Operations

Effective July 1, 2010, the System entered into a Merger and Affiliation Agreement whereby the System became the sole member of Bert Fish Medical Center, Inc. (BFMC) and assumed a lease of a hospital facility with the Southeast Volusia Hospital District (District). Subsequent to the acquisition of BFMC by the System, the Bert Fish Foundation, Inc. filed a lawsuit against the District, BFMC and the System (Parties). The lawsuit alleged that the acquisition was not completed in accordance with applicable Florida statutes and sought to unwind the transaction. In late February 2011, Florida's Seventh Judicial Circuit Court (Court) ordered the Parties to submit a plan to return the control of BFMC from the System to the District. On June 24, 2011, the Court approved a transition agreement in which control of BFMC was transferred to the District on June 30, 2011. No consideration was received by the System in exchange for this transfer.

In accordance with the Consolidation Topic of the ASC (ASC 810), when a parent corporation ceases to have a controlling interest in a subsidiary, the deconsolidation of that subsidiary is required. BFMC was deconsolidated from the System's balance sheet as of June 30, 2011, resulting in a loss of \$27,218, representing the net carrying amount of BFMC's assets and liabilities. BFMC's assets and liabilities are included in the accompanying consolidated balance sheet as of December 31, 2010. The operating results of BFMC for the years ended December 31, 2011 and 2010 were reclassified to discontinued operations in the accompanying consolidated statements of operations and changes in net assets. The excess of expenses over revenue and gains from BFMC's operations for the six months ended June 30, 2011 was \$1,004, resulting in a total loss from discontinued operations of \$28,222. For the year ended December 31, 2010, \$26,456 was reclassified to discontinued operations. This includes BFMC's excess of revenue and gains over expenses for the six months ended December 31, 2010 of \$261 and the excess of fair value of assets acquired over liabilities assumed in acquisition of \$26,195.

BFMC's total operating revenue, included in discontinued operations in the accompanying consolidated statements of operations and changes in net assets for the years ended December 31, 2011 and 2010, was \$48,464 and \$46,070, respectively.

Assets whose use is limited include investments held by bond trustees, investments held under other trust agreements and investments designated by boards for employee retirement plans and capital expenditures. Amounts to be used for the payment of current liabilities are classified as current assets.

Indenture requirements of tax-exempt financings by the System provide for the establishment and maintenance of various accounts with trustees. These arrangements require the trustee to control the expenditure of debt proceeds, as well as the payment of interest and the repayment of debt to bondholders. Medical malpractice trust funds are maintained to provide funds to settle medical malpractice claims.

A summary of the major limitations as to the use of these assets consists of the following:

Changes in unrealized gains and losses that are included as a reduction of unrestricted net assets in the accompanying consolidated statements of operations and changes in net assets totaled \$6,558 and \$25,896 for 2011 and 2010, respectively.

At December 31, 2011 and 2010, the total fair value of investments and assets whose use is limited, excluding alternative investments and the trading portfolio, amounted to \$2,211,365 and \$2,342,652, respectively. The net unrealized loss associated with these holdings approximated \$1,500 at December 31, 2011, which is comprised of gross unrealized gains of approximately \$20,600 and gross

unrealized losses of approximately \$22,100. The net unrealized gain associated with these holdings approximated \$6,100 at December 31, 2010, which is comprised of gross unrealized gains of approximately \$25,400 and gross unrealized losses of approximately \$19,300.

GAAP requires that the System recognize, in excess of revenue and gains over expenses, all declines in fair value below the cost basis of investment securities that are considered other-than-temporary. Management has evaluated the investments with unrealized losses and has concluded that none of the above losses should be considered other-than-temporary as of December 31, 2011 and 2010.

## 5. Unrestricted Cash and Investments

The System's unrestricted cash and cash equivalents, investments and board designated funds for capital expenditures consist of the following:

|                                                 | December 31        |                    |

| Days cash and investments on hand               | <u>224</u>         | <u>224</u>         |

Days cash and investments on hand is calculated as unrestricted cash and cash equivalents, investments and certain board designated funds divided by daily operating expenses (excluding depreciation and amortization). The annualized operating expenses of UCH and BFMC were included in the 2010 calculation.

## 6. Property and Equipment

Property and equipment consists of the following:

|                                  | December 31         |                     |

Certain hospitals have entered into construction contracts for which costs have been incurred and included in construction in progress. These and other committed projects will be financed through operations, proceeds from borrowings and board designated funds (see note 4). The estimated costs to complete these projects approximated \$162,800 at December 31, 2011. During periods of construction,

interest costs are capitalized to the respective property accounts. Interest capitalized approximated \$7,900 and \$4,700 for the years ended December 31, 2011 and 2010, respectively.

## 7. Other Assets

Other assets consists of the following:

|                                                       | December 31       |                   |

### Master Trust Indenture

Long-term debt has been issued primarily on a tax-exempt basis. Substantially all bonds are secured under a master trust indenture, which provides for, among other things, the deposit of revenue with the master trustee in the event of certain defaults, pledges of accounts receivable, pledges not to encumber property and limitations on additional borrowings.

### Variable-Rate Bonds

Certain variable-rate bonds may be put to the System at the option of the bondholder. The variable-rate bond indentures generally provide the System the option to remarket the obligations at the then prevailing market rates for periods ranging from one day to the maturity dates.

*For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)*

The obligations have been primarily marketed for seven-day periods during 2011, with annual interest rates ranging from 0.03% to 3.25%. The System has various sources of liquidity in the event any variable-rate bonds are put and not remarketed, including bank letter of credit agreements. The bank letter of credit agreements provide, among other things, that in the event a market for these obligations is not sustained, the bank would purchase the obligations at rates that vary with prime or, in certain cases, the London Interbank Offer Rate (LIBOR). The System's obligation to the bank would be payable in accordance with the variable-rate bonds' original maturities over the remaining term of the letter of credit agreements, with the remaining amount due upon expiration of the letter of credit agreements.

The System had a revolving credit agreement (Revolving Note) with a syndicate of banks (Syndicate) in the aggregate amount of \$1,885,200 for letters of credit, liquidity facilities and general corporate needs, including working capital, capital expenditures and acquisitions that had an expiration date in December 2011. In December 2010, the System amended the Revolving Note (New Revolving Note) with a revised group of banks (New Syndicate). The New Revolving Note totals \$1,750,000 and has an expiration date of December 2015. The New Revolving Note became effective in March 2011, upon the replacement of the existing letters of credit with letters of credit issued by the New Syndicate (LOC substitutions). The LOC substitutions required a purchase and reissuance of the related bonds, which was accounted for as an extinguishment and reissuance for accounting purposes. The LOC substitutions resulted in a loss of \$3,962, which is included in the loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets for the year ended December 31, 2011. At December 31, 2011 and 2010, the System had \$637,490 and \$736,377, respectively, of the applicable revolving credit agreement committed to letter of credit agreements that secure variable-rate bonds.

Variable-rate bonds that are not supported by bank letter of credit agreements or are supported by agreements that expire within a year are included in short-term financings in the accompanying consolidated balance sheets.

## **2011 Debt Transactions**

During 2011, the System extinguished certain debt obligations with par amounts totaling \$154,570. These obligations were retired using existing funds. In connection with these transactions, the System recorded a loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets of approximately \$16,748. Approximately \$12,027 of the loss resulted from the reclassification of accumulated losses related to terminated cash flow hedges (see note 9). During November 2011, the System issued bonds with par amounts totaling \$80,000 that have a fixed interest rate of 2.4% through a mandatory tender date of November 2021. The interest rate on these bonds may be reset at the respective mandatory tender dates to either a fixed-rate or variable-rate mode. With the proceeds, the System financed or refinanced certain costs of the acquisition, construction, renovation and equipping of certain facilities.

## **2010 Debt Transactions**

During September 2010, the System drew \$225,000 on its Revolving Note and used the proceeds to extinguish the outstanding bonds of UCH. During December 2010, the System issued bonds with par amounts totaling \$357,000 with final maturity dates in 2036. Bonds with par amounts totaling \$282,000 have fixed interest rates ranging from 2.39% to 2.96% through a mandatory tender date of

January 2018. Bonds with par amounts of \$75,000 have a fixed interest rate of 3.57% through a mandatory tender date of January 2021. The interest rate on these bonds may be reset at the respective mandatory tender dates to either a fixed-rate or variable-rate mode. Proceeds from these bonds were used to repay the draw on the Revolving Note, extinguish certain other debt and provide funding for certain pension plans and working capital needs of acquired facilities. In connection with these debt extinguishments, the System recorded a loss from early extinguishment of debt in the accompanying consolidated statements of operations and changes in net assets of approximately \$15,472.

## **Debt Maturities**

Maturities of long-term debt consist of the following:

|            |           |
|------------|-----------|
| 2012       | \$ 73,915 |
| 2013       | 74,559    |
| 2014       | 76,551    |
| 2015       | 94,096    |
| 2016       | 83,547    |
| Thereafter | 2,804,431 |

## **9. Derivative Financial Instruments**

### **Derivatives Designated as Hedging Instruments**

For derivative instruments that are designated and qualify as a cash flow hedge (i.e., hedging the exposure to variability in expected future cash flows associated with certain of the System's variable-rate borrowings), the effective portion of the gain or loss on the derivative instrument is reported as a component of unrestricted net assets and reclassified into earnings in the same line item (interest expense) associated with the forecasted transaction and in the same period or periods during which the hedged transaction affects excess of revenue and gains over expenses.

The ineffective portion, which represents the remaining gain or loss on the derivative instrument in excess of the cumulative change in the present value of future cash flows of the hedged item, if any, or hedge components excluded from the assessment of effectiveness, is recognized in excess of revenue and gains over expenses in the accompanying consolidated statements of operations and changes in net assets during the current period.

The System utilizes interest rate swaps, including forward-starting interest rate swaps, which effectively modify the System's exposure to interest rate risk by converting a portion of its variable-rate borrowings to a fixed-rate basis, thus reducing the impact of interest-rate changes on future interest expense. These agreements involve the receipt of variable-rate amounts in exchange for fixed-rate interest payments over the life of the agreements without an exchange of the underlying principal amounts. The agreements expire in periods beginning in 2012 through 2017. Approximately \$964,000 and \$1,106,000 of the System's outstanding variable-rate debt classified as both short-term financings and long-term debt had its interest payments designated as the hedged forecasted transactions to interest rate swap agreements at December 31, 2011 and 2010, respectively. At December 31, 2011 and 2010, the notional values of the System's forward-starting interest rate swaps totaled \$300,000.

The changes in the accumulated net derivative loss included in unrestricted net assets associated with the System's cash flow hedges is as follows

|                                                                                          | Year Ended December 31 |                     |
|------------------------------------------------------------------------------------------|------------------------|---------------------|
|                                                                                          | 2011                   | 2010                |
| Accumulated net derivative loss included in unrestricted net assets at beginning of year | \$ (123,118)           | \$ (102,818)        |
| Net change associated with current period hedging transactions                           | (34,557)               | (27,846)            |
| Net reclassifications into excess of revenue and gains over expenses                     | 22,690                 | 7,546               |
| Accumulated net derivative loss included in unrestricted net assets at end of year       | <u>\$ (134,985)</u>    | <u>\$ (123,118)</u> |

The accumulated net derivative loss included in unrestricted net assets will be reclassified into earnings in the same periods during which the hedged transaction affects excess of revenue and gains over expenses or in the event it is determined that the original forecasted transactions are not probable of occurring by the end of the originally specified period or within the additional period of time allowed in ASC 815. In connection with the early extinguishment of certain variable-rate bonds in 2011 (see note 8), accumulated losses of \$12,027 related to previously terminated cash flow hedges were reclassified into the excess of revenue and gains over expenses. The System expects that the amount of net losses existing in unrestricted net assets to be reclassified into excess of revenue and gains over expenses within the next 12 months will be approximately \$7,200.

## Derivatives Not Designated as Hedging Instruments

The System has entered into certain interest rate swap agreements that do not qualify as hedging instruments. These interest rate swaps are primarily utilized to reduce the cost associated with the System's fixed-rate borrowings. The gain or loss on these derivative instruments is reported as a component of nonoperating gains (losses) in the period it occurs. As of December 31, 2011 and 2010, the total notional amount of the System's interest rate swaps not qualifying for hedge accounting was approximately \$233,000 and \$325,000, respectively.

## Credit-Risk-Related Contingent Features of Derivative Instruments

Substantially all of the System's derivative instruments contain provisions that require the System to maintain an investment-grade credit rating. If the System's credit rating were to fall below investment grade, it would be in violation of such provisions, and the counterparties to the derivative instruments could request immediate payment on derivative instruments in net liability positions. The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position on December 31, 2011 and 2010, is \$125,265 and \$113,628, respectively. If the credit-risk-related contingent features underlying these agreements had been triggered on December 31, 2011, the System could have been required to settle the agreements with the counterparties, requiring cash or other liquid assets of \$56,784, in addition to the collateral posted of \$68,481. Collateral is included in investments in the accompanying consolidated balance sheets.

## Investment Derivatives

Through August 2011, the System utilized derivative instruments within its primary equity investment portfolio, which is comprised of long positions in various domestic stock exchange indices. In order to limit the System's market risk from the equity markets, the portfolio includes derivative instruments such as puts and calls. Management has designated the instruments within its primary equity investment portfolio as trading securities and, accordingly, both realized and unrealized gains and losses are included in investment income in the period they occur. The net gains or losses on these trading activities, including both the long positions and the derivative instruments, are included in investment income. For the

## 10. Retirement Plans

### Defined Contribution Plans

The System participates with other Seventh-day Adventist healthcare entities in a defined contribution retirement plan (Plan) that covers substantially all full-time employees who are at least 18 years of age. The Plan is exempt from the Employee Retirement Income Security Act of 1974. The Plan provides, among other things, that the employer contribute 2.6% of wages, plus additional amounts for very highly paid employees. Additionally, the Plan provides that the employer match 50% of the employee's contributions up to 4% of the contributing employee's wages, resulting in a maximum available match of 2% of the contributing employee's wages each year. UCH sponsored retirement savings plans through December 31, 2010. Subsequent to December 31, 2010, this plan ceased accepting contributions. Effective January 1, 2011, UCH employees were eligible to participate in the Plan.

Contributions for all of the above plans are included in employee compensation in the accompanying consolidated statements of operations and changes in net assets in the amount of \$88,510 and \$74,655 for the years ended December 31, 2011 and 2010, respectively.

### Defined Benefit Plan – Multiemployer Plan

Prior to January 1, 1992, substantially all of the System's entities participated in a multiemployer, noncontributory defined benefit retirement plan, the Seventh-day Adventist Hospital Retirement Plan Trust (Old Plan) administered by the General Conference of Seventh-day Adventists that is exempt from the Employee Retirement Income Security Act of 1974. The risks of participating in multiemployer plans is different from single-employer plans in the following aspects:

Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers.

If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.

If an entity chooses to stop participating in the multiemployer plan, it may be required to pay the plan an amount based on the underfunded status of the plan, referred to as withdrawal liability.

During 1992, the Old Plan was suspended and the Plan was established. The System, along with the other participants in the Old Plan, may be required to make future contributions to the Old Plan to fund any difference between the present value of the Old Plan benefits and the fair value of the Old Plan assets. Future funding amounts and the funding time periods have not been determined by the Old Plan administrators, however, management believes the impact of any such future decisions will not have a material adverse effect on the System's consolidated financial statements.

| Funded status                                        | 92.3%      |

The most current plan assets data is as of December 31, 2010 and totaled \$830,043. The System did not make contributions to the Old Plan for the years ended December 31, 2011 or 2010.

## **Defined Benefit Plan – Frozen Pension Plan**

As of the date of their acquisition by the System, both UCH and BFMC sponsored a noncontributory defined benefit pension plan (UCH Pension Plan and BFMC Pension Plan or collectively, Pension Plans). The System froze the Pension Plans in December 2010, such that no new benefits will be accrued in the future. As a result of freezing future benefits, the System recognized a curtailment gain of approximately \$4,882 during the year ended December 31, 2010, of which \$3,824 is included in employee compensation and \$1,058 is included in discontinued operations in the accompanying consolidated statements of operations and changes in net assets. The projected and accumulated benefit obligation and the fair value of plan assets of the BFMC Pension Plan were removed from the 2011 end of year obligation as a result of the discontinued operations of BFMC. ASC Topic 715, Compensation – Retirement Benefits, requires employers that sponsor defined benefit plans to recognize the funded status of their postretirement benefit plans in the statement of financial position, measure the fair value of plan assets and benefit obligations as of the date of the year-end statement of financial position, and provide additional disclosures.

The Pension Plans' assets are invested in a portfolio designed to protect principal and obtain competitive investment returns and long-term investment growth, consistent with actuarial assumptions, with a reasonable and prudent level of risk. Diversification is achieved by allocating funds to various asset classes and investment styles and by retaining multiple investment managers with complementary styles, philosophies and approaches.

The Pension Plans' assets are managed solely in the interest of the participants and their beneficiaries. The expected long-term rate of return on the Pension Plans' assets is based on historical and projected rates of return for current and planned asset categories in the investment portfolio. Assumed projected rates of return for each asset category were selected after analyzing historical experience and future expectations of the returns and volatility for assets of that category using benchmark rates. Based on the target allocation among the asset categories, the overall expected rate of return for the portfolio was developed and adjusted for historical and expected experience of active portfolio management results compared to benchmark returns and for the effect of expenses paid from plan assets.

and 2010  
(dollars in thousands)

At December 31, 2010, the Pension Plans' assets consist primarily of cash and cash equivalents, publicly traded common stocks of both U S and international corporations and fixed income securities. During 2011, the System reallocated the investment portfolio of the UCH Pension Plan to include primarily fixed income securities and alternative investments. The target investment allocation for the UCH Pension Plan is 50% fixed income and 50% equity securities. This allocation is partially achieved through investments in alternative investments that have fixed income or equity strategies.

The following table presents the UCH Pension Plan's financial instruments as of December 31, 2011, measured at fair value on a recurring basis by the valuation hierarchy defined in note 14.

## 11. Medical Malpractice

The System established a self-insured revocable trust (Trust) that covers the System's facilities for claims below a specified level (Excess Level). Claims above the Excess Level are covered by a claims-made policy with a commercial insurance company. An Excess Level of \$2,000 was established for the year ended December 31, 2001. The Excess Level was increased to \$7,500 and \$15,000 effective January 1, 2002 and 2003, respectively, and has remained at \$15,000 through December 31, 2011.

The Trust funds are recorded in the accompanying consolidated balance sheets as assets whose use is limited in the amount of \$363,275 and \$292,455 at December 31, 2011 and 2010, respectively. The related accrued malpractice claims are recorded in the accompanying consolidated balance sheets as other current liabilities in the amount of \$66,050 and \$60,054 and as other noncurrent liabilities in the amount of \$273,926 and \$207,008 at December 31, 2011 and 2010, respectively. The related estimated insurance recoveries are recorded as other assets in the amount of \$15,058 in the accompanying consolidated balance sheets at December 31, 2011.

Management, with the assistance of consulting actuaries, estimates claim liabilities at the present value of future claim payments using a discount rate of 4.5% at December 31, 2011 and 2010.

## 12. Commitments and Contingencies

### Operating Leases

The System leases certain property and equipment under operating leases. Lease and rental expense was approximately \$100,400 and \$90,600 for the years ended December 31, 2011 and 2010, respectively.

Net future minimum lease payments under noncancelable operating leases as of December 31, 2011, are as follows:

|            |           |
|------------|-----------|
| 2012       | \$ 36,189 |
| 2013       | 29,745    |
| 2014       | 24,664    |
| 2015       | 21,517    |
| 2016       | 16,670    |
| Thereafter | 24,027    |

### Litigation

Certain of the System's affiliated organizations are involved in litigation arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, these matters will be resolved without material adverse effect to the System's consolidated financial statements.

## 13. Changes in Consolidated Unrestricted Net Assets

Changes in consolidated unrestricted net assets that are attributable to the System and the noncontrolling interests in subsidiaries are as follows:

## 14. Fair Value Measurements

The System follows ASC 820, which provides a framework for measuring the fair value of certain assets and liabilities and disclosures about fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

Certain of the System's financial assets and financial liabilities are measured at fair value on a recurring basis, including money market, fixed income and equity instruments, exchange-traded derivatives, collateral under the securities lending program and interest rate swap agreements. The three levels of the fair value hierarchy defined by ASC 820 and a description of the valuation methodologies used for instruments measured at fair value are as follows:

*Level 1* – Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the System has the ability to access.

*Level 2* – Financial assets and liabilities whose values are based on pricing inputs that are either directly observable or that can be derived or supported from observable data as of the reporting date. Level 2 inputs may include quoted prices for similar assets or liabilities in nonactive markets or pricing models whose inputs are observable for substantially the full term of the asset or liability.

*Level 3* – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both significant to the fair value of the financial asset or financial liability and are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

The carrying values of accounts receivable, accounts payable, accrued liabilities and payable under the securities lending program are reasonable estimates of their fair values due to the short-term nature of these financial instruments. The fair values of the System's fixed-rate bonds are based on quoted market prices for the same or similar issues and approximated \$2,346,000 and \$2,266,000 as of December 31, 2011 and 2010, respectively. The carrying values of these fixed-rate bonds were \$2,217,660 and \$2,228,740 as of December 31, 2011 and 2010, respectively. The carrying amount approximates fair value for all other long-term debt (see note 8).

## Valuation Techniques and Inputs

The fair values of the securities included in Level 1 were determined through quoted market prices. The fair values of Levels 2 and 3 financial assets and financial liabilities were determined as follows

*Cash equivalents, US government agencies and sponsored entities, US corporate bonds, residential mortgage-backed, commercial mortgage-backed, collateralized debt obligations and student loan asset-backed* – These Level 2 securities were valued through the use of third-party pricing services that use evaluated bid prices adjusted for specific bond characteristics and market sentiment

*For the years ended  
December 31, 2011  
and 2010  
(dollars in thousands)*

*Alternative investments* – These underlying funds are valued using the NAV as a practical expedient to determine fair value. Several factors are considered in appropriately classifying the underlying funds in the fair value hierarchy. An underlying fund is generally classified as Level 2 if the System has the ability to withdraw its investment with the underlying fund at NAV at the measurement date or within the near term. An underlying fund is generally classified as Level 3 if the System does not have the ability to redeem its investment with the underlying fund at NAV within the near term. Those alternative investments classified as Level 3 as of December 31, 2011, were classified as such because they could not be redeemed in the near term.

*Collateral held under securities lending program* – The System participates in securities lending transactions with the custodian of its investments (program), whereby a portion of its investments is loaned to certain brokerage firms in return for cash from the brokers as collateral for the investments loaned. This cash collateral is invested by the System in a securities lending quality trust (SLQT). The fair value of the System's interest in the SLQT was determined by considering its NAV and actual issuances and redemptions of interests in the SLQT.

The SLQT invests in short-term portfolio instruments in order to preserve capital and produce a moderate rate of return. Issuances and redemptions of interests in the SLQT are made each business day. Currently, interests in the SLQT are purchased and redeemed at a constant NAV of \$1.00 per unit for daily operational liquidity purposes, although redemptions for certain other purposes, such as termination of the System's participation in the program, may be in-kind.

*Interest rate swaps* – The fair value of these Level 2 financial assets and financial liabilities was determined through the use of widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. The analysis reflects the contractual terms of the interest rate swaps, including the period to maturity, and uses observable market-based inputs, such as interest rate curves. In addition, credit valuation adjustments are included to reflect both the System's nonperformance risk and the respective counterparty's nonperformance risk. The System pays fixed rates ranging from 2.63% to 3.83% and receives cash flows based primarily on percentages of LIBOR, ranging from 64% to 67% of LIBOR.

## 15. Subsequent Events

The System evaluated events and transactions occurring subsequent to December 31, 2011 through March 1, 2012, the date the accompanying consolidated financial statements were issued. During this period, there were no subsequent events that required recognition in the accompanying consolidated financial statements. Additionally, there were no nonrecognized subsequent events that required disclosure.

# **Report of Independent Certified Public Accountants**

The Board of Directors  
Adventist Health System Sunbelt Healthcare Corporation  
d/b/a Adventist Health System

We have audited the accompanying consolidated balance sheets of Adventist Health System and its subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of Adventist Health System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Adventist Health System's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Adventist Health System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Adventist Health System and its subsidiaries at December 31, 2011 and 2010, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

As discussed in note 1 to the consolidated financial statements, Adventist Health System changed the presentation of the provision for bad debts as a result of the adoption of the amendments to the FASB Accounting Standards Codification resulting from Accounting Standards Update No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*, effective January 1, 2010.
