Part IV Section 481(a) Adjustment

Summary of the computation and an explanation of the methodology used to determine the section 481(a) adjustment.

The December 31, 2010 financial statements were audited by William S. Wetterer. The former CPA prepared the December 31, 2010 Form 990. The Organization's Audited financial statements have always been prepared on the accrual method of accounting. However, the Form 990 has historically been prepared on the Cash Basis.

The methodology used to determine the Section 481(a) adjustment was to compare the December 31, 2010 Net Assets as determined by the financial statement audit and then to compare that figure to the 2010 Net Assets as presented on the tax return, Form 990. All other assets and liabilities were also compared. The resulting difference was $36,705 difference in total liabilities and a corresponding difference in total Net Assets. No other explanation was provided by the former CPA.

See the attached worksheet for the analysis of the Section 481(a) adjustment.
