Through statewide communication and cooperation, the State Alliance will assist member associations in their work of public policy advocacy, positioning, programming and quality. The State Alliance will educate and engage policy and decision makers on the YMCA's mission, history and programs, and will gain recognition for the YMCA as a leader on issues that affect children, families, and communities. To help accomplish this purpose, the State Alliance has engaged a "legislative analyst" to monitor any governmental issues, legislation or proposed legislation, and other matters before the Alabama Legislature, the executive departments and agencies, along with local governments, which are of direct interest to the YMCA's, to identify funding opportunities and to report to the Alliance on a quarterly basis.

Identifier	Return Reference	Explanation
Part XI, Line 8 - Other Adjustments		Loss on interest rate swap -559,965
Part XII, Line 2d - Other Adjustments		Loss on interest rate swap
		In order to manage fluctuations in interest rates on the 2008 lease agreement, the YMCA entered into an interest rate swap agreement. The interest rate swap agreement functions as a hedge of cash flow variability caused by changes in interest rates. The differential interest required to be paid or that will be received under this agreement is accrued consistent with the terms of the agreement and is recognized in interest expense as accrued. Terms of the swap agreement require the differential interest to be paid or received monthly. Generally accepted accounting principles require derivative instruments, such as interest rate swap agreements, to be recognized at fair value as either assets or liabilities in the statement of financial position. Accordingly, the negative \$1,535,820 value of the swap agreement at December 31, 2011, is reported as a liability in the statement of financial position, with a corresponding charge to interest expense for the year ended December 31, 2011. Value has been measured based on estimates of the amount needed to settle the agreement as calculated by the counterparty to the swap agreement. Such calculations were based on changes in market conditions and/or assumptions underlying valuation models.
