as Cost or other basis provided may include adjustments including but not limited to: dividend reinvestment, return of capital/principal, wash sale loss disallowed, amortization, accretion, acquisition premium, bond premium, market discount, market premium, and option premium.

2 Totals of Cost or Other Basis include all tax lots with known basis Totals do not include tax lots with unknown basis.

Amortization, accretion, and similar adjustments to cost basis are not provided for short-term instruments, unit investment trusts, or securities of foreign issuers.

For securities bought in a foreign currency, we have provided estimated cost basis in United States Dollars (USD) by converting the foreign currency cost into USD based on exchange rates on the trade date of the purchase. For securities sold (or redeemed) in a foreign currency, we have provided the USD proceeds by converting the foreign currency proceeds into USD based on exchange rates on the trade date of the sale. If you acquired the foreign currency cost, or sold the foreign currency proceeds in exchange for USD in a separate currency transaction linked to the security transaction, then the trade date exchange rate we used is the spot rate at the time of the linked currency transaction. Otherwise, the trade date exchange rate we used is the end-of-day exchange rate. For tax reporting purposes, you may be required to determine your actual USD cost basis, proceeds, and gain/loss based on the exchange rates on the settlement dates of the applicable transactions. Consult your tax advisor for more information

We are required to convert a purchase or sale in foreign currency into its United States dollar (USD) equivalent at the time of the transaction and to use that USD equivalent amount as the cost basis or gross proceeds as applicable. For securities directly bought or sold in a foreign currency in a single transaction in your account, we have converted the foreign currency into USD on the trade date of the purchase or sale using the end-of-day exchange rate. If you acquired the foreign currency cost, or sold the foreign currency proceeds in exchange for USD in a separate currency transaction linked to the security transaction, the conversion was made using the spot rate at the time of the linked currency transaction. In some cases, you may be required to use different currency conversion conventions than those applied here

Certain tax rules may require you to treat as ordinary income/loss all or a portion of your realized gain/loss from any debt instruments that are denominated in a currency other than U. S. dollars (USD) or that make a payment calculated by reference to the value of a currency other than USD. Consult your tax advisor for more information.
