What is the organization's primary exempt purpose?

The Open Source Geospatial Foundation, or OSGeo, is a not-for-profit organization whose mission is to support the collaborative development of open source geospatial software, and promote its widespread use. The foundation provides financial, organizational and legal support to the broader open source geospatial community. It also serves as an independent legal entity to which community members can contribute code, funding and other resources, secure in the knowledge that their contributions will be maintained for public benefit. OSGeo also serves as an outreach and advocacy organization for the open source geospatial community, and provides a common forum and shared infrastructure for improving cross-project collaboration.

Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. In a clear and concise manner, describe the services provided, the number of persons benefited, and other relevant information for each program title.

28 The following more detailed goals support the overall mission: To provide resources for foundation projects - eg infrastructure, funding, legal; To promote freely available geodata - free software is useless without data; To promote the use of open source software in the geospatial industry (not just foundation software) - eg PR, training, outreach; To encourage the implementation of open standards and standards-based interoperability in foundation projects; To ensure a high degree of quality in foundation projects in order to build and preserve the foundation "brand"; To make foundation and related software more accessible to end users - eg binary "stack" builds, cross package documentation; To provide support for the use of OSGeo software in education via curriculum development, outreach, and support; To encourage communication and cooperation between OSGeo communities on different language (eg Java/C/Python) and operating system (eg Win32, Unix, MacOS) platforms; To support use and contribution to foundation projects from the worldwide community through internationalization of software and community outreach; To operate an annual OSGeo Conference, possibly in cooperation with related efforts (eg EOGE); To award the Sol Katz award for service to the OSGeo community. Explanation: OSGeo recently received its 501c4 status from the IRS. We are attempting to make sure our status stays in good standing by having at least three years of 990 filings with the IRS to avoid revocation of status. Per the advice of the lawyers contracted to help with the process of getting tax exempt status we have not filed any form 990s until now.
