Consolidated Financial Statements

December 31, 2011 and 2010

(With Independent Auditors' Report Thereon)

Portland, OR 97201

Independent Auditors' Report

The Board of Directors
Samaritan Health Services, Inc

We have audited the accompanying consolidated balance sheets of Samaritan Health Services, Inc (SHS), an Oregon nonprofit corporation, as of December 31, 2011 and 2010, and the related consolidated statements of operations and changes in unrestricted net assets, changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of SHS' management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHS' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Samaritan Health Services, Inc. as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information included in schedules I and II is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

- Good Samaritan Hospital Foundation Corvallis (GSHF)
- Lebanon Community Hospital Foundation (LCHF)

The Obligated Group, which was formed to facilitate borrowing within the health system, includes SHS, GSRMC, MVH, SAGH, and SHOV.

All material interaffiliate accounts and transactions have been eliminated upon consolidation.

In September 2011, SHS sold a portion of its business. The sale generated a \$26,499 gain, which is included in other income in the consolidated statement of operations and changes unrestricted in net assets for the year ended December 31, 2011.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Key estimates include the valuation allowances for patient accounts, fair value of investments, third-party payor settlements, liability for unpaid medical claims, professional liability, and pension liability. Actual results could differ from those estimates.

(b) *Cash and Cash Equivalents*

Cash and cash equivalents include investments in highly liquid investments with original maturities of three months or less. The balance of cash was \$137,627 and \$94,748 as of December 31, 2011 and 2010, respectively.

SHS maintains cash and cash equivalents on deposit at financial institutions, which often exceeds the limits insured by the Federal Deposit Insurance Corporation. This exposes SHS to potential risk of loss in the event the financial institution becomes insolvent.

(c) *Inventories*

Inventories, consisting principally of surgical, pharmacy and biomedical supplies, and home medical equipment, are carried at the lower of cost or market value.

(d) *Investments*

Investments are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in excess of revenues over expenses unless the income or loss is restricted by donor or by law. Unrealized gains and losses on investments are excluded from excess of revenues over expenses.

A decline in fair value of a security below cost that is deemed to be other than temporary is recorded as an impairment loss and is included in excess of revenues over expenses. A new cost basis is then established for the security. To determine whether impairment is other than temporary, SHS considers whether it has the ability and intent to hold the investment until a market price recovery and whether evidence indicating the cost of the investment is recoverable outweighs evidence to the contrary. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, and the general market conditions in the geographic area or industry in which the investee operates.

(e) *Assets Limited as to Use*

Assets limited as to use include assets restricted by donors for capital acquisition and permanent endowment funds, assets held by trustees under indenture agreements, and statutory deposits for IHP and SH Plans.

(f) *Property, Plant, and Equipment*

Property, plant, and equipment are recorded at cost. Maintenance and repairs are expensed as incurred. When properties are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts and any gain or loss on disposition is recorded as operating income or expense.

(Dollars in thousands)

Depreciation is computed using the straight-line method over estimated useful lives as follows: land improvements, 5 to 20 years; building and improvements, 5 to 40 years; equipment, 3 to 20 years. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation in the consolidated statements of operations and changes in unrestricted net assets.

Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. During 2011 and 2010, \$672 and \$1,308 of interest cost was capitalized.

(g) *Deferred Financing Costs*

Financing costs associated with long-term debt have been deferred and are amortized over the life of the related debt using the effective interest method.

(h) *Liability for Unpaid Medical Claims and Medical Services Expense*

Medical services expense is recognized in the period in which services are provided. The liability for unpaid medical claims includes an estimate of the cost of services provided which have been incurred but not reported, which is based on actuarial projections of costs using historical paid claims data. Estimates are regularly monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent variability of such estimates, the actual liability could differ significantly from the amounts provided. While the ultimate amount of paid claims is dependent on future developments, management is of the opinion that the liability for claims is adequate to cover such claims.

(i) *Professional Liability*

The accrual for estimated professional liability claims includes an estimate of the ultimate costs for both reported claims and claims which have been incurred but not reported, which is based on actuarial projections of costs using historical paid claims data. Estimates are regularly monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent variability of such estimates, the actual liability could differ significantly from the amounts provided. While the ultimate amount of paid claims is dependent on future developments, management is of the opinion that the liability for claims is adequate to cover such claims.

(j) *Long-Lived Assets*

Long-lived assets, such as property, plant, and equipment, and purchased intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. No impairment has been recognized in 2011 or 2010.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity. Income from temporarily and permanently restricted net assets is accounted for in accordance with donor instructions.

(l) *Excess of Revenues over Expenses from Operations*

Excess of revenues over expenses from operations excludes certain items that SHS deems to be outside the scope of its primary business. Investment income includes interest income, dividends, and realized gains and losses on investments. Other income primarily includes rental income and gains related to the sale of a portion of SHS' business during 2011.

(m) *Excess of Revenues over Expenses*

The performance indicator is excess of revenues over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets), and change in pension liability.

(n) *Net Patient Service Revenue and Charity Care*

SHS has agreements with third-party payors that provide for payments at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Patient service revenue is reported net of contractual allowances and discounts at the estimated net realizable amounts from patients, third-party payors and others for services rendered.

Contractual adjustments arising under reimbursement arrangements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

SHS provides care without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policy. Since SHS does not pursue collection of amounts determined to qualify as charity care, they are excluded from patient service revenue.

(o) *Provision for Bad Debts and Allowance for Doubtful Accounts*

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, SHS analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

SAMARITAN HEALTH SERVICES, INC.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

(Dollars in thousands)

For receivables associated with self-pay patients (which include patients without insurance), SHS records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible

For third-party receivables associated with services provided to patients who have third-party coverage, SHS analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, which primarily relates to self-pay patient balances that will remain after payments from the third-party payor have been collected

The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

(p) Premium Revenue

Premium revenue from IHP and SH Plans consists of premiums paid by individuals and agencies of the federal and state governments for healthcare services. Premium revenue is recognized during the month for which the premium is associated. Medicare premiums include revenue based on predetermined prepaid rates under Medicare contracts and are subject to audit and possible retroactive adjustments. Provision has been made for estimated retroactive adjustments.

In 2011 and 2010, premium revenue includes \$1,350 and \$(771), respectively, relating to favorable (unfavorable) settlements of prior years' reimbursement from Medicare.

IHP had approximately 30,506 and 28,235 enrollees and SH Plans had approximately 5,439 and 5,352 enrollees at December 31, 2011 and 2010, respectively.

(q) Income Taxes

SHS and its affiliates are exempt from taxation under the provisions of the Internal Revenue Code and are generally not subject to federal or state income taxes, except for SH Plans, which is a taxable Oregon nonprofit corporation. Income tax benefit of \$319 and \$364 in 2011 and 2010, respectively, has been recorded as a component of excess of revenues over expenses from operations in the consolidated statements of operations and changes in unrestricted net assets.

In addition, SHS is subject to income taxes on any net income that is derived from a trade or business, regularly carried on, and not in furtherance of the purposes for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, is not material to the consolidated financial statements taken as a whole.

(r) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to SHS and its affiliates are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either

temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in unrestricted net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions.

(s) *Recently Adopted Accounting Standards*

In July 2011, the FASB issued amendments to FASB ASC Subtopic 954-310, *Health Care Entities—Receivables*, and Subtopic 954-605, *Health Care Entities—Revenue Recognition*, (Subtopics 954-310 and 605). The amendments to Subtopics 954-310 and 605 require certain health care entities to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, those health care entities are required to provide enhanced disclosure about their policies for recognizing revenue and assessing bad debts. The amendments also require disclosures of patient service revenue (net of contractual allowances and discounts) as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The amendments to Subtopics 954-310 and 605 are effective for SHS for the year ended December 31, 2012, with early adoption permitted for the year ended December 31, 2011. The early adoption of the amendments to Subtopics 954-310 and 605 resulted in a reclassification of the provision for bad debts of \$29,589 for the year ended December 31, 2010 from expenses to a component of net patient service revenue.

In August 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-23, *Health Care Entities (Topic 954) Measuring Charity Care for Disclosure*. This ASU is intended to reduce the diversity in practice regarding the measurement basis used in the disclosure of charity care. This ASU requires that cost, including direct and indirect costs, be used as the measurement basis for charity care disclosure purposes and that the method used to identify or determine such costs be disclosed. This ASU was effective for SHS on January 1, 2011. SHS previously reported charity care at cost for disclosure purposes and the adoption of this standard did not have a material impact on its disclosures.

In August 2010, the FASB issued ASU No. 2010-24, *Health Care Entities (Topic 954) Presentation of Insurance Claims and Related Insurance Recoveries*. This ASU prohibits a healthcare entity from netting insurance recoveries against related claim liabilities for reporting purposes. Additionally, this ASU requires that the amount of the claim liability be determined without consideration of insurance recoveries. This ASU is effective for SHS on January 1, 2011. The adoption of this standard did not have a material impact on SHS' consolidated balance sheet.

(3) Net Patient Service Revenue

SHS has agreements with third-party payors that provide for payments at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- **Medicare**

Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries at GSRMC and SAGH are paid based on prospectively determined rates. These rates vary according to a patient classification system that is based on the resources used to treat Medicare patients in those classifications. Disproportionate share hospital and graduate medical education adjustments are reimbursed at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary.

Three of SHS' facilities (MVH, SPCH, and SNLH) are Critical Access Hospitals (CAH). CAHs are exempt from both inpatient and outpatient prospective payment systems. Inpatient and outpatient services rendered to Medicare program beneficiaries at CAHs are reimbursed based on costs. CAHs are reimbursed based on tentative rates with final settlement determined after submission of annual cost reports and audits thereof by the Medicare fiscal intermediary. Under Medicare, CAH cost reimbursement is not subject to the lower of costs or charges.

- **Medicaid**

Inpatient services rendered to Medicaid program beneficiaries at GSRMC and SAGH are paid at prospectively determined rates. Outpatient services rendered to Medicaid program beneficiaries are reimbursed at 80% of costs. The hospitals are reimbursed at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the state's Medicaid agency.

Inpatient and outpatient services rendered to Medicaid program beneficiaries at CAHs are reimbursed based on costs. CAHs are reimbursed based on tentative rates with final settlement determined after submission of annual cost reports and audits thereof by the state's Medicaid agency. Under Medicaid, CAH cost reimbursement is subject to the lower of costs or charges.

Revenue from the Medicare and Medicaid programs accounted for approximately 35% and 12%, respectively, of SHS' net patient service revenue in 2011 and 36% and 10%, respectively, of SHS' net patient service revenue in 2010. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates will change by a material amount in the near term. In 2011 and 2010, net patient service revenue includes \$1.829 and \$4.899, respectively, relating to favorable settlements of prior years' reimbursement from the Medicare and Medicaid programs.

SHS also has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

As a result of recently enacted federal health care reform legislation, substantial changes are anticipated in the U S health care system. Such legislation includes numerous provisions affecting the delivery of health care services, the financing of health care costs, payments to health care providers, and the legal obligations of health insurers, providers and employers. These provisions are currently slated to take effect at specified times over approximately the next decade.

(4) Samaritan North Lincoln Affiliation Agreement

On January 1, 2001, SHS entered into a long-term lease of a hospital facility and certain equipment with North Lincoln Health District (NLH-District) whereby SHS operates the hospital as Samaritan North Lincoln Hospital (SNLH). SHS has agreed to lease SNLH from NLH-District for a period of 30 years, with a termination date of December 31, 2030. Both parties have the right to terminate the lease without cause with five years' written notice at any time after December 31, 2005. Both parties have the right to terminate the lease for cause with one year's written notice.

Effective January 1, 2001, NLH-District made a net working capital transfer to SHS of certain current assets and current liabilities related to the operation of SNLH. Upon termination of the lease agreement, SHS is required to remit the balance of the adjusted net working capital account back to NLH-District. Neither party has elected to terminate the contract as of December 31, 2011. The net working capital transfer balance of \$3,966 and \$3,859 is included in other liabilities in the consolidated balance sheets as of December 31, 2011 and 2010, respectively.

All payments made by SHS to NLH-District as a contribution towards maintaining the SNLH facility and equipment are to be held in a Capital Improvement and Replacement Fund (CIRF). The CIRF, as well as equipment purchased through the CIRF, is the property of NLH-District, however, under the terms of the agreement, SHS has the right to direct the use of CIRF funds to purchase equipment and other capital additions for SNLH. Effective in 2009, SNLH agreed to transfer 10% of net income to NLH-District to fund the CIRF. SNLH has recorded \$0 and \$113 in other current liabilities in the consolidated balance sheets as of December 31, 2011 and 2010, respectively.

As provided by the agreement, NLH-District is required to make payments to SHS for 90% of NLH-District's maximum annual authorized property tax operating levy. SNLH has recorded \$1,005 and \$1,009 as other operating revenue related to these property tax operating levy amounts provided by NLH-District during 2011 and 2010, respectively. SNLH has recorded \$619 and \$597 related to this operating tax levy in other receivables in the consolidated balance sheets as of December 31, 2011 and 2010, respectively.

(5) Samaritan Pacific Communities Affiliation Agreement

On January 1, 2002, SHS entered into a long-term management agreement with Pacific Communities Health District (PCH-District) whereby SHS operates the hospital as Samaritan Pacific Health Services dba Samaritan Pacific Communities Hospital (SPCH). SHS has agreed to operate SPCH for a period of 30 years, with a termination date of December 31, 2031. Both parties have the right to terminate the agreement without cause with five years' written notice at any time after December 31, 2006. Both parties have the right to terminate the lease for cause with one year's written notice.

(Dollars in thousands)

Effective January 1, 2002, PCH-District made a net working capital transfer to SHS of certain current assets and current liabilities related to the operation of SPCH. Upon termination of the agreement, SHS is required to remit the balance of the adjusted net working capital account back to PCH-District and sell PCH-District all fixed assets acquired after commencement of the agreement at half of net book value. Neither party has elected to terminate the contract as of December 31, 2011. The net working capital transfer balance of \$4.880 and \$4.898 is included in other liabilities in the consolidated balance sheets as of December 31, 2011 and 2010, respectively.

As provided by the agreement, PCH-District is required to make payments to SHS for 70% of PCH-District's maximum annual authorized property tax operating levy. SPCH has recorded \$786 and \$739 as other operating revenue related to the property tax operating levy amount provided by PCH-District during 2011 and 2010, respectively. Receivables of \$490 and \$467 related to this operating tax levy are included in other receivables in the consolidated balance sheets as of December 31, 2011 and 2010, respectively.

(6) Charity Care and Other Community Benefit Services

As part of its charitable mission to enhance and improve health in the community, SHS provides healthcare services to people in need, including charity care for those patients needing financial assistance and services to patients covered by Medicare, Medicaid, and other public programs where the costs of care exceed reimbursement from these programs. In addition, SHS sponsors other activities that benefit the community.

The following represents the estimated cost of providing these services and activities, along with descriptions of selected activities during 2011 and 2010.

(a) Charity Care and Public Programs

Charity care Consistent with its charitable mission, SHS provides medically necessary patient care services that are discounted or free of charge to uninsured or underinsured persons who qualify for assistance due to insufficient resources. The criteria for charity care assistance is determined based on eligibility for insurance coverage, household income, qualified assets, catastrophic medical events, eligibility for other means-tested government programs, and/or other information supporting a patient's inability to pay for services provided. In addition to a 10% discount for all uninsured patients, SHS makes full subsidies available for patients whose household income is at or below 150% of the federal poverty level (FPL), for patients above 150% of the FPL but below 200%, discounts are available on a sliding scale.

Medicaid, Medicare, and Other Public Programs In addition to charity care, SHS provides services under various public programs for financially needy patients. The cost of providing services to Medicaid beneficiaries, including patients covered by Oregon's and other states' Medicaid programs, generally exceeds the reimbursement from these programs. SHS serves a significant population of Medicare beneficiaries, including those covered under traditional Medicare as well as Medicare managed care programs. The cost of treating these Medicare patients at certain of SHS' hospitals exceeds government payments received. Other public programs include Tricare, Veteran's Administration, and other government-sponsored programs. The cost of healthcare services for patients covered under these programs generally exceeds reimbursement.

SAMARITAN HEALTH SERVICES, INC.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

(Dollars in thousands)

The estimated cost of services provided under these programs is determined based on the relationship of total operating costs to gross charges, called the cost-to-charge ratio. Total operating costs for purposes of this ratio exclude the provision for doubtful accounts as well as costs associated with community benefit activities, such as community health services, medical education, and cash or in-kind contributions to other charitable organizations, as described below. Total cost is then offset with any related reimbursements to arrive at net community benefit cost.

(b) *Other Benefits to the Community*

Community health improvement services include community health education and clinics, such as classes and workshops on health topics for little or no charge, health screenings, support groups, resource centers and medical libraries.

Health professions education includes programs to train medical students, nurses, and other health professionals, including students in imaging, pharmacy, physical rehabilitation, laboratory, and other areas.

Subsidized health services are clinical programs provided despite a financial loss (after excluding the cost of charity care, bad debt, and unreimbursed cost of Medicaid and Medicare) because the service is needed in the community. Examples include emergency and trauma care, hospice and home health care, women's and children's services, behavioral health services, and outpatient clinic services.

Cash and in-kind contributions to charitable organizations include grants to community organizations that are selected by SHS through an application process through each hospital's social accountability committee. Applications from community organizations are evaluated based on meeting identified community health needs. Organizations that receive funding are required to report on their use of the funds. Cash contributions also include funds donated to community organizations that provide health related services in the hospital service areas. In-kind contributions include providing free medications to individuals in need who are identified through community outreach programs and regular free health clinics.

Other community benefit activities include research, community building activities, and community benefit operations. Research includes health-related studies or trials whose results benefit the public. Community building activities include community support, leadership development for community members, coalition building, and workforce development activities. Community benefit operations include SHS staff whose function is to coordinate and lead efforts to promote and track the organization's community benefit activities.

The Obligated Group is required to satisfy certain measures of financial performance as long as the bonds are outstanding under the Master Trust Indenture. At December 31, 2011 and 2010, management believes that the Obligated Group was in compliance with the terms of its debt agreements.

The Oregon Facilities Authority Revenue Refunding Bonds, Series 2010 (2010 Bonds), were issued in March 2010 in the amount of \$122,055. Interest payments on the 2010 Bonds are made monthly to an account held by the trustee. Interest is paid semi-annually and principal is paid annually beginning October 2014 and carry interest rates ranging from 4.00% to 5.25%. The 2010 Bonds maturing in the years 2030, 2035 and 2040 (the 2010 Term Bonds) are subject to mandatory redemption and sinking fund requirements beginning October 1, 2026. The proceeds from the 2010 Bonds were used to refund a portion of the Hospital Facilities Authority of Benton County Bonds Oregon Revenue and Refunding Bonds, Series 1998 (1998 Bonds), refinance other long-term and short-term debt obligations, finance certain capital construction projects, primarily an ambulatory surgery building on the GSRMC campus, and to pay expenses incurred with the issuance. SHS recognized a loss of \$541 related to the refinancing transactions.

under the 2010 Bonds, which is included in interest and amortization in the consolidated statement of operations and changes in unrestricted net assets for the year ended December 31, 2010

The Oregon Facilities Authority SNAP Revenue Bond, Series A bonds (Samaritan Health Services Project) (2009 Bonds) were issued in September 2009 in the amount of \$15,800. Payments on the 2009 Bonds are made monthly and carry an initial interest rate of 4.355%. The rate is reset every five years beginning December 30, 2017 based on the change in the five year U.S. Treasury Constant Maturity Note Index over the period plus a base rate of 4.46%. The proceeds from the 2009 Bonds were restricted for capital expenditures, primarily the construction of a facility that is owned by SHS and leased to Western University Health Sciences, and to pay expenses incurred with the issuance.

Included in long-term debt is a short-term obligation construction loan in the amount of \$2,307. Due to SHS' intent and ability to refinance this obligation on a long-term basis in 2012 and in accordance with FASB ASC 470-10-45, this amount has been excluded from the current portion of long-term debt.

Total interest cost in 2011 and 2010 was \$8,753 and \$8,817, respectively.

Scheduled principal repayments on long-term debt and payments on capital lease obligations are as follows:

The foundations' endowments consist of ten individual funds established for a variety of purposes. The endowments include both donor-restricted endowment funds and unrestricted funds designated by the boards of trustees of each of the foundations to function as endowments. Net assets associated with endowment funds, including funds designated by the boards of trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions. The foundations have adopted investment and spending policies for endowment assets to ensure appropriations for distributions are consistent with the foundations' objective of maintaining the corpus.

(12) Retirement Plans

(a) Retirement Plan

Employees aged 18 or older and having completed one year of service (12 months with at least 1,000 hours) are eligible to participate in the Samaritan Health Services Retirement Plan (SHS Retirement Plan), a defined contribution pension plan. Employer contributions are 4% of gross earnings, with an additional 4% of earnings in excess of the FICA wage base.

Employer contributions under this plan were \$10,503 and \$9,691 in 2011 and 2010, respectively, and are included in employee benefits in the consolidated statements of operations and changes in unrestricted net assets.

(b) Tax Sheltered Annuity Plan

Employees aged 18 or older and having completed one year of service (12 months with at least 1,000 hours) are eligible to participate in the Samaritan Health Services Tax Sheltered Annuity Plan (SHS TSA Plan). The level of contribution depends on, among other things, the level of employee contributions to individual tax sheltered annuity accounts, matching up to 2% of the employees' gross earnings. SHS suspended the employer match to the SHS TSA Plan for all noncontractual employees for a period of time during 2010.

Employer contributions under this plan were \$4,445 and \$2,959 in 2011 and 2010, respectively, and are included in employee benefits in the consolidated statements of operations and changes in unrestricted net assets.

(c) Defined Benefit Plan

GSRMC has a noncontributory defined benefit pension plan (the Plan) covering GSRMC employees hired prior to 2001 who elected not to join the SHS Retirement Plan. The Plan benefits are based on years of service and the employees' compensation during the term of employment. Contributions are intended to provide for benefits attributed to service to date and for those expected to be earned in the future. GSRMC's policy has been to contribute for each plan year an amount between the minimum and maximum contribution allowed under Internal Revenue Service (IRS) regulations.

The retirement benefits of all participants in the Plan were frozen effective December 31, 2011 (Freeze Date). No benefit service after the Freeze Date will be taken into account in determining a participant's retirement benefits. After the Freeze Date, future retirement benefits will be provided by the SHS Retirement Plan and the SHS TSA Plan.

SHS recognizes the funded status of the defined benefit pension as a net asset or liability on its consolidated balance sheets. Actuarial gains and losses are generally amortized subject to the corridor, over the average remaining service life of the employees.

The following table sets forth the Plan's funded status at December 31, 2011 and 2010:

The expected long-term rate of return on plan assets is the expected weighted average rate of return on the funds invested currently and on funds to be invested in the future in order to provide for the benefits included in the projected benefit obligation. The assumptions are based on capital market assumptions and the Plan's target asset allocation. SHS monitors the expected long-term rate of return to determine if changes in those parameters cause the estimate to be outside of a reasonable range of expected returns, or if actual Plan returns over an extended period of time suggest that general market assumptions are not representative of expected Plan results.

The Plan's asset allocation at December 31 was as follows:

	<u>2011</u>	<u>2010</u>
Cash	3%	2%
Domestic equities	40	40
International equities	13	17
Domestic debt securities	30	27

Pension plan assets are managed according to an investment policy adopted by the Samaritan Health Services, Inc. Retirement Plan Trustees. The board of directors establishes overall investment objectives and delegates the authority for executing the policy to the Retirement Plan Trustees. Professional investment managers are retained to manage specific asset classes and professional consulting is utilized for investment performance reporting. The primary objective is to achieve the highest possible total return commensurate with safety and preservation of capital in real, inflation adjusted terms. The objective includes having funds invested for the long-term, which protects the principal and produces returns sufficient to meet future benefit obligations. The investment policy provides for an asset allocation that includes equities, fixed income instruments, real estate, and market neutral hedge funds. The target allocation of these asset classes are 53% equity, 27% fixed income, 10% real estate, and 10% market neutral hedge funds.

In accordance with FASB ASC 820-10-50, financial assets and financial liabilities measured at fair value are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to estimate fair value. These levels and associated valuation methodologies are described in note 16. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

(13) Commitments and Contingencies

(a) Professional Liability and Other Claims

SHS is self-insured for professional and general liability coverage through PIC, a captive insurance company wholly owned by SHS. Insurance coverage in excess of self-insured levels is carried through outside excess commercial reinsurers on a claims-made basis.

There are known claims and incidents that may result in the assertion of additional claims, as well as claims from unknown incidents that may be asserted arising from services provided to patients. SHS has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. The amount recorded as a liability for estimated losses from professional liability incidents, claims, and other was \$11.776 and \$9.791 as of December 31, 2011 and 2010, respectively, and, in management's opinion, provides an adequate reserve for loss contingencies.

(b) Litigation

SHS is involved in litigation and regulatory matters arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on SHS' future financial position or results from operations.

The healthcare industry is governed by various laws and regulations of federal, state, and local governments. These laws and regulations are subject to ongoing government review and interpretation, and include matters such as licensure, accreditation, reimbursement for patient services, and referrals for Medicare and Medicaid beneficiaries. Compliance with these laws and regulations is required for participation in government healthcare programs. Certain governmental agencies routinely investigate and pursue allegations concerning possible overpayments resulting from violation of fraud and abuse statutes by healthcare providers. These investigations may result in settlements involving fines and penalties as well as repayment of improper reimbursement.

(c) Operating Lease Commitments

SHS leases various equipment and facilities under operating leases expiring at various dates through November 2019. Total rental expense in 2011 and 2010 for all operating leases was \$5,209 and \$5,666, respectively.

Future minimum lease payments under noncancelable operating leases with terms in excess of one year are as follows for the year ending December 31:

2012	\$	2,906
2013		2,550
2014		1,703
2015		963
2016		383
Thereafter		224
	\$	<u>8,729</u>

(d) Collective Bargaining Agreements

Approximately 35% of SHS employees are covered under collective bargaining agreements, including nurses, professional employees, and service employees, with 17% of SHS employees under contracts expiring in 2012.

(14) Related-Party Disclosures

SHS has invested in certain joint ventures. During 2011, a new joint venture, Cascade View Medical Office Building, LLC, was created between GSRMC and several other parties to develop a medical office building on the GSRMC campus.

Additionally during 2011, a new joint venture, 2750 Harrison Blvd, LLC, was created between SHS and several other parties to develop a mixed-use building comprised of apartments for student housing. SHS ownership in this venture was obtained with the investment of property owned by SHS that formerly housed SHOV at a value of \$2,301 free of all structures, demolition debris, and any environmental liability. SHS is obligated to demolish and abate the property and has recorded an estimated liability of \$800 for such demolition, which is recorded in accounts payable in the consolidated balance sheet as of December 31, 2011.

(16) Fair Value of Financial Instruments

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that SHS has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Cash and Cash Equivalents Valued at fair value based on face value or cost plus accrued interest, which approximates fair value because of the short maturity of these investments.

Certificates of Deposit Valued at fair value based on quoted market prices.

Mutual Funds Valued at the net asset value of shares held by at year end, based on published market quotations on active markets.

Fixed Income Valued at fair value based on quoted market prices in an active market.

Real Estate Properties Valued at fair value based on the net asset value of units held at year end and expressed in units.

Hedge Fund Valued at fair value of the underlying investments.

Notes to Consolidated Financial Statements

December 31, 2011 and 2010

(Dollars in thousands)

Long-Term Debt Valued at fair value using interest rates that SHS would receive on essentially risk free assets

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while SHS believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the balances of financial assets and liabilities measured at fair value on a recurring basis at December 31, 2011.
