Part IX-A - Summary of Direct Charitable Activities

Several of the activities funded by the Foundation in its fiscal year beginning June 1, 2011, and ending May 31, 2012, were to support programs of major universities and other non-profits in the area of stuttering and speech pathology. The specific uses of the grants were outlined in proposals received from each university and generally were not specified by the Foundation other than the general requirement that the funds were to be used to support activities regarding stuttering and speech pathology.

The Foundation also continued support of two doctoral level fellowships for students concentrating their studies on the problem of stuttering. The grants were made to the universities, not to the individuals. The universities selected the candidates, and the programs are entirely under the direction of the universities.

The programs included therapy for people who stutter and instruction for speech language pathology students, including fellowships for doctoral degree candidates. Some of the funds were used by the universities to set up family counseling programs to help children who stutter. In many communities across the country, these university clinics provide a unique service. They also serve to provide a teaching base for the students. Some of the funds were used for research regarding stuttering.

Grants totaling \$52,900.00 were made for this purpose. See schedule attached for Part XV for a detailed list of these grants.

In addition to the foregoing, the Foundation made seventeen other contributions in the total amount of \$255,000.00 to other exempt organizations for educational, scientific, religious and general charitable purposes. Those contributions are also listed on the schedule attached to Part XV. Total of all grants and contributions was \$307,900.00.
