THE UNCOMMON INDIVIDUAL FOUNDATION

E.I.N. 22-2741682

Form 990-PF, Page 7, Part IX-A, Line 1

FYE June 30, 2012

The mission of the Uncommon Individual Foundation ("UIF") is to research, educate, activate, and encourage the use of mentoring in its original and most natural form. It is guided by the belief that every individual is singularly unique and has an identifiable *core strength*. Our research indicates that an individual's self-defined success in life is ultimately realized by having *knowledge* of their core strength and *empowering* themselves with the Passion to use it in the development, pursuit and navigation of their self-defined *dreams*. We are also encouraging each individual to engage mentoring to "*Undertake the Enterprise of their Own Life*" to develop and pursue their *positive dreams* in order to accomplish their self-determined happiness.

For over 25 years, the UIF has educated and trained many individuals in scores of mentoring programs in throughout the country. We originally used only printed material to educate train and encourage mentors, protégés and coordinators. We produced over 50 training manuals, which have been distributed to thousands of participants who then continued to receive training from the Foundation. We continue to do this work for several organizations and many governmental agencies and non-profit groups. In the past eight years, we have also planned, developed, and implemented technology applications for our core mission. Several high schools, universities, public and private foundations are utilizing our services by educating participants in the use of our web based applications. UIF is also mentoring organizations and endowing them to utilize our internal resources.

Based on its continuing research, the UIF educates and actively stresses, in contrast to conventional mentoring practice, that real mentoring is not limited to a one-to-one relationship with an assigned mentor. Successful protégés turn everyone and everything that can inspire and assist them into a mentoring resource. For mentoring relationships to have the best opportunity to succeed, they should ultimately become protégé-driven. We encourage each individual to become the "*Entrepreneur of the Enterprise of Their Own Life*" and use it to achieve their self-defined success. To focus on such success we suggest each individual who develops their self-defined dreams, should understand Life, Liberty and the Pursuit of Happiness to achieve personal success. We believe there is a need to encourage, educate and train both mentors and protégés on how to use this powerful understanding and application of mentoring for such success.

Our mentoring applications are designed to be tailored to the needs of the individual participant. Our methods are simple, should not require extensive staff time to implement, and yet will significantly increase the effectiveness of mentor/protégé relationships. Participants who use our applications are consistently enthusiastic about the mutual benefits received by both mentors and protégés. It is, in fact, this mutuality that brings success in implementing our mission.

During the past eight years, the UIF expended considerable time and money in planning, organizing, developing and beta-testing web based applications of its core mission. This approach is designed to enable the UIF to continue to implement its mission using the Foundation's original concept of mentoring. Using all of our web-based tools (MentorSphere™, OnTrack™ to Post-Secondary Education, Discovery™, Happiness Pilot™ and Opti-Match™) each individual designs for themselves their own personal mentoring environment. Over the next several years we anticipate the need for a significant increase in our investment in this effort to meet our goals of having a fully standalone online mentoring environment.

Individual participants who desire to register and participate are endowed by the UIF to personally create their online mentoring environment and engage mentoring activity to identify and cultivate their mentoring resources. Participants are encouraged to engage these resources to form and focus their dreams and develop their passion to pursue them in their self-defined mentoring environment. Utilizing these tools, participants will have the ability to use personal inventory technology to identify their *core strength*, understand and engage their *value system*, *risk temperament*, *learning styles*, and other individual specific information to assist them in *forming*, *focusing* and *passionately pursuing* their *dreams* in *pursuit* of their *self defined personal success* (www.uif.org).

Our web-based approach is designed for individuals who wish to organize and use their self-designed mentoring environment. We however also continue to present in-person training sessions for groups who desire it. By continuing to implement its original in person mentoring education and training sessions together with its new web-based mentoring education and training applications, the UIF is positioned to be the most effective, modern, mentoring training organization in the United States.

With a firm belief in e-learning and mentoring education the UIF has begun significant development and investment in the following areas:

- (1) In November, 2011, the UIF began investing heavily in human capital and technology to expand our programs to include entrepreneurial education in the form of open system and collaborative mentoring for aspiring entrepreneurs and future business owners. UIF is currently running startup incubators in multiple locations to promote mentoring in the entrepreneurial startup space.
- (2) In March of 2012, the UIF began to invest resources in the development of the <http://dev.OnTrackpse.com/> web based platform that will focus on the importance of mentoring K-12 students towards the goal of post-secondary education as well as forming a lifelong plan. The OnTrack platform will act as a virtual mentoring environment that will also rely heavily upon UIF consultants out in the field and in the classroom for the education of students to understand how they can achieve the dream of post-secondary education and beyond.

- (3) UIF has purchased state of the art E-learning and rich media based content development and delivery systems. UIF to date has produced over 300 online rich media based learning modules that are available to the public through the internet for various mentoring and educational topics.
- (4) UIF has expanded its reach with regards to personal inventory technologies by investing heavily in the development and deployment of technology based personal assessments. UIF is continuing this work with the recent launch of <http://happinesspilot.com> which is a technology based platform consisting of several personal inventory technologies that further assist individuals in understanding who they are and what makes them unique as individuals.
- (5) In addition to the development and implementation of our web-based education and mentoring platforms, we have decided to invest heavily over the next several years in student based STEM education initiatives. Our first STEM initiative is based on aviation and all of the science, technology, engineering and math (STEM) that relates to aviation and the aviation industry. In 2013 students will begin the program by operating simulators and building full scale aircraft kits.
- (6) UIF is also working to create an application for individuals to use Mentoring to intentionally develop their individual *brain* and its activity in a positive way, to enable individuals to positively develop their own *dreams* and to then encourage them to pursue their realistic personal success.
- (7) Presently and for the last two years, the UIF has actively been in the market to purchase a large building that will accommodate in-person training and education, which includes large internship applications for interested individuals as well as many different classrooms and incubator spaces to accomplish our mission.

We anticipate that each of these activities will require a significant investment of time and capital in the coming years. For the building purchase the UIF has already reserved some of the UIF annual spending requirement in anticipation of the expected purchase price for a suitable building. By submission of Form 8940 we will be asking the IRS to approve the setting aside of funds now to enable the purchase and renovation of a building in the near future.
