Part III

Statement of Program Service Accomplishments

Check if Schedule O contains a response to any question in this Part III

1

Briefly describe the organization's mission

St Vincent Dunn Hospital is dedicated to providing spiritually-centered, holistic healthcare that sustains and improves the health of those served, with special attention to the poor and vulnerable. Both inpatient and outpatient health services are provided without regard to patient race, creed, national origin, economic status, insurance status or ability to pay. This mission extends well beyond the provision of core medical services to encompass medical and scientific research programs, the training and educating of health care professionals and active support of community-based partnerships and programs to improve health and quality of life.

2

Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ?

Yes

☒ No

If "Yes," describe these new services on Schedule O.

3

Did the organization cease conducting, or make significant changes in how it conducts, any program services?

Yes

☒ No

If "Yes," describe these changes on Schedule O.

4

Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations and section 4947(a)(1) trusts are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a

(Code) (Expenses \$ 25,278,574 including grants of \$) (Revenue \$ 28,160,601)

St Vincent Dunn Hospital (SVDH) is a 25-bed, critical access hospital serving rural Lawrence and contiguous counties and providing services without regard to a patient's race, creed, national origin, economic status, or ability to pay. During fiscal year 2012, SVDH treated 1,203 adults and children for a total of 4,212 inpatient days of service. The hospital also provided services for 43,136 outpatient visits, including 1,567 outpatient surgeries and 8,121 emergency room and minor care visits. See Schedule O for a non-exhaustive list of community benefit programs and descriptions.

4b

(Code) (Expenses \$ 796,057 including grants of \$) (Revenue \$)

St Vincent Dunn Hospital (SVDH) provides a substantial portion of its core health services to the poor, uninsured or underinsured and has proactively taken steps to address the accessibility, financing, and delivery of healthcare to the underserved. During the fiscal year ending June 30, 2012, the unreimbursed cost of free or discounted services provided to patients who were deemed indigent under state, county, or hospital guidelines was \$796,057 which included traditional charity care and unpaid costs of care for those qualifying for Medicaid or other public programs for the poor. See Schedule O for a non-exhaustive list of community benefit programs and descriptions.

4c

(Code) (Expenses \$ 172,897 including grants of \$) (Revenue \$)

In addition to core medical services, St Vincent Dunn Hospital partners with its community to assess community assets and needs and to work together to address issues impacting health and quality of life, with special emphasis on the poor and vulnerable. In fiscal year 2012, St Vincent Dunn Hospital provided \$172,897 in unbilled services to the poor and to the broader community. (When combined with the costs of free or discounted services for the poor listed in Line 4b, St Vincent Dunn Hospital provided a total community benefit of \$968,954 in fiscal year 2012.) St Vincent Dunn Hospital serves and supports its community through such programs as the Community Health and Wellness Center, and health fairs and screenings. See Schedule O for a non-exhaustive list of community benefit programs and descriptions.

Identifier	ReturnReference	Explanation
		Part I, Line 3c The organization provides medically necessary care to all patients, regardless of race, color, creed, ethnic origin, gender, disability or economic status The hospital uses a percentage of federal poverty level (FPL) to determine free and discounted care At a minimum, patients with income less than or equal to 200% of the FPL, which may be adjusted for cost of living utilizing the local wage index compared to the national wage index, will be eligible for 100% charity care write off of charges for services that have been provided to them Also, at a minimum, patients with incomes above 200% of the FPL but not exceeding 400% of the FPL, subject to adjustments for cost of living utilizing the local wage index compared to national wage index, will receive a discount on the services provided to them

Identifier	ReturnReference	Explanation
		Part I, Line 7 The cost of providing charity care, means tested government programs, and community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines The organization uses a cost accounting system that addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay) The best available data was used to calculate the amounts reported in the table For the information in the table, a cost-to-charge ratio was calculated and applied

Identifier	ReturnReference	Explanation
		Part II St Vincent Dunn Hospital promotes the health of its communities by striving to improve the quality of life within the community Research has established that factors such as economic status, employment, housing, education level, and built environment can all be powerful social determinants of health Additionally, helping to create greater capacity within the community to address a broad range of quality of life issues also impacts health St Vincent Dunn Hospital meets regularly with local organizations in the community to learn what resources are available and plan community health improvement efforts In fiscal year 2012, these organizations included Bedford Rotary Club, United Way and District 8-Indiana Emergency Management Agency

Identifier	ReturnReference	Explanation
		Part III, Line 4 The organization is a part of the St Vincent Health System consolidated audit The provision for bad debts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance The results of this review are then used to make modifications to the provision for bad debts to establish an appropriate allowance for uncollectible accounts After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances within collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies The share of the bad debt expense in fiscal year 2012 was \$ 3,396,300 at charges (\$1,469,579 at cost)

Identifier	ReturnReference	Explanation
		Part III, Line 8 Ascension Health and related health ministries follow the Catholic Health Association ("CHA") guidelines for determining community benefit CHA community benefit reporting guidelines suggest that Medicare shortfall is not treated as community benefit

Identifier	ReturnReference	Explanation
		Part III, Line 9b The organization has a written debt collection policy that also includes a provision on the collection practices to be followed for patients who are known to qualify for charity care or financial assistance If a patient qualifies for charity or financial assistance certain collection practices do not apply

Community Benefit Report	Form 990, Part III, Line 4a, 4b and 4c	St Vincent Dunn Hospital provides services including a 24-hour, physician-staffed emergency department Medical specialties available at the facility include orthopedics, ophthalmology, gastroenterology, obstetrics/gynecology and podiatry. Some of these services operate at a loss in order to ensure that comprehensive services are available to the community. Such community-focused programs improve access to healthcare, advocate for the poor and vulnerable, promote health through free education and screenings and help build better communities by improving quality of life.

Identifier	Return Reference	Explanation
Community Benefit Overview		St Vincent Dunn Hospital is part of St Vincent Health, a non-profit healthcare system consisting of 20 locally-sponsored ministries serving over 47 counties throughout Central Indiana. Sponsored by Ascension Health, the nation's largest Catholic healthcare system, St Vincent Health is one of the largest healthcare employers in the state. As part of St Vincent Health, the St Vincent Dunn vision is to deliver a continuum of holistic, high-quality health services and improve the lives and health of Indiana individuals and communities, with special attention to the poor and vulnerable. This is accomplished through strong partnerships with businesses, community organizations, local, state and federal government, physicians, St Vincent Dunn associates and others. Community benefit is not the work of a single department or group within St Vincent Dunn, but is part of the St Vincent mission and cultural fabric. It is initiated and implemented at all levels of the organization, by each ministry, and in every community.

Charity Care and Certain Other Community Benefits at Cost		Patient Services for Poor and Vulnerable Hospital and outpatient care is provided to patients that cannot pay for services, including hospitalizations, surgeries, prescription drugs, medical equipment and medical supplies. Patients with income less than 200% of the Federal Poverty level (FPL) are eligible for 100% charity care for services. Patients with incomes at or above 200% of the FPL, but not exceeding 400% of the FPL, receive discounted services based on an income-dependent sliding scale. Hospital financial counselors and health access workers assist patients in determining eligibility and in completing necessary documentation. SVDH is committed to 100% access, and is proactive in providing healthcare that leaves no one behind. Public Program Participation St Vincent Dunn Hospital participates in government programs including Medicaid, SCHIP (Hoosier Healthwise), Healthy Indiana Plan (HIP) and Medicare and assists patients in enrolling for programs for which they are eligible. Per Catholic Health Association guidelines and St Vincent Health's conservative approach, Medicare shortfall is not included as community benefit. Community Assessment True community benefit responds to the particular needs and challenges of the community, building on its unique strengths and assets. So in each of its communities, St Vincent leads or participates in a community roundtable or forum. This group brings together individuals and organizations from throughout the community who share a common interest in improving health status and quality of life. Using a variety of tools, including surveys, key person interviews, focus groups, secondary data, and data analysis professionals, the team identifies community issues and concerns. These are shared with the community at large, and a consensus is reached about priorities and available resources. In order to improve the health and quality of life of families within the community, St Vincent Dunn Hospital partnered with local businesses, city and county government, and other health agencies to conduct a survey entitled, "2012 Community Health Assessment". The assessment results will be used to create a plan to better meet Lawrence County residents' health needs. The results will be shared with city and county government agencies, and area non-profit organizations. Community Health & Wellness Center St Vincent Dunn Hospital sponsors the Community Health & Wellness Center, which provides needed healthcare and support to those in the community with little or no insurance. The Center serves all residents of Lawrence County and surrounding areas. Services include obstetrics/gynecology, pediatrics, and adult primary care. The center is also a WIC site which provides nutrition and health screening and assessment, as well as nutrition education and counseling to pregnant women and children. Health Professions Clinical Training In an effort to prepare future health care professionals, St Vincent Dunn Hospital, in collaboration with area schools, offers a variety of clinical settings and internships for undergraduate and vocational allied health professionals. In fiscal year 2012, the surgery department provided training to a student from Harrison College wherein the student learned and carried out the duties of a scrub tech. The student obtained certification after completing this training and is now a CST. Diabetes Education Diabetes is a major and growing health concern in Central Indiana. If uncontrolled, it can take a significant toll on health and lives. St Vincent Dunn offers a Diabetic Education class, a six-week course held throughout the year, free of charge. Instructors, including a nurse, dietician, physical therapist, and pharmacist, focus on problems associated with living with and managing diabetes. The professional team assists diabetics with gaining a better understanding of their disease, teaching them how to adjust their lifestyles and behaviors to develop diabetes self-management skills that will help them live healthier, longer lives. Live Well Lawrence County St Vincent Dunn Hospital associates provided baseline evaluations, instruction, and follow up checks to participants in an 8 week wellness challenge designed to help motivate teams of Lawrence County residents improve their health. Activity logs, weigh-ins, measurements, etc were checked weekly over the 8 week period, and teams were encouraged to set goals to achieve improved health. The program also included weekly lectures on health and wellness topics, as well as healthy cooking demonstrations. Community Health Education St Vincent Dunn Hospital provides health education on a number of topics and issues facing the local community throughout the year. In fiscal year 2012, the following health education was provided: nutrition, medication, exercise, and weight loss. Approximately 200 people received health education in fiscal year 2012. Report of Independent Auditors

The Board of Directors
St Vincent Health, Inc

We have audited the accompanying consolidated balance sheets of St Vincent Health, Inc as of June 30, 2012 and 2011, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of St Vincent Health, Inc's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of St Vincent Health, Inc's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of St Vincent Health, Inc's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of St Vincent Health, Inc at June 30, 2012 and 2011, and the consolidated results of its operations and changes in net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

Notes to the Consolidated Financial Statements (Dollars in Thousands)

Years Ended June 30, 2012 and 2011

1. Organization and Mission

Organizational Structure

St. Vincent Health, Inc. (the Corporation) is a member of Ascension Health. In December 2011, Ascension Health Alliance became the sole corporate member and parent organization of Ascension Health, a Catholic, national health system consisting primarily of nonprofit corporations that own and operate local health care facilities, or Health Ministries, located in 21 of the United States and the District of Columbia. In addition to serving as the sole corporate member of Ascension Health, Ascension Health Alliance serves as the member or shareholder of various other subsidiaries. Ascension Health Alliance, its subsidiaries, and the Health Ministries are referred to collectively from time to time hereafter as the System.

Ascension Health Alliance is sponsored by Ascension Health Ministries, a Public Juridic Person. The Participating Entities of Ascension Health Ministries are the Daughters of Charity of St. Vincent de Paul in the United States, St. Louise Province, the Congregation of St. Joseph, the Congregation of the Sisters of St. Joseph of Carondelet, and the Congregation of Alexian Brothers of the Immaculate Conception Province – American Province.

The Corporation, located in Indianapolis, Indiana, is a nonprofit acute care hospital system. The Corporation's hospitals provide inpatient, outpatient, and emergency care services for the residents of central Indiana. Admitting physicians are primarily practitioners in the local area. The Corporation is related to Ascension Health's other sponsored organizations through common control. Substantially all expenses of Ascension Health are related to providing health care services.

The Corporation is continuing to enhance its development as an integrated health care delivery system through relationships and affiliations with other providers, practitioners, and insurers throughout the states of Indiana and Ohio. In this connection, the Corporation has formed separate affiliation arrangements with Cardinal Health System, Inc. (Delaware County) and Columbus Regional Hospital, Inc. (Bartholomew County) to develop joint services in the communities they commonly serve. In addition, the Corporation entered into an agreement with Cincinnati Children's Medical Center to enhance the pediatric subspecialty services to Peyton Manning Children's Hospital at St. Vincent. The Corporation has also entered into an agreement with the Cleveland Clinic to manage the renal transplant program at the St. Vincent Indianapolis Hospital. None of these affiliations have resulted in significant asset transfers and have not resulted in consolidation of the related entities.

Acquisitions

Effective July 1, 2010, the Corporation acquired certain assets owned by The Care Group, LLC (TCG), Northside Cardiac Cath Lab Partnership (Northside), The Care Labs, LLC (TCL), Care Group Cardiovascular Management, LLC (CGC), and Indiana Heart Institute, LLC (IHI). Ultimate owners from these entities included physicians and non-physicians affiliated with multiple physician practices. Such acquired assets were used in the operation of a medical practice, several cardiac and vascular catheterization laboratories, a management services company, and a data collections company. In addition, CIHSCS acquired approximately four additional units of ownership interest in SVHCI, bringing its total ownership interest to approximately 74.1%. The companies were acquired as part of the Corporation's strategy to continue to enhance its services and mission by aligning with physician practices. The Corporation allocated the total purchase price of \$96,711 to assets acquired and liabilities assumed based upon estimated fair value on the acquisition date, in accordance with generally accepted accounting principles. The transaction was financed primarily through a promissory note with a final payment made on July 1, 2012.

The Corporation purchased CorVasc MD's, PC (CorVasc), a cardiovascular physician group, effective July 1, 2011, for a total purchase price of \$2,907. CorVasc is operated under the Corporation's subsidiary SVMG.

The Corporation purchased Women's Health Alliance, PC (WHA) and Coest Laboratories, Inc (COEST) effective April 1, 2012, for a total purchase price of \$1,548. WHA is a group of obstetrics and gynaecology physicians. WHA and COEST are operated under the Corporation's subsidiary St. Vincent Carmel Hospital, Inc.

Consistent with the Corporation's policy and historical practice, the Corporation utilized independent third-party appraisers and advisors in estimating the fair market value of acquired assets and liabilities assumed, as well as the commercial reasonableness of the transactions.

Mission

The System directs its governance and management activities toward strong, vibrant, Catholic Health Ministries united in service and healing and dedicates its resources to spiritually centered care which sustains and improves the health of the individuals and communities it serves. In accordance with the System's mission of service to those persons living in poverty and other vulnerable persons, each Health Ministry accepts patients regardless of their ability to pay. The System uses four categories to identify the resources utilized for the care of persons living in poverty and community benefit programs:

- Traditional charity care includes the cost of services provided to persons who cannot afford health care because of inadequate resources and/or who are uninsured or underinsured.
- Unpaid cost of public programs, excluding Medicare, represents the unpaid cost of services provided to persons covered by public programs for persons living in poverty and other vulnerable persons.
- Cost of other programs for persons living in poverty and other vulnerable persons includes unreimbursed costs of programs intentionally designed to serve the persons living in poverty and other vulnerable persons of the community, including substance abusers, the homeless, victims of child abuse, and persons with acquired immune deficiency syndrome.
- Community benefit consists of the unreimbursed costs of community benefit programs and services for the general community, not solely for the persons living in poverty, including health promotion and education, health clinics and screenings, and medical research.

Discounts are provided to all uninsured patients, including those with the means to pay. Discounts provided to those patients who did not qualify for assistance under charity care guidelines are not included in the cost of providing care of persons living in poverty and community benefit programs. The cost of providing care of persons living in poverty and community benefit programs is estimated using internal cost data and is calculated in compliance with guidelines established by both the Catholic Health Association (CHA) and the Internal Revenue Service (IRS).

1. Organization and Mission (continued)

The amount of traditional charity care provided, determined on the basis of cost, excluding the provision for bad debt expense, was approximately \$61,943 and \$52,740 for the years ended June 30, 2012 and 2011, respectively. The amount of unpaid cost of public programs, cost of other programs for persons living in poverty and other vulnerable persons, and community benefit cost are reported in the accompanying supplementary information.

Principles of Consolidation

All corporations and other entities for which operating control is exercised by the Corporation or one of its member corporations are consolidated, and all significant inter-entity transactions have been eliminated in consolidation.

Investments in entities where the Corporation does not have operating control are recorded under the equity or cost method of accounting. The following reflects the Corporation's interest in unconsolidated entities in the consolidated balance sheets, as well as income or loss for such entities included in the consolidated excess of revenues and gains over expenses and losses in the accompanying consolidated statements of operations and changes in net assets.

2. Significant Accounting Policies (continued)

The Corporation purchased an equity interest in Indiana Orthopaedic Hospital, LLC effective October 23, 2009, for a purchase price of \$40,000. The transaction resulted in approximately \$37,788 of goodwill. As of July 1, 2010, the remaining goodwill balance of \$36,109 is no longer amortized and is maintained within the investment in unconsolidated entities in the accompanying consolidated balance sheets.

The Corporation's equity in the net income (loss) of unconsolidated entities is recorded in other operating revenue if the investment relates to providing health care services and is recorded in other nonoperating gains (losses) if the investment relates to activities not related to providing health care services. The Corporation recorded \$19,227 and \$16,898 in other operating revenue for the years ended June 30, 2012 and 2011, respectively. The Corporation recorded \$(2,484) and \$(191) in other nonoperating gains (losses) for the years ended June 30, 2012 and 2011, respectively.

Use of Estimates

Management has made estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying value of financial instruments classified as current assets and current liabilities approximates fair value. The fair values of financial instruments classified as other than current assets and current liabilities are disclosed in the Fair Value Measurements, Long-Term Debt, Pension Plans, and Related-Party Transactions notes.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and interest-bearing deposits with maturities of three months or less.

Interest in Investments held by Ascension Health Alliance, Investments and Investment Return

At June 30, 2011 and prior to April 2012, the Corporation held a significant portion of its investments through the Health System Depository (HSD), an investment pool of funds in which the System and a limited number of nonprofit health care providers participated. The HSD investments were managed primarily by external investment managers within established investment guidelines. The value of the Corporation's investment in the HSD represented the Corporation's pro rata share of the HSD's funds held for participants. At June 30, 2011, the Corporation's investment in the HSD was \$1,737,672, reflected in cash and cash equivalents, assets limited as to use and other long term investments in the consolidated balance sheet.

During the year ended June 30, 2012, the CHIMCO Alpha Fund, LLC (Alpha Fund) was created to hold primarily all investments previously held through the HSD. Catholic Healthcare Investment Management Company (CHIMCO), a wholly owned subsidiary of Ascension Health Alliance, acts as a manager and serves as the principal investment advisor for the Alpha Fund within established investment guidelines, including socially responsible investment guidelines. In April 2012, a significant portion of the HSD's funds held for participants was transferred to the Alpha Fund, in which Ascension Health Alliance invests funds in the Alpha Fund on behalf of the Corporation. As of June 30, 2012, the Corporation has an interest in investments held by Ascension Health Alliance, which is reflected in the consolidated balance sheet, and represents the Corporation's pro rata share of Ascension Health Alliance's investment interest in the Alpha Fund.

The Corporation also invests in cash and short-term investments, U S government obligations, corporate obligations, marketable equity securities, international securities, and real estate investments which are locally managed. Most of these funds are held in locally managed foundations where the Corporation has control over foundation assets.

The Corporation reports its interest in investments held by Ascension Health Alliance in the accompanying consolidated June 30, 2012 balance sheet as a current or long-term asset, based on liquidity needs as directed by the Corporation and whether such investments are restricted by law or donors or designated for specific purposes by a governing body of the Corporation. The Corporation reports its other investments, including Foundation investments, in the accompanying balance sheets based upon the long- or short-term nature of the investments and whether such investments are restricted by law or donors or designated for specific purposes by a governing body of the Corporation.

2. Significant Accounting Policies (continued)

The Corporation's investments, including its interest in investments held by Ascension Health Alliance, are measured at fair value and are classified as trading securities. The Alpha Fund's and the HSD's investments, which are required to be recorded at fair value, are classified as trading securities and include pooled short-term investment funds, U S government, state, municipal and agency obligations, asset-backed securities, corporate and foreign fixed income maturities, and equity securities, including private equity securities. The Alpha Fund's and HSD's investments also include alternative investments, including investments in real assets, hedge funds, private equity funds, commodity funds and private credit funds, which are valued based on the net asset value of the investments. In addition, the Alpha Fund participates, and the HSD participated, in securities lending transactions whereby a portion of its investments is loaned to selected brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned.

Purchases and sales of investments are accounted for on a trade-date basis. Investment returns are comprised of dividends, interest, and gains and losses on the Corporation's investments, as well as the Corporation's return on its interest in investments held by Ascension Health Alliance and the HSD, and are reported as nonoperating gains (losses) in the consolidated statements of operations and changes in net assets, unless the return is restricted by donor or law.

Inventories

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market value utilizing the first-in, first-out (FIFO) method.

Intangible Assets

Intangible assets primarily consist of goodwill and capitalized computer software costs, including internally developed software. Costs incurred in the development and installation of internal use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage (expensed), application development stage (capitalized), or post-implementation stage (expensed). Intangible assets are included in other noncurrent assets in the accompanying consolidated balance sheets and are comprised of the following:

Total intangible assets	<u>\$ 189,562</u>	<u>\$ 182,121</u>

Intangible assets whose lives are indefinite, primarily goodwill, are not amortized and are evaluated for impairment at least annually, while intangible assets with definite lives, primarily capitalized computer software costs and other intangibles, are amortized over their expected useful lives

Computer software costs are amortized over a range of 3 to 7 years. Other finite life intangibles include lease acquisition costs and assumed contracts and are amortized over a range of 5 to 10 years. Total amortization expense for 2012 and 2011 was \$19,893 and \$17,353, respectively. The five-year amortization of computer software and other finite life intangibles is as follows: 2013 – \$19,574, 2014 – \$16,059, 2015 – \$13,509, 2016 – \$12,368, and 2017 – \$8,009.

Property and Equipment

Property and equipment are stated at cost or, if donated, at fair market value at the date of the gift. Depreciation is determined on a straight-line basis over the estimated useful lives of the related assets. Depreciation expense in 2012 and 2011 was \$66,922 and \$69,027, respectively.

Estimated useful lives by asset category are as follows: land improvements – 10 to 15 years, buildings – 20 to 40 years, and equipment – 3 to 10 years. Interest costs incurred as part of related construction are capitalized during the period of construction. Net interest capitalized in 2012 was \$175.

Several capital projects have remaining construction and related equipment purchase commitments of approximately \$16,055 as of June 30, 2012.

2. Significant Accounting Policies (continued)

The Corporation recognizes the fair value of asset retirement obligations, including conditional asset retirement obligations, if the fair value can be reasonably estimated in the period in which the liability is incurred. Asset retirement obligations include, but are not limited to, certain types of environmental issues which are legally required to be remediated upon an asset's retirement, as well as contractually required asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be conditional on a future event and/or where the timing or method of such settlement may be uncertain. Subsequent to initial recognition, accretion expense is recognized until the asset retirement liability is estimated to be settled.

The Corporation's most significant asset retirement obligation relates to required future asbestos remediation in certain hospital buildings. Asset retirement obligations of \$9,053 and \$8,598 as of June 30, 2012 and June 30, 2011, respectively, are recorded in other noncurrent liabilities in the accompanying consolidated balance sheets. During 2012 and 2011, there were no retirement obligations incurred and settled. Accretion expense of \$455 and \$435 was recorded in 2012 and 2011, respectively.

Noncontrolling Interest

The consolidated financial statements include all assets, liabilities, revenue and expenses of less than 100% owned or controlled entities the Corporation controls in accordance with applicable accounting guidance. Accordingly, the Corporation has reflected a noncontrolling interest for the portion of net assets not owned or controlled by the Corporation separately on the consolidated balance sheets.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the Corporation has been limited by donors to a specific time period or purpose. Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, which includes endowment funds. Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donor's wishes, primarily to purchase equipment and to provide charity care and other health and educational services. Contributions with donor-imposed restrictions that are met in the same reporting period are reported as unrestricted.

2. Significant Accounting Policies (continued)

Performance Indicator

The performance indicator is excess of revenues and gains over expenses and losses. Changes in unrestricted net assets that are excluded from the performance indicator primarily include pension and other postretirement liability adjustments, transfers to or from sponsors and other affiliates, net assets released from restrictions for property acquisitions, contributions of property and equipment, and other transfers between funds.

Operating and Nonoperating Activities

The Corporation's primary mission is to meet the health care needs in its market area through a broad range of general and specialized health care services, including inpatient acute care, outpatient services, long-term care, and other health care services. Activities directly associated with the furtherance of this purpose are considered to be operating activities. Other activities that result in gains or losses peripheral to the Corporation's primary mission are considered to be nonoperating, consisting primarily of investment return and income (loss) from certain unconsolidated joint ventures, offset by grants.

Net Patient Service Revenue, Accounts Receivable, and Allowance for Uncollectible Accounts

Net patient service revenue is reported at the estimated realizable amounts from patients, third-party payors, and others for services provided, excluding the provision for bad debt expense and including estimated retroactive adjustments under reimbursement agreements with third-party payors. Revenue under certain third-party payor agreements is subject to audit, retroactive adjustments, and significant regulatory actions. Provisions for third-party payor settlements and adjustments are estimated in the period the related services are provided and adjusted in future periods as additional information becomes available and as final settlements are determined. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenue related to prior periods increased net patient service revenue by approximately \$22,483 and \$20,664 for the years ended June 30, 2012 and 2011, respectively.

St. Vincent Health, Inc.

Notes to the Consolidated Financial Statements (continued)
(Dollars in Thousands)

2. Significant Accounting Policies (continued)

During 2012 and 2011, approximately 29% of net patient service revenue was received under the Medicare program. During 2012 and 2011, approximately 10% and 7%, respectively, was received under various state Medicaid programs. The Corporation grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor arrangements. Significant concentrations of net accounts receivable at June 30, 2012 include Medicare (17%), Medicaid (8%), Blue Cross (18%), managed care and commercial (42%), and self-pay (15%). Significant concentrations of net accounts receivable at June 30, 2011 include Medicare (17%), Medicaid (9%), Blue Cross (19%), managed care and commercial (36%), and self-pay (19%).

The provision for bad debt expense is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for bad debt expense to establish an appropriate allowance for uncollectible accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies.

The Corporation has an agreement to transfer certain patient receivables with recourse to a third party in exchange for cash at a discounted rate. The Corporation is deemed to have retained the risk of ownership of the receivables, which serve as collateral for the cash advanced to the Corporation, and the Corporation continues to reflect the receivables and related liability to the third party on its consolidated balance sheets. As of June 30, 2012 and 2011, receivables subject to this arrangement were \$21,280 and \$18,245, respectively, and are included in other current assets. The Corporation estimates its recourse obligation, which is reflected in accounts payable and other accrued liabilities.

Hospital Assessment Fee

The Indiana Hospital Association (IHA) and the Office of Medicaid Policy and Planning (OMPP) worked together to develop and implement a hospital assessment fee program as enacted by the 2011 Session of the Indiana General Assembly. The Centers for Medicare and Medicaid Services (CMS) approved the state plan amendment necessary to implement these changes with an effective date of July 1, 2011. The program will continue through June 30, 2013. Under this program, OMPP will collect an assessment fee from eligible hospitals. The fee will be used in part to increase reimbursement to eligible hospitals for services provided in both fee-for-service and managed care programs, and as the state share of disproportionate share hospital (DSH) payments. During 2012, the Corporation incurred \$57,761 in Medicaid tax under this program, which is reflected in total operating expenses in the accompanying 2012 consolidated statement of operations and changes in net assets. The Corporation earned additional Hospital Assessment Fee (HAF) reimbursement of \$103,741, which is reflected in net patient service revenue in the accompanying 2012 consolidated statement of operations and changes in net assets.

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

The Corporation recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments totaling \$2,908 for the year ended June 30, 2012, are included in total operating revenue in the accompanying consolidated statement of operations and changes in net assets.

Impairment and Nonrecurring Gains (Losses), Net

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on discounted net cash flows or other estimates of fair value.

During the years ended June 30, 2012 and 2011, the Corporation recorded total impairment expense, offset by nonrecurring gains of \$52,336 and \$(2,286), respectively. For the year ended June 30, 2012, this amount was comprised of long-lived asset impairments of approximately \$(1,830) related to the termination of an information technology service contract and nonrecurring pension curtailment gain of approximately \$54,166. For the year ended June 30, 2011, this amount was comprised of long-lived asset impairments of approximately \$(2,286) related to the termination of an information technology service contract.

Income Taxes

The member health care entities of the Corporation, an Indiana not-for-profit corporation, are primarily tax-exempt organizations under Internal Revenue Code (the Code) Section 501(c)(3) or 501(c)(2), and their related income is exempt from federal income tax under Section 501(a). The Corporation accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

At June 30, 2012, the Corporation has a net operating loss carryforward of \$12,500 which results in a deferred tax asset of \$4,577 for federal and state income tax purposes. These losses expire in varying amounts from 2024 through 2031. A valuation allowance has been recorded for the full amount of the deferred asset related to the net operating loss carryforwards due to the uncertainty regarding their use.

SVHCI members have elected, under the applicable provisions of the Code, to be taxed as a partnership, whereby taxable income is taxed directly to the members and not to SVHCI. The allocable share of earnings from SVHCI is also exempt from income tax because it is related to the Corporation's tax-exempt purpose. Accordingly, the consolidated financial statements do not include any provision for federal or state income taxes.

Regulatory Compliance

Various federal and state agencies have initiated investigations regarding reimbursement claimed by the Corporation. The investigations are in various stages of discovery, and the ultimate resolution of these matters, including the liabilities, if any, cannot be readily determined, however, in the opinion of management, the results of these investigations will not have a material adverse impact on the consolidated financial statements of the Corporation.

Reclassifications

Certain reclassifications were made to the 2011 consolidated financial statements to conform to the 2012 presentation. Such reclassifications had no impact on the change in net assets.

Subsequent Events

The Corporation evaluates the impact of subsequent events, which are events that occur after the balance sheet date but before the financial statements are issued, for potential recognition or disclosure in the financial statements as of the balance sheet date. For the year ended June 30, 2012, the Corporation evaluated subsequent events through September 11, 2012, representing the date on which the financial statements were available to be issued. During this period, there were no subsequent events that required recognition or disclosure in the financial statements. Additionally, there were no nonrecognized subsequent events that required disclosure other than those disclosed in the Subsequent Events note.

Adoption of New Accounting Standards

In January 2010, the Financial Accounting Standards Board (FASB) issued its accounting standards update (ASU) entitled *Improving Disclosure about Fair Value Measurements* in ASU No. 2010-06. This standard update clarified certain fair value measurement guidance and required that additional fair value measurement disclosures be made. The Corporation adopted a portion of this guidance during the fiscal year ended June 30, 2010, and the remaining requirements as of July 1, 2011, as required. The disclosure updates adopted as of July 1, 2011 result in the provision of additional detail within the reconciliation of beginning and ending balances for assets and liabilities measured at fair value, whose fair value inputs are based on significant unobservable inputs (i.e., Level 3 assets and liabilities). Those additional disclosure requirements are provided in the Fair Value Measurements notes. The adoption of this guidance did not have a material impact on the Corporation's consolidated financial statements for the year ended June 30, 2012.

2. Significant Accounting Policies (continued)

In August 2010, the FASB issued its accounting standards update entitled *Measuring Charity Care for Disclosure* in ASU No 2010-23. The provisions of this update require health care entities to disclose charity care based on cost measurements, defined as the direct and indirect costs of providing the charity care. The Corporation adopted this guidance on July 1, 2011, however, as the Corporation has historically used cost-based measure for the calculation and disclosure of its charity care, the adoption of this guidance did not have a material impact on the Corporation's consolidated financial statements for the year ended June 30, 2012.

Also, in August 2010, the FASB issued its accounting standards update entitled *Presentation of Insurance Claims and Related Insurance Recoveries* in ASU No 2010-24. This update applies to health care entities, and clarifies that the liabilities associated with malpractice claims or other similar liabilities must not be presented net of related anticipated insurance recoveries. Additionally, this guidance requires that such claim liabilities be calculated without consideration of insurance recoveries. The Corporation adopted the guidance in this accounting standards update as of July 1, 2011. The adoption of this guidance did not have a material impact on the Corporation's consolidated financial statements for the year ended June 30, 2012.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS)*. This accounting standards update provides clarifications to certain existing fair value measurements guidance, and includes updated guidance for certain fair value measurement principles and disclosures. The Corporation adopted this guidance as of January 1, 2012. The adoption of this guidance did not have a material impact on the Corporation's consolidated financial statements for the year ended June 30, 2012.

In July 2011, the FASB issued ASU No 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debt and the Allowance for Doubtful Accounts for Certain Health Care Entities*. This accounting standards update requires healthcare entities that recognize significant amounts of patient service revenue at the time services are rendered to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue in the statement of operations rather than as operating expense. Additional disclosures relating to sources of patient service revenue and the allowance for uncollectible accounts are also required. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011. The Corporation plans to adopt the provisions of this accounting standards update as of and for the year ended June 30, 2013, and retrospectively apply the presentation requirements to all periods presented.

3. Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-Term Investments

At June 30, 2012, the Corporation's investments are comprised of its interest in investments held by Ascension Health Alliance and certain other investments, including investments held and managed by the Corporation's foundations. At June 30, 2011, the Corporation's investments were comprised of the Corporation's pro rata share of the HSD's funds held for participants and certain other investments, including investments held and managed by foundations. Board-designated investments represent investments designated by resolution of the Board of Trustees to put amounts aside primarily for future capital expansion and improvements. Assets limited as to use primarily include investments restricted by donors. In June 2011, the Board of Trustees released the board designation on a majority of the funded depreciation accounts. 4. Fair Value Measurements

The Corporation categorizes, for disclosure purposes, assets and liabilities measured at fair value in the consolidated financial statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability, based on the best information available in the circumstances.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement of the asset or liability. The Corporation's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The Corporation follows the three-level fair value hierarchy to categorize these assets and liabilities recognized at fair value at each reporting period, which prioritizes the inputs used to measure such fair values. Level inputs are defined as follows:

Level 1 – Quoted prices (unadjusted) that are readily available in active markets or exchanges for identical assets or liabilities on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 pricing inputs include prices quoted for similar investments in active markets or exchanges or prices quoted for identical or similar investments in markets that are not active. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Significant pricing inputs that are unobservable for the asset or liability, including assets or liabilities for which there is little, if any, market activity for such asset or liability. Inputs to the determination of fair value for Level 3 assets and liabilities require management judgment and estimation.

4. Fair Value Measurements (continued)

As of June 30, 2012 and 2011, the Level 2 and Level 3 assets and liabilities listed in the fair value hierarchy tables on the following pages utilize the following valuation techniques and inputs

Cash and cash equivalents and short-term investments

Short-term investments designated as Level 2 investments are primarily comprised of commercial paper, whose fair value is based on amortized cost. Significant observable inputs include security cost, maturity, and credit rating, interest rate and par value. Cash and cash equivalents and additional short-term investments include certificates of deposit, whose fair value is based on cost plus accrued interest. Significant observable inputs include security cost, maturity, and relevant short-term interest rates.

Guaranteed pooled fund

The fair value of guaranteed pooled fund investments is based on cost plus guaranteed, annuity contract-based interest rates. Significant unobservable inputs to the guaranteed rate include the fair value and average duration of the portfolio of investments underlying the annuity contract, the contract value, and the annualized weighted-average yield to maturity of the underlying investment portfolio.

U.S. government, state, municipal and agency obligations

The fair value of investments in U.S. government, state, municipal and agency obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads.

Corporate and foreign fixed income maturities

The fair value of investments in U.S. and international corporate bonds, including commingled funds that invest primarily in such bonds and foreign government bonds, is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker/dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options.

4. Fair Value Measurements (continued)

Asset-backed securities

The fair value of U S agency and corporate asset-backed securities is primarily determined using techniques consistent with the income approach, such as a discounted cash flow model. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes.

Equity securities

The fair value of investments in U S and international equity securities is primarily determined using the calculated net asset value. The values for underlying investments are fair value estimates determined by external fund managers based on operating results, balance sheet stability, growth, and other business and market sector fundamentals.

Private equity and other investments

The fair value of private equity investments is primarily determined using techniques consistent with both the market and income approaches, based on the Corporation's estimates and assumptions in the absence of observable market data. The market approach considers comparable company, comparable transaction, and company-specific information, including, but not limited to, restrictions on disposition, subsequent purchases of the same or similar securities by other investors, pending mergers or acquisitions, and current financial position and operating results. The income approach considers the projected operating performance of the portfolio company.

Alternative investments consist of hedge funds, private equity funds, and real estate partnerships. Alternative investments are valued using net asset values as determined by external investment managers.

As discussed in the Significant Accounting Policies and the Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-Term Investment notes, the Corporation has an investment in investments held by Ascension Health Alliance and certain other investments, such as those investments held and managed by foundations. As of June 30, 2012, 17%, 52%, and 31% of total Alpha Fund assets that are measured at fair value on a recurring basis were measured based on Level 1, Level 2, and

Level 3 inputs, respectively, while 0%, 100%, and 0% of total Alpha Fund liabilities that are measured at fair value on a recurring basis were measured at such fair values based on Level 1, Level 2, and Level 3 inputs, respectively

As of June 30, 2011, 31%, 67%, and 2% of total HSD assets that were measured at fair value on a recurring basis were measured based on Level 1, Level 2, and Level 3 inputs, respectively, while 1%, 84%, and 15% of total HSD liabilities that were measured at fair value on a recurring basis were measured based on Level 1, Level 2, and Level 3 inputs, respectively

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

4. Fair Value Measurements (continued)

During the years ended June 30, 2012 and 2011, the changes in the fair value of the foregoing assets measured using significant unobservable inputs (Level 3) were comprised of the following. Transfers in or out of Level 3 are recognized as of the beginning of the reporting period. The balance at July 1, 2010, was \$963, purchases, issuances, and settlements were \$149, and transfers into Level 3 were \$49. The balance at July 1, 2011, was \$1,161, purchases, issuances, and settlements were \$239, and transfers into Level 3 were \$143, resulting in an ending balance at June 30, 2012, of \$1,543.

5. Long-Term Debt

Long-term debt consists of the following:

	June 30	
	2012	2011
Intercompany debt with Ascension Health Alliance, payable in installments through November 2051, interest (3.79% and 3.88% at June 30, 2012 and 2011, respectively) adjusted based on the prevailing blended market interest rate of underlying debt obligations	\$ 333,878	\$ 336,296

Certain members of Ascension Health Alliance formed the Ascension Health Credit Group (Senior Credit Group). Each Senior Credit Group member is identified as either a senior obligated group member, senior designated affiliate, or senior limited designated affiliate. Senior obligated group members are jointly and severally liable under a Senior Master Trust Indenture (Senior MTI) to make all payments required with respect to obligations under the Senior MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance. Though senior designated affiliates and senior limited designated affiliates are not obligated to make debt service payments on the obligations under the Senior MTI, Ascension Health Alliance may cause each senior designated affiliate to transfer such amounts as are necessary to enable the obligated group to comply with the terms of the Senior MTI, including repayment of the outstanding obligations. Additionally, each senior limited designated affiliate has an independent limited designated affiliate agreement and promissory note with Ascension Health Alliance with stipulated repayment terms and conditions, each subject to the governing law of the senior limited designated affiliate's state of incorporation. The Corporation is a senior obligated group member under the terms of the Senior MTI.

Pursuant to a Supplemental Master Indenture dated February 1, 2005, senior obligated group members, which are operating entities, have pledged and assigned to the Master Trustee a security interest in all of their rights, title, and interest in their pledged revenues and proceeds thereof.

5. Long-Term Debt (continued)

A Subordinate Credit Group, which is comprised of subordinate obligated group members, subordinate designated affiliates and subordinate limited designated affiliates, was created under the Subordinate Master Trust Indenture (the Subordinate MTI). The subordinate obligated group members are jointly and severally liable under the Subordinate MTI to make all payments required with respect to obligations under the Subordinate MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance. Though subordinate designated affiliates and subordinate limited designated affiliates are not obligated to make debt service payments on the obligations under the Subordinate MTI, Ascension Health Alliance may cause each subordinate designated affiliate to transfer such amounts as are necessary to enable the obligated group members to comply with the terms of the Subordinate MTI, including payment of the outstanding obligations. Additionally, each subordinate limited designated affiliate has an independent subordinate limited designated affiliate agreement and promissory note with Ascension Health Alliance, with stipulated repayment terms and conditions, each subject to the governing law of the subordinate limited designated affiliate's state of incorporation. The Corporation is a subordinate obligated group member under the terms of the Subordinate MTI.

The borrowing portfolio of the Senior and Subordinate Credit Group includes a combination of fixed and variable rate hospital revenue bonds, commercial paper and other obligations, the proceeds of which are in turn loaned to the Senior and Subordinate Credit Group members subject to a long-term amortization schedule of 1 to 39 years.

Certain portions of Senior and Subordinate Credit Group borrowings may be periodically subject to interest rate swap arrangements to effectively convert borrowing rates on such obligations from a floating to a fixed interest rate or vice versa based on market conditions. Additionally, Senior and Subordinate Credit Group borrowings may, from time to time, be refinanced or restructured in order to take advantage of favorable market interest rates or other financial opportunities. Any gain or loss on refinancing, as well as any bond premiums or discounts, are allocated to the Senior and Subordinate Credit Group members based on their pro rata share of the Senior and Subordinate Credit Group obligations. Senior and Subordinate Credit Group refinancing transactions rarely have a significant impact on the outstanding borrowings or intercompany debt amortization schedule of any individual Senior and Subordinate Credit Group member.

5. Long-Term Debt (continued)

The carrying amounts of intercompany debt with Ascension Health Alliance and other debt approximate fair value based on a portfolio market valuation provided by a third party

The Senior and Subordinate Credit Group financing documents contain certain restrictive covenants, including a debt service coverage ratio

As of June 30, 2012, the Senior Credit Group has a line of credit of \$1,000,000, which may be used as a source of funding for unremarketed variable rate debt (including commercial paper) or for general corporate purposes, toward which bank commitments totaling \$1,000,000 extend to November 9, 2014. As of June 30, 2012 and 2011, there were no borrowings under the line of credit

As of June 30, 2012, the Subordinate Credit Group has a \$50,000 revolving line of credit related to its letters of credit program, toward which a bank commitment of \$50,000 extends to December 27, 2012. As of June 30, 2012, \$26,607 of letters of credit had been extended under the revolving line of credit, although there were no borrowings under any of the letters of credit

The outstanding principal amount of all hospital revenue bonds of Senior and Subordinate Credit Group members is \$4,451,285, which represents 41% of the combined unrestricted net assets of the Senior and Subordinate Credit Group members at June 30, 2012

Guarantees are contingent commitments issued by the Senior and Subordinate Credit Groups, generally to guarantee the performance of a sponsored organization or an affiliate to a third party in borrowing arrangements, such as commercial paper issuances, bond financing and similar transactions. The term of the guarantee is equal to the term of the related debt, which can be as short as 30 days or as long as 27 years. The maximum potential amount of future payments the Senior and Subordinate Credit Groups could be required to make under its guarantees and other commitments at June 30, 2012, is approximately \$170,000

As discussed in the Organization and Mission note to the consolidated financial statements, St. Vincent Health completed the purchase of The Care Group, LLC (TCG) and related entities, effective July 1, 2010, which resulted in the issuance of \$91,711 of promissory notes with TCG and related entities, of which \$82,544 was paid in 2011. The remaining \$9,167 is payable in July 2012. The promissory notes bear interest at 4.25% and are secured by certain fixed assets of the Corporation

St. Vincent Health, Inc.

5. Long-Term Debt (continued)

During the years ended June 30, 2012 and 2011, interest paid was approximately \$13,141 and \$15,502, respectively. Capitalized interest was approximately \$175 for the year ended June 30, 2012.

6. Pension Plans

The Corporation participates in the Ascension Health Pension Plan (the Ascension Plan), the Ascension Health Defined Contribution Plan, and the St. Vincent Heart Center of Indiana Retirement Plan. Details of these plans are as follows:

Ascension Health Pension Plan

The Corporation participates in the Ascension Plan, a noncontributory defined benefit pension plan, which covers substantially all eligible employees of certain System entities. Benefits are based on each participant's years of service and compensation. The Ascension Plan's assets are invested in the Ascension Health Master Pension Trust (the Trust), a master trust consisting of cash and cash equivalents, equity, fixed income funds and alternative investments. The Trust also invests in derivative instruments, the purpose of which is to economically hedge the change in the net funded status of the Ascension Plan for a significant portion of the total pension liability that can occur due to changes in interest rates. Contributions to the Ascension Plan are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants. Net periodic pension cost of \$18,156 in 2012 and \$46,785 in 2011 was charged to the Corporation. Additionally, net periodic pension cost for non-Ascension Health Pension Plans of \$491 in 2012 and \$144 in 2011 was charged to the Corporation. The service cost component of net periodic pension cost charged to the Corporation is actuarially determined, while all other components are allocated based on the Corporation's pro rata share of Ascension Health's overall projected benefit obligation.

During the year ended June 30, 2012, the System approved and communicated to employees a redesign of associate retirement benefits, which affects the Ascension Plan, as well as provides an enhanced comprehensive defined contribution plan. These changes will become effective January 1, 2013. These changes resulted in the Corporation's recognition of a nonrecurring curtailment gain of \$54,166 during the year ended June 30, 2012. These changes also resulted in one-time decreases to the projected benefit obligation of \$74,664. The projected benefit obligation is included in pension and other postretirement liabilities in the accompanying consolidated balance sheets.

St. Vincent Health, Inc.

6. Pension Plans (continued)

The assets of the Ascension Plan are available to pay the benefits of eligible employees of all participating entities. In the event participating entities are unable to fulfill their financial obligations under the Ascension Plan, the other participating entities are obligated to do so. As of June 30, 2012, the Ascension Plan had a net unfunded liability of \$267,828. The Corporation's allocated share of the Ascension Plan's net unfunded liability reflected in the accompanying consolidated balance sheets at June 30, 2012 and 2011, was \$85,367 and \$76,365, respectively. Additionally, the Corporation's allocated share of the non-Ascension Plan's net unfunded liability reflected in the accompanying consolidated balance sheets at June 30, 2012 and 2011, was \$2,789 and \$2,000, respectively. As a result of updating the funded status of the Ascension Plan, Ascension Health transferred an additional pension liability of \$65,166 to the Corporation during 2012. As a result of updating the funded status of the Ascension Plan, the Corporation's allocated share of the Ascension Plan's net funded liability was reduced by \$51,342 during 2011. These transfers are included in pension and other postretirement liability adjustments in the accompanying consolidated statements of operations and changes in net assets.

As of June 30, 2012 and 2011, the fair value of the Ascension Plan's assets available for benefits was \$3,948,293 and \$3,616,141, respectively. As discussed in the Fair Value Measurements note, the Corporation, as well as the System, follows a three-level hierarchy to categorize assets and liabilities measured at fair value. In accordance with this hierarchy, as of June 30, 2012, 16%, 51%, and 33% of the Ascension Plan's assets which are measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively. With respect to the Ascension Plan's liabilities that are measured at fair value on a recurring basis, 6%, 87%, and 7% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2012. Additionally, as of June 30, 2011, 27%, 45%, and 28% of the Ascension Plan's assets which are measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively. With respect to the Ascension Plan's liabilities that are measured at fair value on a recurring basis, 0%, 17%, and 83% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2011.

6. Pension Plans (continued)

Ascension Health Defined Contribution Plan

The Corporation participates in the Ascension Health Defined Contribution Plan (the Defined Contribution Plan), a contributory and noncontributory, defined contribution plan sponsored by Ascension Health which covers all eligible associates. There are three primary types of contributions to the Defined Contribution Plan: employer automatic contributions, employee contributions, and employer matching contributions. Benefits for employer automatic contributions are determined as a percentage of a participant's salary. These benefits are funded annually, and participants become fully vested over a period of time. Benefits for employer matching contributions are determined as a percentage of an eligible participant's contributions each payroll period. These benefits are funded each payroll period and participants become fully vested in all employer contributions immediately. Defined contribution expense, representing both employer automatic contributions and employer matching contributions, was \$13,886 and \$13,114 for the years ended June 30, 2012 and 2011, respectively.

St. Vincent Heart Center of Indiana Retirement Plan

SVHCI has established a defined contribution retirement plan which covers substantially all employees. SVHCI makes a nonelective contribution which is based on the participating employee's compensation. Employees are immediately vested in this portion of the plan. In addition, SVHCI matches the participating employee's elective 401(k) contributions up to 3% of the employee's compensation. Vesting in SVHCI matching contributions is based on years of service, and such contributions are 100% vested to the employee after five years of service. Defined contribution expense, representing both employer automatic contributions and employer matching contributions, was \$1,471 and \$1,409 for the years ended June 30, 2012 and 2011, respectively.

7. Self-Insurance Programs

The Corporation participates in pooled risk programs to insure professional and general liability risks and workers' compensation risks to the extent of certain self-insured limits. In addition, various umbrella insurance policies have been purchased to provide coverage in excess of the self-insured limits. Actuarially determined amounts, discounted at 6%, are contributed to the trusts and the captive insurance company to provide for the estimated cost of claims. The loss reserves recorded for estimated self-insured professional, general liability, and workers' compensation claims include estimates of the ultimate costs for both reported claims and claims incurred but not reported and are discounted at 6% in 2012 and 2011.

St. Vincent Health, Inc.

Notes to the Consolidated Financial Statements (continued)
(Dollars in Thousands)

7. Self-Insurance Programs (continued)

In the event that sufficient funds are not available from the self-insurance programs, each participating entity may be assessed its pro rata share of the deficiency. If contributions exceed the losses paid, the excess may be returned to participating entities.

Professional and General Liability Programs

The Corporation participates in Ascension Health's professional and general liability self-insured program. Professional liability coverage is provided on an occurrence basis through a wholly owned onshore trust with a self-insured retention of \$250 per occurrence and up to \$7,500 in aggregate in compliance with participation in the Patient Compensation Fund. The Patient Compensation Fund applies to claims in excess of the primary self-insured limit. General liability coverage is provided on a claims-made basis through a wholly owned on-shore trust and offshore captive insurance company, Ascension Health Insurance, Ltd. (AHIL), with a self-insured retention of \$10,000 per occurrence with no aggregate. Excess coverage is provided through AHIL with limits up to \$185,000. AHIL also retains a 20% quota share of the first \$25,000 of umbrella excess. The remaining excess coverage is reinsured by commercial carriers. The Corporation has a deductible of up to \$100 per claim for both professional and general liability claims depending on the size of the hospital. One entity obtains professional liability coverage through a commercial policy on a claims-made basis with limits up to \$250 per occurrence and \$750 in aggregate in compliance with participation in the Patient Compensation Fund. The Patient Compensation Fund applies to claims in excess of the primary limit.

Included in operating expenses in the accompanying consolidated statements of operations and changes in net assets is professional and general liability expense through Ascension Health of \$3,091 and \$5,345 for the years ended June 30, 2012 and 2011, respectively. Included in current self-insurance liabilities on the accompanying consolidated balance sheets are professional and general liability loss reserves of approximately \$3,380 and \$3,217 at June 30, 2012 and 2011, respectively.

In addition, the Corporation maintains professional and general liability coverage for its physician groups through outside insurance agencies. Included in operating expenses in the accompanying consolidated statements of operations and changes in net assets is professional and general liability expense related to physician coverage of \$3,330 and \$1,277 for the years ended June 30, 2012 and 2011, respectively.

7. Self-Insurance Programs (continued)

Workers' Compensation

The Corporation participates in Ascension Health's workers' compensation program, which provides occurrence coverage through a grantor trust. The trust provides coverage up to \$1,000 per occurrence with no aggregate. The trust provides a mechanism for funding the workers' compensation obligations of its members. Excess insurance against catastrophic loss is obtained through commercial insurers. Premium payments made to the trust are expensed and reflect both claims reported and claims incurred but not reported.

Included in operating expenses in the accompanying consolidated statements of operations and changes in net assets is workers' compensation expense of \$5,288 and \$5,810 for the years ended June 30, 2012 and 2011, respectively.

Medical and Dental Claims

The Corporation is self-insured for medical and dental claims. The Corporation estimates its liability for covered medical and dental claims, including claims incurred but not reported, based upon historical costs incurred and payment processing experience. At June 30, 2012 and 2011, the liability for such covered medical and dental claims was \$9,700 and \$7,630, respectively, and is included in accounts payable and accrued liabilities in the accompanying consolidated balance sheets.

Rental expense under operating leases amounted to \$53,016 and \$53,028 in 2012 and 2011, respectively.

In May 2003, the Corporation sold various outpatient and professional medical office buildings (MOBs) to a real estate investment trust (REIT) and contemporaneously leased back certain space in those buildings to support ongoing ministry operations for a period of 12 years with leases extending through 2015. These space leases are being accounted for as operating leases based on their terms, and future minimum lease payments under these leases are included in the amounts reported above. The building sales were accounted for as sale-leaseback transactions, and as such, certain gains on the sales were deferred. As of June 30, 2012 and 2011, net deferred gains of \$1,050 and \$1,598, respectively, were included in other noncurrent liabilities in the accompanying consolidated balance sheets. These gains are being recognized as operating income over the related leaseback terms. In connection with that sale, the Corporation entered into a long-term ground lease for the property underlying the buildings, whereby the REIT is able to take control of the buildings for 50 years with one 25-year renewal at the option of the REIT.

9. Related-Party Transactions

The Corporation utilized various centralized programs and overhead services of the System or its other sponsored organizations, including risk management, retirement services, treasury, debt management, executive management support, internal audit services, administrative services, biomedical engineering and information technology services. The charges allocated to the Corporation for these services represent both allocations of common costs and specifically identified expenses that are incurred by the System on behalf of the Corporation. Allocations are based on relevant metrics, such as the Corporation's pro rata share of revenues, certain costs, debt, or investments to the consolidated totals of the System. The amounts charged to the Corporation for these services may not necessarily result in the net costs that would be incurred by the Corporation on a stand-alone basis. The charges allocated to the Corporation were approximately \$112,528 and \$101,208 for the years ended June 30, 2012 and 2011, respectively.

In addition to the charges discussed above, the Corporation made payments to the System of \$35,819 and \$35,505 for the years ended June 30, 2012 and 2011, representing the Corporation's share of costs to fund a System-wide information technology and process standardization project that is expected to continue through December 2014. Also, during the years ending June 30, 2012 and 2011, the Corporation transferred cash and investments of \$4,935 and \$25,487, respectively, in support of Ascension Health's strategic initiatives and Sister services. These payments are included in transfers to sponsor and other affiliates, net, in the accompanying consolidated statements of operations and changes in net assets.

The Corporation purchased \$31,008 of laboratory services in 2012 (\$28,581 in 2011) from Mid America Clinical Laboratories, LLC (MACL). SVHHS is a 25% owner of MACL.

The Corporation paid \$577 and \$802 to Suburban Health Organization (SHO) in 2012 and 2011, respectively, for items such as physician recruitment dues, third-party administration (TPA) services, and network development. SHO processed \$45,303 and \$34,150 in claim payments for the Corporation in 2012 and 2011, respectively. SVH is a Class D stockholder of SHO.

The Corporation paid \$1,688 and \$708 to NeuroOncology Equipment, LLC (Novalis) in 2012 and 2011, respectively, for rental of equipment. SVHHS is a 50% owner of Novalis.

The Corporation paid \$1,800 and \$1,635 to United Hospital Services, LLC (UHS) in 2012 and 2011, respectively, for laundry services. SVHHS is a 16.7% owner of UHS.

9. Related-Party Transactions (continued)

The Corporation paid \$615 to Breast MRI Leasing Company, LLC (Breast MRI) in both 2012 and 2011 for rental of equipment. SVHHS is a 50% owner of Breast MRI.

The Corporation paid \$2,400 and \$3,000 to Orthopaedic Consulting Services, LLC (OCS) in 2012 and 2011, respectively, for management fees. SVHHS is a 5% owner of OCS.

The Corporation participates in a joint venture arrangement for the operation of the Rehabilitation Hospital of Indiana, Inc. (RHI), a free-standing, not-for-profit, comprehensive rehabilitation facility. The Corporation guarantees 50% of the outstanding bonds and line-of-credit amounts (\$8,210 at June 30, 2012), using a supporting letter of credit for payment of principal and interest on certain debt issued on behalf of RHI. The guarantee extends through the term of the debt and expires on November 1, 2020. A long-term liability has been recorded in the accompanying consolidated balance sheets of \$90 and \$212 in 2012 and 2011, respectively, representing the fair value of this guarantee determined using a discounted cash flow analysis. The Corporation also provided RHI with a working capital loan of \$1,500 in June 2010.

The Corporation is a 34.5% owner of Advantage Health Solutions, Inc. (Advantage). SVHHS is a 50% guarantor on the minimum statutory net worth requirement with the Indiana Department of Insurance. The guarantee amount approximates \$5,272 at June 30, 2012, however, because Advantage is well in excess of the minimum statutory net worth requirements, the Corporation estimates the fair value of this guarantee to be zero.

As part of the formation of the Meridian Heights Associates, LLC joint venture with St. Vincent Carmel, St. Vincent Carmel pledged 9.51 acres of land as collateral for the financing of the joint venture. St. Vincent Carmel is a 50% owner of the Meridian Heights Associates, LLC joint venture.

The Corporation provides professional services to some of its joint ventures. The revenue received for these services was \$41,747 and \$33,194 in 2012 and 2011, respectively, and is included in other revenue in the accompanying consolidated statements of operations and changes in net assets.

The Corporation provides professional services to other members of Ascension Health. The revenue recorded for these services was \$1,710 and \$1,458 in 2012 and 2011, respectively.

10. Contingencies and Commitments

In addition to professional liability claims, the Corporation is involved in litigation and regulatory investigations arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, these matters are expected to be resolved without material adverse effect on the Corporation's consolidated balance sheets.

In September 2010, Ascension Health received a letter from the U.S. Department of Justice (the DOJ) in connection with its nationwide review to determine whether, in certain cases, implantable cardioverter defibrillators (ICDs) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. In connection with this nationwide review, the Corporation will be reviewing applicable medical records for response to the DOJ. The DOJ's investigation spans a time frame beginning in 2004 and extending through the present time. Through September 11, 2012, the DOJ has not asserted any claims against the Corporation. Ascension Health and the Corporation continue to fully cooperate with the DOJ in its investigation.

The Corporation enters into agreements with non-employed physicians that include minimum revenue guarantees. These guarantees provide financial incentives to induce physicians to relocate their practices to a health ministry that serves an area with a demonstrated community need. Guarantees are designed to assist a physician in establishing a viable medical practice in a community in order to promote the health of the community. The Corporation agrees to make payments to the physician at the end of specific time periods if the gross receipts generated by the practice do not equal or exceed a specific dollar amount. The Corporation has also entered into agreements with physician groups to provide emergency room and anesthesia coverage in areas with demonstrated community need. The Corporation guarantees to cover the costs of providing coverage if there are not sufficient patient billings that exceed the cost of providing the coverage. The carrying amounts of the liability for the Corporation's obligation under these guarantees were \$6,836 and \$3,208 at June 30, 2012 and 2011, respectively, and are included in other current and noncurrent liabilities in the accompanying consolidated balance sheets.

The maximum amount of future payments that the Corporation could be required to make under these guarantees is \$7,217. However, the Corporation is entitled to proceeds of receivables collected to offset guarantee amounts paid, which reduces the total maximum guarantee amount.

The Corporation has certain supply commitments totaling \$4,157 at June 30, 2012.

11. Subsequent Events

St Mary's Health, Inc (SMH) transferred its corporate membership from Ascension Health to the Corporation effective July 1, 2012. As of this date, the Corporation serves as the sole corporate member of SMH. The fiscal year 2013 financial statements will include SMH's financial results and assets and liabilities. The 2012 financial statements will be restated to include the historical operations and balances of SMH when the comparative 2013 financial statements are issued.
