Bachman - \$202,141. These arrangements are an industry standard and are unfunded. Due to the substantial risk of forfeiture provision, there is no guarantee that these officers will ever receive these benefits. Amounts for these arrangements are included in the deferred compensation amount.
Supplemental Information	Part III	Part I, Line 7. Incentive bonuses are calculated using an objective formula that includes clinical quality, patient, physician and employee satisfaction, and financial items. Minor modifications to increase or decrease incentive payments, within the maximum amount established for each position, may be made based on individual performance and accountabilities. In addition, one-time bonuses may be awarded to recognize exemplary performance. All payments are examined for reasonableness and are reviewed and approved by either the Executive Compensation Committee (for disqualified persons) or through management and the company's human resources function (for non-disqualified persons).

Part I, Line B, column (e)		Issue price of \$313,765,000 is the par issue price of the bonds Part II, Line 3, Column B total proceeds of issue of \$320,668,797 includes a premium of \$6,903,797 received over par from the sale of the bonds
Part I, Line C, Column E		Form 8038 for the bonds erroneously presented the issue price for the bonds as \$27,755,533, but the correct value is \$27,755,000
Part I, Line D, Column F		Form 8038 for the bonds erroneously described the refunded bonds as having been issued 4/5/2011, but the correct date is 4/27/1993
Part II, Line 4		The amounts shown here consist solely of debt service fund deposits
Part II, Column B, Line 11		\$13,336,000 of the proceeds was used to pay off a draw on a taxable line of credit which had been used to pay the termination amount on the 2006 Swap While this is a refunding debt issuance, the proceeds flowed through the project fund
Part III		Part III has not been completed with respect to the 2003C and 2003D bonds shown in columns C and D, since such bonds refunded pre-2003 bond issues Had completion of Part III been required, line 7 would have been answered "yes" for these bonds
Part IV, Line 2, Column B		Portions of this bond issue bear fixed interest rates, but some bear variable rates Hence, it is a variable yield issue for tax purposes

	Form 990, Part I, Doing Business As	Grant Medical Center, Riverside Methodist Hospital, Dublin Methodist Hospital, Doctors Hospital, and OhioHealth Neighborhood Care

Identifier	Return Reference	Explanation
	Form 990, Part I, Summary	Revenue and expense reporting for the current year reflects a change in reporting intercompany eliminations compared to prior years. Current year amounts have been reduced to reflect intercompany eliminations.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section A, line 2	Many of the persons listed in Part VII have a "business relationship" with each other by virtue of sitting on related OhioHealth entity boards. OhioHealth Corporation has an ownership interest in limited liability companies (LLCs) that provide healthcare or related services. As a member of such LLCs, OhioHealth Corporation has the right to appoint two individuals to the managing board of such LLCs. As a result, these individuals may be deemed to have a "business relationship" with each other for purposes of Part VI, Section A, Line 2. Michael J. Endres, Treasurer of OhioHealth Corporation, Kerri B. Anderson, Director of OhioHealth Corporation, and John P. McConnell, Director of OhioHealth Corporation, have a business relationship.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section A, line 7a	The West Ohio Conference of the United Methodist Church is the sole voting member of OhioHealth Corporation which in turn is the sole voting member of all subsidiary organizations. This membership is permissible under Ohio Revised Code Section 1702.13.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section A, line 7b	Revisions of the Code of Regulations that affect the rights of the Member must be approved by the Member

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 11	Corporate Finance, using a public accounting tax firm, prepares the Form 990. Multiple levels of internal review occur, as well as a presentation to the OhioHealth Board Finance and Audit Committee, prior to copies being provided to the OhioHealth Corporation Board before filing.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 12c	The conflict of interest policy has been reviewed by independent tax counsel to assure its compliance with the requirements of the Internal Revenue Service. The policy requires all officers, directors and key employees to complete an annual questionnaire pertaining to conflicts of interest. The questionnaire is administered by the General Counsel of OhioHealth, the parent company of the organization. The responses are recorded and reported to the Board in the format approved by the Chair of the Board (a community member). In the interim between questionnaires, conflicts are to be reported to the General Counsel, who will advise the conflicted officer, director or key employee on the steps required to manage or clear the conflict. Failure to report a conflict, or failure to follow the steps advised to clear the conflict, constitutes grounds for disciplinary action. Members of the governing board with a transactional conflict are required to recuse themselves from any discussion and/or vote pertaining to the conflicted transaction, and this is reflected in the minutes of the organization. Legal counsel attends Board meetings and Board committee meetings with the instruction to assure the conflict of interest policy is followed.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 15	The CEO's compensation is set by the Compensation Committee, which is composed of independent and disinterested members of the Board of Directors. The CEO's 2011 base salary and his 2011 total compensation (which includes annual incentive and all benefits) were estimated to approximate the 55th percentile. The organization's performance for FY6/30/2012 was at the 87th percentile as measured by the Balanced Scorecard using Quality, Customer Service, Worklife and Finance indicators. The Compensation Committee annually receives a report from its independent executive compensation consultant, which includes third-party comparability data for functionally-similar positions in comparable not-for-profit health systems across the United States. The annual report to the Compensation Committee, completed each fall, includes market analyses for base salaries, total cash compensation, benefits and perquisites, and aggregate total compensation values for the Chief Executive Officer, Executive Vice Presidents, Senior Vice Presidents and Entity Presidents, to support OhioHealth's qualification for the rebuttable presumption of reasonableness. The Compensation Committee reviews and approves each executive's compensation, based on performance and the compensation philosophy, and rationale for the Committee's decisions is documented in meeting minutes. With respect to non-disqualified positions, compensation is determined in the same manner as set forth above, however it is not reviewed by the Executive Compensation Committee and is instead determined by management.

Independent Auditor's Report

To the Board of Directors
OhioHealth Corporation

We have audited the accompanying consolidated balance sheet of OhioHealth Corporation (OhioHealth or the "Corporation") as of June 30, 2012 and 2011 and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of OhioHealth Corporation at June 30, 2012 and 2011 and the consolidated results of its operations and changes in net assets and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 27, 2012 on our consideration of OhioHealth Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

2. Significant Accounting Policies

The significant accounting policies used in the consolidated financial statements are summarized below

Principles of Consolidation

The consolidated financial statements include the accounts of OhioHealth and its subsidiaries (the Corporation) All significant intercompany balances and transactions have been eliminated

Cash Equivalents

The Corporation considers investments, classified as current assets, with a maturity of three months or less when purchased to be cash equivalents The Corporation's cash and cash equivalents falls into two categories, highly rated money market mutual funds, which invest in only highly rated, short-term fixed income securities, and deposits at banking institutions Historically, the only Federal insurance provided to cover any of these funds was \$250,000 per account for funds on deposit in banks provided through the Federal Deposit Insurance Corporation ("FDIC") However, as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the FDIC has temporarily expanded insurance coverage to all deposits in banking institutions to an unlimited amount until December 31, 2012 The amount on deposit in banking institutions at June 30, 2012 and 2011 were \$35,874,000 and \$33,139,000, respectively The amounts held in highly rated money market mutual funds

Cash Equivalents (continued)

were \$109,115,000 and \$157,102,000 at June 30, 2012 and 2011, respectively

Accounts Receivable

Accounts receivable are stated net of contractual allowances and the allowance for doubtful accounts. The allowance for doubtful accounts is determined utilizing a number of factors including account aging and financial class information as well as recent and historical collection activity.

Third-Party Reimbursement

The Corporation is a provider of services under contractual arrangements with the Medicare and Medicaid programs. In addition, the Corporation has other third-party reimbursement arrangements. Net patient service revenues include amounts estimated to be reimbursable by these programs under the provisions of various payment formulas. Amounts received by the Corporation for treatment of patients covered by such programs are generally less than the established billing rates. The differences between established billing rates and amounts received are deducted in arriving at net patient service revenues.

Amounts earned under the Medicare and Medicaid contractual arrangements are subject to audit by appropriate government authorities or their agents. Adequate provision has been made in the financial statements for any adjustments that may result from such audits. At June 30, 2012, final determinations have not been made for all entities for 2005 and 2007 through 2012 for Medicare and 2008 through 2012 for Medicaid. The amounts reported on the financial statements represent estimated settlements outstanding at June 30, 2012 and 2011. Gains related to prior year settlement and other reserve estimates resulted in an increase to net operating income in 2012 and 2011 of approximately \$17,960,000 and \$11,745,000, respectively. Medicare, Medicaid and Anthem represented approximately 56% and 55% of Corporation's net patient service revenues for the years ended June 30, 2012 and 2011, respectively.

The Medicare program has initiated a Recovery Audit Contractor (RAC) initiative, whereby claims subsequent to October 1, 2007 can be reviewed by contractors for validity, accuracy and proper documentation. The RAC program began for Ohio hospitals in late 2009. Since inception the Corporation has expensed approximately \$10,900,000 related to RAC.

In the health care industry, laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Corporation believes that it is in

substantial compliance with all applicable laws and regulations. Compliance with health care industry laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. As a result, there is a less than probable but greater than remote possibility as described in the accounting standards regarding the recognition of contingencies that recorded estimates will change by a material amount in the near term.

Inventories

Inventories are determined by physical count and are valued at the lower of cost or market. Inventories, generally consisting of surgical supplies, are accounted for using a weighted-average costing method. All other inventory costs are determined on the first-in, first-out method.

Property and Equipment

Additions to property and equipment have been recorded at cost, or at fair market value if acquired by gift. The carrying amounts of assets sold, retired, or otherwise disposed of and the related allowances for depreciation are eliminated from the accounts and any resulting gain or loss is included in other operating revenues (expense) as a gain (loss) on disposition of assets. Depreciation of property and equipment is provided by annual charges to expense on a straight-line basis over the estimated useful lives of the assets. Equipment under capital leases is depreciated over the shorter of the estimated useful lives or lease terms. The estimated useful lives of buildings and improvements vary generally from 10 to 40 years and the estimated useful lives of equipment vary generally from 3 to 10 years.

Goodwill

The recorded amounts of goodwill from prior business combinations are based on management's best estimates of the fair value of assets acquired and liabilities assumed at the acquisition date. Annually, the Corporation assesses goodwill for impairment. No impairment charge was recognized in the years ended June 30, 2012 and June 30, 2011.

Electronic Health Record Technology (EHR)

The American Recovery and Reinvestment Act of 2009 (ARRA) established funding in order to provide incentive payments to hospitals and physicians that implement the use of electronic health record (EHR) technology by 2014. The Corporation may receive an incentive payment for up to four years, provided the Corporation demonstrates meaningful

use of certified EHR technology for the EHR reporting period. The revenues from the incentive payments are recognized over the EHR reporting period when there is reasonable assurance that the Corporation will comply with eligibility requirements during the EHR reporting period and an incentive payment will be received. The amounts are recorded within other operating revenues as the incentive payments are related to the Corporation's ongoing and central activities yet not critical to the delivery of patient service.

During 2012, certain OhioHealth hospitals attested to Centers for Medicare and Medicaid Services (CMS) that they had met the first stage of meaningful use criteria for the first year EHR reporting period, which covered 90 continuous days beginning and ending in federal fiscal year 2012. As such, the incentive payments were recognized as income within other operating revenues in the amount of \$4,791,000.

Assets Limited As To Use and Restricted Foundation Investments

Assets limited as to use consists of funds held by trustee, unrestricted foundation investments, funds internally designated for future expansion and replacement, and board designated funds. Funds held by trustee are principally for debt service and payment of malpractice and general patient liability losses. Earnings on these funds are included in investment income. Restricted foundation investments consist of assets whose use by the Corporation has been restricted by the donor.

All investments in equity and debt securities, with the exception of alternative investments, are designated as trading securities and are recorded at fair value based upon quoted market prices. Alternative investments are designated as available for sale securities and recorded at estimated fair market value. The fair value of certain alternative investments has been estimated by the investment manager in the absence of readily ascertainable market values. Investment income or loss (including realized gains and losses on the sale of investments, losses on investments deemed to be other-than-temporary for alternative investments, interest, and dividends) is included in excess of revenues over expenses unless the income is restricted by donor or law. The change in unrealized gains and losses on trading securities are included in excess of revenues over expenses. Unrealized gains and losses on available for sale securities are excluded from excess of revenues over expenses.

Equity Investments

Investments in jointly owned companies and other investees in which the Corporation has an equity basis interest and does not exercise significant influence, are carried at cost, adjusted

for the entities proportionate share of their undistributed earnings or losses. These investments (\$32,386,000 and \$29,547,000 as of June 30, 2012 and 2011, respectively) are included in other assets in the accompanying balance sheets (see Note 11).

Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Cash Equivalents – The carrying amount approximates fair value because of the short maturity of those instruments.

Investments – Fair values, which are the amounts reported in the consolidated balance sheets, are based on quoted market prices. Certain alternative investments are recorded at estimated fair market value, which have been estimated by the investment manager in the absence of readily ascertainable market values.

Accounts Receivable, Estimated Third-Party Settlements, Accounts Payable and Accrued Liabilities – The carrying amount reported in the consolidated balance sheets for accounts receivable, estimated third-party settlements, accounts payable and accrued liabilities approximates its fair value.

Interest Rate Swap – The fair value of the interest rate swap agreements are based on a mark to market calculation of the value of the interest rate swap contract.

Long-Term Debt – The carrying amounts of variable rate long-term debt and capital lease obligations approximate their fair values due to the nature of the obligations. The fair value of fixed rate long-term debt is estimated using comparable issues in the security market.

Malpractice and General Patient Liability Contingencies

Because of the nature of its operations, the Corporation is, at all times, subject to pending and threatened legal actions which arise in the normal course of its activities. Malpractice and general patient liability claims for incidents which may give rise to litigation have been asserted against the Corporation by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. There are also known incidents that have occurred through June 30, 2012 and June 30, 2011, respectively, that may result in the assertion of additional claims. At June 30, 2012 and June 30, 2011, an estimate of these contingent losses has been accrued. There may be other claims from unreported incidents.

arising from services provided to patients. The reserve for medical malpractice at June 30, 2012 and 2011 includes amounts for claims and related legal expenses for these unreported incidents. The reserve was actuarially determined by combining the Corporation's historical experience and industry data. The Corporation established a trust for the purpose of setting aside assets for the payment of claims based on actuarial funding recommendations. Under the trust agreements, the trust assets can only be used for payment of malpractice losses, related expenses and the cost of administering the trust.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Corporation has been limited by donors to a specific time period or purpose. When a donor restriction expires, temporarily restricted net assets used for non-capital expenditures are reclassified to unrestricted net assets and are included in excess of revenues over expenses. The release of restrictions on temporarily restricted net assets restricted for the purchase of property and equipment are excluded from excess of revenues over expenses and are reported as an increase in unrestricted net assets.

Permanently restricted net assets have been restricted by donors to be maintained by the Corporation in perpetuity, the income from which is expendable to support health care services. The Corporation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The Corporation classifies as permanently restricted net assets the original value of gifts donated to the permanent endowment and the original value of subsequent gifts to the permanent endowment. All earnings on permanently restricted net assets during the years ended June 30, 2012 and 2011 have been included in nonoperating income in the years earned. The Corporation invests these funds consistent with the investment policies of the Corporation. The Corporation has a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation to achieve these objectives. Changes in the endowment funds (permanently restricted) are presented in the consolidated statement of changes in net assets for the years ended June 30, 2012, and 2011.

2. Significant Accounting Policies (continued)

Federal Income Taxes

OhioHealth and substantially all of its subsidiaries are tax-exempt organizations as defined under various sections of the Internal Revenues Code. With respect to the taxable corporations, income taxes are insignificant in fiscal 2012 and 2011. The Corporation files all applicable federal, state and local income tax returns. Fiscal years 2009 through 2012 are subject to audit by appropriate government authorities or their agents.

The Corporation has analyzed the tax positions taken by the Corporation and its subsidiaries and has concluded that as of June 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Charity Care and Benefits to the Community

The Corporation provides medically necessary services without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policies. In assessing a patient's ability to pay, the Corporation not only utilizes generally recognized poverty income levels of the communities it serves, but also includes certain cases where incurred charges are significant when compared to the patient's financial resources. Because the Corporation does not expect to receive payment of amounts determined to qualify as charity care, these amounts are not included in net patient service revenues. Charity care is determined based on established policies, using patient income and assets to determine payment ability. The amount reflects the cost of free or discounted health services, net of contributions and other revenues received, as direct assistance for the provision of charity care. The estimated cost of providing charity services is based on a calculation which applies a ratio of cost to charges to the gross uncompensated charges associated with providing care to charity patients. The Corporation estimates that it provided \$104,830,000 and \$84,719,000 of services to indigent patients during 2012 and 2011, respectively.

In addition, the Corporation provides community services intended to benefit the underserved and enhance the health status of the communities it serves. These services include 24 hour a day emergency rooms, community health screenings, forums for various support groups, health education classes, speakers and publications, hospice and medical research. The Corporation has been able to achieve a greater impact in the community by partnering financial and human resources with other organizations. These expenditures include a commitment to the project to reduce infant mortality, pastoral care service, various civic sponsorships, and other community partnership programs.

2. Significant Accounting Policies (continued)

Charity Care and Benefits to the Community (continued)

The Corporation's total benefit to the community includes the cost of charity care (net of assistance received from the Hospital Care Assurance Program), unpaid cost of Medicaid, and medical education programs as well as certain programs discussed above. The Corporation's benefit to the community was approximately \$230,387,000 and \$204,866,000 for the years ended June 30, 2012 and 2011, respectively. In addition, the unpaid cost of Medicare of approximately \$59,711,000 and \$62,905,000 was provided as an uncompensated service to the community for the years ended June 30, 2012 and 2011, respectively.

Hospital Care Assurance Program

The Hospital Care Assurance Program (HCAP) provides financial assistance to hospitals for care provided to the indigent. Under HCAP, hospitals are assessed amounts, which are matched with federal funds and subsequently redistributed to the hospitals. The Corporation recognized approximately \$32,189,000 and \$35,879,000 in net HCAP distributions for the years ended June 30, 2012 and 2011, respectively, recorded as a component of excess of revenues over expenses.

Operating Activities

The Corporation's primary purpose is to provide diversified health care services to the community. As such, activities related to the ongoing operations of the Corporation are classified as operating revenues. Operating revenues include those generated from direct patient care, related support services, system service fee revenues, income (loss) from equity ventures in core business patient service facilities, gains (losses) on the disposition of assets, and sundry revenues related to the operations of the Corporation. Nonoperating income (expense) includes investment income and losses, unless the income or loss is restricted by the donor, change in net unrealized gains (losses) on trading securities, realized losses deemed other than temporary on alternative investments, loss on advanced refunding of debt, change in fair value of interest rate swaps, income from non-core business equity ventures and unrestricted contributions. Excluded from the performance indicator (excess of revenues over expenses) are changes in net unrealized gains and losses on alternative investments, net assets released from restrictions used for purchase of property and equipment, and pension-related changes other than net periodic pension cost.

The Corporation provides general health care services to residents within its geographic location. Expenses related to providing these services for 2012 and 2011 include health care expenses of approximately \$1,877,567,000 and \$1,794,885,000 respectively, and general and administrative expenses of approximately \$363,996,000 and \$338,915,000, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Patient Service Revenues

The Corporation has agreements with third-party payers that provide for payments to the Corporation at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including adjustments made to estimated third-party settlements on prior year cost reports. Third-party settlements are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Conditional Asset Retirement Obligations

Financial accounting standards clarified when an entity is required to recognize a liability for a conditional asset retirement obligation. Management has considered the standards, specifically as it relates to its legal obligation to perform asset retirement activities on its existing properties and determined any potential exposure to be immaterial. Management believes that there is an indeterminate settlement date for the asset retirement obligations because the range of time over which the Corporation may settle the obligations is unknown and cannot be estimated. As a result, management cannot reasonably estimate the liability related to these asset retirement activities as of June 30, 2012 and 2011.

Noncontrolling Interests in Consolidated Financial Statements

The Corporation has noncontrolling interest, sometimes called a minority interest, which is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. In accordance with Accounting Standards Update (ASU) 2010-07 Not-for-Profit Entities (Topic 958) Not-for-Profit Entities—Mergers and Acquisitions, the Corporation consolidates excess of revenues over expenses at amounts that include the amounts attributable to both the parent and the noncontrolling interest. As a result, excess of revenues over expenses includes \$4,985,000 and \$5,767,000 for the years ended June 30, 2012 and June 30, 2011, respectively, attributable to noncontrolling interest.

Unrestricted net assets includes \$4,578,000 and \$5,882,000 for the years ended June 30, 2012 and June 30, 2011, respectively, attributable to noncontrolling interest.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 27, 2012, which is the date the financial statements were issued

New Accounting Pronouncements

During 2011, the Financial Accounting Standards Board (FASB) adopted Accounting Standards Update (ASU) 2011-07 Health Care Entities (Topic 954) *Presentation and Disclosure of Patient Service Revenues, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* establishing accounting and disclosures for healthcare entities recognize significant amounts of patient service revenues at the time services are rendered even though the entities do not assess a patient's ability to pay. The amendments in the ASU change the presentation of the statement of operations and add new disclosures that are not required under current Generally Accepted Accounting Principles for entities within the scope of this Update. The provision for bad debts associated with patient service revenues for certain entities is required to be presented on a separate line as a deduction from patient service revenues (net of contractual allowances and discounts) in the statement of operations. The ASU is effective for the Corporation for the year ending June 30, 2013.

ASU No. 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24), clarifies that health care entities should not net insurance recoveries against related claim liability unless otherwise allowed under GAAP. Further, such entities should determine the claim liabilities without considering insurance recoveries. These amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2010. The Corporation adopted the provisions of ASU 2010-24 on July 1, 2011. The adoption of ASU 2010-24 did not have a material impact on the Corporation's financial position.

3. Property and Equipment

Property and equipment is summarized as follows

	June 30	
	2012	2011
	(In Thousands)	
Land and land improvements	\$ 82,270	\$ 74,782
Buildings and fixed equipment	983,398	993,850

Accumulated depreciation	(927,470)	(906,594)
	<u>\$ 803,499</u>	<u>\$ 752,690</u>

Title to certain land and buildings of the Corporation with net book value of \$54,721,000 is held by various governmental agencies pursuant to lease agreements in connection with the issuance of tax-exempt revenues bonds. Since the terms of the leases are essentially equivalent to a purchase, such assets are included in property and equipment and are subject to depreciation over the lesser of the related estimated useful lives of the assets or lease term. The lease obligations have been recorded as long-term obligations. During fiscal year 2012 the Corporation began construction on the OhioHealth Neuroscience Institute at Riverside. The total cost will be approximately \$322,000,000, scheduled for completion in 2015.

4. Assets Limited As To Use and Restricted Foundation Investments (continued)

The Corporation is exposed to changes in fair value of foreign currency due to changes in foreign currency exchange rates. As of June 30, 2012 and 2011, the Corporation has recorded unrealized gains (losses) on foreign currency in net assets of (\$2,269,000) and \$3,780,000, respectively. All realized gains and losses on foreign currency are included in the statement of operations. The Corporation has not recorded significant realized gains or losses on foreign currency.

The following is a description of the aggregate carrying amount of investments by major type of investment carried at fair value:

	June 30	
	2012	2011
	(In Thousands)	
Money markets and short-term investments	\$ 30,088	\$ 82,479
U.S. Government obligations	649,095	511,663

Asset backed and collateralized mortgage obligations (CMO)	97,777	108,696
Alternative investments	240,206	217,280
	<u>\$ 2,146,088</u>	<u>\$ 1,958,908</u>

Of the above amounts, \$2,097,863,000 and \$1,913,044,000 are classified as assets limited as to use at June 30, 2012 and 2011, respectively. \$48,225,000 and \$45,864,000 are classified as restricted foundation investments at the same respective dates in the Corporation's consolidated financial statements.

Other-Than-Temporary Declines in Investments

OhioHealth evaluates its available-for-sale holdings for other-than-temporary declines in fair value below cost basis. If an investment is determined to have an other-than-temporary decline in fair value, the unrealized losses for the investment are realized in nonoperating income.

The Corporation records all of its investments in equity and debt securities, with the exception of alternative investments, as trading securities. Alternative investments remain classified as available-for-sale securities. Unrealized losses on alternative investments were \$368,000 and \$1,267,000 as of June 30, 2012 and 2011, respectively.

	Value	Losses	Value	Losses	Value	Losses
Alternative investments	\$ -	\$ -	\$76,907	\$(1,267)	\$76,907	\$(1,267)

For the fiscal years ended June 30, 2012 and 2011, existing impairments are temporary and no adjustments to the cost basis are deemed necessary due to the long term nature of the alternative investments. In addition, OhioHealth has the intent and ability to retain investments for a period of time sufficient to allow for the anticipated recovery in market value.

In order to evaluate the realizable value of its investments, OhioHealth evaluates the available facts and circumstances, including the investment intent, estimated twelve month target prices, and the nature of the investment. This evaluation requires significant judgment including determinations involving the estimation of the outcome of future events, and also consists of an accumulation of factors about general market conditions which reflect prospects for the economy as a whole, the specific industries, and/or the specific securities under consideration. These factors are considered by management in determining whether the security still has earnings potential in the near future, and whether the security has an anticipated recovery in market value.

The assumptions used in the measurement of the Corporation's benefit obligation are shown in the following table

	2012	2011
Assumptions - used to determine the benefit obligation as of June 30		
Discount rate	4.25%-4.57%	5.86%
Rate of compensation increase	3.00%-4.00%	3.00%-4.20%
	2012	2011
Assumptions - used to determine net periodic pension expense for the year ended		
Discount rate	5.86%	5.50%-5.75%
Expected return on plan assets	5.00%-6.50%	6.50%-7.70%
Rate of compensation increase	3.00%-4.20%	3.00%-4.30%

Asset Allocation

OhioHealth's weighted-average asset allocations and mix by asset category are as follows

	June 30			
	2012	2011	Target Range	Target
Domestic and international securities	44%	57%	30%-60%	45%
Fixed income	43%	35%	30%-50%	40%
Alternatives	13%	5%	5%-25%	15%
Cash equivalents	0%	3%	0%-5%	0%
	100%	100%		100%

OhioHealth monitors the allocation of assets on a monthly basis and utilizes a third-party investment advisor. OhioHealth's policy is to rebalance the asset allocations periodically as deemed necessary to maintain compliance with target ranges. The expected long-term rate of return on assets assumption is estimated based on expected plan returns based upon specific asset allocations, and comparing this to the historical return on plan assets.

Future Contributions

Contributions made to the Plans in fiscal year 2012 were in excess of required amounts. Estimated contributions to be made by OhioHealth into the Plans during fiscal year 2013 are \$49,100,000 based on current actuarial assumptions.

Future Benefit Payments

The benefits expected to be paid by the Plans over the next ten years, as estimated based on the same assumptions used to measure the Corporation's benefit obligation at the end of the year, are as follows

2013	\$ 26,114,000
2014	27,734,000
2015	29,114,000
2016	29,509,000
2017	31,564,000
2018-2022	213,114,000

Effective January 1, 2012, OhioHealth froze entrance for new associates to the largest non-contributory defined benefit pension plan. For associates hired after January 1, 2012, OhioHealth offers a defined contribution savings plan with an annual matching employer contribution and an automatic annual retirement contribution.

Retirement Savings Plans

The Corporation has multiple 403(b) retirement savings plans (the Retirement Plans) which include the OhioHealth Retirement Savings Plan, the Nelsonville Hospital Retirement Savings Plan, the Marion General Hospital Retirement Savings Plan, and the Hardin Memorial Hospital Retirement Savings Plan. All eligible employees who meet certain requirements as to age and length of service are eligible for the employer matching contribution, which is 50% of employee contributions ranging from 2% to 3% of the employee's salary. Expenses incurred in connection with the Retirement Plans were approximately \$13,204,000 and \$11,146,000 for the years ended June 30, 2012 and 2011, respectively.

6. Long-Term Obligations and Notes Payable (continued)

OhioHealth and certain subsidiaries have entered into a Master Trust Indenture and formed the OhioHealth Obligated Group to accomplish common financing plans. The Obligated Group consists of the Corporation, which operates Grant, Riverside, Doctors and the Dublin facilities, and the following nonprofit corporations of which the Corporation is the sole corporate member: Grady, Marion, Hardin and Nelsonville. Pursuant to this Master Trust Indenture, each member of the OhioHealth Obligated Group is jointly and severally obligated with respect to all of the Bond obligations. The terms of the OhioHealth Obligated Group's Master Trust Indenture require the OhioHealth Obligated Group members to, among other things, comply with certain financial ratios and restrict additional encumbrances.

In June 2011, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$313,765,000 Revenue and Refunding Revenue Bonds consisting of \$130,025,000 Hospital Facilities Revenue Bonds, Series 2011A, \$61,205,000 Hospital Facilities Refunding Revenue Bonds, Series 2011B, \$61,240,000 Hospital Facilities Refunding Revenue Bonds, Series 2011C, and \$61,295,000 Hospital Facilities Refunding Revenue Bonds, Series 2011D. The Series 2011 Bond proceeds were used to finance and refinance, including through reimbursement of prior capital expenditures, the acquisition, construction, installation and equipping of certain hospital facilities owned and/or operated by the Corporation and its affiliates, to refund the Series 2008A Bonds in the amount of \$186,700,000, to terminate a tax-exempt synthetic operating lease and to pay the costs of issuance relating to this financing. The Corporation recorded a defeasance loss related to the refunding of Series 2008A Bonds of \$959,000 in June 2011.

As of June 30, 2012, the Series 2011B bonds were subject to a mandatory tender date of July 2, 2012. These bonds were remarketed on July 3, 2012 with a new mandatory tender date of July 9, 2013. Since these bonds were remarketed prior to the date the financial statements were issued, these bonds are being presented on the June 30, 2012 balance sheet as long-term debt.

The OhioHealth Obligated Group's Hospital Facilities Refunding Revenue Bonds, Series 2011C of \$61,240,000, while subject to a long-term amortization period, the bonds are also subject to mandatory tenders in connection with the remarketing date of June 3, 2013 and accordingly are reflected under current liabilities as long-term debt subject to short term remarketing arrangements on the financial statements. To address the possibility that a material amount of these bonds would be tendered to the Corporation, steps have been taken to provide various sources of liquidity in such event, including maintaining unrestricted assets as a source of self-liquidity.

6. Long-Term Obligations and Notes Payable (continued)

In addition, the OhioHealth Obligated Group's Hospital Facilities Refunding Revenue Bonds, Series 2011D of \$61,295,000 are also subject to a mandatory tender to the Corporation on August 1, 2016. The Corporation has taken steps to provide various sources of liquidity.

In February 2009, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$82,900,000 Demand Hospital Facilities Refunding Revenue Bonds, Series 2009A and \$82,900,000 Demand Hospital Facilities Refunding Revenue Bonds, Series 2009B. The Series 2009A and B Bonds were issued as variable rate demand securities. These Series 2009A and B Bonds are secured by a Standby Bond Purchase Agreement (Liquidity Facility) with an expiration date of February 24, 2014.

The owners of the 2009A and B Bonds have the option to demand payment of their outstanding bond. OhioHealth has entered into a remarketing agreement that requires the remarketing agent to utilize its best efforts to remarket any such bonds that may be tendered for payment. In the event the 2009A and B Bonds cannot be remarketed, the Standby Bond Purchase Agreement provides that the liquidity provider will make payment for the 2009A and B Bonds tendered. OhioHealth has an obligation to make payments to the liquidity facility provider in equal quarterly principal installments, the first such installment being payable on the first quarterly business day following the first anniversary of the draw on the facility, such that the draw is paid in full no later than the fifth anniversary of the draw.

In November 2003, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$150,375,000, Hospital Facilities Refunding Revenue Bonds, Series 2003C-1, 2003C-2 and Series 2003D. The 2003D Bonds are secured by a letter of credit with an expiration date of January 31, 2015. The OhioHealth Obligated Group has obtained financial guaranty insurance from MBIA Insurance Corporation for the 2003 C-1 Bonds to guarantee the payment of principal and interest when due.

The owners of the 2003D Bonds have the option to demand payment of their outstanding bonds. OhioHealth has entered into a remarketing agreement that requires the remarketing agent to utilize its best efforts to remarket any such bonds that may be tendered for payment. In the event the 2003D Bonds cannot be remarketed, the letter of credit provides that the letter of credit bank will make payment for the 2003D Bonds tendered. The OhioHealth Obligated Group has an obligation to make payments to the letter of credit bank for unremarketed bonds over a period of five years from the date of a draw on the letter of credit with no principal being due in the first year.

6. Long-Term Obligations and Notes Payable (continued)

In November 1998, the County of Franklin, Ohio issued on behalf of the Doctors OhioHealth Obligated Group \$117,900,000 of County of Franklin, Ohio Hospital Facilities Revenue Bonds, Senior Series 1998A (1998A Bonds) and \$46,500,000 of County of Franklin, Ohio Variable Rate Demand Hospital Facilities Revenue Bonds, Subordinate Series 1998B (1998B Bonds). The 1998A Bonds are secured by the gross revenues and a mortgage on certain properties of the Obligated Group. In addition, Doctors OhioHealth Corporation has obtained a letter of credit from a bank expiring on December 16, 2013, to guarantee payment of the 1998B Bonds outstanding principal plus 45 days accrued interest. The letter of credit also guarantees payment for any unremarketed bonds resulting from tender drawings. Doctors OhioHealth Corporation's obligation to reimburse the letter of credit bank for draws against the letter of credit is guaranteed by OhioHealth. The final maturity of the 1998A bonds was satisfied on December 1, 2011.

The owners of the 1998B Bonds have the option to demand payment of their outstanding bonds. Doctors OhioHealth Corporation has entered into a remarketing agreement that requires the remarketing agent to utilize its best efforts to remarket any such bonds that may be tendered for payment. In the event the 1998B Bonds cannot be remarketed, the letter of credit provides that the letter of credit bank will make payment for the 1998B Bonds tendered. Doctors OhioHealth Corporation has an obligation to make payment to the letter of credit bank for unremarketed bonds by the expiration date of the letter of credit, plus any accrued interest.

In November 1996, the County of Franklin, Ohio on behalf of the OhioHealth Obligated Group issued \$168,000,000 County of Franklin, Ohio Variable Rate Demand Hospital Facilities Refunding and Improvement Revenue Bonds, Series 1996 A, B and C (1996 Bonds). The OhioHealth Obligated Group has obtained letters of credit from a bank expiring on January 31, 2015, to guarantee payment of the 1996 Bonds outstanding principal plus accrued interest. The letters of credit also guarantee payment for any unremarketed bonds resulting from tender drawings. The owners of the 1996 Bonds have the option to demand payment of their outstanding bonds. OhioHealth has entered into a Remarketing Agreement which requires the remarketing agent to utilize its best efforts to remarket any such bonds that may be tendered for payment. In the event the 1996 Bonds cannot be remarketed, the letters of credit provide that the letter of credit bank will make payment for the 1996 Bonds tendered. The OhioHealth Obligated Group has an obligation to make payment to the letter of credit bank for unremarketed bonds over a period of five years from the date of a draw on the letter of credit with no principal being due in the first year. The final maturity of the 1996C bonds was satisfied on December 1, 2011.

6. Long-Term Obligations and Notes Payable (continued)

Interest costs incurred on the above debt obligations and line of credit agreements in 2012 and 2011 were approximately \$21,104,000 and \$14,589,000, respectively. At June 30, 2012 and June 30, 2011, the Corporation capitalized interest costs of approximately \$415,000 and \$134,000, respectively, as part of the cost of various construction projects. Interest paid on the above debt obligations and line of credit agreements was approximately \$20,015,000 and \$14,443,000 for the years ended June 30, 2012 and 2011, respectively.

The fair value of fixed rate long-term debt is estimated using comparable issues in the security market. The fair values of the long-term borrowings at June 30, 2012 and 2011 were approximately \$731,600,000 and \$729,457,000, respectively.

Long-term obligation scheduled principal payments, excluding the lines of credit draw and capital leases, over the next five years are

2013	\$ 12,890,000
2014	13,310,000
2015	13,795,000
2016	14,320,000
2017	15,325,000

At June 30, 2012, the Corporation had unsecured revolving lines of credit with banks aggregating \$70,000,000. These lines of credit provide for various interest rates and payment term options selected by the Corporation. The \$50,000,000 line of credit expires on December 1, 2012 and the \$20,000,000 line of credit expires on February 17, 2013. There were no borrowings against these lines of credit at June 30, 2012 or June 30, 2011.

One of the Corporation's joint ventures has an unsecured revolving line of credit with a bank totaling \$500,000. This line of credit is at an interest rate equal to Daily LIBOR plus 250 basis points. The \$500,000 line of credit expires on June 22, 2013. The borrowing against this line of credit was \$260,000 at June 30, 2012.

8. Assets and Liabilities Measured at Fair Value

The following tables present information about the Corporation's assets and liabilities measured at fair value on a recurring basis at June 30, 2012 and June 30, 2011, and the valuation techniques used by the Corporation to determine those fair values

As a basis for considering market participant assumptions in fair value measurements, accounting standards establish a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participants assumptions (unobservable inputs classified within Level 3 of the hierarchy)

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Corporation has the ability to access

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability. Level 3 inputs are estimated by the investment manager in the absence of readily ascertainable market values

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Corporation's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability

fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs. The Corporation's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2012 and 2011.

Alternative investments are recorded at estimated fair market value, which have been estimated by the investment manager in the absence of readily ascertainable market values.

Investments in Entities that Calculate Net Asset Value per Share

The Corporation holds shares or interests in investment companies at year end where the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company. See Note 4.

At June 30, 2012 and 2011, respectively, the fair value, unfunded commitments, and redemption rules of those investments is as follows:

Investments Held at June 30, 2012 (In Thousands)

8. Assets and Liabilities Measured at Fair Value (continued)

The multi-strategy hedge fund class invests in hedge funds that pursue multiple strategies to generate investment return, diversify risks and reduce volatility. The hedge funds' composite portfolio for this class includes investments in two separate hedge fund of funds. The fair values of the investments in this class have been estimated using the net asset value per share of the investments.

The real estate funds class includes one real estate fund that invests in U.S. university student housing. The fair values of the investments in this class have been estimated using the net asset value of the company's ownership interest in partners' capital.

The private equity funds class includes two private equity funds. One invests primarily in domestic energy companies and the other invests in European and Asian private companies across a range of industries. The fair values of the investments in this class have been estimated using the net asset value of the company's ownership interest in partners' capital.

Disclosures Regarding Redemption Only Upon Liquidation

The investments in the real estate and private equity classes above can never be redeemed with the funds. Distributions from each fund will be received only as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the fund will be liquidated over the next 7 to 12 years.
