7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?	7a	Yes	
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?	7b	Yes	
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following			
а	The governing body?	8a	Yes	
b	Each committee with authority to act on behalf of the governing body?	8b	Yes	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? If "Yes," provide the names and addresses in Schedule O	9		No
	ection B. Policies (This Section B requests information about policies not required by the Internal			
ке	venue Code.)		Yes	No
10a	Did the organization have local chapters, branches, or affiliates?	10a	Yes	140
	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt			
11a	purposes? Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing	10b	Yes	
	the form?	11a	Yes	
	Describe in Schedule O the process, if any, used by the organization to review the Form 990			
	Did the organization have a written conflict of interest policy? If "No," go to line 13	12a	Yes	
	Were officers, directors or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	12b	Yes	
C	Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe in Schedule O how this was done	12c	Yes	
13	Did the organization have a written whistleblower policy?	13	Yes	
14	Did the organization have a written document retention and destruction policy?	14	Yes	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
a	The organization's CEO, Executive Director, or top management official	15a	Yes	
Ь	Other officers or key employees of the organization	15b	Yes	
	If "Yes," to line 15a or 15b, describe the process in Schedule O (see instructions)			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?	16a	Yes	
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?	16b	Yes	
Se	ection C. Disclosure			
17	List the States with which a copy of this Form 990 is required to be filed▶FL			
18	Section 6104 requires an organization to make its Form 1023 (or 1024 if applicable), 990, and 990-T (501(c) (3)s only) available for public inspection Indicate how you made these available Check all that apply			

- Own website Another's website 🔽 Upon request
- 19 Describe in Schedule O whether (and if so, how), the organization made its governing documents, conflict of interest policy, and financial statements available to the public See Additional Data Table
- 20 State the name, physical address, and telephone number of the person who possesses the books and records of the organization Buddy Elmore

5151 N 9th Ave

Pensacola, FL 32504 (850)416-7000

<u>Part VII</u> Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated Employees, and Independent Contractors

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

1a Complete this table for all persons required to be listed Report compensation for the calendar year ending with or within the organization's tax year

- ◆ List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation, and **current** key employees Enter -0- in columns (D), (E), and (F) if no compensation was paid
- List all of the organization's current key employees, if any See instructions for definition of "key employee"
- ◆ List the organization's five **current** highest compensated employees (other than an officer, director, trustee or key employee) who received reportable compensation (Box 5 of Form W-2 and/or Box 7 of Form 1099-MISC) of more than \$100,000 from the organization and any related organizations
- ◆ List all of the organization's **former** officers, key employees, or highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations

Check this box if neither the organization nor any related organizations compensated any current or former officer, director, or trustee

◆ List all of the organization's former directors or trustees that received, in the capacity as a former director or trustee of the organization, more than \$10,000 of reportable compensation from the organization and any related organizations

List persons in the following order individual trustees or directors, institutional trustees, officers, key employees, highest compensated employees, and former such persons

(A) Name and Title	(B) Average hours per week (describe hours	(C) Position (do not check more than one box, unless person is both an officer and a director/trustee)						(D) Reportable compensation from the organization (W- 2/1099-MISC)	(E) Reportable compensation from related organizations (W- 2/1099- MISC)	(F) Estimated amount of other compensation from the organization and related

4	If notices were sent and the amount on line 2c exceeds the amount on line 3, what portion of the excess does the organization agree to carryover to the reasonable estimate of nondeductible lobbying and political expenditure next year?	4	
5	Taxable amount of lobbying and political expenditures (see instructions)	5	

Part IV Supplemental Information

Dues, assessments and similar amounts from members

Complete this part to provide the descriptions required for Part I-A, line 1, Part I-B, line 4, Part I-C, line 5, and Part II-B, line 1i Also, complete this part for any additional information

Identifier	Return Reference	Explanation
Explanation of Lobbying Activities		Sacred Heart Health System does not participate in or intervene in (including the publishing or distributing of statements) any political campaign on behalf of (or in opposition to) any candidate for public office. The Exempt Organization engaged consultants to assist in various lobbying activities pertaining to state and federal health care legislation, including healthcare reform. Staff and consultants wrote letters and met personally with state and local legislators on these matters.

NΑ

Name of Hospital Facility:	
ine Number of Hospital Facility (from Schedule H, Part V, Section A):_	1

			Yes	NO
	mmunity Health Needs Assessment (Lines 1 through 7 are optional for 2011)			
1	During the tax year or any prior tax year, did the hospital facility conduct a community health needs assessment ("Needs Assessment")? If "No," skip to question 8	1		
	If "Yes," indicate what the Needs Assessment describes (check all that apply)			
	a Γ A definition of the community served by the hospital facility			
	b Demographics of the community			
	c Existing health care facilities and resources within the community that are available to respond to the health needs of the community			
	d How data was obtained			
	e The health needs of the community			
	f Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups			
	g The process for identifying and prioritizing community health needs and services to meet those needs			
	h The process for consulting with persons representing the community's interests			
	${f i}$ ${f \Gamma}$ Information gaps that limit the hospital facility's ability to assess the community's health needs			
	j			
2	Indicate the tax year the hospital facility last conducted a Needs Assessment 20			
3	In conducting its most recent Needs Assessment, did the hospital facility take into account input from persons who represent the community served by the hospital facility? If "Yes," describe in Part VI how the hospital facility took into	3		
4	account input from persons who represent the community, and identify the persons the hospital facility consulted Was the hospital facility's Needs Assessment conducted with one or more other hospital facilities? If "Yes," list the			
·	other hospital facilities in Part VI	4		
5	Did the hospital facility make its Needs Assessment widely available to the public?	5		
	If "Yes," indicate how the Needs Assessment was made widely available (check all that apply)			
	a Hospital facility's website			
	b Available upon request from the hospital facility			
	c			
6	If the hospital facility addressed needs identified in its most recently conducted Needs Assessment, indicate how (check all that apply)			
	a Adoption of an implementation strategy to address the health needs of the hospital facility's community			
	b Execution of the implementation strategy			
	c Development of a community-wide community benefit plan for the facility			
	d Participation in community-wide community benefit plan			
	e 「 Inclusion of a community benefit section in operational plans			
	f Adoption of a budget for provision of services that address the needs identified in the CHNA			
	g Prioritization of health needs in the community			
	h Prioritization of services that the hospital facility will undertake to meet health needs in its community			
	i			
7	Did the hospital facility address all of the needs identified in its most recently conducted Needs Assessment? If "No," explain in Part VI which needs it has not addressed together with the reasons why it has not addressed such needs	7		
Fir	ancial Assistance Policy			
	Did the hospital facility have in place during the tax year a written financial assistance policy that			
	Explains eligibility criteria for financial assistance, and whether such assistance includes free or discounted care?	8	Yes	
9	Used federal poverty guidelines (FPG) to determine eligibility for providing free care?	9	Yes	
	If "Yes," indicate the FPG family income limit for eligibility for free care 200 00000000000%

		Part I, L7 Col(f) The Bad Debt Expense included on Form 990, Part IX, Line 25, Column (a), but substracted for purposes of calculating the percentage in this column is \$338,037

Schedule H (Form 990) 2011 Page **8**

Identifier	ReturnReference	Explanation
		Part III, Line 4 The provision for bad debts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators Management periodically assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for bad debts to establish an appropriate allowance for uncollectible accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Health Ministry follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restriction on collection efforts as determined by Ascension Health Accounts receivable are written off after collection efforts have been followed in accordance with the Health Ministry's policies. The cost to charge ratio was used to determine the bad debt expense at cost. Bad debt expense at cost attributed to patients eligible under the organization's charity policy was calculated by using US Census data to determine the percentage of the population below 200% of the Federal
		Poverty level and applied that percentage to bad debt expense at cost as an estimate of charity in bad debt

Schedule H (Form 990) 2011 Page **8**

Identifier	ReturnReference	Explanation
		Part III, Line 8 Ascension Health and related health ministries follow the Catholic Health Association (CHA) guidelines for determining community benefit CHA community benefit reporting guidelines suggest that Medicare shortfall in not treated as community benefit The cost to charge ratio method is used in determining the shortfall

Identifier	ReturnReference	Explanation
		Part VI, Line 2 Sacred Heart Health System and Baptist Health Care have jointly-sponsored four assessments of Escambia and Santa Rosa Counties in Northwest Florida since 1995. This collaborative is named The Partnership for a Healthy Community. The studies have been widely used by the two organizations and many other health care providers in the market area to develop plans for addressing priority health needs. In 2011, the Partnership along with Escambia Community Clinics entered into an agreement with Drs Studnicki and Fisher to develop Florida HealthTrac to advance the timelines and functionality of the community needs assessment process. Florida HealthTrac studies provide current and trended data on 234 health indicators for Escambia County and 233 for Santa Rosa, report data at county and zip codes levels, and include comparisons to peer counties in the state, and state and national results. The studies also incorporate key demographic and socioeconomic data, and data on lifestyle/behavioral risk factors that impact health status. This new assessment tool will enable Sacred Heart Health System the ability to track community health needs on an annual basis as the data from the State of Florida is updated in real time. Sacred Heart Health System initiated in 2007, a study by Stroudwater Associates to determine the health needs for Walton County. Walton County is designated as a primary care Health Professional Shortage Population and a Medically Underserved Population for the low-income persons.

Schedule H (Form 990) 2011 Page **8**

Identifier	ReturnReference	Explanation
		Part VI, Line 3 Financial counselors assist individuals who do not have insurance to qualify for Medicaid, SCHIP, and other programs. Counselors are trained not only in the policy, program and form processes, but also to respond with compassion, understanding and sensitivity toward persons living in poverty. These services are available at established patient encounters such as pre-registration, registration, admissions and discharge, or at any other time requested along the continuum of patient care. Further, trained counselors may assist with charity care or discount care based on the patient's personal income, their assets, and the size of their medical services bill. A summary of financial assistance services, policies and programs are found on the health system website, posted predominately in key areas and made available through brochures. The brochure, A Guide to your Hospital Bill, outlines payment and assistance options and it can be found in most areas of the hospital including admitting, emergency department, and diagnostic services.

		59-0634434
ldentifier	Return Reference	Explanation
	Form 990, Part VI, Section A, line 2	Robert Emmanuel and Karen Emanuel have a family relationship
	Form 990, Part VI, Section A, line 6	Sacred Heart Health System, Inc. has a single corporate member, Ascension Health
	Form 990, Part VI, Section A, line 7a	Sacred Heart Health System, Inc. has a single corporate member, Ascension Health, who has the ability to elect members to the governing body of the Sacred Heart Health System, Inc.
	Form 990, Part VI, Section A, line 7b	Ascension Health has designed a system authority matrix which assigns authority for key decisions that are necessary in the operation of the system Specific areas that are identified in the authority matrix are new organizations & major transactions, governing documents, appointments/removals, evaluation, debt limits, strategic & financial plans, assets, system policies & procedures. These areas are subject to certain levels of approval by Ascension per the system authority matrix.
	Form 990, Part VI, Section B, line 11	Management, including certain officers, works diligently to complete the Form 990 and attached schedules in a thorough manner. Prior to filing the return, all Board Members are provided the Form 990 and management team members are available to answer any Board Members questions.
	Form 990, Part VI, Section B, line 12c	The organization regularly and consistently monitors and enforces compliance with the conflict of interest policy in that any director, principal officer, or member of a committee with governing board delegated powers, who has a direct or indirect financial interest, must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of the committees with governing board delegated powers considering the proposed transaction or arrangement. The remaining individuals on the governing board or committee meeting will decide if conflicts of interest exist. Each director, principal officer and member of a committee with governing board delegated powers annually signs a statement which affirms such person has received a copy of the conflicts of interest policy, has read and understands the policy, has agreed to comply with the policy, and understands that the organization is charitable and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish its tax-exempt purpose
	Form 990, Part VI, Section B, Ine 15	In determining compensation of the organization's CEO, the process included a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision. The Compensation Committee of Ascension Health review ed and approved the CEO Compensation. In the review of the compensation, the CEO was compared to other organizations that hold the same title. During the review and approval of the compensation, documentation of the decision was recorded in the board minutes. Individual was not present when her compensation was decided. In determining compensation of other officers or key employees of the organization, the process included a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision. The Compensation Committee and the Board of Directors reviewed and approved the compensation. In the review of the compensation, the other officers or key employees of the organization were compared to employees who hold the same title in other similar organizations regionally and nationally. During the review and approval of the compensation, documentation of the decision was recorded in the board minutes. Individuals were not present when their compensation was decided.
	Form 990, Part VI, Section C, Ine 19	The organization will provide any documents open to public inspection upon request
	Form 990, Part VII, Section A	Officers for Sacred Heart Health System provide services to Sacred Heart Health System and its subsidiaries Hours worked are not tracked on an entity by entity basis. Therefore, where noted with a "Sch O" reference, officers hours reported on Form 990, Part VII, compensation of officers, directors, trustees, key employees, highest compensated employees, and independent contractors represent aggregate hours worked per week for all entities.

Report of Independent Auditors

The Board of Directors Sacred Heart Health System, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Sacred Heart Health System, Inc and Subsidiaries (Sacred Heart Health System) as of June 30, 2012 and 2011, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended These financial statements are the responsibility of Sacred Heart Health System's management Our responsibility is to express an opinion on these financial statements based on our audits

We conducted our audits in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Sacred Heart Health System's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sacred Heart Health System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Sacred Heart Health System, Inc. and Subsidiaries at June 30, 2012 and 2011, and the consolidated results of their operations and changes in net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles

Notes to Consolidated Financial Statements (Dollars in Thousands)

June 30, 2012

1. Organization and Mission

Organizational Structure

Sacred Heart Health System, Inc and Subsidiaries (the Health Ministry) is a member of Ascension Health In December 2011, Ascension Health Alliance became the sole corporate member and parent organization of Ascension Health, a Catholic national health system consisting primarily of nonprofit corporations that own and operate local health care facilities, or Health Ministries, located in 21 of the United States and the District of Columbia In addition to serving as the sole corporate member of Ascension Health, Ascension Health Alliance serves as the member or shareholder of various other subsidiaries Ascension Health Alliance, its subsidiaries, and the Health Ministries are referred to collectively from time to time hereafter as the System

Ascension Health Alliance is sponsored by Ascension Health Ministries, a Public Juridic Person The Participating Entities of Ascension Health Ministries are the Daughters of Charity of St Vincent de Paul in the United States, St Louise Province, the Congregation of St Joseph, the Congregation of the Sisters of St Joseph of Carondelet, and the Congregation of Alexian Brothers of the Immaculate Conception Province – American Province

The System's principal operations consist of three nonprofit acute care hospitals Sacred Heart Hospital (located in Pensacola, Florida), Sacred Heart Hospital on the Emerald Coast (located in Destin, Florida), and Sacred Heart Hospital on the Gulf (located in Port St Joe, Florida) The System also owns and operates other health care-related entities, including a nursing facility and physicians' medical group The System provides inpatient, outpatient, and emergency care services for residents of northwest Florida Admitting physicians are primarily practitioners in the local area The System is related to Ascension Health's other sponsored organizations through common control Substantially all expenses of Ascension Health are related to providing health care services

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Organization and Mission (continued)

Mission

The System directs its governance and management activities toward strong, vibrant, Catholic Health Ministries united in service and healing and dedicates its resources to spiritually centered care that sustains and improves the health of the individuals and communities it serves. In accordance with the System's mission of service to those persons living in poverty and other vulnerable persons, each Health Ministry accepts patients regardless of their ability to pay. The System uses four categories to identify the resources utilized for the care of persons living in poverty and community benefit programs.

- Traditional charity care includes the cost of services provided to persons who cannot afford health care because of inadequate resources and/or who are uninsured or underinsured
- Unpaid cost of public programs, excluding Medicare, represents the unpaid cost of services provided to persons covered by public programs for persons living in poverty and other vulnerable persons
- Cost of other programs for persons living in poverty and other vulnerable persons includes unreimbursed costs of programs intentionally designed to serve the persons living in poverty and other vulnerable persons of the community, including substance abusers, the homeless, victims of child abuse, and persons with acquired immune deficiency syndrome
- Community benefit consists of the unreimbursed costs of community benefit programs
 and services for the general community, not solely for the persons living in poverty,
 including health promotion and education, health clinics and screenings, and medical
 research

Discounts are provided to all uninsured patients, including those with the means to pay Discounts provided to those patients who did not qualify for assistance under charity care guidelines are not included in the cost of providing care of persons living in poverty and community benefit programs. The cost of providing care of persons living in poverty and community benefit programs is estimated using internal cost data and is calculated in compliance with guidelines established by both the Catholic Health Association and the Internal Revenue Service.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Organization and Mission (continued)

The amount of traditional charity care provided, determined on the basis of cost, excluding the provision for bad debt expense, was approximately \$17,414 and \$16,816 for the years ended June 30, 2012 and 2011, respectively The amount of unpaid cost of public programs, cost of other programs for persons living in poverty and other vulnerable persons, and community benefit cost are reported in the accompanying supplementary information

2. Significant Accounting Policies

Principles of Consolidation

All corporations and other entities for which operating control is exercised by the Health Ministry or one of its member corporations are consolidated, and all significant inter-entity transactions have been eliminated in consolidation

Investments in entities where the Health Ministry does not have operating control are recorded under the equity or cost method of accounting. For entities recorded under the equity method of accounting, the following reflects the Health Ministry's interest in unconsolidated entities in the consolidated balance sheets, as well as income or loss for such entities included in the consolidated excess of revenues and gains over expenses and losses in the accompanying consolidated statements of operations and changes in net assets

					ect on Consolida Revenues and G Expenses and I Years Ended J	Sains Over Losses

	\$	38,637	\$	7,852	\$ (982) \$	1,000

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

The Health Ministry's equity in the income (loss) of unconsolidated entities is recorded in other operating revenue if the investment relates to providing health care services and is recorded in other nonoperating gains (losses) if the investment relates to activities not related to providing health care services. The Health Ministry recorded \$978 in operating loss for the year ended June 30, 2012, and \$1,001 in other operating revenue for the year ended June 30, 2011. The Health Ministry recorded \$2 and \$1 in other nonoperating losses for the years ended June 30, 2012 and 2011, respectively

The Health Ministry's equity investment in Gulf Region Radiation Oncology MSO, LLC (GRROC) does not equate to the Health Ministry's 51% ownership of GRROC's equity balance due to a difference in the cost basis and the fair market value of assets contributed. In accordance with Accounting Standards Codification (ASC) Topic 323, *Investments – Equity Method and Joint Ventures*, this basis difference is being amortized over the weighted average life of the assets contributed, net of the Health Ministry's earnings in the investment

Use of Estimates

Management has made estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, and expenses Actual results could differ from those estimates

Fair Value of Financial Instruments

The carrying values of financial instruments classified as current assets and current liabilities approximate fair value. The fair values of financial instruments classified as other than current assets and current liabilities are disclosed in Note 4.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and interest-bearing deposits with maturities of three months or less

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Interest in Investments Held by Ascension Health Alliance, Investments and Investment Return

At June 30, 2011, and prior to April 2012, the Health Ministry held a significant portion of its investments through the Health System Depository (HSD), an investment pool of funds in which the System and a limited number of nonprofit health care providers participated. The HSD investments were managed primarily by external investment managers within established investment guidelines. The value of the Health Ministry's investment in the HSD represented the Health Ministry's pro rata share of the HSD's funds held for participants. At June 30, 2011, the Health Ministry's investment in the HSD was \$222,369, reflected in cash and cash equivalents, assets limited as to use, and other long-term investments in the consolidated balance sheet

During the year ended June 30, 2012, the CHIMCO Alpha Fund, LLC (Alpha Fund) was created to hold primarily all investments previously held through the HSD Catholic Healthcare Investment Management Company (CHIMCO), a wholly owned subsidiary of Ascension Health Alliance, acts as manager and serves as the principal investment advisor for the Alpha Fund within established investment guidelines, including socially responsible investment guidelines In April 2012, a significant portion of the HSD's funds held for participants was transferred to the Alpha Fund, in which Ascension Health Alliance has an investment interest, as a member of the Alpha Fund Ascension Health Alliance invests funds in the Alpha Fund on behalf of the Health Ministry As of June 30, 2012, the Health Ministry has an interest in investments held by Ascension Health Alliance, which is reflected in the consolidated balance sheet, and represents the Health Ministry's pro rata share of Ascension Health Alliance's investment interest in the Alpha Fund

The Health Ministry also invests primarily in private equities that are locally managed Primarily all of these funds are held in the Sacred Heart Foundation, where the Health Ministry has significant beneficial interest in foundation assets

The Health Ministry reports its interest in investments held by Ascension Health Alliance in the accompanying June 30, 2012 consolidated balance sheet as a current or long-term asset, based on liquidity needs as directed by the Health Ministry The Health Ministry reports its other investments, including foundation investments, in the accompanying consolidated balance sheets based upon the long- or short-term nature of the investments and whether such investments are restricted by law or donors or designated for specific purposes by a governing body of Health Ministry

Notes to Consolidated Financial Statements (continued)
(Dollars in Thousands)

2. Significant Accounting Policies (continued)

The Health Ministry's investments, excluding its interest in investments held by Ascension Health Alliance, are measured at fair value and are classified as trading securities. The Alpha Fund's and the HSD's investments that are required to be recorded at fair value are classified as trading securities, and include pooled short-term investment funds, U S government, state, municipal, and agency obligations, asset-backed securities, corporate and foreign fixed income maturities, and equity securities, including private equity securities. The Alpha Fund's and HSD's investments also include alternative investments, including investments in real assets, hedge funds, private equity funds, commodity funds, and private credit funds, which are valued based on the net asset value of the investments. In addition, the Alpha Fund participates, and the HSD participated, in securities lending transactions whereby a portion of the investments are loaned to selected established brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned

Purchases and sales of investments are accounted for on a trade-date basis. Investment returns comprise dividends, interest, and gains and losses on the Health Ministry's investments, as well as the Health Ministry's return on its interest in investments held by Ascension Health Alliance, and are reported as nonoperating gains (losses) in the consolidated statements of operations and changes in net assets, unless the return is restricted by donor or law

Inventories

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market value utilizing first-in, first-out (FIFO), or a methodology that closely approximates FIFO

Deferred Compensation

Certain executives of the Health Ministry participate in a deferred compensation plan Total cost for the plans in 2012 and 2011 was \$521 and \$390, respectively The plan assets are recorded at fair value with an offsetting noncurrent liability, included in other noncurrent liabilities on the consolidated balance sheet, equal to the assets

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Intangible Assets

Intangible assets primarily consist of goodwill and capitalized computer software costs, including software internally developed Costs incurred in the development and installation of internal-use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage, application development stage, or post-implementation stage Intangible assets are included in other noncurrent assets on the consolidated balance sheets and comprise the following

	June 30				
		2011			
Capitalized computer software costs Less accumulated amortization	\$	25,855 \$ (20,135)	22,972 (18,592)		
Total intangible assets, net	\$	5,720 \$	4,380		

Intangible assets with definite lives, primarily capitalized computer software costs, are amortized over their expected useful lives

Property and Equipment

Property and equipment are stated at cost or, if donated, at fair market value at the date of the gift A summary of property and equipment at June 30, 2012 and 2011, is as follows

	June 30				
	2012			11	
Land and improvements	\$	49,815		19,815	
Building and equipment		545,759	52	28,987	
		595,574	57	78,802	
Less accumulated depreciation		(329,439)	(30	03,034)	
		266,135	27	75,768	
Construction in progress		18,311		6,714	
Total property and equipment, net	\$	284,446 S	\$ 28	32,482	

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Depreciation is determined on a straight-line basis over the estimated useful lives of the related assets Depreciation expense in 2012 and 2011 was \$27,218 and \$27,628, respectively

Estimated useful lives by asset category are as follows land improvements -5 to 15 years, buildings -5 to 30 years, and equipment -5 to 15 years

Several capital projects have remaining construction and related equipment purchase commitments of approximately \$10,597 as of June 30, 2012

Noncontrolling Interest

The consolidated financial statements include all assets, liabilities, revenue, and expenses of less than 100% owned or controlled entities the Health Ministry controls in accordance with applicable accounting guidance Accordingly, the Health Ministry has reflected a noncontrolling interest for the portion of net assets not owned or controlled by the Health Ministry separately on the consolidated balance sheets

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the Health Ministry has been limited by donors to a specific time period or purpose Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, which include endowment funds Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donor's wishes, primarily to purchase equipment and to provide charity care and other health and educational services Contributions with donor-imposed restrictions that are met in the same reporting period are reported as unrestricted

Performance Indicator

The performance indicator is excess of revenues and gains over expenses and losses Changes in unrestricted net assets that are excluded from the performance indicator primarily include pension and other postretirement liability adjustments, transfers to or from sponsors and other affiliates, net assets released from restrictions for property acquisitions, and contributions of property and equipment

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Operating and Nonoperating Activities

The Health Ministry's primary mission is to meet the health care needs in its market area through a broad range of general and specialized health care services, including inpatient acute care, outpatient services, long-term care, and other health care services Activities directly associated with the furtherance of this purpose are considered to be operating activities. Other activities that result in gains or losses peripheral to the Health Ministry's primary mission are considered to be nonoperating, consisting primarily of investment income

Net Patient Service Revenue, Accounts Receivable, and Allowance for Uncollectible Accounts

Net patient service revenue is reported at the estimated realizable amounts from patients, third-party payors, and others for services provided, excluding the provision for bad debt expense, and includes estimated retroactive adjustments under reimbursement agreements with third-party payors. Revenue under certain third-party payor agreements is subject to audit, retroactive adjustments, and significant regulatory actions. Provisions for third-party payor settlements and adjustments are estimated in the period the related services are provided and adjusted in future periods as additional information becomes available and as final settlements are determined. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenue related to prior periods increased net patient service revenue by approximately \$9,036 and \$6,899 for the years ended June 30, 2012 and 2011, respectively

During 2012, approximately 33% of net patient service revenue was received under the Medicare program and 12% under various state Medicaid programs During 2011, approximately 31% of net patient service revenue was received under the Medicare program and 13% under various state Medicaid programs. The Health Ministry grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor arrangements. Significant concentrations of net accounts receivable at June 30, 2012, include Medicare (18%) and various states' Medicaid programs (19%). Significant concentrations of net accounts receivable at June 30, 2011, include Medicare (15%) and various states' Medicaid programs (12%).

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

The provision for bad debt expense is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for bad debt expense to establish an appropriate allowance for uncollectible accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Health Ministry follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Health Ministry's policies.

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH) The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period Initial Medicaid incentive payments are available to providers that adopt, implement or upgrade certified EHR technology Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments

The Health Ministry accounts for HITECH incentive payments as a gain contingency Income from Medicare incentive payments is recognized as revenue after the Health Ministry has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended The Health Ministry recognized revenue from Medicaid incentive payments after it adopted certified HER technology Incentive payments totaling \$3,020 for the year ended

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

June 30, 2012, are included in total operating revenue in the accompanying consolidated statements of operations and changes in net assets Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit In addition, the Health Ministry's compliance with the meaningful use criteria is subject to audit by the federal government

Impairment, Restructuring, and Nonrecurring Expenses

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on discounted net cash flows or other estimates of fair value.

During the years ended June 30, 2012 and 2011, the Health Ministry recorded total impairment, restructuring, and nonrecurring income of \$19,558 and nonrecurring expense of \$677, respectively. The restructuring and nonrecurring expense for the year ended June 30, 2012, included approximately \$540 in expense related to the termination of an information technology service contract and a pension curtailment gain of \$20,098 discussed further in Note 6. For the year ended June 30, 2011, total impairment, restructuring, and nonrecurring expenses of \$677 comprised approximately \$538 of restructuring and nonrecurring expenses related to changes in business operations, including reorganization and severance charges as well as approximately \$139 of long-lived asset impairments

Hospital or Health Ministry Income Taxes

The member health care entities of the Health Ministry are primarily tax-exempt organizations under Internal Revenue Code Section 501(c)(3) or 501(c)(2), and their related income is exempt from federal income tax under Section 501(a)

Reclassifications

Certain reclassifications were made to the 2011 consolidated financial statements to conform to the 2012 presentation

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Subsequent Events

The Health Ministry evaluates the impact of subsequent events, which are events that occur after the balance sheet date but before the financial statements are issued, for potential recognition in the financial statements as of the balance sheet date. For the year ended June 30, 2012, the Health Ministry evaluated subsequent events through September 12, 2012, representing the date on which the consolidated financial statements were available to be issued. During this period, there were no subsequent events that required recognition or disclosure in the consolidated financial statements. In addition, there were no nonrecognized subsequent events that required disclosure.

Adoption of New Accounting Standards

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements* ASU 2010-06 clarifies certain fair value measurement guidance and requires that additional fair value measurement disclosures be made. The Health Ministry adopted a portion of this guidance during the fiscal year ended June 30, 2010, and the remaining requirements as of July 1, 2011, as required. The disclosure updates adopted as of July 1, 2011, result in the provision of additional detail within the reconciliation of beginning and ending balances for assets and liabilities measured at fair value, whose fair value inputs are based on significant unobservable inputs (i e, Level 3 assets and liabilities). These additional disclosure requirements are provided in Note 4. The adoption of this guidance did not have a material impact on the Health Ministry's consolidated financial statements for the year ended June 30, 2012.

In August 2010, the FASB issued ASU 2010-23, *Measuring Charity Care for Disclosure* ASU 2010-23 requires health care entities to disclose charity care based on cost measurements, defined as the direct and indirect costs of providing the charity care. The Health Ministry adopted this guidance on July 1, 2011, however, as the Health Ministry has historically used cost-based measures for the calculation and disclosure of its charity care, the adoption of this guidance did not have a material impact on the Health Ministry's consolidated financial statements for the year ended June 30, 2012

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) ASU 2011-04 provides clarifications to certain existing fair value measurement guidance and includes updated guidance for certain fair value measurement principles and disclosures. The Health Ministry adopted this guidance as of January 1, 2012. The adoption of this guidance did not have a material impact on the Health Ministry's consolidated financial statements for the year ended June 30, 2012.

In July 2011, the FASB issued ASU 2011-07, Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debt and the Allowance for Doubtful Accounts for Certain Health Care Entities ASU 2011-07 requires health care entities that recognize significant amounts of patient service revenue at the time services are rendered to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue in the statement of operations rather than as operating expense Additional disclosures relating to sources of patient service revenue and the allowance for uncollectible accounts are also required. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011, with early adoption permitted. The Health Ministry plans to adopt the provisions of ASU 2011-07 as of and for the year ended June 30, 2013, and retrospectively apply the presentation requirements to all periods presented.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

3. Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-Term Investments

At June 30, 2012, the Health Ministry's investments consist of its interest in investments held by Ascension Health Alliance and certain other investments, including investments held and managed by the Sacred Heart Foundation At June 30, 2011, the Health Ministry's investments consisted of the Health Ministry's pro rata share of the HSD's funds held for participants and certain other investments, including investments held and managed by the Sacred Heart Foundation Board-designated investments represent investments designated by resolution of the Sacred Heart Foundation Board to put amounts aside primarily for future capital expansion and improvements Assets limited as to use primarily include investments restricted by donors The Health Ministry's cash, cash equivalents, interest in investments held by Ascension Health Alliance, and assets limited as to use and other long-term investments are reported in the accompanying consolidated balance sheets as presented in the following table

	June 30			
		2012	2011	
Cash and cash equivalents	\$	13,275 \$	42,038	
Current portion of assets limited as to use		2,641	1,167	
Assets limited as to use and other long-term investments Assets limited as to use Other long-term investments		3,514 7,449	3,457 7,859	
Total assets limited as to use, and other long-term investments		10,963	11,316	
Other investments Other noncurrent assets Interest in investments held by Ascension Health Alliance		- 11,106 186,212	201,501 11,669 –	
Total	\$	224,197 \$	267,691	

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

3. Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-Term Investments (continued)

The composition of cash and investments classified as cash and cash equivalents, board-designated investments, assets limited as to use, and other investments is summarized as follows

	June 30			
		2012	2011	
Cash and cash equivalents	\$	13,275 \$	42,038	
Assets limited as to use				
Cash and current portion of pledges receivable		2,641	1,167	
Noncurrent portion of pledges receivable, net		2,088	4,787	
Long-term investments at fair value		8,875	6,529	
Current portion of assets limited as to use, noncurrent portion of assets limited as to use, and other long-term				
investments		13,604	12,483	
Interest in investments held by Ascension Health Alliance		186,212	_	
Pro rata share of HSD funds held for participants		_	201,501	
Other noncurrent assets (deferred compensation assets)		11,106	11,669	
Cash and cash equivalents, short-term investments, interest in investments held by Ascension Health Alliance, assets				
limited as to use and other long-term investments	\$	224,197 \$	267,691	

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

3. Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-Term Investments (continued)

As of June 30, 2012 and 2011, the composition of total Alpha Fund and HSD investments is as follows

	June 30		
	2012	2011	
Cash, cash equivalents and short-term investments	4.7%	6 9%	
U S government obligations	32.1	27 4	
Asset-backed securities	10.3	15 8	
Corporate and foreign fixed income investments	9.0	11 3	
Equity, private equity, and other investments	43.9	38 6	
Total	100.0%	100 0%	

Investment return recognized by the Health Ministry is summarized as follows

Year Ended June 30			
 2012	2011		
\$ 9,839 \$	16,430		
 (11,946)	14,303		
\$ (2,107) \$	30,733		
_	\$ 9,839 \$ (11,946)		

4. Fair Value Measurements

The Health Ministry categorizes, for disclosure purposes, assets and liabilities measured at fair value in the consolidated financial statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs that are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability, based on the best information available in the circumstances.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Fair Value Measurements (continued)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement of the asset or liability. The Health Ministry's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The Health Ministry follows the three-level fair value hierarchy to categorize these assets and liabilities recognized at fair value at each reporting period, which prioritizes the inputs used to measure such fair values. Level inputs are defined as follows

Level 1 – Quoted prices (unadjusted) that are readily available in active markets or exchanges for identical assets or liabilities on the reporting date

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly Level 2 pricing inputs include prices quoted for similar investments in active markets or exchanges or prices quote for identical or similar investments in markets that are not active If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 – Significant pricing inputs that are unobservable for the asset or liability, including assets or liabilities for which there is little, if any, market activity for such asset or liability Inputs to the determination of fair value for Level 3 assets and liabilities require management judgment and estimation

As of June 30, 2012 and 2011, assets and liabilities listed in the fair value hierarchy tables below utilize the following valuation techniques and inputs

Equity securities

The fair value of U S and international equity securities is valued at the closing quoted price on the active market for which the individual securities are traded

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Fair Value Measurements (continued)

Corporate and foreign fixed income maturities

The fair value of investments in U S and international corporate bonds, including commingled funds that invest primarily in such bonds, and foreign government bonds is primarily determined using techniques that are consistent with the market approach Significant observable inputs include benchmark yields, reported trades, observable broker/dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options

Guaranteed pooled fund

The fair value of guaranteed pooled fund investments is based on cost plus guaranteed, annuity contract-based interest rates Significant unobservable inputs to the guaranteed rate include the fair value and average duration of the portfolio of investments underlying the annuity contract, the contract value, and the annualized weighted-average yield to maturity of the underlying investment portfolio

As discussed in Note 2 and Note 3, the Health Ministry has an interest in investments held by Ascension Health Alliance As of June 30, 2012, 17%, 52%, and 31% of total Alpha Fund assets that are measured at fair value on a recurring basis were measured based on Level 1, Level 2, and Level 3 inputs, respectively, while 0%, 100%, and 0% of total Alpha Fund liabilities that are measured at fair value on a recurring basis were measured at such fair values based on Level 1, Level 2, and Level 3 inputs, respectively As of June 30, 2011, 31%, 67%, and 2% of total HSD assets that were measured at fair value on a recurring basis were measured based on Level 1, Level 2, and Level 3 inputs, respectively, while 1%, 84%, and 15% of total HSD liabilities that were measured at fair value on a recurring basis were measured based on Level 1, Level 2, and Level 3 inputs, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Fair Value Measurements (continued)

The following table summarizes fair value measurements, by level, at June 30, 2012, for all other financial assets and liabilities that are measured at fair value on a recurring basis in the consolidated financial statements

	 Level 1	Level 2	Level 3	Total
June 30, 2012 Assets limited as to use and other long-term investments Equity securities Corporate bonds Deferred compensation assets, included in other noncurrent assets	\$ 7,461 -	\$ - 1,413	\$ <u>-</u> -	\$ 7,461 1,413
Equity securities Guaranteed pooled fund	7 ,04 6	_ _	- 4,060	7,046 4,060
Total	\$ 14,507	\$ 1,413	\$ 4,060	\$ 19,980

The following table summarizes fair value measurements, by level, at June 30, 2011, for all other financial assets and liabilities, measured at fair value on a recurring basis in the Health Ministry's consolidated financial statements

	Level 1	Level 2	Level 3	Total
June 30, 2011 Assets limited as to use and other long-term investments Equity securities Corporate bonds Deferred compensation assets. included in other noncurrent assets	\$ 5,797 -	\$ - \$ 732	- -	\$ 5.797 732
Equity securities	7,224	_	_	7,224
Guaranteed pooled fund	_	_	4,445	4,445
Total	\$ 13,021	\$ 732 \$	4,445	\$ 18,198

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Fair Value Measurements (continued)

During the years ended June 30, 2012 and 2011, the changes in the fair value of the foregoing assets measured using significant unobservable inputs (Level 3) comprised the following

	Com	eferred pensation Assets
July 1, 2010	\$	2,740
Purchases, issuances and settlements		1,336
Transfers into Level 3		369
June 30, 2011		4,445
Purchases		360
Sales		(601)
Transfers into Level 3		37
Transfers out of Level 3		(181)
June 30, 2012	\$	4,060

5. Long-Term Debt

Long-term debt consists of the following

	June 30				
	2012	2011			
Intercompany debt with Ascension Health Alliance, payable in installments through 2047, interest (3 8% and 3 9% at June 30, 2012 and 2011, respectively) adjusted based on prevailing blended market interest rate of					
underlying debt obligations	\$ 125,879 \$	126,792			
Other	1,013	1,203			
	126,892	127,995			
Less current portion	(1,158)	(1,087)			
Long-term debt, less current portion	\$ 125,734 \$	126,908			

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

5. Long-Term Debt (continued)

Scheduled principal repayments of long-term debt are as follows

Year ending June 30	
2013	\$ 1,158
2014	2,032
2015	2,588
2016	1,602
2017	1,975
Thereafter	 117,537
Total	\$ 126,892

Certain members of Ascension Health Alliance formed the Ascension Health Credit Group (Senior Credit Group) Each Senior Credit Group member is identified as either a senior obligated group member, senior designated affiliate, or senior limited designated affiliate Senior obligated group members are jointly and severally liable under a Senior Master Trust Indenture (Senior MTI) to make all payments required with respect to obligations under the Senior MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance Although senior designated affiliates and senior limited designated affiliates are not obligated to make debt service payments on the obligations under the Senior MTI, Ascension Health Alliance may cause each senior designated affiliate to transfer such amounts as are necessary to enable the obligated group to comply with the terms of the Senior MTI, including repayment of the outstanding obligations. In addition, each senior limited designated affiliate has an independent limited designated affiliate agreement and promissory note with Ascension Health Alliance with stipulated repayment terms and conditions, each subject to the governing law of the senior limited designated affiliate's state of incorporation. The Health Ministry is a senior obligated group member under the terms of the Senior MTI.

Pursuant to a Supplemental Master Indenture dated February 1, 2005, senior obligated group members, which are operating entities, have pledged and assigned to the Master Trustee a security interest in all of their rights, title, and interest in their pledged revenues and proceeds thereof

1209-1390580 28

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

5. Long-Term Debt (continued)

A Subordinate Credit Group, which comprises subordinate obligated group members, subordinate designated affiliates, and subordinate limited designated affiliates, was created under the Subordinate Master Trust Indenture (Subordinate MTI) The subordinate obligated group members are jointly and severally liable under the Subordinate MTI to make all payments required with respect to obligations under the Subordinate MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance Although subordinate designated affiliates and subordinate limited designated affiliates are not obligated to make debt service payments on the obligations under the Subordinate MTI, Ascension Health Alliance may cause each subordinate designated affiliate to transfer such amounts as are necessary to enable the obligated group members to comply with the terms of the Subordinate MTI, including payment of the outstanding obligations. In addition, each subordinate limited designated affiliate agreement and promissory note with Ascension Health Alliance, with stipulated repayment terms and conditions, each subject to the governing law of the subordinate limited designated affiliate's state of incorporation. The Health Ministry is a subordinate obligated group member under the terms of the Subordinate MTI.

The borrowing portfolio of the Senior and Subordinate Credit Group includes a combination of fixed and variable rate hospital revenue bonds, commercial paper, and other obligations, the proceeds of which are in turn loaned to the Senior and Subordinate Credit Group members subject to a long-term amortization schedule of 1 to 39 years

Certain portions of Senior and Subordinate Credit Group borrowings may be periodically subject to interest rate swap arrangements to effectively convert borrowing rates on such obligations from a floating to a fixed interest rate or vice versa based on market conditions. In addition, Senior and Subordinate Credit Group borrowings may, from time to time, be refinanced or restructured in order to take advantage of favorable market interest rates or other financial opportunities. Any gain or loss on refinancing, as well as any bond premiums or discounts, are allocated to the Senior and Subordinate Credit Group members based on their pro rata share of the Senior and Subordinate Credit Group's obligations. Senior and Subordinate Credit Group refinancing transactions rarely have a significant impact on the outstanding borrowings or intercompany debt amortization schedule of any individual Senior and Subordinate Credit Group member.

The carrying amounts of intercompany debt with Ascension Health Alliance and other debt approximate fair value based on a portfolio market valuation provided by a third party

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

5. Long-Term Debt (continued)

The Senior and Subordinate Credit Group financing documents contain certain restrictive covenants, including a debt service coverage ratio

As of June 30, 2012, the Senior Credit Group has a line of credit of \$1,000,000 which may be used as a source of funding for unremarketed variable rate debt (including commercial paper) or for general corporate purposes, toward which bank commitments totaling \$1,000,000 extend to November 9, 2014 As of June 30, 2012 and 2011, there were no borrowings under the line of credit

As of June 30, 2012, the Subordinate Credit Group has a \$50,000 revolving line of credit related to its letters of credit program toward which a bank commitment of \$50,000 extends to December 27, 2012 As of June 30, 2012, \$26,607 of letters of credit had been extended under the revolving line of credit, although there were no borrowings under any of the letters of credit

The outstanding principal amount of all hospital revenue bonds is \$4,451,285 which represents 41% of the combined unrestricted net assets of the Senior and Subordinate Credit Group members at June 30, 2012

Guarantees are contingent commitments issued by the Senior and Subordinate Credit Groups, generally to guarantee the performance of a sponsored organization or an affiliate to a third party in borrowing arrangements such as commercial paper issuances, bond financing, and similar transactions The term of the guarantee is equal to the term of the related debt, which can be as short as 30 days or as long as 27 years The maximum potential amount of future payments the Senior and Subordinate Credit Groups could be required to make under its guarantees and other commitments at June 30, 2012, is approximately \$170,000

During the years ended June 30, 2012 and 2011, interest paid was approximately \$6,048 and \$6,383, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

6. Pension Plans

The Health Ministry participates in the Ascension Health Pension Plan and the Ascension Health Defined Contribution Plan Details of these plans are as follows

Ascension Health Pension Plan

The Health Ministry participates in the Ascension Health Pension Plan (the Ascension Plan), a noncontributory defined benefit pension plan that covers substantially all eligible employees of certain System entities Benefits are based on each participant's years of service and compensation The Ascension Plan's assets are invested in the Ascension Health Master Pension Trust (the Trust), a master trust consisting of cash and cash equivalents, equity, fixed income funds, and alternative investments The Trust also invests in derivative instruments, the purpose of which is to economically hedge the change in the net funded status of the Ascension Plan for a significant portion of the total pension liability that can occur due to changes in interest rates Contributions to the Ascension Plan are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants Net periodic pension cost of \$1,437 in 2012 and \$9,846 in 2011 was charged to the Health Ministry The service cost component of net periodic pension cost charged to the Health Ministry is actuarially determined while all other components are allocated based on the Health Ministry's pro rata share of Ascension Health's overall projected benefit obligation

During the year ended June 30, 2012, the System approved and communicated to employees a redesign of associate retirement benefits, which affects the Ascension Plan as well as provides an enhanced comprehensive defined contribution plan These changes will become effective January 1, 2013 These changes resulted in the Health Ministry's recognition of a nonrecurring curtailment gain of \$20,098 during the year ended June 30, 2012 These changes also resulted in one-time decreases to the projected benefit obligation of \$19,395 The projected benefit obligation is included in pension and other postretirement liabilities in the accompanying consolidated balance sheets

The assets of the Ascension Plan are available to pay the benefits of eligible employees of all participating entities If participating entities are unable to fulfill their financial obligations under the Ascension Plan, the other participating entities are obligated to do so As of June 30, 2012, the Ascension Plan had a net unfunded liability of \$267,828 The Health Ministry's allocated

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

6. Pension Plans (continued)

share of the Ascension Plan's net unfunded liability reflected in the accompanying consolidated balance sheets at June 30, 2012 and 2011, was \$16,704 and \$16,610, respectively. As a result of updating the funded status of the Plan, the Health Ministry's allocated share of the Plan's net funded liability was reduced by \$1,319, net and \$21,213 during 2012 and 2011, respectively. These adjustments are included in pension and other postretirement liability adjustments in the accompanying consolidated statements of operations and changes in net assets.

As of June 30, 2012 and 2011, the fair value of the Ascension Plan's assets available for benefits was \$3,948,293 and \$3,616,141, respectively As discussed in Note 4, the Health Ministry, as well as the System, follows a three-level hierarchy to categorize assets and liabilities measured at fair value In accordance with this hierarchy, as of June 30, 2012, 16%, 51%, and 33% of the Ascension Plan's assets that are measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively With respect to the Ascension Plan's liabilities measured at fair value on a recurring basis, 6%, 87%, and 7% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2012 In addition, as of June 30, 2011, 27%, 45%, and 28% of the Ascension Plan's assets that are measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively With respect to the Ascension Plan's liabilities measured at fair value on a recurring basis, 0%, 17%, and 83% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2011

Ascension Health Defined Contribution Plan

The Health Ministry participates in the Ascension Health Defined Contribution Plan (the Defined Contribution Plan), a contributory and noncontributory defined contribution plan sponsored by Ascension Health, which covers all eligible associates There are three primary types of contributions to the Defined Contribution Plan employer automatic contributions, employee contributions, and employer matching contributions Benefits for employer automatic contributions are determined as a percentage of a participant's salary and increase over specified periods of employee service These benefits are funded annually, and participants become fully vested over a period of time Benefits for employer matching contributions are determined as a percentage of an eligible participant's contributions each payroll period. These benefits are funded each payroll period, and participants become fully vested in all employer contributions immediately Defined contribution expense, representing both employer automatic contributions and employer matching contributions, was \$5,025 and \$4,322 for the years ended June 30, 2012 and 2011, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

7. Self-Insurance Programs

The Health Ministry participates in pooled risk programs to insure professional and general liability risks and workers' compensation risks to the extent of certain self-insured limits. In addition, various umbrella insurance policies have been purchased to provide coverage in excess of the self-insured limits. Actuarially determined amounts, discounted at 6%, are contributed to the trusts and the captive insurance company to provide for the estimated cost of claims. The loss reserves recorded for estimated self-insured professional, general liability, and workers' compensation claims include estimates of the ultimate costs for both reported claims and claims incurred but not reported and are discounted at 6% in 2012 and 2011. If sufficient funds are not available from the self-insurance programs, each participating entity may be assessed its pro rata share of the deficiency. If contributions exceed the losses paid, the excess may be returned to participating entities.

Professional and General Liability Programs

The Health Ministry participates in Ascension Health's professional and general liability self-insured program which provides claims-made coverage through a wholly owned onshore trust and offshore captive insurance company, Ascension Health Insurance, Ltd (AHIL), with a self-insured retention of \$10,000 per occurrence with no aggregate. The Health Ministry has a deductible of \$100 per claim. Excess coverage is provided through AHIL with limits up to \$185,000 AHIL retains \$5,000 per occurrence and \$5,000 annual aggregate for professional liability. AHIL also retains a 20% quota share of the first \$25,000 of umbrella excess. The remaining excess coverage is reinsured by commercial carriers.

Professional liability coverage is provided on an occurrence basis through a wholly owned onshore trust with a self-insured retention of \$250 per occurrence and \$7,500 in aggregate in compliance with participation in the Patient Compensation Fund The Patient Compensation Fund applies to claims in excess of the primary self-insured limit General liability coverage is provided on a claims-made basis through a wholly owned onshore trust and offshore captive insurance company, AHIL, with a self-insured retention of \$10,000 per occurrence with no aggregate Excess coverage is provided through AHIL with limits up to \$185,000 AHIL also retains a 20% quota share of the first \$25,000 of umbrella excess The remaining excess coverage is reinsured by commercial carriers The Health Ministry has a deductible of \$100 for both professional and general liability claims

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

7. Self-Insurance Programs (continued)

Included in operating expenses in the accompanying consolidated statements of operations and changes in net assets is professional and general liability expense of \$2,137 and \$4,740 for the years ended June 30, 2012 and 2011, respectively Included in current and long-term self-insurance liabilities on the accompanying consolidated balance sheets are professional and general liability premiums owed to the self-insured trust of approximately \$3,689 and \$4,227, at June 30, 2012 and 2011, respectively

Workers' Compensation

The Health Ministry participates in Ascension Health's workers' compensation program, which provides occurrence coverage through a grantor trust. The trust provides coverage up to \$1,000 per occurrence with no aggregate. The trust provides a mechanism for funding the workers' compensation obligations of its members. Excess insurance against catastrophic loss is obtained through commercial insurers. Premium payments made to the trust are expensed and reflect both claims reported and claims incurred but not reported.

Included in operating expenses in the accompanying consolidated statements of operations and changes in net assets is workers' compensation expense of \$1,428 and \$1,507 for the years ended June 30, 2012 and 2011, respectively

8. Lease Commitments

Future minimum payments under noncancelable operating leases with terms of one year or more are as follows

Year ending June 30	
2013	\$ 10,815
2014	10,255
2015	9,103
2016	5,660
2017	4,671
Thereafter	 13,194
Total	\$ 53,698

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

8. Lease Commitments (continued)

The Health Ministry has subleased certain of its space under the operating leases reported above Total future minimum rents to be received under noncancelable subleases with terms of one year or more are \$2,044

In prior years, the System entered into agreements to lease four parcels of land to an unrelated third party to construct and operate medical office buildings (MOBs) on the premises Under the first lease, annual payments of \$51 are due from the lessee, beginning on February 1, 1999, and continuing for a 51½-year period Beginning with the second lease year through the term of the lease, rental payments increase by an amount equal to 2 00% of the rent of the previous year. The lessee has the option to extend the term of the lease for an additional ten-year period Under the second lease, quarterly payments of \$14 are due from the lessee, beginning on July 26, 2004, and continuing for a 76½-year period Beginning with the 2007 lease year through and including the 2016 lease year, rental payments increase by an amount equal to 2.75% of the rent of the previous year After the 2016 lease year, rent will increase by the lesser of 2.75% of the immediately preceding lease year or the consumer price index as defined by the lease agreement The lessee has the option to extend the term of the lease for an additional ten-year period Under the third lease, quarterly payments of \$15 are due from the lessee, beginning on May 1, 2002, and continuing for a 76½-year period Beginning with the 2005 lease year through and including the 2014 lease year, rental payments increase by an amount equal to 2.75% of the rent of the previous year After the 2015 lease year, rent will increase by the lesser of 2 75% of the immediately preceding lease year or the consumer price index as defined by the lease agreement The lessee has the option to extend the term of the lease for an additional ten-year period Under the fourth lease, quarterly payments of \$46 are due from the lessee, beginning on October 1, 2003, and continuing for a 761/2-year period Beginning with the 2005 lease year through and including the 2014 lease year, rental payments increase by an amount equal to 2 75% of the rent of the previous year. After the 2015 lease year, rent will increase by the lesser of 2.75% of the immediately preceding lease year or the consumer price index as defined by the lease agreement The lessee has the option to extend the term of the lease for an additional ten-year period

1209-1390580 35

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

8. Lease Commitments (continued)

In addition, the Health Ministry is a lessor under certain operating lease agreements, primarily ground leases related to third party owned MOBs on land owned by the Health Ministry Future minimum rental receipts under all noncancelable operating leases with terms of one year or more are as follows

Year ending June 30	
2013	\$ 2,023
2014	1,843
2015	1,521
2016	1,448
2017	1,244
Thereafter	51,684
Total	\$ 59,763

Rental expense under operating leases amounted to \$13,421 and \$12,358 in 2012 and 2011, respectively

The Health Ministry entered into agreements to lease space in MOBs under construction by external development companies. The Health Ministry was considered the owner of the MOBs during construction. In addition, because these transactions (and the sales of other existing MOBs) did not qualify for sale-leaseback accounting, they were treated as financing transactions. Accordingly, the associated financing obligations of \$12,040 and \$12,215 at June 30, 2012 and 2011, respectively, are included in other noncurrent liabilities in the accompanying consolidated balance sheets. These financing obligations will not result in cash payments. All future cash obligations related to leased space within these MOBs are included as future minimum lease payments in the amounts reported above.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

9. Related-Party Transactions

The Health Ministry utilized various centralized programs and overhead services of the System or its other sponsored organizations including risk management, retirement services, treasury, debt management, executive management support, administrative services, and information technology services. The charges allocated to the Health Ministry for these services represent both allocations of common costs and specifically identified expenses that are incurred by the System on behalf of the Health Ministry Allocations are based on relevant metrics such as the Health Ministry's pro rata share of revenues, certain costs, debt, or investments to the consolidated totals of the System. The amounts charged to the Health Ministry for these services may not necessarily result in the net costs that would be incurred by the Health Ministry on a stand-alone basis. The charges allocated to the Health Ministry were approximately \$26,614 and \$20,613 for the years ended June 30, 2012 and 2011, respectively

In addition to the charges discussed above, the Health Ministry made payments to the System of \$7,196 and \$7,564 for the years ended June 30, 2012 and 2011, respectively, representing the Health Ministry's share of costs to fund a System-wide information technology and process standardization project that is expected to continue through December 2014 These payments are included in transfers to sponsor and other affiliates, net, in the accompanying consolidated statements of operations and changes in net assets

During the year ended June 30, 2012, the Health Ministry transferred cash and investments of \$445 in support of the System's strategic initiatives

10. Contingencies and Commitments

In September 2010, Ascension Health received a letter from the U S Department of Justice (the DOJ) in connection with its nationwide review to determine whether, in certain cases, implantable cardioverter defibrillators (ICDs) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. In connection with this nationwide review, the Health Ministry will be reviewing applicable medical records for response to the DOJ. The DOJ's investigation spans a time frame beginning in 2004 and extending through the present time. Through August 23, 2012, the DOJ has not asserted any claims against the Health Ministry Ascension Health and the Health Ministry continue to fully cooperate with the DOJ in its investigation.
