Report of Independent Auditors

The Board of Directors KentuckyOne Health, Inc

We have audited the accompanying consolidated balance sheet of KentuckyOne Health, Inc (the System) as of June 30, 2012, and the related consolidated statements of operations and changes in net assets, and cash flows for the period from January 1, 2012 (inception) to June 30, 2012 These financial statements are the responsibility of the System's management Our responsibility is to express an opinion on these financial statements based on our audit

We conducted our audit in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the System's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the System as of June 30, 2012, and the consolidated results of its operations and changes in net assets and its cash flows for the period from January 1, 2012 (inception) to June 30, 2012 in conformity with US generally accepted accounting principles

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole The unaudited community benefit information in Note 2 is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements Such information has not been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements, and, accordingly, we do not express any assurances on such information

Organization

KentuckyOne Health, Inc (the System) is a Kentucky non-profit corporation organized and operated to provide a regional health care network in Kentucky and southern Indiana that includes nearly 200 locations and 2,293 licensed beds Effective January 1, 2012, Catholic Health Initiatives (CHI) and Jewish Hospital Healthcare Services, Inc (JHHS) entered into a Sponsorship and Consolidation Agreement to jointly operate the System, which includes Jewish Hospital & St Mary's HealthCare, Inc (JHSMH), Saint Joseph Health System, Inc (SJHS) and Flaget Healthcare, Inc CHI is a Colorado non-profit corporation recognized by the Internal Revenue Service (IRS) as exempt from income taxation under Section 501(c)(3) of the Internal Revenue Code CHI sponsors hospitals and other health care providers in 19 states JHHS is a Kentucky non-profit corporation recognized by the IRS as exempt from income taxation under Section 501(c)(3) of the Internal Revenue Code JHHS sponsors healthcare and Jewish community services CHI, through a direct affiliate, and JHHS are the corporate members of the System with CHI owning 83% and JHHS owning 17% of the System

As a result of the above Sponsorship and Consolidation Agreement, purchase accounting guidance, ASC Topic 805, *Business Combinations*, and ASC Topic 958, *Not-for-Profit Mergers and Acquisitions*, required the revaluation of all JHSMH assets and liabilities as of the effective date of the agreement As CHI was determined to be the acquiring entity, the asset values of SJHS and Flaget Healthcare, Inc remained at historical cost and are reflected as a transfer from CHI in the consolidated statement of operations and changes in net assets An independent valuation was performed to value the assets and liabilities of JHSMH

The System and its subsidiaries are an integrated regional health care system that provides a complete array of health care services, including eleven acute care hospitals, outpatient care, cancer care, occupational health, home health care, long-term care, psychiatric care and rehab medicine

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the System and its subsidiaries. All significant interaffiliate transactions and balances have been eliminated

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

Following are the System's significant accounting policies

Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements Actual results could differ from those estimates

Cash Equivalents

Cash equivalents consist of certificates of deposits which are carried at cost plus accrued interest, which approximates fair value Cash equivalents are maintained with a financial depository institution and are collateralized by US government obligations or by the Federal Deposit Insurance Corporation (FDIC) These cash equivalents have an original maturity of three months or less The System may have amounts with financial institutions in excess of those insured by the FDIC

Repurchase Agreements

Repurchase agreements represent an arrangement between a financial depository institution (the bank) and the System, where the bank sells the market value of securities to the System equal to the closing balance of the System's cash balance on a daily basis. Under the terms of the agreement, the bank agrees to repurchase the securities the following day at par plus interest Repurchase agreements are converted to cash on a daily basis.

Investments and Assets Limited as to Use

The System owns an interest in the CHI Operating Investment Program Limited Partnership (the Program) The Program is structured under a limited partnership agreement with CHI as managing general partner and numerous limited partners, most affiliated with CHI The partnership provides a vehicle whereby entities associated with CHI, as well as certain other unrelated entities can optimize investment returns while managing investment risk The System's interest in the Program is reported within investments and assets limited as to use within the accompanying consolidated balance sheet and is reported based upon net asset value derived from the application of the equity method of accounting

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

The System has designated its investment portfolio as trading Investments are recorded at fair value as determined by reference to quoted market prices or other sources when applicable (see Note 10) Unrealized gains and losses on marketable securities that have been designated as trading securities are included within the excess of revenue over expenses. In addition, cash flows from the purchases and sales of marketable securities designated as trading are reported as a component of operating activities in the accompanying consolidated statement of cash flows

Assets limited as to use consist of designated investments set aside by the Board of Directors for future capital improvements over which the Board of Directors retains control and may at its discretion subsequently use for other purposes

Investment income consists of realized gains and losses on the sale of investments, the market valuation changes in investments, and dividend and interest income Realized gains and losses are calculated based on the specific identification method. Investment income is included in the excess of revenue over expenses unless the income or loss is restricted by donor or by law. Operating revenue includes investment income, which relates to earnings on funds that have been Board designated for the funding of current medical research expenses.

Investment income is summarized for the six-month period ended June 30, 2012 in the following tables

Market valuation changes in hedge, private equity	
funds, and the limited partnership	\$ (227)
Market valuation change in all other securities	6,275
Interest, dividends, and realized gains, net of fees	 27,367
Total investment income	\$ 33,415
Investment income included in operating revenue	\$ 514
Investment income included in nonoperating revenue	 32,901
Total investment income	\$ 33,415

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

Financial Instruments

The System follows the provisions of Financial Accounting Standards Board (FASB) accounting guidance, which establishes a framework for measuring fair value in US generally accepted accounting principles (GAAP), clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements

Applicable accounting guidance establishes a three-level hierarchy for fair value measurements. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

The three levels are defined as follows

- Level 1 Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets
- Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument
- Level 3 Valuation is based upon other unobservable inputs that are significant to the fair value measurement

Inventories

Inventories are stated at the lower of cost or market Cost is determined either by the first-in, first-out or average method

Investments in Unconsolidated Organizations

The investments in unconsolidated organizations are accounted for on the equity method, except for the investments in Bluegrass Regional Cancer Center of \$444 at June 30, 2012, which is accounted for on the cost method The equity in earnings of the unconsolidated organizations accounted for on the equity method is included in income from operations because these

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

organizations' activities are considered to be ongoing or central to the provision of health care services Investments in unconsolidated organizations consist of a 33 33% interest in Southern Indiana Rehabilitation Hospital (SIRH) (an acute rehabilitation hospital) owned jointly with Clark Memorial Hospital and Floyd Memorial Hospital, a 50% interest in Heart Center at Clark Memorial, LLP (Clark County Cath Lab) (a heart catheterization laboratory operation) owned jointly with Clark Memorial Hospital, a 50% interest in Saint Joseph-ANC Home Care Services, Inc (a Home Health company owned jointly with American Nursing Care, Inc), a 33 33% interest in Cumberland Healthcare, and a 25% interest in Innovative Cardiac Solutions

Charity Care

The System accepts patients regardless of their ability to pay A patient is classified as a charity patient by reference to certain established policies of the operating entities Essentially, these policies define charity services as those services for which no payment is anticipated The System identifies patients needing assistance by applying certain demographic and credit criteria that were modeled after criteria used in the health care industry The System's policy is to estimate charity care cost by using a cost to gross charge ratio The System estimated charity care at cost for the six-month period ended June 30, 2012 is \$44,864 Charity care costs include provider taxes paid to the Commonwealth of Kentucky net of reimbursement from the Kentucky Hospital Care Program (KHCP) (see Note 3)

Property and Equipment

Property and equipment are recorded at historical cost less accumulated depreciation other than JHSMH property and equipment acquired as part of the System transaction (see Notes 1 and 10) Depreciation and amortization are provided on the straight-line method over the estimated useful lives of the respective assets Assets recorded under capital leases are depreciated over the estimated useful life of the related asset or the lease term, whichever is shorter Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets

Gifts involving land, buildings or equipment are reported as unrestricted support, unless there are explicit donor stipulations specifying how the donated assets must be used. Gifts of long-term assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-term assets are reported as restricted support

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

Absent explicit donor stipulations about how long those long-term assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-term assets are placed in service

Impairment of Assets

Properties and other long-lived assets are reviewed for impairment whenever events or business conditions indicate that the carrying amount of such assets may not be fully recoverable Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or a group of assets Where impairment is indicated, the asset's carrying amount is reduced to fair value based on discounted net cash flows or other estimates of fair value No asset impairment loss was recognized for the six-month period ended June 30, 2012

Goodwill

Goodwill represents the excess of the purchase cost over the fair value of net assets acquired The System engaged independent consultants to perform an impairment analysis on goodwill In conducting the impairment test, the fair value of the reporting unit is compared to its respective carrying amount including goodwill If the fair value exceeds the carrying amount, no impairment exists If the carrying amount exceeds the fair value, further analysis is performed to assess impairments The System's determination of fair value is based on an income approach with an appropriate discount rate Significant assumptions inherent in this methodology are employed and includes such estimates as discount rates No impairment loss was recognized as a result of the impairment test Goodwill is \$11,186 as of June 30, 2012

Patient Receivables and Net Patient Service Revenue

Patient receivables and net patient service revenue are derived primarily from patients who reside in Kentucky and southern Indiana Patient receivables consist of amounts due from third-party payors, including federal and state programs, commercial insurance companies and individual patients, for health care services rendered Management maintains an allowance for doubtful accounts to reserve for estimated losses based on the length of time the account has been past due and historical collection experience

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive revenue adjustments due to future audits by third-party payors. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits by third-party payors. The changes in estimates as a result of appeal settlements and other cost report or fee adjustments resulted in an increase in net patient service revenue of \$18,029 for the six-month period ended June 30, 2012

Other Revenue

Other revenue is related to the furtherance of operating activities but is not directly related to patient services. Other revenue includes retail pharmacy revenue, rental revenue, cafeteria revenue, Medicaid program meaningful use incentives and various other miscellaneous revenue.

Contributions

Contributions are recorded at fair value in the period received or pledged Donor-restricted contributions are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when the purpose of the restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statement of operations and changes in net assets along with unrestricted contributions as other operating revenue. Donor-restricted contributions whose restrictions are met within the same year as received are accounted for as unrestricted contributions. Permanently restricted net assets have been restricted by donors and are to be maintained by the System in perpetuity

Excess of Revenue Over Expenses

The consolidated statement of operations and changes in net assets include excess of revenue over expenses. Changes in unrestricted net assets that are excluded from excess of revenue over expenses, consistent with industry practice, include contributions of long-term assets (including assets acquired using contributions, which by donor restriction were to be used for the purposes of acquiring such assets), contributions to the CHI capital resource pool and changes in pension plan assets and obligations

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

Operating Activities and Nonoperating Gains

Only those activities directly associated with the furtherance of the System's primary mission are considered to be operating activities Other activities that result in gains or losses are considered to be nonoperating gains. Nonoperating gains include investment income and loss on the defeasance of bonds.

Transaction-Related Losses

Transaction-related losses are included in the consolidated statement of operations and changes in net assets. These include internal and external integration costs as a result of the business combination and System reorganization.

Functional Expenses

The System's general and administrative costs represented approximately 19% of total operating expenses for the six-month period ended June 30, 2012

Self-Insured Reserves and Claims

The provision for estimated self-insured medical malpractice and workers' compensation claims includes estimates of the ultimate costs for incurred claims that have been identified and for claims that have been incurred but not reported

Income Taxes

The majority of the System's income and most of the entities that it owns are exempt from federal and state income taxes as not-for-profit corporations that are recognized by the IRS as defined in Section 501(c)(3) of the IRC and applicable state statutes

Recently Issued Accounting Pronouncements

The FASB has issued Accounting Standards Update (ASU) No 2010-24, *Health Care Entities (Topic 954): Presentation of Insurance Claims and Related Insurance Recoveries* The amendments in ASU 2010-24 clarify that a health care entity may not net insurance recoveries

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

against related claim liabilities. In addition, the amount of the claim liability must be determined without consideration of insurance recoveries. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2010. The ASU is effective for the six-month period ended June 30, 2012 and has been adopted by the System in the consolidated financial statements. The adoption of this ASU had an impact of increasing other long-term insurance receivable by \$84,322 and self-insured reserves and claims by \$84,322.

The FASB has issued ASU No 2010-23, Health Care Entities (Topic 954): Measuring Charity Care for Disclosure ASU 2010-23 is intended to reduce the diversity in practice regarding the measurement basis used in the disclosure of charity care ASU 2010-23 requires that cost, identified as the direct and indirect costs of providing the charity care, be used as the measurement basis for disclosure purposes ASU 2010-23 also requires disclosure of the method used to identify such costs. This ASU is effective for the six-month period ended June 30, 2012 and has been adopted by the System in the consolidated financial statements. The adoption of this new standard only impacted disclosures in the notes to the consolidated financial statements

The FASB has issued ASU No 2011-04, Fair Value Measurements (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosures Requirements in U.S. GAAP and IFRSs. The amendments in ASU 2011-04 change the wording used to describe many of the requirements in U.S. generally accepted accounting principles for measuring fair value and for disclosing information about fair value measurements. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011. This ASU is effective for the six-month period ended June 30, 2012 and has been adopted by the System in the consolidated financial statements. The adoption of ASU 2011-04 had no impact on the financial condition, results of operations or cash flows.

The FASB issued ASU No 2011-07, Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities ASU 2011-07 is intended to provide financial statement users with greater transparency about a health care entity's net patient service revenue and the related allowance for doubtful receivables For nonpublic entities, the amendments are effective for the first annual period ending after December 15, 2012, and interim and annual periods thereafter ASU 2011-07 requires certain health care entities to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Accounting Policies (continued)

patient service revenue from an operating expense to a deduction from patient service revenue Additionally, those health care entities are required to provide enhanced disclosure about their policies for recognizing revenue and assessing bad debts. The amendments also require disclosures of net patient service revenue as well as qualitative and quantitative information about changes in the allowance for doubtful receivables. The System will make the change in the presentation of the provision for bad debts and disclosures as required upon adoption

The American Recovery and Reinvestment Act of 2009 established incentive payments under Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record technology Payments under the program are calculated based upon estimated discharges, charity care and other input data and are predicated upon the System's attainment of program and attestation criteria and are subject to regulatory audit For the six-month period ended June 30, 2012, the System has recognized revenue of \$2,656 related to this program

2. Community Benefit (unaudited)

In accordance with its mission and philosophy, the System commits substantial resources to sponsor a broad range of services to both the indigent as well as the broader community Community benefit provided to the indigent includes the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. This type of community benefit includes the costs of traditional charity care, unpaid costs of care provided to beneficiaries of Medicaid and other indigent public programs, services such as free clinics and meal programs for which a patient is not billed or for which a nominal fee has been assessed, and cash and in-kind donations of equipment, supplies or staff time volunteered on behalf of the community

Community benefits provided to the broader community includes the costs of providing services to other populations who may not qualify as indigent but may need special services and support This type of community benefit includes the costs of services such as health promotion and education, health clinics and screenings, all of which are not billed or can be operated only on a deficit basis, unpaid portions of training health professionals such as medical residents, nursing students and students in allied health professions, and the unpaid portions of testing medical equipment and controlled studies of therapeutic protocols

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Community Benefit (unaudited) (continued)

A summary of the cost of community benefit provided to both the indigent and the broader community for the six-month period ended June 30, 2012 is as follows

Charity care at cost (includes provider tax, net)	\$ 44,864
Unreimbursed cost of Medicaid	7,825
Means-tested programs	6,151
Community health improvement services	1,852
Health professions education	701
Subsidized health services	1,046
Research	2,196
Financial and in-kind contributions	893
Community benefit operations	18
Community building activities	65
Total	\$ 65,611

The summary above has been prepared in accordance with the policy document of the Catholic Health Association of the United States (CHA), Community Benefit Program – A Revised Resource for Social Accountability. Community benefit is measured on the basis of total cost, net of any offsetting revenue, donations or other funds used to defray cost (see Note 3 for subsidy amounts)

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

3. Net Patient Service Revenue

Net patient service revenue for the six-month period ended June 30, 2012 is comprised of the following

Charges at established rates	\$ 2,709,309
Contractual deductions	
Medicare allowance	803,888
Medicaid allowance	203,287
Other contractual allowances	601,169
Total contractual deductions	1,608,344
Uncompensated care	
Charity	138,532
Self-pay discounts	24,363
Total uncompensated care	162,895
Net patient service revenue	\$ 938,070

Reimbursement from the Medicare program is determined from annual cost reports, which are subject to audit by the program The System's management believes that amounts recorded in the consolidated financial statements for estimated settlements will approximate the final settlements for open cost reports The System's cost reports for substantially all of its controlled subsidiaries have been audited by the government or its agents and settled through December 31, 2006. In the health care industry, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. The System believes that it is in substantial compliance with all applicable laws and regulations. Compliance with health care industry, laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare and Medicaid programs. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The System has agreements with Medicare, Medicaid, and other third-party payors that provide for payments at amounts different from their established rates. A summary of the payment arrangements with major third-party payors is described in the following paragraphs

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

3. Net Patient Service Revenue (continued)

Medicare

Inpatient medical and surgical acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient services are reimbursed on a prospective payment system with services classified into clinically similar ambulatory payment classes (APC) regardless of cost

Inpatient rehabilitation services are paid on a prospective payment system based on principal diagnosis. Home health services are reimbursed using a prospective payment system based on episodes of care. Medicare net revenue was approximately 42% of total net patient service revenue in the six-month period ended June 30, 2012

Medicaid

The Kentucky Medicaid program reimburses the System on a prospectively determined rate per discharge for inpatient services and on the basis of fee schedules and cost to charge ratios, as defined, for outpatient services Medicaid net revenue was approximately 10% of total net patient service revenue in the six-month period ended June 30, 2012

Other

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance and preferred provider organizations. The basis for payment under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

The Commonwealth of Kentucky (the Commonwealth) has established a provider tax program and imposes a fixed tax on health care providers primarily based on historical payments made to the program. This tax was \$13,493 for the six-month period ended June 30, 2012, and is included in other operating expenses. The Commonwealth provides for a system of reimbursement for services provided to certain Medicaid patients and other patients meeting specified income guidelines (Kentucky Hospital Care Program – KHCP) KHCP reimbursement was \$6,962 for the six-month period ended June 30, 2012, and is included in net patient service revenue as a reduction of charity care provision

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Property and Equipment, Net

Property and equipment, net at June 30, 2012 consist of the following

Land and land improvements	\$ 84,038
Buildings and improvements	819,334
Equipment	410,910
Leasehold improvements	14,116
Construction-in-progress	19,231
	1,347,629
Accumulated depreciation and amortization	 411,227
	\$ 936,402

The System incurred interest costs of \$18,087 for the six-month period ended June 30, 2012 Net interest costs capitalized was \$0 in the six-month period ended June 30, 2012

5. Debt

The System participates in a unified CHI credit program governed under a Capital Obligation Document (COD) Under the COD, CHI is the sole obligor on all debt Bondholder security resides both in the unsecured promise by CHI to pay its obligations and in its control of direct affiliates Covenants include a minimum CHI debt coverage ratio and certain limitations on secured debt The System, as a direct affiliate of CHI, is defined as a Participant under the COD and has agreed to certain covenants related to corporate existence, maintenance of insurance and exempt use of bond-financed facilities The System has in place certain intercompany notes with CHI, which include monthly installments at a variable rate of interest and may be repaid in advance without penalty

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

5. Debt (continued)

Long-term debt at June 30, 2012 consists of the following

Long-term debt due after one year	\$ 703,653

All of the notes payable to CHI bear a variable quarterly average interest rate, which was 4 75% at June 30, 2012 The variable rate associated with the notes payable to CHI is based on a blended rate of the external underlying fixed and variable debt held by CHI

Prior to January 1, 2012, JHSMH and JHHS, together hereinafter referred to as the Obligated Group, were party to a Master Trust Indenture for the purpose of providing for the issuance of bonds from time to time by any of the Obligated Group members to refinance outstanding indebtedness or to finance the acquisition of capital improvements Pursuant to this Master Trust Indenture, the Obligated Group members agreed to be jointly and severally liable under any

notes issued under the Master Trust Indenture As of January 1, 2012, there were two outstanding bonds from the Obligated Group, but both were defeased subsequent to the formation of the System As of January 6, 2012, the transaction closing date, JHHS was released from the Obligated Group As of April 5, 2012, all debt obligations under the Master Trust Indenture were cancelled and JHSMH was released of all Master Trustee's rights and the Master Trust Indenture ceased The two bonds outstanding as of January 1, 2012 were \$60,000 for the 1996 Health Facilities Revenue Bonds issued by the County of Jefferson, Kentucky (the 1996 Bonds), and \$330,000 for the 2008 Metro Government Health Facilities Revenue Bonds (the 2008 Bonds) issued by the Louisville/Jefferson County

The 1996 Bonds were defeased on January 6, 2012 The System entered into a note payable to CHI in the amount of \$43,158 to cover the costs of the 1996 Bonds defeasance A loss on the defeasance of the 1996 bonds of \$479 is recorded on the consolidated statement of operations and changes in net assets as a nonoperating loss for the six-month period ended June 30, 2012

The 2008 Bonds were defeased on April 5, 2012 The System entered into a note payable to CHI in the amount of \$358,723 to cover the costs of the 2008 Bonds defeasance A loss on the defeasance of the 2008 bonds of \$69,399 is recorded on the consolidated statement of operations and changes in net assets as a nonoperating loss for the six-month period ended June 30, 2012 The loss on defeasance is primarily related to the excess of escrow funds required over the amount of the bonds that were defeased Escrow funds in the amount of \$411,341 will be maintained in the Bank of New York Mellon Trust Company (Escrow Agent) to cover future redemption of these Bonds

The System has a line of credit agreement that provides for borrowings of \$4,000, which is required by a commercial card agreement. There is no outstanding amount borrowed on the line of credit at June 30, 2012.

At June 30, 2012, aggregate maturities on long-term debt are as follows

2013	\$ 22,631
2014	24,120
2015	25,300
2016	26,265
2017	27,248
Thereafter	 600,720

6. Retirement Plans

The System has a defined benefit retirement plan covering substantially all of its JHSMH employees This defined benefit retirement plan was curtailed in 2009 and all benefits were frozen as of January 1, 2010 In 2010, the defined benefit retirement plans covering key employees were rolled into individual noncontributory-defined contribution retirement plans Information related to the noncontributory-defined benefit plan (the Plan) is presented below

Components of net periodic pension benefit cost related to the defined benefit plan for the six-month period ended June 30, 2012, were as follows

Interest cost	\$ 3,548
Expected return on plan assets	(5,427)
Recognized actuarial gain and settlement	237
Net periodic pension benefit cost	\$ (1,642)

The change in projected benefit obligation and the fair value of plan assets for the six-month period ended June 30, 2012, and the funded status of the Plan as of June 30, 2012, were as follows

Projected benefit obligation, beginning of period	\$ 183,733
Interest cost	3,548
Actuarial loss	7,195
Settlements	(8,495)
Benefits paid	(776)
Projected benefit obligation, end of period	185,205
Fair value of plan assets, beginning of period	136,188
Actual gain on plan assets	7,220

6. Retirement Plans (continued)

The net loss recognized in unrestricted net assets for the six-month period ended June 30, 2012 was \$5,165 Under purchase accounting guidance, ASC Topic 805, *Business Combinations*, and ASC 958, *Not-for-Profit Mergers and Acquisitions*, an adjustment was made to eliminate amounts accumulated in net assets of the Plan as part of establishing the System's opening balance sheet Included in unrestricted net assets at June 30, 2012, is the following amount that has not yet been recognized in net periodic benefit cost unrecognized actuarial loss of \$5,165 The actuarial loss expected to be recognized during the year ending June 30, 2013, is \$0

The accumulated benefit obligation for all defined benefit pension plans was \$185,205 at June 30, 2012

The weighted-average assumptions used to determine net periodic pension costs for the six-month period ended June 30, 2012 were as follows

Discount rate	4 55%
Expected return on plan assets	8 00

The weighted-average assumptions used to determine benefit obligations at June 30, 2012 were as follows

Discount rate		4 00%
Expected return on	plan assets	8 00

In selecting the expected return on plan assets, the System considers historical returns as well as adherence to future asset allocations

The majority of the System's plan assets are invested in a CHI Plan Assets Investment Program (the Plan Asset Program) that provides for asset allocation in strategies across equity and debt markets, both domestic and international, and alternative investments Alternative investments consist of hedge funds, private equity funds, and other securities organized as limited liability companies and partnerships. The portfolio's objectives are preservation of principal, investment growth of assets consistent with reasonable actuarial assumptions, competitive returns, minimization of unnecessary risk, and consistency with CHI social responsibility investment guidelines. Strategies are followed which increase or decrease investments in the equity and debt markets based upon the value of the stock and bond markets and the relative value of a wide variety of securities within these markets. Consideration is given to several variables, including productivity, inflation, global competitiveness, and risk

6. Retirement Plans (continued)

The target and range asset allocations for the plan assets set forth in the Plan Asset Program's investment policies are as follows

	Target	Range
Marketable debt securities	27 5%	22 5% to 32 5%
Marketable equity securities	52 5%	47 5% to 57 5%
Alternative investments	20 0%	20 0% to 25 0%

As of June 30, 2012, the System believes that there is not a specific concentration of risk in the underlying pool. The System does recognize that all investments are subject to market risks and that changes in the market may have a material effect on the plan assets.

Nearly all of the System's plan assets are represented by pool units rather than specific securities. The Plan Asset Program is not necessarily readily marketable and may include short sales on securities and trading in future contracts, options, foreign currency contracts, other derivative instruments and private equity investments. Management has determined that the net asset value (NAV) is an appropriate estimate of the fair value of these pooled units at June 30, 2012 based on the underlying investment being recorded at fair value within the Plan Asset Program. As the System has the ability to redeem its pooled units with no adjustment at the measurement date and there are no significant restrictions on liquidating these investments, the investment is categorized as a Level 2 measurement in the fair value hierarchy considerations. The inputs and valuation techniques as of June 30, 2012 used for valuing the pooled units is primarily NAV, which represent a market valuation approach. The valuation of cash and cash equivalents is described in Note 10.

6. Retirement Plans (continued)

The following table presents the financial instruments of the Plan's assets at fair value as of June 30, 2012, as defined by the level hierarchy for fair value measurements in Note 1

	7			T 12		. 12		Fair
	Level 1		Level 2		Level 3		Value	
Assets								
Cash and cash equivalents	\$	13,941	\$	_	\$	_	\$	13,941
Plan Asset Program		_		119,786		_		119,786
Hedge funds		_		_		9,960		9,960
Total assets at fair value	\$	13,941	\$	119,786	\$	9,960	\$	143,687

The following is a rollforward of the amounts for financial instruments of the Plans' assets within Level 3 of the valuation hierarchy defined in Note 1 for the six-month period ended June 30, 2012

Balance, January 1, 2012	\$ 14,790
Sales/redemptions	(4,736)
Change in fair market value	(94)
Balance, June 30, 2012	\$ 9,960

The carrying value of the hedge funds is based on valuations provided by the administrators of the specific financial instruments. The valuation methods for all other securities are consistent with Note 10. The underlying investments in these financial instruments may include marketable debt and equity securities, commodities, foreign currencies, derivatives, and private equity investments. The underlying investments themselves are subject to various risks including market, credit, liquidity and foreign exchange risk. The fair value is based on the percentage ownership of the net asset value of the funds based on the fact that the hedge funds are audited and accounted for at fair value by the respective administrators of the funds. The System believes the carrying amount of these financial instruments in the consolidated balance sheet is a reasonable estimate of ownership interest. Because these financial instruments are not readily marketable, the estimated carrying value is subject to uncertainty, and, therefore, may differ from the value that would have been used had a market for such financial instruments existed

The System expects to contribute approximately \$4,964 to the defined benefit pension plans in the fiscal year ended June 30, 2013

6. Retirement Plans (continued)

Benefits expected to be paid to the Plans' beneficiaries are as follows

2013	\$ 11,954
2014	11,910
2015	11,358
2016	11,802
2017	11,969
2018 through 2022	52,118

The System has a defined contribution retirement plan covering substantially all its former JHSMH employees Pension expense of \$9,653 was recorded for these defined contribution plans for the six-month period ended June 30, 2012 The net recorded liability for these plans at June 30, 2012, was \$5,956, and is included in other current liabilities on the consolidated balance sheet

The System has noncontributory defined contribution retirement plans covering certain key former JHSMH employees Pension expense of \$420 was recorded for these defined contribution plans for the six-month period ended June 30, 2012 The System has recorded both plan assets and liabilities for these plans for the six-month period ended June 30, 2012 of \$2,893

The System also participates in the CHI defined benefit retirement plan which is a multiemployer, noncontributory, cash balance plan covering substantially all employees of SJHS Pension expense for the six-month period ended June 30, 2012 is \$7,802 As a multi-employer plan, separate measurements of assets and pension benefit obligations for individual employers are not made

Thereafter	 21,863
	\$ 92,895

Total rental expense, which includes amounts applicable to short-term leases, was \$24,453 for the six-month period ended June 30, 2012

The System, in conjunction with other medical center institutions, is contractually obligated to purchase services from two organizations owned and operated by the Medical Center Commission (a public agency), which provide laundry service and steam and chilled water service to certain operations and other institutions Payments made by the System to the two organizations are included in operating expenses and, for the six-month period ended June 30, 2012, amounted to

Laundry service	\$ 1,167
Steam and chilled water service	1,365
	\$ 2,532

The System leases office space to various lessees in medical office buildings and parking lots under operating leases. The rental income from these leases was \$4,286 for the six-month period ended June 30, 2012 and is included in other revenue in the accompanying consolidated statement of operations and changes in net assets.

Total minimum future rentals	\$ 15,310

8. Medical Malpractice Self-Insurance

First Initiatives Insurance, Ltd (FIIL), a wholly owned, captive insurance subsidiary of CHI, underwrites the property and casualty risks of CHI The System participates in FIIL's comprehensive professional, employment practices, general liability and workers' compensation coverage Coverage is provided by FIIL either on a directly written basis or through reinsurance relationships with commercial carriers. In addition, CHI purchases excess insurance from commercial carriers. These amounts, including actuarial estimates for incurred but not reported claims, are assessed to all participants.

Amounts paid by the System for professional, employment practices, and general liability coverage were \$9,683 for the six-month period ended June 30, 2012 and are included in insurance expense Amounts paid by the Company for workers' compensation coverage were \$2,327 for the six-month period ended June 30, 2012 and are included in personnel expense The estimated liability for professional liability and workers' compensation claims incurred but not reported (including legal costs) as of June 30, 2012 is \$55,037 and \$29,285, respectively, and is included in self-insured reserves and claims along with a corresponding long-term insurance receivable within long-term assets in the accompanying consolidated balance sheet

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

9. Concentrations of Credit Risk

The System grants credit without collateral to its patients, most of who are local residents and are insured under third-party agreements. The mix of net receivables from patients and third-party payors at June 30, 2012 was as follows

Medicare	34%
Medicaid	15
Anthem Blue Cross	18
Other third-party payors	31
Private payors	2
	100%

10. Fair Values of Financial Instruments

The following table presents the financial instruments at fair value as of June 30, 2012, aggregated by level in the hierarchy defined in Note 1

10. Fair Values of Financial Instruments (continued)

The following methods and assumptions were used by the System in estimating its fair value disclosures for financial instruments

- Repurchase agreements The value is based upon quoted market prices of US government agency securities in less active markets at June 30, 2012, which have been placed in Level 2
- Cash and cash equivalents and certificates of deposit The value is based upon the cash held with local banks and money market funds that carry a constant value of \$1 per share, which have been placed in Level 1
- **Common stocks** The value is obtained from prices quoted in the active market, which represents the fair value of the securities, which have been placed in Level 1
- **Mutual funds** The value is based upon quoted market prices that are available in an active market at June 30, 2012, placing these securities in Level 1
- Real estate mutual funds The value is based upon quoted market prices that are available in an active market at June 30, 2012 Since more than half of the fund's investments are categorized as Level 2, the investment has been classified as Level 2
- Foreign bonds Values are based upon quoted prices in less active, dealer or broker markets The values are obtained from third-party pricing services, and they have been placed in Level 2
- U.S. government obligations U S government securities are valued using quoted market prices in active markets and have been placed in Level 1
- Other investments The majority of these investments are with local community foundations, which provide values based upon underlying values of investment held by the particular organization These investments have been placed in Level 2
- Other assets The carrying amounts primarily consist of funds under university placement and pledges receivable which approximate fair values

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

10. Fair Values of Financial Instruments (continued)

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values Furthermore, while the System believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the consolidated balance sheet date

The carrying amounts of the System's financial instruments at June 30, 2012 are as follows

Cash and cash equivalents	\$ 29,254
Repurchase agreements	29,300
	\$ 58,554
Investments and assets limited as to use

10. Fair Values of Financial Instruments (continued)

The Program asset allocation at June 30, 2012 is as follows

Cash and cash equivalents	1%
Marketable debt securities	35
Marketable equity securities	46
Alternative investments	18
	100%

The CHI Investment Committee of the Board of Stewardship Trustees (CHI Investment Committee) is responsible for determining asset allocations among cash and cash equivalents, marketable debt securities, marketable equity securities and alternative investments. Alternative investments consist of hedge funds, private equity funds, and other securities organized as limited liability companies and partnerships. At least annually, the CHI Investment Committee reviews targeted allocations and, if necessary, makes adjustments to targeted asset allocations.

Investments held in the Program are represented by pool units valued monthly under a custodian accounting system. Investment income from the Program, including dividend and interest income (net of expense), net realized gains on investments, and the net change in unrealized (losses) gains on investments, is distributed to participants based on the earnings per pool unit Gains or losses are realized by participants when pool units are sold, representing the difference between the cost basis and the market value of the pool units sold. The value of the assets held is an allocation of the underlying carrying value of the assets in the Program, based upon pool units held by the participants.

The carrying value of cash and cash equivalents, marketable equity securities, and marketable debt securities included in the Program, substantially all of which are traded on national exchanges and over-the-counter markets, is based on the last reported sales price on the last business day of the fiscal year

10. Fair Values of Financial Instruments (continued)

The System's non-financial assets and liabilities not permitted or required to be measured at fair value on a recurring basis typically relate to assets and liabilities acquired in a business combination, long-lived assets held and used and intangible assets. The System is required to provide additional disclosures about fair value measurements as part of the consolidated financial statements for each major category of assets and liabilities measured at fair value on a non-recurring basis. In general, non-recurring fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities, which generally are not applicable to non-financial assets and liabilities. Fair values determined by Level 2 inputs utilize data points that are observable, such as definitive sales agreements, appraisals or established market values of comparable assets. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability and include situations where there is little, if any, market activity for the asset or liability, such as internal estimates of future cash flows

Following is the summary of the inputs and valuation techniques used for valuing Level 2 and Level 3 non-financial assets and liabilities

Effective January 1, 2012, the System acquired JHSMH (Note 1) in a business combination using the purchase method of accounting guidance, ASU No 2011-04, Fair Value Measurements (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosures Requirements in U.S. GAAP and IFRSs, and ASC 958, Not-for-Profit Mergers and Acquisitions, which requires the acquired assets and liabilities to be initially recorded at fair value (non-recurring) The following table presents the acquired assets and liabilities of JHSMH as of January 1, 2012 and indicates the fair value hierarchy of the valuation techniques the System utilized to determine such estimated fair values

11. Income Taxes

Most of the income received by the System and certain affiliates is exempt from taxation under Section 501(a) of the IRC Some of its subsidiaries are taxable entities, and some of the income received by otherwise exempt entities, are subject to taxation as unrelated business income The System files federal income tax returns as well as income tax returns in Kentucky and Indiana

ASC 740, *Income Taxes*, clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return ASC 740 also provides guidance on description, classification, interest and penalties, accounting in interim periods, disclosure, and transition Management has done an analysis and determined that no amount needed to be recorded related to ASC 740 at June 30, 2012

12. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets include donor-restricted funds, which can only be expended for the designated purpose Also included is the cash surrender value of life insurance and pledges receivable, which cannot be expended until received At June 30, 2012, temporarily restricted net assets include the following

Funds restricted for	
Health care programs	\$ 2,430
Capital expenditures	7,263
Research and education	3,226
Other	 1,904
	\$ 14,823

The System's endowed funds consist of individual donor-restricted funds established for education, research, and a variety of other purposes Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions. The System's Board of Directors has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary

12(9-1392389

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

12. Temporarily and Permanently Restricted Net Assets (continued)

As a result of this interpretation, the System classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard for expenditure prescribed by UPMIFA

13. Related Party Transactions

In addition to the other related party transactions disclosures in these notes, the System recognized expenses of \$40,200 for the six-month period ended June 30, 2012 related to overhead allocations from the CHI National Office The System also made net contributions of \$3,374 to the Capital Resource Pool during the six-month period ended June 30, 2012 These contributions are recorded as direct reductions to unrestricted net assets

CHI arranges for comprehensive healthcare services for SJHS' employees through its self-insured medical plan CHI estimates employee premiums on an annual basis with the assistance of an independent actuary Under certain circumstances, the System may withdraw from the plan without additional costs incurred Employee benefits expense on the consolidated statement of operations and changes in net assets includes \$23,152 for the six-month period ended June 30, 2012 for premiums paid to CHI for the self-insured medical plan

12(9-1392389

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

13. Related Party Transactions (continued)

The System leases substantially all the buildings and land from JHHS and CHI under long-term leases which expire December 31, 2110 for rent of \$1 dollar per year for each lease Under applicable accounting guidance, the buildings and land are reflected on the consolidated financial statements of the System

14. Subsequent Events

The System has evaluated subsequent events through November 6, 2012, which is the date the consolidated financial statements were issued and made publicly available
