Identifier	ReturnReference	Explanation
Est of Bad Debt Exp Attributable to Patients Eligible Under Charity Care	Schedule H, Part III, Section A, Line 3	The filing organization recognizes that some patients are unable or unwilling to seek financial assistance due to barriers such as educational level, literacy, documentation requirements, or being intimidated by the application process. In order to estimate the amount of the organization's bad debt expense attributable to patients who may be eligible for financial assistance but have not submitted an application, the organization engaged PARO Decision Support, LLC. PARO Charity Score is designed to identify patients that likely qualify for financial assistance based on a predictive model and other financial and asset estimates for the patient derived from public record sources. In order to assess the bad debt accounts that would likely qualify for charity care, the following criteria were established based on an analysis of historical data of Christus Health and its related organizations: 1. PARO Score of less than or equal to 586, which is a predictor defining the likely socioeconomic conditions for the patient; 2. Estimated Federal Poverty Level of less than or equal to 226%, which is based on estimated household size and household estimated income; and 3. Third party data available on patient accounts which indicate that the patient is not a homeowner or a probable homeowner. For the fiscal year ending June 30, 2011, the organization reported that 30% of bad debt expenses were attributable to patients who may have been eligible for financial assistance but were not responsive to the application process existing at that time. This figure was based on the PARO analysis and estimates of patients' financial needs that examined whether patients were characteristic of others who historically qualified for assistance under the traditional application process. The presumptive charity care analysis performed for the prior fiscal year determined a benchmark of bad debt accounts in the Christus Health System that lacked the information to qualify for charity care under the filing organization's customary process but would have likely qualified for assistance. During the fiscal year ending June 30, 2012, the organization utilized the PARO score to identify the accounts of individual patients that were likely eligible for financial assistance despite having not completed an application, and such analysis determined that 26.21% of such accounts were likely eligible for financial assistance. The organization granted presumptive eligibility for these accounts and they were reclassified under our financial assistance policy. These amounts were not reported as bad debt. The amount reported on Schedule H, Part III, Line 3 is the difference between the presumptive charity care benchmark established in the previous fiscal year ending June 30, 2011 and the aggregate of individual accounts for which the organization granted presumptive eligibility in the fiscal year ending June 30, 2012. Thus, the organization estimates that only 3.79% of the bad debt expenses in fiscal year ending June 30, 2012 are attributable to patients who would likely have qualified for financial assistance. It is important to note that the figure calculated for fiscal year ending June 30, 2011 was estimated and not exact, and therefore the difference between the amounts qualified as presumptive charity care in any fiscal year may vary from the benchmark established in fiscal year ending June 30, 2011.

Bad Debt Expense Footnote	Schedule H, Part III, Section A, Line 4	The footnote to the CHRISTUS Health consolidated financial statements says, "The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management of the system to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any The system considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its financial statements, including the following recognition of net patient revenues, which include contractual allowances, provisions for bad debt, reserves for losses and expenses related to health care professional and general liabilities, determination of fair values of certain financial instruments, determination of fair value of certain goodwill and long-lived assets, and risks and assumptions for measurement of pension and retiree medical liabilities Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgment and estimates Actual results could differ materially from these estimates "

Identifier	Return Reference	Explanation
Supplemental Compensation Information	Form 990, Schedule J, Part I, Line 1a, Companion Travel	TAXABLE COMPENSATION WAS REPORTED TO VARIOUS OFFICERS AND BOARD MEMBERS RELATED TO COMPANION TRAVEL TO CHRISTUS MEETINGS. Supplemental Compensation Information FORM 990, PART VII, QUESTION 1A AND SCHEDULE J, PART II DIRECTORS AND EX-OFFICIO DIRECTORS PROVIDE THEIR SERVICES AS MEMBERS OF THE BOARD WITHOUT COMPENSATION OR BENEFITS. ANY COMPENSATION AND BENEFITS DISCLOSED FOR SUCH PERSONS IS EARNED IN THE RESPECTIVE INDIVIDUAL'S ROLE AS AN OFFICER OR EMPLOYEE OF THE ORGANIZATION, NOT FOR THE INDIVIDUAL'S ROLE AS A BOARD MEMBER OR DIRECTOR. OFFICERS, KEY EMPLOYEES AND HIGHEST PAID EMPLOYEES ARE FULL-TIME EMPLOYEES. BOARD MEMBERS SPEND TIME AS NEEDED FOR BOARD MEETINGS AND FUNCTIONS. DANIEL KOVNAT, MD RECEIVED \$379,200 FOR SERVICES AS A MEDICAL DIRECTOR, MEDICAL STAFF PRESIDENT AND PHYSICIAN AT ST VINCENT HOSPITAL AND NOT FOR SERVICES AS A DIRECTOR. LILIAN MONTOYA-RAEL RECEIVED \$12,966 FOR CONSULTING SERVICES AT ST VINCENT HOSPITAL AND NOT FOR SERVICES AS A DIRECTOR. FORMER DIRECTOR, CLEVELAND PARDUE, MD RECEIVED \$181,106 FOR SERVICES AS A PHYSICIAN AT ST VINCENT HOSPITAL AND NOT FOR SERVICES AS A DIRECTOR. FORMER DIRECTOR, JAMIE GAGAN, MD RECEIVED \$11,250 FOR SERVICES AS A MEDICAL DIRECTOR AND NOT FOR SERVICES AS A DIRECTOR. FORMER DIRECTOR, MICHAEL PALESTINE, MD RECEIVED \$24,500 FOR SERVICES AS A MEDICAL DIRECTOR AND NOT FOR SERVICES AS A DIRECTOR. FORMER DIRECTOR, KATHY ARMIJO-ETRE RECEIVED \$104,630 FOR CONSULTING SERVICES AND NOT FOR SERVICES AS A DIRECTOR. CHRISTUS Health, a member organization of St Vincent Hospital, has a 50% ownership and therefore does not meet the definition of a related organization set forth by the Form 990 instructions. The following persons received compensation from unrelated CHRISTUS Health for services rendered to St Vincent during calendar year 2011. The amounts below are reflected in Part VII, Section A, Column D and Schedule J, Part II, Column (B)(ii) row 1 as follows: ALEX VALDEZ BONUS AND INCENTIVE COMPENSATION = \$75,342; MARGARET DITTRICH BONUS AND INCENTIVE COMPENSATION = \$15,591; KEVIN GARRETT BONUS AND INCENTIVE COMPENSATION = \$49,754; BRUCE TASSIN BONUS AND INCENTIVE COMPENSATION = \$53,135. Dennis Empey began serving as the CFO of St Vincent Hospital as of 1/2012. Compensation reported on Part VII and Schedule J, Part II is through calendar year end 12/31/2011. As such, Mr. Empey is not reflecting compensation for the current year.
Explanation of Member org determining CEO/Executive Directors comp	Form 990, Schedule J, Part I, Question 3	THE FILING ORGANIZATION'S CEO/EXECUTIVE DIRECTOR IS AN EMPLOYEE OF CHRISTUS HEALTH, A MEMBER ORGANIZATION. AS A RESULT, COMPENSATION IS ESTABLISHED AT THE CHRISTUS HEALTH LEVEL AND THE FILING ORGANIZATION DOES NOT HAVE A ROLE IN IMPLEMENTING THE METHODS USED TO ESTABLISH COMPENSATION OR IN DETERMINING CEO/EXECUTIVE DIRECTOR COMPENSATION. CHRISTUS HEALTH USES AN EXECUTIVE COMPENSATION COMMITTEE TO ESTABLISH AND APPROVE THE COMPENSATION OF THE FILING ORGANIZATION'S CEO/EXECUTIVE DIRECTOR. THIS COMMITTEE USES AN INDEPENDENT COMPENSATION CONSULTANT WHO PERFORMS BI-ANNUAL COMPENSATION SURVEY.
Supplemental Nonqualified Retirement Plan	Form 990, Schedule J, Part I, Question 4b	DEFERRED COMPENSATION INCLUDES EXECUTIVE DEFERRED INCOME ACCOUNT, SUPPLEMENTAL EXECUTIVE RETIREMENT AND RETENTION PLAN, AND PENSION RESTORATION PLAN. ESTIMATED PENSION BENEFITS WERE CALCULATED BASED ON THE PROVISIONS OF THE CURRENT PENSION RESTORATION PLAN AT 6% OF PENSIONABLE EARNINGS WHICH ARE OVER THE IRS LEGISLATIVE COMPENSATION LIMIT. SOME ASSOCIATES ARE GRANDFATHERED UNDER AN EARLIER LEGACY PENSION PLAN. IF A PARTICIPANT HAS PROTECTED PENSION BENEFITS UNDER SUCH LEGACY PLANS, HIS/HER PERCENTAGE IS ZERO UNDER THE SUPPLEMENTAL EXECUTIVE RETIREMENT AND RETENTION PLAN, AS THE PROTECTED BENEFIT IS ALREADY EQUAL TO OR BETTER THAN CURRENT MARKET.
SUPPLEMENTAL NONQUALIFIED RETIREMENT PLAN PAYMENTS	FORM 990, SCHEDULE J, PART I, LINE 4B AND FORM 990, SCHEDULE J, PART II,	COLUMN (F), COMPENSATION REPORTED AS DEFERRED IN PRIOR FORM 990. BRUCE TASSIN RECEIVED \$61,425 DURING CALENDAR YEAR 2011 UNDER A SUPPLEMENTAL NONQUALIFIED RETIREMENT PLAN.
Supplemental Compensation Information	Form 990, Schedule J, Part II	W-2 COMPENSATION MAY INCLUDE PAYMENTS RELATED TO COMPENSATION DEFERRED IN PRIOR YEARS. DEFERRED COMPENSATION MAY INCLUDE DEFERRALS OF CURRENT YEAR COMPENSATION UNDER EXECUTIVE DEFERRED INCOME ACCOUNT, SUPPLEMENTAL EXECUTIVE RETIREMENT AND RETENTION PLAN AND PENSION RESTORATION PLAN.
SUPPLEMENTAL COMPENSATION INFORMATION	FORM 990, SCHEDULE J, PART II, COLUMN B (II)	Bonus and incentive compensation may include amounts that were deferred in a prior year but paid out in calendar year 2011.
Deferred Compensation	Form 990, Schedule J, Part II, Column C	DEFERRED COMPENSATION MAY INCLUDE EXECUTIVE DEFERRED INCOME ACCOUNT, SUPPLEMENTAL EXECUTIVE RETIREMENT AND RETENTION PLAN, EMPLOYER CONTRIBUTION TO 403(B) MATCHED SAVINGS PLAN, PENSION RESTORATION PLAN AND ESTIMATED PENSION BENEFITS UNDER CHRISTUS HEALTH CASH BALANCE PLAN. ESTIMATED PENSION BENEFITS WERE CALCULATED BASED ON THE PROVISIONS OF THE CURRENT CASH BALANCE PLAN AT 6% OF PENSIONABLE EARNINGS. SOME ASSOCIATES ARE GRANDFATHERED UNDER AN EARLIER PENSION PLAN. THESE GRANDFATHERED PARTICIPANTS, BASED ON COMPUTATION AT THE TIME OF THEIR RETIREMENT, WILL RECEIVE THE LARGER OF THE RETIREMENT BENEFIT COMPUTED UNDER THE CASH BALANCE PLAN COMPARED TO THE PREVIOUS PENSION PLAN. DUE TO THE COMPLEXITY OF CALCULATING AN ACCURATE BENEFIT COST FOR GRANDFATHERED PARTICIPANTS, THE FORM 990 REPORTS AS PENSION BENEFITS THEIR ANNUAL ESTIMATED CASH BALANCE PLAN ACCRUAL.

DOING BUSINESS AS	FORM 990, PAGE 1, ITEM C	SCHOOL HEALTH CLINICS ROOTED IN OUR MISSION AND TRADITION, THE FOUNDERS AND SPONSORS OF CHRISTUS HEALTH AND THOSE WHO CO-MINISTER WITH THEM SEEK NEW AND INNOVATIVE WAYS OF DELIVERING QUALITY HEALTH CARE THAT IS BOTH AFFORDABLE AND ACCESSIBLE TO ALL. TODAY, MORE THAN EVER, WE MUST AIM TO IMPROVE THE TOTAL HEALTH STATUS OF THE COMMUNITY THROUGH PROGRAMS THAT PLACE OUR SERVICES WHERE THEY ARE NEEDED MOST, WITH SPECIAL ATTENTION AND PREFERENCE GIVEN TO PROGRAMS THAT SUPPORT AND BENEFIT THE HEALTH AND WELFARE OF THE POOR AND UNDERSERVED COMMUNITY. SERVICES FOR THE POOR AND UNDERSERVED REPRESENT THE UNPAID COST OF SERVICES PROVIDED FOR WHICH A PATIENT IS NOT BILLED, OR FOR WHICH A FEE HAS BEEN ASSESSED THAT RECOVERS ONLY A PORTION OF THE COST OF THE RENDERED SERVICE. THIS CATEGORY INCLUDES INITIATIVES THAT REACH OUT TO THOSE IN NEED THROUGH COMMUNITY HEALTH AND SOCIAL PROGRAMS. THESE PROGRAMS SEEK JUSTICE FOR THE VULNERABLE AND WORK TO BRING ABOUT CHANGES IN OUR POLITICAL AND ECONOMIC SYSTEMS. THE PROGRAMS COVER A BROAD SPECTRUM OF SERVICES FROM CHARITY CLINICS TO IMMUNIZATIONS FOR CHILDREN AND SENIORS, AND A VARIETY OF OTHER SOCIAL SERVICES. ST. VINCENT HOSPITAL PROVIDES MEDICATION ASSISTANCE FOR COMMUNITY RESIDENTS WHO ARE UNABLE TO AFFORD THE MEDICATIONS THEY NEED. THE HOSPITAL WORKS WITH COMMUNITY PHARMACIES AND OTHER PHARMACEUTICAL COMPANIES TO IDENTIFY THESE PATIENTS AND THEN DISTRIBUTE THE NEEDED MEDICATIONS TO THEM. Independent Auditors' Report

The Board of Directors
CHRISTUS Health

We have audited the consolidated balance sheets of CHRISTUS Health as of June 30, 2012 and 2011, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These consolidated financial statements are the responsibility of CHRISTUS Health's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of CHRISTUS Health's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CHRISTUS Health's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of CHRISTUS Health at June 30, 2012 and 2011, and the results of its consolidated operations and changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

CHRISTUS Health

Notes to Consolidated Financial Statements

June 30, 2012

1. Mission, Vision, and Organization of CHRISTUS Health

CHRISTUS Health was incorporated as a Texas nonprofit corporation on December 15, 1998. CHRISTUS Health (CHRISTUS or the System) is sponsored by the Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas, and the Congregation of the Sisters of the Incarnate Word of San Antonio, Texas. The Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas, sponsors the Sisters of Charity Health Care System (SCH), and the Congregation of the Sisters of Charity of the Incarnate Word of San Antonio, Texas, sponsors the Incarnate Word Health System (IWHS). SCH and IWHS continue to exist and carry out their ministries.

The mission of CHRISTUS Health is to extend the healing ministry of Jesus Christ. The Gospel values underlying the mission statement challenge CHRISTUS Health to make choices that respond to the economically disadvantaged and the underserved with health care needs. The growth and development of CHRISTUS Health are determined by the health care needs of the communities that CHRISTUS Health serves, its available resources, and the interrelationship of those serving and those being served. Responsible stewardship mandates that CHRISTUS searches out new, effective means to deliver quality health care and to promote wholeness in the human person.

The vision of CHRISTUS Health is to be a leader, a partner, and an advocate in the creation of innovative health and wellness solutions that improve the lives of individuals and communities so that all may experience God's healing presence and love.

The consolidated financial statements of CHRISTUS Health include activities of its affiliated market-based organizations and other related entities, all of which are wholly or majority-owned and commonly referred to as regions or entities. For purposes of these consolidated financial statements, the "System" is defined as CHRISTUS Health's affiliated market-based organizations and other related entities. The other related entities include, but are not limited to, hospital foundations, professional office buildings, management services organizations, physician groups, outpatient surgery centers, a collection agency, self-insurance trusts, an offshore captive insurance company, health plans, integrated community health networks, and diagnostic imaging companies.

CHRISTUS Health controls or owns, directly or indirectly, or manages various nonprofit and for-profit corporations and other organizations that currently operate in the states of Texas, Arkansas, Georgia, Louisiana, Missouri, New Mexico, Iowa, and in the Republic of Mexico.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

1. Mission, Vision, and Organization of CHRISTUS Health (continued)

CHRISTUS Health and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(a) of the Internal Revenue Code, as organizations described in Section 501(c)(3).

2. Community Health

In accordance with its mission and philosophy, the System commits significant resources to improving the health of the communities it serves. In support of its mission, the System provides programs and services for entire communities, with a special consideration for those who are poor and underserved.

Programs and Services for the Poor and Underserved – These programs and services represent the financial commitment to serve those who have inadequate resources and/or are uninsured or underinsured. Services are offered with the conviction that health care is a basic human right and all deserve access. The categories included as programs and services for the poor and the underserved are as follows:

Charity Care – In accordance with the Catholic Health Association (CHA) guidelines, charity care represents the unpaid costs of free or discounted health services provided to persons who cannot afford to pay and who meet the organization's criteria for financial assistance. Traditional charity care is defined by the state of Texas as the unreimbursed costs of providing, funding, or otherwise financially supporting the health care services provided to a person with income at or below 200% of the federal poverty level. Charity care services provided to these patients are not reported as revenue in the consolidated statements of operations and changes in net assets as there is minimal or no expectation of payment. The amount of traditional charity care provided, determined on the basis of cost, excluding the provision for bad debt expense, was approximately \$168,645,000 and \$172,473,000 for the years ended June 30, 2012 and 2011, respectively.

Unpaid Costs of Medicaid and Other Public Programs for the Indigent – This category represents the cost of providing services to beneficiaries of public programs, including state Medicaid and indigent care programs, in excess of any payments received from all sources.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

2. Community Health (continued)

Community Services for the Poor and Underserved – This category represents the unpaid cost of services provided for which a patient is not billed, or for which a fee has been assessed that recovers only a portion of the cost of the rendered service. This category includes services to those in need through community health programs. The programs cover a broad spectrum of services, from community health centers to immunizations for children and seniors, Meals on Wheels, transportation services, home repair projects, and a variety of other social services. These programs may also seek justice for the vulnerable and work to bring about changes in political and economic systems.

Examples of CHRISTUS Health Community Benefits accounted for under Community Services for the Poor and Underserved include:

- The CHRISTUS Community Direct Investment (CDI) Program was established to support community-driven initiatives primarily for affordable housing and economic development by providing financing at below-market interest rates. The majority of the support is provided to programs in the CHRISTUS operating regions. The amount the System would have earned on these monies is the forgone income that is considered a community benefit.
- The CHRISTUS Fund was established for the purpose of providing grants to support community planning, healthy community initiatives, and community-based programs, with a focus on the poor and underserved areas where CHRISTUS Health ministries and sponsoring congregations are involved.

Community Services Provided for the Broader Community – This category represents the unpaid cost of services provided for the benefit of the entire community. The majority of these expenditures are for graduate medical education programs, either through CHRISTUS-sponsored or affiliated programs. Other benefits for the broader community include health promotion and wellness programs, health screenings, newsletters, and radio or television programs intended for health education. These programs are not intended to be financially self-supporting.

Education and Research – This category represents the direct costs associated with medical education and other health professional educational programs in excess of governmental payments.

Other Community Services – This category represents leadership activities, community planning, and advocacy.

3. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements include the accounts of all entities of the System (see Note 1). All significant inter-entity transactions and accounts have been eliminated in consolidation.

Use of Estimates

The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management of the System to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. The System considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its financial statements, including the following: recognition of net patient revenues, which include contractual allowances; provisions for bad debt; reserves for losses and expenses related to health care professional and general liabilities; determination of fair values of certain financial instruments; determination of fair value of certain goodwill and long-lived assets; and risks and assumptions for measurement of pension and retiree medical liabilities. Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgments and estimates. Actual results could differ materially from these estimates.

Cash and Cash Equivalents

Cash equivalents include short-term, highly liquid investments with original maturities of three months or less.

Investments

The System's investment portfolio is classified as trading, with unrealized gains and losses included in revenues in excess of expenses. Investments in equity securities and funds with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investments also include equity investments in managed funds structured as limited liability corporations or partnerships. These investments are accounted for under the equity method. Investment income or loss (including equity investment

CHRISTUS Health

3. Summary of Significant Accounting Policies (continued)

earnings on managed funds; realized and unrealized gains and losses, computed on the average-cost basis of the security at the time of sale; and interest and dividends) is included in revenues in (deficit) excess of expenses unless the income or loss is restricted by donor or law.

Investment income earned on assets held by trustees under bond indenture agreements, assets held by foundations, assets deposited in trust funds for self-insurance purposes, and funds held by insurance subsidiaries in accordance with industry practices are included in other revenue in the consolidated statements of operations and changes in net assets.

Derivative Financial Instruments

The System utilizes interest rate swaps to hedge interest rate exposures. Changes in the fair value of the System's interest rate swaps are recorded as a component of nonoperating investment gain (loss) in the consolidated statements of operations and changes in net assets. The expense representing the net of the payments made and received under the swap agreements is also recorded as a component of nonoperating investment gain (loss).

Inventories

The System values inventories, which consist principally of medical supplies and pharmaceuticals, at the lower of cost (first-in, first-out, or weighted-average cost valuation method) or market basis.

Property, Plant, and Equipment

Property, plant, and equipment acquisitions are recorded at cost or, if donated, at fair value at the time of donation. Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. Routine maintenance, repairs, and minor equipment replacement costs are charged against operations.

Depreciation is calculated and recorded over the estimated useful life of each class of depreciable assets using the straight-line method. The *American Hospital Association – Estimated Useful Lives of Depreciable Hospital Assets* is used as a general guide in establishing depreciable lives. Amortization of capital leases is included in depreciation expense.

3. Summary of Significant Accounting Policies (continued)

Assets Held for Sale

A long-lived asset or disposal group of assets and liabilities that is expected to be sold, and for which it is probable that the sale will be completed within one year, is classified as held for sale. For long-lived assets held for sale, an impairment charge is recorded if the carrying amount of the asset exceeds its fair value less costs to sell. Such valuations include estimates of fair values generally based upon discounted cash flows less incremental direct costs to transact a sale.

Asset Impairment

The System periodically evaluates the carrying value of its operating long-lived assets and assets held for sale for impairment when indicators of impairment are identified. These evaluations are primarily based on the estimated recoverability of the assets' carrying value. Impairment write-downs are recognized as a reduction in operating gain for the operating long-lived assets and as a reduction in nonoperating gain for the assets held for sale at the time the impairment is identified.

Investments in Unconsolidated Organizations

The System has investments in certain organizations for which it does not have a majority ownership interest or significant control, and, therefore, these organizations do not require consolidation. Generally, these investments are recorded using the equity method of accounting for those organizations in which the System owns greater than 20%. The cost method of accounting is used for organizations in which the System owns 20% or less.

Securities Lending

The System participates in securities lending transactions facilitated by the lending agent. Such loans are secured by collateral of 102% of the market value of domestic securities at the time of the loan. Per the securities lending agreement, such collateral will typically be cash or debt securities issued by the U.S. government or any of its agencies. Cash collateral received in connection with these loans is currently invested in a pooled fund of securities that mature in no more than 13 months and is maintained by the lending agent. The securities on loan and invested collateral are marked to market throughout the duration of the loan.

3. Summary of Significant Accounting Policies (continued)

Goodwill

The System records goodwill arising from a business combination as the excess of purchase price over the fair value of identifiable tangible and intangible assets acquired and liabilities assumed. At June 30, 2012 and 2011, the System had goodwill of \$101,858,000 and \$91,569,000, respectively. Beginning in fiscal year 2011 with the adoption of Accounting Standards Update (ASU) 2010-07, *Not-for-Profit Entities: Mergers and Acquisitions*, the amortization of goodwill ceased and goodwill is tested at least annually for impairment at the reporting unit level. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. The System has determined that its reporting units are the various geographic Regions of the System. The first step in the impairment process is to determine the fair value of the reporting unit and then compare it to the carrying value, including goodwill. If the fair value exceeds the carrying value, no further action is required and no impairment loss is recognized.

The System determined that the use of the income and market approaches were the most appropriate methods of measuring fair value of the reporting units. These are considered Level 3 valuations in the valuation hierarchy described in Note 6. Under the income approach, fair value is estimated using a discounted cash flow analysis. Under the market approach, fair value is estimated using a guideline company method and a comparable transaction method. Both the income approach and the market approach require significant assumptions to determine the fair value of each reporting unit. The significant assumptions used in the income approach include estimates of future revenues, profits, capital expenditures, working capital requirements, operating plans, industry data, and an appropriate discount rate for each reporting unit. The significant assumptions utilized in the market approach include the determination of appropriate market comparables and estimated multiples of net revenue and earnings before interest, taxes, depreciation, and amortization.

Additional impairment assessments may be performed on an interim basis if the System encounters events or changes in circumstances that would indicate that it is more likely than not that the carrying value of goodwill has been impaired. The System performed a transitional impairment test as of July 1, 2010, upon adoption of the guidance in ASU 2010-07. As a result of the transitional impairment test, goodwill at the Northern Louisiana, Central Louisiana, and Spohn Regions totaling \$34,752,000 was written off, which is recorded as the effect of a change in accounting principle in the consolidated statement of operations and changes in net assets in fiscal year 2011.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

The System elected early adoption of ASU 2011-08, *Intangibles – Goodwill and Other: Testing Goodwill for Impairment*. A qualitative impairment analysis concluded that it was more likely than not that the carrying value exceeded the fair value of the applicable reporting units. Therefore, no two-step impairment analysis was required and no impairment charges were recorded in fiscal year 2012.

Deferred Financing Costs

Deferred financing costs, net of accumulated amortization, included in other assets at June 30, 2012 and 2011, are \$18,576,000 and \$20,019,000, respectively, which are being amortized using the interest method over the terms of the indebtedness to which they relate.

Temporary and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity.

Patient Accounts Receivable, Estimated Payables to Third-Party Payors, and Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from established rates. Patient accounts receivable and net patient service revenue are reported at the estimated net realizable amounts from third-party payors and others for services rendered. Estimated retroactive adjustments under reimbursement agreements with third-party payors are included in net patient service revenue and estimated third-party payor settlements. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

The System has adopted an uncompensated care policy whereby revenue from services provided to the uninsured is recognized at the time of payment, rather than at the time of service. This policy is a result of the lack of reasonable assurance of collection for services provided to the uninsured due to the System's historically low collection rate. Management has estimated that the difference between recording this revenue on the cash basis versus the accrual basis is immaterial to net patient service revenue for fiscal years 2012 and 2011. Accordingly, all

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

accounts receivable from the uninsured have been fully reserved in the allowance for uncompensated care. The resulting adjustment is recorded as revenue deductions from gross charges to arrive at net patient service revenue.

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

CHRISTUS accounts for HITECH incentive payments under the grant accounting model as grants related to income. Income from Medicare incentive payments is recognized as revenue after CHRISTUS has determined it is reasonably assured to comply with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended. CHRISTUS recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments totaling \$27,668,000 and \$4,233,000 for the years ended June 30, 2012 and 2011, respectively, are included in other operating revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, CHRISTUS's compliance with the meaningful use criteria is subject to audit by the federal government.

Accounts Receivable Allowance

The System's recorded allowance for uncompensated care is based on expected net collections, after contractual adjustments, primarily from patients. Management routinely assesses these recorded allowances relative to changes in payor mix, cash collections, write-offs, recoveries, and market dynamics.

CHRISTUS Health

3. Summary of Significant Accounting Policies (continued)

Premium Revenue and Associated Costs

Premium revenue represents revenues derived under capitated arrangements with third parties. In return for these premiums, the contracting entity is responsible for providing essentially all health care services to enrolled participants. Costs for providing these services, including services provided by other health care providers, are included as operating expenses in the consolidated financial statements. At June 30, 2012 and 2011, the respective contracting entities have accrued expenses for incurred but not reported claims based upon claims experience. The contracting entities maintain stop-loss insurance coverage to limit exposure for certain catastrophic claims.

Other Revenue

Other revenue is derived from services other than providing health care services or coverage to patients, residents, or enrollees. This revenue typically includes investment income from all funds held by a trustee, malpractice funds, or other miscellaneous investment activities; rental of health care facility space; sales of medical and pharmaceutical supplies to employees, physicians, and others; proceeds from sales of cafeteria meals and guest trays to employees, medical staff, and visitors; and proceeds from sales at gift shops, snack bars, newsstands, parking lots, vending machines, or other service facilities operated by the health care organization.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

International Operations

The System owns a 64.6% interest in CHRISTUS Muguerza, S.A. de C.V. (CHRISTUS Muguerza), headquartered in Monterrey, Mexico. CHRISTUS Muguerza is a private health care system and is subject to taxes in accordance with the regulations of the Republic of Mexico. The financial statements of CHRISTUS Muguerza are presented in accordance with accounting principles generally accepted in the United States and are consolidated in the CHRISTUS Health consolidated financial statements.

Effective May 3, 2012, CHRISTUS Health increased its ownership interest in CHRISTUS Muguerza from 59.6% to 64.6% by purchasing 11,300,168 additional shares for cash consideration in the amount of \$6,000,000.

Minimum Revenue Guarantees

CHRISTUS enters into agreements with non-employed physicians that include minimum revenue guarantees. These guarantees primarily arise through physician recruiting efforts and vary by physician specialty. Generally, the term of these guarantees ranges from one to two years, with the majority including a forgiveness period that begins during the second year of the guarantees. The estimated amount of the liability for CHRISTUS' obligation under these guarantees was \$9,129,000 and \$6,798,000 at June 30, 2012 and 2011, respectively, and is included in accrued expenses and other long-term obligations in the accompanying consolidated balance sheets.

The maximum amount of future payments that the System could be required to make under all existing guarantees is approximately \$25,814,000.

Asset Retirement Obligations

CHRISTUS estimates the conditional asset retirement obligation primarily associated with asbestos abatement to be \$7,483,000 and \$7,430,000 as of June 30, 2012 and 2011, respectively.

Uncertainty in Income Taxes

The authoritative guidance in Accounting Standards Codification (ASC) Topic 740, *Income Taxes*, creates a single model to address uncertainty in tax positions and clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. Under the requirements of this guidance, tax-exempt organizations could be required to record an obligation as the result of a tax position they have historically taken on various tax exposure items. There are no material unrecorded tax liabilities as of June 30, 2012 and 2011.

New and Pending Accounting Pronouncements

In August 2010, the Financial Accounting Standards Board (FASB) issued ASU 2010-23, *Health Care Entities: Measuring Charity Care for Disclosure*. ASU 2010-23 is intended to reduce the diversity in practice regarding the measurement basis used in the disclosure of charity care. ASU 2010-23 requires that cost be used as the measurement basis for charity care disclosure purposes and that cost be identified as the direct and indirect costs of providing the charity care, and requires disclosure of the method used to identify or determine such costs. This ASU was effective for CHRISTUS on July 1, 2011. The adoption of this ASU resulted in the disclosure of the cost of providing charity care in Note 3.

In August 2010, the FASB issued ASU 2010-24, *Health Care Entities (Topic 954): Presentation of Insurance Claims and Related Insurance Recoveries*. The amendments in the ASU clarify that a health care entity may not net insurance recoveries against related claim liabilities. In addition, the amount of the claim liability must be determined without consideration of insurance recoveries. This ASU was effective for CHRISTUS on July 1, 2011. Due to the level of self-retention for such claims, the adoption of this ASU did not have a material effect on CHRISTUS's consolidated financial position at June 30, 2012.

In September 2011, the FASB issued ASU 2011-08. The amendments in the ASU permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in ASC Topic 350, *Intangibles – Goodwill and Impairment*. This ASU is effective for CHRISTUS on July 1, 2012, with early adoption permitted. CHRISTUS early adopted the guidance in this ASU for purposes of its annual goodwill impairment test performed on April 1, 2012.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

In July 2011, the FASB issued ASU 2011-07, *Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The amendments in the ASU require CHRISTUS to change the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, the ASU requires enhanced disclosure about CHRISTUS's policies for recognizing revenue and assessing bad debts, patient service revenue (net of contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts. This ASU is effective for CHRISTUS on July 1, 2012, with early adoption permitted. CHRISTUS does not believe its adoption of ASU 2011-07 will have a material effect on its consolidated financial position and results of operations from the adoption of this pronouncement.

4. Net Patient Service Revenue

Net patient service revenue is reported at the estimated net realizable amounts from third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Amounts subject to retroactive adjustments are estimated and recorded in the period the related services are rendered and adjusted in future periods as final settlements are determined. The estimated settlements recorded at June 30, 2012 and 2011, could differ from actual settlements. Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient diagnosis-related group classification system that is based on clinical, diagnostic, and other factors.

For fiscal years 2012 and 2011, net patient service revenue increased approximately \$16,629,000 and \$16,403,000, respectively, related to changes in estimates for cost report re-openings, appeals, and tentative and final cost report settlements on filed cost reports, of which some are still subject to audit, additional re-opening, and/or appeal.

Inpatient and outpatient services rendered to Medicaid program beneficiaries are paid under cost reimbursement methodologies, prospectively determined rates per discharge, and prospectively determined or negotiated rates.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

Revenue from the Medicare and Medicaid programs accounted for approximately 26.8% and 2.4%, respectively, of the System's net patient revenue for the fiscal year ended June 30, 2012, and 26.6% and 3.5%, respectively, of the System's net patient revenue for the fiscal year ended June 30, 2011. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

The System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and negotiated daily rates.

Federal law requires that state Medicaid programs make special payments to hospitals that serve a disproportionately large number of Medicaid and low-income patients. Such hospitals are called disproportionate share hospitals and receive disproportionate share funding under the program known as "DSH." DSH funds are different from most other Medicaid payments because they are not tied to specific services for Medicaid-eligible patients. There were 172 and 182 Texas hospitals that qualified to receive such payments in 2012 and 2011, respectively. The state of Texas has been making DSH payments to providers since 1987.

Additionally, the federal Medicaid rules allow for hospitals to be reimbursed for some of the uncompensated cost of treating Medicaid and uninsured patients up to an Upper Payment Limit (UPL) as modified by the 1115(b) demonstration waiver further discussed below. UPL programs act as mechanisms to draw federal Medicaid dollars into local communities. The Texas Medicaid program has chosen a county-specific UPL strategy to receive supplemental federal matching funds. Under these programs, various hospital participants in the respective counties have elected to provide health care services to the indigent population in the county as charity services and, as such, no third party has an obligation to pay for these services. Separately, and with no legal obligation or link to the hospitals' provision of charity services, the tax-supported governmental entity may choose, entirely at its discretion, to contribute a portion of its tax revenues into the state's Medicaid program. The amounts transferred by the governmental entity to the state Medicaid program are then matched at the federal level, and the total amount (the amount transferred to the state Medicaid program by the governmental entity and the related federal match) is then paid to the hospital participants based upon each hospital's individual applicable funding entitlement. In addition to the allocations received by the Medicaid program, hospital participants in some communities may make charity community benefit transfers to each other throughout the year to reach a previously agreed-upon sharing ratio.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

Medicaid supplemental payments, which include Medicaid DSH and UPL payments, net of settlements and amounts transferred between program participants, of approximately \$252,756,000 and \$334,267,000 were recorded in 2012 and 2011, respectively. Net patient service revenue in the accompanying consolidated statements of operations and changes in net assets includes all Medicaid supplemental funds.

The Texas Health and Human Services Commission (HHSC) filed an application with the Centers for Medicare and Medicaid Services (CMS) to approve a 1115(b) demonstration waiver (the 1115(b) waiver) from traditional Medicaid financial and eligibility rules. CMS approved the five-year waiver in December 2011 and it allowed for one transition year to ensure proper transitions for providers. The transition year ends and the mechanics of the waiver program (year two) begin October 1, 2012. The waiver could impact the amount of revenue the System receives under the Medicaid supplemental payments, and the amounts of future reimbursements under these programs cannot be assured beyond September 30, 2012. While DSH and UPL funds are separate, the implementation of the 1115b waiver created a disincentive for transferring hospitals to participate in the DSH program, jeopardizing the full funding of the program. These funds helped to offset the uncompensated cost of care due to the State of Texas's limited Medicaid funding and the growing uninsured population.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, participation requirements of government health care programs, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. There are matters currently under audit and/or review by regulatory and government officials. These reviews and audits may or may not result in revisions to cost reports, resubmitted billings, unasserted possible claims that are probable of assertion, or loss contingencies. Compliance with such laws and regulations may be subject to future government review and interpretation, as well as regulatory actions.

5. Cash and Investments

Total cash and investments for the System at June 30, including assets whose use is limited, are as follows (in thousands):

	<u>2012</u>	<u>2011</u>
Cash and cash equivalents	\$ 549,591	\$ 615,867
Certificates of deposit	9,428	25,465
Domestic equities and equity funds	240,732	283,297
Preferred stocks	494	1,712
Fixed-income securities and fixed-income funds	705,134	547,914
International equities	97,290	110,466
U.S. government securities	115,257	158,907
Equity in managed funds	188,642	144,806
Other investments	596	97
	<u>\$ 1,907,164</u>	<u>\$ 1,888,531</u>

Cash and cash equivalents include cash, money market bank accounts, interest-bearing bank accounts, and debt securities with original maturities of less than three months. United States government securities include debt securities issued by the U.S. government or a U.S. government agency. Fixed-income securities include corporate debt securities and common collective trusts. Domestic equities and equity funds, preferred stocks, and international equities include domestic and foreign stocks, as well as mutual funds and common collective trusts. Equity in managed funds includes investments in limited liability partnerships or corporations and other alternative investments. Other investments include municipal and foreign fixed-income instruments and restricted investments held by the System's philanthropic foundations.

The System's equity investments in managed funds are recorded based on the System's share of the underlying value of marketable securities held by these funds, as reported to the System. Equity-method investments include reported changes in value as reported to the System by the fund custodians. These investments are recorded at amounts confirmed by fund custodians. These amounts cannot be validated by the management of the System, and there can be no assurance such reported amounts will be ultimately realized.

The System's investments are subject to various types of risks, as explained below.

CHRISTUS Health

5. Cash and Investments (continued)

Fixed Income

This investment class includes investments in various fixed-income instruments that include investment-grade and high-yield domestic and international bonds, preferred stocks, mortgage pools, master limited partnership units, and bonds issued by U.S. government agencies. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in fixed-income securities. The fixed-income investments are exposed to various kinds and levels of risk, including interest rate risk, credit risk, foreign exchange risk, and liquidity risk.

Equities

This investment class consists primarily of common and preferred equity securities of domestic and foreign companies. These securities trade through the major public domestic and international exchanges. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in equity securities. The equity securities investments are exposed to various risks, including market risk, individual security risk, foreign exchange risk, and, for common equity of companies with a small market capitalization, liquidity risk.

Equity Investments in Managed Funds

These funds are invested with external investment managers who invest primarily in various alternative categories, including long and short equity positions, managed futures, emerging markets, distressed enterprises, and arbitrage positions. These investments are domestic and international in nature, are illiquid, and may not be realized for a period of several years after the investments are made. The risks associated with these investments are numerous, resulting in a greater likelihood of losing invested capital. The risks include the following:

Nonregulation Risk – Some of these funds are not required to register with the Securities and Exchange Commission (SEC) and are not subject to regulatory controls.

Managerial Risk – Fund managers may fail to produce the intended returns and are not subject to oversight.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

5. Cash and Investments (continued)

Minimal Liquidity – Many funds impose lock-up periods that prevent investors from redeeming their shares or impose penalties to redeem.

Limited Transparency – As unregistered investment vehicles, funds are not required to disclose the holdings in their portfolios to investors.

Investment Strategy Risk – The funds often employ sophisticated, risky investment strategies, are speculative, and may use leverage, which could result in volatile returns.

The System has no commitments for funding to equity investments in managed funds as of June 30, 2012.

Assets whose use is limited or restricted consisted of the following at June 30 (in thousands):

	<u>2012</u>	<u>2011</u>

6. Fair Value Measurements

The three-level valuation hierarchy for disclosure of fair value measurements is based on the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The valuation methodologies used for instruments measured at fair value as presented in the tables above are as follows:

- *Investments* – Investments valued at quoted prices available in an active market are classified within Level 1 of the valuation hierarchy. Investments valued based on evaluated bid prices provided by third-party pricing services where quoted market prices are not available are classified within Level 2 of the valuation hierarchy.
- *Interest rate swap agreements* – Interest rate swap agreements are valued using third-party models that use observable market conditions as their input and are classified within Level 2 of the valuation hierarchy.

6. Fair Value Measurements (continued)

At June 30, 2012 and 2011, the System's financial instruments included cash and cash equivalents, accounts receivable, assets limited as to use, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt. The carrying amounts reported in the consolidated balance sheets for these financial instruments, except for long-term debt, approximate their fair values.

The System's fixed-rate debt is enhanced with bond insurance. The estimated fair value of the fixed-rate debt, if it were not enhanced by insurance, approximates \$627,055,000 at June 30, 2012, as compared to its carrying value of \$562,587,000.

At June 30, 2012, the System has several issues of variable-rate demand and auction-rate bonds outstanding. The System's continued participation in these debt programs depends on its ability to extend or replace the existing credit facilities supporting the respective standby purchase agreements. If these credit facilities are not available, the System will likely refund these outstanding series with available funds or funds derived from fixed-rate series proceeds. It is not practicable to estimate the fair value of the variable-rate demand and auction-rate bonds separate from the value supported by the credit facilities.

7. Property, Plant, and Equipment

Property, plant, and equipment at June 30, consisted of the following (in thousands):

	<u>2012</u>	<u>2011</u>
Land	\$ 211,243	\$ 217,307
Land improvements	73,229	73,391

Depreciation expense for the System for fiscal years 2012 and 2011 totaled \$209,018,000 and \$210,668,000, respectively.

8. Investments in Unconsolidated Organizations

The System has unrestricted investments in unconsolidated organizations of \$209,938,000 and \$188,550,000 at June 30, 2012 and 2011, respectively. The following investments account for 95% of the System's total investments in unconsolidated organizations in both 2012 and 2011:

Baptist St. Anthony's Health System

CHRISTUS Health has a 50% membership interest in Baptist St. Anthony's Health System (BSAHS), a Texas nonprofit corporation. BSAHS is a market leader in the Amarillo area. CHRISTUS Health's recorded investment in BSAHS, accounted for under the equity method, was \$184,367,000 and \$162,488,000 at June 30, 2012 and 2011, respectively. The 2012 and 2011 balances include \$11,592,000 and \$8,648,000, respectively, of restricted net assets that are included in other restricted assets. CHRISTUS Health recorded its share of BSAHS's gains from operations of \$19,906,000 and \$24,707,000 in 2012 and 2011, respectively. The System also recorded its share of the change in unrealized losses on investments of \$538,460 at June 30, 2012, and unrealized gains on investments of \$249,000 at June 30, 2011, as changes in unrestricted net assets. The System is currently marketing its membership interest in BSAHS for sale.

Preferred Professional Insurance Company

CHRISTUS Health has a 13.1% ownership interest in Preferred Professional Insurance Company (PPIC), a taxable Nebraska corporation. This corporation, formed in 1988, was established to provide excess professional and general liability insurance. CHRISTUS Health's recorded investment in PPIC, accounted for under the cost method, was \$17,059,000 at both June 30, 2012 and 2011. The System recorded income from its investment in PPIC in fiscal years 2012 and 2011 of \$296,000 and \$789,000, respectively.

9. Long-Term Debt (continued)

Certain entities of CHRISTUS Health that are otherwise included in the consolidated financial statements of CHRISTUS Health are excluded from the CHRISTUS Health Obligated Group. These entities include, but are not limited to, the CHRISTUS Health Liability Retention Trust, Emerald Assurance, CHRISTUS St. Vincent Regional Medical Center, CHRISTUS Health Utah, CHRISTUS Provider Network, CHRISTUS Continuing Care, CHRISTUS Muguerza, S.A. de C.V., and various philanthropic foundations.

Under the provisions of the Master Trust Indenture, the obligations of CHRISTUS Health and the other members of the Obligated Group are secured by a pledge of gross revenues. Additionally, each member of the Obligated Group has undertaken certain covenants, including the following: to ensure the payment of debt service; to ensure the payment of taxes and other claims; to deliver compliance statement(s); to preserve corporate existence; to maintain books and records subject to inspection by the Master Trustee; to maintain insurance; to conform to defined lien limitations; to establish adequate service rates; to maintain a sufficient debt service coverage and indebtedness ratio; to maintain a required aggregate amount of unrestricted cash and investments; and to adhere to certain defined conditions with respect to consolidation, merger, conveyance, or transfer, and admission or withdrawal of Obligated Group members pursuant to the Master Trust Indenture, insurer, and letter of credit bank agreements.

CHRISTUS Health has letter of credit bank agreements on Series 2008C and 2009B variable-rate demand bonds (VRDB). The Series 2009B VRDBs are supported by letters of credit issued by The Bank of New York Mellon that expire on July 31, 2014. The outstanding Series 2008C VRDBs are supported by letters of credit issued by Bank of America that expire on December 17, 2015. In December 2010, CHRISTUS Health converted \$93,380,000 of auction-rate securities to fixed-rate bonds through a reoffering of the Series 2005 A-5 and 2005 A-6 bonds. The fixed-rate bonds are insured by Assured Guaranty Municipal Corp (AGMC).

Thereafter	888,659
Total debt	<u>\$ 1,172,961</u>

10. Derivative Financial Instruments

Interest rate swap contracts between the System and third parties (counterparties) provide for the periodic exchange of payments between the parties based on changes in a defined index and a fixed rate and expose the System to market risk and credit risk. Credit risk is the risk that contractual obligations of the counterparties will not be fulfilled. Concentrations of credit risk relate to groups of counterparties that have similar economic or industry characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Counterparty credit risk is managed by requiring high credit standards for the System's counterparties. The counterparties to these contracts are financial institutions that carry investment-grade credit ratings.

The interest rate swap contracts contain certain collateral provisions applicable to both parties to mitigate credit risk. CHRISTUS has complied with these provisions as required. No collateral was posted at June 30, 2012. The System does not anticipate nonperformance by its counterparties.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest rate changes is managed by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken. Management also mitigates risk through periodic reviews of their derivative positions in the context of their blended cost of capital. As of June 2012, CHRISTUS Health has interest rate swap agreements to manage interest rate risk exposure, not designated as hedging instruments, with a total notional amount of \$961,435,000.

10. Derivative Financial Instruments (continued)

At June 30, 2012, the fair value of these swap agreements was a liability of \$136,786,000 recorded as a liability on the balance sheet. At June 30, 2011, the fair value of these swap agreements was a net liability of \$59,973,000, with \$72,348,000 recorded as a liability and \$12,375,000 recorded as an asset on the consolidated balance sheet. The change in fair value of (\$76,813,000) and \$29,803,000 for the years ended June 30, 2012 and 2011, respectively, is combined with the payments, net of receipts made under the agreements, of \$9,576,000 and \$17,592,000 for the years ended June 30, 2012 and 2011, respectively. This total is included in nonoperating investment (loss) gain in the statements of operations and changes in net assets.

On August 26, 2011, CHRISTUS terminated two swaps with counterparty Citigroup, N.A. CHRISTUS terminated one of the 2005 Fixed Payer Swaps with an original notional amount of \$54,075,000 and a termination date of July 1, 2022, and the Constant Maturity Swap with a notional amount of \$200,000,000 and a termination date of June 1, 2022. CHRISTUS received net proceeds of \$5,785,000 as a result of the terminations.

On December 28, 2011, CHRISTUS Health entered into a swap novation with Citibank, N.A. as transferor and Wells Fargo Bank, N.A. as transferee of the Fixed Payer Swap with a notional of \$212,175,000 and had an effective date of January 4, 2012. The original transaction with Citibank, N.A. had a notional amount of \$225,925,000, a trade date of July 13, 2005, and an effective date of November 8, 2005. The original transaction was insured by FSA (now – Assured Guaranty Municipal Corp.). The swap insurance was terminated in connection with the novation. The payment terms, expiration, events of default and termination events remain substantially the same. The collateral posting threshold under the novated swap increased from \$15 million to \$45 million.

*Citigroup was the counterparty prior to the novation effective January 4, 2012. The swap originally scheduled to terminate in 2022 was early terminated August 26, 2011.

**CHRISTUS amended and restated the Constant Maturity Swap, which was modified to include suspension of cash flows from June 5, 2009 through September 1, 2012.

CHRISTUS Health is required to post collateral for negative valuations on each of its swaps according to the terms of (i) the swap insurance agreements, where applicable and (ii) the agreement with each counterparty. CHRISTUS Health has complied with this requirement. At June 30, 2011 and 2012, no collateral was posted. The fixed payor swaps are insured by either AMBAC (terminated August 26, 2011), Assured Guaranty Municipal Corp, previously known as FSA (insurance terminated in connection with novation effective January 4, 2012), or MBIA.

CHRISTUS Health currently voluntarily posts, on a quarterly basis, selected information relating to its outstanding interest rate swap transactions on the Municipal Securities Rulemaking Board's (MSRB) Electronic Municipal Market Access system (EMMA) and the Texas State Repository – Texas Municipal Advisory Council (MAC). No assurances can be given that CHRISTUS Health will continue to post such information in the future.

11. Cash Balance Plan and Postretirement Health Care Benefits

Cash Balance Plan

The System has established a noncontributory, defined-benefit retirement plan that operates as a cash balance plan and covers substantially all CHRISTUS Health employees who meet age and service requirements. The plan benefits are calculated based on a cash balance formula wherein participants earn an annual accrual of 6% of compensation and participant account balances accrue interest at a rate that tracks 10-year treasury notes; the maximum rate is 8% and the minimum rate is 2%.

Postretirement Health Care Benefits

Comprehensive medical benefits are provided to eligible active employees who, immediately upon retirement and attainment of the age of 55, will receive a pension under the CHRISTUS Health retirement plan. Postretirement benefits are also provided to former employees who are currently receiving pension benefits. The comprehensive medical program, which is self-insured, provides reimbursement benefits until the participant attains the age of 65. The program also covers dependents of retirees, in addition to former employees. Contributions are required. Retirees may choose one of two self-insured indemnity plan options. Effective February 1, 1999, the CHRISTUS Health postretirement benefit plan was curtailed prospectively. As of the effective date, new employees or employees that had not vested as of that date are not eligible for the postretirement health care benefits. The liability associated with the postretirement plan will be reduced as employee participation decreases.

Simplified Early Retirement Plan (SERP)

Prior to the formation of CHRISTUS, a plan for executives was curtailed prospectively. Under this plan, eligible participants receive a cash benefit payment until death and participate in the System's retiree health, dental, and group term life program. Fewer than two dozen participating retirees currently maintain benefit payment status. Benefits are recalculated when participants attain the age of 65 and remain constant thereafter. At June 30, 2012 and 2011, the total liability recorded pertaining to this SERP was \$5,215,000 and \$5,175,000, respectively.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

Restoration Plan

The restoration plan, a nonqualified, deferred compensation plan, was designed to restore benefits that are lost under the cash balance plan due to the statutory limit on recognizable compensation. Eligibility is limited to designated executives. The plan provides benefits upon termination of employment to qualifying participants. Plan benefits are calculated using the same methodology for the cash balance plan; vesting requirements are also the same. The restoration plan is unfunded.

The measurement date for all plans is June 30. Components of net periodic benefit cost, recorded as a component of employee compensation and benefits, for the years ended June 30, consisted of the following (in thousands):

	Cash Balance Plan		Postretirement		SERP		Restoration Plan	
	2012	2011	2012	2011	2012	2011	2012	2011

At June 30, 2012 and 2011, unrestricted net assets have been reduced by \$223,045,000 and \$133,519,000, respectively, of amounts arising from defined-benefit plans that have not yet been recognized in net periodic benefit cost. Amounts recognized in unrestricted net assets expected to be recognized in net periodic benefit cost during fiscal 2013 are \$18,575,000.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

As of June 30, 2012 and 2011, the CHRISTUS cash balance plan had accumulated benefit obligations of \$848,224,000 and \$767,586,000, respectively. Assumptions used to determine benefit obligations and net periodic benefit cost for the fiscal years were as follows:

	Cash Balance Plan		Postretirement		SERP		Restoration Plan	
	2012	2011	2012	2011	2012	2011	2012	2011
Benefit obligations								
Discount rate	4.21%	5.15%	3.79%	4.96%	4.21%	5.15%	4.21%	5.15%
Rate of compensation increase	4.09	4.09	N/A	N/A	N/A	4.09	4.09	4.09
Net periodic benefit cost								
Discount rate	5.15	4.83	4.96	4.92	5.15	4.83	5.15	4.83
Expected long-term return on plan assets	6.00	7.50	N/A	N/A	N/A	N/A	N/A	N/A
Rate of compensation increase	4.09	4.61	N/A	N/A	N/A	4.61	4.09	4.61

The investment objective with regard to the plan assets is one of long-term capital appreciation and generation of a stream of current income. This balanced approach is expected to earn long-term total returns, consisting of capital appreciation and current income, that are commensurate with the expected rate of return used by the plans.

The following information pertains only to the CHRISTUS Health postretirement plan. The first table details information pertaining to assumed health care cost trend rates. The second table depicts the effect of a 1% point change in assumed health care cost trend rates.

	Postretirement			Postretirement	
	2012	2011		1% Point Increase	1% Point Decrease
Assumed health care cost trend rates at June 30	8.5%	9.0%

Investment Policy and Asset Allocations

The investment policies and strategies for the assets of the cash balance plan incorporate a well-diversified approach that is expected to generate long-term returns from capital appreciation and a growing stream of current income. This approach recognizes that assets are exposed to risk and the market value of the plan assets may fluctuate from year to year. Risk tolerance is determined based on the plan's financial stability and the ability to withstand return volatility. In developing the expected return on plan assets, the System evaluates the historical performance of total plan assets, the relative weighting of plan assets, interest rates, economic indicators, and industry forecasts. In line with the investment return objective and risk parameters, the mix of assets includes a diversified portfolio of equity, fixed income, and alternative investments. Equity investments include international stocks and a blend of domestic growth and value stocks of various sizes of capitalization. The aggregate asset allocation is rebalanced as needed, but not less than on an annual basis.

The asset allocations for the cash balance plan at June 30, by asset category, are detailed below (in thousands). The postretirement plan, SERP, and restoration plan are unfunded.

	2012	2011
Cash and cash equivalents	\$ 86,985	\$ 98,516

Fair value at June 30, 2012	<u>\$ 137,610</u>	<u>\$ 73,180</u>	<u>\$ 14,367</u>	<u>\$ 8,411</u>

The cash balance plan has \$56,354,000 of funding commitments to equity investments in managed funds as of June 30, 2012.

Contributions

In fiscal year 2012, CHRISTUS expects to contribute \$60,000,000 to the cash balance plan based on asset values for the plan year beginning January 1, 2012. Contributions to the cash balance plan of \$56,400,000, and \$55,865,000 were made for plan years beginning January 1, 2011 and 2010, respectively. Since the postretirement plan, SERP, and restoration plan are unfunded, no cash contributions are expected.

Benefit Payments

The following benefit payments, which reflect expected future service relative to the cash balance plan and expected benefit payments for services previously rendered relative to the postretirement plan and the SERP, are expected to be paid as follows (in thousands):

	Cash Balance Plan	Post retirement	SERP	Restoration Plan
2013	\$ 39,205	\$ 990	\$ 588	\$ 880
2014	42,411	1,132	569	345

Years 2018–2020	300,613	8,370	2,089	1,886

Defined-Contribution Plans

The System has a defined-contribution plan (the Matched Savings Plan) covering substantially all CHRISTUS Health employees. Annual employee contributions are limited to 50% of compensation, up to the Internal Revenue Service dollar limits. The System will match 50% of employee contributions, not to exceed 4% of annual compensation. Employer contributions vest to the employee over a five-year period. For the years ended June 30, 2012 and 2011, expenses attributable to the Matched Savings Plan amounted to \$8,059,023 and \$8,173,381, respectively.

CHRISTUS St. Vincent Regional Medical Center (St. Vincent) has two 403(b) defined-contribution plans for union and nonunion employees. St. Vincent makes a set lump-sum contribution per year for nurse union employees and a contribution of 3.5% of gross salaries for nonunion employees, as defined by the plans' agreements. For fiscal years 2012 and 2011, St. Vincent has incurred approximately \$3,885,000 and \$3,960,000 in expenses related to the plans, respectively.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

ExecuFLEX Benefit Plan

The System established an ExecuFLEX plan (ExecuFLEX), which is limited to designated executives. Plan participants receive an ExecuFLEX allowance to be allocated among four different components: CHRISTUS Health ExecuFLEX Individual Long-Term Disability Plan, CHRISTUS Health ExecuFLEX Supplemental Survivor Plan, CHRISTUS Health ExecuFLEX Spouse Survivor Plan, and CHRISTUS Health ExecuFLEX Deferred Income Account (DIA) Plan.

CHRISTUS Health maintains a collateral interest in the individual life insurance policies under the supplemental survivor plan and the spouse survivor plan to the extent of the cumulative advanced premiums paid on behalf of the participant(s). Upon termination of employment, a participant is required to surrender any policy with a cash surrender value less than the advanced premiums.

The DIA Plan is a nonqualified, deferred compensation plan; eligibility is limited to designated executives. Benefits vest based on certain qualifying events and are paid to participants when fully vested. The funds contributed by participants to this component of the ExecuFLEX Plan are held in a Rabbi Trust until vesting requirements have been satisfied. The System has an asset recorded for the investments in the Rabbi Trust with a corresponding liability. As of June 30, 2012 and 2011, the total asset and the corresponding liability were \$6,717,000 and \$9,044,000, respectively.

12. Self-Funded Liabilities

The System self-funds and insures for primary professional and general liability, workers' compensation, and employee medical benefits. A wholly owned, captive insurance company, Emerald Assurance Cayman Ltd. (Emerald), is used to fund primary professional and general liability. Additionally, the System internally sets aside funds for workers' compensation and employee medical benefits. Funding amounts are based on actuarial recommendations.

The assets of the captive insurance company, internally designated funds, and the estimated liability for losses are reported in the consolidated balance sheets. Investment income from the assets and the provision for estimated self-funded losses and administrative costs are reported in the consolidated statements of operations and changes in net assets. The estimated self-funded

CHRISTUS Health

12. Self-Funded Liabilities (continued)

losses include expected claim payments, including settlement costs for reported claims and an actuarial determination of expected losses related to claims that have been incurred but not reported.

Emerald was incorporated in the Cayman Islands on June 27, 2003, and operates subject to the provisions of the Companies Law (2003 Revision) of the Cayman Islands. Emerald was granted an Unrestricted Class “B” Insurer’s license on June 30, 2003, which it holds subject to the provisions of the Insurance Law (2003 Revision) of the Cayman Islands. Emerald has received an undertaking from the Cayman Islands government exempting it from local income, profits, and capital gains taxes until July 29, 2023. No such taxes are currently levied in the Cayman Islands.

13. Concentrations of Credit Risk

The System grants credit without collateral to its patients, most of whom are local residents of the geographies of the various System health care centers and are insured under third-party payor agreements. The mix of gross accounts receivables from patients and third-party payors at June 30, was as follows:

	2012	2011
Medicare	23.2%	24.6%
Medicaid	6.1	5.3
Managed care organizations	37.3	36.6
Commercial insurance	6.4	4.6
Self-pay	16.9	15.9
Others	10.1	13.0
	<u>100.0%</u>	<u>100.0%</u>

14. Commitments and Contingencies

Operating Leases

The System leases various equipment and facilities under noncancelable operating leases expiring at various dates through May 20, 2045. Total rental expense in 2012 and 2011 for all operating leases was approximately \$47,617,000 and \$46,948,000, respectively.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

14. Commitments and Contingencies (continued)

The System's leases have varying terms, which may include renewal or purchase options and escalation clauses that are factored into determining minimum lease payments. The following is a schedule by year of future minimum lease payments under operating leases as of June 30, 2012, that have initial or remaining lease terms in excess of one year (in thousands):

2013	\$ 33,981
2014	29,128
2015	24,883
2016	18,558
2017	20,575
Thereafter	30,291
Total	<u>\$ 157,416</u>

From time to time, the System is subject to litigation in the ordinary course of operations. In management's opinion, any future settlements or judgments on asserted or unasserted claims will not have a material effect on the System's consolidated financial statements.

CHRISTUS Health has received notification that several regions have been identified as part of the nationwide Department of Justice (DOJ) investigation to determine whether, in certain cases, implantable cardioverter defibrillators (ICD) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. Through September 27, 2012, the DOJ has not asserted any claims against the System. The System continues to fully cooperate with the DOJ in its investigation. While maximum penalties could have a material impact on CHRISTUS Health's financial condition, management anticipates that any final settlement will not have a material adverse impact on its financial condition.

Because the government's enforcement efforts presently are widespread within the industry and may vary from region to region, there can be no assurance that the compliance program will significantly reduce or eliminate the exposure of the System to civil or criminal sanctions or adverse administrative determinations.

15. Functional Expenses

The System provides general health care services to residents throughout various geographic locations. Expenses related to providing these services at June 30, are as follows (in thousands):

	<u>2012</u>	<u>2011</u>
Health care services	\$ 2,716,421	\$ 2,721,502
Physician services	232,584	188,017

Endowment requiring income to be added to original gift	6,866	3,922
Other	1,878	1,930
Total	<u>\$ 16,545</u>	<u>\$ 13,551</u>

17. Assets Held for Sale

During fiscal year 2009, the System implemented a plan to monetize nonoperational assets where appropriate. As a result, several properties were identified and marketing plans were developed. The System classified certain long-lived assets as held for sale in fiscal years 2012 and 2011. The System has classified \$617,000 and \$2,150,000 as assets held for sale at June 30, 2012 and 2011, respectively.

Approximately \$353,000 of the assets held for sale balance at June 30, 2012, is land. The remaining \$264,000 represents nonoperational buildings in several Regions. Approximately \$617,000 of the assets held for sale at June 30, 2011, continue to be classified as held for sale at June 30, 2012. This classification is considered appropriate due to market conditions and length of time required to execute sale transactions. The assets are recorded at the lower of the book or estimated fair value at June 30, 2012.

19. Significant Events

Start-up of New CHRISTUS Health Plan

The Texas Department of Health and Human Services awarded a contract to CHRISTUS Health Plan to provide managed care services to Medicaid managed care members and Children's Health Insurance Program (CHIP) members in Nueces County and surrounding areas. In November 2011, the Texas Department of Insurance issued a license to CHRISTUS Health Plan as a managed care organization to begin accepting members effective March 1, 2012. CHRISTUS Health Plan was capitalized with an initial investment of \$12,500,000 as of June 30, 2012. Membership in CHRISTUS Health Plan was 7,796 as of June 30, 2012.

Relocation of Corporate Office

In January 2012, CHRISTUS Health announced the corporate functions located primarily in Irving, Houston, and San Antonio, Texas, would be consolidated into a new location in Irving, Texas. The relocation process resulted in the recognition of approximately \$24,000,000 of

CHRISTUS Health

relocation related costs for the year ended June 30, 2012. This relates primarily to lease termination costs and certain employee severance costs, which are included in services and other expenses and employee compensation and benefits, respectively, in the consolidated statement of operations. Of these amounts, approximately \$2,000,000 has been paid and the remaining balance is recorded in accounts payable and accrued expenses in the consolidated balance sheet at June 30, 2012. Other relocation costs, including moving and employee relocation expenses, will be recognized as incurred. The transition is scheduled to begin in August 2012 and be substantially complete by the spring of 2013. CHRISTUS does not expect to incur additional costs related to the relocation in fiscal year 2013 that will have a material effect on the System's consolidated financial statements.

St Joseph Villa

On February 4, 2011, substantially all the operating assets of CHRISTUS St. Joseph Villa in Salt Lake City, Utah, were sold to The Ensign Group for a sale price of \$16,500,000. CHRISTUS St. Joseph Villa is a continuing care retirement facility with 327 beds/units offering independent and assisted living, long-term care, post-acute care and geri-psych services. The gain from operations for the year ended June 30, 2011, was \$647,000, which is included in other nonoperating loss on the accompanying consolidated statement of operations and changes in net assets. The transaction resulted in a gain from the sale of \$4,300,000, which is included in other nonoperating activity in the accompanying consolidated statement of operations and changes in net assets.

20. Subsequent Events

The System evaluated events and transactions occurring subsequent to June 30, 2012, and through September 27, 2012, the date of issuance of the accompanying consolidated financial statements. During this period, there were no subsequent events requiring recognition in the consolidated financial statements.

CHRISTUS Santa Rosa City Center

In April 2012, CHRISTUS Santa Rosa announced plans to transform the City Center campus in downtown San Antonio into a free-standing children's hospital. In July 2012, CHRISTUS Santa Rosa ceased adult services in the City Center facility.

20. Subsequent Events (continued)

The \$135,000,000 facility expansion and renovation program is expected to be completed in 24 months. Once completed, the CHRISTUS Santa Rosa Children's Hospital will be licensed for 275 beds.

CHRISTUS Spohn and Nueces County Hospital District Relationship

CHRISTUS Spohn Health System (Spohn) is in negotiation with Nueces County Hospital District (NCHD) to enter into a co-membership agreement. The agreement will allow NCHD to have a percentage membership in Spohn entitling NCHD to a portion of the patient receipts, as well as change the current obligations regarding lease payments and funds flow for services delivered to the Nueces County indigent care patients.
