CHI USED THE FOLLOWING TO ESTABLISH THE TOP MANAGEMENT OFFICIAL'S COMPENSATION: (1) COMPENSATION COMMITTEE, (2) INDEPENDENT COMPENSATION CONSULTANT, (3) WRITTEN EMPLOYMENT CONTRACTS, (4) COMPENSATION SURVEY OR STUDY, (5) APPROVAL BY THE BOARD OR COMPENSATION COMMITTEE.
SEVERANCE PAYMENTS	SCHEDULE J, PART I, LINE 4A	POST-TERMINATION PAYMENTS ARE ADDRESSED IN EXECUTIVE EMPLOYMENT AGREEMENTS FOR CATHOLIC HEALTH INITIATIVES ("CHI") AND RELATED ORGANIZATIONS' EMPLOYEES AT THE LEVEL OF VICE PRESIDENT AND ABOVE, INCLUDING THE MBO CEOs. THESE EMPLOYMENT AGREEMENTS REQUIRE THAT IN ORDER FOR THE EXECUTIVE TO RECEIVE POST-TERMINATION PAYMENTS, THESE INDIVIDUALS MUST EXECUTE A GENERAL RELEASE AND SETTLEMENT AGREEMENT. POST-TERMINATION PAYMENT ARRANGEMENTS ARE PERIODICALLY REVIEWED FOR OVERALL REASONABLENESS IN LIGHT OF THE EXECUTIVE'S OVERALL COMPENSATION PACKAGE. THERE WERE NO REPORTABLE INDIVIDUALS THAT RECEIVED SEVERANCE PAYMENTS DURING CALENDAR YEAR 2011.
Supplemental nonqualified retirement plan	Schedule J, Part I, Line 4b	DURING THE 2011 CALENDAR YEAR, CATHOLIC HEALTH INITIATIVES ("CHI"), A RELATED ORGANIZATION, MAINTAINED A SUPPLEMENTAL NON-QUALIFIED DEFERRED COMPENSATION PLAN FOR MBO CEOs AND OTHER CHI EMPLOYEES AT THE LEVEL OF SENIOR VICE PRESIDENT AND ABOVE. THE FOLLOWING REPORTABLE INDIVIDUALS WERE ELIGIBLE TO PARTICIPATE IN THAT PLAN: JOSEPH WILCZEK, KELLY MORGAN. DURING 2011, THE FOLLOWING CONTRIBUTIONS WERE MADE BY CHI TO THE DEFERRED COMPENSATION PLAN: KELLY MORGAN - \$40,924; DURING 2011, THE FOLLOWING DISTRIBUTIONS WERE MADE BY CHI FROM THE DEFERRED COMPENSATION PLAN: JOSEPH WILCZEK - \$59,743. DUE TO THE "SUPER" VESTING RULES UNDER THE CHI DEFERRED COMPENSATION PLAN, PARTICIPANTS WHO HAVE MET CERTAIN REQUIREMENTS SUCH AS TERMINATION, AGE, OR YEARS OF SERVICE ARE ELIGIBLE TO RECEIVE THEIR 2011 CONTRIBUTIONS IN CASH. THESE CASH PAYOUTS ARE INCLUDED IN THE PARTICIPANT'S REPORTABLE COMPENSATION IN COLUMN (III) OTHER REPORTABLE COMPENSATION ON SCHEDULE J PART II. DURING 2011, THE FOLLOWING CONTRIBUTIONS THAT WOULD HAVE BEEN MADE BY CHI TO THE DEFERRED COMPENSATION PLAN WERE PAID IN CASH: JOSEPH WILCZEK - \$62,828.

PROCESS USED TO ESTABLISH COMPENSATION OF TOP MANAGEMENT OFFICIAL	FORM 990, PART VI, LINE 15A	THE ORGANIZATION'S CEO'S COMPENSATION IS PAID BY CHI. CHI HAS A DEFINED COMPENSATION PHILOSOPHY. BOTH THE EXECUTIVE AND NON-EXECUTIVE COMPENSATION STRUCTURES AND RANGES ARE REVIEWED ANNUALLY IN COMPARISON TO MARKET DATA. CHI USES THE HAY GROUP AS THE INDEPENDENT THIRD PARTY TO ASSESS EXECUTIVE COMPENSATION PROGRAMS AND TO ENSURE THE REASONABLENESS OF ACTUAL SALARIES AND TOTAL COMPENSATION PACKAGES. COMPENSATION OF THE SENIOR MOST EXECUTIVES IS REVIEWED ANNUALLY. THE HAY GROUP REVIEWS BOTH CASH AND TOTAL COMPENSATION FOR OVERALL REASONABLENESS, FOR ADHERENCE TO CHI'S COMPENSATION PHILOSOPHY, AND FOR COMPARABILITY TO THE NOT-FOR-PROFIT HEALTHCARE MARKET. THIS INDEPENDENT REVIEW IS DELIVERED BY HAY GROUP TO THE HR COMMITTEE OF THE CHI BOARD OF STEWARDSHIP TRUSTEES ANNUALLY AT THEIR SEPTEMBER MEETING AND MINUTES ARE SHARED WITH THE FULL BOARD AT THE DECEMBER MEETING. THE LAST REVIEW WAS SEPTEMBER 2012. IN ADDITION, IN DECEMBER 2009, HAY GROUP COMPLETED A COMPREHENSIVE REVIEW OF ALL POSITIONS AT THE LEVEL OF VICE PRESIDENT AND ABOVE TO DETERMINE AND VALIDATE APPROPRIATE COMPENSATION LEVELS. THESE LEVELS HAVE BEEN REVIEWED ANNUALLY SINCE AND REVISED BASED ON MARKET DATA, WHERE APPLICABLE.

Report of Independent Auditors

Board of Stewardship Trustees
Catholic Health Initiatives

We have audited the accompanying consolidated balance sheets of Catholic Health Initiatives (CHI) as of June 30, 2012 and 2011, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of CHI's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Alegent Health-Bergan Mercy Health System, a wholly sponsored direct affiliate of CHI, which statements reflect total assets of \$716 million and \$708 million as of June 30, 2012 and 2011, respectively, and total revenues of \$452 million and \$466 million, respectively, for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Alegent Health-Bergan Mercy Health System, is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of CHI's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CHI's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Catholic Health Initiatives at June 30, 2012 and 2011, and the consolidated results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

Notes to Consolidated Financial Statements

June 30, 2012

1. Summary of Significant Accounting Policies

Organization

Catholic Health Initiatives (CHI), established in 1996, is a tax-exempt Colorado corporation and has been granted an exemption from federal income tax under Section 501(c)(3) of the Internal Revenue Code. CHI sponsors market-based organizations (MBOs) and other facilities in 19 states, including 74 acute-care hospitals, of which 21 are designated as critical access hospitals by the Medicare program, two community health service organizations (CHSOs), two accredited nursing colleges, home health agencies, and 40 other sites including long-term care, assisted living and residential facilities. CHI also has an offshore captive insurance company, First Initiatives Insurance, Ltd. (FIIL).

The mission of CHI is to nurture the healing ministry of the Church, bringing it new life, energy and viability in the 21st century. CHI is committed to fidelity to the Gospel, with emphasis on human dignity and social justice in the creation of healthier communities. CHI is sponsored by a lay-religious partnership, calling on other Catholic sponsors and systems to unite to ensure the future of Catholic health care.

Principles of Consolidation

CHI consolidates all direct affiliates in which it has sole corporate membership or ownership (Direct Affiliates) and all entities in which it has greater than 50% equity interest with commensurate control. All significant intercompany accounts and transactions are eliminated in consolidation.

Fair Value of Financial Instruments

Financial instruments consist primarily of cash and equivalents, patient accounts receivable, notes receivable, accounts payable and long-term debt. The carrying amounts reported in the consolidated balance sheets for these items approximate fair value.

Cash and Equivalents

Cash and equivalents include all deposits with banks and investments in interest-bearing securities with maturity dates of 90 days or less from the date of purchase. In addition, cash and equivalents include deposits in short-term funds held by professional managers. The funds generally invest in high-quality, short-term debt securities, including U.S. government securities, securities issued by domestic and foreign banks, such as certificates of deposit and bankers'

acceptances, repurchase agreements, asset-backed securities, high-grade commercial paper and corporate short-term obligations

Net Patient Accounts Receivable and Net Patient Services Revenues

Net patient accounts receivable has been adjusted to the estimated amounts expected to be collected. These estimated amounts are subject to further adjustments upon review by third-party payors.

The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage and other collection indicators. Management routinely assesses the adequacy of the allowances for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility.

CHI records net patient services revenues in the period in which services are performed. CHI has agreements with third-party payors that provide for payments at amounts different from its established rates. The basis for payment under these agreements includes prospectively determined rates, cost reimbursement and negotiated discounts from established rates and per diem payments.

Net patient services revenues are reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments due to future audits, reviews and investigations, and excluding estimated amounts considered uncollectible. The differences between the estimated and actual adjustments are recorded as part of net patient services revenues in future periods, as the amounts become known, or as years are no longer subject to such audits, reviews and investigations.

Investments and Assets Limited as to Use

Investments and assets limited as to use include assets set aside by CHI for future long-term purposes, including capital improvements and self-insurance. In addition, assets limited as to use include amounts held by trustees under bond indenture agreements, amounts contributed by donors with stipulated restrictions and amounts held for Mission and Ministry programs.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

CHI has designated its investment portfolio as trading. Accordingly, unrealized gains and losses on marketable securities are reported within excess of revenues over expenses. In addition, cash flows from the purchases and sales of marketable securities are reported as a component of operating activities in the accompanying consolidated statements of cash flows.

Direct investments in equity securities with readily determinable fair values and all direct investments in debt securities have been measured at fair value in the accompanying consolidated balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in excess of revenues over expenses unless the income or loss is restricted by donor or law.

Investments in limited partnerships and limited liability companies are recorded using the equity method of accounting (which approximates fair value as determined by the net asset values of the related unitized interests) with the related changes in value in earnings reported as investment income in the accompanying consolidated financial statements.

Inventories

Inventories, primarily consisting of pharmacy drugs, and medical and surgical supplies, are stated at lower of cost (first-in, first-out method) or market.

Assets and Liabilities Held for Sale

A long-lived asset or disposal group of assets and liabilities that is expected to be sold within one year is classified as held for sale. For long-lived assets held for sale, an impairment charge is recorded if the carrying amount of the asset exceeds its fair value less costs to sell. Such valuations include estimates of fair values generally based upon discounted cash flows and incremental direct costs to transact a sale.

Property and Equipment

Property and equipment are stated at historical cost or, if donated or impaired, at fair value at the date of receipt or impairment. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. For property and equipment under capital lease, amortization is determined over the shorter period of the lease term or the estimated useful life of the property and equipment. Interest cost incurred during the period of construction of major capital projects is capitalized as a component of the cost of acquiring those assets. Capitalized interest of \$14.6 million and \$14.7 million was recorded in 2012 and 2011, respectively.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Costs incurred in the development and installation of internal-use software are typically expensed if they are incurred in the preliminary project stage or post-implementation stage, while certain costs are capitalized if incurred during the application development stage. Amounts capitalized are amortized over the useful life of the developed asset following project completion.

Investments in Unconsolidated Organizations

Investments in unconsolidated organizations are accounted for under the cost or equity method of accounting, as appropriate, based on the relative percentage of ownership or degree of influence over that organization. The equity income or loss on these investments is recorded in the consolidated statements of operations as changes in equity of unconsolidated organizations.

Intangible Assets and Goodwill

Intangible assets are amortized over the estimated useful life of each class of amortizable asset using the straight-line method. Amortization expense of \$4.9 million and \$6.1 million was recorded in 2012 and 2011, respectively. Intangible assets increased \$20.8 million in 2012 due to the Nebraska Heart Hospital and Nebraska Heart Institute acquisition discussed in Note 4, *Acquisitions and Divestitures*, and the acquisition of a cardiology practice in Tacoma.

Goodwill is not amortized but is subject to annual impairment tests as well as more frequent reviews whenever circumstances indicate a possible impairment may exist. Impairment testing of goodwill is done at the MBO level by comparing the fair value of the MBO's net assets against the carrying value of the MBO's net assets, including goodwill. The fair value of net assets is calculated based on quantitative analysis of discounted cash flows. The fair value of goodwill is determined by assigning fair values to assets and liabilities and calculating any remaining fair value as the implied fair value of goodwill.

Goodwill increased \$91.2 million due to the Nebraska Heart Hospital and Nebraska Heart Institute acquisition discussed in Note 4, *Acquisitions and Divestitures*, and the acquisition of a cardiology practice in Tacoma.

Notes Receivable and Other Assets

Other assets consist primarily of notes receivable, pledges receivable, deferred compensation assets, deposits and other long-term assets. Notes receivable include balances from the following related entities: Alegent Health and Alegent Health Immanuel Medical Center (collectively, Alegent), the Nebraska joint operating company (JOC) and non-CHI joint operating agreement (JOA) partner, respectively, and Bethesda Hospital, Inc. (Bethesda), the non-CHI JOA partner in the Cincinnati, Ohio JOA. All of the notes bear interest at rates commensurate with the CHI blended interest cost and require monthly debt service payments.

Alegent and Bethesda are Designated Affiliates in the CHI credit group under the Capital Obligation Document (COD). As conditions of joining the CHI credit group, the Designated Affiliates have agreed to certain covenants related to corporate existence, insurance coverage, exempt use of bond-financed facilities, maintenance of certain financial ratios and compliance with limitations on the incurrence of additional debt. Based upon management's review of the creditworthiness of the Designated Affiliates and their compliance with the covenants and limitations, no allowances for uncollectible notes receivable were recorded at June 30, 2012 and 2011.

Catholic Health Initiatives Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Net Assets

Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, including endowment funds. Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donor's wishes primarily to purchase equipment, to provide charity care and to provide other health and educational programs and services.

Unconditional promises to receive cash and other assets are reported at fair value at the date the promise is received. Conditional promises and indications of donors' intentions to give are reported at fair value at the date the conditions are met or the gifts are received. All unrestricted contributions are included in the excess of revenue over expenses as donation revenues. Other gifts are reported as either temporarily or permanently restricted if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as donations revenue when restricted for operations or as unrestricted net assets when restricted for property and equipment.

Performance Indicator

The performance indicator is the excess of revenues over expenses, which includes all changes in unrestricted net assets other than changes in the pension liability funded status, net assets released from restrictions for property acquisitions, the cumulative effect of changes in accounting principles, discontinued operations, contributions of property and equipment, and other changes not required to be included within the performance indicator under generally accepted accounting principles.

Operating and Nonoperating Activities

CHI's primary mission is to meet the health care needs in its market areas through a broad range of general and specialized health care services, including inpatient acute care, outpatient services, physician services, long-term care and other health care services. Activities directly associated with the furtherance of this purpose are considered to be operating activities. Earnings from fixed-income investments held by FIIL are also classified within operating activities as such earnings support FIIL operations. Other activities that result in gains or losses peripheral to CHI's primary mission are considered to be nonoperating. Nonoperating activities include all other investment earnings, losses from bond defeasance, net interest cost and changes in fair value of interest rate swaps, and the nonoperating component of JOA income share adjustments.

Catholic Health Initiatives Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Charity Care

As an integral part of its mission, CHI accepts and treats all patients without regard to the ability to pay. Services to patients are classified as charity care in accordance with standards established across all MBOs. Charity care represents services rendered for which partial or no payment is expected, and includes the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. The cost of charity care is determined on the basis of an MBO's total cost as a percentage of total charges applied to the charges incurred by patients qualifying for charity care under CHI's policy and is not included in net patient services revenues in the accompanying consolidated statements of operations and changes in net assets. The estimated cost of charity care provided was \$248.7 million and \$235.8 million in 2012 and 2011, respectively, for continuing operations, and \$24.6 million and \$9.2 million in 2012 and 2011, respectively, for discontinued operations.

Other Nonpatient Revenues

Other nonpatient revenues include gains and losses on the sales of assets, the operating portion of revenue-sharing income or expense associated with Direct Affiliates that are part of JOAs, cafeteria sales, rental income, retail pharmacy and durable medical equipment sales, auxiliary and gift shop revenues, and revenues from other miscellaneous sources.

Derivative and Hedging Instruments

CHI uses derivative financial instruments (interest rate swaps) in managing its capital costs. These interest rate swaps are recognized at fair value on the consolidated balance sheets. CHI has not designated its interest rate swaps related to CHI's long-term debt as hedges. The net interest cost and change in the fair value of such interest rate swaps is recognized as a component of nonoperating gains (losses) in the accompanying consolidated statements of operations. It is CHI's policy to net the value of collateral on deposit with counterparties against the fair value of its interest rate swaps in other liabilities on the consolidated balance sheets.

Functional Expenses

CHI provides inpatient, outpatient, ambulatory, long-term care and community-based services to individuals within the various geographic areas supported by its facilities. Support services include administration, finance and accounting, information technology, public relations, human resources, legal, mission services and other functions that are supported centrally for all of CHI. Support services expenses as a percent of total operating expenses were approximately 5.0% and 4.7% in 2012 and 2011, respectively.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Restructuring, Impairment and Other Losses

CHI periodically evaluates property, equipment, goodwill and certain other intangible assets to determine whether assets may have been impaired. Management determined there were certain property and equipment impairments in both 2012 and 2011 to the extent that the fair values (estimated based upon discounted cash flows) of those assets were less than the underlying carrying values.

During the years ended June 30, 2012 and 2011, CHI recorded total charges of \$58.7 million and \$25.7 million, respectively, relating to asset impairments and changes in business operations, including reorganization and severance costs. Of this amount, \$47.7 million and \$20.4 million were from continuing operations and reported in the consolidated statements of operations for 2012 and 2011, respectively, and \$11.0 million and \$5.3 million were reported as discontinued operations in the consolidated statements of changes in net assets for 2012 and 2011, respectively.

Income Taxes

CHI is a tax-exempt Colorado corporation and has been granted an exemption from federal income tax under Section 501(c)(3) of the Internal Revenue Code. CHI owns certain taxable subsidiaries and engages in certain activities that are unrelated to its exempt purpose and therefore subject to income tax.

Management reviews its tax positions annually and has determined that there are no material uncertain tax positions that require recognition in the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could vary from the estimates.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements and Adoption of New Accounting Standards

In August 2010, the Financial Accounting Standards Board (FASB) released Accounting Standards Update (ASU) No. 2010-23, *Measuring Charity Care for Disclosure*. ASU 2010-23 requires the disclosure of charity care amounts and requires that cost be used as the measurement basis for charity care. The accounting provisions also specifically require that charity care not be reduced by reimbursement for charity care, and that the amount of reimbursements for charity care be disclosed. CHI adopted the disclosure provisions of ASU 2010-23 during 2012.

In August 2010, the FASB released ASU No. 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*. ASU 2010-24 applies to malpractice claims and similar contingent liabilities and requires that such liabilities disregard the effect of any anticipated insurance recoveries in determining the liability amounts. The accounting provisions also provide accounting guidance for recording any insurance recovery receivables. ASU 2010-24 was effective for fiscal years beginning after December 15, 2010, and was adopted by CHI in fiscal year 2012, with no material effect on its overall consolidated results of financial position, operations or cash flows.

In July 2011, the FASB released ASU No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Entities*. ASU 2011-07 requires health care entities to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient services revenues from an operating expense to a deduction from patient services revenues (net of contractual allowances and discounts). Additionally, enhanced disclosures will be required surrounding the entity's policies for recognizing revenue and assessing bad debts. ASU 2011-07 is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011. CHI does not believe its adoption of ASU 2011-07 will have a material effect on its overall consolidated results of financial position, operations or cash flows.

Meaningful Use of Certified Electronic Health Record Technology Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments beginning in 2011 to certain hospitals and professionals that implement and achieve meaningful use of certified electronic health record (EHR) technology in ways that demonstrate improved quality and effectiveness of care. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. An initial Medicaid incentive payment is available to providers that adopt, implement or upgrade certified EHR technology. However, in order to receive additional Medicaid incentive payments in subsequent years, providers must demonstrate continued meaningful use of EHR technology.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

CHI accounts for meaningful use incentive payments under the gain contingency model. Medicare EHR incentive payments are recognized as revenues when eligible providers demonstrate meaningful use of certified EHR technology and the cost report information for the full cost report year that will determine the full calculation of the incentive payment is available. Medicaid EHR incentive payments are recognized as revenues when an eligible provider demonstrates meaningful use of certified EHR technology. For fiscal year 2012, CHI recognized \$11.3 million of Medicare meaningful use revenues and \$20.7 million of Medicaid meaningful use revenues in its consolidated statements of operations.

Reclassifications

Certain reclassifications were made to the 2011 consolidated financial statement presentation to conform to the 2012 presentation.

2. Community Benefit (Unaudited)

In accordance with its mission and philosophy, CHI commits substantial resources to sponsor a broad range of services to both the poor and the broader community. Community benefit provided to the poor includes the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. This type of community benefit includes the costs of traditional charity care, unpaid costs of care provided to beneficiaries of Medicaid and other indigent public programs, services such as free clinics and meal programs for which a patient is not billed or for which a nominal fee has been assessed, and cash and in-kind donations of equipment, supplies or staff time volunteered on behalf of the community.

Community benefit provided to the broader community includes the costs of providing services to other populations who may not qualify as poor but may need special services and support. This type of community benefit includes the costs of services such as health promotion and education, health clinics and screenings, all of which are not billed or can be operated only on a deficit basis, unpaid portions of training health professionals such as medical residents, nursing students and students in allied health professions, and the unpaid portions of testing medical equipment and controlled studies of therapeutic protocols.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

2. Community Benefit (Unaudited) (continued)

A summary of the cost of community benefit provided to both the poor and the broader community is as follows (in thousands)

	2012	2011
Cost of community benefit		
Cost of charity care provided	\$ 248,667	\$ 235,756
Unpaid cost of public programs, Medicaid and other indigent care programs	280,785	235,326
Nonbilled services	28,514	23,327
Cash and in-kind donations	3,221	2,950
Education and research	49,640	33,165
Other benefit	52,369	61,362
Total cost of community benefit from continuing operations	663,196	591,886
Total cost of community benefit from discontinued operations	51,815	20,260
Total cost of community benefit	715,011	612,146
Unpaid cost of Medicare from continuing operations	368,245	439,316
Unpaid cost of Medicare from discontinued operations	26,226	22,042
Total unpaid cost of Medicare	394,471	461,358
Total cost of community benefit and the unpaid cost of Medicare	<u>\$ 1,109,482</u>	<u>\$ 1,073,504</u>

The summary above has been prepared in accordance with the policy document of the Catholic Health Association of the United States (CHA), *Community Benefit Program – A Revised Resource for Social Accountability*. Community benefit is measured on the basis of total cost, net of any offsetting revenues, donations or other funds used to defray cost.

The total cost of community benefit from continuing and discontinued operations was 7.0% and 6.6% of total expenses before operating expenses related to restructuring, impairment and other losses in 2012 and 2011, respectively. The total cost of community benefit and the unpaid cost of Medicare from continuing and discontinued operations was 10.8% and 11.6% of total expenses before operating expenses related to restructuring, impairment and other losses in 2012 and 2011, respectively.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

3. Joint Operating Agreements and Investments in Unconsolidated Organizations

Joint Operating Agreements

CHI participates in JOAs with hospital-based organizations in five separate market areas. The agreements generally provide for, among other things, joint management through JOCs of the combined operations of the local facilities included in the JOAs. CHI retains ownership of the assets, liabilities, equity, revenues and expenses of the CHI facilities that participate in the JOAs. The financial statements of the CHI facilities managed under all JOAs are included in the CHI consolidated financial statements. Transfers of assets from facilities owned by the JOA participants generally are restricted under the terms of the agreements.

CHI has a 70% interest in a JOC based in Colorado and has interests of 50% in three other JOCs associated with other JOAs. These interests are included in investments in unconsolidated organizations and totaled \$99 million and \$125 million at June 30, 2012 and 2011, respectively. CHI recognizes its investment in all JOCs under the equity method of accounting. The JOCs provide varying levels of services to the related JOA sponsors, and operating expenses of the JOCs are allocated to each sponsoring organization. The unconsolidated JOCs had total assets of \$688 million and \$721 million at June 30, 2012 and 2011, respectively, and net assets of \$156 million and \$209 million, respectively.

Investments in Unconsolidated Organizations

CHI Kentucky – Effective on January 1, 2012, CHI purchased a controlling interest in Jewish Hospital and St. Mary's Healthcare Inc. and affiliates (JHSMH). CHI contributed its controlling interest, including its 25% joint venture investment in JHSMH, into a newly formed consolidated subsidiary, KentuckyOne Health (see Note 4, *Acquisitions and Divestitures*). As a result of the change in control of its investment in JHSMH, CHI recognized a gain on the remeasurement of its joint venture investment of \$45.0 million reported in other revenue.

CHI's prior 25% joint venture investment in JHSMH was created on November 1, 2005, with CHI contributing substantially all of the net assets of the former MBO in Louisville, Kentucky, with a value of \$7 million, along with \$20 million, paid in quarterly installments through August 2008. The investment in the joint venture was accounted for under the equity method of accounting. It had a book value of \$30 million at June 30, 2011, and was included in investments in unconsolidated organizations. In fiscal year 2011, the joint venture had annual operating revenues of approximately \$1.0 billion, and total assets of \$920 million and net assets of \$335 million as of June 30, 2011. Prior to the contribution of the 25% joint venture investment in January 2012, the joint venture had executed a note to CHI with monthly payments of principal and interest. The note was included in other assets as of June 30, 2011, and had a balance of \$25 million. Subsequent to the contribution of the 25% joint venture investment in JHSMH into KentuckyOne Health, the note is considered an intercompany transaction and eliminated in consolidation.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

**3. Joint Operating Agreements and Investments in Unconsolidated Organizations
(continued)**

Preferred Professional Insurance Corporation (PPIC) – PPIC is an unconsolidated affiliate of CHI. PPIC provides professional liability insurance and other related services to preferred physician and other health care providers that are associated with its owners. CHI owns a 27% interest in PPIC and accounts for its investment under the equity method of accounting. The book value of the investment was \$50 million and \$49 million at June 30, 2012 and 2011, respectively. PPIC had net assets of \$184 million and \$183 million at December 31, 2011 and 2010, respectively.

Other Entities – The summarized financial positions and results of operations for the other entities accounted for under the equity method as of and for the periods ended June 30, excluding the investments described above, are as follows (in thousands):

Continuing Operations

KentuckyOne Health – Effective on January 1, 2012, CHI acquired an additional 58% interest in JHSMH from Jewish Hospital HealthCare Services, Inc (JHHS) in exchange for a noncontrolling interest in KentuckyOne Health, a new statewide health care network in the state of Kentucky, through the combination of JHSMH and St Joseph Health System, a CHI-sponsored MBO. CHI has a controlling interest of approximately 83% in KentuckyOne Health and JHHS has the remaining 17% interest. The fair value of the noncontrolling interest of \$181.6 million was determined using valuation techniques including discounted cash flows.

Upon the change in control, the fair value of the assets and liabilities of JHSMH were allocated as follows (in thousands):

Patient receivables	\$ 116,733
Other receivables	6,307
Current portion of assets limited as to use	5,567
Inventory	15,772
Prepaid and other current assets	11,672
Cash, investments and assets limited as to use	275,764
Property and equipment	451,662
Deferred financing costs	3,945
Investments in unconsolidated organizations	5,290
Other assets	8,095
Accrued compensation and benefits	(33,683)
Third-party liabilities	(1,691)
Accounts payable and accrued expenses	(107,903)
Current portion of long-term debt	(7,518)
Other liabilities	(87,459)
Long-term debt	(404,050)
Net assets acquired	<u>\$ 258,503</u>

CHI began consolidating the results of JHSMH's operations effective January 1, 2012. The acquisition of JHSMH added \$477.1 million of operating revenues and \$62.2 million of deficit of revenues over expenses to the CHI consolidated results of operations from January 1 to June 30, 2012. On an unaudited pro forma basis, had CHI owned JHSMH at the beginning of each fiscal year, JHSMH would have reported \$959.9 million and \$991.4 million of operating revenues in 2012 and 2011, respectively, \$84.2 million of deficiency of revenues over expenses in 2012, and \$32.1 million of excess of revenues over expenses in 2011. However, the unaudited pro forma

Nebraska Heart Hospital and Nebraska Heart Institute – Effective on August 1, 2011, CHI acquired Nebraska Heart Hospital and Nebraska Heart Institute. The acquisition allowed CHI to expand cardiac, thoracic and vascular care across the state of Nebraska. The gross purchase price of \$131.1 million cash consideration was allocated as follows (in thousands):

Cash	\$ 146
Patient receivables	8,080
Other receivables	1,735

Purchase price	<u>\$ 131,127</u>

Nebraska Heart Hospital and Nebraska Heart Institute added \$81.2 million of operating revenues and \$5.7 million of excess of revenues over expenses to the CHI consolidated results of operations from August 1, 2011 to June 30, 2012. On an unaudited pro forma basis, had CHI owned Nebraska Heart Hospital and Nebraska Heart Institute at the beginning of each fiscal year, they would have reported \$90.2 million and \$95.1 million of operating revenues in 2012 and 2011, respectively, and \$6.3 million and \$14.7 million of excess of revenues over expenses in 2012 and 2011, respectively. However, the unaudited pro forma information is not necessarily indicative of the historical results that would have been obtained had the transaction actually occurred on those dates, nor of future results.

Consolidated Health Services (CHS) – Effective on October 1, 2010, CHI acquired CHS, headquartered near Cincinnati, Ohio, from Bethesda, Inc., an Ohio nonprofit corporation. CHS is a home health care service provider operating in 30 locations in Indiana, Kentucky and Ohio. The gross purchase price of the acquisition was \$43.3 million (\$35.5 million, net of cash acquired), which was allocated as follows (in thousands):

Consolidated Health Services contributed \$60.3 million of operating revenues and \$2.9 million of excess of revenues over expenses to the CHI consolidated results of operations for fiscal year 2012, and \$47.8 million of operating revenues and \$2.5 million of excess of revenues over expenses to the CHI consolidated results of operations for fiscal year 2011.

Discontinued Operations

CHI has committed to a plan to sell the MBOs in Denville, New Jersey, Towson, Maryland, and Pierre, South Dakota. Effective in March 2012, CHI entered into exclusive negotiations with the intent of signing a non-binding Letter of Intent to transfer ownership of the Denville MBO to Ascension Health Care Network, Inc., an affiliate of Ascension Health, the Towson MBO to the University of Maryland Medical Systems, and the Pierre MBO to Avera Health. All the transactions are subject to governmental and Church approvals. It is anticipated that a definitive asset purchase agreement for the sale of the Denville MBO will be finalized and have a closing date prior to January 1, 2013. The asset purchase agreement for the sale of the Towson MBO is being negotiated with an expected closing date of November 1, 2012. No final agreement has been reached for the sale of the Pierre MBO as discussions are ongoing with Avera Health. In accordance with Accounting Standards Codification (ASC) 205-20, *Discontinued Operations*, and ASC 360-10, *Impairment and Disposal of Long-Lived Assets*, the results of operations associated with these MBOs have been reported as discontinued operations and are included in the consolidated statements of changes in net assets. Assets held for sale consist primarily of cash and investments, net patient accounts receivable, net property and other long-term assets. Liabilities held for sale consist of accounts payable and accrued compensation and benefits.

4. Acquisitions and Divestitures (continued)

Related to the MBOs held for sale, CHI recorded a deficiency of revenues over expenses of \$45.2 million and \$13.2 million for the years ended June 30, 2012 and 2011, respectively, which is reported as discontinued operations in the accompanying consolidated statements of changes in net assets. Total operating revenues and deficiency of revenues over expenses included in the results of discontinued operations for the years ended June 30 are summarized below (in thousands):

	<u>2012</u>	<u>2011</u>
Total operating revenues	\$ 714,405	\$ 727,886
Total operating expenses	(748,388)	(753,466)

Nonoperating (losses) gains	(207)	17,642
Deficiency of revenues over expenses	<u>\$ (45,177)</u>	<u>\$ (13,231)</u>

The consolidated statements of cash flows include the use of \$45.4 million and \$12.8 million of operating, investing and financing activities related to discontinued operations for the years ended June 30, 2012 and 2011, respectively.

Dayton Heart and Vascular Hospital – Effective on July 28, 2011, the Dayton Heart and Vascular Hospital was sold for \$16.0 million. No gain or loss was recorded as a result of the sale. The property was classified as an asset held for sale on the consolidated balance sheet as of June 30, 2011.

5. Net Patient Services Revenues

Net patient services revenues are derived from services provided to patients who are either directly responsible for payment or are covered by various insurance or managed care programs. CHI receives payments from the federal government on behalf of patients covered by the Medicare program, from state governments for Medicaid and other state-sponsored programs, from certain private insurance companies and managed care programs and from patients themselves. A summary of payment arrangements with major third-party payors follows:

Medicare – Inpatient acute care and certain outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge or procedure. These rates vary according to patient classification systems based on clinical, diagnostic and other factors. Certain CHI facilities have been designated as critical access hospitals and, accordingly, are reimbursed their cost of providing services to Medicare beneficiaries. Professional services rendered by physicians are paid based on the Medicare allowable fee schedule.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

5. Net Patient Services Revenues (continued)

Medicaid – Inpatient services rendered to Medicaid program beneficiaries are primarily paid under the traditional Medicaid plan at prospectively determined rates per discharge. Certain outpatient services are reimbursed based on a cost reimbursement methodology, fee schedules or discounts from established charges.

Other – CHI has also entered into payment agreements with certain managed care and commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to CHI under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

CHI's Medicare, Medicaid and other payor utilization percentages, based upon net patient services revenues, are summarized as follows:

	2012	2011
Medicare	31%	30%
Medicaid	7	8
Managed care	39	39
Self-pay	8	8
Commercial and other	15	15
	100%	100%

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Estimated settlements related to Medicare and Medicaid of \$57 million and \$44 million at June 30, 2012 and 2011, respectively, are included in third-party liabilities. Net patient services revenues from continuing operations increased by \$20.5 million in 2012 and \$32.1 million in 2011 due to favorable changes in estimates related to prior-year settlements. Also during 2012, CHI prevailed on the appeal of two cost report settlements from the Centers for Medicare and Medicaid Services (CMS) related to the calculation used by CMS for the rural floor wage index and for the disallowance of insurance premiums paid to FII. The settlement amounts are included in the 2012 net patient services revenues from continuing operations, and totaled \$76.7 million for the rural floor wage index and \$19.8 million for the insurance premiums. The appeals spanned years from 1997 through 2011.

6. Investments and Assets Limited as to Use

CHI's investments and assets limited as to use as of June 30 are reported in the accompanying consolidated balance sheets as presented in the following table (in thousands)

	<u>2012</u>	<u>2011</u>
Cash and equivalents	\$ 155,418	\$ 141,283

	<u>\$ 5,936,133</u>	<u>\$ 5,889,572</u>

Net unrealized gains at June 30, 2012 and 2011, were \$144.0 million and \$298.0 million, respectively

CHI attempts to reduce its market risk by diversifying its investment portfolio using cash equivalents, fixed-income securities, marketable equity securities and alternative investments. Most of the U.S. Treasury, money market funds and corporate debt obligations as well as exchange-traded marketable securities held by CHI and the CHI Investment Program (the Program) have an actively traded market. However, CHI also invests in commercial paper, mortgage-backed or other asset-backed securities, alternative investments (such as hedge funds, private equity investments, real estate funds, funds of funds, etc.), collateralized debt obligations, municipal securities and other investments that have potential complexities in valuation based upon the current conditions in the credit markets. For some of these instruments, evidence supporting the determination of fair value may not come from trading in active primary or secondary markets. Because these investments may not be readily marketable, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had an active market for such investments existed. Such differences could be material. However, management reviews the CHI investment portfolio on a regular basis and seeks guidance from its professional portfolio managers related to U.S. and global market conditions to determine the fair value of its investments. CHI believes the carrying amount of these financial instruments in the consolidated financial statements is a reasonable estimate of fair value. Additionally, CHI assesses the risk of impairment related to securities held in its investment portfolio on a regular basis and noted no impairment during the years ended June 30, 2012 and 2011.

6. Investments and Assets Limited as to Use (continued)

Substantially all CHI long-term investments are held in the Program. The Program is structured under a Limited Partnership Agreement with CHI as managing general partner and numerous limited partners, most sponsored by CHI. The partnership provides a vehicle whereby virtually all entities associated with CHI, as well as certain other unrelated entities, can seek to optimize investment returns while managing investment risk. Entities participating in the Program that are not consolidated in the accompanying financial statements have the ability to direct their invested amounts and liquidate and/or withdraw their interest without penalty as soon as practicable based on market conditions but within 180 days of notification. The Limited Partnership Agreement permits a majority vote of the noncontrolled limited partners to terminate the partnership. Accordingly, CHI recognizes only the portion of Program assets attributable to CHI and its sponsored affiliates. Program assets attributable to CHI and its direct affiliates represented 86% of total Program assets at June 30, 2012 and 2011.

The Program asset allocation at June 30 is as follows:

	2012	2011
Marketable equity securities	44%	45%
Marketable fixed-income securities	35	34
Alternative investments	19	19
Cash and equivalents	2	2
	100%	100%

The CHI Investment Committee (the Investment Committee) of the Board of Stewardship Trustees is responsible for determining asset allocations among fixed-income, equity and alternative investments. At least annually, the Investment Committee reviews targeted allocations and, if necessary, makes adjustments to targeted asset allocations. Given the diversity of the underlying securities in which the Program invests, management does not believe there is a significant concentration of credit risk.

Investment income is comprised of the following for the years ended June 30 (in thousands)

	2012	2011
Dividend and interest income	\$ 123,432	\$ 116,710
Net realized gains	86,566	268,526

Total investment (loss) income from discontinued operations	(207)	17,642
Total investment income	<u><u>\$ 56,791</u></u>	<u><u>\$ 851,671</u></u>

Direct expenses of the Program are less than 0.4% of total assets. Fees paid to the alternative investment managers are not included in the total expense calculation as they are not a direct expense of the Program.

7. Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The three levels of the fair value hierarchy and a description of the valuation methodologies used for instruments measured at fair value are as follows:

Level 1 – Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial asset or liability.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

7. Fair Value of Assets and Liabilities (continued)

Level 3 – Valuation is based upon other unobservable inputs that are significant to the fair value measurement

Certain of CHI's alternative investments are made through limited liability companies (LLCs) and limited liability partnerships (LLPs). These LLCs and LLPs provide CHI with a proportionate share of the investment gains (losses). CHI accounts for its ownership in the LLCs and LLPs under the equity method. CHI also accounts for its ownership in the Partnership under the equity method. As such, these investments are excluded from the scope of ASC 820.

Financial assets and liabilities measured at fair value on a recurring basis were determined using the following inputs at June 30 (in thousands):

The fair values of the instruments included in Level 1 were determined through quoted market prices. Level 1 instruments include money market funds, mutual funds and marketable debt and equity securities. The fair values of Level 2 instruments were determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest rate curves and referenced credit spreads, estimated prepayment rates, where applicable, are used for valuation purposes and are provided by third-party services where quoted market values are not available. Level 2 instruments include corporate fixed-income securities, government bonds, mortgage and asset-backed securities, and interest rate swaps. The fair values of Level 3 securities are determined primarily through information obtained from the relevant counterparties for such investments. Information on which these securities' fair values are based is generally not readily available in the market.

CHI evaluates whether events and circumstances have occurred that indicate the remaining useful life of property, equipment and certain other intangible assets may not be recoverable. Management determined there were impairment issues in both 2012 and 2011, to the extent that the undiscounted cash flows estimated to be generated by certain assets were less than the underlying carrying value. CHI recorded \$16.0 million and \$7.8 million in impairment losses in continuing operations for 2012 and 2011, respectively, resulting from charges related to estimated fair value deficiencies (based upon projected discounted cash flows) at various MBOs. Impairment charges of \$1.1 million related to assets held for sale were included in discontinued operations in the consolidated statement of changes in net assets for 2011.

9. Debt Obligations (continued)

The fair value of debt obligations was approximately \$5.0 billion at June 30, 2012. Management has determined the carrying values of the variable-rate bonds are representative of fair values as of June 30, 2012, as the interest rates are set by the market participants. The fair value of the fixed-rate tax-exempt bond obligations as of June 30, 2012, is determined by applying credit spreads for similar tax-exempt obligations in the marketplace, which are then used to calculate a price/yield for the outstanding obligations.

A summary of scheduled principal payments, based upon stated maturities, on long-term debt for the next five years is as follows (in thousands):

Year Ending June 30	<u>Amounts Due</u>

CHI issues the majority of its debt under the COD and is the sole obligor. Bondholder security resides both in the unsecured promise by CHI to pay its obligations and in its control of its Direct and Designated Affiliates. Covenants include a minimum CHI debt service coverage ratio and certain limitations on secured debt. The Direct Affiliates of CHI, defined as Participants under the COD, have agreed to certain covenants related to corporate existence, maintenance of insurance and exempt use of bond-financed facilities.

In November 2011, CHI issued \$809.2 million of fixed-rate, variable-rate and Windows variable-rate bonds (Windows) in the states of Colorado, Kentucky and Washington. Proceeds were used to refund \$223.5 million of existing debt and to redeem \$116.8 million of commercial paper outstanding. Concurrent with the issuance of these bonds, CHI converted \$50.0 million of Ohio Series 2008C-2 bonds to bear interest at weekly rates. Also, during November 2011, CHI redeemed \$55.8 million of existing debt. These redemptions resulted in a loss on extinguishment of \$0.7 million.

In connection with the acquisition of JHSMH in January 2012, CHI acquired \$342.0 million of JHSMH 2008 series bonds and \$43.0 million of JHSMH 1996 series bonds. In January 2012, the 1996 bonds were legally defeased, which resulted in a loss on defeasance of \$0.5 million. In April 2012, CHI issued \$271.3 million of par value bonds in the state of Kentucky. Debt proceeds of \$299.7 million and cash of \$114.3 million were used to refund \$322.9 million and

legally defease \$88.4 million of the 2008 bonds. The transaction resulted in a loss on extinguishment of \$69.4 million.

CHI has two types of external liquidity facilities: those that are dedicated to specific series of variable-rate demand bonds (VRDBs) and those that are not dedicated to a particular series of VRDBs but may be used to support CHI's obligations to fund tenders of VRDBs and pay the maturing principal of commercial paper. Liquidity facilities that are dedicated to specific series of bonds were \$625.5 million and \$623.5 million at June 30, 2012 and 2011, respectively, of which \$9.4 million and \$18.8 million, respectively, are classified as current debt. The remaining \$616.1 million and \$604.7 million at June 30, 2012 and 2011, respectively, are reported as long term debt due to the repayment terms on any associated drawings extending beyond the subsequent fiscal year under the terms of the specific agreements.

Liquidity facilities not dedicated for specific series of VRDBs but used to support CHI's obligations to fund tenders and to pay maturing principal of commercial paper were \$435.0 million and \$565.0 million at June 30, 2012 and 2011, respectively. At June 30, 2012 and 2011, respectively, \$475.6 million and \$617.4 million of commercial paper were classified as current due to maturities of less than one year, and \$321.5 million of VRDBs and Windows, and \$163.4 million of VRDBs, respectively, were classified as current due to the holder's ability to put such VRDBs and Windows back to CHI without liquidity facilities dedicated to these bonds.

At June 30, 2012, CHI had a \$60.0 million credit facility with Wells Fargo Bank. Letters of credit totaling \$58.6 million have been issued for the benefit of third parties, principally in support of the self-insurance programs administered by FIIL. At June 30, 2012 and 2011, no amounts were outstanding under this credit facility.

CHI is a party to seven floating-to-fixed interest rate swap agreements with notional amounts totaling \$931.8 million and \$942.8 million at June 30, 2012 and 2011, respectively. Generally, it is CHI policy that all counterparties have an AA rating or better. The swap agreements require CHI to provide collateral if CHI's liability, determined on a mark-to-market basis, exceeds a specified threshold that varies based upon the rating on the corporation's long-term indebtedness. These fixed-payor swap agreements convert CHI's variable-rate debt to fixed-rate. The seven swaps have varying maturity dates ranging from May 2025 to December 2036. The fair value of the swaps is estimated based on the present value sum of anticipated future net cash settlements until the swaps' maturities. At June 30, 2012 and 2011, the fair value was \$238.5 million and \$116.6 million, respectively. Cash collateral balances of \$140.7 million and \$47.0 million at June 30, 2012 and 2011, respectively, are netted against the fair value of the swaps, and the net amount is reflected in other liabilities. The change in the fair value of these agreements was a net loss of \$121.9 million in 2012 and a net gain of \$26.9 million in 2011.

10. Retirement Plans

CHI and its direct affiliates maintain noncontributory, defined benefit retirement plans (Plans) covering substantially all employees. Benefits in the Plans are based on compensation, retirement age and years of service. Vesting occurs over a five-year period. Substantially all of the Plans are qualified as church plans and are exempt from certain provisions of both the Employee Retirement Income Security Act and Pension Benefit Guaranty Corporation premiums and coverage. Funding requirements are determined through consultation with independent actuaries.

CHI recognizes the funded status (that is, the difference between the fair value of plan assets and the projected benefit obligations) of its Plans in the consolidated balance sheets, with a corresponding adjustment to net assets. Actuarial gains and losses that arise and are not recognized as net periodic pension cost in the same periods are recognized as a component of net assets.

In connection with the acquisition of JHSMH in January 2012, CHI acquired the pension liabilities of JHSMH, herein referred to as the JHSMH plan.

Included in net assets at June 30, 2012, are the following amounts that have not yet been recognized in net periodic pension cost: unrecognized prior service cost of \$0.9 million and unrecognized actuarial losses of \$1.2 billion. The prior service cost and actuarial loss included in net assets and expected to be recognized in net periodic pension cost during the fiscal year ending June 30, 2013, are \$0.2 million and \$92.5 million, respectively.

10. Retirement Plans (continued)

The components of net periodic pension expense are as follows (in thousands)

	2012	2011
Components of net periodic pension expense		
Service cost	\$ 169,477	\$ 167,444
Interest cost	153,204	143,536
Expected return on the Plans' assets	(198,093)	(183,365)
Amortization of prior service benefit	187	893
Actuarial losses	39,029	47,550
	<u>\$ 163,804</u>	<u>\$ 176,058</u>
Weighted-average assumptions		
Discount rate, beginning of year	5.39%	5.24%
Discount rate, end of year	4.06	5.39
Expected return on the Plans' assets	7.75	8.00
Rate of compensation increase	3.75	4.25

The assumption for the expected return on the Plans' assets is based on historical returns and adherence to the asset allocations set forth in the Plans' investment policies. The expected return on the Plans' assets for determining pension cost was 7.75% in 2012 and 8.00% in 2011. The decrease in the discount rate to 4.06% at June 30, 2012 increased the pension benefit obligation by approximately \$420.3 million.

A summary of the Plans' asset allocation targets, ranges by asset class and allocations by asset class at the measurement dates of June 30 is as follows:

	2012	2011	Target	Range
Fixed-income securities	29.8%	26.1%	27.5%	17.5–37.5%
Equity securities	51.2	53.7	52.5	42.5–62.5
Alternative investments	19.0	20.2	20.0	10.0–30.0

The Plans' assets are invested in a portfolio designed to preserve principal and obtain competitive investment returns and long-term investment growth, consistent with actuarial assumptions, while minimizing unnecessary investment risk. Diversification is achieved by allocating assets to various asset classes and investment styles and by retaining multiple investment managers with complementary philosophies, styles and approaches. Although the objective of the Plans is to maintain asset allocations close to target, temporary periods may exist where allocations are outside of the expected range due to market conditions. The use of leverage is prohibited except as specifically directed in the alternative investment allocation. The portfolio is managed on a basis consistent with the CHI social responsibility guidelines.

11. Concentrations of Credit Risk

CHI grants credit without collateral to its patients, most of whom are insured under third-party payor agreements. CHI's exposure to credit risk on patient accounts receivable is limited by the geographical diversity of its MBOs. The mix of receivables from patients and third-party payors at June 30 approximated the following:

	<u>2012</u>	<u>2011</u>
Medicare	26%	23%
Medicaid	11	7
Managed care	32	36
Self-pay	6	10
Commercial and other	25	24
	<u>100%</u>	<u>100%</u>

CHI maintains long-term investments with various financial institutions and investment management firms through its investment program, and its policy is designed to limit exposure to any one institution or investment. Management does not believe there are significant concentrations of credit risk at June 30, 2012 and 2011.

12. Commitments and Contingencies

Litigation

During the normal course of business, CHI may become involved in litigation. Management assesses the probable outcome of unresolved litigation and records estimated settlements. After consultation with legal counsel, management believes that any such matters will be resolved without material adverse impact to the consolidated financial position or results of operations of CHI.

Health Care Regulatory Environment

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Management believes CHI is in compliance with all applicable laws and regulations of the Medicare and Medicaid programs. Compliance with such laws and regulations is complex and can be subject to future governmental interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs. Certain CHI entities have

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

12. Commitments and Contingencies (continued)

been contacted by governmental agencies regarding alleged violations of Medicare practices for certain services. In the opinion of management after consultation with legal counsel, the ultimate outcome of these matters will not have a material adverse effect on CHI's consolidated financial position.

Operating Leases

CHI leases certain real estate and equipment under operating leases, which may include renewal options and escalation clauses. Future minimum lease payments required for the next five years and thereafter for all operating leases that have initial or remaining noncancelable lease terms in excess of one year at June 30, 2012, are as follows (in thousands):

	<u>Amounts Due</u>
Year Ending June 30	
2013	\$ 104,407
2014	91,753
2015	75,761
2016	68,627
2017	61,038
Thereafter	210,019
	<u>\$ 611,605</u>

Lease expense under operating leases for continuing operations for the years ended June 30, 2012 and 2011, totaled approximately \$175 million and \$145 million, respectively.

13. Insurance Programs

FIIL, a wholly owned captive insurance company of CHI, provides hospital professional liability, employment practices liability and commercial general liability coverage, primarily to MBOs related to CHI either on a directly written basis or through reinsurance fronting relationships with commercial carriers such as PPIC. Policies written provide coverage with primary limits in the amount of \$8 million for each and every claim. For the policy year July 1, 2011 to July 1, 2012, there is an annual policy aggregate of \$75 million eroded by hospital professional liability and commercial general liability claims, subject to a \$175,000 continuing underlying per claim limit. Effective July 1, 2011, FIIL provided excess umbrella liability coverage for claims in excess of the underlying limits discussed above. The limits provided under such excess coverage are \$200 million per claim and in the aggregate. Prior to July 1, 2011, CHI had obtained excess coverage directly from commercial insurance companies. FIIL reinsured 100% of the excess coverage layer with various commercial insurance companies. At June 30, 2012 and 2011, investments and assets limited as to use held for insurance purposes included \$59 million and \$58 million, respectively, held as collateral for the reinsurance fronting arrangement with PPIC.

Catholic Health Initiatives
Notes to Consolidated Financial Statements (continued)

13. Insurance Programs (continued)

FIIL provides workers' compensation coverage, either on a directly written basis or through reinsurance fronting relationships with commercial carriers for amounts above \$1 million per claim. Coverage of \$500,000 in excess of \$500,000 per claim is reinsured with an unrelated commercial carrier. FIIL also underwrites the property and casualty risks of CHI for up to \$1 million per claim. Unrelated commercial insurance carriers reinsure losses in excess of the per-claim limits.

The liability for self-insured reserves and claims represents the estimated ultimate net cost of all reported and unreported losses incurred through June 30. The reserves for unpaid losses and loss adjustment expenses are estimated using individual case-based valuations, statistical analyses and the expertise of an independent actuary.

The estimates for loss reserves are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid losses and loss adjustment expenses are adequate. The estimates are reviewed periodically, with consultation from independent actuaries, and any adjustments to the loss reserves are reflected in current operations. As a result of these reviews of claims experience, estimated reserves were reduced by \$47.8 million and \$19.3 million in 2012 and 2011, respectively. The reserves for unpaid losses and loss adjustment expenses relating to the workers' compensation program were discounted, assuming a 4% annual return at June 30, 2012 and 2011, to a present value of \$147.1 million and \$148.8 million at June 30, 2012 and 2011, respectively, and represented a discount of \$46.3 million and \$32.2 million in 2012 and 2011, respectively. Reserves related to professional liability, employment practices and general liability are not discounted.

FIIL holds \$722.1 million and \$715.7 million of investments held for insurance purposes as of June 30, 2012 and 2011, respectively. Distribution of amounts from FIIL to CHI are subject to the approval of the Cayman Island Monetary Authority. CHI established a captive management operation (Captive Management Initiatives, Ltd.) based in the Cayman Islands, which currently manages FIIL as well as operations of other unrelated parties.

CHI, through its Welfare Benefit Administration and Development Trust, provides comprehensive health and dental coverage to certain employees and dependents through a self-insured medical plan. Accounts payable and accrued expenses include \$54 million and \$45 million for unpaid claims and claims adjustment expenses for CHI's self-insured medical plan at June 30, 2012 and 2011, respectively. Those estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid losses and loss adjustment expenses are adequate. The estimates are reviewed periodically and, as adjustments to the liability become necessary, such adjustments are reflected in current operations. CHI has stop-loss insurance to cover unusually high costs of care beyond a predetermined annual amount per enrolled participant.

Catholic Health Initiatives Notes to Consolidated Financial Statements (continued)

14. Subsequent Events

CHI's management has evaluated events subsequent to June 30, 2012 through September 18, 2012, which is the date these consolidated financial statements were available to be issued. There have been no material events noted during this period that would either impact the results reflected herein or CHI's results going forward, except as disclosed below.

Alegent Health

Since 1996, CHI and Immanuel have been party to a Joint Operating Agreement in Omaha, operating under the name Alegent Health (Alegent). Effective in June 2012, CHI and Immanuel signed a letter of intent under which Immanuel will resign its membership and governance role in Alegent, leaving CHI as the sole member and sponsor of Alegent. The transaction is expected to close in late 2012.

In April 2012, Alegent also entered into an agreement with Creighton University to form a long-term strategic affiliation and to acquire Creighton University Medical Center (CUMC). Effective in September 2012, Alegent assumed the operations of CUMC's physician group, Creighton Medical Associates. Although CHI is not currently a party to this transaction, it would become one as a result of the June 2012 letter of intent with Immanuel discussed above.

PeaceHealth

In August 2012, CHI signed a nonbinding letter of intent with PeaceHealth, a Catholic health care system, to create a new integrated regional health care system in the states of Washington, Oregon and Alaska. CHI and PeaceHealth would be equal partners in the new health system and would include CHI's operations in the states of Washington and Oregon. The transaction is subject to various approvals and is expected to be completed before June 30, 2013.

Conifer Health Solutions

Effective in fiscal year 2013, CHI entered into an agreement with Tenet Healthcare to become a minority owner of Conifer Health Solutions (Conifer), a provider of revenue cycle and business management services to hospitals, whereby, in exchange for CHI's ownership interest, Conifer will manage the revenue cycle services for most of CHI's hospitals. CHI will be transitioning its revenue cycle and health information management employees to Conifer over the 2013 fiscal year.

1. Required Reserves

Oregon Revised Statutes ORS 101 060 requires that continuing care retirement communities establish and maintain specific service and operating reserves. For the year ended June 30, 2012, the reserves held by Linus Oakes, Inc., the Company's retirement community, were sufficient to meet this requirement.
