Unrelated business income tax is insignificant or nonexistent, and therefore, no tax provision has been made. Management has analyzed tax positions taken by the College and has concluded that as of June 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Line 2 -The College uses an actuarial method to record certain split-interest arrangements. Under this method, the present value of the payments to beneficiaries is estimated based upon life expectancy tables when the gift is received. The present value of those payments is recorded as a liability and the remainder as temporarily restricted net assets. Periodic adjustments are made between the liability and the net assets to record actuarial gains or losses.
