		ACCOUNTS RECEIVABLE AND SB855 AND SB1255
		DISPROPORTIONATE SHARE FUNDS RECEIVABLE, WHICH CONSIST OF AMOUNTS OWED BY VARIOUS GOVERNMENT
		AGENCIES, INSURANCE COMPANIES, AND PRIVATE
		PATIENTS CMC MANAGES THE RECEIVABLES BY
		REGULARLY REVIEWING ITS ACCOUNTS AND CONTRACTS AND BY PROVIDING APPROPRIATE ALLOWANCES FOR
		UNCOLLECTIBLE AMOUNTS CMC PROVIDES FOR
		ESTIMATED LOSSES ON PATIENT ACCOUNTS RECEIVABLE BASED ON PRIOR BAD DEBT EXPERIENCE
		UNCOLLECTIBLE RECEIVABLES ARE CHARGED-OFF WHEN
		DEEMED UNCOLLECTIBLE RECOVERIES FROM PREVIOUSLY CHARGED-OFF ACCOUNTS ARE RECORDED
		WHEN RECEIVED ALLOWANCE FOR DOUBTFUL ACCOUNTS
		- ACCOUNTS RECEIVABLE ARE REDUCED BY AN ALLOWANCE FOR DOUBTFUL ACCOUNTS IN EVALUATING
		THE COLLECTIBILITY OF ACCOUNTS RECEIVABLE, CMC
		ANALYZES ITS PAST HISTORY AND IDENTIFIES TRENDS
		FOR EACH OF ITS MAJOR PAYOR SOURCES OF REVENUE TO ESTIMATE THE APPROPRIATE ALLOWANCE FOR
		DOUBTFUL ACCOUNTS AND PROVISION FOR BAD DEBTS
		MANAGEMENT REGULARLY REVIEWS DATA ABOUT THESE MAJOR PAYOR SOURCES OF REVENUE IN EVALUATING
		THE SUFFICIENCY OF THE ALLOWANCE FOR DOUBTFUL
		ACCOUNTS FOR RECEIVABLES ASSOCIATED WITH SERVICES PROVIDED TO PATIENTS WHO HAVE THIRD-
		PARTY COVERAGE, CMC ANALYZES CONTRACTUALLY DUE
		AMOUNTS AND PROVIDES AN ALLOWANCE FOR DOUBTFUL ACCOUNTS AND A PROVISION FOR BAD DEBTS, IF
		NECESSARY (FOR EXAMPLE, FOR EXPECTED
		UNCOLLECTIBLE DEDUCTIBLES AND COPAYMENTS ON ACCOUNTS FOR WHICH THE THIRD-PARTY PAYOR HAS
		NOT YET PAID, OR FOR PAYORS WHO ARE KNOWN TO BE
		HAVING FINANCIAL DIFFICULTIES THAT MAKE THE REALIZATION OF AMOUNTS DUE UNLIKELY) FOR

REPORT OF INDEPENDENT AUDITORS

The Board of Trustees

Community Hospitals of Central California and Affiliated Corporations dba Community Medical Centers

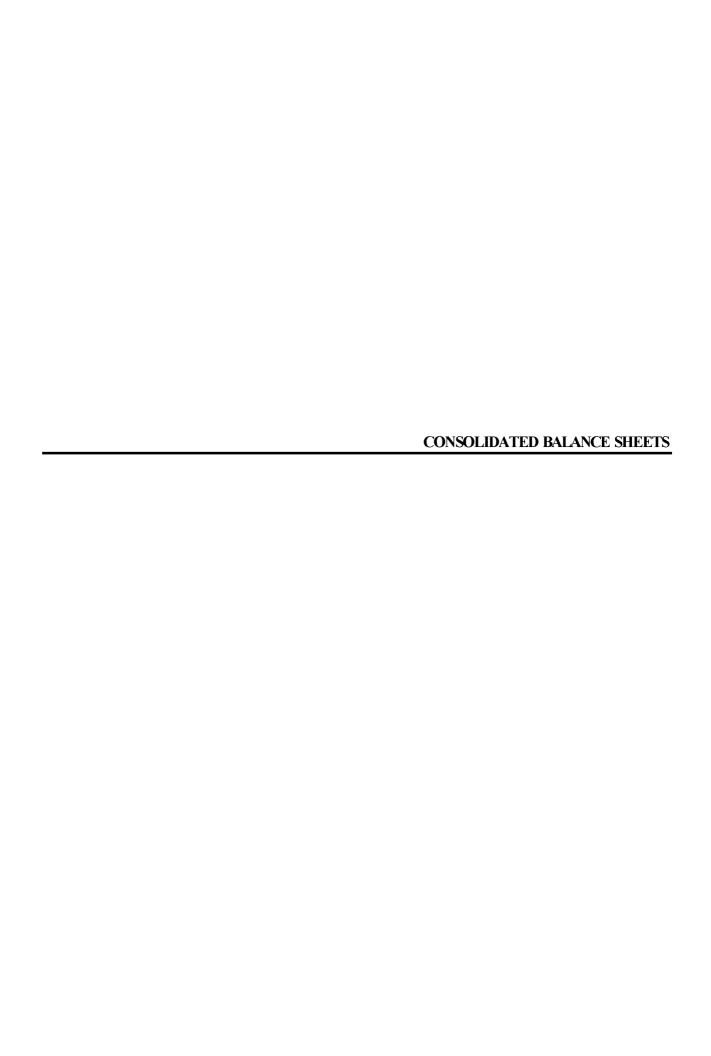

We have audited the accompanying consolidated balance sheets of Community Hospitals of Central California and Affiliated Corporations dba Community Medical Centers (CMC) as of August 31, 2012 and 2011, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of CMC's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CMC's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CMC as of August 31, 2012 and 2011, and the results of their operations, changes in their net assets, and their cash flows for the years then ended, in conformity with generally accepted accounting principles in the United States of America.

NOTE 1 – ORGANIZATION

Community Hospitals of Central California and Affiliated Corporations, dba Community Medical Centers (CMC), is a not-for-profit multifacility integrated healthcare organization located in Fresno, California. CMC has established an Obligated Group to access capital markets. Obligated Group members are jointly and severally liable for the long-term debt outstanding under the Obligated Group's master trust indenture. The Obligated Group members are denoted with an asterisk (*). CMC includes the following consolidated entities:

Acute care services – Acute care services consist of a single corporate entity, Fresno Community Hospital and Medical Center*, which operates as two general acute care hospitals that provide a full range of medical, surgical, intensive care, emergency room, burn and trauma, and obstetric services. These facilities also offer home health, psychiatric, rehabilitation, and a variety of other services. The acute care hospitals are:

- Community Regional Medical Center (CRMC)
- Clovis Community Medical Center (CCMC)

Effective October 1, 2009, Fresno Community Hospital and Medical Center exchanged its 80.9% interest in Advanced Medical Imaging (AMI) and its 19.1% interest in California Imaging Institute (CII) for a 50% interest in a new medical imaging company formed from the merger of AMI and CII. The newly formed company, CII LLC, operates two freestanding outpatient imaging centers that provide comprehensive imaging services. It is owned in partnership with certain radiology physicians. Fresno Community Hospital and Medical Center accounts for this investment using the equity method.

Corporate activities – Corporate activities consist of centralized shared services, real estate activities, and retail pharmacy operations.

- Community Hospitals of Central California* (CHCC)
- Community Health Enterprises (CHE)

Fresno Heart and Surgical Hospital* – The Fresno Heart and Surgical Hospital provides cardiac-related services and bariatric and other minimally invasive surgeries.

Deran Koligian Ambulatory Care Center – Deran Koligian Ambulatory Care Center, LLC (DKACC) is a nonprofit single member LLC, whose sole member is Fresno Community Hospital and Medical Center. DKACC completed construction of an ambulatory care clinic building on the CRMC campus during 2010, which is leased to CRMC.

Community Insurance Services Company – Effective September 1, 2009, CMC formed Community Insurance Services Company (CISC), which is a wholly owned captive insurance company that maintains professional and general liability coverage.

NOTE 1 – ORGANIZATION (CONTINUED)

Physician management services – Physician management services consist of Santé Health System (Santé), which is a management service organization (MSO) providing independent physician association and physician practice management services. In October 2010, CHCC sold 50% of its interest in Santé to two physician groups for \$2,480,000. Prior to the sale, Santé distributed \$10,000,000 to CHCC. The distribution decreased Santé's net assets from \$15,167,000 to \$5,167,000. CMC recognized a \$103,000 loss in the consolidated financial statements from this transaction in 2011. CMC accounts for the investment in Santé using the equity method.

Development activities – Development activities consist of a single corporate entity, Community Hospitals of Central California Foundation, which conducts fund-raising activities for the not-for-profit organizations within the health system.

Obligated group members – Obligated Group members are the parent corporations of certain consolidated entities that are not Obligated Group members. Accounting principles generally accepted in the United States of America (U.S. GAAP) require consolidation of all controlled subordinate corporations. Accordingly, the consolidated financial statements of CMC are the same as the Obligated Group financial statements under U.S. GAAP.

NOTE 2 – AGREEMENT WITH THE COUNTY OF FRESNO

Effective October 7, 1996, CMC, through one of its affiliates (Fresno Community Hospital and Medical Center), entered into a series of agreements (the Transaction Agreements) with the County of Fresno (the County). The Transaction Agreements were amended in 1998 and again in 2003 related to a University Medical Center (UMC) lease. The principal ongoing provisions of the Transaction Agreements are as follows:

• CMC is required to provide comprehensive medical care to certain classes of indigent persons and inmates within the County for a period of 30 years in return for certain payments. Payments received under this agreement totaled approximately \$20,724,000 and \$20,143,000 for the years ended August 31, 2012 and 2011, respectively.

As security for CMC's performance under the terms of the Transaction Agreements, the County was granted a first-priority lien on CCMC and an adjoining medical office building. In addition, during the 30-year period commencing October 7, 1996, (a) the County is entitled to nominate 27% of the members of CMC's (and certain of its affiliates') board of trustees and related subcommittees and (b) CMC and its affiliates are precluded, with certain specified exceptions, from making any net asset transfers outside of CMC.

Basis of consolidation – The consolidated financial statements include the accounts of CMC and affiliates as listed under Organization in Note 1. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of estimates — The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and equivalents — Cash and equivalents include all highly liquid investments with an original maturity of three months or less when purchased. Cash and equivalents purchased by CMC's investment managers as part of their investment strategies are included in assets limited as to use and short-term investments. CMC regularly maintains balances in depository accounts in excess of the FDIC insurance limit.

Accounts receivable – CMC's primary concentration of credit risk is patient accounts receivable and SB855 and SB1255 disproportionate share funds receivable, which consist of amounts owed by various government agencies, insurance companies, and private patients. CMC manages the receivables by regularly reviewing its accounts and contracts and by providing appropriate allowances for uncollectible amounts. CMC provides for estimated losses on patient accounts receivable based on prior bad debt experience. Uncollectible receivables are charged-off when deemed uncollectible. Recoveries from previously charged-off accounts are recorded when received. The mix of receivables from third-party payors and patients at August 31, 2012 and 2011, is as follows:

	2012	2011
Medicare Medi-Cal and managed Medi-Cal	17% 29%	15% 28%
Contracted rate payors	44%	49%
Commercial insurance and other payors	10%	8%
Total	100%	100%

Allow ance for doubtful accounts - Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, CMC analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, CMC analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients and non-contracted insurance (which includes both patients without insurance and patients with deductible and copayment balances due for which thirdparty coverage exists for part of the bill), CMC records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allowance for doubtful accounts (continued) – CMC's allowance for doubtful accounts for self-pay patients decreased from 83.7 percent of self-pay accounts receivable at August 31, 2011, to 82.7 percent of self-pay accounts receivable at August 31, 2012. In addition, CMC's self-pay write-offs increased \$8,100,000 from \$105,800,000 for fiscal year 2011 to \$113,900,000 for fiscal year 2012. Increased write-offs were the result of increased gross revenue of 6.2 percent in fiscal year 2012. CMC has not changed its charity care or uninsured discount policies during fiscal years 2011 or 2012. CMC maintained allowances for doubtful accounts from third-party payors of \$8,300,000 in fiscal year 2011 and \$9,200,000 in fiscal year 2012.

Inventories – Inventories are stated at the lower of cost, determined by the first-in, first-out method, or market.

Assets limited as to use and short-term investments — Assets limited as to use consist principally of corporate debt securities, equity securities, and U.S. government and agency securities, all of which are available for sale and carried at fair market value. The fair values for these investments are based on quoted market prices. Investments also include repurchase agreements. Certain marketable securities are designated as assets held in trust. These include assets held by trustees in accordance with the indentures relating to long-term debt. In addition, certain investments are set aside by the board of trustees for future capital improvements.

Investment income is included in the excess of revenues, gains, and other support over expenses unless the income is restricted by donor or law.

For investments purchased prior to September 1, 2008, unrealized gains and losses on investments are excluded from the excess of revenues, gains, and other support over expenses unless the investments are trading securities, or an unrealized loss is determined to be other than temporary for any security that is available for sale. Management routinely evaluates its investments in marketable securities for other than temporary impairment.

CMC has elected to report investments in debt and equity securities purchased on or after September 1, 2008 under Accounting Standards Codification (ASC) 825, *Financial Instruments*, such that unrealized gains and losses on such securities are included in the excess of revenues, gains, and other support over expenses unless the income is restricted by donor or law.

CMC has discretion to establish policies regarding which portion of assets limited as to use is classified as short-term investments. The amount classified as short-term investments consists of available cash held in investment accounts, money markets balances, and highly liquid investment securities with an original maturity of three months or less.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant, and equipment – Property, plant, and equipment are stated at cost, or in the case of donated items, at fair market value at the date of donation. Routine maintenance and repairs are charged to expense as incurred. Expenditures that increase values, change capacities, or extend useful lives are capitalized, as is interest for significant construction projects. In 2012 and 2011, \$11,440,000 and \$10,783,000, respectively, of net interest expense was capitalized for construction projects.

Depreciation is computed by the straight-line method over the estimated useful lives of the assets, which range from 10 to 25 years for land improvements, 5 to 40 years for buildings and improvements and an average of 8 years for equipment.

CMC's management regularly reviews long-lived assets for indications of impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Management estimates the fair value of legal asset retirement obligations that are conditional on a future event if the amount can be reasonably estimated, in accordance with Financial Accounting Standards Board (FASB). Estimates are developed through the identification of applicable legal requirements, identification of specific conditions requiring incremental cost at time of asset disposal, estimation of costs to remediate conditions, and estimation of remaining useful lives or date of asset disposal.

Self-insurance and other benefit plans — CMC is self-insured for workers' compensation claims and maintains a self-insured medical, dental, and vision care plan as an option for its employees. Claims are accrued under these plans as the incidents that give rise to them occur. Unpaid claim accruals are based on the actuarially estimated ultimate cost of settlement, including claim settlement expenses. CMC has reinsurance arrangements with insurance companies to limit its losses on claims for medical and workers' compensation expenses. The portion not expected to be paid within one year is included within other long-term obligations. As of August 31, 2012, CMC has a claims liability of \$55,033,000 and a corresponding insurance recovery receivable of \$3,648,000 for medical and workers compensation claims that are insured by a third party excess loss policy. The claims liability is classified in other accrued liabilities and long-term obligations and the insurance recovery receivable is classified in prepaids and other assets, respectively, in the accompanying balance sheet.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Professional liability insurance – As of September 1, 2009, CMC formed a wholly owned captive insurance company called Community Insurance Services Company (CISC). CISC has issued claims-made policies to insure the medical and general liability risks of CMC's affiliates. CISC retains \$2,000,000 for each and every loss and reinsures \$118,000,000 with third-party reinsurers. As of August 31, 2012 and 2011, CMC had recorded estimated liabilities for claims incurred and reported of \$7,041,000 and \$6,596,000, respectively. These amounts are included within current liabilities in the accompanying consolidated balance sheets.

Should the reinsurance policies not be renewed or replaced with equivalent insurance, claims related to occurrences during the term of the claims-made policy but reported subsequent to its termination may be uninsured. Liabilities of \$3,049,000 and \$2,997,000 have been recorded for the actuarially estimated incurred but not reported liability that is not covered by third-party insurance at August 31, 2012 and 2011, respectively. These liabilities are included within other long-term obligations in the accompanying consolidated balance sheets.

Income taxes — Most entities included in CMC are exempt from taxation under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code and are generally not subject to federal or state income taxes. However, the exempt organizations are subject to income taxes on any net income that is derived from a trade or business, regularly carried on, and not in furtherance of the purposes for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, is not material to the basic financial statements taken as a whole. CMC includes entities that are subject to income taxes; however, such income tax activities are not significant to the consolidated financial statements.

Donor gifts – Unconditional promises to give cash and other assets to CMC are reported at fair market value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair market value at the date the gift is received and any conditions are substantially met. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, restricted net assets are reclassified as unrestricted net assets.

Fair value of financial instruments – Unless otherwise indicated, the fair value of all reported assets and liabilities, which represent financial instruments, approximate their carrying values. CMC's policy is to recognize transfers in and transfers out of Levels 1 and 2 as of the end of the reporting period.

Excess of revenues, gains and other support over expenses – Excess of revenues, gains, and other support over expenses reflected in the accompanying consolidated statements of operations includes all changes in unrestricted net assets other than changes in unrealized gains on certain marketable securities, net assets released from restrictions for equipment acquisition, and changes in pension benefit obligation.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New accounting pronouncements – In April 2009, the FASB issued SFAS No. 164, *Not-for-Profit Entities Mergers and Acquisitions*, including an amendment of FASB Statement No. 142, as codified by Accounting Standards Update (ASU) 2010-07. This statement provides guidance on accounting for a combination of not-for-profit entities and applies to a combination that meets the definition of either a merger of not-for-profit entities or an acquisition by a not-for-profit entity. The provision establishes principles and requirements for how a not-for-profit entity (a) determines whether a combination is a merger or an acquisition, (b) applies the carryover method in accounting for a merger, (c) applies the acquisition method in accounting for an acquisition, and (d) determines what information to disclose with respect to the nature and financial effects of a merger or acquisition.

This statement also amends both ASC 350, *Intangibles-Goodwill and Other*, and ASC 810, *Noncontrolling Interest* The provisions of ASU 2010-07 are to be applied prospectively and are effective for CMC in the fiscal year ended August 31, 2011 for mergers and acquisitions. Pursuant to ASU 2010-07, CMC has discontinued the amortization of goodwill during the fiscal year ended August 31, 2011.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which amended ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), to require new disclosures related to transfers in and out of Level 1 and Level 2 fair value measurements, including the reasons for the transfers and to require new disclosures related to activity in Level 3 fair value measurements. In addition, ASU 2010-06 clarifies existing disclosure related to the level of disaggregation of classes of assets and liabilities and provides further detail about inputs and valuation techniques used for fair value measurement. CMC adopted ASU 2010-06 in the fiscal year ended August 31, 2011 (Note 5).

In August 2010, the FASB issued ASU 2010-23, *Health Care Entities (Topic 954)*. *Measuring Charity Care for Disclosure* (ASU 2010-23), which requires that cost be used as a measurement for charity care disclosure purposes and that cost be identified as the direct and indirect costs of providing charity care. It also requires disclosure of the method used to identify or determine such costs. CMC is required to adopt ASU 2010-23 in the fiscal year ended August 31, 2012. The adoption of ASU 2010-23 did not have a material impact on its consolidated financial statements.

In August 2010, the FASB issued ASU 2010-24, *Health Care Entities (Topic 954)*. *Presentation of Insurance Claims and Related Insurance Recoveries (*ASU 2010-24), which clarifies that a health care entity should not net insurance recoveries against a related claim liability. Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries. CMC has adopted ASU 2010-24 in the fiscal year ended August 31, 2012.

In July 2011, the FASB issued 2011-07, Health Care Entities (Topic 954). Presentation and Disclosure of Patient Service Revenue. Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities (ASU 2011-07), which requires health care entities that recognize significant amounts of patient service revenue at the time the services are rendered even though they do not assess the patient's ability to pay to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) on their statement of operations. CMC adopted ASU 2011-07 in the fiscal year ended August 31, 2012.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reclassifications – Certain amounts in the 2011 financial statements have been reclassified to conform to the 2012 presentation.

Subsequent events – Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. CMC recognizes in the consolidated financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the consolidated balance sheet, including the estimates inherent in the process of preparing the consolidated financial statements. CMC's consolidated financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the consolidated balance sheet but arose after the balance sheet date and before the consolidated financial statements are issued. CMC has evaluated subsequent events through November 21, 2012, which is the date the consolidated financial statements are issued.

NOTE 4 - NET PATIENT SERVICE AND PREMIUM REVENUES

Net patient service revenues – Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated settlements under third-party reimbursement agreements are accrued in the period in which the related services are rendered and adjusted in future periods, based on updated information and as a result of final settlements.

Gross patient charges comprise usual and customary charges for services provided to all patients. The composition of consolidated gross patient charges by major payor group as of the years ended August 31, 2012 and 2011, is as follows:

	2012	2011		
Medicare	29%	26%		
Medı-Cal and managed Medı-Cal	33%	33%		
Contracted rate payors	26%	30%		
Commercial insurance and other payors	5%	5%		
Medically Indigent Services Program (MISP)	7%	6%		
Total	100%	100%		

NOTE 4 - NET PATIENT SERVICE AND PREMIUM REVENUES (CONTINUED)

CMC has agreements with third-party payors that provide for payments to CMC at amounts different from its established rates. A summary of the payment arrangements with major third-party payors is as follows:

Medicare – Inpatient acute care services, skilled nursing services, rehabilitation services, and certain outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per diagnosis. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Certain inpatient nonacute services and medical education costs related to Medicare beneficiaries are paid based on a cost-based reimbursement methodology. Professional services are reimbursed based on a fee schedule.

Medi-Cal – Inpatient and outpatient services rendered to Medi-Cal program beneficiaries are reimbursed primarily under contracted rates. Additionally, CMC is allocated certain funds available from a pool of State of California funds for disproportionate share hospital services under the SB855 and SB1255/Private Hospital Fund programs based upon an annual determination for eligibility. Revenues under the SB855 program and SB1255/Private Hospital Fund totaled \$32,357,000 and \$10,667,000, respectively, for the year ended August 31, 2012 and \$37,085,000 and \$9,333,000, respectively, for the year ended August 31, 2012 and 2011, CMC recorded receivables of \$13,722,000 and \$9,947,000, respectively, for amounts due from the State of California for SB855, SB1255, and other programs.

Cost reports filed under the Medicare and Medi-Cal programs for services based on cost reimbursement are subject to audit. The estimated amounts due to or from the programs are reviewed and adjusted annually based on the status of such audits and any subsequent appeals. Differences between final settlements and amounts accrued in previous years are reported as adjustments to net revenue in the year in which the examination is completed. Net patient service revenue increased \$3,365,000 and decreased \$3,039,000 in 2012 and 2011, respectively, related to updates of prior years' cost report reserves and increased by \$14,082,000 and \$3,202,000, respectively, related to successful appeals of prior years' cost report settlements.

Other – CMC has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations (HMOs), and preferred provider organizations. The basis for payment to CMC under these agreements includes prospectively determined rates per diagnosis, discounts from established charges, and prospectively determined daily rates. CMC also receives State of California funds pursuant to Proposition 99.

Premium revenue – CMC has an agreement with an independent physician association (IPA) to provide medical services to certain IPA members. Under this agreement, CMC receives monthly capitation payments and recognizes as revenue during the period regardless of services actually performed by CMC.

Charity care – Healthcare services are provided to patients who meet certain criteria under CMC's charity care policies without charge or at amounts less than established rates. Traditional charity care covers services provided to persons who meet certain criteria and cannot afford to pay. Unpaid costs of charity are the estimated costs of services provided to such patients. The estimated cost of providing these services was \$9,198,000 and \$12,550,000 for the years ended August 31, 2012 and 2011, respectively, calculated by multiplying the ratio of cost to gross charges for CMC by the gross uncompensated charges associated with providing charity care to its patients.

NOTE 4 - NET PATIENT SERVICE AND PREMIUM REVENUES (CONTINUED)

Hospital fee program - In November 2009, the California Hospital Fee Program (the Program) was signed into California state law. The Program provides supplemental Medi-Cal payments to certain California hospitals. The Program is funded by a quality assurance fee (the Fee) paid by participating hospitals and by matching federal funds. Hospitals receive supplemental payments from either the California Department of Health Care Services (DHCS), managed care plans or a combination of both. The Program was administered in two parts. The first part (Part One), created by Assembly Bill 1653 (signed into law in September 2010), covers the period beginning April 1, 2009 through December 31, 2010. The second part (Part Two), created by Senate Bill 90 (signed into law in March 2011), covers the period beginning January 1, 2011 through June 30, 2011. Part One became effective in fiscal year 2011 after approval from the Centers for Medicare and Medicaid Services (CMS). CMC recognized \$117,598,000 in net patient service revenue and \$62,286,000 in expense for the year ended August 31, 2011. Additionally, the California Hospital Association created a private program, the California Health Foundation and Trust (CHFT), established for several purposes, including aggregating and distributing financial resources to support charitable activities at various hospital and health systems in California. A pledge agreement was executed during the fiscal year ended August 31, 2010 between CMC and CHFT whereby CMC paid \$4,263,000 prior to August 31, 2011 into a grant fund established by CHFT, pending approval of the legislation noted above.

Part Two of the Program had not received final approval from CMS as of August 31, 2011. CMC paid \$22,178,000 in 2011 for Part Two of the Program, and recorded this as a prepaid expense at August 31, 2011. CMC received supplemental payments for Part Two of \$38,394,000 in 2011. As the program was not yet legally effective in 2011, these revenues were deferred and recorded as a part of other current liabilities at August 31, 2011. Final approval by CMS occurred on December 29, 2011. CMC recognized \$48,187,000 in net patient service revenue and \$22,351,000 in expense for the year ended August 31, 2012 relating to Part Two of the Program.

California subsequently enacted a thirty-month quality assurance fee program (30 month Program) for the period July 1, 2011 through December 31, 2013. Final approval by CMS for the fee for service portion of this program occurred on June 22, 2012. For the fee for service portion for the year ended August 31, 2012, estimated supplemental payments for the period July 1, 2011 through August 31, 2012 of \$90,878,000 are included in net patient service revenue, and estimated fees and pledges for this same time period of \$52,607,000 are included in other expenses. At August 31, 2012, CMC has a receivable of \$72,747,000 and a liability of \$36,364,000 relating to the 30 month Program. The managed care portion of this program has not received final approval from CMS and is not yet effective as of August 31, 2012. As the managed care portion of the 30 month Program has not been final approved, CMC has not recorded any activity relating to the managed care portion at August 31, 2012.

NOTE 5 – ASSETS LIMITED AS TO USE

Assets limited as to use include marketable securities that are carried at fair value, based on quoted market prices. Pledges receivable are carried at net realizable value. The composition of assets limited as to use at August 31, 2012 and 2011, is as follows (in thousands):

During 2012 and 2011, CMC incurred impairment charges of \$63,000 and \$400,000, respectively, to recognize unrealized losses that were deemed to be other-than-temporary.

CMC adopted ASC 820, Fair Value Measurements and Disclosure, on September 1, 2008 for fair value measurements of financial assets and liabilities. ASC 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that CMC has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are inputs that are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement entirely falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

NOTE 8 – LONG-TERM DEBT (CONTINUED)

Under the terms of the master trust indenture associated with the certificates of participation, certain members of CMC are designated as members of the Obligated Group. There are restrictive covenants requiring compliance by the Obligated Group. These include, among other things, limitations on the issuance of additional debt and the maintenance of certain financial ratios.

In 2009, DKACC borrowed \$25,589,000 to finance the acquisition and construction of certain facilities and equipment under a financing structured to qualify for New Markets Tax Credits. The New Markets Tax Credits program is administered by the Federal government and provides tax incentives for the benefit of low-income communities. In order to comply with this program, affiliates of CMC's underwriter formed a group of entities (the Lenders), which were capitalized by \$7,500,000 from an affiliate of the underwriter and by an \$18,844,000 loan from CMC. This resulted in the Lenders accumulating funds totaling \$25,589,000, which were then loaned to DKACC. The Obligated Group has guaranteed DKACC's repayment obligations under this borrowing, which has a final maturity of January 20, 2038, but such guaranty is not secured by an Obligation issued under the Master Indenture. Additionally, the Obligated Group has a limited guaranty, up to \$10,000,000 over 7 years, related to the Lenders' realization of tax credits available under the New Markets Tax Credit program. The Obligated Group does not currently expect to make any payments under these guarantees.

Scheduled principal repayments on long-term debt and payments on capital lease obligations by fiscal year are as follows (in thousands):

	L	Long-term debt	
2013	\$	11,726	
2014		10,759	
2015		7,861	
2016		8,253

Thereafter		485,302	
Add net unamortized bond premium		532,536 4,950	
	\$	537,486	

The aggregate estimated fair value of CMC's long-term obligations at August 31, 2012 and 2011, of \$485,473,000 and \$458,551,000, respectively, were estimated using discounted cash flow analyses based on CMC's current incremental borrowing rates for similar debt instruments.

NOTE 9 – LINE OF CREDIT

CMC has a credit agreement with a bank that allows CMC to borrow up to \$40,000,000. Under this agreement, credit card borrowings are interest-free and due monthly. All other borrowings bear interest on a LIBOR base. Amounts applied for letter of credit agreements totaled \$4,800,000 on August 31, 2012 and 2011. Outstanding credit card borrowings were \$3,489,000 and \$2,806,000 on August 31, 2012 and 2011, respectively. There were no LIBOR-based borrowings as of these dates. A note securing the line of credit has been issued under the master trust indenture. The agreement expires on April 30, 2013.

NOTE 10 - PENSION PLAN

CMC maintains a contributory defined benefit cash balance pension plan that covers substantially all employees upon their retirement. Benefit payments for participants in the plan are determined by application of a benefit formula to the average base earnings of participants. In addition to normal retirement benefits, under certain circumstances, the plan also provides early retirement, disability, death, and spousal benefits. Employees of CMC become eligible to participate in the plan on January 1 or July 1 following the completion of 1,000 hours and one year of service. The vesting period is three years.

Mandatory contributions are made to the plan by the employees as specified in the plan documents. Total employee contributions to the plan for the years ending August 31, 2012 and 2011, were \$4,711,000 and \$4,357,000, respectively. Total employer contributions to the plan for the years ending August 31, 2012 and 2011 were \$14,000,000 and \$13,000,000, respectively. Total benefits paid for the years ending August 31, 2012 and 2011, were \$10,012,000 and \$8,375,000, respectively. The unfunded status is presented as a noncurrent liability in the accompanying consolidated balance sheets.

The estimated net loss and prior service cost that will be amortized into net period pension cost during the 2013 fiscal year are \$3,175,000 and \$55,000, respectively.

CMC's pension plan asset allocations at August 31, 2012 and 2011, by asset category are as follows:

	2012	2011
Cash and equivalents	6%	9%
Debt securities	35%	32%
Equity securities	59%	59%
	100%	100%

The asset allocation policy for the pension plan is as follows: fixed income securities 30% to 60% (which may include U.S. government securities and U.S. government agency bonds, corporate notes and bonds, mortgage-backed bonds, preferred stock and the fixed income securities of foreign governments and corporations); equity securities 30% to 60% (which may include domestic common stock, convertible notes and bonds, convertible preferred stocks, foreign equity securities); and mutual funds and limited liability companies or partnerships that invest in allowed securities as defined above.

CMC's investment strategy for pension plan assets is designed to emphasize long-term growth of principal while avoiding excessive risk. The investment performance of the total portfolio, as well as asset class components, is measured against commonly accepted performance benchmarks.

The expected long-term rate of return on plan assets is the expected average rate of return on the funds invested currently and on funds to be invested in the future in order to provide for the benefits included in the projected benefit obligation. The CMC pension plan used 7.5% in calculating the 2012 and 2011 expense amounts. This assumption is based on capital market assumptions and the plan's target asset allocation. CMC continues to monitor the expected long-term rate of return if changes in those parameters cause 7.5% to be outside of a reasonable range of expected returns, or if actual plan returns over an extended period of time suggest general market assumptions are not representative of expected plan results.

Total operating lease expense in 2012 and 2011 was \$10,373,000 and \$12,466,000, respectively.

NOTE 14 – COMMITMENTS AND CONTINGENCIES

Clovis Community Medical Center expansion – As of August 31, 2012, approximately \$217,100,000 is recorded in construction in progress for the CCMC expansion project. In November 2012, CMC expects to place a large portion of the project in service. The Gross Maximum Price (GMP) for the construction portion of the project is \$203,900,000. A total of \$164,100,000 has been paid to the general contractor as of August 31, 2012, with the remaining \$39,800,000 expected to be paid in full shortly after the completion date of the project in December 2013.

NOTE 14 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Claims and regulatory environment – CMC is involved in various claims and litigation, as both plaintiff and defendant, arising in the ordinary course of business. The healthcare industry is subjected to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Government activity remains at a high level with respect to investigations and allegations across the nation concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

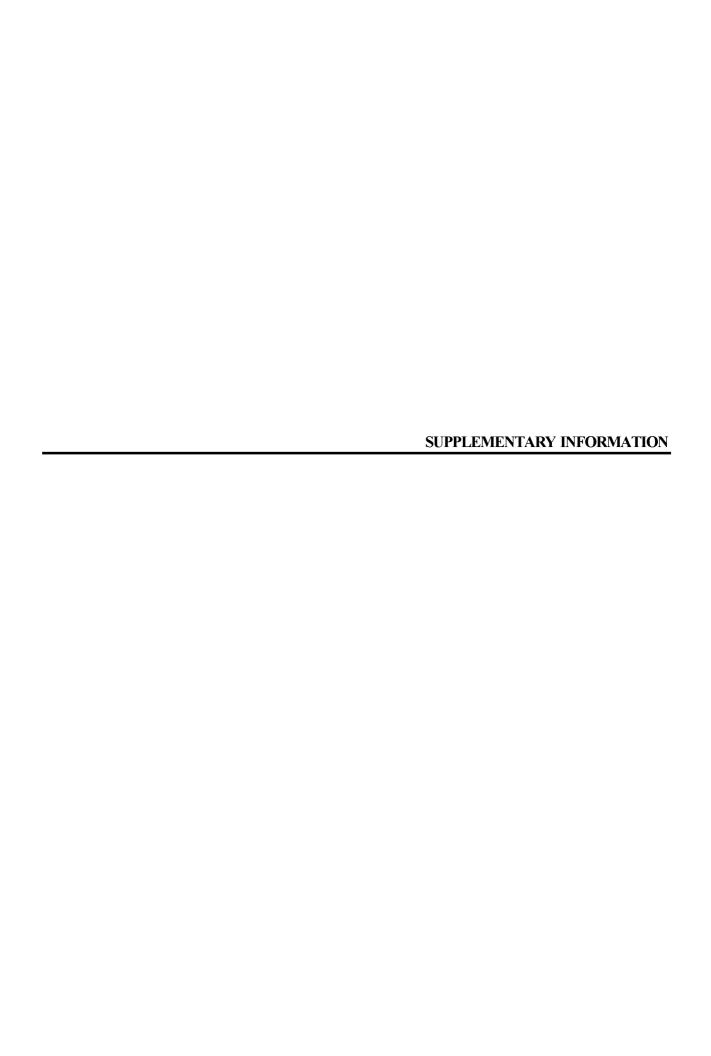

In July 2012, CRMC received a letter from the Department of Health and Human Services/Office of Inspector General/Office of Audit Services to begin a hospital compliance review. The review is going on at hospitals nationwide, and focuses on known areas of noncompliance identified in past Office of the Inspector General (OIG) reviews nationally.

The OIG conducted an onsite review in September/October of 2012, the final results of which have not been received by CMC. Based on preliminary findings, CMC estimates that approximately \$1,100,000 in overpayments has occurred and has recorded a corresponding liability at August 2012 to reflect a repayment obligation. The individual repayments have been submitted to CMS through the re-bill process. This total repayment was recorded as a reduction of net patient service revenue. CMC management believes that the repayment estimate is reasonable and that any further adjustments based on the conclusion of the OIG review would not have a material effect on the financial position or results of operations of CMC.

CCMC has begun a self-audit to identify potential noncompliance in the areas identified in the CRMC review by OIG. Management estimates a payment return to CMS of approximately \$242,000. These repayments are in the process of being submitted to CMS through the re-bill process. Items which are not in the timely filling periods will have a check issued to CMS with a letter and appropriate documentation.

In March 2010, President Obama signed the Health Care Reform Legislation into law. The new law will result in sweeping changes across the health care industry. The primary goal of this comprehensive legislation is to extend coverage to approximately 32 million uninsured legal U.S. residents through a combination of public program expansion and private sector health insurance reforms. To fund the expansion of insurance coverage, the legislation contains measures designed to promote quality and cost efficiency in health care delivery and to generate budgetary savings in the Medicare and Medicaid programs. CMC is unable to predict the full impact of the Health Care Reform Legislation at this time due to the law's complexity and current lack of implementing regulations or interpretive guidance. However, CMC expects that provisions of the Health Care Reform Legislation, should it remain in effect in substantially its current form, will have a material effect on its business.

Pledges to Medical Foundation – CMC has made significant pledges to the Santé Medical Foundation to support its efforts to recruit needed specialists and primary care physicians to the Fresno area as well as its efforts to install electronic health record systems in local physician offices. Pledges of \$8,815,000 and \$1,900,000, and pledge payments of \$1,909,000 and \$0 were made in 2012 and 2011, respectively.
