HOPE TECHNOLOGY SCHOOL:

Encouraged by the success of its Education Lab, Erudite Technology Group began work in 2000 to develop a full-inclusion model elementary school for children with and without special needs, capitalizing on best practices in education and technology. Work to develop the school continued in 2001 and culminated in its official opening in September 2001. Part I Summary

Line 1 Briefly describe the organization's mission or most significant activities

In the 21st Century, access to and an understanding of technology will be critical for everyone in our society. However, many disadvantaged and needy children and adults do not have access to technology. Erudite Technology Group dba Hope Technology Group ("HTG") wants to help narrow this technology gap. HTG was organized to give the disadvantaged and needy access to technology.

To accomplish this, HTG will open a private school with the mission of providing an exceptional learning experience for typical and special needs children in a full inclusion, technology rich environment. The full inclusion program will be composed of highly qualified teachers and therapists, who together with parents create the perfect team for each child's development. The small class sizes and low student-to-teacher ratios benefit our students by providing individualized and small group instruction. We will work to identify and build on each child's strengths and help children overcome their weaknesses. Our goal and ambition is to allow each student to become a successful part of the community.
