Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 12c	During the new board member orientation, the policy is fully explained by the President and attorney. The board member understands that it is important to follow the policy at all times during his or her term on the board. It is made clear that if any conflict arises, that the policy is in effect and should be followed. This is also re-emphasized annually when the policy is signed on a yearly basis. In addition to the Conflict of Interest Policy, the organization has a questionnaire that all employees must fill out annually to determine whether they have a real or potential conflict of interest. If any potential conflicts are learned about through this or any other method, they are reviewed by the Executive Staff member for that division, and ultimately by the President/CEO. The CEO has the ultimate responsibility for determining whether or not a conflict exists and he or she, in conjunction with the Senior Vice President for Human Resources of PathStone and the Executive Staff member for that employee's division, will determine the course of action necessary. PathStone Corporation also has an Asset Management Committee which must review any purchases or contracts that are more than \$5,000. Any potential conflicts are taken into consideration before approving these purchases and contracts.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 15	The wages and benefits of all top management employees are determined by the personnel committee of PathStone Corporation, as part of its ongoing wage comparative studies and benefit budgeting process. The process includes independent review, comparability data, and deliberation by a compensation committee. PathStone utilizes a salary scale to determine the salary of each employee. Job descriptions are evaluated based on a 17 point rating system. The number of points corresponding to each job description determines which of 11 salary groups the job falls into. Within each salary group, there is a base salary and then a range is available to accommodate employees who have more experience, education, skills, etc. than are required for that position. Before hiring an employee, the hiring manager sends a request for offer letter to Human Resources. With this request, a salary range justification form is sent if the salary is to be above the base. The Executive Staff member for that Division reviews and approves the request, then forwards it to Human Resources for final approval. Human Resources reviews the request for offer and the salary range request to determine if the steps are warranted, and sends out an offer letter if the request is approved. Periodically, the salary scale is reviewed. There have been times when the entire scale has been revised, and other times when salaries for specific positions have been adjusted by resolution from the Board of Directors. Most recently, a review of the salary scale was conducted as follows: a) PathStone engaged the services of an independent company, Astron Solutions, to conduct a wage comparability study. b) Astron Solutions used data from non-profit companies of similar size and industry, and adjusted for location where necessary. c) The current salary scale for PathStone was reviewed by Astron Solutions in late 2008 and into 2009 to determine market comparability. Reports were made to PathStone Executive Staff and Board of Directors. Recommendations were made for making revisions to the salary system, however existing salaries were found to be within range of the market. The recommendations are being phased in during 2010 and 2011. d) PathStone provided Astron Solutions with job descriptions representing various salary levels and positions throughout the organization. 8 data sources were used for the comparison. Salary survey data for non-profit organizations in the benchmark position's specific location, with a similar size to PathStone, were selected as a first priority for use. Additionally, real estate industry data were included for those benchmark positions with a specific real estate focus. Matches to the salary surveys were based on job duties and experience requirements as described in PathStone's job descriptions, not job titles. If local pay data was not available, national salary survey data for the selected data cuts were utilized and factored for the job specific location. Once the market rates were determined for each of the benchmark positions, an analysis of all PathStone employees was performed to determine whether actual salaries fell within an acceptable range of the market rate.
