| | Fait VI - Additional Information | While there is growing agreement in the United States about what constitutes a non-profit hospital's 'community benefit', this is a work in progress. The organization provided significant charity care and other community benefits as defined by the IRS. But in addition, we believe that we provide a critically important community benefit, which is not quantified. Our hospital, like most hospitals, was created and is maintained in order to provide care locally-care that without our hospital, would not be available locally. |

| | System Roles and Promotion | The organization is part of an affiliated health care system called Ministry Health Care, Inc. The mission of Ministry as a Catholic health care system is to further the healing ministry of Jesus by continually improving the health and well being of all people, especially the poor, in the communities served. Ministry supports such non-hospital facilities as the Agape Community Center. As a community center, it has the unique advantage of welcoming youth, adults, families and seniors into the facility through a broad range of educational, social, recreational, cultural, health and life-long learning opportunities in an impoverished portion of Milwaukee. Our Catholic Identity expects leaders to initiate and support efforts to reach out to the poor and vulnerable people, especially where no one else wants to go. Health care can become very bureaucratic and burdened with oversight of finances, regulatory requirements and strategic planning. Our focus on these issues may cause us to lose touch with those for whom we have a primary responsibility-those who are poor and vulnerable. Tithing of time allows us to look into the face of the poor, hear the voice of the poor, and help us better understand the daily challenges and barriers they face. As an affiliated health system, all leaders with direct reports are required to provide service to the poor. This also includes physician leaders and hourly supervisory staff. The organization has a foundation which is not included within the operations of the organization. The foundation provides programs and cash donations which help support the mission of the organization and the affiliated health care system. |

| | Activities | Community-building activities include programs that, while not directly related to health care, provide opportunities to address the root causes of health problems, such as poverty, homelessness, and environmental problems. These activities support community assets by offering the expertise and resources of the organization. Costs for these activities include cash, in-kind donations, and expenditures for the development of a variety of community health programs and partnerships. St. Michaels Hospital is involved in suicide prevention working in conjunction with Portage County and participates in other community efforts such as the HIV/AIDS Ministry project, the Hunger Prevention Coalition, Elder abuse education/prevention and a support group at Oakridge Senior Center. MANY EMPLOYEES ALSO VOLUNTEER IN THE COMMUNITY FOR PROGRAMS INCLUDING MEDICAL MISSION TRIPS, MEALS ON WHEELS, HABITAT FOR HUMANITY, OPERATION BOOTSTRAP, AMONG OTHERS |

| | | The organization performs community needs assessments as needed Planning workgroups consisting of community partners are formed to define the community and its needs through review of Health People Initiatives, census documents, and local government health and welfare agencies. Considering other community resources/assets, data collection methods are used to identify particular problems or subgroups and areas known to have high poverty rates and to be underserved. The data is analyzed and priorities are set based on trending information which may target a specific need. When a need is identified, the hospital develops a plan to implement a program either through community collaboration or individually. Outcomes from the programs are measured and considered in subsequent community needs assessments. Community benefit plans are presented to senior leadership and board members to ensure the findings are incorporated into the organization's strategy and policy development. For example, senior leaders are required to provide direct service to the poor hours as part of their performance goals. |

| | Actions Against a Patient | We make every effort to determine patient's eligibility for assistance prior to billing. If patient is uncooperative or unresponsive, the patient account may be referred to a collection agency for further billing effort. If patient does indicate inability to pay, we will stop collection efforts and work with patient to complete a financial assistance application. We do not file liens, lawsuits, or report to credit agency, until all determination efforts have been exhausted. |

Independent Auditor's Report

To the Board of Directors of Ministry Health Care, Inc

We have audited the accompanying consolidated balance sheets of Ministry Health Care, Inc. and Affiliates (collectively the "Corporation") as of September 30, 2012 and 2011, and the related consolidated statements of operations, changes in total net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Ministry Health Care, Inc. and Affiliates as of September 30, 2012 and 2011, and the results of their operations, changes in their total net assets and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Ministry and Wheaton Franciscan Healthcare, Inc ("WFH") operated an integrated health care delivery system in the Fox Valley of Wisconsin through Affinity Health System, Inc ("Affinity") Ministry and WFH established common management of Affinity and its affiliates. Ministry and WFH were equal corporate members of Affinity. As the corporate members of Affinity, Ministry and WFH had certain reserve powers over Affinity and indirectly over the other Affinity affiliates. In addition, Ministry exclusively held selected reserved powers over Mercy Medical Center ("Mercy")

Effective February 8, 2012, Ministry purchased the 50 percent ownership of Affinity previously held by WFH for an aggregate purchase price of \$167,500. Affinity continues to maintain its local board of directors and mission of providing quality healthcare to the communities served, especially the poor This acquisition allows Ministry to continue its mission of providing cost efficient care to area communities. This transition was accounted for in accordance with the guidance in Not-For-Profit Entities. Mergers and Acquisitions. The operating results of the acquired entities have been included in the consolidated financial statements since the date of the acquisition.

Prior to the acquisition, the collective excess of revenue over expenses plus depreciation of Mercy Medical Center and St. Elizabeth Hospital were shared equally between Ministry and WFH. Because Ministry held selected reserved powers over Mercy, the prior consolidated financial statements include the balance sheet, results of operations, and cash flows of Mercy, adjusted for the impact of the aforementioned income sharing. Ministry also recorded its 50 percent sponsorship interest in Calumet Medical Center and NHS on the equity method, which was recorded as investments in affiliates on the consolidated balance sheet. The equity method amount recorded in the 2012 consolidated financial statements reflects the activity from October 1, 2011 through February 8, 2012. The amounts of excess of revenue over expenses related to Affinity reflected in the consolidated financial statements for the years ended September 30, 2012 and 2011 were \$3,503 (October 1, 2011 to February 8, 2012) and \$9,559, respectively

Prior to the sole sponsorship transaction, Mercy had notes receivable from Affinity of \$255,721 These notes receivable were eliminated by adjusting Ministry's investment in Affinity of \$(79,967) to \$175,754 This adjusted value was then remeasured to the investment in Affinity at fair value of \$144,000, resulting in a remeasurement loss of \$31,754

The fair value of Affinity and the ownership interest previously held by Ministry were based on Ministry's estimate of the fair value at the transaction date. Ministry engaged an independent valuation firm to assist in the determination of the fair value. The purchase price was then allocated to Mercy and the remainder of Affinity based on their relative fair value to Affinity as a whole. The fair value of the health care providers (hospitals and clinics) was determined using a discounted cash flow approach, and the fair value of NHP was determined using a weighted average of a discounted cash flow valuation (37.5 percent) and market based valuations derived by examining comparable companies and comparable transactions (62.5 percent)

Ministry purchased the remaining noncontrolling interest in Mercy as part of this transaction. The purchase price allocated to the redemption of the noncontrolling interest in Mercy based on Mercy's relative fair value to Affinity as a whole was determined to be \$20,000. Because there was no change in control over Mercy as a result of this transaction, the redemption of the noncontrolling interest was recorded as a charge to net assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

The following represents the consideration given to Wheaton in exchange for its 50 percent ownership of Affinity, the fair value at time of sale and related gain

| Consideration transferred | \$ 147,500 |
|------------------------------------|---------------|
| Fair value of 50% previously owned | 144,000 |
| Bargain purchase gain recognized | 36,301 |
| Fair value of net assets acquired | \$ 327,801 |

In accordance with the accounting guidance in Not-For-Profit Entities—Mergers and Acquisitions, Ministry remeasured its previously held 50 percent interest in Affinity after the note receivable elimination discussed above at fair value and recognized a net non-operating gain of \$4,547 (bargain purchase gain of \$36,301 less remeasurement loss of \$31,754) as excess of fair value over recorded value of affiliate on the consolidated statement of operations—The bargain purchase gain arose because the purchase price was negotiated with Wheaton, another Catholic health system committed to the same service-based mission as Ministry

Affinity had a note payable to Wheaton in the amount of \$52,565 that was paid off on February 8, 2012 This was included in the consideration transferred

The fair value of Affinity's assets and liabilities acquired were estimated by management based on quoted market prices, actuarial calculations and third-party appraisals for material property and equipment. The following is a summary of the net estimated fair value of assets acquired and liabilities assumed.

| Cash | \$ 121,302 |

The unaudited consolidated pro forma financial information is not necessarily indicative of the results of operations that would have occurred if the affiliation had been completed on the date indicated, nor is it indicative of future operating results. Total transaction costs related to the acquisition of \$1,691 have been recorded in other non operating gains (losses) – net

Ministry had a 7 percent note receivable from Affinity in the amount of \$13,900 as of September 30, 2011. Ministry also had another note receivable with Affinity bearing interest of 6 percent in the amount of \$26,262 as of September 30, 2011. These notes, along with other advances to Affinity, which totaled \$106,064 at September 30, 2011, are included in investments in affiliates and other assets in the accompanying consolidated balance sheet. Upon Ministry's purchase of the remaining interest in Affinity effective February 8, 2012, all intercompany balances between Ministry and Affinity are eliminated in consolidation.

Ministry is one of two corporate members of Flambeau Hospital, Inc. ("Flambeau Hospital") and shares certain contractual reserved powers over two physician clinics in Flambeau Hospital's service area (collectively, "Price County") Marshfield Clinic is the other corporate member and serves as the managing member. Ministry and Marshfield Clinic jointly govern Price County. Ministry accounts for Price County on the equity method. The amounts of excess of revenue over expenses related to Price County reflected in the consolidated financial statements for the years ended September 30, 2012 and 2011 were \$302 and \$696, respectively. Ministry's investment in Price County was \$3,712 and \$3,420 at September 30, 2012 and 2011, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Saint Clare's Hospital ("Saint Clare's") is a 107 bed hospital located in Weston, Wisconsin which opened in October 2005. Ministry also operates a medical office building on the Saint Clare's campus. The Diagnostic and Treatment Center ("DTC") is a corporation formed to provide the majority of the ancillary services on the campus. Saint Clare's and Marshfield Clinic are the two equal corporate members of the DTC. The DTC is accounted for on the equity method. The amounts of excess of revenue over expenses related to the DTC reflected in the consolidated financial statements for the years ended September 30, 2012 and 2011 were \$7,091 and \$6,953 respectively. Ministry's investment in the DTC was \$4,955 and \$4,865 at September 30, 2012 and 2011, respectively.

Entities of which Ministry controls 50 percent are presented on the equity method of accounting Ministry's share of the results of operations of entities accounted for on the equity method are included in other expenses, other operating revenue, or non-operating gains (losses) – net, as appropriate, in the accompanying consolidated statements of operations

All significant intercompany accounts and transactions have been eliminated in preparing the consolidated financial statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates — The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements Estimates also affect the reported amounts of revenue and expenses during the reporting period Actual results could differ from those estimates and are subject to change in the near term

Cash and Cash Equivalents — Cash and cash equivalents, some of which are classified as assets whose use is limited, include certain investments in highly liquid debt instruments with original maturities of three months or less

Ministry maintains its cash in bank deposit accounts, which at times may exceed federally insured limits. Management regularly monitors Ministry's cash balances along with the financial condition of the financial institutions to minimize this potential risk.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Accounts Receivable — Patient accounts receivable are stated at net realizable value Ministry maintains allowances for uncollectible accounts and estimated losses resulting from a payor's inability to make payments on accounts Ministry estimates the allowance for uncollectible accounts based upon management's evaluation of the collectability of its accounts receivable based on factors such as the length of time the receivable is outstanding, payor class, historical experience, trends in healthcare coverage, and business and economic conditions. Accounts receivable are written off against the allowance for doubtful accounts when they are deemed uncollectible Recoveries of receivables previously written off are recorded as a reduction of the provision for uncollectible accounts when received Patient receivables, where a third-party payor is responsible for paying the amount, are carried at a net amount determined by the original charge for the service provided, less an estimate made for contractual adjustments or discounts provided to third-party payors. The past due status of receivables is determined on a case-by-case basis depending on the payor responsible. Interest is generally not charged on past due accounts Receivables or payables related to estimated settlements on various payor contracts, primarily Medicare and Medicaid, are reported as amounts due from or to third-party programs Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental health care coverage could affect Ministry's collection of accounts receivable, cash flows and results of operations

Assets Limited as to Use — Assets limited as to use include assets restricted by donors, assets held by trustees under indenture agreements, and assets designated by the boards or management Amounts available to meet current liabilities are classified as current assets

Investments and Investment Income — Investments in equity and debt securities are measured at fair value. The fair value of investments is disclosed in Note 3. Investment income or loss (including realized gains and losses on investments, interest and dividends unless the income is restricted by donor or law) is included in the excess of revenue over expenses. Unrealized gains and losses on investments, all of which are other than trading securities, are excluded from the excess of revenue over expenses. Management periodically assesses investments for impairment in cases where market value has been below cost for either an extended period of time or by a significant amount. Other-than-temporary declines in the fair market value of investments are recorded as non-operating gains (losses) - net in the consolidated statements of operations.

Securities Held Under Repurchase Agreements — Ministry has entered into a repurchase agreement with a bank, whereby the Corporation authorizes the bank to transfer excess deposits for the purpose of purchasing certain U S government obligations (see Note 4) Ministry simultaneously agrees to resell, and the bank agrees to repurchase, such securities on a daily basis in amounts sufficient to maintain a minimum cash balance. As consideration for the arrangement, Ministry receives a rate of return on the related securities. The agreement can be terminated at any time without penalty to Ministry. Amounts transferred to purchase securities are not deposits and therefore are not insured by the Federal Deposit Insurance Corporation.

Inventory — Inventory of supplies, included in other current assets, is stated at the lower of cost (first-in, first-out) or market

Property and Equipment — Property and equipment are recorded at cost. Donated property and equipment are recorded at fair value at the date of donation. Interest costs incurred on borrowed funds during the period of construction are capitalized as a component of the cost of acquiring those assets. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter of the lease term or the estimated useful life of the equipment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Ministry periodically assesses the recoverability of long-lived assets (including property and equipment and intangibles) when indications of potential impairment exist. Management considers such factors as current results, trends, market conditions, future prospects and other economic factors in determining the impairment of an asset. Ministry did not record any property impairment losses in 2012 or 2011.

Effective June 1, 2011, the Corporation sold the assets related to its outpatient dialysis services to a third-party. In connection with the Corporation's disposal of those assets, it recognized a net gain of \$26,771 during the year ended September 30, 2011, recorded within non-operating gains (losses) – net. Ministry recorded \$8,737 of operating revenue and \$387 of a net loss in relation to the outpatient dialysis services for the year ended September 30, 2011. The carrying amount of the Property and Equipment – Net and Other Current Assets included as part of the disposed component was \$977 and \$407, respectively

Investments in Non-Consolidated Affiliates — Investments in affiliates which are not consolidated are accounted for under the equity method of accounting. Under the equity method of accounting, Ministry's share of the income or loss of the affiliate is recorded in other operating revenue, other operating expenses, or non-operating gains (losses) - net in the accompanying consolidated statements of operations

Swap Agreements — Ministry has a program to actively manage its interest cost and exposure to interest rate movements through the use of swaps. The program seeks to achieve lower interest cost consistent with an acceptable level of risk given varying interest rate environments. Swaps are related to existing outstanding debt or investments. Ministry's swaps do not qualify for hedge accounting treatment and accordingly are recorded at fair value as an asset or liability with the change in fair value recorded in non-operating gains (losses) - net

Ministry formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking swap transactions. This process includes linking all interest rate swap agreements to specific assets or liabilities on the balance sheet

Pension Plan — Ministry recognizes the funded status of its solely-sponsored defined benefit pension plan in the consolidated balance sheet, with a corresponding adjustment to unrestricted net assets. The adjustment to unrestricted net assets represents the net unrecognized actuarial gains and losses. These amounts are amortized as net periodic benefit cost.

Temporarily and Permanently Restricted Net Assets — Temporarily restricted net assets are those whose use by Ministry has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Ministry in perpetuity and only the income from the investment of the principal can be expended. Substantially all temporarily restricted net assets consist of funds for capital projects and other donor designated programs.

When a donor restriction expires, such as when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as other operating revenue or in the statements of changes in total net assets as net assets released from restrictions. Unrestricted contributions and donor-restricted contributions for operating purposes whose restrictions are met in the same year as received are reported as other operating revenue.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Revenue — Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered. Reimbursable amounts from third-party payors are estimated in the period the related services are rendered and adjusted in future periods as final settlements are determined. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Laws and regulations regarding government and other payment programs are complex and subject to interpretation. As a result, there is a reasonable possibility that recorded estimated settlements could change by a material amount.

Other operating revenue (i e , rental, retail pharmacy, cafeteria, and dietary revenue and net assets released from restrictions for operations) consists of revenue that is integral to operations but not directly related to patient care

Premiums are due to NHP and NHIC in advance of their respective coverage periods and are recognized as revenue in the period in which NHP and NHIC are obligated to provide services to members. Membership contracts are on a yearly basis subject to cancellation by the subscriber or NHP/NHIC upon 90 days written notice. Premiums received in advance are included in accrued expenses and other liabilities in the consolidated balance sheets and totaled \$3,264 at September 30, 2012.

Contributions — Unrestricted contributions are recorded as other income, restricted contributions are recorded as additions to restricted net asset balances. Unconditional promises to give are reported at fair value at the date the pledge is received. Conditional promises to give are reported at fair value when the conditions on which they depend are substantially met. Contributions of property, plant, and equipment are recorded as temporarily restricted net assets at the fair value as of the date of the contribution. Upon expenditure in accordance with a donor's restrictions and when the asset is placed in service, net assets restricted for capital acquisitions are reported as direct additions to unrestricted assets, and assets restricted for operating purposes are reported as an increase to other operating revenue.

Health Care Services Cost — Medical claims expense includes health care services costs for fees charged by nonaffiliated physicians, hospitals, and other providers for health care services provided to NHP and NHIC members NHP and NHIC reimburse nonaffiliated hospitals at fee for service or percent of charges if contracted with a national preferred provider organization (PPO) network, and other nonaffiliated providers using fee for service, percent of charges, or usual and customary fee schedules

At September 30, 2012, medical claims payable to nonaffiliated entities totaled \$84,335 and are recorded as medical claims liability in the accompanying consolidated balance sheet. This liability represents the estimated ultimate net cost of all reported and unreported claims incurred through. September 30 and is based on historical experience. Those estimates are subject to the effects of trends in claim severity and frequency. Although considerable variability is inherent in such estimates, management believes that the liability for medical claims payable is adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known, such adjustments are included in income from operations.

Reinsurance — Reinsurance premiums are reported as expenses when incurred Reinsurance recoveries are reported as reductions to expense when received or accrued as a receivable NHP recorded reinsurance premiums expense of \$2,685 and reinsurance recoveries of \$2,921 during the period ended September 30, 2012

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Loss Contracts — NHP enters into contracts to provide identified healthcare services to group members for specified periods (generally one year) in return for fixed insurance premiums. NHP recognizes, in the year of contractual commitment, any losses on these contracts when it is probable that expected future healthcare costs and maintenance costs under a group of existing contracts will exceed anticipated future premiums and recoveries on those contracts. At September 30, 2012 no losses on such contracts were determined to be probable, therefore, no loss was accrued

Employee Health Care Benefits — Ministry converted its employee health benefit to a self-funded product effective January 1, 2011 Premiums previously paid to a third-party and expensed totaled \$16,179 for the year ended September 30, 2011 Total expenses under the self-funded arrangement were \$80,154 and \$39,048 for the years ended September 30, 2012 and 2011, respectively Coverage available to employees under the plan has not changed. To limit the losses on individual claims, Ministry has entered into a stop-loss insurance agreement on non-domestic claims with a third-party on both medical and pharmaceutical claims at a \$750 individual claim deductible level. The Affinity plan has a stop-loss deductible insurance agreement at \$375 per employee individual claim.

Interest Expense — Interest expense of approximately \$7,827 and \$10,156 in 2012 and 2011, respectively, related to the proceeds of various bond issues, is recorded as a non-operating expense (included in non-operating gains (losses) – net) because the related proceeds have not been expended for use in operations. All other interest expense is recorded as an operating expense.

Deferred Financing Expenses and Amortization of Bond Discount/Premium — The deferred financing costs and original issue discount/premium in conjunction with the issuance of long-term debt are amortized over the terms of the respective debt issues using the effective interest method Amortization of certain financing costs is recorded as operating expense. Amortization of other financing costs is recorded as a non-operating expense (included in non-operating gains (losses) — net) because, generally, these loan proceeds have not been expended for use in operations

Excess of Revenue over Expenses — The consolidated statements of operations include the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the excess of revenue over expenses, consistent with industry practice, include changes in unrealized gains and losses on investments except for unrealized losses on investments deemed other-than-temporarily impaired, capital contributions, pension-related changes other than net periodic pension cost, and other items required by generally accepted accounting principles to be reported as a component of the change in unrestricted net assets

For purposes of presentation, transactions deemed by management to be ongoing, major or central to the provision of health care services are reported as revenue and expenses. Peripheral or incidental transactions are reported as non-operating gains or losses.

Federal Income Taxes — Ministry and its affiliates, except NHP and NHIC, are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and are exempt from federal income taxes pursuant to Section 501(a) of the Code These organizations are, however, subject to federal and state income taxes on any net unrelated business income under the provisions of Section 511 of the Code

NHP and NHIC account for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Ministry recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions for Ministry's not-for-profit corporations include their tax-exempt status and various positions related to the potential sources of unrelated business taxable income (UBIT). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement.

Risks and Uncertainties — Ministry utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Subsequent Events — Management of Ministry has evaluated all material subsequent events requiring disclosure or recognition in the consolidated financial statements through January 25, 2013, which was the date the consolidated financial statements were issued

Ministry's parent organization, Marian Health Care, has entered into a memorandum of understanding with Ascension Health to merge assets and liabilities of both organizations. The transaction is expected to be finalized by end of the 2013 fiscal year

Pending Accounting Standards — In July 2011, the FASB issued ASU 2011-07, Health Care Entities (Topic 954) - Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities ASU 2011-07 requires health care entities that recognize significant amounts of patient service revenue at the time the services are rendered even though they do not assess the patient's ability to pay, to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts) Additionally, ASU 2011-07 requires those health care entities to provide enhanced disclosure about their policies for recognizing revenue and assessing bad debts, disclosures of patient service revenue (net of contractual allowances and discounts) as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The provisions of ASU 2011-07 are effective for fiscal years and interim periods within those years ending after December 15, 2012, with early adoption permitted The changes to the presentation of the provision for bad debts related to patient service revenue in the statement of operations should be applied retrospectively to all prior periods presented. Ministry is assessing the impact of the implementation of ASU 2011-07 on its financial statements

In July 2011, the FASB issued guidance on fees paid to the federal government by health insurers. The objective of this guidance is to address how health insurers should recognize and amortize fees mandated by the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act. These amendments specify that the liability for the fee should be estimated and accrued in the applicable calendar year in which the fee is payable with a corresponding deferred cost. The deferred cost is amortized to expense using the straight-line method over the calendar year that it is payable unless another method more appropriately allocates the fee. These amendments are effective for calendar years beginning after December 31, 2013, when the fee initially becomes effective. Ministry is assessing the impact of the implementation of ASU 2011-07 on its financial statements.

3. FAIR VALUE MEASUREMENTS

Ministry applies the Fair Value Measurements and Disclosures Topic of the Accounting Standards Codification. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy applies to all financial instruments that are being measured and reported on a fair value basis, and it ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories.

- Level 1 Quoted market prices in active markets for identical assets and liabilities
- Level 2 Observable market prices based on inputs or unobservable inputs that are corroborated by market data
- Level 3 Unobservable prices based on inputs that are not corroborated by market data Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets and liabilities

The assets and liabilities measured at fair value on a recurring basis are investments and interest rate swap agreements. The fair values of Ministry's investments included in Level 1 were determined through quoted prices in active markets. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by Ministry at year-end. The fair values of the Level 2 investments are primarily determined using quoted prices for similar assets in active markets and other inputs from observable market data. Components of Level 2 investments are recorded at net asset value, which is based on the fair value of the respective fund's underlying investments.

The beneficial interest in trust is recorded at fair value based on the underlying value of the assets in the trust. The trust reported as Level 3 is a perpetual trust managed by a third-party and is invested in mutual funds and other securities that are traded in active markets with observable inputs, which would result in Level 1 or Level 2 hierarchal reporting. However, considering the restrictive nature of the trust, Ministry has classified the asset as Level 3. The fair values of Level 3 hedge funds are based on the net asset value, which is based on the fair value of the underlying investments. The fair value of the Level 3 interest rate swap agreements were determined through dealer counterparties and other independent market sources in addition to unobservable non-performance risk assumptions. Due to the volatility of the capital markets, there is a reasonable possibility of significant changes in fair value and additional gains or losses in the near term subsequent to September 30, 2012.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Ministry believes these valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value as of the reporting date

- (A) The objective of the fund is to provide broad exposure to the U S equity market. The fund seeks to approximate, as closely as practicable, before expenses, the performance of the Russell 3000 Index over the long term. The fund implements a screen of certain social or environmental criteria. Accordingly, the fund's risk characteristics will vary from those of the Index.
- (B) The objective of the fund is to provide broad exposure to global equity markets. The fund seeks to approximate, as closely as practicable, before expenses, the performance of the MSCI EAFE Index over the long term. The fund implements a screen of certain social or environmental criteria. Accordingly, the fund's risk characteristics will vary from those of the Index.
- (C) The objective of the funds is to provide broad exposure to the government bond market. The funds seek to approximate, as closely as practicable, before expenses, the performance of the Barclays Capital U.S. ABS Index, the Barclays Capital U.S. Intermediate and Long Government Bond Index, the Barclays Capital U.S. Credit Bond and the Barclays Capital U.S. MBS Index. The funds implement a screen of certain social or environmental criteria. Accordingly, the funds' risk characteristics will vary from those of the Indices.
- (D) Permal Private Equity Opportunity includes investments in other private equity funds. The fair values of the investments in this fund have been estimated using the net asset value per share of the investments. This fund cannot be redeemed until the fund matures which is 10 years plus an optional 2 years, at which time it will be liquidated.
- (E) Paradigm Equities includes investments in other hedge funds. The fair values of the investments in this fund have been estimated using the net asset value per share of the investments. This fund is currently being redeemed. It is unknown at this time when the fund will be fully liquidated.
- (F) Hatteras includes investments in other alternative investment funds including hedge funds and private equity funds. The fair values of the investment in this fund have been estimated using the net asset value per share of the investment.

Except as otherwise noted, the carrying amounts reported in the consolidated balance sheets of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses, and estimated amounts due to third-party payors approximate fair value. The fair value of debt is disclosed in Note 6 and the fair values of interest rate swaps are disclosed in Note 7.

There were no other-than-temporary impairment losses in 2012 Ministry recorded \$14,510 of losses deemed other than temporarily impaired in 2011, which is included in non-operating gains (losses) - net Management does not believe there are any other material amounts of investments that are other than temporarily impaired

Ministry has a security lending arrangement with a financial institution whereby certain of Ministry's marketable securities are loaned to designated counterparties (borrowers) in exchange for cash collateral. Such arrangements involve risk of loss arising from the potential non-performance of the borrowers. The minimum collateral required is 102 percent of the market value of the securities on loan at the time of initiating the loan. On a daily basis, securities on loan are marked to market and collateral levels are adjusted, if collateral falls below 100 percent of the loan, to maintain a collaterization level of 100 percent of the loan. A third-party agent holds collateral in custody. The market value of the loaned securities was \$10,837 at September 30, 2011. In exchange for loaned securities, Ministry received cash collateral of \$11,052 at September 30, 2011. The investments purchased with the cash collateral are shown as both an asset and liability of Ministry and are included in assets limited as to use and long-term liabilities in the accompanying consolidated balance sheets. There were no securities loaned as of September 30, 2012.

The composition of investment returns on assets limited as to use for the years ended September 30, 2012 and 2011 was as follows

Ministry and certain of the solely sponsored hospitals have formed a restricted group ("Restricted Group") under a master trust indenture ("Indenture") The related revenue bonds have been issued by the Wisconsin Health and Educational Facilities Authority on behalf of the Restricted Group

Pursuant to the Indenture, the Restricted Group participating hospitals have executed contribution agreements with Ministry and have pledged their accounts receivable as security for the bonds. Those agreements provide that, in the event they receive written direction from Ministry to do so, the Restricted Group hospitals will transfer to Ministry, by loan or contribution, such of their revenue and assets as necessary to enable Ministry to make debt service payments on the bonds issued under the Indenture and to comply with the Indenture's other provisions

The Indenture contains various covenants and restrictions including provisions limiting the amount of additional liens and indebtedness which may be incurred and requirements for maintenance of certain financial ratios by the Restricted Group

Effective February 8, 2012, \$60,000 of Series 2012 A Bonds and \$60,000 of Series 2012B Bonds were issued related to the Affinity sole sponsorship. Effective May 1, 2012, \$144,790 of Series 2012C Bonds were issued to refund Series 2002 Bonds. The loss incurred as a result of the refunding of the Series 2002A Bonds was \$6,853, which includes the write-off of the unamortized bond discount, payment of a call premium, and the write-off of deferred financing fees. The loss was recorded in non-operating gains (losses) - net in the consolidated statement of operations.

The Series 2010C Bonds are repriced and can be put back to Ministry on a weekly basis by the bondholders. In the event the Series 2010C Bonds cannot be remarketed, Ministry is obligated to repay the bonds. Therefore these bonds are classified as long-term debt being remarketed on the balance sheet. The 2010C Bonds have been successfully remarketed since issuance.

The Series 2009A Bonds can be put back to Ministry at various future dates, ranging from one week to two months, as determined by the respective mode of each tranche. The Series 2009A Bonds are supported by a letter of credit which expires on April 30, 2016. In the event the Series 2009A Bonds cannot be remarketed, the letter of credit will be drawn upon and Ministry will owe that amount, over a 5 year period, to the letter of credit bank. There have been no draws upon the letter of credit. The Series 2009B Bonds are repriced and can be put back to Ministry on a weekly basis by the bondholders in the event the Series 2009B Bonds cannot be remarketed, Ministry is obligated to repay the bonds. Therefore these bonds are classified as long-term debt being remarketed on the balance sheet. The Series 2009B Bonds have been successfully remarketed since issuance.

The Howard Young Health Care, Inc ("Howard Young") bonds are collateralized by substantially all revenue of the issuing entities and by a mortgage on certain assets. In addition, the loan documents contain various covenants and restrictions including the maintenance of certain financial ratios. During 2012, the Series 1998 and Series 2000 Bonds were refunded with the issuance of Series 2012 Bonds. The loss incurred as a result of the refunding was \$1,031, which includes the write-off of the unamortized bond discount, payment of a call premium, and the write-off of deferred financing fees. The loss was recorded in non-operating gains (losses) - net in the consolidated statement of operations.

Assuming the Series 2009 A Bond letters of credit are renewed under similar terms and that the applicable bonds are not successfully remarketed, aggregate scheduled principal payments and sinking fund deposits on long-term debt are as follows

7. SWAP AGREEMENTS

Ministry maintains interest-rate risk management and cost of capital reduction strategies that use swap derivative instruments to minimize significant, unanticipated earnings fluctuations caused by interest-rate volatility. Ministry's specific goal is to lower the cost of its borrowed funds or increase the return on financial assets. Additional information regarding Ministry's risk-management strategy relative to swap agreements is included in Note 2 to the financial statements.

Ministry has a fixed payer swap, for which it pays a fixed rate and receives a variable rate, in the notional amount of \$75,100 which expires on August 1, 2029 Ministry has a basis swap, for which it pays a tax-exempt variable rate and receives a percentage of a taxable variable rate, to hedge against rising interest costs on Ministry's variable rate debt. As of September 30, 2012 and 2011, the basis swap has a notional amount of \$120,000 which expires on February 17, 2028 Finally, Ministry has interest rate swap agreements in place which effectively convert the interest payments on \$75,780 of Series 1993 and Series 1997 Bonds from fixed rates to variable rates during the terms of the swaps These swaps expire at various dates through February 15, 2015

The net fair value of the swap agreements of \$25,737 and \$26,594 at September 30, 2012 and 2011, respectively, has been reflected as a long-term liability in the accompanying consolidated balance sheets with the offsetting valuation change impact included in non-operating gains (losses) - net Ministry received net swap payments of \$480 and \$582 during the years ended September 30, 2012 and 2011, respectively, which are recorded in non-operating gains (losses) - net in the accompanying consolidated statements of operations

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Ministry's swap agreements contain various collateralization provisions, affecting both Ministry and the swap counterparty, with collateral posting levels which are dependent on the magnitude of the value of the swaps and the credit ratings of the parties. At September 30, 2012, Ministry had posted \$25,145 as collateral pursuant to the fixed payer swap, which is included in assets limited as to use in the consolidated balance sheet.

8. LEASES AND COMMITMENTS

Ministry leases office space and equipment from third-parties under noncancelable operating leases which expire at various dates during the next five years. Total rent expense for operating leases during 2012 and 2011, including rents renewable annually, was \$14,382 and \$7,504, respectively. Future minimum lease payments are as follows.

| 2013 | \$ | 9,465 |
|------------|-----|--------|
| 2014 | | 6,920 |
| 2015 | | 4,109 |

Ministry leases offices under operating leases primarily to physicians and the DTC Rentals received are recorded as other operating revenue when incurred Future minimum rentals to be received under these agreements are as follows

| 2013 | \$ 2,494 |

Ministry leases an ancillary services facility under a direct financing lease to the DTC. At September 30, 2012 and 2011, Ministry had \$22,940 and \$24,196, respectively, of leases receivable under this agreement. The future minimum lease payments to be received for each of the next five years are \$2,400 per year and total \$31,024 over the term of the agreement as of September 30, 2012.

Ministry has entered into various physician employment contracts which include noncancelable commitments as of September 30, 2012, payable as follows \$8,598 in 2013, \$2,978 in 2014, and \$232 in 2015. The physician employment contracts generally include performance expectations which management believes will result in revenue production to help fund these commitments.

Ministry's clinics have various physician employment agreements which are production based. All amounts due under these agreements have been paid or accrued as of September 30, 2012 and 2011

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

At September 30, 2012, Ministry had commitments of \$32,164 related to construction and information technology projects

Ministry is subject to various legal proceedings and claims that are incidental to its normal business activities. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the consolidated financial position or results of operations of Ministry

Under the regulations and statutes of the Wisconsin Office of the Commissioner of Insurance (OCI), NHP is required to maintain surplus reserves, or total minimum net assets, determined as a percentage of subscriber premiums. The compulsory surplus requirement for NHP is approximately \$10,727 at September 30, 2012. In certain cases, the OCI also requires organizations to maintain an additional security surplus reserve that, if required of NHP, would be approximately an additional \$3,004 at September 30, 2012. Management believes NHP's net asset balance at September 30, 2012, determined in accordance with accounting practices prescribed by the OCI, is sufficient to meet the compulsory and security reserve requirements.

NHP has reinsurance agreements with an unaffiliated insurance company that limit NHP's losses on individual claims. Under terms of these agreements prior to January 1, 2009, the insurance company reimburses NHP for a percentage of eligible inpatient hospital and medical costs and an additional umbrella policy for catastrophic coverage in excess of a deductible, up to a lifetime limit of \$5,000,000 per member. As of January 1, 2009, NHP entered into a new reinsurance agreement, under which the insurance company reimburses NHP for a percentage of all eligible service costs in excess of a deductible, up to a \$5,000,000 lifetime limit. Union groups with contracts that have no lifetime limit are grandfathered in with no limits.

9. NET PATIENT SERVICE REVENUE

A summary of gross and net patient service revenue for the years ended September 30, 2012 and 2011 is as follows

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Certain inpatient acute and hospital outpatient and home health services rendered to Medicare beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic and other factors. Certain of the hospitals which meet Medicare guidelines as critical access or sole community hospitals, as well as certain inpatient non-acute services and medical education costs related to Medicare beneficiaries, are paid based upon cost reimbursement methods. For cost reimbursed methods, the hospitals are reimbursed at tentative rates with final settlement determined after submission of annual cost reports and audits by the Medicare fiscal intermediary. Clinics are reimbursed based on federally established fee schedules for Medicare patients

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed primarily based upon prospectively determined rates

The percentage of net patient service revenue applicable to services provided to Medicare and Medicaid patients was approximately 45 percent in 2012 and 2011

During the years ended September 30, 2012 and 2011, the State of Wisconsin enacted a hospital assessment under which hospitals were assessed a percentage of their revenues. In turn, the State of Wisconsin revised the level of Medicaid reimbursement to those hospitals, improving Medicaid reimbursement for most hospitals. Ministry's assessment for the years ended September 30, 2012 and 2011, including its proportional interest in the Affinity hospitals, of \$23,833 and \$25,230, respectively, is included in other expenses in the accompanying consolidated statements of operations. Ministry management estimates that \$38,582 and \$46,412 of additional Medicaid reimbursement, including its proportional interest in the Affinity hospitals, was received during the years ended September 30, 2012 and 2011, respectively

Ministry has entered into reimbursement agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for reimbursement to the Corporation under these agreements is primarily based on discounts from established charges.

The health care industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations, specifically those relating to the Medicare and Medicaid programs, can be subject to government review and interpretation, as well as unknown and unasserted regulatory actions. Over the last number of years, federal government activity has increased with respect to investigations and allegations concerning possible violations of regulations which could result in the imposition of fines and penalties, as well as repayments of previously billed and collected revenue from patient services. Management believes that Ministry is in substantial compliance with current laws and regulations which may have a material effect on Ministry's financial position or results of operations.

The Centers for Medicare & Medicaid Services (CMS) implemented a project using recovery audit contractors (RACs) as part of CMS's further efforts to assure accurate payments. The project uses the RACs to search for potentially inaccurate Medicare payments that may have been made to health care providers and that were not detected through existing CMS program integrity efforts. Once a RAC identifies a claim it believes is inaccurate, it makes a deduction from or addition to the provider's Medicare reimbursement in an amount estimated to equal the overpayment or underpayment. Ministry will deduct from revenue amounts assessed under the RAC audits at the time a notice is received until such time that estimates of net amounts due can be reasonably estimated. Ministry does not anticipate incurring significant RAC assessments, however, the outcomes of such assessments are unknown and cannot be reasonably estimated.

The Health Information Technology for Economic and Clinic Health (HITECH) portion of the American Recovery and Reinvestment Act of 2009 includes incentives through Medicare and Medicaid reimbursement systems to foster electronic health record (EHR) adoption. In order to be eligible for EHR incentive funding, eligible hospitals and professionals must use a certified EHR system, report quality measures, and achieve "meaningful use," as defined by HITECH. During 2012, Ministry participated in the program and recognized revenue of \$4,894 in meaningful use incentive payments from Medicare and \$7,154 in payments from Medicaid, which have been reflected as other operating revenue for the year ended September 30, 2012. Incentive payments are subject to retrospective adjustments and audit. Additionally, compliance with the meaningful use criteria is subject to audit by the federal government.

10. MEDICAL CLAIMS

Total medical claims expense includes payments made by NHP and NHIC to outside healthcare providers during the year and amounts payable at the end of the year. The amount payable at the end of the year includes management's estimate of claims incurred but not reported based on actuarially developed estimates utilizing statistics developed from prior claim payment experience and other factors affecting future payments. To the extent that actual expenses received subsequent to the end of the prior year differ from the estimate, the difference is recorded in the year such claims are reported to Ministry

Claims and aggregate health claim reserve activity related to outside providers for the plan during 2012 are as follows

| 2012 |
|--|
| February 8, 2012 \$ 70,505 |
| ed to september 30, 2012 355,843 ds (727) 355,116 |
| 271,509 |
| ds 69,777 otal medical claims paid 341,286 d of year \$ 84.335 |
| |

The foregoing table indicates a \$727 redundancy in the February 8, 2012 claims reserves due to lower than anticipated medical claims. Included in medical claims liability and medical claims expense at September 30, 2012 is \$84,335 for estimates of costs of services provided through such dates but not reported to NHP and NHIC by the outside providers

11. CONCENTRATIONS OF CREDIT RISK

Ministry grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. This mix of gross receivables from patients and third-party payors at September 30, 2012 and 2011 was as follows.

| | 2012 | 2011 |
|--------------------------|------|------|
| Medicare | 38% | 36% |
| Medicaid | 13 | 13 |
| Other third-party payors | 31 | 34 |
| Self pay | 18 | 17 |
| Total | 100% | 100% |

12. COMMUNITY AND PARTIALLY REIMBURSED CARE

Ministry's hospitals and clinics have policies of providing health care services, without charge or at amounts less than established rates, to those unable to pay a portion of their charges and who meet certain eligibility criteria established in community care policies ("Community Care") Because collection of amounts determined to qualify as Community Care is not pursued, they are not reported as revenue

Ministry's hospitals and clinics are providers under the Title XIX Wisconsin and Minnesota Medical Assistance ("Medicaid") and Wisconsin County General Relief ("County") programs. Under these programs, the hospitals and clinics are legally bound to accept the amount determined by the state or county as payment in full for each patient's charges. Accordingly, services provided under the Medicaid and County programs are reported as gross patient service revenue (Note 9). Ministry's hospitals and clinics maintain records and monitor the level of unreimbursed and partially reimbursed care they provide. Ministry determines the costs associated with providing such charity care by aggregating the direct and indirect costs of providing care including salaries, wages, benefits, supplies and other expenses estimated as a ratio of total charges. The cost of charity and partially reimbursed care for the years ended September 30, 2012 and 2011 are summarized as follows.

| | 2012 | | 2011 |
|---|------|------------------|------------------------|
| Costs of services provided Community care Medicaid unreimbursed | \$ | 18,146 67,967 | \$ 15,155 47,798 |
| Total | \$ | 86,113 | \$ 62,953 |

Certain Ministry hospitals financially support projects endorsed by the Ministry Fund Is a management designation of assets to improve the health and provide services to disadvantaged area residents. Monies are maintained at the local hospitals and expended for various specific charitable projects designed to serve their communities. Ministry's hospitals have expensed \$218 and \$233 in 2012 and 2011, respectively, as support for these projects. Operating expenses include costs incurred by the hospitals to implement the projects.

Ministry's hospitals also support a variety of activities through Marian Ministry contributed \$773 and \$752 in 2012 and 2011, respectively, to Marian to support its activities, including other similar charitable activities

In summary, Ministry's Community Care activities for the years ended September 30, 2012 and 2011 were as follows

| | 2012 | | 2011 |
|---------------------------------------|------|------------|--------------|

| Marian Freakh Oysteni | | 110 | 102 |
| Total | \$ | 19,137 | \$ 16,140 |

Ministry also provides a variety of additional community benefits including community education programs, counseling, clinics, medical education and research and other cash and in-kind contributions for the benefit of the local or broader communities. Expenses related to these community benefit activities and the unreimbursed cost of care activities for Medicaid enrollees totaled \$110,736 and \$65,050 for the years ended September 30, 2012 and 2011, respectively

13. INCOME TAXES

NHP and NHIC are for-profit entities and are required to file federal tax returns

Income tax payable consists of the following components

| | 2012 |
|---|------------------|
| Federal income taxes State income taxes | \$ 583 271 |
| Income tax payable | \$ 854 |

NHP paid approximately \$4,991 in estimated federal taxes during 2012 The income tax payable at September 30, 2012 of \$854 is recorded in accrued expenses and other liabilities in the combined balance sheets For federal tax purposes, NHP files consolidated tax returns with NHIC

Deferred taxes result from the effect of transactions that are recognized in different periods for financial and tax reporting purposes. The deferred taxes relate primarily to a portion of the provision for estimated incurred but not reported claims, accruals, and depreciation on property and equipment, and results in a net deferred tax liability of \$68 at September 30, 2012

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

The net deferred tax liability at September 30 is comprised of the following components

| | 2012 |
|--|------------------------|
| Gross deferred tax assets Gross deferred tax liabilities | \$ 2,078 (2,146) |
| Net deferred tax liability | \$ (68) |

The deferred tax liability is included in other current assets in the accompanying consolidated balance sheets

The income tax provision consists of the following major components included in non-operating gains (losses), net

| | 2012 | | |
|--|----------------------|--|--|
| Current income tax expense Deferred income tax expense | \$ 4,144 1,976 | | |
| | \$ 6,120 | | |

NHP's income tax expense differs from the amount obtained by applying the federal statutory rate of 35 percent to income before income taxes as follows

| | 2012 | | |
|--|-------------------------------|--|--|
| Income tax expense at statutory rate of 35% State income tax, net of federal rate Other, including change in accrual | \$ 5,295 1,195 (370) | | |
| Total income tax expense | \$ 6,120 | | |

As of September 30, 2012, there are no operating losses or tax credit carry forwards available for federal or state tax purposes

Ministry files income tax returns in the U S federal jurisdiction and various states. With few exceptions, Ministry is no longer subject to income tax examinations by the U S federal, state or local tax authorities for years before 2008.

14. PENSION PLANS

Ministry and certain solely sponsored hospital affiliates participate in a pension plan sponsored by Marian. The Marian Health System Employee Retirement Plan ("Plan") is a multi-employer plan which provides defined benefits to employees of participating hospital affiliates, along with employees of other Marian and SSM related participating employers, who began employment prior to January 1, 2006. Ministry and the participating employers' employees become participants in the Plan upon the attainment of age 21 and the completion of 1,000 hours of service. Benefits under the Plan are based on employee years of credited service and compensation, as defined, paid either in lump sum or annuity form. Contributions to the Plan, which are also the amounts expensed in the financial statements, are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future. Upon termination of the Plan or withdrawal of a participating employer, if assets in the participating employer's are insufficient to pay all liabilities with respect to its participants, an assessment will be made on the accounts of the other participating employers. Plan information is not publically available.

Ministry's and its participating employers' proportional share of the Plan's assets and obligations and assumptions based on an actuarial valuation as of September 30, 2012 and 2011 were as follows

| | (Unaudited) | | | | |
|--|-------------|----------------|------|----------------|--|
| | | 2012 | 2011 | | |
| Plan assets at fair value Present value of benefit obligation | \$ | 264,418 | \$ | 229,911 | |
| (includes effect of future compensation increases) | | 271,485 | | 256,515 | |
| Plan assets less than present value of benefit obligation | \$ | (7,067) | \$ | (26,604) | |
| Accumulated benefit obligation (excludes effect of future compensation increases) | \$ | 239,489 | \$ | 224,798 | |
| Assumptions used in actuarial valuation Discount rate Expected return on plan assets | | 8 0 % 8 0 % | | 8 0 % 8 0 % | |

Ministry's proportionate share of the fair value of the plan assets represents 62 percent of total assets held. Because this is a multi-employer plan, all assets are available to pay benefits to all participants regardless of which participating employer contributed to them, and therefore no assets or liabilities of the plan are actually segregated. However, the employers in the Plan have a historical practice of funding their own liabilities. Ministry and the other participating employers have not accrued for the underfunded projected benefit obligation of the Plan. However, on an accumulated benefit obligation basis, Ministry employers are fully funded. Additionally, the Plan's financial statements for the years ended September 30, 2012 and 2011 indicate that the Plan is over 80 percent funded.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Ministry's contributions are 47 percent of the total fiscal year contributions to the plan Ministry's pension expense and contributions and benefits paid for the years ended September 30, 2012 and 2011 were as follows

| | 2012 | 2011 | | |
|-----------------------------------|--------------|------|--------|---|
| | | | | _ |
| Pension expense and contributions | \$ 10,917 | \$ | 10,074 | |
| Benefits paid (unaudited) | 16,374 | | 13,734 | |

The same employers also sponsor a tax sheltered annuity retirement plan, which entails employer matching of 50 percent of employee contributions, up to a defined limit. Ministry's expense relating to employer matching for that plan was \$5,497 and \$5,210 for the years ended September 30, 2012 and 2011, respectively

Certain other affiliates, along with Ministry and the participating employers, also participate in various other pension plans and supplemental compensation plans which are primarily defined contribution plans. Expense under these plans amounted to \$19,384 and \$13,288 for the years ended September 30, 2012 and 2011, respectively

Affinity sponsors the Affinity Health System, Inc. Retirement Plan (the Affinity Plan) and a related trust to provide defined retirement benefits for employees of Affinity with the exception of CMC. Employees become participants in the Affinity Plan upon the attainment of age 21 and the completion of 1,000 hours of service. Benefits under the Affinity Plan are based on the employee's years of credited service and covered compensation, as defined. Contributions to the Affinity Plan are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future.

The discount rates reflect the best estimate of the value of the plan because the liabilities are valued using current market rates through the use of the Mercer Yield Curve, except for the portion of actively-employed grandfathered participants' benefits that are assumed to be paid as a lump sum, which is valued at the plan's conversion rate of 8 percent. Currently 70 percent of benefits are assumed to be paid as a lump sum. The long-term rate of return on assets reflects historical returns and future expectations for returns in each asset class, as well as targeted asset allocation percentages within the pension portfolio. Affinity's investment strategy is of a long-term nature and is intended to ensure that funds are available to pay benefits as they become due and to maximize the trust's total return at an appropriate level of investment risk.

The target investment policy is 65 percent equity securities and 35 percent fixed income securities. The asset allocation of the pension plan at September 30 is as follows.

| | 2012 |
|---------------------------------|-------|
| Domestic equity securities | 48% |
| International equity securities | 11 |
| U S government obligations | 19 |
| Corporate debt obligations | 17 |
| Money market fund | 5 |
| Total | 100%_ |

The contributions for the Affinity Plan for the year ending September 30, 2013 are estimated to be \$13,478 The benefits expected to be paid in each year from 2013 through 2017 are \$10,148, \$11,476 \$11,547, \$12,233 and \$12,897, respectively The aggregate benefits expected to be paid in the five years from 2017 through 2021 are \$68,730

15. FOUNDATIONS

Various foundations ("Foundations") solicit and hold certain funds on behalf of Ministry's respective hospitals. The purposes of the Foundations are to receive and maintain funds for charitable, religious, scientific, literary and educational purposes on behalf of the hospitals and other tax-exempt organizations. The accompanying consolidated financial statements include the assets, liabilities and results of operations for certain of the Foundations.

Pledges receivable over one year are discounted at 3 percent Pledges receivable at September 30, 2012, consisted of the following

| Amounts receivable | | |
|--|-----------|-------|
| In less than one year | \$ | 874 |
| In one to five years | | 2,171 |
| Thereafter | | 1,254 |
| Less — discount | | (400) |
| Less — allowance for uncollectible pledges | | (95) |
| | | |
| Net pledges receivable | <u>\$</u> | 3,804 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2012 AND 2011 (In thousands)

Pledges receivable due in less than one year are recorded as other current assets on the consolidated balance sheets

Pledges receivable due in one year or greater are recorded within investments in affiliates and other assets on the consolidated balance sheets

Certain other Foundations are not consolidated in the accompanying financial statements because the affiliates do not control those Foundations. Net assets of \$2,211 and \$9,629, representing Ministry's beneficial interest in nonconsolidated Foundations, are included in other current assets and investments in affiliates and other assets in the accompanying consolidated balance sheets at September 30, 2012 and 2011, respectively

Ministry affiliates periodically receive transfers of funds from the Foundations not consolidated within the accompanying financial statements for capital or other needs. Such transfers of funds are reported in the accompanying financial statements as contributions from these Foundations. The amounts received in fiscal year 2012 prior to the Affinity acquisition were \$158 and \$906 for the year ended September 30, 2011.

16. ENDOWMENT FUNDS

Ministry applies guidance regarding the net asset classification and disclosures for funds subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) This quidance provides a framework for disclosures about an organization's endowment funds

Ministry's endowments are held at its various affiliates' Foundations. These endowments consist of several different donor-restricted endowment funds, and funds designated by the respective Foundation's boards, as endowments established for a variety of purposes consistent with the Foundations' missions. Net assets associated with these endowment funds are classified and reported as unrestricted, permanently restricted or temporarily restricted based on the existence or absence of donor imposed restrictions.

Ministry's management has interpreted the Wisconsin UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation has classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portions of the donor-restricted endowment fund that are not classified in permanently restricted net assets are classified as temporarily restricted net assets until appropriated for expenditure by the Foundation. Each Foundation Board has adopted investment and spending policies designed to earn a rate of return that will meet or exceed the sum of the distribution rate, anticipated inflation, investment fees and administrative costs

17. MALPRACTICE INSURANCE

Ministry has professional liability insurance with limits of \$1,000 per claim and \$3,000 in aggregate for claims made during a policy year. The deductible limits for this coverage are the same as the policy limits, effectively making most of Ministry self-insured for any losses up to these limits. An estimate of claims incurred but not reported is recorded within accrued liabilities. Ministry's losses in excess of these amounts are generally fully covered through its mandatory participation in the Injured Patient and Families Compensation Fund ("Fund") of the State of Wisconsin. Ministry also has additional professional liability insurance with an aggregate limit of \$20,000 for affiliates that do not participate in the Fund. Professional liability insurance expense totaled \$2,132 and \$2,421 for the years ended September 30, 2012 and 2011, respectively
