Independent Auditors' Report

The Board of Trustees AnMed Health Anderson, South Carolina

Report on the Financial Statements

We have audited the accompanying balance sheets of AnMed Health as of December 31, 2012 and September 30, 2011, and the related statements of operations and changes in net assets, and cash flows for the 15-month period ended December 31, 2012 and the year ended September 30, 2011

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to AnMed Health's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of AnMed Health's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AnMed Health as of December 31, 2012 and September 30, 2011, and the related statements of operations and changes in net assets, and cash flows for the 15-month period ended December 31, 2012 and the year ended September 30, 2011, in accordance with accounting principles generally accepted in the United States of America

1 Description of Organization and Summary of Significant Accounting Policies

<u>Organization</u> - AnMed Health (the "Hospital") is an acute care regional referral center located in Anderson, South Carolina The Hospital is operated by AnMed Health System, a nonstock, not-for-profit corporation that is its sole member with the authority to appoint the Hospital's Board of Trustees (the "Board")

During fiscal year 2012, the Hospital changed fiscal years ends from September 30 to December 31 Accordingly the 2012 fiscal year is presented as the 15-month period ending December 31, 2012

In 2011, the financial statements included the accounts of the Hospital and an affiliate, Anderson Area Physician Hospital Organization, Inc (the "PHO"), an 83%-owned South Carolina stock corporation PHO ended its operations in 2010 and distributed its net assets to its shareholders during the 2011 fiscal year During 2012, there was no activity and therefore the financial statements were not consolidated in 2012

Effective July 1, 2008, the Hospital entered into a ten-year Management Services Agreement (the "MSA") with the Charlotte-Mecklenburg Hospital Authority which does business as Carolinas HealthCare System ("CHS") to manage the Hospital on a day-to-day basis The terms of the MSA call for the Hospital to pay CHS an annual management fee In addition, CHS is required to furnish key personnel The Hospital will reimburse CHS the salary and benefits cost of these key personnel

On October 1, 2009, the Hospital entered into a management services agreement with Cannon Memorial Hospital The agreement appoints the Hospital as the manager of Cannon Memorial Hospital Under the management agreement, Cannon Memorial Hospital will pay the Hospital a base management services fee, plus salaries related to key executive positions, plus an incentive compensation award equal to 10% of Cannon Memorial Hospital's excess of revenues over expenses that exceed the target operating margin for each fiscal year The management agreement expires on September 30, 2019

On March 1, 2013, the Hospital entered into an affiliation and management services agreement with the Elberton-Elbert County Hospital Authority. The agreement appoints the Hospital as the manager of Elbert Memorial Hospital Under the management agreement, Elberton Memorial Hospital will pay the Hospital a quarterly management fee, based on Elbert Memorial Hospital's excess of revenues over expenses. The total financial commitment for the Hospital under these agreements is \$2,650,000. The initial term of the agreement is five years with options to extend the agreement.

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

<u>Cash and Cash Equivalents</u> - Cash and cash equivalents include overnight bank repurchase agreements For purposes of the statements of cash flows, the Hospital considers all highly liquid investments with original maturities of three months or less, exclusive of assets whose use is limited, to be cash equivalents

<u>Inventories of Drugs and Supplies</u> - Inventories of drugs and supplies are stated at the lower of cost or market Cost is determined using the first-in, first-out ("FIFO") method

<u>Property, Plant, and Equipment</u> - Property, plant, and equipment is recorded at cost or at fair value at the date of donation Depreciation on plant and equipment is computed over the estimated useful lives of the assets, which range from 3 to 25 years, using the straight-line method Routine maintenance, repairs, and replacements are charged to operating expenses Expenditures which materially increase values, change capacities, or extend useful lives are capitalized

The Hospital periodically assesses the realizability of its long-lived assets and evaluates such assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. For assets to be held, impairment is determined to exist if estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. For assets to be disposed of, impairment is determined to exist if the estimated net realizable value is less than the carrying amount.

Assets Whose Use Is Limited - Assets whose use is limited primarily include amounts designated by the Board of Trustees for capital improvements and operating contingencies over which the Board retains control and may at its discretion subsequently use for other purposes, and amounts held by Bond Trustees in accordance with the indenture agreements Amounts required to meet current liabilities of the Hospital have been reclassified on the balance sheets and are included in current assets

<u>Investments</u> - Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value on the balance sheets. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess (deficit) of revenues and gains over expenses and losses unless the income or loss is restricted by donor or law Unrealized gains and losses on investments are excluded from the excess (deficit) of revenues and gains over expenses and losses unless the investments are trading securities

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

<u>Capitalization of Interest</u> – Material interest costs incurred on borrowed funds during the period of construction of qualifying capital assets are capitalized as a component of the cost of acquiring these assets No interest was capitalized in the 15-month period ending December 31, 2012 or the year ended September 30, 2011

Bond Issuance Costs - Bond issuance costs are amortized using the effective interest rate method over the term of the related bonds Accumulated amortization of bond issuance costs at December 31, 2012 was approximately 1,506,000 and at September 30, 2011 was \$984,000, respectively

<u>Investments in Joint Ventures</u> - The Hospital's investments in joint ventures are included in other assets Each of these investments is accounted for using the equity method

Upstate Linen Services, LLC is a limited liability company formed to offer a collaborative linen service Upstate Linen Services, LLC is owned 17% by the Hospital and 83% by other area hospitals

Clemson Health Center was formed to provide an urgent care/diagnostic center and a primary care center near Clemson, South Carolina Clemson Health Center is owned 50% by the Hospital and 50% by another area hospital

Bond Discounts and Premiums - Bond discounts and premiums, included in long-term debt, are amortized using the effective interest rate method over the life of the related series of bonds

<u>Net Assets</u> - Substantially all of the Hospital's net assets are classified as unrestricted for accounting and reporting purposes. These resources of the Hospital have no external restrictions as to use or purpose. These resources include amounts generated from operations, undesignated gifts, and investments in property, plant, and equipment

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time period or purpose

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

HITECH Incentive Funding for Meaningful Use of Electronic Health Records ("EHR") – The American Recovery and Reinvestment Act of 2009 ("ARRA") established incentive payments under the Medicare and Medicaid programs for certain healthcare providers that use certified EHR technology The program is commonly referred to as the Health Information Technology for Economic and Clinical Health ("HITECH") Act To qualify for incentives under the HITECH Act, healthcare providers must meet designated EHR meaningful use criteria as defined by the Centers for Medicare & Medicaid Services ("CMS") Incentive payments are awarded to healthcare providers who have attested to CMS that applicable meaningful use criteria have been met Compliance with meaningful use criteria is subject to audit by the federal government or its designee and incentive payments are subject to adjustment in a future period

The Hospital recognizes revenue for EHR incentive payments in the period in which it has attested that it is in compliance with the applicable EHR meaningful use requirements Accordingly, the Hospital recognized other operating revenue of \$4,813,000 from Medicare EHR meaningful use payments and \$2,075,000 from Medicaid EHR meaningful use payments for the 15-month period ended December 31, 2012

Excess (Deficit) of Revenues and Gains Over Expenses and Losses - The statements of operations and changes in net assets include excess (deficit) of revenues and gains over expenses and losses Changes in unrestricted net assets which are excluded from excess (deficit) of revenues and gains over expenses and losses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, permanent transfers of assets to and from affiliates for other than goods and services, changes in the unfunded pension losses, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets)

<u>Donor-Restricted Gifts</u> - Unconditional promises to give cash and other assets to the Hospital are reported at fair value at the date the promise is received Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (i e, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported on the statements of operations and changes in net assets as net assets released from restrictions used for operations or used for purchase of property and equipment Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying financial statements

Notes to Financial Statements

For the 15-month period ended December 31, 2012

and

the Year Ended September 31, 2011

<u>Statements of Operations and Changes in Net Assets</u> - For purposes of display, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as revenues and expenses Peripheral or incidental transactions are reported as nonoperating gains and losses

Investment income, unrestricted gifts and bequests, and contributions to the community are recorded as nonoperating activities. Gains or losses on disposals of property, plant, and equipment are recorded as operating activities.

Pension Costs - The Hospital's funding policy is to contribute amounts sufficient to meet the minimum funding requirements as set forth in the Employee Retirement Income Security Act ("ERISA") of 1974, plus such additional amounts as the Hospital may determine to be appropriate

<u>Functional Expenses</u> - The Hospital does not present expense information by functional classification because its resources and activities are primarily related to providing health care services. Further, since the Hospital receives substantially all of its resources from providing health care services in a manner similar to a business enterprise, other indicators contained in these financial statements are considered important in evaluating how well management has discharged its stewardship responsibilities

Derivative Instruments - The Hospital entered into a derivative instrument, exclusively an interest rate swap agreement, to manage interest rate exposures on floating rate Hospital Revenue Bonds An interest rate swap allows the Hospital to swap variable interest rates on a stated notional amount for fixed rates Under the swap agreement that expires in 2033, the Hospital pays interest at a fixed rate of 3 51% and receives interest at a variable rate equal to 65% of the monthly LIBOR plus 45 basis points The 65% LIBOR rate on each reset date determines the variable portion of the interest rate swap for the following month The fixed and variable rate payments are calculated on a notional amount equal to \$55,600,000

The fair value of the interest rate swap instrument is presented on the balance sheets as follows

| | | Liability | Derivative | |
|---|----------------------|---------------|----------------------|---------------|
| | December | · 31, 2012 | <u>September</u> | 30, 2011 |
| | Balance Sheet | | Balance Sheet | |

| Interest rate swap | swap instrument | \$ 11,193,498 | swap instrument | \$ 10,764,470 |

Notes to Financial Statements

For the 15-month period ended December 31, 2012

and

the Year Ended September 31, 2011

The unrealized loss for the period associated with the fair market value of the agreement is included on the statements of operations and changes in net assets as follows

| | | Amount of unrealized loss recognized in income on derivative | |
|--|--|--|-------------------------------------|
| Derivative not designated as hedging instrument | Location of unrealized loss recognized in income on the derivative | 15-month ended December 31, 2012 | Year ended September 30, 2011 |
| Interest rate swap | Change in fair value of interest rate swap instrument | \$ (429,028) | \$ (2,590,441) |

The Hospital is exposed to credit loss in the event of nonperformance by the counterparty in relation to its interest rate swap agreement Management believes that the counterparty will be able to fully satisfy its obligations under the agreement Credit exposure exists in relation to all the Hospital's financial instruments, and is not unique to derivatives

<u>Concentrations of Credit Risk</u> - Financial instruments that potentially subject the Hospital to a concentration of credit risk consist principally of cash and cash equivalents, investments, and accounts receivable from patients and third-party payors. The Hospital places its cash and cash equivalents and investments with high quality credit financial institutions. Third-party payors are primarily Medicare and Medicaid, which provide reimbursement on patient accounts on a regular basis. Managed care receivables are distributed among several primary payors. The credit worthiness of all managed care payors is considered by the Hospital prior to entering into an agreement with the payor.

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party agreements. The mix of receivables from patients and third-party payors was as follows at December 31, 2012 and September 30, 2011

2012

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

<u>Fair Value of Financial Instruments</u> - The following methods and assumptions were used by the Hospital in estimating the fair value of its financial instruments

- Cash and cash equivalents The carrying amounts reported in the balance sheets for cash and cash equivalents approximate their fair value
- Assets whose use is limited These assets consist primarily of cash, investments, and interest receivable As discussed in Note 1, the carrying values of investments at December 31, 2012 and September 30, 2011 are equal to estimated fair value based on quoted market prices or lower of cost or market as appropriate
- Accounts payable and accrued expenses The carrying amounts reported in the balance sheets for accounts payable and accrued expenses approximate their fair value
- Estimated third-party payor settlements The carrying amounts reported in the balance sheets for these settlements approximate their fair value
- Bonds Payable Fair values for the Series 2009 and Series 2010 Bonds are based on estimates using present value techniques. These techniques involve uncertainties and are significantly affected by the assumptions used and the judgments made regarding risk characteristics of various financial instruments, discount rates, prepayments, and estimates of future cash flows, future expected loss experience, and other factors. Changes in assumptions could significantly affect these estimates. Derived fair value estimates cannot be substantiated by comparison of independent markets and, in many cases, may or may not be realized in an immediate sale of the instrument. The fair value of the Series 2009 and Series 2010 Bonds, described in Note 4, is estimated to be \$269,169,434 and \$269,142,265 at December 31, 2012 and September 30, 2011.

<u>Income Taxes</u> - The Hospital is exempt from income tax under Section 501(a) as an organization described in Section 501(c) (3) of the Internal Revenue Code, accordingly, the accompanying financial statements do not reflect a provision or liability for federal or State income taxes The Hospital has determined that it does not have any material unrecognized tax benefits or obligations as of December 31, 2012 Fiscal years ending on or after September 30, 2009 remain subject to examination by federal and state tax authorities

Reclassification - Certain amounts in the fiscal year 2011 financial statements have been reclassified to conform to the fiscal year 2012 presentation

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

<u>Use of Estimates</u> - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Hospital to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period Actual results could differ from those estimates

<u>Subsequent Events</u> - Subsequent events have been evaluated through April 11, 2013, which is the date the financial statements were available to be issued

Adoption of New Accounting Guidance - In July 2011, the FASB issued ASU 2011-07, Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities, which requires healthcare entities to reclassify the provision for bad debts from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts) on the statement of operations and changes in net assets when the ultimate collection of the amounts billed or billable cannot be determined at the time patient services are rendered. The Hospital implemented the guidance as of and for the 15-month period ended December 31, 2012. For all periods presented, the provision for bad debts has been reclassified from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts) on the statement of operations and changes in net assets. The adoption of this standard had no net impact on the Hospital's financial position, results of operations, or cash flows

Additionally, the standard requires enhanced disclosure about the policies for recognizing revenue and assessing bad debts as well as both qualitative and quantitative information about significant changes in the allowance for doubtful accounts. See Note 5 for further detail related to the Hospital's policies for recognizing patient service revenue and assessing bad debts.

5 Net Patient Service Revenue and Patient Accounts Receivable

Net patient service revenue and accounts receivable are recorded when patient services are performed and are estimated at net realizable amounts due from third-party payers and patients. For amounts due from third-party payers, net patient service revenue and accounts receivables are recorded based on contractual or regulated discounted reimbursement rates for services rendered. For amounts due from patients, net patient service revenue and accounts receivable are recorded based on current policy.

The use of estimates in determining net patient service revenue for third-party payers is very common for health systems, since, with increasing frequency, even non-cost-based governmental programs have become subject to retrospective adjustments Often such adjustments are not known for a considerable period of time after the related services are rendered. The lengthy period of time between rendering services and reaching final settlement, compounded further by the complexities and ambiguities of governmental reimbursement regulations, makes it difficult to estimate the net patient service revenue associated with these programs. This situation has been compounded by the frequency of changes in federal program guidelines

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payors, and others for services rendered and include estimated retroactive revenue adjustments due to future audits, reviews, and investigations Third-party contractual adjustments are recorded on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as cost report years are no longer subject to such audits, reviews, and investigations

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term

Net patient service revenue decreased approximately \$2,019,000 and \$1,130,000 the 15-month period ended December 31, 2012 and the year ended September 30, 2011, respectively, due to changes in the allowances previously estimated that are no longer necessary as a result of final settlements, and years that are no longer subject to audits, reviews, and investigations

Notes to Financial Statements For the 15-month period ended December 31, 2012 and the Year Ended September 31, 2011

A summary of the payment arrangements with major third-party payors follows

- Medicare Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge or visit These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors Approximately 30% and 32% of the Hospital's net patient service revenue for the 15-month period ended December 31, 2012 and the year ended September 30, 2011, respectively, was derived from Medicare The Hospital's Medicare cost reports have been audited by the Medicare fiscal intermediary through 2009
- Medicaid Inpatient reimbursement is based upon prospectively determined rates per discharge Outpatient services rendered to Medicaid program beneficiaries are reimbursed under various reimbursement methodologies. The Hospital is reimbursed for outpatient services at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the fiscal intermediary. Approximately 14% and 10% of the Hospital's net patient service revenue for the 15-month period ended December 31, 2012 and the year ended September 30, 2011, respectively, was derived from Medicaid. The Hospital's Medicaid cost reports have been audited through 2010. Fiscal years 2005 through 2009 have been reopened for certain issues and are subject to audit regarding those issues.
- Other The Hospital also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations The bases for payments to the Hospital under these agreements include prospectively determined daily rates per discharge, discounts from established charges, and prospectively determined daily rates

For uninsured and underinsured patients that do not qualify for financial assistance (see Note 6 for further detail regarding the Hospital's financial assistance policies), the Hospital recognizes revenue on the basis of its standard rates, discounted according to policy, for services rendered Historical experience has shown a significant proportion of the Hospital's uninsured patients, in addition to a growing proportion of the Hospital's insured patients, will be unable or unwilling to pay for their responsible amounts for the services provided In order to estimate the net realizable value of the revenues and accounts receivables associated with third-party payers and uninsured patients, management regularly analyzes collection history Based on these historical collection analyses, the Hospital records a provision for bad debts and an allowance for uncollectible accounts for third-party and uninsured patient accounts receivable balances for which the patient is responsible

Notes to Financial Statements

For the 15-month period ended December 31, 2012

and

the Year Ended September 31, 2011

Patient accounts receivable is recorded net of allowances for uncollectible accounts of \$80,138,000 and \$68,909,000 at December 31, 2012 and September 30, 2011 respectively The increase was the result of a higher volume of uninsured patient revenues in the 15 month period ended December 31, 2012

Net patient service revenue, net of contractual adjustments and discounts, but before provision for bad debts, recognized in the 15-month period ended December 31, 2012 and the year ended September 30, 2011 is approximately

| | Third-Party Payors | Self-Pay | Total All Payors |
|----------------------------------|-----------------------|---------------|------------------|
| 2012 Net patient service revenue | \$563,579,000 | \$90,151,000 | \$ 653,730,000 |
| 2011 Net patient service revenue | \$396,990,000 | \$ 75,522,000 | \$ 472,512,000 |

The Hospital receives payments for serving a disproportionately high volume of Medicaid patients The Hospital received approximately \$25,018,000 and \$16,667,000 of Medicaid disproportionate share program reimbursement for the 15-month period ended December 31, 2012 and the year ended September 30, 2011, respectively These amounts have been included in net patient service revenue

6 Financial Assistance and Community Benefit

The Hospital, under its financial assistance policies, makes available care without charge or at discounted rates to uninsured patients, including any uninsured patient who experiences catastrophic related illness or injury Key elements used to determine eligibility for financial assistance include a patient's demonstrated inability to pay based on family size and household income relative to federal income poverty guidelines Patients potentially eligible for other governmental programs, such as Medicaid, must pursue those options before receiving financial assistance from the Hospital The Hospital's cost (estimated using applicable cost to charge ratio) of providing financial assistance to indigent patients was \$19,741,000 and \$16,950,000 for the 15-month period ended December 31, 2012 and the year ended September 30, 2011, respectively

Notes to Financial Statements

For the 15-month period ended December 31, 2012

and

the Year Ended September 31, 2011

In addition to providing financial assistance to indigent patients and in furtherance of its mission, the Hospital provides a broad range of benefits and services, including education and research opportunities, to the community spanning the geographic region within which the Hospital operates These community benefits can be measured and categorized as follows

- Cost of care extended to uninsured and underinsured patients who do not qualify for financial assistance, estimated using applicable cost to charge ratios
- Unpaid cost of Medicare and Medicaid services Represents the net unreimbursed cost, estimated using the applicable cost to charge ratios, of services provided to patients who qualify for federal and/or state government healthcare benefits
- Community benefit programs Includes the unreimbursed cost of various medical education programs, and costs of various research programs, non-billed medical services, in-kind donations, and other services that meet a community need, but do not pay for themselves and would not be provided if based solely on financial considerations alone

The total estimated cost of financial assistance and the aforementioned programs and services that benefit the community is as follows for the 15-month period ended December 31, 2012 and the year ended September 30, 2011

| | 2012 | 2011 |
|---|---------------|---------------|
| Cost of financial assistance to indigent patients Cost of care extended to uninsured and underinsured patients who do not quality for | \$ 19,741,000 | \$ 16,950,000 |

Investment Policy and Strategy

The investment policy, as established by the Pension Committee, is to provide for growth of capital with a moderate level of volatility by investing in a balanced portfolio. The expected long-term equity allocation target is 55% equity. The actual asset allocation of the overall plan assets, as well as the performance of the individual managers, is reviewed by the Pension Committee and its independent investment consultant on a quarterly basis

The Plan's long-term rate of return assumption of 7 5% is based on expectations regarding each asset category and average long-term rate of returns for a portfolio allocated across these categories

No Plan assets are expected to be returned to the Hospital in the next 12 months

Insurance Programs

The Hospital is self-insured for employee health care. An estimate for health claims incurred but unpaid at year-end is recorded in accrued payroll and employee benefits on the balance sheets and totaled approximately \$4,957,000 and \$3,400,000 at December 31, 2012 and September 30, 2011, respectively

The Hospital participates in a multiprovider captive for professional and general liability insurance coverage on a claims made basis. Liabilities are joint and several among participating providers. The Hospital's premiums are accrued based on the experience to date of the participating health care providers. The Hospital is insured (claims made policy) for general and professional liability claims with limits of coverage of \$4,000,000 in the general annual aggregate and \$300,000 per person. The Hospital is insured (claims made policy) for common umbrella claims with limits of coverage of \$20,000,000 for any one claim and \$30,000,000 in the annual aggregate.

Malpractice claims have been asserted against the Hospital and other members of the multiprovider captive by various claimants, and additional claims could be asserted for incidents occurring through December 31, 2012 At December 31, 2012, management is aware of no incidents that might lead to significant claims that are not adequately covered by insurance or that would have a material adverse effect on the financial position of the Hospital Accordingly, no provision has been made in the accompanying financial statements for any such claims

Industry Regulation

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, and government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulation by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services billed

Litigation

The Hospital is involved in litigation arising in the normal course of business After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Hospital's future financial position or results of operations

Other

In a prior year, the Hospital made a commitment to provide a guarantee of up to \$8,000,000 of bond indebtedness for the YMCA of Anderson County At December 31, 2012, \$5,420,000 of the bonds were issued and outstanding

On August 20, 2010, the Hospital made a commitment to provide a guarantee of up to 17% of the Equipment Lease of Upstate Linen At September 30, 2012, the total amount of the lease outstanding was approximately \$1,035,000

10 Fair Value Disclosures

The Fair Value Measurement standard defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provision does not require any new fair value measurements, but clarifies and standardizes some divergent practices that have emerged since prior guidance was issued. The provision creates a three-level hierarchy under which individual fair value estimates are to be ranked based on the relative reliability of the inputs used in the valuation.

The provision defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, the Hospital considers the principal or most advantageous market in which those assets or liabilities are sold and considers assumptions that market participants would use when pricing those assets or liabilities. Fair values determined using level 1 inputs rely on active and observable markets to price identical assets or liabilities. In situations where identical assets and liabilities are not traded in active markets, fair values may be determined based on level 2 inputs, which exist when observable data exists for similar assets and liabilities. Fair values for assets and liabilities that are not actively traded in observable markets are based on level 3 inputs, which are considered to be unobservable.

Among the Hospital's assets and liabilities, investment trading securities and an interest rate swap instrument were reported at their fair values on a recurring basis

Prices for government securities, corporate bonds, common stock, and mutual funds are readily available in the active markets in which those securities are traded, and the resulting fair values are shown in the 'Level 1 input' column

Under the terms of the existing interest rate swap instrument, the Hospital pays a fixed payment to the counterparty in exchange for receipt of a variable payment that is determined based on the 1-month LIBOR rate The fair value of the interest rate swap instrument is therefore based on projected LIBOR rates for the duration of the hedge values that, while observable in the market, are subject to adjustment due to pricing considerations for the specific instrument and the resulting fair value is shown in the 'Level 2 input' column
