REPORT OF INDEPENDENT AUDITORS

The Board of Directors BMH, Inc.

Report on Financial Statements

We have audited the accompanying consolidated financial statements of BMH, Inc. (the Organization), which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of BMH, Inc. as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary consolidating information on pages 24 through 26 is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Description of Organization

BMH, Inc. (the Organization) was incorporated as an Idaho nonprofit corporation on June 26, 2006. The Organization operates Bingham Memorial Hospital and Bingham Memorial Skilled Nursing & Rehabilitation Center (Bingham Memorial), a 25-bed acute care hospital and a 70-bed nursing home. Bingham Memorial provides inpatient, outpatient, emergency care, skilled nursing, and physician services for residents of Bingham County and surrounding counties. Bingham Memorial is the majority owner of Pietra, L.C. (Pietra), which provides endoscopy services for residents of Bingham County. Bingham Memorial is also the majority owner in Idaho Pathology Laboratory, LLC (IPL), which provides anatomical pathology for residents of Bingham County. Bingham Memorial fully owns Bingham Land, LLC (Bingham Land), a real estate holding company that is the majority owner of BMH Physicians Clinic, LLC, which owns and leases a medical office building in Blackfoot, Idaho.

On July 1, 2007, the Organization entered into a Hospital Lease and Transfer Agreement (Hospital Lease) with Bingham County, Idaho (Bingham County) to lease Bingham Memorial under a 99-year lease, at \$1 per year, which expires on June 30, 2106. Under the lease agreement, the Organization acquired all assets, liabilities, and operations of Bingham Memorial other than its investment in two subsidiaries, the ownership of which was retained by Bingham County (Note 14). In conjunction with the lease, the Organization entered into a liquid assets transfer agreement with Bingham County, under which the Organization pays an annual amount to Bingham County in consideration of the use of the existing liquid assets (Note 13).

As a not-for-profit organization, the Organization is exempt from federal and state income tax.

Principles of consolidation - The consolidated financial statements include the accounts of Bingham Memorial, Bingham Land, Pietra, and IPL. All intercompany amounts have been eliminated in consolidation.

Note 2 - Summary of Significant Accounting Policies

Cash and cash equivalents - Cash and cash equivalents include investments in highly liquid instruments with original maturities of three months or less, excluding amounts whose use is limited by board designation or by other arrangements under trust agreements. The Organization maintains cash balances at banks. At times, amounts may exceed FDIC insurance limitations.

Short-term investments - Short-term investments consist of certificates of deposit at banks and have original maturities greater than three months but less than one year. Short-term investments are measured at fair value.

Patient accounts receivable - Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the Organization analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Organization analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Organization records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates, if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The Organization's allowance for doubtful accounts was calculated at 78% of self-pay accounts receivable and 3% of third-party accounts receivable at December 31, 2012. There were no significant changes in the allowance for doubtful accounts or the related methodology during the year ended December 31, 2012.

Inventories - Inventories are stated at the lower of cost (first-in, first-out method) or net realizable value. Inventories consist of pharmaceutical, medical-surgical, and other supplies used in the operation of the Organization.

Assets whose use is limited - Assets whose use is limited consist of cash and cash equivalents, interest receivable, note receivable, and investments, including funds designated by the board of directors for capital improvements and deferred compensation, as well as amounts held under bond indenture agreements. Investments include mutual funds and variable annuities.

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value on the consolidated balance sheets. Other assets limited as to use are carried at cost, which approximates fair value. Investment income or loss (including realized gains and losses on investments, unrealized investment losses considered other than temporary, interest, and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are excluded from the excess of revenues over expenses.

Land, buildings, and equipment - Land, buildings, and equipment are stated at cost. Expenditures for maintenance and repairs are charged to operations as incurred; betterments and major renewals are capitalized. When such assets are disposed of, the related costs and accumulated depreciation and amortization are removed from the accounts, and the resulting gain or loss is classified in operating revenues or expenses.

Depreciation and amortization have been computed on the straight-line method over the estimated useful service lives of the assets. Donated items are recorded at fair market value at the date of contribution and are subsequently considered as being on the basis of cost. Depreciation and amortization have been computed on the straight-line method over the following estimated useful service lives:

Land improvements	15 - 20 years
Buildings and improvements	20 - 40 years
Equipment	3 - 20 years

Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Investment income earned or investment losses incurred on borrowed funds during the period of construction of capital assets are recorded as an offset to the costs of acquiring those assets.

Other assets - Other assets consist of deferred financing costs and estimated insurance recoveries. Deferred financing costs are legal, accounting, and underwriting fees, printing costs, and other expenses associated with the issuance of long-term debt. Such costs are amortized on a straight-line basis over the life of the related debt. Unamortized deferred financing costs were \$236,280 and \$250,600 at December 31, 2012 and 2011, respectively.

Leases - The Organization accounts for its lease agreements as capital or operating leases in accordance with the criteria established by generally accepted accounting principles.

Derivative instruments - The Organization has an interest rate swap, which qualifies as a cash flow hedge. The swap expires in January 2020 and fixes the interest rate paid on one of the Key Bank promissory notes at 6.75%. The outstanding balance of this note is \$8,635,882 and the variable rate was 3.25% as of December 31, 2012. The derivative financial instrument is reported at fair market value on the consolidated balance sheets. Changes in the fair market value of the derivative are recorded each period on the consolidated statements of operations and changes in net assets below excess of revenues over expenses. The Organization recorded a gain on the interest rate swap of \$64,121 and a loss of \$753,988 during the years ended December 31, 2012 and 2011, respectively. During the years ended December 31, 2012 and 2011, the derivative resulted in an increase in interest expense of approximately \$306,000 and \$370,000, respectively.

Net assets - The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets - Unrestricted net assets are funds controlled and designated by the board of directors that include the general, operating, and equipment accounts.

Temporarily restricted net assets - Temporarily restricted net assets are assets with donor-imposed restrictions that allow the use of the assets as specified either by the passage of time or by actions of the Organization.

Permanently restricted net assets - Permanently restricted net assets are controlled by law or donor-imposed restrictions stating the resources be maintained permanently.

The Organization had only unrestricted net assets at December 31, 2012 and 2011.

Patient service revenue - The Organization recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients who do not qualify for charity care, the Organization recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). On the basis of historical experience, a significant portion of the Organization's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Organization records a significant provision for bad debts related to uninsured patients in the period the services are provided. Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized in the period from these major payor sources is as follows:

Τ	'hırd-Party			Total
	Payors		Self-Pay	 All Payors
	_		_	
\$	67,607,402	\$	10,993,981	\$ 78,601,383
		Payors	Payors	 Payors Self-Pay

Preliminary settlements under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Reimbursement received from certain third-party payors is subject to audit and retroactive adjustment. A provision for possible adjustment as a result of audits is recorded in the consolidated financial statements. When reimbursement settlements are received, or when information becomes available with respect to reimbursement changes, any variations from amounts previously accrued are accounted for in the period in which the settlements are received or the change in information becomes available.

The following are components of net patient service revenue for the years ended December 31:

	2012	2011
Gross patient service charges	\$ 172,361,051	\$ 163,341,005
Adjustments to patient service charges		
Contractual adjustments	92,997,442	84,035,093
Provision for bad debts	5,220,865	5,416,911
Charity care	762,226	1,151,215
	98,980,533	90,603,219
Net patient service revenue less provision for bad debts	\$ 73,380,518	\$ 72,737,786

Electronic Health Record Incentive Program - The American Recovery and Reinvestment Act of 2009 provided for incentive payments for eligible hospitals that adopt a certified Electronic Health Record (EHR) system and are meaningful users of certified EHR technology. During 2012, the Organization implemented a certified EHR system and demonstrated meaningful use. The earned incentive payments were calculated at \$3,255,029 and were recorded as other receivables and other operating revenue as of and for the year ended December 31, 2012.

Excess of revenues over expenses - The consolidated statements of operations and changes in net assets include excess of revenues over expenses. Changes in unrestricted net assets that are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, gains and losses on the interest rate swap agreement, permanent transfers of assets to and from affiliates for other than goods and services, distributions to and contributions from noncontrolling members, and contributions of long-lived assets (including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets).

Charity care - The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as patient service revenue. The costs the Organization incurred to provide charity care were approximately \$330,184 and \$513,536 for the years ended December 31, 2012 and 2011, respectively. The Organization has estimated these costs by multiplying its ratio of costs to gross charges to the gross uncompensated charges associated with providing charity care.

Federal income tax - The Organization is a not-for-profit corporation and has been recognized as tax exempt pursuant to Section 501(c)(3) of the Internal Revenue Code (IRC). The Organization is exempt from federal income tax under Section 501(c)(3) of the IRC except to the extent of unrelated business taxable income as defined under IRC Sections 511 through 515. Effective January 1, 2009, the Organization adopted accounting for uncertain tax positions. The accounting standard prescribes a recognition threshold and measurement process for uncertain tax positions. The Organization had no uncertain tax positions as of December 31, 2012 or 2011.

Fair value measurements - Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The Organization classified its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value (Note 16). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Subsequent events - Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are available to be issued. The Organization recognizes in the consolidated financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the consolidated financial statements. The Organization's consolidated financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before the consolidated financial statements are available to be issued.

The Organization has evaluated subsequent events through May 30, 2013, which is the date the consolidated financial statements are available to be issued.

Reclassifications - Certain amounts reported in the 2011 consolidated financial statements have been reclassified to conform to the 2012 financial statement presentation.

Note 3 - Third-Party Contractual Agreements

The Organization has agreements with third-party payors that provide for payments to the Organization at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows.

Medicare - Bingham Memorial has critical access hospital status, under which inpatient, swing-bed, and outpatient services are to be reimbursed on a cost-plus basis. Inpatient acute, swing-bed, and outpatient care services rendered to Medicare program beneficiaries are paid on an interim basis at a per diem rate or percentage of billed charges. These interim payments are subject to final settlement upon submission and audit of the cost report to the Medicare fiscal intermediary. Bingham Memorial's Medicare cost reports have been audited by the Medicare fiscal intermediary through December 31, 2010.

Medicaid - Reimbursement for inpatient acute care, outpatient, and nursing home services is based on costs as defined and limited by the Medicaid program. Bingham Memorial's Medicaid cost reports have been audited through December 31, 2009.

Bingham Memorial has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to Bingham Memorial on these agreements includes prospectively determined rates per discharge, discounts from established rates, and other payment methods.

Note 4 - Assets Whose Use is Limited

Assets whose use is limited are stated at fair value at December 31, 2012 and 2011.

Note 9 - Self-Insurance

The Organization has a self-insured unemployment plan for its employees. The plan is the Group Unemployment Compensation Program, which is administered by the Idaho Hospital Association. The Organization pays its share of actual unemployment claims, maintenance of reserves, and administrative expenses. There were no amounts due from the Organization as of December 31, 2012 or 2011.

The Organization self-insures for its health care benefits provided to its employees. Employee medical and dental claims are paid by the Organization through third-party plan administrators. Employees file their claims with the administrators. The administrators pay the claims out and are reimbursed by the Organization. Expenses for self-insured health care benefits coverage totaled \$4,190,041 and \$3,662,548 for the years ended December 31, 2012 and 2011, respectively. The Organization accrued a liability of \$530,000 and \$285,000 at December 31, 2012 and 2011, for estimated claims incurred prior to year-end and filed with the administrators after year-end.

Note 10 - Retirement Plan

The Organization has a defined contribution plan for all eligible employees. This plan includes provisions for discretionary contributions by the Organization. Contribution expense totaled \$292,000 and \$235,000 for the years ended December 31, 2012 and 2011, respectively.

Note 11 - Deferred Compensation Benefits

The Organization has a deferred compensation agreement with certain current employees in accordance with Internal Revenue Section 409A. Under the agreement, the Organization accrues the liability to fund the plan. There was no deferred compensation benefits expense under the plan for the years ended December 31, 2012 and 2011. The accrued liability under the Section 409A plan is \$682,050 at December 31, 2012 and 2011. The Organization also offers a Section 457 nonqualified deferred compensation plan for certain employees.

Note 12 - Concentration of Credit Risk

The Organization grants credit without collateral to its patients, most of whom are local residents and insured under third-party agreements. The majority of these patients are geographically concentrated in and around Bingham County. No single patient comprises more than 5% of the total receivables at year-end. The mix of patient receivables at December 31, 2012 and 2011, is as follows:

	2012	2011
Medicare	39%	21%
Medicaid	11%	7%
Blue Cross	10%	18%
Other third-party payors	35%	44%
Self-pay	5%	10%
	100%	100%

Note 13 - Commitments and Contingencies

Hospital lease - In conjunction with the Hospital Lease and Transfer Agreement, the Organization entered into a liquid assets transfer agreement with Bingham County, under which the Organization pays an annual amount to Bingham County in consideration of the use of the existing liquid assets, which is calculated as \$150,000 per year plus 5% of the excess of revenues over expenses, not to exceed \$150,000 per year. In addition, any indigent funds received by the Organization must be paid to Bingham County. Expenses recorded under the Hospital Lease were \$372,000 for each of the years ended December 31, 2012 and 2011.

Operating leases - The Organization leases certain facilities and equipment under operating lease arrangements expiring at various dates through 2048, including a related-party equipment lease (Note 14). Rental expense under all operating leases for the years ended December 31, 2012 and 2011, was \$1,356,735 and \$1,395,195, respectively.

Future minimum lease payments under noncancelable operating leases for the year ending December 31, 2012, are as follows:

	Hospital	Related Party	<u>Other</u>	Total
2013	\$ 150,000	\$ 198,000	\$ 497,000	\$ 845,000

	\$ 12,525,000	\$ 198,000	\$ 3,547,000	\$ 16,270,000

Note 13 - Commitments and Contingencies (continued)

Compliance with laws and regulations - The health care industry is subject to numerous laws and regulations from federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity with respect to investigations and allegations regarding possible violations of these laws and regulations by health care providers, including those related to medical necessity and coding and billing for services, has increased substantially. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that the Organization is in compliance with the fraud and abuse regulations, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

Risk management - The Organization is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; and natural disasters. Commercial insurance coverage is purchased for claims arising from such matters, and no claims have exceeded such coverage.

The Organization purchases malpractice insurance coverage on a claims-made basis for claims up to \$26,000,000 per claim and \$30,000,000 in aggregate. The Organization does not believe there are any net material uninsured malpractice costs at December 31, 2012 or 2011. The Organization has recorded \$700,000 and \$675,000 of estimated malpractice liabilities as of December 31, 2012 and 2011, respectively.

Note 14 - Related Parties

As stipulated in the Hospital Lease, Bingham County retained ownership of Doctors and Hospital Health System of Idaho, LLC (DHHS) and CMRGO, LLC (CMRGO), of which Bingham County owns 60% and 100%, respectively. In accordance with the Hospital Lease, capital distributions made from these entities to Bingham County are then paid by Bingham County to the Organization. In addition, the Organization will reimburse Bingham County for any capital contributions made by the county to DHHS and CMRGO. Based on these stipulations of the Hospital Lease, the Organization has a beneficial interest in these entities. There were no capital contributions made to these entities during the years ended December 31, 2012 or 2011. There were capital distributions of \$600,000 and \$1,260,000 made by DHHS during the years ended December 31, 2012 and 2011, respectively.

DHHS owns and operates an 8-bed acute care hospital in Blackfoot, Idaho, where it provides spine surgeries and related services to residents and visitors of Blackfoot and the surrounding communities. DHHS also operates a hyperbaric and healing center in Pocatello, Idaho. CMRGO is a real estate holding company that owns the land and building in which DHHS operates.

Note 14 - Related Parties (continued)

The Organization provides contract services to DHHS under a management services contract. The Organization also subleases equipment to DHHS. Amounts recorded under the management services and lease agreements are recorded in other operating revenue and were \$382,000 and \$331,000 for the years ended December 31, 2012 and 2011, respectively.

As of December 31, 2012 and 2011, the Organization had a receivable from DHHS included in other receivables in the amount of \$252,914 and \$126,124, respectively.

The Organization leases equipment from CMRGO. Lease expense for the equipment lease with CMRGO was \$198,000 and \$202,120 for the years ended December 31, 2012 and 2011, respectively. Future minimum payments under this lease have been included in the commitments disclosure (Note 13). As of December 31, 2012 and 2011, the Organization had a receivable from CMRGO included in other receivables related to advances made to CMRGO to cover initial operating expenses in the amount of \$0 and \$64,256, respectively.

Note 15 - Functional Expenses

The Organization provides general health care services to residents within its geographic location. Expenses related to providing these services are as follows:

	2012	2011
Health care services General and administrative	\$ 56,690,160 17,973,835	\$ 54,897,225 18,318,518

Note 16 - Fair Value of Financial Instruments

Under accounting principles, a financial instrument is defined as cash, evidence of an ownership in an entity, or a contract between two entities to deliver cash or another financial instrument or to exchange other instruments. The disclosure requirements exclude leases, affiliate investments, pension and benefit obligations, insurance contracts, and all nonfinancial instruments. The estimated fair value of certain financial instruments is reflected in the accompanying consolidated balance sheets in the following manner. The carrying amount of cash and cash equivalents, accounts payable and accrued expenses, and net payables to contractual agencies approximates the fair value of these instruments. Fair values of investments and assets limited as to use are based on quoted market prices, if available, or estimated using quoted market prices for similar securities. The fair value of long-term debt is estimated using either quoted market prices or discounted cash flows based on borrowing rates currently available to the Organization, and is classified within Level 2 of the hierarchy. The estimated fair value of long-term debt reported on the consolidated balance sheets is approximately \$18,818,000 and \$19,395,000 at December 31, 2012 and 2011, respectively.

Note 16 - Fair Value of Financial Instruments (continued)

The following tables disclose, by level, the fair value hierarchy at December 31 (Note 2):
