This section reflects the impact of positions purchased/sold on a trade date basis, and will include positions purchased and omit positions sold in the current month. Please see the "Unsettled Purchases/Sales Activity" section for more information.
The "Market Value" and "Unrealized Gain/(Loss)" figures shown are representative values as of the last business day of the statement period indicated, which may not reflect the value that could actually be obtained in the market. See "Pricing of Securities" in the Expanded Disclosures. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date.
Estimated annual income and estimated yield for certain securities can include return of principal or capital gains which could overstate such estimates. Estimated yield and estimated annual income are estimates and the actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate.
Structured products appear in various statement product categories and are identified as "Structured Products" in the Security Description column. Estimated accrued interest, estimated annual income and estimated yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) assume specified accrual conditions are met during the relevant observation period and payment in full of all contingent interest. If you hold structured products, please see "Special Considerations Regarding Structured Products" in the Disclosures.
New Treasury regulations require that we report on Form 1099-B after the close of the tax year your adjusted cost basis and classify the gain or loss as either long-term or short-term on the sale of covered securities acquired on or after January 1, 2011. These regulations also require that we make basis adjustments due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. Cost basis is reflected on monthly statements for informational purposes only and should not be used in the preparation of your income tax returns. Please refer to the Expanded Disclosures for additional information.

CASH, DEPOSITS AND MONEY MARKET FUNDS

Cash, Deposits and Money Market Funds are generally displayed on a settlement date basis. However, Global Currency Deposits may include both settled and unsettled positions. Estimated Annual Income, Accrued Interest and APY% will only be displayed for fully settled positions. In the event, all or a portion of a Global Currency Deposit position is unsettled as of month end, this data will not be available.

Money market funds seek to maintain a share price of $1.00, therefore the dollar amounts listed equal the number of shares. Additional information concerning these transactions is available upon request. For more information about the pricing of Money Market Funds, please see the Expanded Disclosures.
The money market funds reflected above include the balances in your automatic sweep feature, if any, and may include other money market funds that have been purchased in your account.
