INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
The Rider-Pool Foundation

Report on the Financial Statements

We have audited the accompanying financial statements of The Rider-Pool Foundation, which comprise the statements of financial position as of December 31, 2012 and 2011, and the related statements of activities and changes in net assets, and cash flows for each of the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to The Rider-Pool Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Rider-Pool Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Rider-Pool Foundation as of December 31, 2012 and 2011, and the changes in its net assets and its cash flows for each of the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE RIDER-POOL FOUNDATION

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF FOUNDATION

The Rider-Pool Foundation (the "Foundation") was established in 1957 as a private, general purpose foundation to benefit the Lehigh Valley. The Foundation's intent is to serve as a means to improve the quality of life, build on community strengths and increase the region's ability to serve the needs of its citizens. The Foundation's funding program is focused on Education, Human Services, Culture and Art, and Community Development. The Foundation derives its revenue solely from investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

[2] Basis of presentation:

The Foundation classifies its financial statements to present three classes of net assets: unrestricted, temporarily restricted and permanently restricted. The Foundation has no temporarily or permanently restricted net assets.

[3] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

[4] Cash and cash equivalents:

For financial statement purposes, the Foundation considers all highly liquid instruments purchased with initial maturities of three months or less to be cash equivalents. Cash and cash equivalents consist of money market accounts held at one major financial institution. The carrying value of cash and cash equivalents approximates fair value.

[5] Investments:

Investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Foundation at year-end. Investments in equities are valued using exchange-quoted market prices.

Alternative investments are included in the financial statements at management's estimated fair value based on amounts provided by the management of the investment partnerships (the "partnerships"). The assets of certain of these partnerships are exchange-traded. Other partnerships' assets are nonmarketable and the partnerships' management values the assets based upon available information. The fair values assigned to these assets do not necessarily represent amounts that might ultimately be realized and the differences may be material. The amount of gain or loss associated with these investments is reflected in the accompanying financial statements.

THE RIDER-POOL FOUNDATION

Notes to Financial Statements December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Investments (continued):

Realized and unrealized investment gains and losses are determined by comparing the average cost to proceeds at the time of disposal or to market value at the date of the statements of financial position. These gains and losses and other investment income are included in the statements of activities and changes in net assets.

The primary investment objective of the Foundation is to maximize long-term return through a combination of income and capital appreciation achieved in a prudent manner. The Foundation establishes its annual charitable distributions in proportion to investment returns and the current economic environment.

[6] Grants payable:

Grants payable are recorded when approved by the Foundation and after recipients have met all required significant conditions. Grants payable beyond one year are discounted to present value using a .05% to 3% rate.

[7] Income taxes:

The Foundation is a not-for-profit corporation, which is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code ("Code"). The Foundation is classified as a private foundation as defined in Sections 509(a) and 4940 of the Code and, as such, is subject to federal excise tax on its net investment income and required to make minimum distributions for its exempt purposes. U.S. GAAP requires entities to evaluate, measure, recognize and disclose any uncertain income tax positions taken on their income tax returns. Management has evaluated the impact of this standard on its financial statements and believes that there are no uncertain tax positions. The Foundation recognizes accrued interest and penalties associated with uncertain tax positions, if any, as part of administrative expenses. There was no income tax related interest and penalties recorded for the years ended December 31, 2012 and 2011. The tax returns of the Foundation for the years ended December 31, 2009, 2010 and 2011 are subject to examination by the Internal Revenue Service and other taxing authorities, generally for three years after they were filed.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 defines fair value, establishes a fair value hierarchy and specifies that a valuation technique used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

THE RIDER-POOL FOUNDATION

Notes to Financial Statements December 31, 2012 and 2011

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

When available, the Foundation used quoted market prices to determine the fair value of investment securities. Such investments are included in Level 1.

When quoted market prices are not readily available or representative of fair value, pricing determinations are made based on the results of valuation models using observable market data such as recently reported trades, bid and offer information and benchmark securities. These investments are included in Level 2 and consist primarily of U.S. Government debt securities and corporate debt securities.

The Foundation's alternative investments are classified within Level 3 because there are currently no active markets for these funds and the Foundation is not able to obtain independent valuations from market sources. Therefore, the alternative investments are primarily valued based on management's estimated fair value based on amounts provided by the management of the investment partnerships. The assets of certain 'of these partnerships are exchanged-traded Other partnerships' assets are nonmarketable and the partnerships' management values the assets based on available information. The fair values assigned to these assets do not necessarily represent amounts that might ultimately be realized and the differences may be material. The total amount of investments measured using Level 3 valuation methodologies represented approximately 5% of total net assets as of December 31, 2012 and 2011

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no significant transfers among Levels 1, 2 and 3 during the years ended December 31, 2012 and 2011.

After the change in unrealized gains of \$27,346, unrealized gains of \$42,876 remain for Level 3 assets still held as of December 31, 2012. Net realized gains and the change in unrealized gains, as shown above, are reflected in realized and unrealized gain (loss) on investments in the accompanying statements of activities and changes in net assets.

NOTE E - GRANTS PAYABLE

Grants authorized but unpaid at year-end are measured at fair value and recorded as a liability. Active grant commitments, to be paid in more than one year, are discounted to present value. All grant commitments at December 31, 2012 are current; therefore, no discount to present value is necessary.

THE RIDER-POOL FOUNDATION

Notes to Financial Statements December 31, 2012 and 2011

NOTE F - RELATED PARTIES

The Foundation is related through common management to the Dorothy Rider Pool Health Care Trust (the "Trust"). The Trust charges the Foundation for certain administrative and program services incurred by the Trust on behalf of the Foundation. The Trust charged the Foundation \$96,176 and \$90,284 for the years ended December 31, 2012 and 2011, respectively.

A Vice President at PNC Institutional Investments serves as an investment advisor and a corporate member of the Board of Trustees of the Foundation. The Foundation holds investments with PNC Institutional Bank. Investment management fees paid to this organization for the years ended December 31, 2012 and 2011 were \$21,861 and \$24,512, respectively.

NOTE G - EXCISE TAX AND DISTRIBUTION REQUIREMENTS

The Foundation is subject to federal excise tax. Federal excise tax is payable at one percent of net investment income if the current year's charitable contributions are greater than the product of (i) the average payout ratio for the past five years and (ii) noncharitable use assets for the year plus one percent of the net investment income in the current year. The Foundation's deferred excise tax liability represents the future tax effect of unrealized net investment gains.

Excise tax expense is comprised of the following for the years ended December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Current year	\$ 6,800	\$ 10,000
Refunded	<u>-</u>	<u>(4,587)</u>
Total	<u>\$ 6,800</u>	<u>\$ 5,413</u>

NOTE H - SUBSEQUENT EVENTS

The Foundation has evaluated subsequent events through May 29, 2013, which is the date the financial statements were available to be issued.

Investments are exposed to various risks, such as interest rate, market risk and credit risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in values of investments will occur in the near term. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Foundation's investments. Accordingly, the valuation of the investments as of December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

As of December 31, 2012, the total value of the investment portfolio, excluding alternative investments, was \$9,840,790. The total value of the investment portfolio, excluding alternative investments, was \$10,418,897 as of April 30, 2013.
