The PNC Foundation Giving Guidelines

MISSION

The PNC Foundation's mission is to form alliances with community-based nonprofit organizations within the markets PNC serves, to enhance educational opportunities for children, particularly underserved pre-K children through our signature, PNC Grow Up Great program, and to promote the growth of targeted communities through economic development initiatives

FUNDING PRIORITIES

The PNC Foundation supports a variety of nonprofit organizations with a special emphasis on those that work to achieve sustainability and touch a diverse population, in particular, those that support **early childhood education** and/or **economic development.**

• EDUCATION

The PNC Foundation supports educational programs for children and youth, particularly early education initiatives that serve low-and moderate-income children (birth through five), their teachers and families. Priority is given to programs that focus in the areas of math, science or the arts and include one or some combination of the following:

- Direct services for children in their classroom or community
- Professional development for teachers
- Family engagement of children being served by grants
- Volunteer opportunities for PNC employees

• ECONOMIC DEVELOPMENT

Economic development organizations, including those which enhance the quality of life through neighborhood revitalization, cultural enrichment and human services are given support. Priority is given to community development initiatives that strategically promote the growth of targeted low-and moderate-income communities and/or provide services to these communities.

Affordable Housing

The PNC Foundation understands the critical need for affordable housing for low-and moderate-income individuals. We are committed to providing support to nonprofit organizations that give counseling and services to help these individuals maintain their housing stock; offer transitional housing units and programs; and/or offer credit counseling assistance to individuals, helping them to prepare for homeownership.

Community Development

Because small businesses are often critical components of community growth and help foster business development, the PNC Foundation provides support to nonprofit organizations that (i) offer technical assistance to, or loan programs for, small businesses located in low-and moderate-income areas or (ii) support small businesses that employ low-and moderate-income individuals.

Community Services

Support is given to social services organizations that benefit the health, education, quality of life or provide essential services for low-and moderate-income individuals and families. The PNC Foundation supports job training programs and organizations that provide essential services for their families. PNC provides support for early learning and educational enrichment programs for children in low-and moderate-income families as well as for the construction of community facilities that benefit low-and moderate income communities.

Revitalization and Stabilization of Low-and Moderate-Income Areas

The PNC Foundation supports nonprofit organizations that serve low-and moderate-income neighborhoods by improving living and working conditions. Support is given to organizations that help stabilize communities, eliminate blight and attract and retain businesses and residents to the community.

PNC FOUNDATION EIN #25-1202255
