Identifier	Return Reference	Explanation
Schedule D, Part X, Line 2		AHIP has applied for and received a determination letter from the Internal Revenue Service (IRS) to be treated as a tax exempt entity pursuant to Section 501(c)(6) of the Internal Revenue Code. AHIP is subject to income taxes on revenue generated from other sources unrelated to its exempt purpose. Due to its tax exempt status, AHIP is not subject to income taxes on revenues that are generated related to its exempt purpose. AHIP is required to file and does file tax returns with the IRS and other taxing authorities. Accordingly, these financial statements reflect provisions for unrelated business income taxes in Note 14. Income tax returns filed by AHIP are subject to examination by the Internal Revenue Service for a period of three years. While no income tax returns are currently being examined by the Internal Revenue Service, tax years since 2009 remain open. AHIP complies with the provisions of Financial Accounting Standards Board (FASB) ASC 740-10, Accounting for Uncertainty in Income Taxes. As of December 31, 2012, no unrecognized tax provision or benefit exists. When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of a tax benefit that is more than 50% likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above would be reflected as a liability for unrecognized tax benefits in the accompanying statement of financial position, along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Management believes there are no positions that would result in additional tax liability.
